(b) Between points in Mississippi, on the one hand, and, on the other, points in Texas on and west of a line beginning at the Texas-Oklahoma State line and extending along U.S. Highway 259 to its junction with U.S. Highway 82, thence along U.S. Highway 82 to its junction with Texas Highway 121, thence along Texas Highway 121 to its junction with Texas Highway 5, thence along Texas Highway 5 to its junction with U.S. Highway 380, thence along U.S. Highway 380 to its junction with Texas Highway 67, thence along Texas Highway 67 to its junction with U.S. Highway 180, thence along U.S. Highway 180 to its junction with Texas Highway 351, thence along Texas Highway 351 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to its junction with U.S. Highway 67, thence along U.S. Highway 67 to its junction with U.S. Highway 385, thence along U.S. Highway 385 to its junction with Texas Highway 118 thence along Texas Highway 118 to the United States-Mexico International Boundary line; (c) between points in Mississippi on and north of a line beginning at the Mississippi-Alabama State line and extending along U.S. Highway 69 to its

junction with U.S. Highway 82, thence along U.S. Highway 82 to its junction with U.S. Highway Alternate 45, thence along U.S. Highway Alternate 45 to its junction with Mississippi Highway 41, thence along Mississippi Highway 41 to its junction with Mississippi Highway 6, thence along Mississippi Highway 6 to its junction with Mississippi Highway 7, thence along Mississippi Highway 7 to its junction with U.S. Highway 78, thence along U.S. Highway 78 to the Mississippi-Tennessee State line, on the one hand, and, on the other, points in Texas on and west of a line beginning at the Texas-Arkansas State line and extending along Texas Highway 8 to its junction with U.S. Highway 67, thence along U.S. Highway 67 to its junction with U.S. Highway 259, thence along U.S. Highway 259 to its junction with Texas Highway 31, thence along Texas Highway 31 to its junction with U.S. Highway 77, thence along U.S. Highway 77 to its junction with U.S. Highway 87, thence along U.S. Highway 87 to the Gulf of Mexico at Port Lavaca.

(d) Between points in Mississippi on and north of a line beginning at the Mississippi-Alabama State line and extending along U.S. Highway 78 to its junction with Mississippi Highway 6, thence along Mississippi Highway 6 to its junction with Mississippi Highway 321, thence along Mississippi Highway 321 to Sherard, thence west along a straight line to the Mississippi-Arkansas State line, on the one hand, and, on the other, points in Texas on and west of a line beginning at Galveston on the Gulf of Mexico and extending along Interstate Highway 45 to its junction with U.S. Highway 290, thence along U.S. Highway 290 to its junction with U.S. Highway 183, thence along U.S. Highway 183 to the Texas-Oklahoma State line; and (e) between points in Mississippi on and east of a line beginning at the Mississippi-Tennessee State line and extending along U.S. Highway 45 to its junction with U.S. Highway 78, thence along U.S. Highway 78 to the Mississippi-Alabama State line, on the one hand, and, on the other, points in Texas on and west of a line beginning at the Texas-Oklahoma State line and extending along U.S. Highway 69 to its junction with U.S. Highway 59, thence along U.S. Highway 59, to its junction with Interstate Highway 45, thence along Interstate Highway 45 to Galveston on the Gulf of Mexico. The purpose of this filing is to eliminate the gateway of points in Oklahoma.

No. MC 115603 (Sub-No. E12), filed May 30, 1974. Applicant: TURNER BROS. TRUCKING CO., INC., P.O. Box 94626, Oklahoma City, Okla. 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, equipment, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof, except the stringing or picking up of pipe in connection with main or trunk pipelines; (2) *machinery, equipment, materials, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way; and (3) *earth drilling machinery and equipment*, and *machinery, equipment, materials, supplies and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites and (d) the injection or removal of commodities into or from holes or wells; between points in New Mexico, on the one hand, and, on the other, points in Missouri. The purpose of this filing is to eliminate the gateways of points in Oklahoma, Kansas, and Texas.

No. MC 115603 (Sub-No. E13), filed May 30, 1974. Applicant: TURNER BROS. TRUCKING CO., INC., P.O. Box 94626, Oklahoma City, Okla. 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, equipment, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipe lines, including the stringing and picking up thereof, except the stringing or picking up of pipe in connection with main or trunk pipe lines; (2) *machinery, equipment, materials, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way; and (3) *earth drilling machinery and equipment*, and *machinery, equipment, materials, supplies, and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells; (a) between points in Nebraska, on the one hand, and, on the other, points in New Mexico on and south of a line beginning at the New Mexico-Oklahoma State line and extending along New Mexico Highway 326 to its junction with New Mexico Highway 370, thence along New Mexico Highway 370 to its junction with New Mexico Highway 120, thence along New Mexico Highway 120 to its junction with Interstate Highway 25, thence along Interstate Highway 25 to its junction with Interstate Highway 40, thence along Interstate Highway 40 to the New Mexico-Arizona State line; and (b) between points in New Mexico, on the one hand, and, on the other, points in Nebraska on and east of a line beginning at the Nebraska-Colorado State line and extending along Nebraska Highway 11 to its junction with U.S. Highway 30, thence along U.S. Highway 30 to its junction with Nebraska Highway 27, thence along Nebraska Highway 27 to its junction at Oshkosh with unnumbered highway, thence along unnumbered highway to Nebraska Highway 250, thence along Nebraska Highway 250 to its junction with Nebraska Highway 87, thence along Nebraska Highway 87 to the Nebraska-South Dakota State line. The purpose of this filing is to eliminate the gateway of points in Oklahoma and Kansas.

No. MC 115603 (Sub-No. E14), filed May 30, 1974. Applicant: TURNER BROS. TRUCKING CO., INC., P.O. Box 94626, Oklahoma City, Okla. 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials, and supplies* used in, or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and machinery, materials, equipment, and supplies used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof (except the stringing or picking up of pipe in connection with main or trunk pipelines): (2) *Machinery, equipment, materials, and supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way; and (3) Earth drilling machinery and equipment, and machinery, equipment, materials, supplies, and pipe incidental to, used in, or

in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities, and (d) the injection or removal of commodities into or from holes or wells, between points in New Mexico, on the one hand, and, on the other, points in South Dakota. The purpose of this filing is to eliminate the gateway of points in Kansas.

No. MC 115603 (Sub-No. E15), filed May 30, 1974. Applicant: TURNER BROS. TRUCKING CO., INC., P.O. Box 94626, Oklahoma City, Okla. 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and machinery materials, equipment and supplies used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipe lines, including the stringing and picking up thereof (except the stringing or picking up of pipe in connection with main or trunk pipelines; (2) *Machinery, equipment, materials, and supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for transmission of natural gas, petroleum, their products, and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way; and (3) Earth drilling machinery and equipment, and machinery, equipment, materials, supplies, and pipe incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells.

(a) Between points in New Mexico, on the one hand, and, on the other, points in North Dakota between a line beginning at the North Dakota-South Dakota State line and extending along North Dakota Highway 8 to its junction with North Dakota Highway 23, thence along North Dakota Highway 23 to its junction with North Dakota Highway 1804, thence along North Dakota Highway 1804 to its junction with U.S. Highway 2, thence along U.S. Highway 2 to its junction with North Dakota Highway 40, thence along North Dakota Highway 40 to its junction with North Dakota Highway 50, thence along North Dakota Highway 50 to its junction with North Dakota Highway 42, thence along North Dakota Highway 42 to the United States-Canada International Boundary line, and, a line beginning at the United States-Canada International Boundary line and extending along North Dakota Highway 30 to Lehr, thence along unnumbered highway to its junction with North Dakota Highway 3, and thence along North Dakota Highway 3 to the North Dakota-South Dakota State line; and (b) between points in North Dakota on and west of a line beginning at the United States-Canada International Boundary line and extending along North Dakota Highway 30 to Lehr, thence along unnumbered highway to North Dakota Highway 3, thence along North Dakota Highway 3 to the North Dakota-South Dakota State line, on the one hand, and, on the other, points in New Mexico on and east of a line beginning at the New Mexico-Colorado State line and extending along U.S. Highway 84 to its junction with New Mexico Highway 17, thence along New Mexico Highway 17 to its junction with New Mexico Highway 537, thence along New Mexico Highway 537 to its junction with New Mexico Highway 44, thence along New Mexico Highway 44 to its junction with New Mexico Highway 509, thence along New Mexico Highway 509 to its junction with New Mexico Highway 53, thence along New Mexico Highway 53 to its junction with Interstate Highway 40, thence west along Interstate Highway 40 to the New Mexico-Arizona State line. The purpose of this filing is to eliminate the gateway of points in Texas.

No. MC 115603 (Sub-No. E16), filed May 30, 1974. Applicant: TURNER BROS. TRUCKING CO., INC., P.O. Box 94626, Oklahoma City, Okla. 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, materials, supplies, and equipment* incidental to, or used in the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum; and (2) *Earth drilling machinery and equipment, and machinery, equipment, materials, supplies, and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells, (a) between points in Colorado on and north of a line beginning at the Colorado-Wyoming State line and extending along Colorado Highway 318 to its junction with U.S. Highway 40, thence along U.S. Highway 40 to its junction with Colorado Highway 9, thence along Colorado Highway 9 to its junction with U.S. Highway 50, thence along U.S. Highway 50 to its junction with unnumbered highway near Vineland, thence south and east along unnumbered highway to its junction with Colorado Highway 389, thence along Colorado Highway 389 to the Colorado-New Mexico State line, on the one hand, and, on the other, points in New Mexico on and east of a line beginning at the New Mexico-Oklahoma State line and extending along New Mexico Highway 18 to its junction with U.S. Highway 54, thence along U.S. Highway 54 to its junction with U.S. Highway 70, thence along U.S. Highway 70 to its junction with New Mexico Highway 11, thence along New Mexico Highway 11 to the United States-Mexico International Boundary line; and (b) between points in Colorado on and east of a line beginning at the Colorado-Nebraska State line and extending along Colorado Highway 113 to its junction with U.S. Highway 138, thence along U.S. Highway 138 to its junction with U.S. Highway 6, thence along U.S. Highway 6 to its junction with Colorado Highway 63, thence along Colorado Highway 63 to its junction with U.S. Highway 34, thence along U.S. Highway 34 to the Colorado-Nebraska State line, on the one hand, and, on the other, points in New Mexico on and south of a line beginning at the New Mexico-Texas State line and extending along Interstate Highway 40 to its junction with Interstate Highway 25, thence along Interstate Highway 25 to its junction with Interstate Highway 10, thence along Interstate Highway 10 to the New Mexico-Texas State line. The purpose of this filing is to eliminate the gateway of points in Oklahoma.

No. MC 115603 (Sub-No. E21), filed May 30, 1974. Applicant: TURNER BROS. TRUCKING CO., INC., P.O. Box 94626, Oklahoma City, Okla. 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, equipment, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance and dismantling of pipe lines, including the stringing and picking up thereof, except the stringing or picking up of pipe in connection with main or trunk pipe lines; (2) *machinery, equipment, materials, and supplies* used in, or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way; and (3) *earth drilling machinery and equipment*, and *machinery, equipment, materials, supplies and*

pipe incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites and (d) the injection or removal of commodities into or from holes or wells; (a) between points in Louisiana, on the one hand, and, on the other, points in Missouri on and west of a line beginning at the Missouri-Iowa State line and extending along Missouri Highway 15 to its junction with U.S. Highway 54, thence along U.S. Highway 54 to its junction U.S. Highway 50, thence along U.S. Highway 50 to its junction with Missouri Highway 5, thence along Missouri Highway 5 to its junction with Missouri Highway 52, thence along Missouri Highway 52 to its junction with the Missouri Highway 13, thence along Missouri Highway 13 to its junction with U.S. Highway 54, thence along U.S. Highway 54 to its junction with Missouri Highway 39, thence along Missouri Highway 39 to the Missouri-Arkansas State line (points in Oklahoma)*.

(b) Between points in Missouri on and north of a line beginning at the Missouri-Illinois State line and extending along U.S. Highway 50 to its junction with Missouri Highway 5, thence along Missouri Highway 5 to its junction with Missouri Highway 52, thence along Missouri Highway 52 to its junction with Missouri Highway 13, thence along Missouri Highway 13 to the Missouri-Kansas State line, on the one hand, and, on the other, points in Louisiana on and west of a line beginning at the Louisiana-Arkansas State line and extending along U.S. Highway 167 to its junction with U.S. Highway 90, thence along U.S. Highway 90 to its junction with U.S. Highway 165, thence along U.S. Highway 165 to its junction with Louisiana Highway 1, thence along Louisiana Highway 1 to its intersection with U.S. Highway 190, thence along U.S. Highway 190 to its intersection with U.S. Highway BUS 61, thence along U.S. Highway BUS 61 to its junction with Interstate Highway 10, thence along Interstate Highway 10 to its junction with Louisiana Highway 1, thence along Louisiana Highway 1 to the Gulf of Mexico (points in Texas)*; and (c) between points in Missouri on and west of a line beginning at Missouri-Illinois State line and extending along U.S. Highway 50 to its junction with U.S. Highway 67, thence along U.S. Highway 67 to the Missouri-Arkansas State line and extending along Louisiana Highway 7 to its junction with U.S. Highway 71, thence along U.S. Highway 71 to its junction with Louisiana Highway 10, thence along Louisiana Highway 10 to its junction with U.S. Highway 167, thence along U.S. Highway 167 to its junction with U.S. Highway 90, thence along U.S. Highway 90 to its junction with Louisiana Highway 1, thence along Louisiana Highway 1 to the Gulf of Mexico (points in Texas)*. The purpose of this filing is to eliminate the gateways marked with asterisks above.

No. MC 115003 (Sub-No. E22), filed May 30, 1974. Applicant: TURNER BROS. TRUCKING CO., INC., P.O. Box 94626, Oklahoma City, Okla. 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials, and supplies* used in, or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, equipment, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance and dismantling of pipelines, including the stringing and picking up thereof, except the stringing or picking up of pipe in connection with main or trunk pipe lines, (2) *machinery, equipment, materials, and supplies* used in, or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipelines rights-of-way; and (3) *earth drilling machinery and equipment*, and *machinery, equipment, materials, supplies and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites and (d) the injection or removal of commodities into or from holes or wells; between points in Louisiana, on the one hand, and, on the other, points in Nebraska. The purpose of this filing is to eliminate the gateways of points in Kansas, Oklahoma and Texas.

No. MC 115003 (Sub-No. E23), filed May 30, 1974. Applicant: TURNER BROS. TRUCKING CO., INC., P.O. Box 94626, Oklahoma City, Okla. 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, equipment, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance and dismantling of pipelines, including the stringing and picking up thereof, except the stringing or picking up of pipe in connection with main or trunk pipelines, (2) *Machinery, equipment, materials, and supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-ways; and (3) *Earth drilling machinery and equipment*, and *machinery, equipment, materials, supplies and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites and (d) the injection or removal of commodities into or from holes or wells, between points in Louisiana, on the one hand, and, on the other, points in South Dakota. The purpose of this filing is to eliminate the gateways of points in Kansas, Oklahoma and Texas.

No. MC 115003 (Sub-No. E24), filed May 30, 1974. Applicant: TURNER BROS. TRUCKING CO., Inc., P.O. Box 94626, Oklahoma, City, Okla. 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, equipment, and supplies*, used in, or in connection with, the construction, operation, repair, servicing, *maintenance* and dismantling of pipe lines, including the stringing and picking up thereof except the *stringing* or picking up of pipe in connection with *main* or trunk pipe lines; (2) *Machinery, equipment, materials, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipelines rights-or-way; and (3) *Earth drilling machinery and equipment*, and *machinery, equipment, materials, supplies and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites and (d) the injection or removal of commodities into or from holes or wells, between points in Louisiana, on the one hand, and, on the other, points in North Dakota on and west of a line

beginning at the United States-Canada International Boundary line and extending along North Dakota Highway 30 to Lehr, thence along unnumbered highway to Ashley, and thence along North Dakota Highway 3 to the North Dakota-South Dakota State line. The purpose of this filing is to eliminate the gateway of points in Texas.

No. MC 115603 (Sub-No. E25), filed May 30, 1974. Applicant: TURNER BROTHERS TRUCKING CO., INC., P.O. Box 94626, Oklahoma City, Oklahoma 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, materials, supplies*, and equipment incidental to, or used in the construction, development, operation and maintenance of facilities for the discovery, development and production of natural gas and petroleum; and (2) *Earth drilling machinery and equipment, and machinery, equipment materials, supplies and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites and (d) the injection or removal of commodities into or from holes or wells; between points in Louisiana, on the one hand, and, on the other, points in Colorado. The purpose of this filing is to eliminate the gateway of points in Oklahoma.

No. MC 115603 (Sub-No. E26), filed May 30, 1974. Applicant: TURNER BROS. TRUCKING CO., INC., P.O. Box 94626, Oklahoma City, Oklahoma 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, materials, supplies*, and *equipment*, incidental to, or used in the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum; and (2) *Earth Drilling machinery* and *equipment*, and *machinery, equipment, materials, supplies* and *pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites and (d) the injection or removal of commodities into or from holes or wells, between points in Louisiana, on the one hand, and, on the other, points in Wyoming. The purpose of this filing is to eliminate the gateways of points in Oklahoma.

No. MC 115603 (Sub-No. E27), filed May 30, 1974. Applicant: TURNER BROS. TRUCKING CO., INC., P.O. Box 94626, Oklahoma City, Oklahoma 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: machinery, equipment, materials, and supplies used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by products, and machinery, materials, equipment, and supplies used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipe lines, including the stringing and picking up thereof; (1) between points in Louisiana, on the one hand, and, on the other, points in Arkansas on and west of a line beginning at the Arkansas-Missouri State line and extending along Arkansas Highway 221 to its junction with Arkansas Highway 21, thence along Arkansas Highway 21 to its junction with unnumbered highway 1 mile south of Boxley, thence along unnumbered highway to its junction with Arkansas Highway 16, thence along Arkansas Highway 16 to its junction with Arkansas Highway 21, thence along Arkansas Highway 21 to its junction with unnumbered highway 2 miles south of Salus, thence along unnumbered highway to its junction with Arkansas Highway 23, thence along Arkansas Highway 23 to its junction with U.S. Highway 71, thence along U.S. Highway 71 to its junction with Arkansas Highway 41, thence along Arkansas Highway 41 to its junction with Arkansas Highway 108, thence along Arkansas Highway 108 to the Arkansas-Oklahoma State line; and (2) between points in Louisiana on and south of a line beginning at the Louisiana-Texas State line and extending along Interstate Highway 10 to the Louisiana-Mississippi State line, on the one hand, and, on the other, points in Arkansas on and west of a line beginning at Arkansas-Missouri State line and extending along Arkansas Highway 201 to its junction with U.S. Highway 62, thence along U.S. Highway 62 to its junction with Arkansas Highway 14, thence along Arkansas Highway 14 to its junction with Arkansas Highway 27, thence along Arkansas Highway 27 to its junction with Arkansas Highway 7, thence along Arkansas Highway 7 to its junction with U.S. Highway 70, thence along U.S. Highway 70 to its junction with U.S. Highway 71, thence along U.S. Highway 71 to its junction with Arkansas Highway 32, thence along Arkansas Highway 32 to its junction with Arkansas Highway 41, thence along Arkansas Highway 41 to the Arkansas-Texas State line. The purpose of this filing is to eliminate the gateway of points in Oklahoma.

No. MC 115603 (Sub-No. E28), filed May 30, 1974. Applicant: TURNER BROTHERS TRUCKING CO., INC., P.O. Box 94626, Oklahoma City, Oklahoma 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials*, and *supplies*, used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products, and by-products, and *machinery, materials, equipment*, and *supplies*, used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof; (a) between points in Illinois, on the one hand, and, on the other, points in Arkansas on and west of a line beginning at the Arkansas-Louisiana State line and extending along U.S. Highway 7, to its junction with U.S. Highway 67, thence along U.S. Highway 67 to its junction with Arkansas Highway 355, thence along Arkansas Highway 355 to its junction with Arkansas Highway 27, thence along Arkansas Highway 27 to its junction with Arkansas Highway 19, thence along a straight line to its junction with Arkansas Highway 27 at Norman, thence along Arkansas Highway 27 to its junction with U.S. Highway 270, thence along U.S. Highway 270 to its junction with U.S. Highway 71, thence along Arkansas Highway 71 to its junction with Arkansas Highway 28, thence along Arkansas Highway 28 to Harvey, thence along a straight line to its junction with Arkansas Highway 309 at Paris, thence along Arkansas Highway 309 to its junction with Arkansas Highway 23, thence along Arkansas Highway 23 to its junction with Arkansas Highway 215, thence along Arkansas Highway 215 to its junction with unnumbered highway to its junction with U.S. Highway 71, thence along U.S. Highway 71 to its junction with unnumbered highway near West Fork, thence along unnumbered highway to its junction with Arkansas Highway 68, thence along Arkansas Highway 68 to its junction with Arkansas Highway 59, thence along Arkansas Highway 59 to the Arkansas-Missouri State line; and

(b) between points in Arkansas on and west of a line beginning at the Arkansas Louisiana State line and extending along U.S. Highway 167 to its junction with Arkansas Highway 8, thence along Arkansas Highway 8 to its junction with Arkansas Highway 9, thence along Arkansas Highway 9 to its junction with U.S. Highway 270, thence along U.S. Highway 270 to its junction with Arkansas Highway 7, thence along Arkansas Highway 7, to its junction with Arkansas Highway 16, thence along Arkansas Highway 16 to its junction with Arkansas Highway 59, thence along Arkansas Highway 59 to the Arkansas-Missouri State line, on the one hand, and, on the other, points in Illinois on and north of a line beginning at the Illinois-Indiana State line and extending along U.S. Highway 24 to its junction with U.S. Highway 45, thence along U.S. Highway 45 to its junction with Illinois Highway

54, thence along Illinois Highway 54 to its junction with U.S. Highway 136, thence along U.S. Highway 136 to its junction with Illinois Highway 10, thence along Illinois Highway 10 to its junction with unnumbered highway near Easton, thence along unnumbered highway to its junction with Illinois Highway 100, thence along Illinois Highway 100 to its junction with U.S. Highway 36, thence along U.S. Highway 36 to its junction with U.S. Highway 54, thence along U.S. Highway 54 to the Illinois-Missouri State line. The purpose of this filing is to eliminate the gateway of points in Oklahoma.

No. MC 115603 (Sub-No. E29), filed May 30, 1974. Applicant: TURNER BROTHERS TRUCKING CO., INC., P.O. Box 94626, Oklahoma City, Oklahoma 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials, and supplies*, used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, equipment, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance and dismantling of pipe lines, including the stringing and picking up thereof, except the stringing or picking up of pipe in connection with main or trunk pipe lines; (2) *Machinery, equipment, materials*, and *supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way; and

(3) *Earth drilling machinery and equipment*, and *machinery, equipment, materials*, supplies and pipe incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells; between points in Illinois on and west of a line beginning at the Illinois-Wisconsin State line and extending along U.S. Highway 51 to its junction with U.S. Highway 20, thence along U.S. Highway 20 to its junction with Illinois Highway 78, thence along Illinois 78 to its junction with U.S. Highway 34, thence along U.S. Highway 34 to its junction with U.S. Highway 67, thence along U.S. Highway 67 to its junction with U.S. Highway 24, thence along U.S. Highway 24 to its junction with Illinois Highway 107, thence along Illinois Highway 107 to its junction with U.S. Highway 36, thence along U.S. Highway 36 to its junction with U.S. Highway 54, thence along U.S. Highway 54 to the Illinois-Missouri State line, on the one hand, and, on the other, points in Mississippi on and west of a line beginning at the Louisiana-Mississippi State line and extending along U.S. Highway 84, to its junction with U.S. Highway 61, thence along U.S. Highway 61 to Woodville, thence along unnumbered Mississippi highway thru Turnbull to the Mississippi-Louisiana State line. The purpose of this filing is to eliminate the gateway of points in Oklahoma.

No. MC 115603 (Sub-No. E35), filed May 30, 1974. Applicant: TURNER BROS. TRUCKING CO., INC., P.O. Box 94626, Oklahoma City, Okla. 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, equipment*, and supplies used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipe lines, including the stringing and picking up thereof, between points in South Dakota, on the one hand, and, on the other, points in Arkansas. The purpose of this filing is to eliminate the gateway of points in Oklahoma.

No. MC 115603 (Sub-No. E37), filed May 30, 1974. Applicant: TURNER BROS. TRUCKING CO., INC., P.O. Box 94626, Oklahoma City, Okla. 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, materials, supplies, and equipment* incidental to, or used in the construction, development, operation, and maintenance of facilities for the discovery, development, and production of natural gas and petroleum; and (2) *Earth drilling machinery and equipment*, and *machinery, equipment, materials, supplies and pipe* incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission or commodities resulting from drilling operations at well or hole sites and (d) the injection or removal of commodities into or from holes or wells, between points in Rock County, Colo., on the one hand, and, on the other, points in North Dakota on and west of a line beginning at the United States-Canada International Boundary line and extending along North Dakota Highway 30 to Lehr, thence along unnumbered highway to Ashley, thence along North Dakota Highway 3 to the North Dakota-South Dakota State line. The purpose of this filing is to eliminate the gateway of points in Texas and Oklahoma.

No. MC 115603 (Sub-No. E40), filed May 30, 1974. Applicant: TURNER BROS. TRUCKING CO., INC., P.O. Box 94626, Oklahoma City, Okla. 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, equipment*, and *supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof, between points in Colorado, on the one hand, and, on the other, points in Arkansas. The purpose of this filing is to eliminate the gateway of points in Oklahoma.

No. MC 115841 (Sub-No. E8) (Correction), filed June 3, 1974, published in the FEDERAL REGISTER November 13, 1974. Applicant: COLONIAL REFRIGERATED TRANSPORTATION, INC., P.O. Box 10327, Birmingham, Ala. 35202. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: (1) *Meats, meat products*, and *meat by-products, dairy products*, and *articles distributed by meat packinghouses*, as described in sections A, B, and C of Appendix I to the report of *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766, when such commodities are foodstuffs, in vehicles equipped with mechanical refrigeration (except commodities in bulk), from points in that part of New York, N.Y., Commercial Zone, as defined by the Fifth Supplemental Report in Commercial Zones and Terminal Areas, 53 M.C.C. 451, within which local operations may be conducted under the exemption provided in section 203 (b)(8) of the Interstate Commerce Act, to points in Alabama, Kentucky, Louisiana, Mississippi, Tennessee, and Virginia (*Springfield, N.J.), California, Oregon, and Washington (*Springfield, N.J., and Birmingham, Ala.), and Arkansas and points in Georgia on and west of Interstate Highway 75 (*Springfield, N.J., and Chattanooga, Tenn.); and (2) *meats* (except canned meats), and *dairy products*, in vehicles equipped with mechanical refrigeration, restricted against the transportation of said commodities when frozen, from the points in the origin territory described in (1) above to points in Oklahoma (*Springfield, N.J., and Birmingham, Ala.). The purpose of this filing is to eliminate the

gateways indicated by the asterisks. The purpose of this correction is to include the commodities of (2) above.

No. MC 119988 (Sub-No. E30), filed June 30, 1974. Applicant: GREAT WESTERN TRUCKING CO., INC., P.O. Box 1384, Lufkin, Texas 75901. Applicant's representative: Joe E. Kinard, 201 W. Commerce Street, Dallas, Texas 75208. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Printed advertising matter*, and (2) *Newspaper supplements*, otherwise exempt from economic regulation under section 203(b)(7) of the Act when transported in mixed loads with printed advertising matter, from the facilities of the Oklahoma Publishing Co., Web Offset Division, at or near Oklahoma City, Oklahoma to points in Pennsylvania (except points in Bucks, Delaware, Montgomery and Philadelphia Counties). The purpose of this filing is to eliminate the gateway of Independence, Kansas.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary*.

[29 CFR Parts 579, 580]

CIVIL MONEY PENALTIES FOR CHILD LABOR VIOLATIONS

Assessment, Notice, Collection, and Administrative Proceedings

The Fair Labor Standards Amendments of 1974 (P.L. 93-259, 88 Stat. 55) amended section 16 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1069, 29 U.S.C. 216) to provide for the imposition of civil money penalties for violations of the child labor provisions of the Act and the regulations issued thereunder. To implement this amendment, it is proposed to amend Chapter V of Title 29 of the Code of Federal Regulations by adding thereto new Parts 579 and 580 as set forth below.

The proposed new Part 579 describes the violations for which civil money penalties may be imposed, establishes rules for the issuance of notices of penalty assessments, delineates the factors to be considered by the Secretary of Labor or the Secretary's authorized representative in assessing the amount of the penalty, provides for the filing of exceptions to the notice of penalty, and outlines the methods provided by the Act for collection of civil money penalties after their final determination.

The proposed new Part 580 sets forth the rules of practice governing administrative proceedings to be conducted when exceptions to notices of penalty are filed. These proceedings, as required by the Act, afford an opportunity for hearing in accordance with section 554 of Title 5, United States Code, before an administrative law judge. Provision is also made for final decision by an impartial appellate officer when exceptions are taken to the decision of the judge.

Interested persons may submit written data, views, or arguments concerning this proposal to the Administrator, Wage and Hour Division, Employment Standards Administration, United States Department of Labor, Washington, D.C. 20210, on or before February 10, 1975.

The new Parts 579 and 580 read as follows:

PART 579—CHILD LABOR VIOLATIONS—CIVIL MONEY PENALTIES

Sec.

579.1 Purpose and scope.
579.2 Definitions.
579.3 Violations for which penalty may be imposed.
579.4 Civil money penalties—notice; finality.
579.5 Assessing the penalty.
579.6 Exception to notice of penalty.
579.7 Administrative proceedings.
579.8 Collection and recovery of penalty.

AUTHORITY: Secs. 3, 11, 12, 16, 52 Stat. 1060, as amended, 1066, as amended, 1067 as amended, 1069 as amended; 29 U.S.C. 203, 211, 212, 216; Reorg. Plan No. 6 of 1950, 64 Stat. 1263, 5 U.S.C. App.; secs. 25, 29, 88 Stat. 72, 76; Secretary of Labor's Order No. 1971, 36 FR 8755; Employment Standards Order No. 174, 39 FR 23841.

§ 579.1 Purpose and scope.

(a) Section 16(e), added to the Fair labor Standards Act of 1938, as amended, by the Fair Labor Standards Amendments of 1974, provides that:

> Any person who violates the provisions of section 12, relating to child labor, or any regulation issued under that section, shall be subject to a civil penalty of not to exceed $1,000 for each such violation. In determining the amount of such penalty, the appropriateness of such penalty to the size of the business of the person charged and the gravity of the violation shall be considered. The amount of such penalty, when finally determined, may be—
>
> (1) deducted from any sums owing by the United States to the person charged;
>
> (2) recovered in a civil action brought by the Secretary in any court of competent jurisdiction, in which litigation the Secretary shall be represented by the Solicitor of Labor; or
>
> (3) ordered by the court, in an action brought for a violation of section 15(a)(4), to be paid to the Secretary.
>
> Any administrative determination by the Secretary of the amount of such penalty shall be final, unless within fifteen days after receipt of notice thereof by certified mail the person charged with the violation takes exception to the determination that the violations for which the penalty is imposed occurred, in which event final determination of the penalty shall be made in an administrative proceeding after opportunity for hearing in accordance with section 554 of Title 5, United States Code, and regulations to be promulgated by the Secretary. Sums collected as penalties pursuant to this section shall be applied toward reimbursement of the costs of determining the violations and assessing and collecting such penalties, in accordance with the provisions of section 2 of an Act entitled "An Act to authorize the Department of Labor to make special statistical studies upon payment of the cost thereof, and for other purposes" [29 U.S.C. 9a].

(b) This part provides for the issuance of the notice of civil penalty for any violation of section 12 of the Act relating to child labor or any regulation issued under that section; describes the violations for which a penalty may be imposed and the factors to be considered by the Secretary of Labor or the Secretary's designated representative in assessing the amount of such a penalty; outlines the procedure for an exception to the determination that the violations occurred which may be filed by the person so charged; and summarizes the methods provided for collection and recovery of the penalty.

§ 579.2 Definitions.

As used in this part and Part 580 of this chapter—

"Act" means the Fair Labor Standards Act of 1938, as amended (52 Stat. 1060, as amended; 29 U.S.C. 201, et seq.);

"Administrative law judge" means a person appointed as provided in 5 U.S.C. 3105 and Subpart B of Part 930 of Title 5 of the Code of Federal Regulations, and qualified to preside at hearings under 5 U.S.C. 554–557.

"Administrator" means the Administrator of the Wage and Hour Division, Employment Standards Administration, United States Department of Labor, and includes an authorized representative designated by the Administrator to perform any of the functions of the Administrator under this part and Part 780 of this chapter.

"Agency" has the meaning given it by 5 U.S.C. 551.

"Appellate officer" means the impartial representative of the Secretary of Labor designated by authority of the Secretary to make final decisions on behalf of the Secretary in administrative proceedings conducted pursuant to Part 780 of this chapter in those cases in which exceptions are filed to a decision of an administrative law judge.

"Chief Administrative Law Judge" means the Chief Administrative Law Judge, Office of Administrative Law Judges, U.S. Department of Labor, Washington, D.C. 20210.

"Department" means the United States Department of Labor.

"Person" includes any individual, partnership, corporation, association, business trust, legal representative, or organized group of persons.

"Secretary" means the Secretary of Labor, United States Department of Labor, or an authorized representative of the Secretary.

"Solicitor of Labor" means the Solicitor, United States Department of Labor, and includes attorneys designated by the Solicitor to perform functions of the Solicitor under this part and Part 780 of this chapter.

§ 579.3 Violations for which penalty may be imposed.

(a) *What constitutes the violation.* Each of the following constitutes a violation of the Act and/or the Secretary's regulations for which a penalty as provided by section 16(e) of the Act and this part may be imposed, unless employment of the minor or minors referred to is shown to come within a specific exemption or exception described in paragraph (c) of this section:

(1) Each shipment or delivery for shipment in commerce by a producer, manufacturer, or dealer of any goods produced in an establishment situated in the United States in or about which, within thirty days prior to the removal of such goods therefrom, there has been employed any minor as described in paragraph (b) of this section

(2) Each employment by an employer of any minor as described in paragraph (b) of this section, for any period in commerce or in the production of goods for commerce or in any enterprise engaged in commerce or in the production of goods for commerce;

(3) The failure by an employer employing any minor described in 29 CFR 570.22 to obtain from such minor proof of age as required by the regulations in such section;

(4) The failure by an employer employing any minor described in 29 CFR

570.22 to maintain and preserve in employment records, as required by such section, evidence of the proof of age obtained from such minor;

(5) The failure by an employer employing any minor for whom records must be kept under any provision of 29 CFR Part 516 or of 29 CFR Part 545 to maintain and preserve, as required by such provision, such records concerning the date of the minor's birth and concerning the proof of the minor's age as are specified therein; and

(6) The failure by an employer employing any minor subject to any provision of 29 CFR Part 570, to take or cause to be taken such action as is necessary to assure compliance with all requirements of such provision which, by the regulations in such part, are made conditions for lawful employment of such minor.

(b) *Minors whose employment may result in violation.* The violations described in paragraph (a) may result from employment of any of the following minors as described:

(1) Any minor under the age of 18 years in any occupation (other than in agriculture) in which employment, as set forth in Subpart E of Part 570 of this chapter, has been found and declared by the Secretary to be particularly hazardous for or detrimental to the health or well-being of minors below such age;

(2) Any minor under the age of 16 years—

(i) In agriculture during school hours for the school district where such minor is living while so employed; or

(ii) In agriculture in any occupation found and declared by the Secretary as set forth in Subpart E–1 of Part 570 of this chapter, to be particularly hazardous for the employment of minors below such age; or

(iii) In any manufacturing or mining occupation; or

(iv) In any other occupation other than in agriculture unless it is established that such minor is at least 14 years of age and the employment of such minor in such occupation is specifically permitted by and in accord with regulations of the Secretary as set forth in Subpart C of Part 570 of this chapter;

(3) Any minor under the age of 14 years—

(i) In any occupation other than in agriculture; or

(ii) In agriculture, outside of school hours for the school district where such minor is living while so employed, unless it is established either—

(A) That such minor is not less than 12 years of age *and* either (*1*) that such employment is with the written consent of a parent or person standing in place of a parent of such minor, *or* (2) that such employment is on the same farm where such parent or person is also employed; or

(B) That such minor, if less than 12 years of age, is employed as described in paragraph (b)(4)(i) or (b)(4)(ii) of this section; and

(4) Any minor under the age of 12 years, unless it is established that such minor is employed in agriculture outside of school hours for the school district where such minor is living while so employed, and—

(*1*) Is employed by a parent or by a person standing in place of a parent of such minor, on a farm owned or operated by such parent or person; or

(ii) Is employed with the written consent of a parent or person standing in place of a parent of such minor, on a farm where, because of the provisions of section 13(a)(5) of the Act, none of the employees are required to be paid at the wage rate prescribed by section 6(a)(5) of the Act.

(c) *Exemptions and exceptions.* Conduct which otherwise might constitute a violation of the Act as described in paragraphs (a) (b) of this section may be shown to be not violative of the child labor provisions by evidence that a specific exemption or exception provided in the Act makes such conduct permissible. Thus, the Act provides:

(1) That none of the child labor provisions of section 12 shall apply to (i) any child employed as an actor or performer in motion pictures or theatrical productions, or in radio or television productions; (ii) any employee engaged in the delivery of newspapers to the consumer; (iii) any homeworker engaged in the making of wreaths composed principally of natural holly, pine, cedar, or other evergreens (including the harvesting of the evergreens or other forest products used in making such wreaths); or (iv) any employee whose services during the workweek are performed in a workplace within a foreign country or within territory under the jurisdiction of the United States other than the States, territories, and possessions listed in section 13(f) of the Act (see Act, sections 13(c)(3), 13(d), 13(f));

(2) That, with respect to the violations described in paragraph (a)(1) of this section, any such shipment or delivery for shipment of such goods by a purchaser who acquired them in good faith in reliance on written assurance from the producer, manufacturer, or dealer that the goods were produced in compliance with the requirements of section 12 of the Act, and who acquired such goods for value without notice of any such violation, shall not be deemed prohibited (see Act, section 12(a) and 29 CFR Part 789);

(3) That, with respect to violations described in paragraph (a)(2) of this section resulting from employment of minors as described in paragraph (b)(2)(iv), a parent or person standing in place of a parent may lawfully employ his or her own child or a child in his or her custody under the age of 16 years in an occupation *other than* (i) manufacturing or (ii) mining or (iii) an occupation found and declared by the Secretary of Labor to be particularly hazardous for the employment of children between the ages of 16 and 18 years or detrimental to their health or well-being, and an employer may lawfully employ a young worker between 14 and 16 years of age in an occupation permitted and under conditions prescribed by 29 CFR Part 570, Subpart C;

(4) That, with respect to violations described in paragraph (a)(2) of this section resulting from employment of minors in agriculture as described in paragraph (b)(2)(ii), a parent or person standing in place of a parent may lawfully employ on a farm owned or operated by such parent or person, his or her own child or a child in his or her custody under the age of 16 years in an occupation in agriculture found and declared by the Secretary of Labor to be particularly hazardous for the employment of children below such age;

(5) That, with respect to violations described in paragraph (a)(2) of this section resulting from employment of minors in agriculture as described in paragraph (b)(2)(ii), employment of minors 12 or 13 years of age is lawful under the conditions prescribed in paragraph (b)(3)(i)(A) of this section and employment of minors under 12 years of age is lawful under the conditions prescribed in paragraph (b)(3)(i)(B) of this section; and

(6) That, with respect to violations described in paragraph (a)(2) of this section resulting from employment of minors in agriculture as described in paragraph (b)(4), employment of minors under 12 years of age is lawful under the conditions prescribed in paragraph (b)(4)(i) or (ii) of this section.

§ 579.4 Civil money penalties—notice; finality.

(a) In any instance when the Secretary finds, upon evidence resulting from an investigation pursuant to the provisions of section 11 of the Act, that there has been a violation by any person of section 12 of the Act relating to child labor or of any regulation issued under that section, and that imposition of a civil money penalty for such violation pursuant to section 16(e) of the Act is appropriate, the Secretary shall assess such penalty in accordance with the provisions of § 579.5 and shall issue and transmit to such person by certified mail a notice of penalty describing each such violation and stating the amount of the penalty assessed therefor. Information shall be included with the notice of penalty concerning the right of the person so charged to file an exception thereto and the procedure to be followed.

(b) If the person charged with violation does not, within 15 days after receipt of the notice, take exception to the determination that the violation or violations for which the penalty is imposed occurred, the administrative determination by the Secretary of the amount of such penalty shall be deemed final, and collection and recovery of the penalty shall be instituted pursuant to § 579.8 of this part.

(c) If the person charged with the violation files, within 15 days after receipt of the notice, an exception to the

determination that the violation or violations for which the penalty is imposed occurred, the final determination of the penalty shall be made in an administrative proceeding after opportunity for hearing in accordance with section 554 of Title 5, United States Code, and regulations of the Secretary in Part 580 of this chapter.

§ 579.5 Assessing the penalty.

(a) The administrative determination of the amount of the civil penalty, of not to exceed $1,000 for each violation of section 12 of the Act relating to child labor or of any regulation issued under that section shall be based on the available evidence of the violation or violations and shall take into consideration the size of the business of the person charged and the gravity of the violation as provided in paragraphs (b) through (d) of this section.

(b) In determining the amount of such penalty there shall be considered the appropriateness of such penalty to the size of the business of the person charged with the violation or violations, taking into account the number of employees employed by that person (and if the employment is in agriculture, the man-days of hired farm labor used in pertinent calendar quarters), dollar volume of sales or business done, amount of capital investment and financial resources, and such other information as may be available relative to the size of the business of such person.

(c) In determining the amount of such penalty there shall be considered the appropriateness of such penalty to the gravity of the violation or violations, taking into account, among other things, any history of prior violations; any evidence of willfulness or failure to take reasonable precautions to avoid violations; the number of minors illegally employed; the age of the minors so employed and records of the required proof of age; the occupations in which the minors were so employed; exposure of such minors to hazards and any resultant injury to such minors; the duration of such illegal employment; and, as appropriate, the hours of the day in which it occurred and whether such employment was during or outside school hours.

(d) Based on all the evidence available, including the investigation history of the person so charged and the degree of willfulness involved in the violation, it shall further be determined, where appropriate,

(1) Whether the evidence shows that the violation is "de minimis" and that the person so charged has given credible assurance of future compliance, and whether a civil penalty in the circumstances is necessary to achieve the objectives of the Act; or

(2) Whether the evidence shows that the person so charged had no previous history of child labor violations, that the violations themselves involved no intentional or heedless exposure of any minor to any obvious hazard or detriment to health or well-being and were inadvertent, and that the person so charged has given credible assurance of future compliance, and whether a civil penalty in the circumstances is necessary to achieve the objectives of the Act.

(e) An administrative determination of the amount of the civil money penalty for a particular violation or particular violations of section 12 relating to child labor or any regulation issued under that section shall become final 15 days after receipt of the notice of penalty by certified mail by the person so charged unless such person has, pursuant to § 579.6, filed with the Secretary an exception to the determination that the violation or violations for which the penalty is imposed occurred.

(f) A determination of the penalty made in an administrative proceeding after opportunity for hearing as provided in section 16(e) of the Act and pursuant to Part 580 of this chapter shall be final.

§ 579.6 Exception to notice of penalty.

(a) An exception to the determination that the child labor violation or violations, for which the penalty is imposed, occurred may be filed within 15 days after receipt of the notice of penalty by the person so charged.

(b) An exception to such determination shall be filed with the Administrator, Wage and Hour Division, Employment Standards Administration, U.S. Department of Labor, Washington, D.C. 20210.

(c) No particular form is prescribed for the exception to the notice of penalty. However, the exception shall be typewritten, shall be directed to the issue of the occurrence of the alleged violations, and shall state the reasons why the person charged contends that the determination regarding their occurrence is in error. The exception shall be signed by the person so charged or by such person's attorney or other authorized representative.

(d) In computing the 15 days allowed for filing exception to the determination that the violation or violations occurred, Saturdays, Sundays, and holidays shall be included, but when such time expires on such a day, such period shall be extended to include the next following day which is not such a day.

§ 579.7 Administrative proceedings.

Upon receipt of an exception to a notice of penalty under this part the Administrator shall refer the matter to the Chief Administrative Law Judge who shall assign the matter to an administrative law judge for hearing and final determination of the penalty. The rules of practice for such administrative proceedings are set forth in Part 580 of this chapter.

§ 579.8 Collection and recovery of penalty.

(a) When the determination of the amount of any civil money penalty provided for in this part becomes final under § 579.4(b) in accordance with the administrative assessment thereof, or under § 579.4(c) pursuant to the decision and order of an administrative law judge or the appellate officer in an administrative proceeding as provided in Part 580 of this chapter, the amount of the penalty as thus determined is immediately due and payable to the United States Department of Labor. The person against whom such penalty has been assessed or imposed shall promptly remit the amount thereof, as finally determined, to the Secretary by certified check or by money order, made payable to the order of "Wage and Hour Division, Labor." Such remittance may be delivered or mailed to the Regional Office, Wage and Hour Division, for the area in which the violations for which the penalty was assessed occurred, where the penalty has become final under § 579.4(b). Where the penalty has been finally determined as provided in § 579.4 (c) in an administrative proceeding, the remittance should be made through the counsel representing the Secretary before the administrative law judge or before the appellate officer, as the case may be. If the person from whom the penalty is due fails to remit the amount thereof within 30 days after such amount is finally determined, proceedings for collection or recovery thereof may be instituted as provided in paragraph (b) of this section.

(b) Pursuant to the provisions of the Act set forth in § 579.1, the amount of penalty, finally determined as provided in § 579.4 (b) or (c), may be:

(1) Deducted from any sums owing by the United States to the person charged. To effect this, any agency having sums owing from the United States to such person shall, on the request of the Secretary, withhold the specific amount of the penalty from the sums owed to the person so charged and remit that amount to the Secretary to satisfy the amount of the penalty assessed;

(2) Recovered in a civil action brought by the Secretary in any court of competent jurisdiction, in which litigation the Secretary shall be represented by the Solicitor of Labor. When the person against whom a final determination assessing a civil money penalty has been made does not voluntarily remit the amount of such penalty to the Secretary within a reasonable time after notification to do so, the Solicitor of Labor may institute such an action to recover the amount of the penalty; or

(3) Ordered by the court, in an action brought for a violation of section 15(a)(4), to be paid to the Secretary. Section 15(a)(4) of the Act makes any violation of the provisions of section 12 unlawful. Any such unlawful act or practice may be enjoined by the United States district courts under section 17 upon court action, filed by the Secretary pursuant to section 12(b); and failure of the person so enjoined to comply with the court order may subject such person to contempt proceedings. A willful violation of section 12 of the Act may subject the offender to the penalties provided in section 16(a) of the Act, enforced by the Department of Justice in criminal proceedings in the United States courts. In any of the foregoing civil or criminal

proceedings, the court may order the payment to the Secretary of the civil penalty finally assessed by the Secretary.

(c) As provided in section 16(e) of the Act, the sums collected as penalties pursuant to the provisions of that section and of this part shall be applied by the Secretary toward the reimbursement of the costs of determining the violations and assessing and collecting such penalties, in accordance with the provisions of section 9a of Title 29 of the United States Code.

GENERAL

§ 580.1 Applicability of rules; definitions.

(a) This part provides the rules of practice for administrative proceedings relating to determination of civil penalties for violation of the child labor provisions of the Fair Labor Standards Act of 1938, as amended by the Fair Labor Standards Amendments of 1974 (Pub. L. 93-259, 88 Stat. 55), and of the regulations issued thereunder. See also Part 579 of this chapter for rules governing the issuance of notices of penalty for violations of section 12 of the Act and of the regulations issued under such section relating to child labor.

(b) The definitions set forth in § 579.2 of Part 579 of this chapter are applicable to the terms therein defined wherever used in this part.

COMMENCEMENT OF PROCEEDING

§ 580.2 Notice of penalty and exception thereto.

Any person charged with violation or violations of section 12 of the Act relating to child labor or any regulation issued under that section who receives a notice of such charge and of the assessment of a penalty or penalties therefor issued by the Secretary as provided in § 579.4 of this chapter may obtain a hearing thereon under the provisions of this part by filing with the Administrator, within 15 days after receipt of such notice and as provided in § 579.6 of this chapter, an exception to the determination that the violations for which the penalty is imposed occurred.

§ 580.3 Action pursuant to exception.

(a) Upon timely receipt of an exception to the determination of the violations charged in the notice of penalty, the Administrator shall promptly by order refer the matter, as provided in § 579.7 of this chapter, to the Chief Administrative Law Judge for the final determination in an administrative proceeding as provided in this part, with opportunity for hearing before an administrative law judge, of the issues with respect to the alleged violations and any penalties therefor.

(b) The Administrator, with such order of referral, shall transmit an authenticated copy of the notice of penalty excepted to, together with the exception signed and filed by the person charged with the violations. These shall be filed of record in the Office of Administrative Law Judges and shall, respectively, be given the effect of a complaint and answer thereto for purposes of the administrative proceeding, subject to such amendment as may be permitted under the provisions of this part.

(c) The proceeding shall be identified of record by, and any motions, pleadings, briefs, or other formal documents filed and docketed therein should carry, a number preceded by the letters "CL" and a caption identifying "Secretary of Labor" as plaintiff and the person charged with violations, by name, as respondent.

(d) After the notice of penalty and exception referred to the Chief Administrative Law Judge by the Administrator have been filed of record, the Chief Administrative Law Judge shall promptly designate an administrative law judge to conduct the proceeding in accordance with section 554 of Title 5, United States Code and the provisions of this part, and shall refer the matter to such judge for further action.

(e) Whenever a proceeding under this part is commenced by referral of the notice of penalty and exception thereto to the Chief Administrative Law Judge, the Administrator shall cause to be served on the person charged with the violations a copy of the order making such referral, together with a copy of the regulations in this Part 580.

§ 580.4 Notice of hearing.

The administrative law judge to whom the matter is referred shall, within 10 days following such referral, notify the parties by certified mail of a time and place set for hearing thereon or for a prehearing conference to be held as provided in § 580.6 of this part, or both. No date earlier than 14 days after the date of such notice shall be set for such hearing or such conference, except by agreement of the parties. Service of such notice shall be made upon the parties as provided in § 580.8.

§ 580.5 Supplemental pleadings.

If, upon review of the notice of penalty and the exception thereto, it appears to either party that such document as originally drafted by such party requires supplementation in order to clarify the issues for a hearing thereon, an amended complaint may be filed by the Secretary or an amended answer may be filed by respondent, as the case may be. Such supplemental pleading shall be filed with the Chief Administrative Law Judge, Washington, D.C. 20210, with proof of service upon the opposing party, at least 10 days prior to the date set for hearing or for a prehearing conference by the administrative law judge before whom the matter is pending, unless the time for filing such document is extended by the judge. If an amended complaint is filed by the Secretary, the respondent shall be entitled, if he or she desires to do so, to file with the Chief Administrative Law Judge an amended answer in response within 10 days after service upon the respondent of such amended complaint.

SERVICE UPON PARTIES OF PLEADINGS AND DOCUMENTS

§ 580.8 Manner of service.

Service upon any party of a pleading or document shall be made by delivering a copy or mailing a copy to the last known address. When a party is represented by an attorney, service shall be made upon the attorney.

§ 580.9 Proof of service.

A certificate of the person serving the pleading or other document by personal delivery or by mailing, setting forth the manner of said service shall be proof of the service.

§ 580.10 Service upon Department of Labor; number of copies.

An original and three copies of all pleadings and other documents shall be filed with the Department of Labor, the original with the Chief Administrative Law Judge, U.S. Department of Labor, Washington, D.C. 20210, and the copies

with the attorney representing the Department in the proceeding or the Associate Solicitor for General Legal Services, U.S. Department of Labor, Washington, D.C. 20210.

PROCEDURES BEFORE ADMINISTRATIVE LAW JUDGE, GENERALLY

§ 580.11 Authority of administrative law judge.

(a) *General powers.* In any proceeding under this part, the administrative law judge shall have all powers necessary to the conduct of fair and impartial hearings, including the following:

(1) To administer oaths and affirmations;

(2) To issue subpenas upon proper applications as provided in § 580.14;

(3) To rule upon offers of proof and receive relevant evidence;

(4) To take or cause to be taken depositions and to determine their scope;

(5) To regulate the course of the hearing and the conduct of the parties and their counsel therein;

(6) To hold conferences for the settlement or simplification of the issues by consent of the parties;

(7) To consider and rule upon procedural requests;

(8) To make and file decisions in conformity with this part;

(9) To take any action authorized by the rules in this part or in conformance with the Administrative Procedure Act; and

(10) To exercise, for the purpose of the hearing and in regulating the conduct of the proceeding, such powers vested in the Secretary by section 9 of the Act as are necessary and appropriate therefor.

(b) *Consultation.* The administrative law judge shall not consult any person or party on any fact in issue unless upon notice and opportunity for all parties to participate.

(c) *Disqualification.* (1) When an administrative law judge deems himself/herself disqualified to preside in a particular proceeding, such judge shall withdraw therefrom by notice on the record directed to the Chief Administrative Law Judge.

(2) Whenever any party shall deem the administrative law judge for any reason to be disqualified to preside, or to continue to preside, in a particular proceeding, that party shall file with the Chief Administrative Law Judge a motion to disqualify and remove such administrative law judge, such motion to be supported by affidavits setting forth the alleged grounds for disqualification. The Chief Administrative Law Judge shall rule upon the motion.

(3) In the event of disqualification of an administrative law judge as provided in paragraph (c)(1) or paragraph (c)(2) of this section, the Chief Administrative Law Judge shall refer the matter to another administrative law judge for further proceedings.

§ 580.12 Appearances; representation of parties.

Counsel designated by the Solicitor of Labor shall represent the Secretary and appear for the Secretary in any proceeding under this part. Respondents shall have the right to appear by or with counsel of their choice, who shall qualify for such representation as provided in 5 U.S.C. 500(b). If not represented by counsel, respondents may appear in person or through authorized agents and may submit necessary documents with their own signatures.

§ 580.13 Motions and requests.

Motions or requests shall be in writing, filed with the Chief Administrative Law Judge, and copies served upon the other parties to the proceeding, except that motions or requests made during the course of any hearing or appearance before the administrative law judge shall be filed with such judge or shall be stated orally and made part of the transcript. Each motion or request shall state the particular order, ruling, or action desired, and the grounds therefor. The administrative law judge is authorized or made prior to the filing of the judge's decision as provided in § 580.32.

§ 580.14 Subpenas.

All applications for subpenas *ad testificandum* and subpenas *duces tecum* shall be made in writing to the administrative law judge. Applications for subpenas *duces tecum* shall specify as exactly as possible the documents to be produced, showing their general relevancy and reasonable scope.

§ 580.15 Witnesses and fees.

(a) The administrative law judge, either at the request of the parties or upon the judge's own motion, may request persons to appear to testify as witnesses, where such action is deemed necessary to serve the purposes of the hearing.

(b) Witnesses subpenaed by any party or by the administrative law judge shall be paid the same fees and mileage as are paid for like services in the district courts of the United States. The witness fees and mileage shall be paid by the party at whose instance the witnesses appear.

§ 580.16 Depositions.

(a) *When, how, and by whom taken.* For good cause shown, the testimony of any witness may be taken by deposition. Depositions may be taken orally or upon written interrogatories before any person designated by the administrative law judge and having power to administer oaths.

(b) *Application.* Any party desiring to take the deposition of a witness shall make application in writing to the administrative law judge, setting forth the reasons why such deposition should be taken; the time when, the place where, and the name and post office address of, the person before whom the deposition is to be taken; the name and address of each witness from whom a deposition is to be taken; and the subject matter concerning which each such witness is expected to testify.

(c) *Notice.* Such notice as the administrative law judge shall order shall be given for the taking of a deposition, but this shall not be less than 5 days' written notice when the deposition is to be taken within the United States and not less than 20 days' written notice when the deposition is to be taken elsewhere.

(d) *Taking and receiving in evidence.* Each witness testifying upon deposition shall be sworn, and the adverse party shall have the right to cross-examine. The questions propounded and the answers thereto, together with all objections made, shall be reduced to writing, read to and subscribed by the witness, and certified by the officer. Thereafter, the officer shall seal the deposition, with two copies thereof, in an envelope and mail the same by certified mail to the administrative law judge. Subject to such objections to the questions and answers as were noted at the time of taking the deposition and would be valid were the witness personally present and testifying, such deposition may be read and offered in evidence by the party taking it as against any party who was present or represented at the taking of the deposition or who had due notice thereof. No part of a deposition shall be admitted in evidence unless there is a showing that the reasons for the taking of the deposition in the first instance exist at the time of hearing.

§ 580.17 Prehearing conferences.

(a) Upon motion of the parties or when deemed appropriate by the administrative law judge, the judge may direct the parties or their counsel to meet with the judge for a conference to consider;

(1) Simplification of the issues;

(2) Necessity or desirability of amendments to pleadings for purposes of clarification, simplification, or limitation;

(3) Stipulations, admissions of fact and of contents and authenticity of documents;

(4) Limitation of the number of expert witnesses; and

(5) Such other matters as may tend to expedite the disposition of the proceeding.

(b) The record shall show the matters disposed of by order and by agreement in such pretrial conferences. The subsequent course of the proceeding shall be controlled by such action.

§ 580.18 Consent findings and order.

(a) *General.* At any time after the commencement of a proceeding under this part and prior to the reception of evidence in any such proceeding, a party may move to defer the receipt of any evidence for a reasonable time to permit negotiation of an agreement containing consent findings and an order disposing of the whole or any part of the proceeding. The allowance of such deferment and the duration thereof shall be in the discretion of the administrative law judge, after consideration of the nature of the proceeding, the requirements of the public interest, the representations of the parties, and the probability of an agreement being reached which will result in a just disposition of the issues involved.

(b) *Content.* Any agreement containing consent findings and an order disposing of a proceeding shall also provide:

(1) That the order shall have the same force and effect as an order made after full hearing;

(2) That the entire record on which any order may be based shall consist solely of the notice of penalty (or amended complaint, if one is filed), and the agreement;

(3) A waiver of any further procedural steps before the administrative law judge and the appellate officer; and

(4) A waiver of any right to challenge or contest the validity of the findings and order entered into in accordance with the agreement.

(c) *Submission.* On or before the expiration of the time granted for negotiations, the parties or their counsel may:

(1) Submit the proposed agreement for consideration by the administrative law judge; or

(2) Inform the administrative law judge that agreement cannot be reached.

(d) *Disposition.* In the event an agreement containing consent findings and an order is submitted within the time allowed therefor, the administrative law judge, within 30 days thereafter, shall, if satisfied with its form and substance, accept such agreement by issuing his/her decision based upon the agreed findings.

§ 580.19 Computation of time.

Saturdays, Sundays, and holidays shall be included in computing the time allowed for filing any document or paper under this part, but when such time expires on such a day, such period shall be extended to include the next following day which is not such a day.

HEARINGS

§ 580.21 Hearing procedures generally.

(a) Pursuant to notice given as provided in § 580.4, the designated administrative law judge shall hold such hearings as provided in this part as are necessary for determination of the issues submitted for decision, exercising the powers set forth in § 580.11 and conducting the proceeding in accordance with the provisions of 5 U.S.C. 554. In any such hearing the burden of proving the violations alleged shall be upon the Secretary and except as may be determined otherwise by the administrative law judge, counsel for the Secretary shall proceed first at the hearing. The hearing shall be open to the public, unless otherwise ordered by the administrative law judge.

(b) If any party to the proceeding, after being properly served with notice of the hearing, should fail to appear at the hearing, the matter may be set for further hearing upon notice, but a party who is present shall first have an election to present such party's evidence in whole or such portion thereof sufficient to make a prima facie case in which event the administrative law judge may make a decision without further hearing. Failure to appear at a hearing shall not be deemed to be a waiver of the right to be served with a copy of the administrative law judge's decision.

(c) Contemptuous conduct at any hearing shall be ground for exclusion from the hearing.

§ 580.22 Evidence at the hearing.

(a) *In general.* The testimony of witnesses shall be upon oath or affirmation administered by the administrative law judge and shall be subject to such cross-examination as may be required for a full and true disclosure of the facts. The administrative law judge shall exclude evidence which is immaterial, irrelevant, or unduly repetitious.

(b) *Objections.* If a party objects to the admission or rejection of any evidence or to the limitation of the scope of any examination or cross-examination or the failure to limit such scope, such party shall state briefly the grounds for such objection. Rulings on all objections shall appear in the record. Only objections made before the administrative law judge may be relied upon subsequently in the proceeding. Formal exception to an adverse ruling is not required.

(c) *Failure or refusal of witness to appear or answer.* The failure or refusal of a witness to appear at any hearing or to answer any question which has been ruled to be proper shall be grounds for the action provided in sections 49 and 50 of Title 15, United States Code, pursuant to the provisions of section 9 of the Act, and, in the discretion of the administrative law judge, for striking out all or part of the testimony which may have been given by such witness.

§ 580.23 Official notice.

Official notice may be taken of any material fact not appearing in evidence in the record, which is among the traditional matters of judicial notice and also concerning which the Department by reason of its functions is presumed to be expert: *Provided*, That the parties shall be given adequate notice, at the hearing or by reference in the administrative law judge's decision of the matters so noticed, and shall be given adequate opportunity to show the contrary.

§ 580.24 Transcripts.

Hearings shall be stenographically reported. Copies of the transcript may be obtained by the parties upon written application to the Department at fees fixed in accordance with section 11 of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770, 5 U.S.C. App.) and Part 70 of this title.

POST-HEARING PROCEDURES

§ 580.31 Proposals by the parties.

At the end of the hearing, the administrative law judge shall afford any party a reasonable period of time, but not less than 15 days, to file proposed findings of fact, conclusions of law, and a proposed order, together with a supporting brief expressing the reasons for such proposals. Such proposals shall be accompanied by a certification that service of the proposals has been made upon all other parties, and shall refer to all portions of the record and to all authorities relied upon in support of each proposal.

§ 580.32 Decision and order of administrative law judge.

(a) The administrative law judge shall prepare, as promptly as practicable after the expiration of the time set for filing proposed findings and related papers provided for in paragraph (a) of this section, the judge's decision in the matter, which shall become the final decision in the administrative process as provided in the Act 20 days after service of copies thereof upon the parties, unless exceptions are filed thereto as provided in § 580.33. The decision of the administrative law judge shall include a statement of findings and conclusions, with reasons and bases therefor, upon each material issue of fact, law, or discretion presented on the record. The decision shall also include an appropriate order which may affirm, in whole or in part, the determination by the Administrator of the occurrence of violations or which may find that no violations occurred, and shall order payment of a penalty in the amount originally assessed or in a lesser amount determined in accordance with 29 CFR 579.5 or order that respondent pay no penalty, as appropriate. The reasons for such action shall be stated in the decision.

(b) The administrative law judge shall transmit to the Chief Administrative Law Judge the entire record including the original of the decision. The Chief Administrative Law Judge shall serve copies of the decision on each of the parties.

§ 580.33 Exceptions.

(a) Within 20 days after the date of the decision of the administrative law judge, any party aggrieved thereby may file exceptions thereto with supporting reasons. Such party shall transmit his/her exceptions in writing to the Chief Administrative Law Judge, referring to the specific findings of fact, conclusions of law, or order excepted to, the specific pages of transcript relevant to the exceptions, and suggesting corrected findings of fact, conclusions of law, or order. Such exceptions shall be accompanied by proof of service of copies on the other party or parties to the proceeding.

(b) If exceptions are filed, the Chief Administrative Law Judge shall transmit the record of the proceeding to the appellate officer. The record shall include: The pleadings, motions, and requests filed in written form, rulings thereon, the transcript of the testimony and proceeding taken at the hearing, together with the exhibits admitted in evidence, any documents or papers filed in connection with prehearing conferences, such proposed findings of fact, conclusions of law, orders, and supporting reasons, as may have been filed, the decision of the administrative law judge, and such exceptions, statements of objections, and briefs in support thereof, as may have been filed in the proceeding.

§ 530.34 Decision on exceptions.

If exceptions to the decision of the administrative law judge are taken as provided in this part, the appellate officer shall upon consideration thereof, together with the record references and authorities cited in support thereof, make a final decision, which shall affirm, modify, or set aside, in whole or part, the findings, conclusions, and order contained in the decision of the administrative law judge and shall include a statement of reasons or bases for the actions taken. With respect to the findings of fact, the appellate officer shall modify or set aside only those findings that are clearly erroneous. Copies of the decision and order shall be served upon the parties, and shall constitute the final determination in the administrative proceeding as provided in section 16(c) of the Act.

Signed at Washington, D.C., on this 20th day of December 1974.

BETTY SOUTHARD MURPHY,
Administrator,
Wage and Hour Division.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 2—Clemency

CHAPTER I—PRESIDENTIAL CLEMENCY BOARD

PART 101—ADMINISTRATIVE PROCEDURES

PART 102—SUBSTANTIVE STANDARDS OF THE PRESIDENTIAL CLEMENCY BOARD

Procedures and Standards; Correction

On November 27, 1974, the Presidential Clemency Board published regulations in the FEDERAL REGISTER (39 FR 41351) establishing a new Chapter II in Title 2, Code of Federal Regulations.

In as much as the Selective Service System had already established 2 CFR, Chapter II at 39 FR 34511, September 26, 1974, it has become necessary to redesignate the regulations of the Presidential Clemency Board as 2 CFR, Chapter I, and reserve Parts 100–199 for use by the Board.

Therefore, FR Doc. 74-27863, published at 39 FR 41351, in the issue of Wednesday, November 27, 1974 is corrected as follows:

1. The Chapter and Part headings are renumbered to read as set forth above.

2. Wherever in the text of the document reference is made to "Chapter II", "Part 201" or "Part 202", it is changed to read "Chapter I" "Part 101" or "Part 102", respectively. All references based on a number in the 201 or 202 series are deemed changed to a 101 or 102 series, respectively.

Issued in Washington, D.C. on December 23, 1974.

CHARLES E. GOODELL,
Chairman,
Presidential Clemency Board.

[FR Doc.74-30240 Filed 12-26-74;8:45 am]

Title 10—Energy

CHAPTER II—FEDERAL ENERGY ADMINISTRATION

PART 211—MANDATORY PETROLEUM ALLOCATION REGULATIONS

Allocation of Non-bonded Aviation Fuels to International Air Carriers

On December 13, 1974, the Federal Energy Administration issued amendments to §§ 211.42 and 211.146(c), the mandatory petroleum allocation regulations of 10 CFR Part 211 with respect to the allocation of non-bonded aviation fuel to international air carriers (39 FR 43812, December 18, 1974). As amended, § 211.146(c)(3) provided that international air carriers filing certifications with their suppliers under § 211.146(c) are required to file such certifications for the period corresponding to a base period beginning January 1, 1975, by December 20, 1974.

FEA has determined that due to the differences between the previous regulations and the new regulations, in particular the requirement that certifications under § 211.146(c)(3) be filed for an entire period, rather than for a month, it would be difficult if not impossible for some international air carriers to file their certifications by December 20, 1974. In addition, it has come to FEA's attention that, with respect to some international air carriers, changes in operations and other circumstances not raised with FEA in response to the November 20, 1974, further notice of proposed rulemaking with respect to this issue, make compliance with the December 20 certification deadline impossible.

Therefore, effective immediately, FEA is amending § 211.146(c)(3) to provide that certifications must be filed with suppliers by December 28, 1974. Because of this delayed certification date, it may be necessary for suppliers of aviation fuels which receive certifications from international air carriers to revise some information previously reported to FEA on their Forms 1000.

Section 7(i)(1)(B) of the Federal Energy Administration Act of 1974 (Pub. L. 93-275) (FEAA) provides for waiver of the requirements of that section as to time of notice and opportunity to comment prior to promulgation of regulations where strict compliance with such requirements is found to cause serious harm or injury to the public health, safety, or welfare. Since a delay in the effective date of this amendment would result in international air carriers' inability to obtain non-bonded fuel for the period January 1 through March 31, 1975, in the manner intended by FEA regulations, thereby disrupting supply arrangements and interfering with such carriers' ability to provide for passenger and cargo transportation, the FEA has concluded that the requirements of Section 7(i)(1)(B) of the FEAA must be waived as to time of notice and opportunity to comment because strict compliance would result in serious harm or injury to the public welfare.

In addition, section 7(i)(1)(C) of the FEAA requires that opportunity for oral presentation of views, data and arguments be afforded with respect to any regulation which is likely to have a substantial impact on the Nation's economy or large numbers of individuals or businesses. This amendment is only procedural in nature and does not in itself have such an impact, but only makes operative a preexisting regulation through a change in the filing date. Therefore, there is no need for the oral presentation of views, data and arguments.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159; Federal Energy Administration Act of 1974, Pub. L. 93-275; E.O. 11790 (39 FR 23185))

In consideration of the foregoing, Part 211 of 10 CFR Chapter II is amended as set forth below, effective immediately.

Issued in Washington, D.C., December 20, 1974.

ROBERT E. MONTGOMERY, JR.,
General Counsel,
Federal Energy Administration.

1. Section 211.146 is amended by revising subparagraph (3) of paragraph (c) to read as follows:

§ 211.146 Method of allocation.

* * * * *

(c) * * *

(3) An international air carrier which files a certification with a supplier under this paragraph shall provide such certification to its supplier at least fifteen (15) days prior to the beginning of the period corresponding to a base period to which the certification applies except that for the period corresponding to a base period beginning January 1, 1975, an international air carrier shall provide such certification by December 28, 1974. The certification shall specify:

(i) The volumes of bonded aviation fuel which can be obtained for the period from all sources;

(ii) The volumes of bonded aviation fuel which can be obtained from that supplier;

(iii) The international air carrier's base period use for that period;

(iv) The amount of the international air carrier's base period use to be supplied by that supplier;

(v) Whether and to what extent the international air carrier can use naphtha-base jet fuel; and

(vi) The amount of bonded fuel which the supplier is to subtract from that portion of the carrier's base period use to to the volume of bonded aviation fuel to be supplied by the supplier in determining the amount of non-bonded fuel the supplier is to supply to the carrier.

PART 211—MANDATORY PETROLEUM ALLOCATION REGULATIONS

Allocation of Old Oil; Corrective Amendments

On November 29, 1974, the Federal Energy Administration issued the final rule for the allocation of old oil pursuant to authority granted by the Emergency Petroleum Allocation Act of 1973 (39 FR 42246; December 4, 1974). Subsequent to the issuance of the final rule, FEA has determined that certain corrective amendments to the rule are warranted, and FEA is hereby adopting the following amendments to the final rule effective immediately.

SMALL REFINER BIAS

In its November 1974 further notice of proposed rulemaking for the allocation of old oil, FEA stated that it had based the entitlement value of the small refiner bias set forth in the notice on the dollar value of import tickets received by small refiners under the oil import program at the time when import ticket prices were in the $1 and above range, adjusted for the rate of inflation. In the final rule, as to the first 30,000 barrels per day of each small refiner's crude runs, FEA modified the provisions of the small refiner bias to provide for issuance to small refiners of a number of incremental entitlements equivalent to the dollar value of import ticket issuances in PAD District V.

Since the promulgation of the final rule, FEA has been advised that it has incorrectly computed the value of import tickets issuable to small refiners in PAD District V under the oil import program. FEA has determined that it did in fact make technical errors in its computation of this value and accordingly is hereby revising the small refiner bias set forth in § 211.67(e) to conform to FEA's stated intent in this area.

TREATMENT OF BUY/SELL LIST SALES

FEA has also determined that the provisions of § 211.67(f) (1) of the final rule for calculating the volume of old oil deemed to be transferred in a sale by a refiner-seller to a refiner-buyer under § 211.65 are not technically correct. The final rule provided that the proportion of old oil deemed to be included in a sale under § 211.65 is to be based on the proportion of old oil included in the refiner-seller's crude oil receipts in the month in which the sale price was calculated under § 212.94. However, the sale price under the buy/sell list is based on crude oil deliveries to a refiner-seller in the month of the sale, and crude oil included in these deliveries may not necessarily be included in a refiner-seller's crude oil receipts.

The purpose of § 211.67(f) (1) is to reduce the cost equalization effects of sales under § 211.65, now that the final rule for the allocation of old oil has been adopted. FEA expects that sales under the buy/sell list will now serve to alleviate crude oil supply, as opposed to cost, problems. Thus, FEA is revising § 211.67 (f) to provide for a more accurate determination of the volume of old oil reflected in the sale price as calculated under § 212.94. Section 211.67(b) (1) provides that the proportion of old oil in a refiner-seller's crude oil deliveries that determine the sale price will also determine the proportion of old oil deemed to be transferred in a buy/sell list sale. If the sale price to the refiner-buyer is based on crude oil deliveries in PAD Districts I–IV, the proportion of old oil in those particular crude oil deliveries will determine the proportion of old oil deemed to be transferred pursuant to the sale; the result will be the same for a sale the price of which is based on crude oil deliveries in PAD District V.

As noted, the two corrective amendments made effective immediately are merely technical refinements to the final rule for the allocation of old oil which was made effective on November 29, 1974. Before the final rule was promulgated, an extensive rulemaking proceeding was held. A notice of proposed rulemaking and public hearing was issued on August 28, 1974, containing a proposal to allocate old oil proportionately among refiners (39 FR 31650, August 30, 1974). In response to this notice, more than 600 written comments were received and approximately 40 interested parties presented statements at a public hearing held on September 24 and 25, 1974. On November 7, 1974, FEA issued a further notice of proposed rulemaking (39 FR 39740, November 11, 1974), in response to which over 175 written comments were received. After evaluation of these comments, the final rule was adopted on November 29, 1974.

During the rulemaking proceeding on this final rule, oral and written comments were received with respect to the small refiner bias and the transfer of volumes of old oil in connection with buy/sell lists sales and such comments have been taken into account in the promulgation of the two technical requirements made effective today. The notice and hearing requirements of subsections 7(1) (1) (B), and (C) of the Federal Energy Administration Act of 1974 (Pub. L. 93–275) have therefore already been satisfied and a further opportunity for the presentation of oral and written views is unnecessary.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93–159; Federal Energy Administration Act of 1974, Pub. L. 93–275; E.O. 11790, 39 FR 23185.)

In consideration of the foregoing, Part 211 of Chapter II, Title 10 of the Code of Federal Regulations, is amended as set forth below, effective immediately.

Issued in Washington, D.C. on December 20, 1974.

ROBERT E. MONTGOMERY, Jr.,
General Counsel,
Federal Energy Administration.

Section 211.67 is amended by revising paragraphs (e) and (f) to read as follows:

§ 211.67 Allocation of old oil.

* * * * * *

(e) *Entitlement adjustment for small refiners.* In addition to the number of entitlements issuable under paragraph (a) of this section, each small refiner with a daily average volume of crude oil runs to stills of less than 175,000 barrels for a particular month shall be issued the following number of additional entitlements for each day of that month: (1) For each small refiner with a daily average volume of crude oil runs to stills of 100,000 to 175,000 barrels, 1.256 entitlements less the number of entitlements obtained by multiplying the difference between that small refiner's daily average volume of crude oil runs to stills (in thousands of barrels) and 100 by 16.7733; (2) for each small refiner with a daily average volume of crude oil runs to stills of 30,000 to 100,000 barrels, 1.690 entitlements less the number of entitlements obtained by multiplying the difference between that small refiner's daily average volume of crude oil runs to stills (in thousands of barrels) and 30 by 6.1714; (3) for each small refiner with a daily average volume of crude oil runs to stills of 10,000 to 30,000 barrels, 1.238 entitlements plus the number of entitlements obtained by multiplying the difference between that small refiner's daily average volume of crude oil runs to stills (in thousands of barrels) and 10 by 22.6; and (4) for each small refiner with a daily average volume of crude oil runs to stills of zero to 10,000 barrels, 123.8 entitlements for each 1,000 barrels of that small refiner's daily average volume of crude oil runs to stills.

(f) *Transactions under § 211.65.* (1) Each sale by a refiner-seller under § 211.65 shall be deemed to include a volume of old oil proportionate to the volume of old oil included in the deliveries of crude oil to that refiner-seller that determine the price at which the sale is made under § 212.94 of Part 212. Any volumes of old oil so included in any sale under § 211.65 shall be reflected in the crude oil receipts of the refiner-buyer concerned. As to each such sale, each refiner-seller shall certify to the refiner-buyer the volume of old oil included in the volume of crude oil sold within twenty-five (25) days following the month in which the crude oil is delivered to or for the account of the refiner-buyer in accordance with the provisions of § 212.131 of Part 212.

(2) In determining the weighted average price of all crude oil delivered to a refiner-seller in a month in the specified PAD District or Districts pursuant to § 212.94 of Part 212, the cost of any required purchases or revenues from any sales of entitlements by that refiner-seller shall not be taken into account.

[FR Doc.74-30134 Filed 12-23-74;8:45 am]

PART 211—MANDATORY PETROLEUM ALLOCATION REGULATIONS

Residual Fuel Oil; Allocation Level for Space Heating Requirements

On November 16, 1974, the Federal Energy Administration issued a notice of proposed rulemaking (39 FR 40866, November 21, 1974) concerning a change in the allocation level for space heating

requirements of residual fuel oil. Written comments were invited through December 2, 1974.

Six timely comments and three late comments were received in response to the notice of proposed rulemaking. Comments were filed by suppliers, trade associations, state and local government officials, and industry.

The proposed regulations would conform the allocation level for space heating requirements of residual fuel oil to that recently adopted for middle distillate fuels. The proposal provided for a change in the allocation level for space heating requirements of residual fuel oil from one hundred percent of base period use, not subject to an allocation fraction, to one hundred ten percent of base period use, subject to an allocation fraction, except that if a supplier's allocation fraction were less than 0.8, the supplier would supply space heating end-users and wholesale purchaser-consumers at an allocation level of eighty-eight percent of base period use, not subject to an allocation fraction (the equivalent of 0.8 times one hundred ten percent of base period use). It was also proposed to eliminate the mandatory temperature reductions of six degrees for residences and schools and ten degrees for other types of buildings, and the corresponding requirement that suppliers make deliveries on the basis of usage factors which establish the quantity of fuel required to maintain temperatures reduced as specified for each type of building. Since no temperature reductions were previously imposed upon medical and nursing buildings, it was proposed that they be accorded an allocation level of one hundred percent of current requirements, not subject to an allocation fraction.

Several comments supported the proposed elimination of the mandatory temperature reduction requirement because such a requirement is unfair to users of residual fuel oil since a similar requirement is not imposed upon users of other energy sources. In addition, the comments point out that the current allocation method of calculating levels is burdensome to suppliers of residual fuel oil. Those comments opposing the proposal were based upon the need for conservation of energy sources. FEA believes, however, that conservation can be achieved by other means and should not be imposed upon users of a fuel unless similar restrictions are placed upon similar users of other sources of energy which FEA does not regulate. The FEA has determined, therefore, that the proposed regulations should be adopted as proposed.

The following example illustrates the operation of the new regulation:

Supplier A is a supplier of residual fuel oil to three wholesale purchaser-consumers for space heating requirements and for other uses. Supplier A has no end-user or wholesale purchaser reseller customers. Supplier A desires to calculate its allocation fraction for the month of January, 1975 since residual fuel oil is allocated on a monthly basis. Firm B, a space heating wholesale purchaser-consumer to which the new allocation level applies, is supplied by Supplier A, and has a base period use for January of 20,000 gallons of residual fuel oil and an allocation requirement, as defined in § 211.10(b)(2)(iii), of 22,000 gallons (20,000 x 110%). Firm C purchases residual fuel oil from Supplier A for industrial use under an allocation level of one hundred percent of base period use, subject to an allocation fraction. Firm C's base period use for January is 30,000 gallons, and its allocation requirement is 30,000 x 100 percent, or 30,000 gallons. In addition, Supplier A supplies Firm D, a wholesale purchaser-consumer of residual fuel oil for non-military marine shipping under an allocation level of one hundred percent of current requirements, subject to an allocation fraction. Firm D's current requirements for January are 25,000 gallons, and its allocation requirement is 25,000 gallons. Supplier A has no other customers.

Thus, Supplier A's supply obligation, equal to the sum of its purchasers' allocation requirements, is 77,000 gallons. Assume that Supplier A's allocable supply for January is 60,000 gallons. Supplier A calculates its allocation fraction according to § 211.10(b) by dividing allocable supply (60,000) by supply obligation (77,000), and determines that its allocation fraction is 0.770. However, under § 211.163(c)(2), when a supplier's allocation fraction is less than 0.8, the allocation level for its space heating end-users and wholesale purchaser-consumers becomes eighty-eight percent of base period use, not subject to an allocation fraction. Since Supplier A must supply Firm B at this new allocation level, it must recalculate its allocation fraction for purposes of supplying Firms C and D.

Firm B's new allocation requirement for January is its base period use (20,000) times eighty-eight percent, or 17,600 gallons. Supplier A's new supply obligation is the sum of its purchasers' allocation requirements (17,600 + 30,000 + 25,000=72,600) minus amounts supplied to purchasers under allocation levels not subject to an allocation fraction (17,600 gallons to be supplied Firm B), or 55,000 gallons. Supplier A's new allocable supply is its total supply (60,000) less amounts supplied under allocation levels not subject to an allocation fraction (17,600), or 42,400 gallons. Supplier A's allocation fraction is therefore 42,400/55,000 or 0.771, and Supplier A will distribute its residual fuel oil as follows:

Firm B: 20,000 × .880 = 15,600
Firm C: 30,000 × .771 = 23,127
Firm D: 25,000 × .771 = 19,273
60,000

The FEA has determined that the effect of this amendment will not be so pervasive as to be likely to have a substantial impact on the nation's economy or large number of individuals or businesses, and that therefore it is not necessary to afford an opportunity for oral presentation of views on the amendment. It is evident that the increase in the allocation level for space heating tends to be offset by the application of the supplier's allocation fraction, and that other factors still in effect operate to restrain demand. Therefore the FEA does not forecast a significant overall increase in demand for residual fuel oil in the aggregate or as to individual businesses as a result of this amendment. Thus the impact with respect to expenditure as well as supply availability on businesses which supply and use residual fuel oil and individual users does not appear to be substantial. It should also be noted that the comments received in response to the notice of proposed rulemaking presented no data, views or arguments suggesting a contrary conclusion or which would otherwise support such a determination.

(Emergency Petroleum Allocation Act of 1973, Pub. L. 93-159; Federal Energy Administration Act of 1974, Pub. L. 93-275; E.O. 11790, 39 FR 23185)

In consideration of the foregoing, Part 211 of 10 CFR Chapter II is amended as set forth below, effective January 1, 1975.

Issued in Washington, D.C., December 20, 1974.

ROBERT E. MONTGOMERY, Jr.,
General Counsel,
Federal Energy Administration.

1. Section 211.163 is amended by revising paragraphs (b) and (c) to read as follows:

§ 211.163 Allocation levels.

* * * * * *

(b) *Allocation levels not subject to an allocation fraction.* (1) One hundred (100) percent of current requirements for the following uses:

(i) Agricultural production;

(ii) Department of Defense use as specified in § 211.26; and

(iii) Space heating requirements of medical and nursing buildings.

(2) The allocation level as specified each month by the FEA for utility use. In specifying the allocation levels for each utility the FEA may include but is not limited to the following considerations:

(i) Each utility within appropriate groupings shall absorb an equal percentage cutback in electricity generation, to the maximum extent possible.

(ii) The fact that electric generating plants which now burn residual fuel oil have been identified by the FEA as candidates for conversion to coal, and the maximum possible extent to which such plants could be utilized after conversion.

(iii) The extent to which any electric generating plants which burn coal may be utilized more fully than at present.

(iv) The extent to which certain minimal levels of residual fuel oil consumption are essential, as determined by the FEA upon recommendation of the Federal Power Commission (FPC) to supply portions of a power system requirement that cannot be supplied by non-oil fired generation, or for other special considerations. Any volumes so identified shall be counted as part of a utility's total allocation.

(v) The extent to which utilities currently utilize natural gas supplies under interruptible contracts and the extent to which supplies have been interrupted.

(vi) Available stocks of residual fuel oil held by each utility.

(c) *Allocation levels subject to an allocation fraction.* (1) One hundred (100) percent of current requirements (as reduced by application of an allocation fraction) for the following uses:

(i) Energy services;

(ii) Energy production;

(iii) Manufacture of ethical drugs and related research;

(iv) Non-military marine shipping, foreign and domestic (except cruise ships carrying passengers for recreational purposes). Sales to vessels engaged in the foreign trade of the United States shall be made on a non-discriminatory basis in regard to flag of registration, subject to modification by the FEA following consultation with appropriate Federal agencies on a case-by-case basis if required to encourage reciprocal non-discriminatory allocation of bunker fuel in foreign ports to vessels engaged primarily in the foreign trade of the United States;

(v) Sanitation services;

(vi) Telecommunications services;

(vii) Passenger transportation services.

(2) One hundred ten (110) percent of base period use (as reduced by application of an allocation fraction) for space heating requirements, except that whenever the allocation fraction of a supplier which supplies end-users and wholesale purchaser-consumers pursuant to this allocation level is less than 0.8, that supplier shall supply the space heating requirements of those end-users and wholesale purchaser-consumer at an allocation level of eighty-eight (88) percent of base period use, not subject to an allocation fraction.

(3) One hundred (100) percent of base period use for industrial use and all other users and uses of residual fuel oil not included in paragraph (b) or (c) (1) or (2) of this section.

§ 211.166 [Amended]

2. Section 211.166 is amended by deleting paragraph (e) in its entirety and paragraph (c) is amended by deleting the sentence, "With respect to space heating uses, suppliers must comply, to the fullest extent practicable, with the provisions of paragraph (e) of this section."

[FR Doc.74-30135 Filed 12-23-74;8:45 am]

Title 9—Animals and Animal Products

CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER E—VIRUSES, SERUMS, TOXINS, AND ANALOGOUS PRODUCTS, ORGANISMS AND VECTORS

PART 113—STANDARD REQUIREMENTS

Miscellaneous Amendments

On June 17, 1974, a notice of proposed amendments to Part 113 was published in the FEDERAL REGISTER at 39 FR 20980.

These amendments codify in Part 113 test methods, procedures, and criteria established by Veterinary Services for evaluating biological products to be pure, safe, potent, and efficacious and not to be worthless, contaminated, dangerous, or harmful. All products shall meet the applicable requirements before marketing release is authorized.

These requirements have been developed over a period of years in cooperation with interested members of the scientific society and, for the most part, have been utilized by industry either as accepted requirements or as proposals under development.

The publication of these requirements is done to make more readily available to the general public these requirements which now appear in administrative memorandums.

These amendments revise the sterility tests in § 113.27 by adding an alternate test which may be used to test live viral vaccines of chicken embryo origin recommended for use in a manner other than parenteral injection.

After due consideration of all relevant matters, including the proposal set forth in the aforesaid notice of rulemaking, and the constructive and helpful suggestions received from 21 sources, including representatives of the biologics industry, revisions of the material proposed were made for clarification of the procedures to be followed, scientific accuracy of the terminology used and adjustments in time periods and dates for completion of specified test requirements.

Pursuant to the authority contained in the Virus-Serum-Toxin Act of March 4, 1913 (U.S.C. 151–158), the amendments of Part 113, Subchapter E, Chapter 1, Title 9 of the Code of Federal Regulations, as contained in the aforesaid notice are hereby adopted and are set forth herein subject to the following noted modifications:

The effective dates for having the Master Seed Virus requirements completed have been extended. Requirements for bronchitis vaccine and Marek's disease vaccine are to be completed by June 1, 1975. Those for rabies vaccine, avian encephalomyelitis vaccine, avian pox vaccine, fowl laryngotracheitis vaccine, and Newcastle disease vaccine are to be completed by January 1, 1976.

The number of test birds required for testing the Master Seed Virus for avian encephalomyelitis vaccine, avian pox vaccine, fowl laryngotracheitis vaccine and Newcastle disease vaccine has been reduced to conform with the requirements for bronchitis vaccine. The proposed method of judging the tests has been changed from a proposed percentage of protection to a stated number of birds to be protected depending upon the number of birds used by the licensee. These changes are made to statistically validate the tests and to also conform with the requirements for bronchitis vaccine. Affected paragraphs are hereinafter noted.

The time interval between the first retest of the Master Seed Virus and subsequent retests has been increased to 5 years as a result of the storage qualities evidenced by the first retests of some Master Seed Viruses. Affected paragraphs are hereinafter noted.

The incubation requirements for samples of poultry vaccines have either been adjusted by reducing the incubation time or deleting the requirements as indicated from additional stability information received with the comments. The paragraphs affected are hereinafter noted.

Section 113.27 (a) and (d) have been reworded to permit the use of the test in (a) or the test in (d) for vaccines of chicken embryo origin recommended for use in a manner other than parenteral injection. Section 113.27(d) has been further changed by deleting the proposed test using Trypticase Soy Agar.

The lead paragraph in § 113.127(a) has been reworded to limit the samples to completed product from each serial instead of samples from each serial or subserial. The required samples for § 113.127 (b) have been clarified by inserting the words "from each serial" to prevent conflict with the general statement in the lead paragraph for § 113.127.

The words "of disease" have been inserted in § 113.128(a) for clarity. Subparagraph designations in § 113.128(b) have been changed from (i), (ii), and (iii) to (1), (2), and (3), respectively. The spelling of "infection" in subparagraph (b) (2) has been corrected.

The requirements in § 113.129(a) (3) have been changed to require only the testing of primary cell cultures. Section 113.129(b) (1) has been reworded for clarity. Section 113.129(b) (3) has been changed to permit injections other than intramuscular and § 113.129(b) (4) has been changed to permit a variation in the bleeding days for test animals.

Sections 113.129(b) (5) (ii), 113.129(b) (6) and 113.129(d) (1) (i) have been reworded for clarity. Also, the second and subsequent retests of the Master Seed Virus for immunogenicity has been changed to a 5 year interval in § 113.129 (b) (6).

Spelling of the word "accordance" has been corrected in § 113.129(d) (2) (i). The requirement of 0.3 in § 113.129(d) (3) has been deleted so the test requirements can be written in the Outline of Production.

Where the name "feline distemper" appeared in § 113.139, the name "feline panleukopenia" has been substituted for scientific accuracy.

Section 113.139(b) (2) (ii) has been changed to clarify the physical requirements of the harvested embryo material. Section 113.139(c) (1) (i) has been reworded to clarify the serum dilution to be used, to relax the virus requirements, and to make (i) or (ii) optional by changing "and" to "or." Section 113.139(c) (2) has been changed to permit the use of methods other than the proposed fluorescent antibody method and to correct the test designation.

Febrile response requirement has been deleted from § 113.139(c) (3) (i) and the white blood cell count requirement has been changed to conform with the requirements in § 113.123(b) (3).

The second and subsequent retests of Master Seed Virus for immunogenicity has been changed to a 5 year interval in § 113.139(c) (4).

Section 113.139(d) (1) (i) has been relaxed to permit the use of healthy cats. Section 113.139(d) (2) has been reworded to conform with the change made in § 113.139(c) (2).

Editorial corrections have been made in the lead paragraph of § 113.140(b) and in § 113.140(b) (2). Section 113.140(b) (3)

has been reworded to permit use of containers other than Leighton tubes. § 113.140(c)(1) has been reworded to clarify the serum dilution to be used and to relax the virus requirements. Section 113.140(c)(2) has been changed to permit the use of methods other than the proposed cytopathic effect method and to correct the test designation.

Section 113.140(d)(2) has been reworded to conform with § 113.140(c)(2). The second and subsequent retests of Master Seed Virus for immunogenicity has been changed to a 5 year interval in § 113.140(c)(4) and § 113.141(c)(4).

Section 113.141(b)(2)(ii) has been reworded to permit use of containers other than Leighton tubes. Section 113.141(c)(1) has been reworded to clarify the serum dilution to be used and to relax the virus requirements.

Section 113.141(c)(2) has been changed to permit the use of methods other than the proposed fluorescent-antibody method and to correct the test designation. The words "canine distemper" have been substituted in § 113.141(c)(3)(ii) for "disease" for clarity. Section 113.141(d)(2) has been reworded to conform with the change made in § 113.141(c)(2).

The lead paragraph in § 113.142(a) has been reworded to permit the use of a virus identity test other than the two prescribed in § 113.135(c)(2).

Section 113.142(b)(2) has been reworded to permit use of containers other than Leighton tubes. Section 113.142(c)(1) has been reworded to clarify the serum dilution to be used and to relax the virus requirements. The word "samples" has been changed to "sample" in § 113.142(c)(2) and the test designation corrected.

The second and subsequent retests of Master Seed Virus for immunogenicity has been changed to a 5 year interval in §§ 113.142(c)(4), 113.143(b)(5) and 113.144(c)(9).

The lead paragraph in § 113.142(d) has been reworded to conform with the lead paragraph in § 113.142(a).

Section 113.143(c)(1) has been reworded for clarity and to provide for a repeat test. Section 113.143(c)(1)(iii) and (iv) have been reworded and redesignated as part of § 113.143(c)(1)(ii) for accuracy and clarity.

Section 113.144(c)(1)(i) has been reworded to clarify the serum dilution to be used and to relax the virus requirements. Section 113.144(c)(2) has been changed to permit the use of methods other than the proposed cytopathic effect method or hemadsorption method and to correct the test designation.

Sections 113.144(c)(3), (4), and (5) have been reworded to clarify the observation time requirements for the test animals. Section 113.144(c)(6)(ii) has been relaxed to permit checking for antibodies at two weeks post-vaccination.

The lead paragraph in § 113.144(d) and subparagraph § 113.144(d)(1) have been reworded to make the Brucella test requirements applicable only to primary cells.

The guinea pig safety test in § 113.38 has been deleted from §§ 113.144(d)(2) and 113.144(d)(3) has been reworded to conform with § 113.144(c)(2).

Section 113.145(c)(1) has been reworded to clarify the serum dilution to be used. Section 113.145(c)(2) has been changed to permit the use of methods other than the proposed plaque formation method and to correct the test designation.

Sections 113.145(c)(3) and 113.145(c)(4) have been reworded for clarity and to relax the virus requirements.

The second and subsequent retests of Master Seed Virus for immunogenicity has been changed to a 5 year interval in §§ 113.145(c)(8) and 113.146(c)(7).

The lead paragraph in § 113.145(d) and subparagraph § 113.145(d)(1) have been reworded to make the Brucella test requirements applicable only to primary cells.

The guinea pig safety test in § 113.38 has been deleted from §§ 113.145(d)(2) and 113.145(d)(3) has been reworded to conform with § 113.145(c)(2).

Section 113.146(c)(1) has been reworded to clarify the serum dilution to be used and to relax the virus requirements. Section 113.146(c)(2) has been changed to permit the use of methods other than the proposed fluorescent antibody method and to correct the test designation.

Sections 113.146(c)(3), 113.146(c)(4), and 113.146(c)(5) have been reworded for clarity and to relax the virus requirements.

The lead paragraph in § 113.146(d) and subparagraph § 113.146(d)(1) have been reworded to make the Brucella test requirements applicable only to primary cells.

The guinea pig safety test in § 113.38 has been deleted from § 113.146(d)(2) and § 113.146(d)(3) has been reworded to conform with § 113.146(c)(2).

The lead paragraph in § 113.147(a)(3) has been changed to limit the test requirements for LCM virus. The lead paragraph in § 113.147(a)(4) has been reworded to clarify the purpose of the requirement. § 113.147(a)(4)(i) has been reworded to clarify the serum dilution requirement. Section 113.147(a)(4)(ii) has been changed to correct the virus dose. An editorial change has been made in § 113.147(a)(4)(iii). Section 113.147(a)(5)(i) has been reworded for clarity and § 113.147(a)(5)(ii) has been changed to correct the virus dose.

The test designation has been corrected in § 113.147(b)(1). The second and subsequent retests of Master Seed Virus for immunogenicity has been changed to a 5 year interval in § 113.147(b)(7) and reworded to relax certain test requirements. Subdivisions § 113.147(b)(7)(i) and (ii) have been added.

Section 113.147(d)(1)(i) has been changed to limit the requirements to vaccine of avian origin and § 113.147(d)(1)(ii) has been changed to make the proposed test optional with the safety test in § 113.40 as the alternative.

The lead paragraphs in §§ 113.160, 113.161, 113.162, 113.163, 113.64, and 113.165 have been changed to permit use of the first through the fifth passage from the Master Seed Virus.

The number of test birds prescribed in § 113.160(c)(1) has been changed from thirty or more to twenty or more. The word "paralyzed" has been substituted for "crippled" in § 113.160(c)(2)(iii) as being a more accurate designation. Section 113.160(c)(4) has been reworded to conform to the reduced number of test birds.

The second and subsequent retests of Master Seed Virus for immunogenicity has been changed to a 5 year interval in §§ 113.160(c)(5), 113.161(c)(5), and 113.162(c)(4).

The term "titration method" has been substituted for "procedures" for clarity and the sample incubation requirement has been deleted from § 113.160(d)(1). A printing error in § 113.160(d)(2) has been corrected.

Section 113.160(e)(1) has been reworded to retain a sample incubation requirement for release but not for testing during the expiration period. Subdivisions § 113.160(e)(1)(i) and (ii) have been added and the virus titer requirements have been reduced to $10^{2.5}$ EID_{50} to conform with 113.160(d)(2). Section 113.161(a) has been reworded to exempt the virus from § 113.135(c). The number of test birds prescribed in § 113.161(c)(1) has been changed from thirty or more to twenty or more. The observation period in § 113.161(c)(3) has been reduced to 10 days. Section 113.161(c)(4) has been reworded to conform to the reduced number of test birds.

The lead paragraph in § 113.161(d) has been reworded to exempt the vaccine from § 113.135(c). The term "titration method" has been substituted for "procedures" in § 113.161(d)(1). Section 113.161(d)(1)(i) has been deleted and § 113.161(d)(1)(ii) has been combined with the lead paragraph in § 113.161(d)(1). A repeat test has been provided for in § 113.161(d)(2).

The lead paragraph in § 113.161(e) has been reworded to exempt the vaccine from § 113.135(c). Section 113.161(e)(1) has been rewritten to retain a sample incubation requirement for release but not for testing during the expiration period.

Inconclusive test has been substituted for unsatisfactory test in § 113.162(b). Section 113.162(c)(3)(i) has been rewritten and the word "stored" deleted from the last sentence of § 113.162(c)(3)(iii) for clarity. Section 113.162(c)(3)(iv) has been rewritten to conform with required number of embryos prescribed in (iii), to clarify the conditions for a valid test, and provide for evaluation of dead embryos. The words "Master Seed Virus" have been substituted for "virus" in § 113.162(c)(3)(vi) for specificity.

The table in § 113.162(d)(2)(ii) has been condensed to make publication in a column possible. Section 113.162(d)(3)(iii) has been changed by deleting the sample incubation requirement.

The lead paragraph in § 113.163(b) has been rewritten to provide an alternate pathogen test. The number of test birds prescribed in § 113.163(c)(1) has been changed from thirty or more to twenty or more. The word "laboratories" has been deleted from § 113.163(c)(4). Section

113.163(c)(5) has been rewritten to conform to the reduced number of test birds. The second and subsequent retests of Master Seed Virus for immunogenicity has been changed to a 5 year interval in § 113.163(c)(6).

The lead paragraph in § 113.163(d) has been rewritten to provide an alternate pathogen test in a new (1). The proposed § 113.163(d)(1) has been redesignated as (2) and captioned as "Virus titration." For clarity "titration method" has been substituted for "procedure." Section 113.163(d) has also been changed by deleting § 113.163(d)(1)(i) and redesignating (ii) as (3).

The lead paragraph in § 113.163(e) has been rewritten to conform to changes in § 113.163(d). Section 113.163(e)(1) has been rewritten to retain a sample incubation requirement for release but not for testing during the expiration period.

Editorial changes have been made in § 113.163(e)(2)(iii) for clarity. Section 113.163(e)(3) has been reworded to limit the test requirements to modified live virus vaccine.

Section 113.164(a) has been reworded to exempt the Master Seed Virus from the test in § 113.34. Section 113.164(b) has been reworded to provide for an inconclusive test. The number of test birds prescribed in § 113.164(c) has been changed from thirty or more to 20 or more. Spelling of "vaccine" has been corrected in § 113.164(c)(2). The route of challenge has been added in § 113.164(c)(3) for uniformity. Section 113.164(c)(4) has been rewritten to conform to the reduced number of test birds. The second and subsequent retests of Master Seed Virus for immunogenicity has been changed to a 5 year interval in § 113.164(c)(5).

The lead paragraph in § 113.164(d) has been reworded to exempt Newcastle Disease Vaccine from the test in § 113.34. Section 113.164(d)(1) has been redesignated (2) and reworded for clarity and a new subparagraph (1) inserted to conform with § 113.164(b).

Section 113.164(d)(1)(i) and (ii) have been changed by deleting (i) and redesignating (ii) as (3) and changing the virus titer requirements to $10^{5.0}$ EID_{50} per dose.

The lead paragraph in § 113.164(e) has been reworded to exempt Newcastle Disease Vaccine from § 113.34. Section 113.164(e)(1) has been rewritten to reduce the virus titer requirements to $10^{6.5}$ EID_{50} per dose. Section 113.164(e)(1) and § 113.164(e)(1)(i) have been deleted. Section 113.164(e)(1)(ii) has been redesignated as § 113.164(e)(1). The table in § 113.164(e)(4)(ii) has been condensed to make publication in a column possible.

Section 113.165(c) is being reserved at this time. The proposed potency test requirements for the Master Seed Virus for Marek's disease vaccine are being withheld pending further development of a satisfactory challenge virus and procedure. Section 113.165(d) has been corrected to exempt Marek's disease vaccine from the virus identity requirements in § 113.135(c). The proposed 7 day sample incubation period in § 113.165(d)(3) has been reduced to 3 days.

Part 113, Standard Requirements, of Title 9 of the Code of Federal Regulations, is amended as follows:

§ 113.27 Detection of viable bacteria and fungi in live vaccines.

* * * * *

(a) *Live viral vaccines.* Each biological product composed of live virus shall be tested according to the procedures prescribed in this paragraph: *Provided*, That, a biological product of chicken embryo origin recommended for use in a manner other than parenteral injection may be tested in accordance with the test prescribed in paragraph (d) of this section.

* * * * *

(d) Live viral vaccines of chicken embryo origin recommended for use in a manner other than parenteral injection which have not been found free of bacteria and fungi by the procedures prescribed in paragraph (a) of this section may be tested according to the procedures prescribed in this paragraph.

(1) The medium shall be Brain Heart Infusion Agar with 500 Kinetic (Kersey) units of penicillinase per ml of medium added to the agar just prior to pouring the plates.

(2) Test procedures. (i) Ten final container samples of completed product from each serial and each subserial shall be tested using the medium prescribed in paragraph (d)(1) of this section.

(ii) Immediately prior to starting the test, frozen liquid vaccine shall be thawed, and lyophilized vaccine shall be rehydrated to the quantity recommended on the label using sterile distilled water or accompanying sterile diluent. Product recommended for mass vaccination shall be rehydrated at the rate of 30 ml sterile distilled water per 1000 doses.

(iii) From each sample, two plates shall be inoculated with vaccine equal to 10 doses as recommended for poultry or one dose as recommended for other animals.

(iv) Twenty ml of medium shall be added to each plate.

(v) One plate shall be incubated at 30–35° C for seven days and the other plate shall be incubated at 20–25° C for 14 days.

(vi) Colony counts shall be made for each plate. An average colony count for the ten samples representing a serial or subserial shall be computed for each incubation condition.

(vii) If the average count at either incubation condition for a serial or subserial exceeds one colony per dose for vaccines recommended for poultry or ten colonies per dose for vaccines recommended for other animals, the serial or subserial is unsatisfactory.

§ 113.127 Encephalomyelitis Vaccine, Eastern and Western, Killed Virus.

Encephalomyelitis Vaccine, Eastern and Western, Killed Virus, shall be prepared from virus-bearing cell culture fluids. Except for § 113.120(d), each serial and subserial shall meet the general requirements prescribed in § 113.120 and the requirements prescribed in this section. Any serial or subserial found unsatisfactory by a prescribed test shall not be released.

(a) *Safety test.* Bulk samples of completed product from each serial shall be tested for encephalomyelitis virus inactivation.

(1) Each of at least ten 6 to 12 hour old chickens shall be injected subcutaneously with 0.5 ml of the product and the chickens observed each day for 10 days.

(2) If unfavorable reactions attributable to the product occur in the chickens during the observation period, the serial is unsatisfactory. If unfavorable reactions not attributable to the product occur, the test is inconclusive and may be repeated: *Provided*, That, if the test is not repeated, the serial is unsatisfactory.

(b) *Potency tests.* Bulk or final container samples of completed product from each serial shall be tested for potency as provided in this paragraph. For these tests, a guinea pig dose shall be one-half the amount recommended on the label for a horse and shall be administered as recommended for a horse except for the interval between the first and second dose.

(1) *Eastern Type Fraction.* Each of 10 healthy guinea pigs (vaccinates) shall be injected with two guinea pig doses with an interval of 14 to 21 days between doses. Two additional guinea pigs from the same source shall be held as controls.

(i) Fourteen to twenty-one days after the second inoculation, serum samples from each of the vaccinates and the controls shall be tested by the plaque reduction serum neutralization test.

(ii) If the control serum samples show a titer greater than 1:2, the test is inconclusive and may be repeated; *Provided*, That, if at least nine of the vaccinate serum samples do not show a titer of 1:4 or greater, the serial or subserial is unsatisfactory.

(2) *Western Type Fraction.* Each of 10 healthy guinea pigs (vaccinates) shall be injected with two guinea pig doses with an interval of 7 days between doses. Five additional guinea pigs from the same source shall be held as controls.

(i) Ten to fourteen days after the second dose, at least nine of the 10 vaccinates and the five controls shall be injected intracerebrally with 0.1 ml of a virulent virus suspension and the guinea pigs observed each day for 10 days.

(ii) If at least 80 percent of the controls do not die or show signs of encephalomyelitis during the observation period, the test is inconclusive and may be repeated; *Provided*, That, if more than two of the challenged vaccinates die or show signs of encephalomyelitis during the observation period, the serial or subserial is unsatisfactory.

§ 113.128 Avian Encephalomyelitis Vaccine (Killed Virus).

Avian Encephalomyelitis Vaccine (Killed Virus) shall be prepared from virus-bearing tissues or fluids obtained from embryonated chicken eggs. Each serial shall meet the general requirements prescribed in § 113.120 and the re-

quirements prescribed in this section. Any serial found unsatisfactory by a prescribed test shall not be released.

(a) *Safety tests.* (1) The prechallenge part of the potency test prescribed in paragraph (b) of this section shall constitute a safety test. If any of the vaccinates develop clinical signs of disease or die due to causes attributable to the product, the serial is unsatisfactory.

(2) An inactivation test for viable avian encephalomyelitis (AE) virus shall be conducted on each serial. The test shall be conducted using susceptible chicken embryos; *Provided*, That, if a non-embryo adapted virus is used for vaccine production, the test shall be conducted in susceptible chickens.

(i) *Chicken Embryo Test.* Each of 15 or more AE susceptible 5 or 6 day old embryos shall be injected in the yolk sac with 0.2 ml of the vaccine. For a valid test, at least 80 percent of the embryos shall survive for 48 hours post-inoculation (PI). Eleven to 13 days PI, all embryos surviving the 48 hour PI period shall be examined for gross lesions of AE; all these embryos shall be normal or the serial is unsatisfactory. Concurrently, five additional embryos from the same source shall be injected with live AE virus of the production strain to serve as positive controls. At least 4 of the 5 embryos shall show evidence of AE virus infection during the 11 to 13 day PI period or the test shall be considered inconclusive and repeated; *Provided*, That, if the test is not repeated, the serial shall be declared unsatisfactory.

(ii) *Chicken test.* Each of 10 or more AE susceptible 7 day old chickens shall be injected intracerebrally with 0.1 ml vaccine each. The chickens shall be observed each day for 28 days. If any chickens show clinical signs of AE, the serial is unsatisfactory. Concurrently, 5 additional chickens from the same source shall be injected intracerebrally with live AE virus of the production strain to serve as positive controls. At least 4 of the 5 controls shall show evidence of AE virus infection during the observation period or the test shall be inconclusive and may be repeated; *Provided*, That, if the test is not repeated, the serial shall be unsatisfactory.

(b) *Potency test.* Bulk or final container samples of completed product from each serial or one subserial shall be tested. Ten or more AE-susceptible chickens (vaccinates), 4 weeks or older, properly identified and obtained from the same source and hatch, shall be injected as recommended on the label. At least 10 additional AE-susceptible chickens, properly identified and obtained from the same source and hatch shall be kept in isolation as controls.

(1) At least 28 days post-injection, the vaccinates and the controls shall be challenged intramuscularly with a virulent AE virus and the chickens observed each day for 21 days.

(2) If at least 80 percent of the controls do not show clinical signs of or die from AE infection, the test is inconclusive and may be repeated.

(3) If at least 80 percent of the vaccinates do not remain normal, the serial is unsatisfactory.

§ 113.129 Rabies Vaccine (Killed Virus).

Rabies Vaccine (Killed Virus) shall be prepared from virus-bearing cell cultures or nerve tissues obtained from animals that have developed rabies infection following injection with rabies virus. Only Master Seed Virus which has been established as pure, safe, and immunogenic shall be used for preparing the production seed virus for vaccine production. All serials of vaccine shall be prepared from the first through the fifth passage from the Master Seed Virus.

(a) The Master Seed Virus shall meet the applicable requirements prescribed in § 113.135 and the requirements prescribed in this section.

(1) Each lot of Master Seed Virus shall be tested for viral agents by procedures prescribed in § 113.52(d) (4), (5), and (6) with the modification that one ml of Master Seed Virus is substituted for the one ml aliquot of disrupted cells.

(2) Each lot of Master Seed Virus propagated in tissue or cells of avian origin shall also be tested for extraneous pathogens by procedures prescribed in § 113.37.

(3) Each lot of Master Seed Virus propagated in primary cell cultures of hamster origin or brain tissues of mouse origin shall be tested for lymphocytic choriomeningitis (LCM) virus by the procedure for testing vaccine prescribed in subparagraph (d)(1) of this section. If LCM virus is detected, the Master Seed Virus is unsatisfactory. Vaccine virus may be neutralized with specific antiserum when necessary.

(b) The immunogenicity of the lot of Master Seed Virus shall be established in all species for which the vaccine is recommended.

(1) Thirty-five animals of each species shall be used as test animals (25 vaccinates and 10 controls). Blood samples shall be drawn from these animals and individual serums tested. Only animals which are negative at 1:2 final serum dilution for neutralizing antibodies to rabies shall be used.

(2) The preinactivation virus titer shall be established by at least five separate virus titrations. A mean relative potency value of the vaccine used in the host animal potency test shall be established by at least five replicate potency tests conducted in accordance with the National Institutes of Health test for Potency in Chapter 33 of *Laboratory Techniques in Rabies*, 1973 Edition, World Health Organization, Geneva. The volumetric method of calculation shall be used.

(3) Each of 25 vaccinates shall be injected with one dose as recommended on the label. A second such dose may be injected 30 days after the first dose unless the test is intended to qualify the vaccine for label recommendations which specify a single dose for primary immunizations.

(4) On or about days 30, 60, 90, 180, 270, and 365 post-injection, all test animals shall be bled and individual serums tested for neutralizing antibodies to rabies virus.

(5) Virulent street virus shall be furnished or approved by Veterinary Services. One year after the last dose of vaccine, challenge virus shall be injected bilaterally into the masseter muscles and the animals observed each day for 90 days as prescribed in § 113.5(b).

(i) When cattle, horses, sheep, and goats are the test animals, the immunity of the five vaccinates having the lowest titers shall be challenged: *Provided*, That, all vaccinates with titers below 1:5 shall be challenged. The remainder of the vaccinates may be challenged at a later date and the results included in the criteria used to establish a satisfactory Master Seed Virus.

(ii) When species other than those specified in subdivision (i) of this subparagraph are used for test animals, all vaccinates shall be challenged.

(iii) If at least 80 percent of the controls do not die from rabies during the observation period, the test is inconclusive.

(iv) If at least 85 percent of the challenged vaccinates do not remain well during the observation period, the Master Seed Virus is unsatisfactory.

(6) The Master Seed Virus shall be retested for immunogenicity in 3 years and each 5 years thereafter unless use of the lot previously tested is discontinued. Only five vaccinates and five controls need to be used in the retest and the retest may be limited to serological response of the vaccinates if such response is equal to or greater than that in the original immunogenicity test.

(7) An Outline of Production change shall be made before authority for use of a new lot of Master Seed Virus shall be granted by Veterinary Services.

(c) If more than 1 year duration of immunity is to be claimed, a duration of immunity test for the additional time shall be conducted as prescribed in subparagraph (b)(5) of this section for the 1 year test. At least 25 vaccinates shall be selected at the time the test is started for each challenge period. The test animals may be monitored serologically and the time of challenge adjusted accordingly. A duration of immunity test shall be considered satisfactory if 85 percent of the vaccinates are shown to be immune.

(d) Test requirements for release: Each serial and each subserial shall meet the general requirements prescribed in § 113.120 and special requirements in this paragraph.

(1) *Purity test.* (i) Primary cell cultures of hamster origin or brain tissues of mouse origin used in vaccine production shall be tested for LCM virus. Hamster origin cells shall be disrupted and undiluted cell fluids from each lot shall be tested. Where mouse brains are used in production, at least five mice which have not been injected with rabies virus shall be sacrificed and

XUM
V 2 1 93 0 5 N D 2 7 7 4 7 4
XUM

a 10 percent suspension of brain material shall be prepared and tested as follows:

(ii) Each of at least 10 mice obtained from a source free of LCM shall be injected in the foot pad of a hind foot with 0.02 ml and the mice observed each day for 21 days.

(iii) If any of the mice show swelling in the injected foot pad or if more than one becomes systemically abnormal, the serial or subserial is unsatisfactory.

(2) *Safety tests.* Bulk samples from each serial shall be tested for virus inactivation and safety as follows:

(i) At the end of the inactivation period, each of 20 12 to 16 gram mice shall be injected intracerebrally with 0.03 ml and two rabbits shall be injected into each cerebral hemisphere with 0.25 ml and observed each day for 21 days. The brains of animals dying between the fourth and 21st day post-injection shall be checked for rabies virus. Material from each brain recovered shall be injected into each of five mice and the mice observed each day for 14 days. The fluorescent antibody test or serum neutralization test shall be used to confirm the presence or absence of live rabies virus. If live rabies virus is confirmed, the serial is unsatisfactory unless reprocessed in accordance with § 114.18.

(ii) Each of three young (less than 6 months of age) seronegative animals of one species for which the vaccine is recommended shall be injected in the manner and dosage for primary immunization stated on the label. If one dose is used, the animals shall be observed each day for 30 days. If two doses are used, the animals shall be observed each day for 14 days after the second dose. If unfavorable reactions attributable to the product occur, the serial is unsatisfactory.

(3) *Potency test.* Bulk or final container samples of complete product from each serial shall be tested for potency by the National Institutes of Health Test described in Chapter 33, *Laboratory Techniques in Rabies*, 1973 edition. World Health Organization, Geneva. The volumetric method of calculation shall be used. The relative potency of each serial shall be at least equal to that used in an approved host animal potency study. Until such host animal potency study is approved, potency tests shall be in accordance with the filed Outline of Production.

§ 113.139 Feline Panleukopenia Vaccine.

Feline Panleukopenia Vaccine shall be prepared from virus-bearing cell culture fluids. Only Master Seed Virus which has been established as pure, safe, and immunogenic shall be used for preparing the production seed virus for vaccine production. All serials of vaccine shall be prepared from the first through the fifth passage from the Master Seed Virus.

(a) The Master Seed Virus shall meet the applicable general requirements prescribed in § 113.100 and the requirements prescribed in this section.

(b) The lot of Master Seed Virus shall be tested for other agents as follows:

(1) To detect virulent feline panleukopenia virus or virulent mink enteritis virus, each of two feline panleukopenia susceptible cats, as determined by the criteria prescribed in paragraph (c)(1) of this section, shall be injected subcutaneously with the equivalent of one cat dose each and the cats observed each day for 21 days. If either or both cats show signs of disease or reduced white blood cell counts below 50 percent of the normal level established by an average of three or more counts taken prior to injection, the Master Seed Virus is unsatisfactory.

(2) To detect chlamydial agents, the yolk sac of 6 day old chicken embryos shall be injected. Three groups of 10 embryos shall be used sequentially.

(i) The inoculum for each embryo in the first group shall consist of 0.5 ml of a mixture of equal parts of the seed virus with phosphate buffered saline containing 2 mg/ml each of Streptomycin, Vancomycin, and Kanomycin.

(ii) On the tenth day post-inoculation, the yolk sacs of viable embryos shall be harvested, pooled, homogenized as a 20 percent suspension in phosphate buffered saline antibiotic diluent, and 0.5 ml of the mixture injected into the second group of chicken embryos. This process shall be repeated for the injection of the third group of embryos using the yolk sacs of viable embryos from the second group.

(iii) For each of the three passages, embryos deaths occuring within 48 hours of injection shall be disregarded except that if more than three such deaths occur at any passage, that passage shall be repealed.

(iv) If one or more embryo deaths occur at any passage after 48 hours post-injection, the yolk sacs from each of the dead embryos shall be subcultured into 10 additional embryos. If embryo deaths again occur, the seed virus is disqualified for use to produce vaccine.

(c) Each lot of Master Seed Virus used for vaccine production shall be tested for immunogenicity. The selected virus dose from the lot of Master Seed Virus shall be established as follows:

(1) Twenty-five feline panleukopenia susceptible cats shall be used as test animals (20 vaccinates and five controls). Blood samples shall be drawn from these animals and individual serums tested. The cats shall be considered susceptible if:

(i) The results are negative at a 1:2 final serum dilution in a virus neutralization test with less than 500 $TCID_{50}$ of feline panleukopenia virus; or

(ii) A total leukocyte count of less than 4,000 occurs in a littermate challenged with virulent feline panleukopenia virus.

(2) A geometric mean titer of the dried vaccine produced from the highest passage of the Master Seed Virus shall be established before the immunogenicity test is conducted. The 20 cats used as vaccinates shall be injected with a predetermined quantity of vaccine virus and the remaining five cats held as uninjected controls. To confirm the dosage calculations, five replicate virus titrations shall be conducted on a sample of the vaccine virus dilution used.

(3) Fourteen days post-injection, the vaccinates and the controls shall be challenged with virulent feline panleukopenia virus furnished by Veterinary Services and the cats observed each day for 14 days.

(i) If at least 80 percent of the controls do not show clinical signs of feline panleukopenia, the test is inconclusive and may be repeated. Symptoms shall include a pronounced leukopenia wherein the white blood cell count drops to less than 25 percent of the normal level established by an an average of three or more counts taken prior to challenge.

(ii) If at least 19 of the 20 vaccinates do not survive without showing clinical signs of feline panleukopenia or a pronounced drop in white blood cell count during the observation period, the Master Seed Virus is unsatisfactory.

(4) The Master Seed Virus shall be retested for immunogenicity in 3 years and each 5 years thereafter unless use of the lot previously tested is discontinued. Only five vaccinates and five controls need to be used in the retest: *Provided*, That, five of five vaccinates and at least four of the controls shall meet the criteria prescribed in paragraph c(3) of this section.

(5) An Outline of Production change shall be made before authority for use of a new lot of Master Seed Virus shall be granted by Veterinary Services.

(d) *Test requirements for release.* Each serial and subserial shall meet the requirements prescribed in § 113.135 and in this paragraph. Final container samples of completed product shall be tested. Any serial or subserial found unsatisfactory by a prescribed test shall not be released.

(1) *Safety tests.* The mouse safety test prescribed in § 113.33(a) and the cat safety test prescribed in this subparagraph shall be conducted.

(i) Each of two healthy cats shall be injected with 10 cat doses by the method recommended on the label and the cats observed each day for 14 days.

(ii) If unfavorable reactions attributable to the biological product occur during the observation period, the serial is unsatisfactory. If unfavorable reactions occur which are not attributable to the product, the test shall be declared inconclusive and repeated; *Provided*, That, if not repeated, the serial shall be unsatisfactory.

(2) *Potency test.* An in vitro potency test shall be conducted. To be eligible for release, each serial and each subserial shall have a virus titer sufficiently greater than the titer of vaccine virus used in the immunogenicity test prescribed in paragraph (c) of this section to assure that, when tested at any time within the expiration period, each serial and subserial shall have a virus titer of 0.7 logs greater than that used in such immunogenicity test but not less than $10^{7.0}$ ID_{50} per dose when tested by the method used in paragraph (c)(2) of this section.

§ 113.140 · Canine Hepatitis Vaccine.

Canine Hepatitis Vaccine shall be prepared from virus bearing cell culture fluids. Only Master Seed Virus which has been established as pure, safe, and immunogenic shall be used in preparing the production seed virus for vaccine production. All serials shall be prepared from the first through the fifth passage from the Master Seed Virus.

(a) The Master Seed Virus shall meet the applicable requirements prescribed in § 113.135 and the requirements prescribed in this section.

(b) The lot of Master Seed Virus shall be tested for other viral agents as follows:

(1) To detect wild infectious canine hepatitis virus, each of two canine hepatitis susceptible dogs or foxes shall be injected intravenously with 2.0 ml of the seed virus and observed each day for 21 days. If clinical signs or deaths due to infectious canine hepatitis occur in either test animal during the observation period the seed virus is unsatisfactory.

(2) To detect virulent canine distemper virus, each of 2 ferrets known to be susceptible to canine distemper virus shall be injected with 1.0 ml of the seed virus and observed each day for 21 days. If clinical signs or deaths due to canine distemper occur in either test animal during the observation period, the seed virus is unsatisfactory.

(3) To detect canine distemper virus, 10 Leighton tubes containing coverslips or equally suitable cell culture vessels shall be seeded with any type cell that is susceptible to canine distemper virus. When the cell growth is satisfactory, each of five vessels shall be inoculated with 0.2 ml mixture of seed virus and antiserum (equal volumes of virus and monospecific high titer infectious canine hepatitis antiserum). Seven to ten days later, all the cell cultures shall be stained with a canine distemper specific fluorescent antibody. If all the cell cultures are not negative for specific viral staining, the seed virus is unsatisfactory. Positive virus controls shall be included.

(c) Each lot of Master Seed Virus used for vaccine production shall be tested for immunogenicity. The selected virus dose from the lot of Master Seed Virus being tested shall be established as follows:

(1) Twenty-five canine hepatitis susceptible dogs shall be used as test animals (20 vaccinates and five controls). Blood samples shall be drawn from these animals and individual serum samples tested. The dogs shall be considered susceptible if the results are negative at a 1:2 final serum dilution in a varying serum-constant virus neutralization test with less than 500 $TCID_{50}$ of infectious canine hepatitis virus.

(2) A geometric mean titer of the dried vaccine produced from the highest passage of the Master Seed Virus shall be established before the immunogenicity test is conducted. The 20 dogs to be used as vaccinates shall be injected with a predetermined quantity of vaccine virus and the remaining five dogs held as uninjected controls. To confirm the dosage calculations, five replicate virus titrations shall be conducted on a sample of the vaccine virus dilution used.

(3) Not less than fourteen days postinjection, the vaccinates and the controls shall each be challenged intravenously with virulent infectious canine hepatitis virus and observed each day for 14 days.

(i) If at least four of the five controls do not die and the survivor, if any, does not show clinical signs of infectious canine hepatitis and infectious canine hepatitis virus is not isolated from such survivor, the test is inconclusive and may be repeated.

(ii) If at least 19 of the 20 vaccinates do not survive without showing clinical signs of infectious canine hepatitis during the observation period, the Master Seed Virus is unsatisfactory.

(4) The Master Seed Virus shall be retested for immunogenicity in 3 years and each 5 years thereafter unless use of the lot previously tested is discontinued. Only five vaccinates and five controls need to be used in the retest: *Provided*, That, five of five vaccinates and at least four of the controls shall meet the criteria prescribed in paragraph (c) (3) of this section.

(5) An Outline of Production change shall be made before authority for use of a new lot of Master Seed Virus shall be granted by Veterinary Services.

(d) Test requirements for release:

Each serial and subserial shall meet the general requirements prescribed in § 113.135 and special requirements in this paragraph. Final container samples of completed product shall be tested. Any serial or subserial found unsatisfactory by a prescribed test shall not be released.

(1) The dog safety test prescribed in § 113.40 and the mouse safety test prescribed in § 113.33 (a) shall be conducted.

(2) Potency test: An in vitro potency test shall be conducted. To be eligible for release, each serial and subserial shall have a virus titer sufficiently greater than the titer of vaccine virus used in the immunogenicity test prescribed in paragraph (c) of this section to assure that, when tested at any time within the expiration period, each serial and subserial shall have a virus titer .7 logs greater than that used in such immunogenicity test but not less than $10^{7.6}$ $TCID_{50}$ per dose when tested by the method used in paragraph (c) (2) of this section.

§ 113.141 Canine Distemper Vaccine (Ferret Avirulent).

Canine Distemper Vaccine (Ferret Avirulent) shall be prepared from virus-bearing cell culture fluids or embryonated chicken eggs. Only Master Seed Virus which has been established as pure, safe, and immunogenic shall be used for preparing the production seed virus for vaccine production. All serials of vaccine shall be prepared from the first through the fifth passage from the Master Seed Virus.

(a) The Master Seed Virus shall meet the applicable requirements prescribed in § 113.135 and the requirements prescribed in this section.

(b) The lot of Master Seed Virus shall be tested for other viral agents as follows:

(1) To detect wild canine distemper virus, each of two canine distemper susceptible ferrets shall be injected with a sample of the Master Seed Virus equivalent to the amount of virus to be used in one dog dose and observed each day for 21 days. If undesirable reactions occur in either ferret, the lot of Master Seed Virus is unsatisfactory.

(2) To detect infectious canine hepatitis virus, the two tests prescribed in this subparagraph shall be used.

(i) Each of two infectious canine hepatitis susceptible dogs or foxes shall be injected with 0.05 ml of the Master Seed Virus into the anterior chamber of one eye and examined each day for 14 days for corneal opacity. If the eyes do not remain clear, the Master Seed Virus is unsatisfactory.

(ii) Ten Leighton tubes containing coverslips or equally suitable cell culture vessels shall be seeded with any type cell that is susceptible to infectious canine hepatitis virus. When the cell growth is satisfactory, each of five tubes shall be inoculated with 0.1 ml of the Master Seed Virus. Seven to ten days later, all the cell cultures shall be stained with infectious canine hepatitis specific fluorescent antibody. If all cell cultures are not negative, the Master Seed Virus is unsatisfactory. A positive control shall be used for comparison.

(3) Master Seed Virus propagated in chicken embryos shall be tested for pathogens by the chicken embryo test prescribed in § 113.37. If found unsatisfactory, the Master Seed Virus shall not be used.

(c) Each lot of Master Seed Virus used for vaccine production shall be tested for immunogenicity. The selected virus dose from the lot of Master Seed Virus shall be established as follows:

(1) Twenty-five canine distemper susceptible dogs shall be used as test animals (20 vacinates and five controls). Blood samples shall be drawn from these animals and individual serum samples tested. The dogs shall be considered susceptible if the results are negative at a 1:2 final serum dilution in a varying serum-constant virus neutralization test with less than 500 ID_{50} of canine distemper virus.

(2) A geometric mean titer of the dried vaccine produced from the highest passage of the Master Seed Virus shall be established before the immunogenicity test is conducted. The 20 dogs used as vaccinates shall be injected with a predetermined quantity of vaccine virus and the remaining five dogs held as uninjected controls. To confirm the dosage calculations, five replicate virus titrations shall be conducted on a sample of the vaccine virus dilution used.

(3) At least twenty-one days postinjection, the vaccinates and the controls shall each be challenged intracerebrally with the same size dose of Snyder Hill canine distemper virus furnished by Veterinary Services and observed each day for 21 days.

XUM

(i) If at least four of the five controls do not die and the survivor, if any, does not show clinical signs of canine distemper and canine distemper virus isolated from such survivor, the test is inconclusive and may be repeated.

(ii) If at least 19 of the 20 vaccinates do not survive without showing clinical signs of canine distemper during the observation period, the Master Seed Virus is unsatisfactory.

(4) The Master Seed Virus shall be retested for immunogenicity in 3 years and each 5 years thereafter unless use of the lot previously tested is discontinued. Only five vaccinates and five controls need to be used in the retest: *Provided*, That, five of five vaccinates and at least four of the controls shall meet the criteria prescribed in paragraph (b)(3) of this paragraph.

(5) An Outline of Production change shall be made before authority for use of a new lot of Master Seed Virus shall be granted by Veterinary Services.

(d) Test requirements for release: Each serial and subserial shall meet the general requirements prescribed in § 113.135 and the requirements in this paragraph. Final container samples of completed product shall be tested. Any serial or subserial found unsatisfactory by a prescribed test shall not be released.

(1) *Safety tests.* The dog safety test prescribed in § 113.40 and the mouse safety test prescribed in § 113.33(a) shall be conducted.

(2) *Potency test.* An in vitro potency test shall be conducted. To be eligible for release, each serial and subserial shall have a virus titer sufficiently greater than the titer of the vaccine virus used in the immunogenicity test prescribed in paragraph (c) of this section to assure that, when tested at any time within the expiration period, each serial and subserial shall have a virus titer .7 logs greater than that used in such immunogenicity test but not less than $10^{2.0}$ ID_{50} per dose when tested by the method used in paragraph (c)(2) of this section.

§ 113.142 Canine Distemper Vaccine (Ferret Virulent).

Canine Distemper Vaccine (Ferret Virulent) shall be prepared from virus-bearing cell culture fluids or virus-bearing tissues obtained from ferrets that have developed canine distemper following inoculation with canine distemper virus. Only Master Seed Virus which has been established as pure, safe, and immunogenic shall be used for preparing the production seed virus for vaccine production. All serials of vaccine shall be produced from the first through the fifth passage from the Master Seed Virus.

(a) The Master Seed Virus shall meet the applicable requirements prescribed in § 113.135 and the special requirements prescribed in this section: *Provided*, That, the virus identity test in paragraphs (a)(1) and (2) of this section may be conducted instead of either test prescribed in § 113.135(c).

(1) Dogs used in the safety test in § 113.40 shall be bled prior to injection and 14 to 21 days post-injection and individual serum samples prepared. When tested by a serum-neutralization method (constant virus, 100 to 500 EID_{50}, varying serum), each sample shall show serological conversion by a four-fold increase in antibodies.

(i) Chorioallantoic membranes of five 6 to 8 day old chicken embryos shall each be inoculated with 0.2 ml of the virus-antiserum mixture and a like number similarly inoculated with 0.2 ml of the virus-diluent mixture.

(ii) Absence of evidence of virus on the membranes inoculated with virus-serum mixtures demonstrates specific neutralization, provided evidence of virus on the membranes inoculated with the virus-diluent mixture is demonstrated.

(2) Ferret virulence shall be demonstrated by the virus titration conducted in susceptible ferrets.

(b) The lot of Master Seed Virus shall be tested for other viral agents as follows:

(1) To detect infectious canine hepatitis virus each of two infectious canine hepatitis susceptible dogs or foxes shall be injected with 0.05 ml of the test virus into the anterior chamber of one eye. The dogs shall be examined each day for 14 days for corneal opacity characteristic of infectious canine hepatitis. To be satisfactory, the eyes shall remain clear.

(2) Ten Leighton tubes containing coverslips or equally suitable cell culture vessels shall be seeded with any type cell that is susceptible to infectious canine hepatitis. When cell growth is satisfactory, each of five vessels shall be inoculated with 0.1 ml of test virus. Seven to ten days later, all the slides shall be stained with infectious canine hepatitis fluorescent tagged specific antibody. To be satisfactory, all slides shall be negative. A positive control shall be included.

(c) Each lot of Master Seed Virus used for vaccine production shall be tested for immunogenicity. The selected virus dose from the lot of Master Seed Virus shall be established as follows:

(1) Twenty-five canine distemper susceptible dogs shall be used as test animals (20 vaccinates and five controls). Blood samples shall be drawn from these animals and individual serum samples tested. The dogs shall be considered susceptible if the results are negative at a 1:2 final serum dilution in varying serum-constant virus neutralization test with less than 500 ID_{50} of canine distemper virus.

(2) A geometric mean titer of the dried vaccine produced from the highest passage of the Master Seed Virus shall be established by a ferret injection method before the immunogenicity test is conducted. The 20 dogs used as vaccinates shall be injected with a predetermined quantity of vaccine virus and the remaining five dogs held as uninjected controls. To confirm the dosage calculations, a replicate virus titration shall be conducted on a sample of the vaccine virus dilution used. A satisfactory titration shall have at least one dilution having between 50 percent and 100 percent positives and at least one dilution having between 50 percent and 0 percent positives. At least 10 ferrets shall be used per dilution.

(3) Twenty-one days post-injection, the vaccinates and the controls shall each be challenged intracerebrally with the same size dose of Snyder Hill canine distemper virus furnished by Veterinary Services. The test animal shall be observed each day for 21 days.

(i) If at least four of the five controls do not die and the survivor, if any, does not show clinical signs of canine distemper and canine distemper virus isolated from such survivor, the test is inconclusive and may be repeated.

(ii) If at least 19 of the 20 vaccinates do not survive without showing clinical signs of disease during an observation period of 21 days, the Master Seed Virus is unsatisfactory.

(4) The Master Seed Virus shall be retested for immunogenicity in 3 years and each 5 years thereafter unless use of the lot previously tested is discontinued. Only five vaccinates and five controls need to be used in the retest: *Provided*, That, five of five vaccinates and at least four of the controls shall meet the criteria prescribed in paragraph (c)(3) of this section.

(5) An Outline of Production change shall be made before authority for use of a new lot of Master Seed Virus shall be granted by Veterinary Services.

(d) Test requirements for release: Each serial and subserial shall meet the general requirements prescribed in § 113.135, except that the virus identity test prescribed in paragraphs (a) (1) and (2) of this section may be used instead of tests prescribed in § 113.135(c), and the requirements in this paragraph. Any serial or subserial found unsatisfactory by a prescribed test shall not be released.

(1) *Purity test.* Primary dog kidney cells which have been tested as prescribed in § 113.51 covering an area equal to two glass or plastic flasks (150 cm^2 total) and Vero cells covering an area equal to one glass or plastic flasks (75 cm^2 total) shall be used for testing for extraneous viral agents as follows:

(i) Harvesting bulk untreated material consisting of ferret spleen suspension or ferret kidney tissue culture fluids or both shall be inoculated onto the monolayers in amounts equal to five percent of the amount of maintenance media in the flasks. The inoculum shall be allowed to adsorb for 2 hours and then be removed.

(ii) The cells shall be washed with phosphate buffered saline (PBS) and maintenance media added. Twenty-four hours later the media may be changed if there is evidence of cytotoxicity from the inoculum.

(iii) All cultures shall be observed each day for 14 days after inoculation for cytopathic effect (CPE). Subcultures shall be conducted if necessary.

(iv) If there is no CPE, one of the primary dog kidney cell monolayers shall be washed in several changes of PBS and tested by successive hemadsorption tests using 0.2 percent human 0, guinea pig,

and chickens erythrocytes. After each appropriate incubation period, the cells shall be observed for hemadsorption indicating presence of a virus.

(v) The second primary dog kidney monolayer shall be subcultured in Leighton tubes with coverslips for appropriate fluorescent antibody tests.

(vi) If extraneous viral agents are detected, the serial or subserial shall not be released.

(2) *Safety tests.* Final container samples of completed product from each serial shall be tested for safety in dogs as prescribed in § 113.40 and in mice as prescribed in § 113.33(a).

(3) *Potency test.* To be eligible for release, each serial and subserial shall have a virus titer sufficiently greater than the virus dose used in the immunogenicity test prescribed in paragraph (c) of this section to assure that when tested at any time within the expiration period, each serial and subserial shall have a virus titer .7 logs greater than that used in the immunogenicity test when tested by the ferret injection method.

§ 113.143 Encephalomyelitis Vaccine, Venezuelan.

Encephalomyelitis Vaccine, Venezuelan, shall be prepared from virus-bearing cell culture fluids. Only Master Seed Virus which has been established as pure, safe, and immunogenic shall be used for preparing the production seed virus for vaccine production. All serials of vaccine shall be prepared from the first through the fifth passage from the Master Seed Virus.

(a) Except for § 113.135(b), the Master Seed Virus shall meet the applicable general requirements in § 113.135 and the requirements prescribed in this section.

(b) The immunogenicity of the lot of Master Seed Virus shall be established as follows:

(1) Tests conducted by the Department have established that horses having Venezuelan Equine Encephalomyelitis antibody titers of 1:20 by the hemagglutination-inhibition (HI) method or 1:40 by the serum neutralization (SN) method were immune to challenge with virulent virus. The immunogenicity test is based on the demonstration of a serological response of at least that magnitude following vaccination of serologically negative horses.

(2) Licensees may use previous experience to select a suitable vaccine dose for the immunogenicity test, based on guinea pig infective doses. The test shall be conducted on vaccine produced according to the Outline of Production from a lot of Master Seed Virus of the highest passage to be used in production.

(3) At least 20 horses (vaccinates), serologically negative to Eastern, Western, and Venezuelan equine encephalomyelitis, shall be injected with the predetermined virus dose. Two additional seronegative animals shall be held with the vaccinates as sentinel controls. At least two guinea pig potency tests shall be conducted with samples of the vaccine dilution used as inoculum for the horses.

(4) All animals shall be bled on vaccination days −14, 0, 14, and 28. For a test result to be satisfactory, all serum samples taken on days −14 and 0 shall be negative for Venezuelan Equine Encephalomyelitis (VEE) antibodies and at least 19 of the 20 serum samples taken from vaccinates on days 14 or 28 or both shall show antibody titers of at least 1:20 (HI) or 1:40 (SN). The serum samples from the sentinel controls shall be tested and should remain negative to validate the test.

(5) The Master Seed Virus shall be retested for immunogenicity in 3 years and each 5 years thereafter unless use of the lot previously tested is discontinued. Only five vaccinates and two controls need to be used in the retest: *Provided*, That, five of five vaccinates and at least four of the controls shall meet the criteria in paragraph (b)(4) of this section.

(6) An Outline of Production change shall be made before authority for use of a new lot of Master Seed Virus shall be granted by Veterinary Services.

(c) Test requirements for release: Each serial and subserial shall meet the applicable general requirements prescribed in § 113.135 and special requirements in this paragraph. Any serial or subserial found unsatisfactory by a prescribed test shall not be released.

(1) Safety tests. Bulk samples of product completed except for desiccation of bulk samples of each individual virus pool shall be tested as follows:

(i) Each of 10 young admit mice (16 to 20 grams each) shall be injected intraperitoneally with 0.3 ml of the undiluted virus sample and observed each day for 21 days. If unfavorable reactions attributable to the product occur in the mice during the observation period, the product is unsatisfactory. If unfavorable reactions occur which are not attributable to the product, the test is inconclusive and may be repeated.

(ii) Groups of at least five young adult mice (16 to 20 grams each) shall be injected intracerebrally with 0.03 ml of varying (tenfold 10^0 through 10^{-6}) dilutions of the virus sample and observed each day for 21 days.

(*a*) Mice dying within 24 hours postinoculation may be disregarded in interpreting the test, except that at least four mice shall remain in each group for a valid test. Brain tissue of all mice that die after 24 hours shall be reserved for possible subpassage if the first phase of the test is unsatisfactory.

(*b*) If at least 80 percent of the total number of mice survive and if deaths that occur are not dose related, the virus pool or serial sample is satisfactory: *Provided*, That, if more than 20 percent of the mice die or if deaths appear to be dose related, a 10 percent suspension of pooled brain tissue from all dead mice shall be injected intracerebrally into each of at least 10 mice. If at least 80 percent of the subpassage mice do not survive, the test result is unsatisfactory and the virus pool or serial shall be destroyed.

(2) Final container samples of completed product, rehydrated as recommended on the label, shall be tested in accordance with § 113.33(b) and § 113.38.

(3) Potency test: Each serial and each subserial shall be tested for potency using guinea pigs as the test animal. The test shall consist of determining the 50 percent infective dose as measured by serological conversion.

(i) Groups of at least 10 guinea pigs shall be injected intraperitoneally with 1.0 ml of tenfold serial dilutions of vaccine rehydrated as recommended on the label. The range of dilutions shall be such that less than 50 percent of the guinea pigs shall convert serologically at the highest dilution and more than 50 percent shall convert at the lowest dilution.

(ii) Ten percent of the guinea pigs shall be bled before inoculation. All of the guinea pigs shall be bled 14 days postinoculation.

(iii) All serums shall be tested for VEE antibody by the hemagglutination-inhibition test. Conversion shall be positive if the preinoculation titer is less than 1:10 (final dilution) and post-inoculation titer is 1:20 or higher.

(iv) The 50 percent guinea pig intraperitoneal infective dose ($GPIPID_{50}$) is calculated by the method of Reed-Muench or Spearman-Karber.

(v) To be eligible for release, each serial of vaccine shall have a $GPIPID_{50}$ titer of sufficiently greater than the titer of vaccine virus used in the immunogenicity test prescribed in paragraph (b) of this section to assure that when tested at any time within the expiration period, each serial shall have $GPIPID_{50}$ titer .7 logs greater than that used in such immunogenicity test but not less than $10^{3.7}$ $GPIPID_{50}$ per dose.

§ 113.144 Bovine Parainfluenza Vaccine.

Bovine Parainfluenza Vaccine shall be produced from virus-bearing cell culture fluids. Only Master Seed Virus which has been established as pure, safe, and immunogenic shall be used for preparing the production seed virus for vaccine production. All serials of vaccine shall be prepared from the first through the tenth passage from the Master Seed Virus.

(a) The Master Seed Virus shall meet the applicable general requirements prescribed in § 113.135 and the requirements prescribed in this section.

(b) The lot of Master Seed Virus shall be tested for other viral agents by procedures prescribed in § 113.51 for primary cells used in cell cultures.

(c) Each lot of Master Seed Virus used for vaccine production shall be tested for immunogenicity. The selected virus dose from the lot of Master Seed Virus shall be established as follows:

(1) Twenty-five bovine parainfluenza susceptible calves shall be used as test animals (20 vaccinates and five controls). Blood samples shall be drawn from these animals and individual serums tested. Also, nasal specimens shall be collected for virus isolation attempts. The calves shall be considered susceptible if:

(i) the results are negative at a 1:2 final serum dilution in a varying serum constant virus neutralization test with

less than 500 $TCID_{50}$ of bovine parainfluenza$_3$ virus; and

(ii) shall be negative to bovine parainfluenza$_3$ virus isolation attempts from the nasal specimens on the day of injection.

(2) A geometric mean titer of the dried vaccine produced from the highest passage of the Master Seed Virus shall be established before the immunogenicity test is conducted. The 20 calves to be used as vaccinates shall be injected with a predetermined quantity of vaccine virus and the remaining five calves held as uninjected controls. To confirm the dosage calculation, five replicate virus titrations shall be conducted on a sample of the vaccine virus dilution used.

(3) The vaccinates and controls shall be examined for clinical signs of respiratory disease and the body temperature taken and recorded on each of the first 14 consecutive days post-injection. The vaccinates shall be bled on day 6±2 days post-injection.

(4) Three to four weeks post-vaccination, all calves shall be bled for serum antibodies and nasal specimens shall be collected for PI$_3$ virus isolation. On the same day, all vaccinates and controls shall be given acceptable challenge PI$_3$ virus titrating at least $10^{7.0}$ $TCID_{50}$ per ml and the animals observed for 14 days. Two ml of the challenge virus shall be instilled in each nostril or shall be inhaled as an aerosol suspension. Upon request, challenge virus and instructions shall be furnished by Veterinary Services.

(5) Each animal shall be examined for clinical signs of respiratory disease and the body temperature recorded on each of the 14 consecutive days of the post-challenge observation period. Each day for at least the first 10 days post-challenge, nasal specimens for virus isolation attempts shall be taken. All animals shall be bled on day 6±2 days post-challenge, and all animals shall be bled at least once 14 to 28 days post-challenge for serum antibody studies.

(6) Satisfactory Test Criteria:

(i) All virus isolations attempts shall be by culture and at least one subculture in PI$_3$ susceptible cells for a total of at least 14 days.

(ii) Two to four weeks post-vaccination, at least 19 of the 20 vaccinates shall have PI$_3$ neutralizing antibody titers of at least 1:4 and all five controls shall be negative at 1:2 dilution. None of the post-vaccination serums collected from the vaccinates on day 6±2 days shall reveal serum neutralization antibody titers of 1:32 or greater based upon final dilution.

(iii) Satisfactory resistance to challenge by vaccinates shall be determined by a significant difference between virus isolation rates from vaccinates and controls. The virus neutralization titers of post-challenge serums and respiratory symptoms and temperatures from all animals shall be considered in the evaluation of the test validity.

(7) Designated animal alternates for test animals showing anamnestic antibody responses (titers 1:32 or greater) on day 6 serums may be included in the study under the following provisions:

(i) No more than five alternates shall be allowed for the vaccinates and no more than two for the controls.

(ii) Alternates shall be subject to all requirements outlined for the animals for which they are alternates.

(iii) Antibody values from alternate animals may be used only to replace values from up to and including five vaccinates which develop antibody of 1:32 or greater by day 6±2 days post-vaccination or up to and including two controls which develop antibody titers of 1:32 or greater by day 6±2 days post-challenge.

(8) A sequential test procedure may be used in lieu of the 20 calf requirement. A beta value of .05 and a tolerance level of .78 shall be required.

(9) The Master Seed Virus shall be retested for immunogenicity in 3 years and each 5 years thereafter unless use of the lot previously tested is discontinued. Only five vaccinates and five controls need to be used in the retest: *Provided*, That, five of five vaccinates and at least four of the controls shall meet the criteria prescribed in paragraph (c)(6) of this section.

(10) An Outline of Production change shall be made before authority for use of a new lot of Master Seed Virus shall be granted by Veterinary Services.

(d) Test requirements for release: Each serial and subserial shall meet the applicable general requirements prescribed in § 113.135 and the requirements in this paragraph. Final container samples of completed product shall be tested except as prescribed in paragraph (d)(1) of this section. Any serial or subserial found unsatisfactory by a prescribed test shall not be released.

(1) *Purity test.* The test for Brucella contamination prescribed in § 113.32 shall be conducted on each batch of primary cells intended for production use.

(2) *Safety test.* The mouse safety test prescribed in § 113.33(a) and the calf safety test prescribed in § 113.41 shall be conducted.

(3) *Potency test.* An in vitro potency test shall be conducted. To be eligible for release, each serial and each subserial shall have a virus titer sufficiently greater than the titer of the vaccine virus used in the immunogenicity test prescribed in paragraph (c) of this section to assure that when tested at any time within the expiration period, each serial and subserial shall have a virus titer .7 logs greater than that used in such immunogenicity test but not less than $10^{5.7}$ $TCID_{50}$ per dose by the method used in paragraph (c)(2) of this section.

§ 113.145 Bovine Rhinotracheitis Vaccine.

Bovine Rhinotracheitis Vaccine shall be prepared from virus-bearing cell culture fluids. Only Master Seed Virus which has been established as pure, safe, and immunogenic shall be used for preparing the production seed virus for vaccine production. All serials of vaccine shall be prepared from the first through the tenth passage from the Master Seed Virus.

(a) The Master Seed Virus shall meet the applicable requirements prescribed in § 113.135 and the requirements prescribed in this section.

(b) The lot of Master Seed Virus shall be tested for other viral agents by procedures prescribed in § 113.51 for primary cells used in cell cultures.

(c) Each lot of Master Seed Virus used for vaccine production shall be tested for immunogenicity. The selected virus dose from the lot of Master Seed Virus shall be established as follows:

(1) Twenty-five infectious bovine rhinotracheitis susceptible calves shall be used as test animals (20 vaccinates and five controls). Blood samples shall be drawn from these animals and individual serums tested. The calves shall be considered susceptible if the results are negative at a 1:2 final serum dilution by the virus plaque reduction method.

(2) A geometric mean titer of the dried vaccine produced from the highest passage of the Master Seed Virus shall be established before the immunogenicity test is conducted. The 20 calves to be used as vaccinates shall be injected with a predetermined quantity of vaccine virus and the remaining five calves held as uninjected controls. To confirm the dosage calculations, five replicate virus titrations shall be conducted on a sample of the vaccine virus dilution used.

(3) At least once during a period of 14 to 28 days post-vaccination, individual serum samples shall be collected for virus-neutralization tests from each of the vaccinates. The test virus shall be 100 to 500 $TCID_{50}$ bovine rhinotracheitis virus. Results shall be used in making a determination as prescribed in paragraph (c)(6) of this section.

(4) The vaccinates and the controls shall each be challenged with virulent infectious bovine rhinotracheitis virus and observed for 14 days. The rectal temperature of each animal shall be taken and the presence or absence of respiratory or other clinical signs of bovine rhinotracheitis noted and recorded on each of the 14 consecutive days.

(5) If at least four of the five controls do not show clinical signs of infectious bovine rhinotracheitis and a marked temperature rise to 104.5° F or higher post-challenge, the test shall be considered inconclusive and may be repeated.

(6) If less than 19 of the post-injection serum samples tested as prescribed in paragraph (c)(3) of this section show neutralization in all tubes of the 1:2 final serum dilution, or if more than one of the vaccines show a temperature of 103.5° F or higher for 2 or more days, or if more than one of the vaccinates exhibits respiratory or other clinical signs of infectious bovine rhinotracheitis, or both, the Master Seed Virus is unsatisfactory.

(7) A sequential test procedure may be used in lieu of the 20 calf requirement. A beta value of .05 and a tolerance level of .78 shall be required.

(8) The Master Seed Virus shall be retested for immunogenicity in 3 years and each 5 years thereafter unless use of the lot previously tested is discontinued. Only five vaccinates and five controls

need to be used in the retest; *Provided*, That, five of five vaccinates and at least four of the five controls shall meet the criteria prescribed in paragraphs (c) (5) and (6) of this section.

(9) An outline of Production change shall be made before authority for use of a new lot of Master Seed Virus shall be granted by Veterinary Services.

(d) Test requirements for release: Each serial and subserial shall meet the applicable general requirements prescribed in § 113.135 and the requirements in this paragraph. Final container samples of completed product shall be tested except as prescribed in paragraph (c) (1) of this section. Any serial or subserial found unsatisfactory by a prescribed test shall not be released.

(1) *Purity test.* The test for Brucella contamination prescribed in § 113.32 shall be conducted on each batch of primary cells intended for production use.

(2) *Safety test.* The mouse safety test prescribed in § 113.33(a) and the calf safety test prescribed in § 113.41 shall be conducted.

(3) *Potency test.* An in vitro potency test shall be conducted. To be eligible for release, each serial and each subserial shall have a virus titer sufficiently greater than the titer of the vaccine virus used in the immunogenicity test prescribed in paragraph (c) of this section to assure that when tested at any time within the expiration period, each serial and subserial shall have a virus titer .7 logs greater than that used in such immunogenicity test but not less than $10^{2.7}$ $TCID_{50}$ per dose by the method used in paragraph (c) (2) of this section.

§ 113.146 Bovine Virus Diarrhea Vaccine.

Bovine Virus Diarrhea Vaccine shall be prepared from virus-bearing cell culture fluids. Only Master Seed Virus which has been established as pure, safe, and immunogenic shall be used for preparing the production seed virus for vaccine production. All serials of vaccine shall be prepared from the first through the tenth passage from the Master Seed Virus.

(a) The Master Seed Virus shall meet the applicable requirements prescribed in § 113.135 and the requirements prescribed in this section.

(b) The lot of Master Seed Virus shall be tested for other viral agents by procedures prescribed in § 113.51 for primary cells used in cell cultures.

(c) Each lot of Master Seed Virus used for vaccine production shall be tested for immunogenicity. The selected virus dose from the lot of Master Seed Virus shall be established as follows:

(1) Twenty-five bovine virus diarrhea susceptible calves shall be used as test animals (20 vaccinates and five controls). Blood samples shall be drawn from these animals and individuals serum samples tested. The calves shall be considered susceptible to bovine virus diarrhea virus infection if the results are negative at a 1:2 final serum dilution in a varying serum-constant virus neutralization test with less than 500 $TCID_{50}$ of bovine virus diarrhea virus.

(2) A geometric mean titer of the dried vaccine produced from the highest passage of the Master Seed Virus shall be established before the immunogenicity test is conducted. The 20 calves to be used as vaccinates shall be injected with a predetermined quantity of vaccine virus and the remaining five calves held as uninjected controls. To confirm the dosage calculations, five replicate virus titrations shall be conducted on a sample of the vaccine virus dilution used.

(3) At least once during a period 14 to 28 days post-vaccination, individual serium samples shall be collected for virus-neutralization tests from each of the vaccinates. The test virus shall be less than 500 $TCID_{50}$ of bovine virus diarrhea virus. The white cell count for all vaccinates and controls shall be established at least 3 days just before challenge. Results shall be used in making a determination as prescribed in paragraph (c) (5) of this section.

(4) The vaccinates and the controls shall each be challenged with virulent bovine virus diarrhea virus and observed for 14 consecutive days. The white cell count shall be determined daily on each animal from the second through the eighth day post-challenge. If leukopenia does not develop in at least four of the five controls as compared with the vaccinates, the test shall be considered inconclusive and may be repeated.

(5) If less than 19 of the post-injection serum samples, tested as prescribed in paragraph (c) (3) of this section, show neutralization in all tubes of the 1:8 dilution; or if more than one of the vaccinates exhibits respiratory or other clinical signs of bovine virus diarrhea post-challenge; or both, the Master Seed Virus is unsatisfactory.

(6) A sequential test procedure may be used in lieu of the 20 calf requirement. A beta value of .05 and a tolerance level of .78 shall be required.

(7) The Master Seed Virus shall be retested for immunogenicity in 3 years and each 5 years thereafter unless use of the lot previously tested is discontinued. Only five vaccinates and five controls need to be used in the retest: *Provided*, That, five of five vaccinates and at least four of the five controls shall meet the criteria prescribed in paragraphs (c) (4) and (5) of this section.

(8) An Outline of Production change shall be made before authority for use of a new lot of Master Seed Virus shall be granted by Veterinary Services.

(d) *Test requirements for release.* Each serial and subserial shall meet the applicable general requirements prescribed in § 113.135 and the requirements in this paragraph. Final container samples of completed product shall be tested except as prescribed in paragraph (c) (1) of this section. Any serial or subserial found unsatisfactory by a prescribed test shall not be released.

(1) *Purity test.* The test for Brucella contamination prescribed in § 113.32 shall be conducted on each batch of primary cells intended for production use.

(2) *Safety test.* The mouse safety test prescribed in § 113.33(a) and the calf safety test prescribed in § 113.41 shall be conducted.

(3) *Potency test.* An in vitro potency test shall be conducted. To be eligible for release, each serial and each subserial shall have a virus titer sufficiently greater than the titer of the vaccine virus used in the immunogenicity test prescribed in paragraph (c) of this section to assure that when tested at any time within the expiration period, each serial and subserial shall have a virus titer. 7 logs greater than that used in such immunogenicity test but not less than $10^{2.5}$ $TCID_{50}$ per dose by the method used in paragraph (c) (2) of this section.

§ 113.147 Rabies Vaccine.

Rabies Vaccine shall be prepared from virus-bearing cell cultures or embryonated chicken eggs. Only Master Seed Virus which has been established as pure, safe and immunogenic shall be used for preparing the production seed virus for vaccine production. All serials of vaccine shall be prepared from the first through the fifth passage from the the Master Seed Virus.

(a) The Master Seed Virus shall meet the applicable requirements prescribed in § 113.135 and the requirements prescribed in this section.

(1) The lot of Master Seed Virus shall be tested for viral agents by procedures prescribed in § 113.52 (d), (4), (5) and (6) with the modification that one ml. of Master Seed Virus is substituted for the one ml aliquot of disrupted cells.

(2) Each lot of Master Seed Virus propagated in tissues or cells of avian origin shall be tested for pathogens by procedures prescribed in § 113.37.

(3) Each lot of Master Seed Virus propagated in primary cell cultures of hamster origin or brain tissues of mouse origin shall be tested for lymphocytic choriomeningitis (LCM) virus. The vaccine virus may be neutralized with specific antiserum when necessary.

(i) Each of at least 10 mice obtained from a source free of LCM shall be injected in a hind foot pad with 0.02 ml and the mice observed each day for 21 days.

(ii) If any of the mice show swelling in the injected foot pad or if more than one become systemically abnormal, the Master Seed Virus is unsatisfactory.

(4) The Master Seed Virus shall be studied in each species of carnivore or domesticated wild animal for which the vaccine is specifically recommended to attempt to determine the fate of the vaccine virus. Results shall be considered in evaluating safety of vaccine virus.

(i) Obtain at least 10 unvaccinated animals, negative at 1:2 final serum dilution, of each species in which tests will be conducted. Divide each species into two groups of five animals.

(ii) For each species of animal, inject one group of five animals intramuscularly. Infiltrate a major nerve and the surrounding tissue in each of the five animals in the other group. Use 1.0 ml of high titer virus for each method of administration.

XUM
DEC 27 1974 V39 N250

(iii) Observe all animals for signs of rabies until scheduled time to sacrifice. If animals show definite symptoms, sacrifice and check regional lymph nodes, brain, salivary glands, and kidney for rabies virus by injection of suckling mice (not more than 7 days of age). Tissues may be held frozen at −70° C until suckling mice are available. Inject each mouse in one litter intracerebrally with 0.02 ml of a ground tissue suspension from each organ. Observe mice each day for 21 days. If any mice die, determine if the deaths were due to rabies virus in the brain by a fluorescent antibody test.

(iv) Sacrifice animals that do not show signs of rabies according to the following schedule and check regional lymph nodes, brain, salivary glands, and kidney in suckling mice.

Route of injection	Days after injection	Number of animals
Intramuscularly	28, 29, 28, 30, 28	1 each day.
Intracerally	8, 6, 9, 14, 30	1 each day.

(5) Each lot of Master Seed Virus shall be tested for safety in at least 10 unvaccinated serologically negative animals of each domestic species for which the vaccine is recommended.

(i) Each group of 10 animals shall be divided into 2 groups of 5 animals. For each species, inject one group intramuscularly with 10 doses of high titer virus.

(ii) Infiltrate a major nerve of each of the animals in the other group of 5 with 1.0 ml of the same high titer virus. For all species except canine and feline, multiple injections along the cervical spine in proximity to the nerve trunks emerging from the spinal cord may be used: *Provided*, That, at least 8 ml of virus shall be divided into four or more sites bilaterally.

(iii) Observe all animals each day for 90 days.

(iv) If any animals show clinical signs of rabies, sacrifice the animal and check appropriate brain tissue for rabies virus by the fluorescent antibody test and by mouse injection.

(v) If rabies is confirmed, the lot of Master Seed Virus is unsatisfactory.

(b) Immunogenicity determination:

(1) A geometric mean virus titer of the dried vaccine produced from the highest passage of the Master Seed Virus shall be established before the immunogenicity test is conducted. To confirm the dosage calculations, five replicate virus titrations shall be conducted on a sample of the vaccine virus dilution used.

(2) The maximum dosage in a single dilution test shall be the volume of a field dose of rehydrated vaccine which, on the basis of previous titrations has been diluted to the proposed minimum acceptable virus titer throughout the dating period, then further diluted 1:2.

(3) Samples of the vaccine dilution selected for host animal immunogenicity tests shall be tested using at least 20 guinea pigs as vaccinates for each of at least four dilutions. The dilutions shall not exceed five-fold and valid results shall encompass the 50 percent endpoint. Ten additional guinea pigs shall be used as controls.

(i) Each vaccinate shall be injected intramuscularly and observed each day with the controls for 21 days. If the vaccinates or the controls do not remain healthy during the prechallenge period, the test shall be inconclusive.

(ii) The vaccinates and at least 10 controls shall be challenged intramuscularly in a hind leg with 0.2 ml of a suitable dilution of street virus or with 0.5 ml of a suitable dilution of fixed virus. If the Master Seed Virus was injected into the hind leg, the challenge virus shall be injected into the opposite hind leg.

(iii) The post-challenge observation period shall be 14 days if fixed virus is used and shall be 21 days if street virus is used.

(iv) If at least 80 percent of the controls do not die or show paralysis attributable to rabies virus, the test is inconclusive.

(4) The immunogenicity of the lot of Master Seed Virus shall be established in all species for which the vaccine is recommended. Test animals shall be as uniform as possible and have no neutralizing antibodies to rabies as determined by serum-neutralization (SN) tests.

(i) Twenty-five to thirty animals shall be used as vaccinates. Each shall be injected intramuscularly at one site with the proposed minimum virus dose diluted 1: 2.

(ii) Ten additional animals shall be held as controls.

(iii) All test animals shall be bled and SN tests conducted at 30, 60 and 90 days after injection.

(iv) Challenge all species of test animals after completion of the 90 day SN tests except as provided in subparagraphs (5) and (6) of this paragraph with a virulent rabies street virus. Injection bilaterally into the masseter muscles is the recommended route for challenge.

(v) Requirements for acceptance in challenge tests shall be death due to rabies in at least 80 percent of the controls while at least 22/25 or 26/30 vaccinates remain well for a period of 90 days.

(5) An immunogenicity test in cattle, horses, sheep, and goats may be conducted in the manner described above, except only 5 vaccinated animals selected on the basis of lowest serum titers need be challenged along with suitable controls. If at least 3 of 5 of the vaccinated animals survive challenge, those with higher serological levels which were not challenged will be considered immune for meeting the requirements of acceptance. However, all test animals with titers below 1: 5 must be challenged. Virus neutralization titers of all sera shall be conducted to an endpoint.

(6) In lieu of the test set forth in subparagraph (4) of this paragraph, other test methods shall be permitted provided the test design allows no more than 5 percent probability of acceptance of a vaccine that is only 75 percent effective. Data generated by a varying dose study in host animals will be considered, provided these data are valid for determining a PD_{50} by probit analysis.

(7) The Master Seed Virus shall be retested for immunogenicity in 3 years and each 5 years thereafter unless use of the lot previously tested is discontinued.

(i) If correlation has been established between the efficacy in dogs and guinea pigs, the retest may be conducted in guinea pigs instead of dogs using the test prescribed in paragraph (b) (3) of this section.

(ii) If the retest is conducted in animals other than guinea pigs, only five vaccinates and five controls need be used and the retest may be limited to serological response of the vaccinates when compared with both the controls and the vaccinates in the original immunogenicity test.

(8) An Outline of Production change shall be made before authority for use of a new lot of Master Seed Virus shall be granted by Veterinary Services.

(c) If more than 1 year duration of immunity is to be claimed, a duration of immunity test for the additional time shall be conducted as prescribed in paragraph (b) of this section for the 1 year test. At least 25 vaccinates shall be selected at the time the test is started for each challenge period. The test animals may be monitored serologically and the time of challenge adjusted accordingly. A duration of immunity test shall be considered satisfactory if 85 percent of the vaccinates are shown to be immune.

(d) Test requirements for release: Each serial and each subserial shall meet the general requirements prescribed in § 113.135 and special requirements in this paragraph.

(1) *Safety tests.* Final container samples of completed product from each serial or one subserial shall be tested.

(i) The test for pathogens, prescribed in § 113.37 shall be conducted on each serial or one subserial of avian origin. If necessary, neutralize the rabies virus with specific rabies antiserum.

(ii) In lieu of the safety test provided in § 113.40, a test for safety in three young seronegative animals of the most susceptible species for which the vaccine is recommended shall be conducted. Each shall be injected intramuscularly with 10 doses prepared with any practical volume of diluent. If either of the test animals shows signs of disease attributable to the vaccine during a 28 day observation period, the serial is unsatisfactory.

(2) *Virus titrations.* Final container samples of completed product shall be titrated in young adult mice or in suckling mice as prescribed in paragraph (d) (3) or (4) of this section. The following conditions shall apply in each test:

(i) Each of two vials of vaccine shall be rehydrated with a sterile diluent consisting of 3 percent normal horse serum in distilled water to which 500 units of penicillin and 1,000 mcg of streptomycin per ml has been added.

(ii) One-half dog dose from each vial shall be pooled and diluted to a volume of 10 ml. This 10 ml of diluted vaccine shall represent the 10^{-1} dilution (one dose

per 10 ml). Tenfold dilutions using the 10^{-1} dilution shall be made.

(iii) Tubes containing the desired dilutions shall be placed in an ice bath. The first dilution to be used is optional; *Provided*, That, at least 80 percent of the mice die in the lowest dilution used.

(iv) Deaths occurring during the first 4 days post-injection shall not be considered in the test; *Provided*, That, if less than 80 percent of the mice injected for any dilution survive more than 4 days, the test is inconclusive. Mice which succumb during inauguration of the test may be replaced and disregarded.

(3) Young adult mice, each weighing 14 to 16 grams, shall be used as test animals when the virus in vaccine prepared with a low egg passage strain or ERA strain of rabies virus is titrated. At least 10 mice for each dilution shall be used.

(i) At least 10 mice shall be used for each dilution. Each shall be injected intracerebrally with 0.03 ml.

(ii) The injected young adult mice shall be observed each day for 14 days except when testing vaccines made with ERA strain of rabies virus, in which case, the mice shall be observed each day for 21 days. Deaths and paralysis occurring subsequent to the fourth day post-injection shall be noted and the LD_{50} titer calculated by the Reed and Muench Method.

(iii) Virus titer requirements for release and at expiration date shall be determined for each vaccine on the basis of data available: *Provided*, That, the lowest titer permitted at expiration date when determined by this test shall be $10^{6.5}$ LD_{50} per 0.03 ml.

(4) Suckling mice, 6 days of age or younger, shall be used as test animals when virus in vaccine prepared with a high egg passage strain of rabies virus is titrated.

(i) Six to twelve mice shall be used for each dilution. Each shall be injected intracerebrally with 0.02 ml.

(ii) The injected suckling mice shall be observed each day for 21 days. Deaths and paralysis occurring subsequent to the fourth day post-injection shall be noted and the LD_{50} titer calculated by the Reed and Muench Method; and

(iii) Virus titer requirements for release and at expiration date shall be determined for each vaccine on the basis of data available: *Provided*, That, the lowest titer permitted at expiration date when determined by this test shall be $10^{5.0}$ LD_{50} per 0.02 ml.

§ 113.160 Avian Encephalomyelitis Vaccine.

Avian Encephalomyelitis Vaccine shall be prepared from virus-bearing tissues or fluids from embryonated chicken eggs. Only Master Seed Virus which has been established as pure, safe, and immunogenic in accordance with the requirements in paragraphs (a), (b), and (c) of this section shall be used for preparing the production seed virus for vaccine production. All serials shall be prepared from the first through the fifth passage from the Master Seed Virus.

(a) The Master Seed Virus shall meet the applicable requirements prescribed in § 113.135 and the requirements prescribed in this section.

(b) Each lot of Master Seed Virus shall be tested for pathogens by the chicken embryo inoculation test prescribed in § 113.37.

(c) Each lot of Master Seed Virus shall be tested for immunogenicity and the selected virus dose to be used shall be established as follows:

(1) Avian encephalomyelitis susceptible chickens, all of the same age (four weeks or older) and from the same source, shall be used. Twenty or more chickens shall be used as vaccinates for each method of administration recommended on the label. Ten additional chickens of the same age and from the same source shall be held as unvaccinated controls.

(2) A geometric mean titer of the vaccine produced from the highest passage of the Master Seed Virus shall be established before the immunogenicity test is conducted. Each vaccinate shall receive a predetermined quantity of vaccine virus. Five replicate virus titrations shall be conducted on an aliquot of the vaccine virus to confirm the amount of virus administered to each chicken used in the test. At least three appropriate (not to exceed tenfold) dilutions shall be used and the test conducted as follows:

(i) For each dilution, inoculate at least 10 embryos, 5 or 6 days old, in the yolk sac with 0.2 ml each. Ten similar embryos obtained from the same source shall be kept as uninoculated negative controls. Disregard all deaths during the first 48 hours post-inoculation.

(ii) Eggs for each dilution shall be kept in separate containers and allowed to hatch. Sufficient precaution shall be taken to assure that chickens from each dilution remain separated. To be a valid test, at least 80 percent of the uninoculated eggs shall hatch.

(iii) On the third day after normal hatching time, count all unhatched eggs and all dead, paralyzed and ataxic chickens as positive evidence of viral infection.

(iv) A satisfactory titration shall have at least one dilution with between 50 and 100 percent positives and at least one dilution with between 50 and 0 percent positives.

(v) Calculate the EID_{50} by the Spearman-Karber or Reed-Muench method.

(3) At least 21 days post-vaccination, the vaccinates and the controls shall be challenged intracerebrally with a virulent avian encephalomyelitis virus and observed each day for 21 days.

(4) If at least 80 percent of the controls do not show signs of avian encephalomyelitis or die, the test is inconclusive and may be repeated. If at least 19 of 20, or 27 of 30, or 36 of 40 of the vaccinates in each group do not remain free from clinical signs of avian encephalomyelitis during the observation period, the Master Seed Virus is unsatisfactory.

(5) The Master Seed Virus shall be retested for immunogenicity in 3 years and each 5 years thereafter unless use of the lot previously tested is discontinued. Only one method of administration recommended on the label need be used in the retest. The vaccinates and the controls shall meet the criteria prescribed in paragraph (C)(4) of this section.

(6) An Outline of Production change shall be made before authority for use of a new lot of Master Seed Virus shall be granted by Veterinary Services.

(d) After a lot of Master Seed Virus has been established as prescribed in paragraphs (a), (b), and (c) of this section, each serial and subserial shall meet the requirements in §§ 113.135, 113.37, and in this paragraph.

(1) Potency test: Final container samples of completed product shall be tested for virus titer using the titration method used in paragraph (c)(2) of this section.

(2) To be eligible for release each serial and subserial shall have an avian encephalomyelitis virus titer sufficiently greater than the titer of the vaccine used in the immunogenicity test prescribed in paragraph (c) of this section to assure that when tested at any time within the expiration period, each serial and subserial shall have a virus titer of 0.7 logs greater than used in such immunogenicity test but not less than $10^{6.5}$ EID_{50} per dose.

(e) Before a lot of Master Seed Virus is established as prescribed in paragraphs (a), (b), and (c) of this section, each serial and subserial shall meet the requirements in §§ 113.135, 113.37, and in this paragraph.

(1) *Virus titration.* A virus titration shall be conducted on final container samples of completed product in accordance with the titration method used in paragraph (c)(2) of this section.

(i) For release, samples shall be incubated at 37° C for not less than 7 days before preparation for use in the virus titration test. A serial or subserial which does not contain at least $10^{6.5}$ EID_{50} per dose of avian encephalomyelitis virus shall not be released.

(ii) When tested at any time within the expiration period, unincubated samples shall have an avian encephalomyelitis virus titer of at least $10^{5.5}$ EID_{50} per dose.

(2) An immunogenicity test shall be conducted on final container samples of completed product. The vaccine shall be given as recommended on the label.

(i) At least 10 susceptible chickens properly identified and obtained from same source and hatch, per serial or the first subserial, and five more similar chickens per each additional subserial, shall be used as vaccinates.

(ii) Ten nonvaccinated chickens, properly identified and obtained from the same source and hatch as the vaccinates, shall be kept in isolation as controls.

(iii) At least 21 days post-vaccination, the vaccinates and the controls shall be challenged intracerebrally with a virulent avian encephalomyelitis virus and observed each day for 21 days. Challenge

XUM

virus shall be provided or approved by Veterinary Services.

(iv) If less than 80 percent of the controls develop recognizable signs or lesions of avian encephalomyelitis, the test is inconclusive and may be repeated.

(v) If at least 80 percent of the vaccinates do not remain free of signs of avian encephalomyelitis, the serial or subserial is unsatisfactory.

§ 113.161 Avian pox vaccine.

Fowl Pox Vaccine and Pigeon Pox Vaccine shall be prepared from virus-bearing cell culture fluids or embryonated chicken eggs. Only Master Seed Virus which has been established as pure, safe, and immunogenic in accordance with the requirements in paragraphs (a), (b), and (c) of this section shall be used for preparing the production seed virus for vaccine production. All serials shall be prepared from the first through the fifth passage from the Master Seed Virus.

(a) The Master Seed Virus shall meet the applicable requirements prescribed in § 113.135 except paragraph (c) of this section and shall meet the requirements prescribed in this section.

(b) Each lot of Master Seed Virus shall be tested for pathogens by the chicken inoculation test prescribed in § 113.36.

(c) Each lot of Master Seed Virus shall be tested for immunogenicity and the selected virus dose to be used shall be established as follows:

(1) Fowl pox susceptible birds all of the same age and from the same source, shall be used as test birds. Twenty or more birds shall be used as vaccinates for each method of administration recommended on the label. Ten additional birds of the same age and from the same source as the vaccinates shall be held as unvaccinated controls.

(2) A geometric means titer of the dried vaccine produced from the highest passage of the Master Seed Virus shall be established before the immunogenicity test is conducted. Each vaccinate shall receive a predetermined quantity of vaccine virus. Five replicate virus titrations shall be conducted on an aliquot of the vaccine virus to confirm the amount of virus administered to each bird used in the test. At least three appropriate (not to exceed tenfold) dilutions shall be used and the test conducted as follows:

(i) For each dilution, inoculate at least five embryos, 9 to 11 days old, on the chorioallantoic membrane with at least 0.2 ml each. Disregard all deaths during the first 24 hours post-inoculation. To be a valid test, at least four embryos in each dilution shall remain viable beyond 24 hours.

(ii) Examine the surviving embryos for evidence of infection 5 to 7 days post-inoculation.

(iii) A satisfactory titration shall have at least one dilution with between 50 and 100 percent positives and at least one dilution with between 50 and 0 percent positives.

(iv) Calculate the EID_{50} by the Spearman-Harber or Reed-Muench method.

(3) Fourteen to twenty-one days post-vaccination, all vaccinates and controls shall be challenged by the wing web method and observed each day for 10 days. If the wing web method was used for vaccination, the opposite wing shall be used for challenge. Challenge virus shall be provided or approved by Veterinary Services.

(4) If at least 90 percent of the controls do not develop fowl pox during the observation period, the test is inconclusive and may be repeated. If at least 19 of 20, or 27 of 30, or 36 of 40 of the vaccinates in each group do not remain free from clinical signs of fowl pox during the observation period, the Master Seed Virus is unsatisfactory.

(5) The Master Seed Virus shall be retested for immunogenicity in 3 years and each 5 years thereafter unless use of the lot previously tested is discontinued. Only one method of administration needs to be used in the retest. The vaccinates and the controls shall meet the criteria prescribed in paragraph (c)(4) of this section.

(6) An Outline of Production change shall be made before authority for use of a new lot of Master Seed Virus shall be granted by Veterinary Services.

(d) After a lot of Master Seed Virus has been established as prescribed in paragraphs (a), (b), and (c) of this section, each serial and subserial shall meet the requirements in § 113.36, in § 113.135 except paragraph (c), and in this paragraph.

(1) *Potency test.* Final container samples of completed product shall be tested for virus titer using the titration method used in paragraph (c)(2) of this section. To be eligible for release, each serial and each subserial shall have a virus titer sufficiently greater than the titer of vaccine virus used in the immunogenicity test prescribed in paragraph (c) of this section to assure that when tested at any time within the expiration period, each serial and subserial shall have a virus titer of 0.7 logs greater than that used in such immunogenicity test but not less than $10^{2.0}$ EID_{50} per dose.

(2) *Safety test.* At least 10 fowl pox susceptible birds for each method of administration recommended on the label shall be vaccinated with vaccine from a rehydrated final container sample of completed product. Each bird shall receive one dose of vaccine and observed each day for 14 days. If any of the birds show signs of disease during the observation period for reasons attributable to the vaccine, the serial or subserial is unsatisfactory. If unfavorable reactions occur in the birds which are not attributable to the vaccine, the test is inconclusive and may be repeated.

(e) Before a lot of Master Seed Virus is established as prescribed in paragraphs (a), (b), and (c) of this section, each serial and subserial shall meet the requirements in § 113.36, in § 113.135, except paragraph (c), and in this paragraph.

(1) Virus titration. A virus titration shall be conducted on final container samples of completed product in accordance with the titration method used in paragraph (c)(2) of this section.

(i) For release, samples shall be incubated at 37° C for not less than 7 days before preparation for use in the virus titration test. A serial or subserial which does not contain at least $10^{2.0}$ EID_{50} per dose of fowl pox virus shall not be released.

(ii) When tested at any time within the expiration period, unincubated samples shall have at least $10^{2.0}$ EID_{50} per dose of fowl pox virus.

(2) An immunogenicity test shall be conducted on final container samples of completed product. The vaccine shall be administered as recommended on the label.

(i) At least 10 susceptible birds (vaccinates) properly identified and obtained from same source and hatch, per serial or the first subserial, and five more similar birds per each additional subserial, shall be vaccinated.

(ii) Ten nonvaccinated birds, properly identified and obtained from the same source and hatch as the vaccinates, shall be kept in isolation as controls.

(iii) Ten to fourteen days post-vaccination, the vaccinates and the controls shall be challenged with a fowl pox virus furnished or approved by Veterinary Services.

(iv) The challenge virus shall be administered on the comb, or in the web of the opposite wing from that used for vaccination, or on the feather follicles and the chickens observed each day for 10 days.

(v) If less than 80 percent of the controls develop recognizable signs or lesions of fowl pox, the test is inconclusive and may be repeated.

(vi) If at least 80 percent of the vaccinates do not remain free of signs or lesions of fowl pox, the serial or subserial is unsatisfactory.

§ 113.162 Bronchitis Vaccine.

Bronchitis Vaccine shall be prepared from virus-bearing cell culture fluids or embryonated chicken eggs. Only Master Seed Virus which has been established as pure, safe, and immunogenic in accordance with the requirements in paragraphs (a), (b), and (c) of this section shall be used for preparing the production seed virus for vaccine production. All serials shall be prepared from the first through the fifth passage from the Master Seed Virus. All serials shall be prepared with the passage from the Master Seed Virus used in the immunogenicity test.

(a) The Master Seed Virus shall meet the applicable requirements prescribed in § 113.135 and the requirements prescribed in this section.

(b) Each lot of Master Seed Virus shall be tested for pathogens by the chicken embryo inoculation test prescribed in § 113.37; *Provided*, That, if the test is inconclusive because of a virus override, the test may be repeated using a higher titered antiserum, and if the repeat test is inconclusive for the same reason, the chicken inoculation test in § 113.36 may be conducted and the virus judged accordingly.

(c) Each lot of Master Seed Virus used for vaccine production shall be tested for immunogenicity and the selected virus dose to be used shall be established. Bronchitis susceptible chickens, all of the same age and from the same source, shall be used.

(1) A geometric mean titer of the dried vaccine produced from the highest passage of the Master Seed Virus shall be established before the immunogenicity tests are conducted. Each vaccinate shall receive a predetermined quantity of vaccine virus. Five replicate virus titrations shall be conducted on an aliquot of the vaccine virus to confirm the amount of virus administered to each chicken used in such tests. At least three appropriate (not to exceed tenfold) dilutions shall be used and the test conducted as follows:

(i) For each dilution, inject at least five embryos, 9 to 11 days old, in the allantoic cavity with 0.1 ml each. Deaths occurring during the first 24 hours shall be disregarded, but at least four viable embryos in each dilution shall survive beyond 24 hours for a valid test. After 5 to 8 days incubation, examine the surviving embryos for evidence of infection.

(ii) A satisfactory titration shall have at least one dilution with between 50 and 100 percent positives and at least one dilution with between 50 and 0 percent positives.

(iii) Calculate the EID_{50} by the Spearman-Karber or Reed-Muench method.

(2) Neutralization test: For each method of administration recommended on the label, twenty or more chickens shall be used as vaccinates in a neutralization test. Ten additional chickens shall be used as controls. The test shall be conducted as follows:

(i) Blood samples shall be taken from the vaccinates and the controls 21 to 28 days post-vaccination. Serums from the vaccinates shall be tested individually but serums from the controls may be tested either individually or in pools of not more than five serums. All serums shall be inactivated at 56° C for 30 minutes.

(ii) The specific serum-virus preparation and embryo injection method for the Neutralization Test described in *Methods for Examining Poultry Biologics and for Identifying and Quantifying Avian Pathogens* (NAS, 1971) shall be used. The varying virus-constant serum technique shall be used. The ID_{50} Neutralization Index (NI) of each test serum or control serum pool shall be the reciprocal of the difference between the viral infectivity endpoint of the serum-virus mixture (serum titer) and the indicator virus titration (virus titer).

(iii) The indicator virus titration shall be done using tryptose phosphate broth as diluent. All titrations shall have at least one dilution with between 50 and 100 percent positives and at least one dilution with between 50 and 0 percent positives.

(iv) To be satisfactory, the vaccine virus shall produce NI's against each type used in production as follows:

NI's of 3.0 or more for 19 of 20 or 27 of 30 or 36 of 40 vaccinate serums, provided the average NI of the control serums or pools is less than 1.5, or

NI's 2.0 or more greater than that on control serums for at least 19 of 20 or 27 of 30 or 36 of 40 of the vaccinate serums, provided the average NI of the control serums or pools is 1.0 or less.

(3) Virus-recovery test: For each method of administration recommended on the label for each virus type used in the vaccine, twenty or more chickens shall be used as vaccinates in the virus-recovery test. Ten additional chickens shall be used as controls. The test shall be conducted as follows:

(i) Each vaccine virus shall be tested against a challenge of homologous serotype (to the vaccine strain) and each other serotype against which protection is claimed.

(ii) Twenty-one to twenty-eight days post-vaccination, all vaccinates and controls shall be challenged by eye-drop with virulent bronchitis virus of each virus type and strain against which protection is claimed. Each challenge virus shall be approved or provided by Veterinary Services and shall titer at least $10^{4.5}$ EID_{50} per ml.

(iii) Tracheal swabs shall be taken once, 5 days post-challenge, from each control and vaccinate. Each swab shall be placed in a test tube containing 3 ml of tryptose phosphate broth and antibiotics. The tube and swab shall be swirled thoroughly and if they are to be stored, be immediately frozen and be stored at below −40° C pending egg evaluation. For each chicken swab, at least five chicken embryos 9 to 11 days old shall be inoculated in the allantoic cavity with 0.2 ml each of broth from each tube.

(iv) All embryos surviving the third day post-inoculation shall be used in the evaluation: *Provided*, That, if each swab is not represented by at least four embryos, the test is invalid and the results inconclusive. A tracheal swab shall be positive for virus recovery when any of the embryos in a valid test show typical infectious bronchitis virus lesions, such as but not limited to, stunting, curling, kidney urates, clubbed down, or death during the 4 to 7 day post-inoculation period. If less than 20 percent of the embryos which survive the third day post-inoculation die during the 4–7 day post-inoculation period and show no gross lesions typical of infectious bronchitis, they may be disregarded.

(v) If less than 90 percent of the controls are positive for virus recovery, the test is inconclusive and may be repeated.

(vi) If less than 90 percent of the vaccinates are negative for virus recovery, the Master Seed Virus is unsatisfactory.

(4) The Master Seed Virus shall be retested for immunogenicity in 3 years and each 5 years thereafter unless use of the lot previously tested is discontinued. Only one method of administration recommended on the label need be used in the retest. The vaccinates and the controls shall meet the criteria prescribed in paragraphs (c) (2) and (3) of this section.

(5) An Outline of Production change shall be made before authority for use of a new lot of Master Seed Virus shall be granted by Veterinary Services.

(d) Test requirements for release: Each serial and subserial shall meet the requirements prescribed in § 113.135 and in this paragraph.

(1) *Test for pathogens.* Final container samples of completed product shall be tested for pathogens by the test prescribed in § 113.37. If the vaccine is found to be unsatisfactory because of a virus override the test may be repeated using a higher titered antiserum and if the repeat test is also unsatisfactory for the same reason, the test prescribed in § 113.36 may be conducted and the vaccine judged accordingly.

(2) *Safety test.* Final container samples of completed product shall be tested to determine safety for use in bronchitis susceptible young chickens.

(i) Twenty-five susceptible chickens, 5 days of age or younger, properly identified and obtained from the same source and hatch, shall be vaccinated by the eye-drop method with the equivalent of 10 doses of vaccine and observed each day for 21 days post-vaccination. Severe respiratory signs or death shall be counted as failures. Two-stage sequential testing may be conducted if the first test (which then becomes stage one) has three failures.

(ii) The results shall be evaluated according to the following table:

Cumulative totals

Stage	Number of chickens	Failures for satisfactory serials	Failures for unsatisfactory serials
1	25	2	4
2	50	5	6

If unfavorable reactions occur which are not attributable to the product, the test shall be declared inconclusive and repeated or, in lieu thereof, the serial declared unsatisfactory.

(3) *Virus titrations.* Using the procedure prescribed in paragraph (c) (1) of this section virus titrations shall be conducted.

(i) The Newcastle disease virus fraction of combined Newcastle-Bronchitis Vaccines shall be neutralized prior to titration of the bronchitis virus fraction. Equal parts of heat-inactivated Newcastle disease antiserum shall be mixed with each appropriate serial ten-fold dilution of the vaccine. After inactivation, embryos shall be injected with 0.2 ml each and results calculated as a 0.1 ml dose to allow for serum dilution of the vaccine. The allantoic fluids, tested as prescribed in § 113.34 shall not show hemagglutinating activity in the lowest dilution used in the titration.

(ii) Each bronchitis virus type shall be harvested separately and a sample of bulk harvested material shall be collected prior to mixing with the other virus type(s). Each sample shall contain not less than the minimum virus titer stated in the filed Outline of Production.

(iii) Final container samples of completed product of each serial and sub-

XUM
V 39 N 250 D EC 27 74
XUM

serial shall be tested. A satisfactory serial or subserial shall contain at least $10^{2.5}$ EID_{50} per dose of bronchitis virus throughout the expiration period.

§ 113.163 Fowl Laryngotracheitis Vaccine.

Fowl Laryngotracheitis Vaccine shall be prepared from virus-bearing cell culture fluids or embryonated chicken eggs. Only Master Seed Virus which has been established as pure, safe, and immunogenic in accordance with the requirements in paragraphs (a), (b), and (c) of this section shall be used for preparing the production seed virus for vaccine production. All serials shall be prepared from the first through the fifth passage from the Master Seed Virus.

(a) The Master Seed Virus shall meet the applicable requirements prescribed in § 113.135 and the requirements prescribed in this section.

(b) Each lot of Master Seed Virus shall be tested for extraneous pathogens by the chicken embryo inoculation test prescribed in § 113.37: *Provided*, That, if the test of the virus is inconclusive because of a virus override, the test may be repeated using a higher titered antiserum, and if the repeat test is inconclusive for the same reason, the chicken inoculation test prescribed in § 113.36 may be conducted and the virus judged accordingly. Each lot shall also be tested for safety as follows:

(1) Each of at least ten 3 to 4 week old susceptible chickens obtained from the same source and hatch as those used in the immunogenicity test prescribed in paragraph (c) of this section shall be injected intratracheally with 0.2 ml of the virus as used in the vaccine and the chickens observed each day for 14 days.

(2) If more than 20 percent of the chickens die during the observation period, the virus is unsatisfactory.

(c) Each lot of Master Seed Virus used for vaccine production shall be tested for immunogenicity and the selected virus dose to be used shall be established as follows:

(1) Fowl laryngotracheitis susceptible chickens all of the same age and from the same source shall be used. Twenty or more chickens shall be used as vaccinates for each method of administration recommended on the label. Ten additional chickens of the same age and from the same source shall be held as unvaccinated controls.

(2) A geometric mean titer of the dried vaccine produced from the highest passage of the Master Seed Virus shall be established before the immunogenicity test is conducted. Each vaccinate shall receive a predetermined quantity of vaccine virus. Five replicate virus titrations shall be conducted on an aliquot of the vaccine virus to confirm the amount of virus administered to each chicken used in the test. At least three appropriate (not to exceed tenfold) dilutions shall be used for vaccine of chicken embryo origin and the test conducted as follows:

(i) For each dilution, inject at least five embryos, 9 to 11 days old, on the chorioallantoic membrane with 0.2 ml each. Disregard all deaths during the first 24 hours post-injection. To be a valid test, at least four embryos in each dilution shall remain viable beyond 24 hours.

(ii) Examine the surviving embryos for evidence of infection 5 to 8 days post-injection.

(iii) A satisfactory titration shall have at least one dilution with between 50 and 100 percent positives and at least one dilution with between 50 and 0 percent positives.

(iv) Calculate the EID_{50} by the Spearman-Karber or Reed-Muench method.

(3) Tissue culture origin vaccine may be titrated by a tissue culture method approved by Veterinary Services and written into the filed Outline of Productions.

(4) Ten to fourteen days post-vaccination, all vaccinates and controls shall be challenged intratracheally or in the orbital sinus with infectious fowl laryngotracheitis virus and observed each day for 10 days. Challenge virus shall be provided or approved by Veterinary Services.

(5) If at least 80 percent of the controls do not die or show clinical signs of fowl laryngotracheitis during the observation period, the test is inconclusive and may be repeated. If at least 19 of 20, 27 of 30, or 36 of 40 of the vaccinates in each group do not remain free of clinical signs of fowl laryngotracheitis during the observation period, the Master Seed Virus is unsatisfactory.

(6) The Master Seed Virus shall be retested for immunogenicity in 3 years and each 5 years thereafter unless use of the lot previously tested is discontinued. Only one method of administration recommended on the label need be used in the retest. The vaccinates and the controls shall meet the criteria prescribed in paragraphs (c) (4) and (5) of this section.

(7) An Outline of Production change shall be made before authority for use of a new lot of Master Seed Virus shall be granted by Veterinary Services.

(d) After a lot of Master Seed Virus has been established as prescribed in paragraphs (a), (b), and (c) of this section, each serial and subserial shall meet the applicable requirements in § 113.135 and the requirements prescribed in this paragraph.

(1) Final container samples from each serial shall be tested for pathogens by the chicken embryo inoculation test prescribed in § 113.37: *Provided*, That, if the test of the virus is inconclusive because of a virus override, the test may be repeated using a higher titered antiserum, and if the repeat test is inconclusive for the same reason, the chicken inoculation test prescribed in § 113.36 may be conducted and the vaccine judged accordingly.

(2) *Virus titration.* A virus titration shall be conducted on final container samples of completed product in accordance with the titration methods used in paragraphs (c) (2) or (3) of this section.

(3) Each serial and subserial shall have a fowl laryngotracheitis virus titer sufficiently greater than the titer of the vaccine used in the immunogenicity test prescribed in paragraph (c) of this section to assure that when tested at any time within the expiration period, each serial and subserial shall have a virus titer 0.7 logs greater than the titer of the vaccine used in the immunogenicity test but not less than $10^{2.5}$ EID_{50} per dose.

(e) Until a lot of Master Seed Virus is established as prescribed in paragraphs (a), (b), and (c) of this section, each serial and subserial shall meet the applicable requirements prescribed in § 113.135, in paragraph (d) (1) of this section, and the requirements in this paragraph before release for sale.

(1) *Virus titration.* A virus titration shall be conducted on final container samples of completed product in accordance with the titration methods used in paragraphs (c) (2) or (3) of this section.

(i) For release, samples shall be incubated at 37° C for not less than 7 days before preparation for use in the virus titration test. A serial or subserial of chicken embryo origin which does not contain at least $10^{2.5}$ EID_{50} per dose of fowl laryngotracheitis virus shall not be released. Tissue culture origin vaccine shall contain $10^{2.5}$ EID_{50} or $10^{2.5}$ $TCID_{50}$ per dose.

(ii) When tested at any time within the expiration period, unincubated samples of chicken embryo origin vaccine shall have a fowl laryngotracheitis virus titer of at least $10^{2.5}$ EID_{50} per dose. Tissue culture origin vaccine shall contain $10^{2.5}$ EID_{50} or $10^{2.5}$ $TCID_{50}$ per dose.

(2) An immunogenicity test shall be conducted on final container samples of completed product. The vaccine shall be used as recommended on the label.

(i) At least 10 susceptible chickens (vaccinates) properly identified and obtained from same source and hatch, per serial or the first subserial, and five more similar chickens for each additional subserial, shall be vaccinated.

(ii) Ten nonvaccinated chickens (controls) properly identified and obtained from the same source and hatch, shall be kept in isolation.

(iii) Ten to fourteen days post-vaccination, the vaccinates and the controls shall be challenged intratracheally with a fowl laryngotracheitis virus provided or approved by Veterinary Services and observed each day for 10 days.

(iv) If less than 80 percent of the controls die or develop recognizable signs of fowl laryngotracheitis, the test is inconclusive and may be repeated.

(v) If at least 80 percent of the vaccinates do not remain free of signs of fowl laryngotracheitis, the serial or subserial is unsatisfactory.

(3) Safety test. Final container samples of completed product from each serial or one subserial of modified live virus vaccine shall be tested for safety in ten or more susceptible chickens obtained from the same source and hatch as those used in the immunogenicity test prescribed in paragraph (e) (2) of this section. Each shall be injected intratracheally with 0.2 ml of the vaccine prepared for use as recommended on the label and observed each day for 14 days. If more than 20 percent of the chickens die during the observation period, the serial or subserial is unsatisfactory.

§ 113.164 Newcastle Disease Vaccine.

Newcastle Disease Vaccine shall be prepared from virus-bearing cell culture fluids or embryonated chicken eggs. Only Master Seed Virus which has been established as pure, safe, and immunogenic in accordance with the requirements in paragraphs (a), (b), and (c) of this section shall be used for preparing the production seed virus for vaccine production. All serials shall be prepared from the first through the fifth passage from the Master Seed Virus.

(a) The Master Seed Virus shall meet the applicable requirements prescribed in § 113.135, except § 113.34, and the requirements prescribed in this section.

(b) Each lot of Master Seed Virus shall be tested for pathogens by the chicken embryo inoculation test prescribed in § 113.37: *Provided*, That, if the test of the virus is inconclusive because of a virus override, the test may be repeated using a higher titered antiserum and if the repeat test is inconclusive for the same reasons, the chicken inoculation test prescribed in § 113.36 may be conducted and the virus judged accordingly.

(c) Each lot of Master Seed Virus used for vaccine production shall be tested for immunogenicity and the selected virus dose to be used shall be established as follows:

(1) Newcastle Disease susceptible chickens, all of the same age and from the same source, shall be used. Twenty or more chickens shall be used as vaccinates for each method of administration recommended on the label. Ten additional chickens of the same age and from the same source shall be held as unvaccinated controls.

(2) A geometric mean titer of the dried vaccine produced from the highest passage of the Master Seed Virus shall be established before the immunogenicity test is conducted. Each vaccinate shall receive a predetermined quantity of vaccine virus. Five replicate virus titrations shall be conducted on an aliquot of the vaccine virus to confirm the amount of virus administered to each chicken used in the test. At least three appropriate (not to exceed tenfold) dilutions shall be used and the test conducted as follows:

(i) For each dilution, inject at least five embryos, 9 to 11 days old, in the allantoic cavity with at least 0.1 ml each. Disregard all deaths during the first 24 hours post-injection. To be a valid test, at least four embryos in each dilution shall remain viable beyond 24 hours.

(ii) Examine the surviving embryos for evidence of infection 5 to 7 days post-injection.

(iii) A satisfactory titration shall have at least one dilution with between 50 and 100 percent positives and at least one dilution with between 50 and 0 percent positives.

(iv) Calculate the EID_{50} by the Spearman-Karber or Reed-Muench method.

(3) Twenty to twenty-eight days post-vaccination, all vaccinates and controls shall be challenged intratracheally with at least $10^{4.0}$ EID_{50} of virus per chicken and observed each day for 14 days. Challenge virus shall be provided or approved by Veterinary Services.

(4) If at least 80 percent of the controls do not develop clinical signs of Newcastle disease during the observation period, the test is inconclusive and may be repeated. If at least 19 of 20, or 27 of 30, or 36 of 40 of the vaccinates in each group do not remain free from clinical signs of Newcastle disease during the observation period, the Master Seed Virus is unsatisfactory.

(5) The Master Seed Virus shall be retested for immunogenicity in 3 years and each 5 years thereafter unless use of the lot previously tested is discontinued. Only one method of administration recommended on the label need be used in the retest. The vaccinates and the controls shall meet the criteria prescribed in paragraph (c) (4) of this section.

(6) A strain identity test acceptable to Veterinary Services shall be conducted.

(7) An Outline of Production change shall be made before authority for use of a new lot of Master Seed Virus shall be granted by Veterinary Services.

(d) After a lot of Master Seed Virus has been established as prescribed in paragraphs (a), (b), and (c) of this section, each serial and subserial shall meet the applicable requirements in § 113.135, except § 113.34, and the requirements prescribed in this paragraph.

(1) Final container samples from each serial shall be tested for pathogens by the chicken embryo inoculation test prescribed in § 113.37: *Provided*, That, if the test of the virus is inconclusive because of a virus override, the test may be repeated using a higher titered antiserum, and if the repeat test is inconclusive for the same reason, the chicken inoculation test prescribed in § 113.36 may be conducted and the vaccine judged accordingly.

(2) *Virus titration.* A virus titration shall be conducted on final container samples of completed product in accordance with the titration method used in paragraph (c) (2) of this section.

(3) Each serial and subserial shall have a Newcastle disease virus titer sufficiently greater than the titer of the vaccine used in the immunogenicity test prescribed in paragraph (c) of this section to assure that when tested at any time within the expiration period, each serial and subserial shall have a virus titer 0.7 logs greater than the titer used in the immunogenicity test but not less than $10^{6.5}$ EID_{50} per dose.

(e) Until a lot of Master Seed Virus is established as prescribed in paragraphs (a), (b), and (c) of this section, each serial and subserial shall meet the applicable requirements prescribed in § 113.135, except § 113.34, in paragraphs (d) (1) and (2) of this section and the requirements prescribed in this paragraph.

(1) A serial or subserial which does not contain at least $10^{6.5}$ EID_{50} per dose of Newcastle disease virus through the expiration date is unsatisfactory.

(2) An immunogenicity test shall be conducted on final container samples of completed product. The vaccine shall be used as recommended on the label.

(i) At least 10 susceptible chickens (vaccinates) properly identified and obtained from same source and hatch, per serial or the first subserial, and five more similar chickens per each additional subserial, shall be vaccinated.

(ii) At least ten nonvaccinated chickens (controls), properly identified and obtained from the same source and hatch as the vaccinates, shall be kept in isolation.

(iii) Twenty to twenty-eight days post-vaccination, the vaccinates and the controls shall be challenged intratracheally with at least $10^{4.0}$ EID_{50} Newcastle disease virus provided or approved by Veterinary Services. The chickens shall be observed each day for 14 days.

(iv) If less than 80 percent of the controls die or develop recognizable signs of Newcastle disease, the test is inconclusive and may be repeated.

(v) If at least 80 percent of the vaccinates do not remain free of signs of Newcastle disease, the serial or subserial is unsatisfactory.

(3) Safety test: Final container samples of completed product from each serial or one subserial shall be tested to determine whether the vaccine is safe for use in susceptible young chickens.

(i) Twenty-five susceptible chickens, 5 days of age or younger, properly identified and obtained from the same source and hatch, shall be vaccinated by the eye drop method with the equivalent of 10 doses of vaccine and the chickens observed each day for 21 days post-vaccination. Severe respiratory signs or death shall be counted as failures. Two-stage sequential testing may be conducted if the first test (which then becomes stage one) has 3 failures.

(ii) The results shall be evaluated according to the following table:

Cumulative totals

Stage	Number of chickens	Failures for satisfactory serials	Failures for unsatisfactory serials
1	25	2 or less	4 or more.
2	50	5 or less	6 or more.

(iii) If unfavorable reactions occur which are not attributable to the product, the test shall be declared inconclusive and may be repeated.

(iv) For vaccines not recommended for use in chickens 10 days of age or younger, the prechallenge portion of the potency test shall be considered a safety test.

§ 113.165 Marek's Disease Vaccines.

Marek's Disease Vaccine shall be prepared from virus-bearing tissue culture cells. Only Master Seed Virus which has been established as pure, safe, and immunogenic shall be used for preparing the production seed virus for vaccine production. All serials shall be prepared from the first through the fifth passage from the Master Seed Virus.

(a) The Master Seed Virus shall meet the applicable requirements prescribed in

XUM
V 21 93 V
DEC 05
27 74 4
XUM

§ 113.135, except paragraph (c), and the requirements prescribed in this section. Each lot of Master Seed Virus shall also be tested for pathogens by the chicken embryo inoculation test prescribed in § 113.37, except lesions typical of turkey herpes virus may be disregarded.

(b) Safety test: The Master Seed Virus shall be nonpathogenic for chickens as determined by the following procedure:

(1) Three groups of at least 50 chickens each at one day of age shall be used. These chickens shall be of the same source and hatch; be susceptible to Marek's disease; and be kept isolated in groups.

(i) *Group 1.* Each chicken shall be injected with 10 times as much viable virus as will be contained in one dose of vaccine, by the route recommended for vaccination.

(ii) *Group 2.* Each chicken shall be injected with a virulent Marek's disease herpesvirus at a dosage level that will cause gross lesions of Marek's disease in at least 60% of the chickens within 50 days.

(iii) *Group 3.* Controls.

(2) At least 40 chickens in each group shall survive for 4 days post-injection. All chickens that die shall be necropsied and examined for lesions of Marek's disease and cause of death. The test shall be judged according to the following:

(i) At 50 days of age, the remaining chickens in Group 3 shall be killed and examined for gross Marek's disease lesions. If at least 60 percent of this group do not develop Marek's disease, the test is inconclusive and may be repeated.

(ii) At 120 days of age, the remaining chickens in Groups 1 and 3 shall be weighed, killed, and necropsied. If at least 30 chickens in each of these 2 groups have not survived the 120 day period; or if any of the chickens in Groups 1 and 3 have gross lesions of Marek's disease at necropsy; or if the average body weight of the chickens in Group 1 is significantly (statistically) different from the average in Group 3 at the end of the 120 days, the lot of Master Seed Virus is unsatisfactory.

(c) [Reserved]

(d) Test requirements for release: Except for the virus identity tests in § 113.135(c), each serial and subserial shall meet the applicable requirements prescribed in § 113.135 and in this paragraph. Final container samples of completed product shall be tested. Any serial or subserial found unsatisfactory by a prescribed test shall not be released.

(1) *Purity test.* The chicken embryo inoculation test prescribed in § 113.37 shall be conducted except lesions typical of turkey herpes virus may be disregarded.

(2) *Safety test.* At least 25 one-day old chickens shall be injected, by the route recommended on the label for vaccination, with the equivalent of 10 chicken doses of virus (vaccine concentrated 10X). The chickens shall be observed each day for 21 days. Chickens dying during the period shall be examined, cause of death determined, and the results recorded.

(i) If at least 20 chickens do not survive the observation period, the test is inconclusive.

(ii) If lesions of any disease or cause of death are directly attributable to the vaccine, the serial is unsatisfactory.

(iii) If less than 20 chicks survive the observation period and there are no deaths or lesions attributable to the vaccine, the test may be repeated one time; *Provided*, That, if the test is not repeated, the serial shall be declared unsatisfactory.

(3) *Potency test.* The samples shall be titrated in a cell culture system or by any other titration method acceptable to Veterinary Services. Vaccine samples of desiccated vaccine shall be incubated at 37° C for 3 days before preparation for use in the titration test. A satisfactory serial or subserial shall contain at least 1500 plaque forming units per dose at release and maintain at least 1000 plaque forming units through expiration.

(37 Stat. 832–733; 21 U.S.C. 151–158)

Effective dates. These amendments take effect January 27, 1975, except the Master Seed Virus requirements in §§ 113.162 and 113.165 shall take effect June 1, 1975, and the Master Seed Virus requirements in §§ 113.129, 113.147, 113.160, 113.161, 113.163, and 113.164 shall take effect January 1, 1976.

Done at Washington, D.C., this 19th day of December 1974.

J. M. HEJL,
Deputy Administrator, Veterinary Services, Animal and Plant Inspection Service.

Title 7—Agriculture

CHAPTER II—FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE

SUBCHAPTER A—SCHOOL LUNCH PROGRAM

PART 246—SPECIAL SUPPLEMENTAL FOOD PROGRAM FOR WOMEN, INFANTS AND CHILDREN

Revision, Reorganization and Republication

On April 11, 1974, there was published in the FEDERAL REGISTER (39 FR 13166) a notice of proposed rulemaking to amend the regulations governing the operations of the Special Supplemental Food Program for Women, Infants and Children (WIC Program). The proposals were to conform existing provisions to the requirements of Pub. L. 93–150 which amended section 17 of the Child Nutrition Act of 1966 to authorize cash grants to Indian tribes, bands or groups recognized by the Department of Interior and to the Indian Health Service of the Department of Health, Education and Welfare and to extend the pilot WIC Program through fiscal year 1975. Other proposed revisions were designed to protect the individual rights of all persons participating in the WIC Program, permit the use of dried whole milk in Puerto Rico, prohibit WIC Program benefits from being considered as income or resources under other programs, standardize the application form used by local agencies and the form for agreements between FNS and State agencies, modify the procedure for funding the grants, and add a new section on medical evaluation. Responses to the proposed rules were received from 78 individuals. The principal comments and the action taken on the proposed amendments are discussed below.

1. A number of comments proposed modifying the definition of "lactating women." The comments reflected the idea that supplemental feeding for all women for a period of 6 weeks postpartum is not a sufficient period of time for nutritionally poor women to gain a good health status. The Department gave these comments careful consideration and consulted further with professionals in the medical field. It is the considered opinion of these medical professionals that pregnant women generally return to their normal physiological state in 6 weeks after delivery. Therefore, the Department has decided in favor of retaining the "lactating women" definition as used throughout the pilot stage of the program.

2. Several comments were received opposing the definition of "local agency," because it excluded non-health community organizations, welfare agencies and private physicians from applying for participation in the WIC Program. The WIC Program is a pilot supplemental feeding program with a medical evaluation which will determine the benefits of the food intervention to WIC participants. The determination of need, the collection of standardized medical data, the maintenance of medical, financial and program records and the transmission of this information for the evaluation are best performed by a health clinic which has the required personnel, facilities and equipment. However, by a mandate from the Congress the Indian Health Service of the Department of Health, Education and Welfare provides health services to Indian, tribes, bands or groups recognized by the Department of Interior. Therefore, to fully implement Pub. L. 93–150, FNS will consider as a local agency for the WIC Program a Federally recognized Indian tribe, band or group which receives health services from the Indian Health Service.

3. A number of commentors opposed the authority given FNS to require a revision, for a stated cause and at any time, of the method or delivery system for making supplemental foods available. It is not contemplated that FNS would require arbitrary revision of any or all delivery systems, but only reasonable revision whenever FNS becomes cognizant of a problem with a delivery system and of a need for revision. FNS will allow a reasonable period of time for discussion of the problem with State or local agencies and for initiation of the revision. This action will tend to limit any misuse of program funds and will minimize the need for claiming against grantees. Therefore, no change is made in the provision which will authorize FNS to require revision of a method or delivery system for making supplemental foods available.

4. It was suggested that § 246.6(k) and § 246.7(a)(7) were contradictory in assigning responsibility for the design of a method or delivery system for making supplemental funds available. After careful review, these paragraphs were revised to differentiate between the roles that the local agency and the State agency have in designing delivery systems.

5. The comments received contained substantial support for nutrition education as an integral part of the WIC Program and the funding of such by FNS. There is no authorization for nutrition education in section 17 of the Child Nutrition Act of 1966, as amended. Therefore, the Department cannot authorize such expenditures as direct program costs.

6. It was suggested, based on State agency experience thus far in the program, that the State agency approval and recommendation of a local agency to FNS be based on an assessment of the local agency's ability to develop a projected caseload, provide required clinical evaluations and maintain adequate fiscal records. The Department believes this recommendation is proper and advantageous to State agencies considering applicant local agencies. Therefore, the regulations are amended to include such a standard for State agency action on local agency applications.

7. A few respondents opposed selection by FNS, alone, of local agencies for participation in the WIC Program. The State agencies recommend to FNS only those local agency applicants that they approve for participation in the WIC Program. Only final approval of local agencies remains with FNS.

8. Some doubt was expressed of the need to document informed consent of program participants. Early in the program, FNS consulted with the Department of Health, Education and Welfare on the need for the documentation of informed consent of persons participating in the medical evaluation of the WIC Program. When individuals consent to participate in the WIC Program detailed medical evaluation, FNS is assured that people who participate in this evaluation have been informed that they are involved in an experimental feeding program and of any attendant risks. In addition, these individuals consent to the release of otherwise confidential medical data. The liability of all participating agencies is limited, essentially, to that which they would have for other programs—negligent injury to participants.

9. Several comments were received which proposed a uniform income standard for WIC eligibility. The WIC Program was designed to be an adjunct to existing health facility services. Standards and practices used by a health facility to determine eligibility of individuals or groups of individuals for free or reduced price health services shall not be altered in such a way as to exclude potential WIC participants. USDA will continue this policy throughout the pilot stage of the WIC Program.

10. Several comments indicated that the proposed language of § 246.12(c) implied that individuals would not be eligible for supplemental foods unless there were an existing condition which could be remedied by receipt of these foods. No such implication is intended, nor should it be read into this provision. An individual may need supplemental foods for preventive reasons or to remedy an existing condition. However, each person's condition must be assessed individually and his or her needs for the supplemental foods determined by a competent professional.

11. A number of comments supported inclusion of additional items in the food package. The Department will not materially alter the food package during the pilot stage of the program. At the end of the medical evaluation period a determination will be made regarding the food package as a whole. However, the following minor modifications not included in the proposed rulemaking have been made in individual components of the food package. No notice of proposed rulemaking is being given with respect to these modifications since infants would be deprived of the cereal component of the food package until the rulemaking procedure was complete and a hiatus in supplying infant cereal could adversely affect the results of the medical evaluation.

a. USDA has reduced the required iron content in infant cereals to be used in the WIC Program from 90 milligrams to 45 milligrams per 100 grams of dry cereal and has restricted to 50 percent the quantity of milk substitutes allowable for infants over six months of age. Current Food and Drug Administration nutrition labeling regulations require that foods containing 50 percent or more of the U.S. Recommended Daily Allowance conform to regulations concerning "dietary supplements." Therefore, infant cereal manufacturers have reduced the iron content of their products to 45 milligrams per 100 grams dry products and no infant cereal is currently available which meets the requirement of 90 milligrams of iron per 100 grams of dry cereal. Since iron fortified cereal and formula are the two supplemental foods which provide iron in the diets of infants, those infants over six months of age must continue to receive iron fortified formula for at least 50 percent of the combined volume of milk and formula in order to maintain the iron content of the infant package at approximately 100 percent of the Recommended Dietary Allowance.

b. Dried whole milk was proposed as a substitute for iron fortified formula for infants after 6 months of age and as a substitute for whole fluid milk for women and children in Puerto Rico only. However, dried whole milk is now authorized for Alaska and the Virgin Islands as well as Puerto Rico to assure that program participants in these areas will receive the milk component of the food package. Other milk items are less readily available in all three areas.

12. In lieu of a standard partial medical evaluation, each State agency will be requested to submit to FNS a report summarizing the benefits and disadvantages which can be attributed to the WIC Program for all projects not participating in the detailed medical evaluation. This decision was based on the Department's consultants' opinion that any study design adopted would yield minimum definitive answers concerning the benefits to participants as a result of the WIC Program. The reasons underlying this opinion were the impossibility of providing standardized equipment, of training clinic personnel in standardized data collection procedures, and of monitoring data collection procedures at all clinic sites. Since immediate action is required, it is considered that notice and public procedure thereon are impracticable and contrary to the public interest. However, complying with the spirit of public rulemaking, interested persons may submit written comments, data, or arguments to the Hearing Clerk, Room 112A, Administrative Building, U.S. Department of Agriculture, Washington, D.C. 20250, on or before January 15, 1975. Such comments, data, or arguments received will be considered and if necessary appropriate amendments will be made to this paragraph (§ 246.15(c)). Until such time, however, § 246.15(c), as revised, shall remain in effect.

To fully effect the revisions listed above a number of conforming changes were required throughout this part. Several comments suggested changes to the regulations which are not in accordance with the provisions of section 17 of the Child Nutrition Act of 1966, as amended (42 U.S.C. 1786). Since the regulations must follow the statutory requirements, these suggestions cannot be adopted.

In arriving at the revised regulations set forth below, each of the comments received was carefully and fully considered.

To the extent that the provisions of the regulations are at variance with any of the views expressed in such comments, any suggestions or proposals contained in the comments are hereby denied and any objections are overruled for the reasons previously stated.

In order to provide interested persons with useable copies of the regulations for the program, Part 246 is revised to read as follows:

Sec.
246.1 General purpose and scope.
246.2 Definitions.
246.3 Administration.
246.4 Use of funds.
246.5 Eligibility of local agencies.
246.6 Application by local agencies.
246.7 State agency action on applications.
246.8 Selection of local agencies.
246.9 Agreements.
246.10 Payments to States.
246.11 Records and reports.
246.12 Eligibility of persons.
246.13 Supplemental foods.
246.14 Fair hearing procedure.
246.15 Medical evaluation.
246.16 Miscellaneous.

AUTHORITY: Section 10, 80 Stat. 889, as amended (42 U.S.C. 1779); sec. 9, 80 Stat. 729, as amended (42 U.S.C. 1786).

§ 246.1 General purpose and scope.

(a) This part announces the policies and prescribes regulations for a pilot Special Supplemental Food Program for Women, Infants, and Children (WIC Program) to be operated in States and areas selected by FNS. Under the WIC Program, the Department provides cash grants to the health departments or comparable agencies of States, or to Indian tribes, bands or groups recognized by the Department of the Interior or to the Indian Health Service of the Department of Health, Education and Welfare to enable State and local public or private nonprofit health agencies, or Indian tribes or the Indian Health Service, to make specified nutritionally desirable foods available to pregnant women, lactating women, infants, and children.

(b) The Department or its designee will also collect medical data and other material to evaluate the effect of food intervention upon populations which are at nutritional risk. The analysis, appraisal, and evaluation of the data and material will be performed by FNS or its designee. Further, the Department or its designee will evaluate WIC Program operations for administrative efficiency and effectiveness in accomplishing program purposes.

§ 246.2 Definitions.

For the purposes of this part and of all contracts, instructions, forms, and other documents related hereto, the term:

(a) "Adequate medical records" means those records listed under § 246.11(d).

(b) "Administrative costs" means those direct and indirect costs, except food costs and clinic evaluation costs, necessary to support WIC Program operations and authorized under an approved cost allocation plan as described in General Services Administration's Federal Management Circular (FMC) 74-4 (formerly OMB A-87).

(c) "Children" means persons at least one year of age but less than four years of age.

(d) "Clinic evaluation costs" means those costs specified in § 246.4(d) which are incurred by a local agency to provide data and other material for the medical evaluation.

(e) "Competent professionals" means physicians, nutritionists, registered nurses, dieticians, or State or local medically trained health officials, or persons designated by physicians or State or local medically trained health officials as being competent professionally to evaluate nutritional risk.

(f) "Department" means the United States Department of Agriculture.

(g) "Evaluation visit" means a visit to the local agency by WIC Program participants selected in accordance with FNS instructions during which they will be given the tests needed to obtain information required for the evaluation of the effect of food intervention.

(h) "Food costs" means the costs of supplemental foods provided, either directly or by voucher, to participants for home consumption, but such costs shall not exceed the vendor's customary price for such food delivered to the State agency, the local agency or the participant, whichever is the first recipient.

(i) "FNS" means the Food and Nutrition Service of the Department.

(j) "FNSRO" means the appropriate Food and Nutrition Service Regional Office.

(k) "Infants" means persons under one year of age.

(l) "Lactating women" means women who are breastfeeding an infant from birth up to one year of age and also means all women for a period of six weeks postpartum.

(m) "Local agency" means a health clinic which is operated by an agency of a State; by a political subdivision of a State; or by a private nonprofit organization. It also means an Indian Health Service unit; a Federally recognized Indian tribe, band or group which operates a health clinic or which is provided health services by an Indian Health Service Unit.

(n) "Low birth weight" means a birth weight less than 2,500 grams.

(o) "Low income" means an income below the poverty level determined by the 1970 U.S. census, as revised annually for changes in the cost of living.

(p) "Nutritional risk" means one or more of the following:

(1) For pregnant or lactating women—

(i) Known inadequate nutritional patterns;

(ii) High incidence of anemia;

(iii) High rates or prematurity or miscarriage; or

(iv) Inadequate patterns of growth (underweight, obesity, or stunting).

(2) For infants and children—

(i) Deficient patterns of growth (when compared to the standards for height and weight established by H. C. Stuart and published by Waldo E. Nelson, et al., in the Textbook of Pediatrics, 9th Edition, 1969, W. B. Saunders Co., Phila., Pa.);

(ii) High incidence of nutritional anemia; or

(iii) Known inadequate nutritional patterns.

(q) "Participants" means persons to whom food is made available under the WIC Program.

(r) "Pregnant women" means persons determined by competent professionals to have one or more fetuses in utero.

(s) "Project area" means a geographic subdivision within a State determined by the local agency as the area to be served by the WIC Program.

(t) "Secretary" means the Secretary of the United States Department of Agriculture or his authorized representative.

(u) "State" means any one of the 50 States, the District of Columbia, Puerto Rico, the Virgin Islands, Guam or American Samoa.

(v) "State agency" means the State health department or comparable agency of a State; or an Indian tribe, band or group recognized by the Department of the Interior; or the appropriate area office of the Indian Health Service of the Department of Health, Education and Welfare.

(w) "Supplemental food" means any food authorized to be made available under the WIC Program.

(x) "WIC Program" means the Special Supplemental Food Program for Women, Infants and Children authorized by section 17 of the Child Nutrition Act of 1966, as amended.

§ 246.3 Administration.

(a) Within the Department, FNS shall act on behalf of the Department in administering the WIC Program.

(b) Within the States, the State agency shall be responsible for the operation of the WIC Program within the State. The State agency shall accept applications from local agencies which desire to participate in the WIC Program. The State agency shall be responsible for the design and operation of the system for making supplemental foods available to participants, including adequate safeguards against misuse. The State agency shall be responsible for forwarding to FNSRO those applications from local agencies which demonstrate the capability of operating under the WIC Program in accordance with this part and all instructions issued hereunder. The State agency shall monitor all program activities by local agencies and shall promptly notify FNSRO of any problems, program irregularities or illegal activity discovered. The State agency shall account to FNSRO for all funds granted under the WIC Program and shall be responsible for allocating the funds available for administrative costs between the State agency and local agencies.

§ 246.4 Use of funds.

(a) Federal funds made available to any State agency for the WIC Program for any fiscal year may be used by the State agency for administrative costs and for food costs and by local agencies for administrative costs, for food costs and for clinic evaluation costs. The use of WIC Program funds in any fiscal year shall be in accordance with budgets submitted by State and local agencies and approved by FNS.

(b) The use of WIC Program funds for administrative costs shall be subject to the following condition:

(1) The formula, if any, for allocating such funds between the State agency and local agencies shall be determined by the State agency;

(2) The amount expended for any fiscal year by the State agency and its local agencies shall not exceed ten per centum of the combined administrative and food costs incurred) exclusive of clinic evaluation costs). Administrative costs in excess of those which can be paid from WIC Program funds may be funded from any source other than FNS.

(c) The use of WIC Program funds for food costs shall be subject to the following conditions:

(1) The method or delivery system for making supplemental foods available designed by the State agency (or the local agency whenever the State agency authorizes the design of such method or delivery system by the local agency) must

be approved by FNS. FNS may, for a stated cause, at any time require revision of the method or delivery system for making supplemental foods available and, after a reasonable time for the State or local agency to effect such revision, WIC Program funds shall be used in accordance with the revised method or delivery system.

(2) All of the basic supplemental foods, or the specified substitutes therefor, as indicated in § 246.13 shall be made available by each participating local agency.

(d) The use of WIC Program funds for clinic evaluation costs shall be subject to the following conditions:

(1) The expenditures shall be limited to:

(i) The appropriate portion of the wages and salaries of the competent professionals who determine the nutritional need of eligible persons for the supplemental foods and who collect data and other material requested for use by FNS or its designee in the medical evaluation;

(ii) The appropriate portion of the wages and salaries of local agency employees who prepare such data and other material for submission to FNS or its designee;

(iii) The costs of any supplies consumed by the local agency in order to provide the requested data and other material to FNS or its designee; and

(iv) The expenses of shipping or mailing such data and other material as directed by FNS or its designee.

(2) The chief medical officer of the State agency shall certify that the costs incurred by the local agency and the portion of wages and salaries allocated to clinic evaluation costs are reasonable and that these costs were necessarily incurred to provide the data and other material requested by FNS or its designee.

(e) WIC Program funds shall not be used for any purposes by or in behalf of a local agency until a WIC Program agreement has been executed between the State agency and the local agency.

(f) Upon demand by FNS, the State agency shall promptly return to FNS any unobligated WIC Program funds. A pro rata amount of funds for administrative costs shall accompany any returned funds for food costs.

§ 246.5 Eligibility of local agencies.

A local agency is eligible to apply for participation in the WIC Program if:

(a) It provides health services, free or at less than the full charge customarily made for such services, to residents of an area in which a substantial proportion of the persons have low incomes;

(b) It serves a population of women, infants or children which is at nutritional risk;

(c) Its staff includes competent professionals who interview or examine persons receiving health services;

(d) It has the personnel, expertise, facilities and equipment necessary for performing the measurements, tests and collection of data and other material specified by FNS or its designee for the WIC Program; and

(e) It maintains or is able to maintain adequate medical records.

§ 246.6 Application by local agencies.

Any eligible local agency interested in participating in the WIC Program shall file a written application with its State agency. Applications shall be made on the form prescribed by FNS and shall include the following:

(a) The name, address and telephone number of the local agency; the name of the official who shall be responsible for supervising WIC Program operations at the local level; the name and address of the organization which sponsors the local agency, if any, and the sources of funding for the local agency. A private nonprofit organization must also include a copy of the determination letter or ruling letter issued by the Internal Revenue Service granting tax-exempt status.

(b) The type and numbers of competent professionals on the staff of the local agency, by general field of specialization, who will examine or interview persons to determine eligibility for the WIC Program and will authorize supplemental foods for eligible persons.

(c) The types of health services offered by the local agency to pregnant or lactating women, infants and children; and a brief description of the financial, residential and other socio-economic criteria applied to determine the eligibility of such individuals for health care, including treatment, free or at less than the customary full charge.

(d) A description of the type of laboratory facilities available and a statement indicating whether or not blood, serum or plasma can be processed for transportation to a designee of FNS.

(e) A list specifying which of the following data are presently maintained on pregnant or lactating women, infants and children: Height; weight; head circumference (infants only); hemoglobin; hematocrit; serum or plasma concentrations of iron, albumin, vitamin A, and ascorbic acid; and percent of saturation of transferrin. Also, indicate any other laboratory tests routinely performed and any other pertinent medical data routinely recorded.

(f) The boundaries of the geographic subdivision which the local agency proposes as the project area.

(g) An estimate of the total population of the proposed project area.

(h) Data showing the percentage of the population of the proposed project area with low incomes and any other significant information on economic conditions affecting the proposed project area.

(i) Data which indicate the rate of nutritional risk within the proposed project area including information such as the incidence of nutritional anemia; the number and rate of pregnancies, especially teenage pregnancies; the incidences of prematurity and miscarriage; the percent of low birth weight infants, infant morbidity and mortality rates; and the incidence of any additional health problems known to exist among women, infants and children in the proposed project area.

(j) An estimate of the number of pregnant or lactating women, infants, or children which the local agency expects to serve monthly under the WIC Program with an indication of the racial and ethnic composition of the expected participants.

(k) A description of the method or delivery system which the local agency recommends to the State agency for making supplemental foods available to expected participants and of the operating techniques which will be followed. This description must contain sufficient detail to permit State agency approval wherever the State agency has authorized design or operation, or both, of food delivery systems by local agencies.

(l) A description of any supplemental type feeding program for the benefit of pregnant or lactating women, infants or children which is already in operation in the proposed project area or any portion thereof, including any such feeding program now being operated by the applicant. Include number of participants served by the age group or other category, costs and items of food provided, delivery system used, administrative expenditures, sources of funding for administrative, food and other program expenditures, and an explanation of the expected relationship between any such program and the WIC Program. Include a description of the method which will be used to assure that WIC Program participants will not participate in the Department's Supplemental Food Program (7 CFR § 250.14) or Pilot Food Certificate Program (7 CFR Part 265).

(m) A description of any activities which will be carried out as an adjunct of or concomitant to the WIC Program (for example, any nutrition education effort) and the sources of funding for such activities.

(n) The estimated monthly WIC Program food costs and a brief description of the estimating techniques employed to calculate this figure;

(o) The estimated WIC Program administrative costs of the local agency by general type of expenditure, a brief justification for each such budgeted expenditure and, if the total administrative costs exceed the WIC Program funds which will be made available for such costs, the sources and amounts from each source which will be used to fund such costs. Nonrecurring costs shall be noted as such and listed as annual costs. All other administrative costs shall be computed on both a monthly and an annual basis.

(p) The estimated WIC Program clinic evaluation costs by general type of expenditure and a brief justification for each budgeted expenditure. All clinic evaluation costs shall be computed on both a monthly and an annual basis.

(q) A statement that the information furnished in the application is true and accurate to the knowledge of the signer.

(r) The signature of the official in the local agency who shall be responsible for supervising local WIC Program operations.

§ 246.7 State agency action on applications.

(a) The State agency shall transmit to FNSRO each application from a local agency which the State agency approves for the WIC Program and recommends to FNS for funding. With each application, the State agency shall include a letter stating that the State agency approves and recommends the local agency for funding based on the State agency's assessment of the local agency's ability to develop a projected caseload, provide required clinical evaluations, and maintain adequate fiscal records. The State agency letter shall also indicate whether the method or delivery system for making supplemental foods available will be designed by the State agency or, if designed by the local agency, the approval of that local agency design. The State agency shall also agree to take the necessary action to assure prompt implementation of the WIC Program by the local agency if selected by FNS for funding. Immediately following notification by FNS of the local agencies selected for participation, the State agency shall submit the following information:

(1) The name and address of the State agency and the name and telephone number of the person within the State agency who shall be responsible for the WIC Program;

(2) A listing of the WIC Program operation duties to be performed by the State agency and those to be performed by the local agency;

(3) A description of the techniques which shall be used to monitor the activities of the local agency and the frequency with which they shall be employed;

(4) The estimated WIC Program administrative costs of the State agency by general type of expenditure, the estimated WIC Program food costs, if any, of the State agency and a brief justification for each of the budgeted expenditures;

(5) The method, if any, by which WIC Program funds to be used for administrative costs will be allocated between the State and local agency;

(6) If the estimated administrative costs will exceed the WIC Program funds which may be used for such purposes, the sources and amounts from each source which will be used to fund these excess administrative costs;

(7) If a State agency has not approved a locally designed method or delivery system for making supplemental foods available to participants for all selected local agencies, a detailed description of the State agency designed method or delivery system and of the operating techniques which will be followed;

(8) A description of any activities which will be carried out by the State agency as an adjunct of or concomitant to the WIC Program (for example, any nutrition education effort) and the sources of funding for such activities;

(9) Any other information which the State agency wishes to include; and

(10) The signature of the official in the State agency who shall be responsible for all WIC Program operations within the State.

(b) The State agency shall promptly notify in writing each local agency whose application is not transmitted to FNSRO of the reasons therefor and shall, in the case of a final rejection of an application, send a copy of such rejection to FNSRO.

§ 246.8 Selection of local agencies.

(a) *General.* FNS shall select local agencies for participation in the WIC Program on the basis of the information contained in each application. Local agencies shall be selected which, in the judgment of FNS, are most suited to the accomplishment of the purposes of this part. All local agencies selected shall be requested to furnish medical data and other material to enable FNS or its designee to make the evaluation referred to in § 246.15. FNS shall select local agencies for participation in the detailed medical evaluation prior to selecting the other local agencies for participation. The number of local agencies selected each fiscal year for the WIC Program shall be dependent upon the funds available to FNS.

(b) *Criteria for selection.* FNS shall select local agencies for participation in the WIC Program on the basis of the following criteria:

(1) The absence of any similar supplemental feeding program. While the absence of such a program shall be mandatory for local agencies included in the detailed medical evaluation, it shall be merely one of the factors by which all other applicants are rated;

(2) The expertise which the local agency has in conducting the necessary anthropometric measurements. In addition, local agencies shall be selected to participate in the detailed medical evaluation on the basis of their expertise in performing the required clinical tests and in processing blood, serum or plasma for shipment to FNS or its designee;

(3) The severity of nutritional risk and other health problems which affect residents of the proposed project area;

(4) The percentage of residents in the proposed project areas with low incomes and other factors which could affect the ability of such residents to secure adequate nutrition;

(5) The number of expected participants in each category of eligible persons and any demographic characteristics which could affect the WIC Program evaluation;

(6) The suitability of the proposed system for making food available to participants and the utility of that system for program evaluation purposes.

(c) *Notification.* Each State agency shall be notified in writing by FNS of the action taken on each application transmitted by that State agency. The notification shall list the amount of funds which FNS shall make available to the State agency. In addition, FNS shall publicly announce all selected local agencies and the amount of funds made available to each State agency.

§ 246.9 Agreements.

(a) Each selected State agency shall enter into a written agreement with the Department for each fiscal year before any funds authorized for the WIC Program are made available to such State agency by FNS under this part for that fiscal year. Such agreements shall cover the operation of the program during the period specified therein and may be extended at the option of the Department with the concurrence of the State agency. The agreement shall be executed by the appropriate State agency official and by the Administrator of FNSRO on behalf of the Department. The agreement shall be in the form prescribed by FNS and shall incorporate the terms and conditions set forth in this part. The agreement shall also contain any additional provisions that are required by law or may be necessary for WIC Program administration, operation or evaluation, including specific provisions on:

(1) *Nondiscrimination.* An assurance that the State agency shall comply with the requirements of the Department's regulations respecting nondiscrimination (Part 15 of this title) to the end that no person shall, on the ground of race, color or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under the WIC Program and a further assurance that no person shall be subjected to any discrimination under the WIC Program because of creed, political beliefs or sex.

(2) *Public Information.* A statement that WIC Program regulations, instructions, and other documents which do not pertain to individual participants shall be made available to the public upon request.

(3) *Program Promotion.* A guarantee of assistance to the Department in its efforts towards WIC Program promotion and nutrition education.

(b) The State agency shall enter into an agreement with each local agency in the State selected for participation in the WIC Program. The agreement shall be in writing and shall contain such terms as the State agency deems necessary to insure that:

(1) The local agency operates in conformity with the methods stated in the application and transmittal which were approved by FNS;

(2) The actions of the local agency will be in accordance with this part;

(3) Data will be collected by the local agency and made available as required this part; and

(4) The local agency will secure and document an informed consent, as set forth in § 246.11, from each participant (parent or guardian of a participating infant or child) who is included in the detailed medical evaluation component of the WIC Program.

§ 246.10 Payments to States.

FNS shall issue a Letter of Credit in favor of each State agency having an agreement with the Department under this part. The State agency shall obtain needed funds through presentation by

designated officials of a Payment Voucher on Letter of Credit in accordance with procedures prescribed by FNS and approved by the U.S. Treasury Department. Withdrawals (advances) against the Letter of Credit shall be made only in amounts necessary to meet actual current disbursement needs. The advanced funds shall be used without delay to pay currently approved costs. Advances made by the State agency to local agencies shall be made only in amounts necessary to meet actual current disbursement needs of the local agency and shall be used without delay by the local agency to pay currently approved costs.

§ 246.11 Records and reports.

(a) *General.* Each State agency and local agency selected to participate in the WIC Program shall maintain full and complete records concerning program operations. All such records shall be retained for three years following the end of the Federal fiscal year to which they pertain. However, the Department may, by written notice, require retention of any records deemed by it to be necessary for resolution of an audit or of any litigation. If the Department deems any of the program records to be of historical interest, it may require the State or local agency to forward such records to the Department whenever such agency is disposing of them. All records shall be available during normal business hours for representatives of the Department and of the General Accounting Office of the United States to inspect audit and copy, provided that medical case records of individual participants shall remain confidential.

(b) *Financial records.* Each State and local agency shall keep complete and accurate records of all amounts received and disbursed for the WIC Program. All of the cost allocation data shall also be maintained.

(c) *Food records.* Each local agency shall keep a file of the food authorizations issued each month to each participant. If a local agency actually dispenses food to participants, the agency shall keep accurate and complete records of the receipt, disposal and inventory of such foods.

(d) *Medical records.* The local agency shall record during each FNS designated evaluation visit, at a minimum, the following data: Height (first visit only for pregnant or lactating women); weight; and head circumference (infants only). Mortality and morbidity data will be recorded whenever available. If the local agency is obtaining results of hemoglobin or hematocrit tests on WIC participants, such results shall be recorded with the WIC Program medical records. Those local agencies participating in the detailed medical evaluation of the WIC Program shall keep such additional medical records as FNS or its designee shall require.

(e) *Informed consent records.* Written documentation of the informed consent of each adult participant and of the parent or guardian of each infant or child participant included in the detailed medical evaluation component shall be obtained during the initial evaluation visit of the participant and shall not contain any waiver of the legal rights of the participants or of the parent or guardian. Each local agency shall have on file the procedure followed and any statements made to participants, or information supplied them, when their informed consent to participate in the detailed medical evaluation component of the WIC Program was sought.

(f) *Civil rights records.* The local agency shall maintain participation data that shows participation by racial and ethnic groups. The data should identify participants as White, Negro or Black, American Indian, Spanish-surnamed, Oriental and other.

(g) *Reports.* State agencies and local agencies shall submit reports regarding the use of funds received under this part, participation in the WIC Program, and data necessary to permit evaluation of administrative performance and of the effect of food intervention upon participants. Such reports shall be submitted on or before the 20th of the month following the month for which data and information are requested by FNS, in a form specified by FNS, and mailed in accordance with instructions from FNS. All civil rights reports shall be based on reviewable records, reported quarterly on or before the 15th of the month following the end of a calendar quarter or as required by FNS, and reported in the form specified by FNS.

§ 246.12 Eligibility of persons.

Pregnant or lactating women, infants and children whether they (or the parent or guardian of any infant or child) have or have not given their informed consent to participate in the detailed medical evaluation, are eligible to receive supplemental foods under the WIC Program if:

(a) They reside in an approved project area;

(b) They are certified for treatment free or at least than the full charge customarily made for such services by the participating local agency which serves the project area wherein they reside; and

(c) Their individual nutritional needs for the supplemental foods described in § 246.13 are determined through medical examination or interview by a competent professional on the staff of the participating local agency.

§ 246.13 Supplemental foods.

(a) The following kinds and specifications of foods shall be available under the WIC Program:

(1) For infants:

(i) Iron fortified infant formula with at least 10 milligrams of iron per liter of formula at standard dilution (which supplies 67 kilocalories per 100 milliliters, i.e., 20 kilocalories per fluid ounce).

Substitutes. Whole fluid milk fortified with 400 International Units of vitamin D per quart; or evaporated milk fortified with 400 International Units of vitamin A per reconstituted quart; or, in Puerto Rico, the Virgin Islands and Alaska only, dried whole milk fortified with 400 International Units of vitamin D per reconstituted quart, may be substituted for not more than 50 percent of the quantity of iron fortified infant formula authorized for any infant after six months of age.

(ii) Infant cereal which contains a minimum of 45 milligrams of iron per 100 grams of dry cereal.

(iii) Fruit Juice which contains at least 30 milligrams of vitamin C per 100 milliliters.

(2) For children and pregnant or lactating women:

(i) Whole fluid milk fortified with 400 International Units of vitamin C per quart; or evaporated milk fortified with 400 International Units of vitamin D per reconstituted quart; or skim or low fat milk fortified with 400 International Units of vitamin D and at least 1500 International Units of vitamin A per fluid quart or the minimum amount required by the Food and Drug Administration, whichever is greater; or nonfat dry milk fortified with 400 International Units of vitamin D and 2000 International Units of vitamin A per reconstituted quart; or, in Puerto Rico, the Virgin Islands and Alaska only, dried whole milk fortified with 400 International Units of vitamin D per reconstituted quart; or cheese (Swiss, Natural cheddar or pasteurized process American).

(ii) Cereal (hot or cold) which contains a minimum of 30 milligrams of iron per 100 grams of dry cereal.

(iii) Fruit or vegetable juice, or both, which contains a minimum of 30 milligrams of vitamin C per 100 milliliters.

(iv) Eggs.

(b) Supplemental foods shall be authorized by a competent professional in accordance with the individual needs of each eligible participant in amounts up to the following maximum quantities:

Foods	Units[1]	Maximum number of units per month	
		Infants	Children and pregnant or lactating women
Iron fortified infant formula	13 fl. oz. can of conc. liquid[2]	31	
Whole fluid milk	Fluid quart	(3)	31
Evaporated milk	13 fl. oz. can	May be substituted for whole fluid milk at rate of 13 oz can per quart of whole fluid milk.	
Skim or low fat milk	Fluid quart		May be substituted for whole fluid milk on a quart-for-quart basis.
Non-fat dry milk	4 lb. pkg		One package may be substituted for each 25 quarts of whole fluid milk.
Dry whole milk	1-pound can	In Puerto Rico, the Virgin Islands and Alaska, may be substituted for whole fluid milk at the rate of one can per three quarts of whole fluid milk.	
Cheese	Pound		May be substituted for whole fluid milk at the rate of one pound per three quarts.
Eggs	Dozen		2[4]
Infant cereal	8 oz. pkg	1	
Cereals (hot or cold)	8 oz. pkg		4
Juice, single strength[5]	46 fl. oz. can	3[6]	6

[1] Different size units may be made available provided that the total volume or weight per month remains the same.
[2] Dry or ready-to-use forms may be made available in equivalent amounts.
[3] May be substituted for not more than 50 percent of the quantity of formula beginning at age six months at the rate of one quart per can of concentrated formula.
[4] An equivalent amount of dried egg mix (two pounds) may be substituted.
[5] Frozen, concentrated fruit juices may be made available in 12 oz. cans at the same rate or in an equivalent volume in other size cans.
[6] 15-4 oz. cans of infant juices may be substituted.

§ 246.14 Fair hearing procedure.

Each State agency participating in the WIC Program shall establish a hearing procedure under which a person or his or her parent or guardian can appeal from a decision made by the local agency respecting the eligibility of such person for supplemental foods. Such hearing procedure shall provide:

(a) A simple, publicly announced method for a person to make an oral or written request for a hearing;

(b) An opportunity for the person to be assisted or represented by an attorney or other person in presenting the appeal;

(c) An opportunity to examine, prior to and during the hearing, the documents and records presented to support the decision under appeal;

(d) That the hearing shall be held with reasonable promptness and convenience to the person and that adequate notice shall be given to the person as to the time and place of the hearing;

(e) An opportunity for the person to present oral or documentary evidence and arguments supporting his or her position without undue interference;

(f) An opportunity for the person to question or refute any testimony or other evidence and to confront and cross-examine any adverse witnesses;

(g) That the hearing shall be conducted and the decision made by a hearing official who did not participate in making the decision under appeal;

(h) That the decision of the hearing official shall be based on the oral and documentary evidence presented at the hearing and made a part of the hearing record;

(i) That the person and any designated representative shall be notified in writing of the decision of the hearing official;

(j) That a written record shall be prepared with respect to each hearing, which shall include the decision under appeal, any documentary evidence and a summary of any oral testimony presented at the hearing, the decision of the hearing official, including the reasons therefor, and a copy of the notification to the family of the decision of the hearing official; and

(k) That such written record of each hearing shall be preserved for a period of 3 years and shall be available for examination by the person's representative at any reasonable time and place during such period.

§ 246.15 Medical evaluation.

(a) *General.* An evaluation of the effects of food intervention on the general health and development of participants shall be performed by FNS or its designee. Local agencies shall collect the data and other material necessary for this evaluation. FNS or its designee shall determine the specific anthropometric measurements and clinical tests to be performed. Those measurements and tests selected shall present minimal risk to participants and shall be accepted medical procedures. FNS or its designee shall standardize the methods used by participating local agencies in making the required measurements and tests and in collecting data and other material. All information concerning individual participants shall be released only to persons directly connected with the WIC Program. Only those participants who consent (or, in the case of infants and children, whose parents or guardians consent) shall be included in the detailed medical evaluation. Failure of a participant (or of his or her parent or guardian) to grant such consent shall not affect such person's eligibility for supplemental foods. Consent may be withdrawn at any time and such withdrawal shall not affect a participant's continuing eligibility for supplemental foods.

(b) *Detailed Medical evaluation.* Local agencies judged by FNS to serve a population representative of persons eligible for the WIC Program in the United States and with the necessary capabilities will be selected to participate in a detailed medical evaluation of the program. These local agencies shall perform required clinical tests and process blood, serum or plasma for shipment to FNS or its designee. Blood samples of consenting infant and child participants (consent given by parent or guardian) shall be drawn by a microlancet from a finger or heel prick under sterile procedures and subjected to microanalysis for hemoglobin, hematocrit, albumin, transferrin and iron. Samples shall also be taken from consenting women participants and subjected to similar analysis. Some samples from women shall be analyzed for vitamin A content. In addition to these test results, dietary histories, anthropometric measurements and other data required by FNS shall determine the benefits of the supplemental foods on the participants. Any therapeutically significant results from tests on individual participants shall be furnished to the appropriate local agency.

(c) *Partial medical evaluation.* Each State agency will be requested to submit to FNS a report summarizing the benefits and disadvantages which can be attributed to the WIC Program for all projects not participating in the detailed medical evaluation. The States may consider for their reports not only the medical and nutritional benefits to participants, but also data concerning the impact of the WIC Program on local agencies. Evaluations of other effects of the WIC Program may be included at the discretion of the State agency. The State agency shall submit a report on the evaluation to FNS by July 31, 1975. This report shall be compiled for the the period from initiation of WIC Program operations by the State agency through June 30, 1975.

§ 246.16 Miscellaneous.

(a) Any State agency or any local agency may be disqualified from future participation if it fails to comply with the provisions of this part and its agreement with the Department or the State agency. This does not preclude the possibility of other action being taken through other means available where necessary, including prosecution for fraud under applicable Federal statutes. If FNS determines that any part of the money received by a State agency, or food purchased or vouchers redeemed with WIC Program funds were, through State agency or local agency negligence or fraud, misused or otherwise diverted from the WIC Program purposes, the State agency shall, on demand by FNS, pay to FNS a sum equal to the amount of the money or the value of the food or vouchers so misused or diverted. Further, if FNS determines that any part of the money received by a State agency, or food purchased or vouchers redeemed with WIC Program funds, were lost as a result of thefts, embezzlements, or unexplained causes, the State agency shall, on demand by FNS, pay to FNS a sum equal to the amount of the money or the value of the food or vouchers so lost. The State agency shall have full oppor-

tunity to submit evidence, explanation or of noncompliance or diversion before a final determination is made in such cases.

(b) The value of benefits or assistance available under the WIC Program shall not be considered to be income or resources of participants or their families for any purpose under Federal or State laws including, but not limited to, laws relating to taxation, welfare and public assistance programs.

(c) Requests for information or assistance on the WIC Program and all applications, transmittals, agreements or other documents required by this part shall be sent to the FNSRO serving the State as listed below:

(1) Connecticut, Delaware, District of Columbia, Maine, Maryland, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Puerto Rico, Rhode Island, Vermont, Virginia, Virgin Islands, West Virginia: U.S. Department of Agriculture, FNS, Northeast Region, 729 Alexander Road, Princeton, New Jersey 08540.

(2) Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee: U.S. Department of Agriculture, FNS, Southeast Region, 1100 Spring Street, N.W., Atlanta, Georgia 30309.

(3) Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, Ohio, Wisconsin: U.S. Department of Agriculture, FNS, Midwest Region, 536 South Clark Street, Chicago, Illinois 60605.

(4) Arkansas, Colorado, Louisiana, Montana, New Mexico, North Dakota, Oklahoma, South Dakota, Texas, Utah, Wyoming: U.S. Department of Agriculture, FNS, West-Central Region, 1100 Commerce Street, Room 5-D-22, Dallas, Texas 75202.

(5) Alaska, American Samoa, Arizona, California, Guam, Hawaii, Idaho, Nevada, Oregon, Trust Territory, Washington: U.S. Department of Agriculture, FNS, Western Region, 550 Kearney Street, Room 400, San Francisco, California 94108.

(d) FNS shall issue instructions or procedures to implement the provisions of this part.

(e) Nothing contained in this part shall prevent a State agency from imposing additional requirements for participation in the WIC Program which are not inconsistent with the provisions of this part.

NOTE: The reporting and/or record keeping requirements contained herein have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

(Catalog of Federal Domestic Assistance Program No. 10.557, National Archives Reference Service)

Effective date. This part shall become effective on December 31, 1974.

Signed at Washington, D.C., on December 20, 1974.

RICHARD L. FELTNER,
Assistant Secretary.

[FR Doc.74-30190 Filed 12-26-74;8:45 am]

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Tangerine Reg. 46, Amdt. 5]

PART 905—ORANGES, GRAPEFRUIT, TANGERINES, AND TANGELOS GROWN IN FLORIDA

Amendment of Size Regulation

This amendment prescribes a minimum diameter requirement of 2$^{9}/_{16}$ inches (176 size) applicable to shipments of tangerines during the period December 30, 1974, through January 12, 1975, except that during any week of such period each handler may ship a quantity of tangerines not smaller than 2$^{7}/_{16}$ inches in diameter (210 size) equal to 35 percent of the volume of tangerines he shipped in the most recent previous week of the current fiscal period. This requirement is designed to prevent an excessive buildup of smaller-size tangerines in fresh market outlets and maintain orderly marketing conditions.

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 905, as amended (7 CFR Part 905), regulating the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the regulation of tangerine shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The amendment reflects the Department's appraisal of the need for regulation of tangerine shipments based on the available supply and current and prospective market conditions. The amendment is designed to provide ample supplies of tangerines of the more desirable sizes in the interest of both growers and consumers. The action is designed to prevent an excessive buildup of smaller-size tangerines and maintain orderly marketing conditions by preventing the adverse effect on the market caused by shipment of excessive quantities of smaller-size fruit when more than ample supplies of the more desirable sizes are available to serve consumers' needs. This amendment is consistent with the objective of the act of promoting orderly marketing and protecting the interest of consumers.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of tangerines, grown in the production area, are presently subject to regulation by grade and size, pursuant to the amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on December 17, 1974; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this amendment, including the effective time hereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such fruit; compliance with this amendment will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective time hereof.

Order. In §905.557 (Tangerine Regulation 46; 39 FR 32976, 37186, 40745, 41239, 42899) the provisions of paragraph (b)(2) are revised to read as follows:

§ 905.557 Tangerine Regulation 46.

* * * * *

(b) * * *

(2) Any tangerines, grown in the production area, which are of a size smaller than 2$^{9}/_{16}$ inches in diameter, except that a tolerance for tangerines smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances specified in the United States Standards for Florida Tangerines: *Provided,* That during the period December 30, 1974, through January 12, 1975, no handler may ship tangerines, grown in the production area, which are of a size smaller than 2$^{7}/_{16}$ inches in diameter except that a tolerance for tangerines smaller than such minimum diameter shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances specified in the United States Standards for Florida Tangerines: *Provided further,* That during any week of said period any handler may ship a quantity of tangerines which are smaller than 2$^{9}/_{16}$ inches in diameter, including the aforesaid tolerance, if (i) the number of standard packed boxes of such smaller tangerines does not exceed 35 percent of the total shipments of tangerines by such handler during the last previous week, within the current fiscal period, in which he shipped tangerines; and (ii) such smaller tangerines are of a size not smaller than 2$^{7}/_{16}$ inches in diameter, except that a tolerance for tangerines smaller than such minimum diameter shall be permitted, which tolerance shall be applied in ac-

XUM
V 39 N 250 DEC 27 1974
XUM

cordance with the provisions for the application of tolerances specified in said United States Standards for Florida Tangerines.

• • • • •

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated, December 23, 1974, to become effective December 30, 1974.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

PART 905—ORANGES AND GRAPEFRUIT GROWN IN THE LOWER RIO GRANDE VALLEY IN TEXAS

Miscellaneous Amendments

The amendment provides additional safeguards designed to prevent fruit handled under the exemption provisions of the order from entering the fresh regulated market.

On November 27, 1974, notice was published in the FEDERAL REGISTER (39 FR 41379) that the Department was considering an amendment, as hereinafter set forth, of the rules and regulations (Subpart—Rules and Regulations; 7 CFR 906.120–906.151) currently in effect pursuant to the applicable provisions of the marketing agreement, as amended, and Order No. 906, as amended (7 CFR Part 906), regulating the handling of oranges and grapefruit grown in the Lower Rio Grande Valley in Texas, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). This notice allowed interested persons 30 days during which they could submit written data, views, or arguments pertaining to these proposals. None were submitted.

The amendment provides additional safeguards pursuant to § 906.44 *Safeguards*, designed to prevent fruit handled under the exemption provisions specified in § 906.42 *Shipments for special purposes* from entering the fresh regulated market. The additional safeguards (1) remove fruit handled for conversion into fresh juice from exemption; (2) include fruit handled for processing under the exemption provisions; and (3) define the term "processing." A new rule and regulation, § 906.123 *Fruit for processing*, requires that (1) persons shipping fruit to points outside of the production area for processing ship such fruit only to approved processors; and (2) outlines procedures for the approval of such processors by the committee. Persons who ship fruit to such processors for processing would be required to promptly file diversion reports with the committee, and the committee could, if necessary to ensure compliance, require that the processors file disposition reports.

The amendment is necessary to prevent exempt fruit from entering the fresh regulated market. When fruit leaves the production area, it often loses its identity and it is difficult to determine its ultimate disposition. Currently, under the rules and regulations of the order, fruit for processing into fresh juice is exempt from grade, size, container, inspection, and assessment requirements if certain reporting requirements are met. The committee reports that fruit in such shipments should no longer have an exempt status because the number of such shipments is increasing and they are difficult to monitor since most shipments are to small processors for conversion into fresh juice. It also now considers it necessary to require handlers who ship exempt fruit for processing to processors outside of the production area to file disposition reports with the committee and only ship such fruit to "approved processors." A procedure is outlined by which the committee could certify processors and place their names on a list of approved processors. The committee could require that such processors file reports relating to the fruit they receive for processing if it is determined that such reports are necessary to effectuate compliance. These provisions are designed to ensure that fruit for processing is only shipped to bona fide processors and that the fruit is actually processed.

After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice, which were submitted by the Texas Valley Citrus Committee (established pursuant to said amended marketing agreement and order as the agency to administer the provisions thereof), it is hereby found that the amendment, as hereinafter set forth, of said rules and regulations, is in accordance with the provisions of said amended marketing agreement and order and will tend to effectuate the declared policy of the act. Such amendment is hereby approved, and said rules and regulations are amended as follows:

Paragraph (b) in § 906.120 *Fruit exempt from regulations* is revised to read as follows:

§ 906.120 Fruit exempt from regulations.

• • • • •

(b) *Processing.* The term "processing" as used in § 906.42(b) means the manufacture of any orange or grapefruit product which has been preserved by any recognized commercial process, including canning, freezing, dehydrating, drying, and the addition of chemical substances, or by fermentation. Fruit so processed is handled in accordance with Section 906.123 shall be exempt from the provisions of Sections 906.34 and 906.40. Fruit for conversion into juice without pasteurization or preservative treatment, as herein described, shall be deemed fresh fruit and subject to all regulations under this part.

• • • • •

A new § 906.123 *Fruit for processing* is established, reading as follows:

§ 906.123 Fruit for processing.

(a) No person shall be granted exemption from regulation to handle oranges and grapefruit for processing unless such fruit is shipped to an approved processor. All such shipments to an approved processor shall be reported to the committee on a form approved by it.

(b) *Approved processor.* Any person who desires to acquire, as an approved processor, fruit for processing, as set forth in § 906.120(b), shall, prior thereto, file an application with the committee on a form approved by it, which shall contain, but not be limited to, the following information:

(1) Name and address of applicant;

(2) Location of plant or plants where manufacturing is to take place;

(3) Approximate quantity of fruit used each month;

(4) A statement that the fruit obtained will be used for processing only and will not be resold or disposed of in fresh fruit channels; and

(5) Agree to submit such reports as are required by the committee. Such application shall be investigated by the committee staff. After such investigation, the staff shall report its findings to the committee at its next meeting or to its delegated subcommittee. Based upon the staff's report and other reliable information, the committee or delegated subcommittee shall approve or disapprove the application and notify the applicant accordingly. If the application is approved, the applicant's name shall be placed upon the list of approved processors.

(c) *Certificate by processors.* Upon request by the committee each approved processor shall submit to the committee on or before the 10th day of each month a report of the oranges and grapefruit used during the preceding calendar month. Each report shall contain a certificate to the United States Department of Agriculture and to the committee as to the truthfulness of the information shown therein.

(d) *Diversion report.* Each handler who ships fruit to processors for processing shall report to the committee on a form approved by it the following information:

(1) Name and address of the processor's place of business where the fruit was shipped;

(2) The net weight of oranges or grapefruit;

(3) Truck license number or rail car initial and number;

(4) Inspection certificate number; and

(5) Such other information as the committee may require.

The handler shall prepare 4 copies of the report and sign them. The original copy shall be submitted to the committee within 7 days. One copy shall be retained by the handler. One copy shall be given to the party transporting the fruit who, upon arrival at the processor's place of business, shall turn it over to the party receiving the fruit with the understanding that the processor will record thereon the actual net weight of the fruit re-

ceived and forward such copy to the committee office. One copy shall be submitted to the processor along with the invoice.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated, December 20, 1974, to become effective February 1, 1975.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.74-30186 Filed 12-26-74;8:45 am]

PART 906—ORANGES AND GRAPEFRUIT GROWN IN LOWER RIO GRANDE VALLEY IN TEXAS

Expenses and Rate of Assessment

This document authorizes expenses of $630,000 of the Texas Valley Citrus Committee, under Marketing Order No. 906, for the 1974–75 fiscal period and fixes a rate of assessment of $0.045 per 7/10-bushel carton or equivalent quantity of oranges and grapefruit handled in such period to be paid to the committee by each first handler as his pro rata share of such expenses.

On September 16, 1974, notice of rule-making was published in the FEDERAL REGISTER (39 FR 33227) regarding proposed expenses and the related rate of assessment for the period August 1, 1974, through July 31, 1975, and carryover of unexpended funds, pursuant to the marketing agreement, as amended, and Order No. 906, as amended (7 CFR Part 906), regulating the handling of oranges and grapefruit grown in the Lower Rio Grande Valley in Texas. This notice allowed interested persons 16 days during which they could submit written data, views, or arguments pertaining to these proposals. None were submitted. This regulatory program is effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). After consideration of all relevant matters presented, including the proposals set forth in such notice which were submitted by the Texas Valley Citrus Committee (established pursuant to said amended marketing agreement and order), it is hereby found and determined that § 906.214 is added as set forth below:

§ 906.214 Expenses and rate of assessment.

(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Texas Valley Citrus Committee during the period August 1, 1974, through July 31, 1975, will amount to $630,000.

(b) *Rate of assessment.* The rate of assessment for said period, payable by each handler in accordance with § 906.24, is fixed at $0.045 per 7/10-bushel carton, or an equivalent quantity of oranges and grapefruit.

(c) *Reserve.* Unexpended assessment funds in excess of expenses incurred during the fiscal period ended July 31, 1974, shall be carried over as a reserve in accordance with the applicable provisions of § 906.35.

It is hereby found that good cause exists for not postponing the effective time of this action until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of oranges and grapefruit are now being made; (2) the relevant provisions of said marketing agreement and this part require that the rate of assessment fixed for a particular fiscal period shall be applicable to all assessable fruit from the beginning of such period; and (3) the current fiscal period began on August 1, 1974, and the rate of assessment herein fixed will automatically apply to all assessable oranges and grapefruit beginning with such date.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: December 20, 1974.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Navel Orange Regulation 332]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period Dec. 27, 1974–Jan. 2, 1975. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907. The quantity of Navel oranges so fixed was arrived at after consideration of the total available supply of Navel oranges, the quantity currently available for market, the fresh market demand for Navel oranges, Navel orange prices, and the relationship of season average returns to the parity price for Navel oranges.

§ 907.632 Navel Orange Regulation 332.

(a) *Findings.* (1) *Pursuant to the* marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the respective quantities of Navel oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Navel orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Navel oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Navel oranges was fairly good during the past week. Prices f.o.b. averaged $3.71 per carton on a reported sales volume of 1,431 carlots last week, compared with an average f.o.b. price of $3.69 per carton and sales of 1,306 carlots a week earlier. Track and rolling supplies at 507 cars were down 284 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Navel oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this is based became available and the time this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on December 23, 1974.

(b) *Order.* (1) The respective quantities of Navel oranges grown in Arizona and designated part of California which may be handled during the period De-

XUM
V 39 N 250 DEC 27 74
XUM

cember 27, 1974, through January 2, 1975, are hereby fixed as follows:

(i) District 1: 697,000 cartons;

(ii) District 2: 48,915 cartons;

(iii) District 3: 53,900 cartons.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674).)

Dated: December 24, 1974.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.74-30839 Filed 12-26-74;8:45 am]

[Lemon Regulation 672]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period Dec. 29, 1974–Jan. 4, 1975. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

§ 910.972 Lemon Regulation 672.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons was good Monday morning but some decrease is expected during the remainder of the week because of the loss of two selling days over the Christmas holiday. Average f.o.b. price was $4.72 per carton the week ended December 21, 1974, compared to $4.27 per carton the previous week. Track and rolling supplies at 110 cars were down 33 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this regulation must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on December 23, 1974.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period December 29, 1974, through January 4, 1975, is hereby fixed at 175,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674)

Dated: December 24, 1974.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.74-30838 Filed 12-26-74;8:45 am]

[Papaya Reg. 5]

PART 928—PAPAYAS GROWN IN HAWAII

Limitation of Shipments

This regulation establishes quality and size requirements for Hawaiian papayas from January 1 through December 31, 1975 at the same levels as Papaya Regulation 4 effective during 1974. It requires all Hawaiian papayas handled to grade at least Hawaii No. 1 grade. Fruit handled in interstate or export channels shall be of pyriform shape and weigh at least 10 ounces and fruit handled in intrastate channels shall weigh at least 14 ounces except such fruit grading Hawaii Fancy shall weigh at least 15 ounces.

Notice was published in the FEDERAL REGISTER issue of December 2, 1974 (39 FR 41748) that the Department was giving consideration to a proposed regulation for handling of papayas grown in Hawaii, pursuant to the applicable provisions of the marketing agreement, and Order No. 928 (7 CFR Part 928) regulating the handling of papayas grown in Hawaii. This regulatory program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). Interested persons were afforded opportunity to file written data, views, or arguments thereon. None were filed.

The Papaya Administrative Committee estimates that 1975 production of Hawaiian papayas will total 48.0 million pounds, 25 percent more than the estimated record large 1974 crop of 38.5 million pounds. It is anticipated fresh sales will constitute 92 percent of the crop or 44 million pounds. To reach this quantity of fresh shipments, the committee expects that in-state sales will increase nine percent to 14.2 million pounds; export sales, other than mainland, 27 percent to 3.8 million pounds; and mainland sales, 37 percent to 26.0 million pounds.

The regulation is based upon an appraisal of the prevailing supply and market situation for papayas. It is concluded that the regulation is appropriate for said supply and market conditions expected to prevail during the effective period of the regulation and, consistent with the objectives of the act, will tend to assure consumers of an adequate supply of acceptable quality papayas while maintaining grower returns at a level consistent with the public interest.

After consideration of all relevant matters presented, including the proposal set forth in the aforesaid notice, the recommendations and information submitted by the Papaya Administrative Committee, established under the said marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such papayas, as hereinafter provided, will tend to effectuate the declared policy of the act.

It is hereby further found that good cause exists for not postponing the effective date of this regulation until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) shipments of

papayas will be regulated only through December 31, 1974, by current Regulation 4, and, in order to effectuate the declared policy of the act, this regulation should be effective not later than January 1, 1974, to provide continuity of regulation; (2) this regulation is the same as that which was specified in the notice (39 FR 41748), to which no exceptions were submitted; and (3) compliance with this regulation will not require any special preparation on the part of the persons subject thereto which cannot be completed by the effective date thereof.

Section 928.305 is added to read as follows:

§ 928.305 Papaya Regulation 5.

Order. (a) During the period January 1, 1975 through December 31, 1975, no handler shall ship any container of papayas:

(1) To any destination within the production area unless said papayas grade at least Hawaii No. 1 and are of the size which individually weigh not less than 14 ounces: *Provided*, That papayas handled as Hawaii Fancy grade shall be of a size which individually weigh not less than 18 ounces.

(2) To any export destination unless said papayas grade at least Hawaii No. 1: *Provided*, That such papayas shall be of pyriform shape and weigh not less than 10 ounces each.

(b) When used herein "Hawaii Fancy", "Hawaii No. 1", "Hawaii No. 2" and "pyriform shape" shall have the same meaning as set forth in the State of Hawaii Revised Regulation No. 1 Subsection 5.32—Wholesale Standards for Hawaiian Grown Papayas. All other terms shall have the same meaning as when used in the marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated, December 20, 1974, to become effective January 1, 1975.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Title 12—Banks and Banking

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER A—BOARD OF GOVERNORS OF THE FEDERAL RESERVE

[REG. T]

PART 220—CREDIT BY BROKERS AND DEALERS

Credit in Connection with Investment Contracts; Postponement of Effective Date

1. On page 34983 of the FEDERAL REGISTER of December 31, 1973, the Board of Governors announced the addition, pursuant to the authority of section 7 of the Securities and Exchange Act of 1934 (15 U.S.C. section 78g), of a new paragraph (1) to §220.6 of Regulation T. The effective date of the amendment was originally scheduled to be June 21, 1974 but was postponed until January 2, 1975 (39 FR 20906, June 17, 1974). The reason for the postponement was an announcement by the Securities and Exchange Commission of proposed amendments to its regulations that would exempt from section 7 of Securities and Exchange Act of 1934 some of the investment contracts which would be effected by the addition of paragraph (1) to section 220.6 of Regulation T. In order to provide the Commission with additional time for review of comments received on its proposal, the Board of Governors hereby announces that the effective date of paragraph (1) of § 220.6 is postponed until March 3, 1975.

By order of the Board of Governors, December 18, 1974.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.74-30253 Filed 12-26-74;8:45 am]

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

Subchapter C—Federal Savings and Loan System

[No. 74-1209]

PART 545—OPERATIONS

Travelers' Convenience Withdrawals

DECEMBER 12, 1974.

The following summary of the amendments adopted by this resolution is provided for the reader's convenience and is subject to the full explanation in the following preamble and to specific provisions of the regulations.

I. Existing regulations: None.

II. New regulation: Permits Federal associations to offer withdrawal services to their customers traveling more than 50 miles from home through payments at FSLIC-insured disbursing institutions.

III. Reason for amendment: To enable Federal associations to offer an additional service to savings customers.

The Federal Home Loan Bank Board, by Resolution No. 74-957, dated September 19, 1974, proposed an amendment to Part 545 of the rules and regulations for the Federal Savings and Loan System (12 CFR Part 545), which would add a new paragraph (e) to § 545.1 for the purpose of authorizing Federal associations to allow withdrawals from savings accounts as described below. Notice of such proposed rulemaking was published in the FEDERAL REGISTER on September 27, 1974 (39 FR 34681) with an invitation for interested persons to submit written comments by October 31, 1974. On the basis of its consideration of all relevant material presented by interested persons and otherwise available, the Board considers it desirable to adopt said new paragraph (e) of § 545.1 with one change as described below.

New paragraph (e) of § 545.1 permits Federal associations to offer withdrawal services to customers who are traveling away from home. The regulation has five central features; (1) It permits Federal associations to act as the institution which offers the withdrawal service to its customers (the offering institution). (2) It permits only institutions insured by the Federal Savings and Loan Insurance Corporation to disburse funds (the disbursing institution) to customers of Federal associations making withdrawals. (3) It limits use of these services to situations where the institution disbursing funds to Federal association customers is located more than 50 miles from the customer's home. (The proposal would have required the distance to be 100 miles.) (4) It permits Federal associations to act as disbursing institutions in similar transactions in which the offering institution is FSLIC-insured. (5) The regulation has several optional features: It permits but does not require the imposition of fees on customers, payment by Federal associations of fees to disbursing institutions (and the charging of fees by a Federal where it is the disbursing institution) and the setting of withdrawal amount limitations. The regulation requires telephone authorization by the customer and to the offering institution and immediate debiting of the customer's account thereafter. The purpose of the requirements in the immediately preceding sentence is to ensure that the transaction will be the equivalent of a withdrawal at the office of the offering institution.

The Board hereby amends said § 545.1 by adding a new paragraph (e) to read as set forth below, effective January 27, 1975.

§ 545.1 Savings accounts.

* * * * *

(e) *Travelers' convenience withdrawals.* A Federal association may permit an accountholder to make a withdrawal from a "regular account" (as defined in § 526.1(d) of this chapter) through a disbursing institution whose accounts are insured by the Federal Savings and Loan Insurance Corporation if the office of the disbursing institution through which the payment of such withdrawal is made is located more than 50 miles from the principal dwelling place of such accountholder. Such Federal association may authorize payment by the disbursing institution only upon receiving a specific telephonic withdrawal request (which may be oral or electronic) from such accountholder, and the amount so paid shall be immediately withdrawn from the savings account at such Federal association. A Federal association providing withdrawal services pursuant to this paragraph (e) may, but is not required to: (1) charge a fee to accountholders making such withdrawals, (2) place a limitation upon the amount of such withdrawal requests, and (3) pay a fee to the disbursing institution. A Federal association may also act as the disbursing institution in a similar withdrawal transaction from a regular account in another institution whose accounts are insured by the Federal Savings and Loan Insurance Corporation, and may collect a fee for its services.

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Reorg. Plan No. 3 of 1947, 12 F.R. 4981, 3 CFR, 1943–48 Comp., p. 1071)

V 39 N 250 DEC 27 1974 XUM

By the Federal Home Loan Bank Board.

[SEAL] GRENVILLE L. MILLARD, JR.,
Assistant Secretary.

[FR Doc.74-30221 Filed 12-26-74;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 14226; Amdt. 39-2059]

PART 39—AIRWORTHINESS DIRECTIVES

Mitsubishi MU-2B-26 and -36 Airplanes

Pursuant to the authority delegated to me by the Administrator, an airworthiness directive (AD) was adopted on October 21, 1974, and made effective immediately upon receipt of the airmail letter AD as to all known United States operators of Mitsubishi Heavy Industries, Ltd., MU-2B-26 and -36 airplanes because of reported failures of flap flexible shaft inner cables on similar type certificated airplanes that could render the flap system inoperative on Mitsubishi MU-2B-26 and -36 airplanes. The AD requires inspections of the flap cables before further flight, periodic inspections thereafter, and replacement of shafts as necessary.

Since it was found that immediate corrective action was required, notice and public procedure thereon was impracticable and contrary to the public interest and good cause existed for making the AD effective immediately as to all known U.S. operators of Mitsubishi MU-2B-26 and -36 airplanes by airmail letter dated October 22, 1974. These conditions still exist and the AD is hereby published in the FEDERAL REGISTER as an amendment to § 39.13 of the Federal Aviation Regulations to make it effective as to all persons.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

MITSUBISHI HEAVY INDUSTRIES, LTD. Applies to Mitsubishi MU-2B-26 and -36 airplanes.

Compliance required as indicated, except that the airplane may be flown in accordance with § 21.197 to a base where the inspection, replacement, or modification can be accomplished.

To prevent failure of the flap flexible shaft inner cable (P/N RY25-1 or 060227-OC-97.50) and resulting jammed outboard auxiliary actuator that could render the flap system inoperative, accomplish the following:

(a) Before further flight and thereafter at intervals not to exceed 50 hours time in service since the last inspection, inspect the RH and LH flap flexible shafts (P/N RY25-1 or 060227-OC-97.50) for frictional noise by listening for intermittent squeak while operating the flaps in both directions through their full travel, in quiet surroundings.

(b) If frictional noise is heard during an inspection required by paragraph (a) of this AD, before further flight, remove the clamp at W.S. 2690, if installed, and replace the affected shaft with a serviceable shaft, P/N RY25-1 or 060227-OC-97.50, installed so as to establish that no bend radius throughout the shaft between W.S. 2370 and W.S. 2910 is less than 8.7 inches (220 millimeters).

(c) If no frictional noise is heard during an inspection required by paragraph (a) of this AD, before further flight, unless already accomplished—

(1) Remove the clamp at W.S. 2690, if installed;

(2) Loosen the clamp at W.S. 2910;

(3) Flex the shaft to establish that no bend radius throughout the shaft between W.S. 2370 and W.S. 2910 is less than 8.7 inches (220 millimeters); and

(4) Tighten the clamp at W.S. 2910.

This amendment is effective December 27, 1974 as to all persons except those persons to whom it was made effective upon receipt of the airmail letter dated October 22, 1974, that contained this amendment.

Issued in Washington, D.C., on December 17, 1974.

R. P. SKULLY,
Director,
Flight Standards Service.

[FR Doc.74-30149 Filed 12-26-74;8:45 am]

[Docket No. 14226; Amdt. 39-2060]

PART 39—AIRWORTHINESS DIRECTIVES

Rolls Royce RB 211 Series Engines

Pursuant to the authority delegated to me by the Administrator, an airworthiness directive (AD) was adopted on September 8, 1974, and made effective immediately upon receipt as to all known United States operators of airplanes equipped with Rolls Royce RB 211 Series Engines, because of reports of cracks developing in the intermediate compressor casing immediately forward of the high pressure one borescope port and subsequent inflight shutdowns. Subsequently, the FAA determined that clarification of the AD was required and that certain inspections must be performed. Accordingly, an AD superseding the AD adopted on September 8, 1974, was adopted on October 4, 1974, and made effective immediately upon receipt as to all known United States operators of airplanes certificated in all categories equipped with Rolls Royce RB 211 Series Engines. The AD adopted October 4, 1974, adds a requirement to perform dye penetrant inspections in the vicinity of the internal wheelcase oil scavenge boss, and states more completely the requirements contained in the AD of September 8, 1974.

Since it was found that immediate corrective action was required, notice and public procedure thereon was impracticable and contrary to the public interest and good cause existed for making the AD effective immediately as to all known United States operators of airplanes certificated in all categories equipped with Rolls Royce RB 211 Series Engines by individual telegrams dated October 4, 1974. These conditions still exist and the AD is hereby published in the FEDERAL REGISTER as an amendment to § 39.13 of Part 39 of the Federal Aviation Regulations to make it effective as to all persons.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

ROLLS ROYCE (1971) LIMITED. Applies to Rolls Royce RB 211 Series Engines.

Compliance required as indicated.

To prevent inflight engine shutdown that could result from cracks in the intermediate compressor casing comply with the following:

(a) For wing mounted engines within the next 50 hours time in service after the effective date of this amendment, or before the accumulation of the lesser of 400 hours time in service or 260 cycles, whichever occurs later, unless already accomplished, comply with paragraphs (b) and (c) of this AD as applicable.

(b) Inspect by borescope for cracks in the outer annulus walls of the intermediate compressor casing immediately forward of the high pressure one compressor borescope port.

NOTE. Use the high pressure one stator or rotor borescope access port or both, ensuring that the borescope enters only into the airbleed annulus.

(c) Using dye penetrant, inspect the outside of the intermediate compressor casing for axial cracks in the vicinity of the internal wheelbase oil scavenge boss and the borescope access port.

(d) If a crack is found during an inspection required by this AD that has progressed forward into the radius where the annulus wall meets the main casing wall, before further flight, except that the engine may be operated in accordance with FAR §§ 21.197 and 21. 199 to base where the replacement can be accomplished, replace the cracked casing with a serviceable casing.

(e) If a crack is found during an inspection required by this AD that has not progressed forward into the radius where the annulus wall meets the main casing wall, comply with the following as applicable:

(1) If the airplane on which the affected engine is installed has one or more other engines with cracked casings installed, before further flight, except that the engines may be operated in accordance with FAR §§ 21.197 and 21.199 to a base where replacement can be accomplished, either—

(i) Replace cracked casings so that no more than one engine with a cracked casing remains installed and inspect in accordance with paragraph (f) of this AD; or

(ii) Replac all cracked casings and inspect in accordance with paragraph (g) of this AD.

(2) If the airplane on which the engine with the cracked casing is installed is not known to have another engine with a cracked casing installed, either—

(i) Before further flight, except that the engine may be operated in accordance with FAR §§ 21.197 and 21.199 to a base where replacement can be accomplished, replace the cracked casing and inspect in accordance with paragraph (g) of this AD; or

(ii) Before further flight, inspect the other engines installed on the airplane in accordance with paragraphs (b) and (c) of this AD and comply with paragraphs (d), (e), or (f) of this AD as applicable.

(f) For all engines installed on airplanes having one engine with a cracked casing installed, repeat the inspections specified in paragraphs (b) and (c) of this AD at intervals not to exceed 100 hours time in service or 70 cycles since the last inspection, whichever occurs sooner, until the engine with the cracked casing is replaced.

(g) For wing mounted engines installed on airplanes not having an engine known to have a cracked casing installed, repeat the inspections specified in paragraphs (b) and (c) of this AD at intervals not to exceed 400 hours time in service or 260 cycles since the last inspection, whichever occurs sooner.

(h) For the purpose of this AD, the number of cycles equals the number of flights that involve an engine operating sequence con-

sisting of engine starting, takeoff, operation, landing, and engine shutdown.

(i) Report all cracks found as a result of any inspection performed in compliance with this AD within 10 days of the inspection to the Chief, Engineering and Manufacturing Division, Flight Standards Service, Attention: AFS 140, Federal Aviation Administration, 800 Independence Avenue S.W., Washington, D.C. 20591. Each report must include the part number, total time in service on the part, the number of flight cycles on the part, size and location of cracks, engine serial number, and engine position. (Reporting approved by the Bureau of the Budget under BCB 04 R0174.)

This amendment is effective December 27, 1974 as to all persons except those persons to whom it was made immediately effective by the telegram dated October 4, 1974, which contained this amendment.

Issued in Washington, D.C. on December 18, 1974.

R. P. SKULLY,
Director,
Flight Standards Service.

SUBCHAPTER F—AIR TRAFFIC AND GENERAL OPERATING RULES

[Reg. Docket No. 14220; Amdt. 95-254]

PART 95—IFR ALTITUDES

Miscellaneous Changes

The purpose of this amendment to Part 95 of the Federal Aviation Regulations is to make changes in the IFR altitudes at which all aircraft shall be flown over a specified route or portion thereof. These altitudes, when used in conjunction with the current changeover points for the routes or portions thereof, also assure navigational coverage that is adequate and free of frequency interference for that route or portion thereof.

As a situation exists which demands immediate action in the interest of safety, I find that compliance with the notice and procedure provisions of the Administrative Procedure Act is impracticable and that good cause exists for making this amendment effective within less than 30 days from publication.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (24 FR 5662), Part 95 of the Federal Aviation Regulations is amended, effective January 30, 1975, as follows:

1. By amending Subpart C as follows:

Section 95.625 *Blue Federal airway 25* is amended to read in part:

From, to, and MEA

Glenallen, Alaska, FL/RBN; *Delta Junction, Alaska, LF/RBN; 12,000. *7,200—MCA Delta Junction LF/RBN, southeast-bound.

Section 95.1001 *Direct routes—U.S.* is amended by adding:

Dothan, Ala., VOR; Blakely INT, Ga.; 2,500.
Blaly INT, Ga.; Flint INT, Ga.; 2,000.

Section 95.1001 *Direct routes—U.S.* is amended to delete:

Dothan, Alas., VOR; Blakely INT, Ga.; 2,500.
Blakely INT, Ga.; Flint INT, Ga.; *2,000. *1,500—MOCA.

Section 95.1001 *Direct routes—U.S.*

Puerto Rico Routes

Route 2 is amended to read in part:

Cruzan INT, V.I.; St. Croix, V.I., VOR; 2,400.

Route 4 is amended to read in part:

Snapper INT, V.I.; St. Croix, V.I., VOR; 2,400.

Section 95.5000 *High altitude RNAV routes:*

From/to, total distance, changeover point distance from geographic location, track angle, MEA, MAA

J808R is amended to read in part:

Sardi, N.Y., W/P; 24; 077/257 to COP; 18,000; 45,000.
Patty, N.Y., W/P; 078/258 to Patty.
Patty, N.Y., W/P; 91; 078/258 to COP; 18,000; 45,000.
Marys, Mass., W/P; 080/260 to Marys.

J809R is amended to read in part:

Sardi, N.Y., W/P; 24; 077/257 to COP; 18,000; 45,000.
Patty, N.Y., W/P; 078/258 to Patty.
Patty, N.Y., W/P; 91; 078/258 to COP; 18,000 45,000.
Marys, Mass., W/P; 080/260 to Marys.

J831R is added to read:

Patty, N.Y., W/P; 92; 087/267 to COP; 18,000; 45,000.
Nantucket, Mass., VORTAC; 088/268 to Nantucket.
Nantucket, Mass., VORTAC; 93; 18,000; 45,000.
Codds, Mass., W/P; 104/284 to Codds.

J833R is amended to read:

Bangor, Maine, VORTAC; 88; 225/045 to COP; 18,000; 45,000.
Gordi, Maine, W/P; 222/042 to Gordi.
Gordi, Maine, W/P; 150; 222/042 to COP; 18,000; 45,000.
Domie, Mass., W/P; 218/038 to Domie.
Domie, Mass., W/P; 67; 237/057 to Patty; 18,000; 45,000.
Patty, N.Y., W/P.
Patty, N.Y., W/P; 42; 258/078 to COP; 18,000; 45,000.
Sardi, N.Y., W/P; 255/075 to Sardi.

Section 95.5500 *High altitude RNAV routes:*

J944R is amended to read in part:

Morro, Calif., W/P; 97; 249/069 to COP; 18,000; 45,000.
Perch, Calif., W/P; 246/066 to Perch.
Perch, Calif., W/P; 173; 18,000; 45,000.
Ceres, Calif., W/P; 247/067 to Ceres.

J947R is amended to read in part:

San Luis Obispo, Calif., VORTAC; 130; 18,000; 45,000.
Gates, Calif., W/P; 226/046 to Gates.

J944R is amended to read in part:

Ceres, Calif., W/P; 173; 18,000; 45,000.
Perch, Calif., W/P; 067/247 to Perch.
Perch, Calif., W/P; 113; 67; Perch; 046/226 to COP; 18,000; 45,000.
Rabbi, Calif., W/P; 049/229 to Rabbi.

J963R is amended to read in part:

Gates, Calif., W/P; 130; 18,000; 45,000.
San Luis Obispo, Calif., VORTAC; 046/226 to San Luis Obispo.

J993R is amended to read in part:

Surfy, N.C., W/P; 103; 20; Surfy; 191/011 to COP; 18,000; 45,000.
Azana, S.C., W/P; 188/068 to Azana.
Azana, S.C., W/P; 119; 105; Azana; 189/009 to COP; 18,000; 45,000.
Gauge, Fla., W/P; 186/006 to Gauge.
Gauge, Fla., W/P; 20; 18,000; 45,000.
Salls, Fla., W/P; 187/007 to Salls.

J995R is amended to read in part:

Bondi, Fla., W/P; 51 042/222 to COP; 18,000; 45,000.
Halbi, Fla., W/P; 043/223 to Halbi.
Salls, Fla., W/P; 26; 20,000; 45,000.
Gauge, Fla., W/P; 007/187 to Gauge.
Gauge, Fla., W/P; 119; 15; Gauge; 006/186 to COP; 24,000; 45,000.
Azana, S.C., W/P; 009/189 to Azana.
Azana, S.C., W/P; 104; 84; Azana; 008/188 to COP; 24,000; 45,000.
Surfy, N.C., W/P; 011/191 to Surfy.

Section 95.6005 *VOR Federal airway 5* is amended to read in part:

From, to, and MEA

Chattanooga, Tenn., VOR; Summitville INT, Tenn.; 4,000.
Summitville, INT, Tenn.; Gum INT, Tenn.; 3,000.
Chattanooga, Tenn., VOR via E. alter.; Nashville, Tenn., VOR via E. alter.; 4,000.
Nashville, Tenn., VOR; *Portland INT, Tenn.; 2,500. *3,000—MRA.
Portland INT, Tenn.; Bowling Green, Ky., VOR; 2,500.
Nashville, Tenn. VOR via E. alter.; Barren INT, Ky. via E. alter.; 2,700.

Section 95.6006 *VOR Federal airway 6* is amended by adding:

Moscow INT, Iowa; Davenport, Iowa, VOR; *2,300. *2,000—MOCA.
Davenport, Iowa, VOR; Harmon INT, Ill.; *2,400. *2,100—MOCA.

Section 95.6006 *VOR Federal airway 6* is amended to delete:

Moscow INT, Iowa; Cordova, Iowa, VOR; *2,300. *2,000—MOCA.
Cordova, Iowa, VOR; Harmon INT, Ill.; *2,400. *2,100—MOCA.

Section 95.6007 *VOR Federal airway 7* is amended to read in part:

Nashville, Tenn., VOR via E. alter.; Central City, Ky., VOR via E alter.; 3,000.

Section 95.6008 *VOR Federal airway 8* is amended by adding:

Moscow INT, Iowa; Davenport, Iowa, VOR; *2,300. *2,000—MOCA.
Davenport, Iowa, VOR; Harmon INT, Ill.; *2,400. *2,100—MOCA.

Section 95.6008 *VOR Federal airway 8* is amended to delete:

Moscow INT, Iowa; Cordova, Iowa, VOR; *2,300. *2,000—MOCA.
Cordova, Iowa, VOR; Harmon INT, Ill.; *2,400. *2,100—MOCA.

Section 95.6009 *VOR Federal airway 9* is amended to read in part:

Folsom INT, La.; McComb, Miss., VOR; 2,000.
McComb, Miss., VOR; *Rosemart INT, Miss.; 2,000. *4,000—MRA.
Rosemart INT, Miss.; Jackson, Miss., VOR; 2,000.
Jackson, Miss., VOR; *Berryville INT, Miss.; 2,000. *4,000—MRA.
Berryville INT, Miss.; Greenwood, Miss., VOR; 2,000.
Greenwood, Miss., VOR; Coldwater INT, Miss.; 2,000.

New Orleans, La. VOR via E. alter.; Picayune, Miss., VOR via E. alter.; 2,000.
Picayune, Miss., VOR via E. alter.; McComb, Miss., VOR via E. alter.; 2,000.

Section 95.6009 *VOR Federal airway 9* is amended to delete:

Green Bay, Wis., VOR via W. alter.; Cecil INT, Wis. via W. alter.; 2,700.
Cecil INT, Wis. via W. alter.; Rhinelander, Wis., VOR via W. alter.; *3,000. *3,000—MOCA.
Rhinelander, Wis., VOR via W. alter.; Houghton, Mich., VOR via W. alter.; *3,500. *3,000—MOCA.

Section 95.6011 *VOR Federal airway 11* is amended to read in part:

Brookley, Ala., VOR; Greene County, Miss., VOR; 2,000.
Mobile, Ala., VOR via W. alter.; Greene County, Miss., VOR via W. alter.; 2,000.
Greene County, Miss., VOR; Laurel, Miss., VOR; 2,000.
Yarbo INT, Ala. via E. alter.; Laurel, Miss., VOR via E. alter.; 2,000.

Section 95.6015 *VOR Federal airway 15* is amended to read in part:

Waco, Tex., VOR; Scurry, Tex., VOR; *2,500. *1,900—MOCA.

Section 95.6016 *VOR Federal airway 16* is amended to read in part:

Nashville, Tenn., VOR via S. alter.; Centertown INT, Tenn., via S. alter.; 4,000.
Tampico INT, Tenn. via N. alter.; Yuma INT, Va., via N. alter.; 4,500.
Sweetwater INT, Tenn., via S. alter.; Knoxville, Tenn., VOR via S. alter.; 3,000.
Knoxville, Tenn., VOR via S. alter.; Potts INT, Tenn., via S. alter.; 5,000.
Potts INT, Tenn., via S. alter.; *Pittman INT, Tenn., via S. alter.; 6,000. *7,000—MCA Pittman INT, east-bound.
Pittman INT, Tenn., via S. alter.; Snowbird, Tenn., VOR via S. alter.; 7,000.

Section 95.6018 *VOR Federal airway 18* is amended to read in part:

Monroe, La., VOR; *Signal INT, Miss.; 2,000. *1,800—MRA.
Signal INT, Miss.; *Black INT, Miss.; 2,000. *3,600—MRA.
Black INT, Miss.; Jackson, Miss., VOR; 2,600.
*Bolton INT, Miss. via S. alter.; Jackson, Miss., VOR via S. alter.; 2,000. *3,400—MRA.
*Phoenix INT, Miss. via N. alter.; Jackson, Miss., VOR via N. alter.; 2,000. *2,900—MRA.
Meridian, Miss., VOR; Tuscaloosa, Ala., VOR; 2,000.

Section 95.6020 *VOR Federal airway 20* is amended to read in part:

Slidell INT, La.; Gulfport, Miss., VOR; 1,800.
Gulfport, Miss., VOR; Mobile, Ala., VOR; 3,000.
New Orleans, La., VOR via N. alter.; Picayune, Miss., VOR via N. alter.; 2,000.
Picayune, Miss., VOR via N. alter.; Mobile, Ala., VOR via N. alter.; 2,000.
Tuskegee, Ala., VOR; Eagle INT, Ala., *2,500. *1,900—MOCA.
Eagle INT, Ala.; Columbus, Ga., VOR; 2,600.

Section 95.6035 *VOR Federal airway 35* is amended to read in part:

*Busick INT, N.C.; Roan Mountain INT, N.C.; 9,000. *8,500—MCA Busick INT, Northbound.
*Roan Mountain INT, N.C.; Holston Mountain, Tenn. VOR; 7,000. *8,000—MCA Roan Mountain INT, Southbound.
Mars Hill INT, N.C. via W. alter.; Unicoi INT, N.C. via W. alter.; 7,000.
Unicoi INT, N.C. via W. alter.; Holston Mountain, Tenn., VOR via W. alter.; 7,000.
Hartsfield INT, Ga., Saler INT, Ga.; 2,500. *3,000—MRA.
Saler INT, Ga.; Albany, Ga., VOR; 2,000.
Albany, Ga., VOR; Macon, Ga., VOR; 2,000.

Section 95.6049 *VOR Federal airway 49* is amended to read in part:

Nashville, Tenn., VOR; via E. alter.; *Portland INT, Tenn. via E. alter.; 2,500. *3,000—MRA.
Portland INT, Tenn. via E. alter.; Bowling Green, Ky., VOR via E. alter.; 2,500.

Section 95.6051 *VOR Federal airway 51* is amended to read in part:

Ducktown INT, Tenn. via W. alter.; Hinch Mountain, Tenn., VOR via W. alter.; 5,000.

Section 95.6053 *VOR Federal airway 53* is amended to read in part:

*Busick INT, N.C.; Roan Mountain INT, N.C.; 9,000. *8,500—MCA Busick INT, Northbound.
*Roan Mountain INT, N.C.; Holston Mountain, Tenn., VOR; 7,000. *8,000—MCA Roan Mountain INT, Southbound.

Section 95.6054 *VOR Federal airway 54* is amended to read in part:

Waco, Tex. VOR; Scurry, Tex., VOR; *2,5000, *1900—MOCA.
Iuka INT, Miss.; Barton INT, Ala; *2,600, *2,100—MOCA.
Barton INT, Ala.; Muscle Shoals, Ala., VOR; 2,600.
Huntsville, Ala., VOR; Chattanooga, Tenn., VOR; 4,000.

Section 95.6056 *VOR Federal airway 56* is amended to read in part:

Jefferson INT, Ala.; Safford INT, Ala.; 2,000.
Safford INT, Ala.; Cahaba, Ala., VOR; *2,000, *1,400—MOCA.
Cahaba, Ala., VOR; *Benton INT, Ala; 2,000. *2,200—MRA.
Benton INT, Ala.; Montgomery, Ala., VOR; 2,000.
Tuskegee, Ala., VOR; Eagle INT, Ala.; *2,500. *1,900—MOCA.
Eagle INT, Ala.; Columbia, Ga., VOR; 2,600.

Section 95.6063 *VOR Federal airway 63* is amended by adding:

Milwaukee, Wis., VOR; Eden INT, Wis.; *3,000. *2,600—MOCA.
Eden INT, Wis.; Oshkosh, Wis., VOR; *2,600. 2,200—MOCA.
Oshkosh, Wis., VOR; Stevens Point, Wis., VOR; *3,000. *2,500—MOCA.
Stevens Point, Wis., VOR; Wausau, Wis., VOR; *3,500. *2,500—MOCA.
Wausau, Wis., VOR; Rhinelander, Wis., VOR; *3,500. *3,000—MOCA.
Rhinelander, Wis., VOR; Houghton, Mich., VOR; *3,500. *3,000—MOCA.
Moline, Ill., VOR; Davenport, Iowa, VOR; 2,600.
Davenport, Iowa, VOR; Thomson INT, Ill.; *2,600. *2,200—MOCA.

Section 95.6063 *VOR Federal airway 63* is amended to delete:

Moline, Ill., VOR; Cordova, Iowa, VOR; 2,600.
Cordova, Iowa, VOR; Thomson INT, Ill.; *2,600. *2,200—MOCA.

Section 95.6070 *VOR Federal airway 70* is amended to read in part:

Picayune, Miss., VOR; Greene County, Miss., VOR; 2,000.

Section 95.6090 *VOR Federal airway 90* is amended to read in part:

Litchfield, Mich., VOR; U.S.-Canadian Border; *3,000. *2,400—MOCA.

Section 95.6094 *VOR Federal airway 94* is amended to read in part:

Lambert INT, Miss; Savage INT, Mass.; 8,000.

Section 95.6097 *VOR Federal airway 97* is amended to read in part:

La Belle, Fla., VOR; St. Petersburg, Fla., VOR; 2,000.
Murphy INT, Tenn.; Howard INT, Tenn.; 6,000.
Howard INT, Tenn.; Tallassee INT, Tenn.; 6,500.
Knoxville, Tenn., VOR Via E. alter.; Maynardville INT, Tenn. Via E. alter.; 3,800.

Section 95.6115 *VOR Federal airway 115* is amended to read in part:

Sweetwater INT, Tenn. Via W. alter.; Knoxville, Tenn., VOR Via W. alter.; 3,000.

Section 95.6123 *VOR Federal airway 123* is amended by adding:

Mitch INT, Md.; Swan Point INT, Md.; 3,000, MAA–23,000.
Swan Point INT, Md.; Int. 072 M rad Wash., D.C., VOR and 240 M rad Woodstown, VOR; 7,000.
Int. 072 M rad Wash., D.C., VOR and 240 M rad Woodstown, VOR; Woodstown, N.Y., VOR; 3,000.

Section 95.6123 *VOR Federal airway 123* is amended to delete:

Int. 231 M rad Baltimore, VOR and 271 M rad Kenton, VOR; Swan Point INT, Md.; 3,000.

Section 95.6129 *VOR Federal airway 129* is amended by adding:

Geneseo INT, Ill.; Davenport, Iowa, VOR; 2,600.
Davenport, Iowa, VOR; Charlotte INT, Iowa; *2,500. *2,000—MOCA.

Section 95.6129 *VOR Federal airway 129* is amended to delete:

Geneseo INT, Ill.; Cordova, Iowa, VOR; 2,600.
Cordova, Iowa, VOR; Charlotte INT, Iowa; *2,600. *2,000—MOCA.

Section 95.6140 *VOR Federal airway 140* is amended to read in part:

Hartville INT, Tenn.; Livingston, Tenn., VOR; 3,000.
Nashville, Tenn., VOR via N. alter.; Freedom INT, Ky. via N. alter.; 2,700.
Granville INT, Tenn. via S. alter.; Livingston, Tenn., VOR via S. alter.; 3,400.

Section 95.6159 *VOR Federal airway 159* is amended to read in part:

Harnfield INT, Ga.; *Saler INT, Ga.; 2,500. *3,000—MRA.
Saler INT, Ga.; Albany, Ga., VOR; 2,000.
Albany, Ga., VOR; *Shany INT, Ga.; 2,000. *2,500—MRA.
Shany INT, Ga.; Eufaula, Ala., VOR; 2,100.

Section 95.6185 *VOR Federal airway 185* is amended to read in part:

Marshall INT, N.C.; Snowbird, Tenn., VOR; *8,000. *7,700—MOCA.
Snowbird, Tenn., VOR; *Piedmont INT, Tenn.; 7,000. *4,000—MCA Piedmont INT, southeast-bound.
Weaverville INT, N.C. via E. alter.; *Ottway INT, Tenn. via E. alter.; 7,000. *5,500—MCA Ottway INT, southeast-bound.

Section 95.6191 *VOR Federal airway 191* is amended by adding:

Oshkosh, Wis., VOR; Church INT, Wis.; *3,000. *2,100—MOCA.

Church INT, Wis.; Rhinelander, Wis., VOR; *3,600. *3,000—MOCA.

Section 95.6191 *VOR Federal airway 191* is amended to delete:

Oshkosh, Wis., VOR; Stevens Point, Wis., VOR; *3,000. *2,500—MOCA.

Stevens Point, Wis., VOR; Wausau, Wis., VOR; *3,000. *2,500–MOCA.

Wausau, Wis., VOR; Rhinelander, Wis., VOR; *3,600. *3,000—MOCA.

Oshkosh, Wis., VOR, via E. alter.; Church INT, Wis. via E. alter.; *3,000. *2,100—MOCA.

Church INT, Wis. via E. alter.; Rhinelander, Wis., VOR via E. alter.; *3,600. *3,000—MOCA.

Section 95.6194 *VOR Federal airway 194* is amended to read in part:

Clinton INT, La.; McComb, Miss., VOR; 2,000.

McComb, Miss., VOR; Mize INT, Miss.; *3,000. *1,800—MOCA.

Mize INT, Miss.; *Paulding INT, Miss.; 3,000. *3,000—MRA. *3,000—MCA Paulding INT, southwest-bound.

Paulding INT, Miss.; Meridian, Miss., VOR; 2,000.

Section 95.6221 *VOR Federal airway 221* is amended to read in part:

Litchfield, Mich., VOR; Jackson, Mich., VOR; *3,000. *2,400–MOCA.

Section 95.6222 *VOR Federal airway 222* is amended to read in part:

McComb, Miss., VOR; Hattiesburg, Miss., VOR; 2,000.

Hattiesburg, Miss., VOR; Monroeville, Ala., VOR; 2,000.

Section 95.6259 *VOR Federal airway 259* is amended to read in part:

Maiden INT, N.C.; *Collett INT, N.C.; 5,000. *8,000—MCA Collett INT, northwest-bound. Collett INT, N.C.; *Linville INT, N.C.; 8,000.
*8,000—MCA Linville INT, southeast-bound.

Linville INT, N.C.; Holston Mountain, Tenn., VOR; 7,500.

Section 95.6267 *VOR Federal airway 267* is amended to read in part:

Fontana INT, N.C.; *Kinzel INT, Tenn.; 7,000. *6,000—MCA Kinzel INT, south-bound.

Section 95.6269 *VOR Federal airway 269* is amended by adding:

*Spruce Mountain INT, Nev.; Wells, Nev., VOR; 11,000. *13,000—MCA Spruce Mountain INT, south-bound.

Section 95.6278 *VOR Federal airway 278* is amended to read in part:

Greenwood, Miss., VOR; Columbus, Miss., VOR; 2,000.

Columbus, Miss., VOR; Millport INT, Ala.; 2,000.

Section 95.6294 *VOR Federal airway 294* is amended by adding:

Big Rock INT, Iowa; Davenport, Iowa, VOR; *2,400. *2,000—MOCA.

Section 95.6294 *VOR Federal airway 294* is amended to delete:

Big Rock INT, Iowa; Cordova, Iowa, VOR; *2,400. *2,000—MOCA.

Section 95.6310 *VOR Federal airway 310* is amended to read in part:

Rose Hill INT, Va.; Holston Mountain INT, Tenn.; 6,000.

Section 95.6433 *VOR Federal airway 433* is amended by adding:

Mitch INT, Md.; Swan Point INT, Md.; 3,000. MAA—23,000.

Section 95.6433 *VOR Federal airway 433* is amended to delete:

Int. 221 M rad Baltimore VOR and 271 M rad Kenton VOR; Swan Point INT, Md.; 3,000.

Section 95.6455 *VOR Federal airway 455* is amended to read in part:

New Orleans, La., VOR; Picayune, Miss., VOR; 2,000.

Slidell INT, La., via E. alter.; Gulfport, Miss., VOR via E. alter.; 1,800.

Gulfport, Miss., VOR via E. alter.; Mouse INT, Miss., via E. alter.; 1,800.

Picayune, Miss., VOR; Hattiesburg, Miss., VOR; 2,000.

Hattiesburg, Miss., VOR; Meridian, Miss., VOR; 2,300.

Bay Springs INT, Miss., via W. alter.; *Paulding INT, Miss., via W. alter.; 3,000. *3,000—MRA. *3,000—MCA Paulding INT, southwest-bound.

Paulding INT, Miss., via W. alter.; Meridian, Miss., VOR via W. alter.; 2,000.

Section 95.6456 *VOR Federal airway 456* is amended to read in part:

*Copper INT, Alaska; Tucks INT, Alaska; **13,000. *12,000—MCA Copper INT, northeast-bound. **12,000—MOCA.

*Tucks INT, Alaska; Kenai, Alaska, VOR; 5,000. *12,000—MCA Tucks INT, southwest-bound.

Section 95.6492 *VOR Federal airway 492* is amended to read in part:

St. Petersburg, Fla., VOR; La Belle, Fla., VOR; 2,000.

Section 95.7037 *Jet route No. 37* is amended to read in part:

From, to MEA, and MAA

Gordonsville, Va., VORTAC; Kenton, Del., VORTAC; 18,000; 45,000.

Section 95.7056 *Jet route No. 56* is amended to read in part:

Mina, Nev., VORTAC; Salt Lake City, Utah, VORTAC; #33,000;45,000. #MEA is established with a gap in navigational signal coverage.

Section 95.7080 *Jet route No. 80* is amended by adding:

Robbinsville, N.J., VORTAC; Kennedy, N.Y., VORTAC; 18,000; 45,000.

Section 95.7150 *Jet route No. 150* is amended by adding:

Robbinsville, N.J., VORTAC; Hampton, N.Y., VORTAC; 18,000; 45,000.

(Secs. 307, 1110, Federal Aviation Act of 1958 (49 U.S.C. 1348, 1510))

Issued in Washington, D.C. on December 20, 1974.

JAMES O. ROBINSON,
Acting Chief,
Aircraft Programs Division.

[FR Doc.74-30153 Filed 12-26-74;8:45 am]

[Docket No. 14229; Amdt. No. 948]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Recent Changes and Additions

This amendment to Part 97 of the Federal Aviation Regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260–3, 8260–4, or 8260–5 and made a part of the public rule making dockets of the FAA in accordance with the procedures set forth in Amendment No. 97–696 (35 FR 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Document Inspection Facility, HQ–405, 800 Independence Avenue SW., Washington, D.C. 20591 or from the applicable FAA regional office in accordance with the fee schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150.00 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30.00 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation Regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or canceling the following VOR–VOR/DME SIAPs, effective February 6, 1975:

Buffalo, Wyo.—Buffalo Municipal Arpt., VOR/DME Rwy 30, Amdt. 2.
Centerville, Tenn.—Centerville Municipal Arpt., VOR Rwy 2, Amdt. 2.
Cincinnati, Ohio—Blue Ash Arpt., VOR/DME–A, Amdt. 1, cancelled.
Cincinnati, Ohio—Blue Ash Arpt., VOR/Rwy. 6, Orig.
Cincinnati, Ohio—Blue Ash Arpt., VOR Rwy 24 Orig.

Correction

In FR Doc. 74-29113, appearing at page 43536, in the issue for Monday, December 16, 1974, in the first line of the authority citation, the portion reading "(g)(1)(A)" should read "(q)(1)(A)".

Title 20—Employees' Benefits

CHAPTER III—SOCIAL SECURITY ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

[Regulation No. 4, further amended]

PART 404—FEDERAL OLD-AGE, SURVIVORS, AND DISABILITY INSURANCE (1950-)

Change in Yearly Earnings Base for Granting of Quarters of Coverage—Reduced Quarters of Coverage Required for Fully Insured Status for Men

On September 27, 1974, there was published in the FEDERAL REGISTER (39 FR 34690) a Notice of Proposed Rule Making with proposed amendments to Subpart B of Regulations Number 4 (20 CFR Part 404), regarding implementation of section 104 of Public Law 92-603. The proposed amendments to the regulations relate to the granting of four quarters of coverage if the individual has creditable earnings of a specified amount in designated years. The amendments also reflect the reduced quarters of coverage required for men in order to acquire a fully insured status.

The pertinent amendment revising the maximum yearly earnings creditable and providing for a contribution and earnings base for the granting of four quarters of coverage for a year is section 203(a)(3)(A) and (B) of Public Law 92-336, enacted July 1, 1972. Prior to the enactment of Pub. L. 92-603 (October 1972), a larger number of quarters of coverage was required for a fully insured status for men than for women. Section 104 of Public Law 92-603 reduced the quarters of coverage required for men in three steps. Under this provision, men who attain age 62 in 1975 or later will require the same number of quarters of coverage as women.

Interested persons were given 30 days to submit written comments or suggestions thereon. The 30-day period has passed and no adverse comments have been received. Accordingly, the amendments are adopted without change as set forth below.

(Secs. 205, 213(a), 214(a), and 1102 of the Social Security Act, as amended, and sec. 104(j) of Pub. L. 92-603, 53 Stat. 1368, as amended, 64 Stat. 504, as amended, 505, as amended, 49 Stat. 647, as amended, 86 Stat. 1341; (42 U.S.C. 405, 413(a), 414(a), and 1302))

Effective date: These amendments shall be effective December 27, 1974.

(Catalog of Federal Domestic Assistance Program No. 13.803, Social Security-Retirement Insurance, Program No. 13.802, Social Security-Disability Insurance; and Program No. 13.805, Social Security-Survivors Insurance)

Dated: December 13, 1974.

J. B. CARDWELL,
Commissioner of Social Security.

Approved: December 23, 1974.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare.

[FR Doc.74-30285 Filed 12-26-74;8:45 am]

Part 404 of Title 20 of the Code of Federal Regulations is amended as follows:

1. In § 404.103, paragraph (d) is revised to read as follows:

§ 404.103 Quarters of coverage.

• • • • •

(d) *Quarters of coverage based on wages paid or self-employment income derived in a year.* An individual is credited with quarters of coverage based on the amount of wages paid or self-employment income derived or a combination of both, in a year, as follows:

(1) *Based on wages.* An individual is credited with a quarter of coverage for each quarter in a calendar year (subject to the limitations in § 404.104) if such quarter occurred in a calendar year:

(i) After 1974, and he has been paid wages equal to the amount of the contribution and benefit base in effect for that year;

(ii) For the year 1974, and he has been paid wages equal to $13,200 in that year;

(iii) For the year 1973, and he has been paid wages equal to $10,800 in that year;

(iv) For the year 1972, if he has been paid wages equal to $9,000 in that year;

(v) After 1967 and prior to 1972, and he has been paid wages equal to $7,800 in such year;

(vi) After 1965 and prior to 1968, and he has been paid wages equal to $6,600 in such year;

(vii) After 1958 and prior to 1966, and he has been paid wages equal to $4,800 in such year;

(viii) After 1954 and prior to 1959, and he has been paid wages equal to $4,200 in such year;

(ix) After 1950 and prior to 1955, and he has been paid wages equal to $3,600 in such year;

(x) Prior to 1951, and he has been paid wages equal to $3,000 in such year and the conditions described in § 404.105 are met. If the conditions of § 404.105 are not met, then only those quarters in such year which occur after a quarter of coverage established in accordance with paragraph (b)(1) of this section, and prior to the quarter in which the individual becomes entitled to a primary insurance benefit, or died, are credited as quarters of coverage.

(2) *Based on self-employment income, or combination of self-employment income and wages.* In a case in which an individual has self-employment income, or a combination of self-employment income and wages, during a taxable year, he is credited with a quarter of coverage for each calendar quarter wholly or partly in such taxable year (subject to the limitations in § 404.104) if such taxable year:

(i) Ends after 1974, and the total of his self-employment income derived and wages paid, in such year equals the amount of the contribution and benefit base in effect for such year.

(ii) Ends after 1973, and prior to 1975, and the total of his self-employment income derived and wages paid, in such year equals $13,200;

(iii) Ended after 1972, and prior to 1974, and the total of his self-employment income derived and wages paid in such year equals $10,800;

(iv) Ended after 1971 and prior to 1973, and the total of his self-employment income derived and wages paid in such year equals $9,000;

(v) Ended after 1967 and prior to 1972 and the total of his self-employment income derived and wages paid in such year equals $7,800;

(vi) Ended after 1965 and prior to 1968 and the total of his self-employment income derived and wages paid, in such year equals $6,600;

(vii) Ended after 1958 and prior to 1966 and the total of his self-employment income derived and wages paid, in such year equals $4,800;

(viii) Ended after 1954 and prior to 1959 and the total of his self-employment income derived and wages paid, in such year equals $4,200;

(ix) Began after 1950 and ended prior to 1955 and the total of his self-employment income derived and wages paid, in such year equals $3,600.

* * * * *

2. Section 404.108 is revised to read as follows:

§ 404.108 Fully insured status; general.

(a) *Factors involved.* An individual is fully insured if he is credited with a required number of quarters of coverage. The number of quarters of coverage required is determined generally by the year the individual attains a certain age (referred to hereinafter as the determining age). The determining age is age 62 ((1) for months before November 1956, the determining age for a woman was age 65; (2) for men, the determining age was (i) age 65 if attainment of age 62 was prior to 1973; (ii) age 64 if attainment of age 62 was in 1973; (iii) age 63 if attainment of age 62 was in 1974) or if death occurs before attainment of the determining age, the date of death; whether or not a period of disability has been established for the individual; and the insured status requirement in effect at the time the individual first filed application for benefits, is first eligible for benefits, or dies.

(b) *When fully insured status begins.* An individual is fully insured beginning with the first day of the calendar quarter in which he acquires the last required quarter of coverage (see §§ 404.103(f) and 404.109–404.112). Though fully insured under the statutory provisions in effect during a particular period, an individual may not be fully insured under the statutory provision in effect for a prior period, and in such case, no benefits would be payable for such prior period though benefits may be payable currently based on the later requirements. Sections 404.109–404.113 set forth the various fully insured status requirements and their period of applicability.

3. Paragraphs (a) and (f) of § 404.109 are revised to read as follows:

§ 404.109 Fully insured status—beginning August 1961.

(a) *Quarters of coverage requirement.* An individual is fully insured after July 1961, if credited with not less than:

(1) One quarter of coverage, whenever acquired, for each calendar year elapsing after 1950, or, if later, the year in which the individual attained age 21 and:

(i) In the case of a woman, before the year in which she attains age 62, or if she is deceased and death occurred prior to attainment of age 62, before the year in which she died;

(ii) In the case of a man, before the year in which he attains age 62, if such attainment is in 1975 or later; if the attainment of age 62 is in 1974, up to the year he attains age 63; if attainment of age 62 is in 1973, up to the year of attainment of age 64; if attainment of age 62 is before 1973, up to the year of attainment of age 65; or if he is deceased, before the year in which he died if death occurred prior to such attainment; or

(2) Forty quarters of coverage; or

(3) In the case of an individual who died before 1951, six quarters of coverage (see § 404.113a(c) for an exception).

* * * * *

(f) *Table for determining quarters of coverage for fully insured status.* The following tables may be used to ascertain the number of quarters of coverage required for a fully insured status for benefits for months after July 1961. Instructions for use of the table are set forth in paragraph (f) (1) and (2) of this section. The numbers of quarters of coverage which appear in columns II and III (b) may be reduced by the application of the provisions of paragraph (f)(2) of this section. (See § 404.113a for circumstances under which the minimum six quarters of coverage may be reduced.)

Column I	Column II		Column III(a)	Column III(b)	Column III(c)
Date of birth	Number of quarters of coverage required for insured status; living wage earner, or one who dies after year attains determining age. Jan. 2, 1961 to Jan. 1, 1962	35	32	1986	35	57
Jan. 2, 1962 to Jan. 1, 1963	36	33	1987	36	58
Jan. 2, 1963 to Jan. 1, 1964	37	34	1988	37	59
Jan. 2, 1964 to Jan. 1, 1965	38	35	1989	38	60
Jan. 2, 1965 to Jan. 1, 1966	39	36	1990	39	61
Jan. 2, 1966 to Jan. 1, 1967	40	37	[2] 1991	40	62
Jan. 2, 1967 to Jan. 1, 1968	40	38			
Jan. 2, 1968 to Jan. 1, 1969	40	39			
Jan. 2, 1969 or later	40	40			

[1] Or earlier.
[2] Or younger.
[3] Or later.

(1) *Required quarters of coverage.* The number of quarters of coverage required for a fully insured status appears in column II on the same line as that in column I on which appears the date of birth. If the individual dies before attaining the determining age (see § 404.109(a)), the number of quarters required appears in column III(b) opposite the year in which he died, if he was born January 1, 1939, or earlier (column III(a)), or if born January 2, 1930, or later, his age in year of death (column III(c)).

(2) *Period of disability to be excluded.* In any case in which an individual had a period of disability established which is to be excluded in determining the number of quarters of coverage required for a fully insured status (see § 404.109(c)), the number of quarters of coverage determined in accordance with paragraph (f)(1) of this section is reduced by one whenever a year or any part of a year falls within the established period of disability.

Title 23—Highways

CHAPTER I—FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

SUBCHAPTER G—ENGINEERING AND TRAFFIC OPERATIONS

PART 655—TRAFFIC CONTROL

Traffic Control Devices on Federal-Aid and Other Streets and Highways; Redesignations and Miscellaneous Amendments

In FR Doc. 74-22048, published at page 35660 in the issue dated Thursday, October 3, 1974, § 655.604 included two paragraphs designated as "(c) Highway safety funds." The first of these two paragraphs is redesignated as paragraph (b) and its heading should read: (b) *Highway planning and research funds.* The words "These funds" in the first and second lines are deleted.

In the same document, the following amendments are made since certain compliance dates are imminent and substantiating data is presently available.

Section 655.603(a)(1) is redesignated as § 655.603(a)(1)(i).

Section 655.603(a) is renumbered as § 655.603(a)(1) and the italicized word "*Compliance*" is replaced by the italicized phrase "*State and Federal-aid system routes.*"

Section 655.603(a)(2) is redesignated as § 655.603(a)(1)(ii).

Section 655.603(a)(3) is redesignated as § 655.603(a)(1)(iii).

Section 655.603(b) is redesignated as § 655.603(a)(1)(iv) with the heading "Construction and maintenance" and the words "by contract provision" deleted.

A new § 655.603(a)(2) will be added reading as follows:

(2) All other public roads:

(i) The target date for full conversion of signs to the new standards is December 31, 1976.

(ii) The pavement marking target date for compliance is December 31, 1975.

(iii) The target date for upgrading traffic signals is December 31, 1977.

(iv) Compliance target date for construction and maintenance traffic control devices as contained in Part VI of the MUTCD is December 31, 1975.

Section 655.603(c) is redesignated as § 655.603(b) and the first sentence is deleted.

Section 655.603(d) is redesignated as § 655.603(c).

Section 655.604(a) is amended by revising the heading and first sentence to read as follows:

(a) *Inventory.* Highway Safety Standard Number 13, Traffic Engineering Services, requires an inventory of all traffic control devices. This inventory provides the information necessary for programming a traffic control devices upgrading project.

Section 655.609(b)(3) is amended by deleting the words "at the same time as other improvements are made."

Issued on: December 18, 1974.

NORBERT T. TIEMANN,
Federal Highway Administrator.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-431]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the fourth column of the table is followed by a designation which indicates whether the date signifies (1) the effective date of the authorization of the sale of flood insurance in the area under the emergency or under the regular flood insurance program; (2) the effective date on which the community became ineligible for the sale of flood insurance because of its failure to submit land use and control measures as required pursuant to § 1909.24(a); or (3) the effective date of a community's formal reinstatement in the program pursuant to § 1909.24(b). The entry reads as follows:

§ 1914.4 Status of participating communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	State map repository	Local map repository
Alabama	Lowndes	Benton, town of	Dec. 11, 1974. Suspension withdrawn.			
California	Los Angeles	San Fernando, city of	Dec. 23, 1974 Emergency			
Illinois	Moultrie	Lovington, village of	do	June 7, 1974		
Iowa	Mills	Pacific Junction, town of	do	June 28, 1974		
Louisiana	Lafourche Parish	Golden Meadow, town of	Dec. 11, 1974. Suspension withdrawn.			
Minnesota	Pennington	St. Hilaire, city of	Dec. 23, 1974 Emergency	Sept. 20, 1974		
Nebraska	Hamilton	Aurora, city of	do	May 3, 1974		
Do	Saline	DeWitt, village of	do	Dec. 7, 1973		
Do	Otoe	Talmage, village of	do	Sept. 13, 1974		
New York	Tompkins	Ulysses, town of	do	June 14, 1974		
Ohio	Warren	Lebanon, city of	do	May 10, 1974		
Oregon	Lane	Creswell, city of	do	Dec. 28, 1973		
Pennsylvania	Beaver	West Mayfield, borough of	do			
South Dakota	Davison	Mitchell, city of	do	Mar. 22, 1974		
Wisconsin	Sauk	Plain, village of	do			

(National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968), effective Jan. 28, 1969 (33 FR 17804, Nov. 28, 1968), as amended (secs. 408-410, Pub. L. 91-152, Dec. 24, 1969), 42 U.S.C. 4001-4127; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, Feb. 27, 1969) as amended 39 FR 2787, Jan. 24, 1974.

Issued: December 16, 1974.

Title 25—Indians

CHAPTER I—BUREAU OF INDIAN AFFAIRS, DEPARTMENT OF THE INTERIOR

SUBCHAPTER H—ECONOMIC ENTERPRISES

PART 80—INDIAN BUSINESS DEVELOPMENT PROGRAM

Revision of Part

DECEMBER 23, 1974.

This notice is published in exercise of rulemaking authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2. The authority to issue regulations is vested in the Secretary of the Interior by 5 U.S.C. 301 and sections 463 and 465 of the Revised Statutes (25 U.S.C. 2 and 9).

Beginning on page 31984 of the September 3, 1974, FEDERAL REGISTER (39 FR 31984), there was published a notice of proposed rulemaking to revise Part 80, Subchapter H, Chapter I, of Title 25 of the Code of Federal Regulations. This revision is made pursuant to the authority contained in Section 404 of the Act of April 12, 1974 (88 Stat. 77).

The purpose of this revision of Part 80 is to prescribe the regulations and procedures under which non-reimbursable grants will be used to stimulate and increase Indian entrepreneurship and employment through acquisition, establishment and expansion of profitmaking Indian-owned economic enterprises which will contribute to the economy of Indian reservations.

Interested persons were given 30 days in which to submit written comments, suggestions, or objections regarding the proposed revision. During this period, comments and suggestions were submitted by interested persons. All comments and suggestions received were analyzed and considered in revising the proposed regulations. Several of the comments and suggestions pertained to expanding the grant program which would require legislative action to change the Indian Financing Act of 1974.

The following major revisions were made to the proposed regulations as a result of the comments received:

1. To provide space for additional sections, if subsequently needed, §§ 80.5, 80.6, 80.13, 80.14 and 80.19 have been reserved. This made it necessary to renumber the sections.

2. Several changes were made to the definitions in § 80.1. Unterminated California rancherias were added to the definition of "reservation" in paragraph (j). Agriculture was added to the definition of "economic enterprise" in paragraph (k). "Grantee" was defined in a new paragraph (p). "Cooperative association" was defined in a new paragraph (q). "Corporation" was defined in a new paragraph (r). "Partnership" was defined in a new paragraph (s).

3. *Section 80.3, Eligible applicants.* This section was expanded and refined to clarify the meaning of Indian ownership and control of an economic enterprise. Added provision to permit organization under tribal law.

4. *Section 80.7, Location of enterprise.* Added requirement that economic enterprises which are or will be operated on a reservation must comply with all requirements of applicable rules, resolutions or ordinances adopted by the governing body of the tribes, if applicable.

5. *Section 80.12, Content of application.* A new paragraph (g) was added to this section requiring the preparation of a plan of operation acceptable to the lender and the Commissioner.

6. *Section 80.17, Limits of authority.* The title of this section was changed to "Grant limitations and requirements." Paragraph (a) was changed to clarify the requirement for a grant applicant to contact lenders in the area when information in the application indicates applicant may be able to obtain a loan for the total amount of financing required, without a grant. Paragraph (f) was revised to permit use of grant funds for refinancing or debt consolidation where approval is justified and required due to the financial position of an applicant and is clearly to the advantage of an applicant. A new paragraph (h) was added, establishing the conditions under which an application for a second grant will not be approved.

7. *Section 80.18, Written notice.* This is a new section which requires written notice to grant applicant whose application is disapproved of right to appeal under 25 CFR 2.

8. *Section 80.20, Disbursement of grant funds.* A provision was added to prohibit the disbursement of grant funds to a grantee until the lender making the loan has notified the Commissioner that a loan has been approved for the applicant for the amount of loan financing needed.

9. *Section 80.21, Return of unused funds.* This section has been added to require grantees to return grant funds if the enterprise is not initiated within the time stated in the grant agreement.

10. *Section 80.22, Reports.* This section was expanded to require reports from grantees for a longer period and semi-annually for the first two years after receipt of grant.

Other minor revisions were made for the purpose of clarification and understanding.

It is necessary that this program be initiated as soon as possible in order to prevent eligible Indians and Indian organizations from losing the business opportunities for which they immediately need the grants authorized by these regulations. Therefore, good cause is found for dispensing with the 30-day deferred effective date of these regulations under the exception provided in subsection (d) (3) of 5 U.S.C. 553 (1970). Accordingly, these regulations will become effective upon date of publication in the FEDERAL REGISTER.

As revised, Part 80 of Subchapter H, Chapter I, Title 25 of the Code of Federal Regulations reads as follows:

Sec.

80.1 Definitions.
80.2 Purpose.
80.3 Eligible applicants.
80.4 Eligible economic enterprises.
80.5 [Reserved]
80.6 [Reserved]

80.20 Disbursement of grant funds.
80.21 Return of unused funds.
80.22 Reports.

AUTHORITY: Sec. 404, 88 Stat. 77.

§ 80.1 Definitions.

As used in this Part 80:

(a) "Secretary" means the Secretary of the Interior.

(b) "Commissioner" means the Commissioner of Indian Affairs or his authorized representative.

(c) "Area Director" means the Bureau official in charge of an Area Office or his authorized representative.

(d) "Superintendent" means the Bureau official in charge of a Bureau Agency office or other local office reporting to an Area Director.

(e) "Indian" means any person who is a member of any Indian tribe, band, group, pueblo or community which is recognized by the Federal Government as eligible for services from the Bureau of Indian Affairs and any Native as defined in paragraph (f) of this section.

(f) "Native" means a citizen of the United States who is a person of one-fourth degree or more Alaska Indian (including Tsimshian Indians not enrolled in the Metlakatla Indian Community), Eskimo, or Aleut blood, or combination thereof. The term includes any Native as so defined either or both of whose adoptive parents are not Natives. It also includes, in the absence of proof of a minimum blood quantum, any citizen of the United States who is regarded as an Alaska Native by the Native village or Native group of which he claims to be a member and whose father or mother is (or, if deceased, was) regarded as Native by any village or group.

(g) "Tribe" means any Indian tribe, band, group, pueblo or community and any Native village or Native group (including corporations organized by Kenai, Juneau, Sitka and Kodiak) as defined in paragraphs (h) and (i) of this section, which is recognized by the Federal Government as eligible for services from the Bureau of Indian Affairs.

(h) "Native village" means any tribe, band, clan, group, village, community, or association in Alaska listed in sections 11 and 16 of the Alaska Native Claims Settlement Act (85 Stat. 688), or which

meets the requirements of the Act, and which the Secretary determines was, on the 1970 census enumeration date (as shown by the census or other evidence satisfactory to the Secretary, who shall make findings of fact in each instance), composed of twenty-five or more Natives.

(i) "Native group" means any tribe, band, clan, village, community, or village association of Natives in Alaska composed of less than twenty-five Natives, who comprise a majority of the residents of the locality.

(j) "Reservation" means Indian reservations, unterminated California rancherias, public domain Indian allotments, former Indian reservations in Oklahoma, and land held by incorporated Native groups, regional corporations, and village corporations under the provisions of the Alaska Native Claims Settlement Act (85 Stat. 688).

(k) "Economic enterprise" means any Indian-owned, commercial, industrial, agricultural, or business activity established or organized for the purpose of profit, provided that eligible Indian ownership constitutes not less than fifty-one percent of the enterprise.

(l) "Organization" means the governing body of any Indian tribe, as defined in paragraph (g) of this section, or entity established or recognized by such governing body for the purpose of the Indian Financing Act of 1974 (88 Stat. 77).

(m) "Other organizations" means any non-Indian individual, firm, corporation, partnership, or association.

(n) "Personally operated enterprise" means a business activity personally owned and operated, and managed by an individual grantee on a full or part-time basis, with or without hired labor.

(o) "Profits" means the net income earned after deducting operating expenses from operating revenues.

(p) "Grantee(s)" means the recipient(s) of a nonreimbursable grant under this part.

(q) "Cooperative Association" means an association of individuals organized pursuant to state, federal or tribal law, for the purpose of owning and operating an economic enterprise for profit, with profits distributed or allocated to patrons who are members of the organization.

(r) "Corporation" means an entity organized pursuant to state, federal or tribal law, with or without stock, for the purpose of owning and operating an economic enterprise.

(s) "Partnership" means two or more persons engaged in the same business, sharing its profits and risks, organized pursuant to State, Federal, or Tribal law.

§ 80.2 Purpose.

The purpose of this Part 80 is to prescribe the regulations and procedures under which non-reimbursable grants may be made to eligible applicants to stimulate and increase Indian entrepreneurship and employment through establishment, acquisition or expansion of profit-making Indian-owned economic enterprises which will contribute to the economy of a reservation.

§ 80.3 Eligible applicants.

Applications for grants may be accepted only from individual Indians, Indian tribes, Indian partnerships, corporations or cooperative associations authorized to do business under State, Federal, or Tribal law. These applicants must have a form of organization acceptable to the Commissioner and unable to meet their total financing needs from their own resources and by loans from other sources such as banks, Farmers Home Administration, Small Business Administration, Production Credit Associations, and Federal Land Banks. Associations, corporations or partnerships shall be at least fifty-one percent owned by eligible Indians or an eligible Indian tribe. This Indian ownership must actively participate in the management and operation of the economic enterprise by representation on the board of directors of a corporation or cooperative association proportionate to the Indian ownership which will enable the Indian owner(s) to control management decisions. The legal organization documents will provide for the number of Indians which are to be on the board of directors, how they along with other directors will be elected or appointed and qualifications required as a condition for becoming a member of the board of directors. The legal organization documents shall provide safeguards which will prevent Indian ownership and control from decreasing below fifty-one percent. Evidence of Indian ownership in a cooperative association or corporation will be evidenced by stock ownership, if stock is or has been issued, or by other evidence satisfactory to the Commissioner. Partnerships will be evidenced by written partnership agreements which show the percentage of Indian ownership, role and authority in making management decisions in controlling the operation of the economic enterprise.

§ 80.4 Eligible economic enterprises.

An economic enterprise as defined in § 80.1(k) is eligible to receive equity capital through non-reimbursable grants if it is or will be self-sustaining and profit-oriented and will create employment for Indians. In the case of Indian-owned cooperative associations, they must distribute or allocate profits for later distribution, to members who are patrons, unless prohibited from doing so by law.

§ 80.5 [Reserved]

§ 80.6 [Reserved]

§ 80.7 Location of enterprise.

To be eligible for a grant an economic enterprise must be located on an Indian reservation or located where it makes or will make an economic contribution to a nearby reservation by providing employment to tribal members residing thereon or by expending a portion of its income for materials or services on the reservation. Economic enterprises which are or will be operated on a reservation must comply with the requirements of applicable rules, resolutions or ordinances adopted by the governing body of the tribe, if applicable.

§ 80.8 Priority criteria.

The following priority will be used in selecting economic enterprises for grant funding:

(a) *First priority.* First priority will be given to economic enterprises located on a reservation that will:

(1) Utilize Indian resources, both natural and human.

(2) Create the highest ratio of Indian jobs to the total amount of dollars to be invested, including market value of materials and equipment contributed to the project.

(3) Create the highest ratio of income to a tribe or its members in relation to the total amount of dollars to be invested, including market value of materials or equipment contributed to the project.

(4) Generate the most non-Bureau financing.

(b) *Second priority.* Second priority will be given to projects located in the immediate vicinity of a reservation that will:

(1) Utilize Indian resources, both natural and human.

(2) Create the highest ratio of Indian jobs to the total amount of dollars to be invested, including market value of materials and equipment contributed to the project.

(3) Generate the most non-Bureau financing.

§ 80.9 Environmental and flood disaster protection.

Grant funds will not be advanced until there is assurance of compliance with any applicable provisions of the Floor Disaster Protection Act of 1973 (Pub. L. 93-234), the National Environmental Policy Act (Pub. L. 91-190), 42 U.S.C. 4321 and Executive Order 11514.

§ 80.10 Preservation of historical and archeological data.

The Commissioner, before approving a grant where the grant funds and/or the loan funds will be used to finance activities involving excavations, road construction, and land development or involving the disturbance of land on known or reported historical or archeological sites, will take appropriate action to assure compliance with applicable provisions of the Act of June 27, 1960 (74 Stat. 220 (16 U.S.C. 469)), as amended by the Act of May 24, 1974 (Pub. L. 93-291, 88 Stat. 174), relating to the preservation of historical and archeological data.

§ 80.11 Management and technical assistance.

(a) Concurrent with the approval of a grant to finance an Indian economic enterprise, the Commissioner will insure that competent management and technical assistance is available to the grantee consistent with the grantee's knowledge and experience and the nature and complexity of the economic enterprise being financed. Assistance may be provided by available Bureau of

XUM
V 39 N 250 DEC 27 1974
XUM

Indian Affairs staff, other government agencies including states, tribes, or other sources which the Commissioner considers competent to provide needed assistance. It is intended that contracting for management and technical assistance be used only when adequate assistance is not available without cost. Contracts entered into in order to provide grantees with competent management and technical assistance shall be in accordance with applicable sections of the Federal Procurement Regulations and the Buy Indian Act of April 30, 1908, chapter 153 (35 Stat. 71) as amended June 25, 1910, chapter 431, section 25, (36 Stat. 861).

(b) The lender providing the loan funds under § 80.17(b) to finance an economic enterprise will include with the grantee's application the need for equity capital, the lender's evaluation of the applicant's need for management and technical assistance, specific areas of need and whether the lender will provide such assistance to the applicant.

§ 80.12 Content of application.

Applications shall be on a form prescribed by the Commissioner which shall at the minimum include:

(a) Total capital requirement, including operating capital required until such time as the cash generated from operations will be sufficient to make the enterprise self-sustaining.

(b) Amount of total financing required as well as what is obtainable from other sources, including the applicant's personal resources, and a statement of terms and conditions under which any borrowed portion is obtainable.

(c) Capital deficiency, which will be the basis for the amount of grant requested.

(d) Pro forma balance sheets and operating statements showing estimated expenses, income and net profit from operations for three years following receipt of the requested grant.

(e) Annual operating statements and balance sheets, audited if available, for the prior two years or applicable years for enterprises already in operation.

(f) Current financial statements, consisting of a balance sheet and operating statement.

(g) A plan of operation which shall be acceptable to the lender making the loan and the Commissioner.

§ 80.13 [Reserved]

§ 80.14 [Reserved]

§ 80.15 Application procedures.

Applications are to be submitted to the Superintendent having administrative jurisdiction over the reservation on which an enterprise will be or is located. If the enterprise site is near two or more reservations, application is to be made to the Superintendent having administrative jurisdiction over the reservation nearest to the location of the enterprise which the enterprise will benefit economically.

§ 80.16 Grant approval authority.

Applications for grants require approval by the Commissioner.

§ 80.17 Grant limitations and requirements.

(a) Grants will be made to assist in establishing new economic enterprises, or in purchasing or expanding established ones. However, a grant may be made only when in the opinion of the Commissioner the applicant is unable to obtain adequate financing from other sources such as banks, Farmers Home Administration, Production Credit Associations, Federal Land Banks and, is also unable to obtain a guaranteed or insured loan under Title II of the Indian Financing Act of 1974 (88 Stat. 77). Prior to making any grant, the Commissioner shall assure that, where practical, the applicant has reasonably made available for loan security and/or for input into the economic enterprise collateral or funds from his own resources. If the information in an application indicates that it may be possible for the applicant to obtain financing without a grant, the Commissioner will require the applicant to furnish letters from two customary lenders in the area, if available, who are making loans for similar purposes, showing whether or not they will make a loan to the applicant for the total financing needed without a grant.

(b) A grant may be made only to an applicant who is able to obtain at least 60 percent of the necessary financing from other sources.

(c) No grant in excess of $50,000 may be made to any applicant.

(d) Revolving loan funds as prescribed in Title I of the Indian Financing Act of 1974 and guaranteed or insured loans as prescribed in Title II of said Act may not be used as the sources of the loan portion of the total financing requirement if financing from other governmental or institutional lenders is available on reasonable terms and conditions. If a loan is not available from other sources, guaranteed or insured loans under the provisions of Title II of said Act may then be considered. If a guaranteed or insured loan is not available loans under the provisions of Title I of said Act may then be considered. Applicants for a loan from either source must meet the eligibility requirements for such loans.

(e) A grant will not be approved unless there is assurance the applicant can and will be provided with needed competent technical and management assistance commensurate with the nature of the enterprise to be funded and the knowledge and management skills of the applicant.

(f) Grant funds may not be used for refinancing or debt consolidation unless approval is justified and required due to the applicant's financial position and is clearly to the advantage of the grant applicant

(g) Ordinarily, no more than one grant will be made for a project. Nevertheless, in certain circumstances a second grant may be made to the same applicant for a new project or expansion of the original project. An addition grant will not be approved for an economic enterprise previously funded under the provisions of Title IV of the Indian Financing Act of 1974 except for expanding a successful enterprise, provided the total of grants made shall not exceed $50,000. Information to be submitted with the application will include at a minimum the following:

(1) Use made of the prior grant. Where practical, evidence of such use shall be furnished.

(2) Evidence of competent management.

(3) Maintenance of adequate accounting records.

(4) That the operation is profitable as evidenced by operating statements and balance sheets prepared from the accounting records.

(5) That expansion will increase the net profit and/or increase Indian employment.

(h) An application for a second grant will not be approved if the applicant: (1) has not complied with the reporting requirements in connection with the first grant, or (2) has not followed the plan of operation, if any, developed for the management and operation of the economic enterprise, or (3) did not follow and use the management and technical assistance furnished, or (4) is in violation of one or more provisions of the loan agreement entered into between the applicant and the lender who furnished the loan portion of the financing in connection with the first grant.

(i) An applicant for an expansion grant must meet the same eligibility requirements as an original applicant.

§ 80.18 Written notice.

The applicant for a grant which is disapproved will be notified by letter, stating the reasons for disapproval and the right of appeal pursuant to 25 CFR § 2.21, et seq. A copy of the letter will be sent to the prospective lender.

§ 80.19 [Reserved]

§ 80.20 Disbursement of grant funds.

Unless otherwise provided by an agreement between a lender and the grantee, the Commissioner may in his discretion advance grant funds directly to a grantee. He may require the funds to be deposited in a special account at the appropriate Agency headquarters office or deposited in a joint account in a bank and disbursed as needed by the grantee. The terms of a lender's loan agreement may require the lender's approval before disbursement of the funds. Grant funds will not be disbursed to a grantee until the Commissioner has been informed by the lender that a loan has been approved for the grantee in the amount of the loan financing needed.

§ 80.21 Return of unused funds.

Grantees will be required to return unused grant funds to the Commissioner if the economic enterprise for which the grant was approved is not initiated, i.e., lease obtained, if needed, construction started, equipment purchased or other, within the time stated in the grant agreement. The Commissioner may, if warranted by circumstances beyond the control of the grantee, extend the time to

allow for initiation of the enterprise, provided there is assurance the enterprise will be initiated forthwith within the extended time period. The Commissioner will notify the lender in writing of a proposed action to require the return of grant funds or of a proposal to extend the time.

§ 80.22 Reports.

(a) Grantees are required to furnish the Commissioner comparative balance sheets and profit and loss statements semi-annually for the first two years of operation following receipt of the grant, and annually thereafter for the succeeding three years. These may be copies of financial statements required by and furnished to the lender which provided the loan portion of the total financing required. If the lender does not require financial statements, the grantee must prepare and furnish copies of comparative balance sheets and profit and loss statements to the Commissioner.

(b) The Commissioner will establish accounting and reporting systems which will appropriately show the status of the Indian Business Development Program at all times.

RAYMOND V. BUTLER,
Acting Deputy Commissioner of Indian Affairs.

[FR Doc.74-30264 Filed 12-26-74;8:45 am]

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER A—INCOME TAX

[T. D. 7388]

PART 11—TEMPORARY INCOME TAX REGULATIONS UNDER THE EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974

Temporary Regulations Relating to Elections With Respect to Retroactive Amendments

This document contains temporary income tax regulations (26 CFR Part 11) under section 412(c)(8) of the Internal Revenue Code, as added by section 1013 of the Employee Retirement Income Security Act of 1974, in order to provide rules for elections with respect to retroactive plan amendments pursuant to both section 412(c)(8) of the Code and section 302(c)(8) of such Act.

Section 412 of the Internal Revenue Code of 1954 provides minimum funding standards for certain pension plans. Subsection (c)(8) of section 412 provides that certain plan amendments adopted after the close of the plan year may be given retroactive effect.

Under section 412(c)(8), a plan amendment adopted after the close of a plan year will be deemed to have been made on the first day of the plan year at the election of the plan administrator as long as the amendment does not reduce the accrued benefit of any participant determined as of the beginning of such plan year.

For multiemployer plans, an amendment must be adopted no later than two years after the close of the plan year. In the case of all other plans, the amendment must be adopted no later than two and one-half months after the close of the plan year.

If an amendment reduces the accrued benefit of any participant determined as of the date of adoption of the amendment, approval of the Secretary of Labor must be requested before an election as to retroactive application can take effect. Approved by the Secretary of Labor is based on a finding of substantial business hardship in accordance with the factors outlined in section 412(d)(2) of the Code, and a determination that a waiver by the Secretary of the Treasury for substantial business hardship under section 412(d)(1) of the Code is unavailable or inadequate.

The temporary regulations provide, in general, that the election under section 412(c)(8) of the Code is to be made by attaching a statement of election to the annual information return required to be filed by the employer or plan administrator under section 6058 of the Code. The statement of election must state the date the plan year ended and the date the amendment was adopted. It must also contain a statement that the amendment does not reduce the accrued benefit of any employee as of the beginning of the plan year in question. In addition, it must contain either (1) a statement that the amendment does not reduce any accrued benefits as of the date of adoption, or (2) a copy of the notice filed with the Secretary of Labor and a statement as to whether approval has been granted, or the Secretary has failed to act within 90 days.

The report of the Conference Committee on the Employee Retirement Income Security Act of 1974 states that section 412(c)(8) was intended to allow amendments that retroactively reduce accrued benefits only in a situation where (1) there would otherwise be an accumulated funding deficiency for all or part of the plan year, (2) the funding deficiency could not be avoided through the implementation of any other reasonably available alternative (such as a waiver of the minimum funding requirements under section 412(d) or an extension of the amortization period under section 412(e)), and (3) the funding deficiency was not primarily attributable to the failure by employers to discharge contractual obligations to make contributions under the plan.

Special rules provide for the making of elections after the annual information return has been filed. The temporary regulations apply for purposes of section 412(c)(8) of the Code and section 302(c)(8) of the Employee Retirement Income Security Act of 1974 (88 Stat. 872).

Amendments to the regulations. In order to prescribe temporary regulations relating to elections with respect to retroactive plan amendments pursuant to section 412(c)(8) of the Internal Revenue Code of 1954, as added by section 1013 of the Employee Retirement Income Security Act of 1974 (P.L. 93-406, 88 Stat. 917) and section 302(c)(8) of such Act (88 Stat. 872), the following temporary regulations are hereby adopted:

§ 11.412(c)-7 Election to treat certain retroactive plan amendments as made on the first day of the plan year.

(a) *General rule.* Under section 412(c)(8), a plan administrator may elect to have any amendment which is adopted after the close of the plan year to which it applies deemed to have been made on the first day of such plan year if the amendment—

(1) Is adopted no later than 2 and one-half months after the close of such plan year (or, in the case of a multiemployer plan, no later than 2 years after the close of such plan year),

(2) Does not reduce the accrued benefit of any participant determined as of the beginning of such plan year, and

(3) Does not reduce the accrued benefit of any participant determined as of the time of adoption of the amendment, or, if it does so reduce such accrued benefit, it is shown that the plan administrator filed a notice with the Secretary of Labor notifying him of the amendment, and—

(i) The Secretary of Labor approved the amendment, or

(ii) The Secretary of Labor failed to disapprove the amendment within 90 days after the date on which the notice was filed.

(b) *Time and manner of making election.* (1) The election under section 412(c)(8) shall be made by the plan administrator by a statement of election described in subparagraph (3) of this paragraph, attached to the annual return relating to minimum funding standards required to be filed under section 6058 with respect to the plan year to which the election relates.

(2) In the event that an amendment to which paragraph (a) of this section applies is adopted after the filing of the annual return required under section 6058, the plan administrator may make the election under section 412(c)(8) by attaching a statement of election, described in paragraph (b)(3) of this section, to a copy of such annual return, and filing such copy no later than the time allowed for the filing of such returns under section 6058. (In the case of multiemployer plans, such copy may be filed within a 24 month period beginning with the date prescribed for the filing of such returns.)

(3) The statement of election filed by or on behalf of the plan administrator shall—

(i) State the date of the close of the first plan year to which the amendment applies and the date on which the amendment was adopted;

(ii) Contain a statement that the amendment does not reduce the accrued benefit of any participant determined as of the beginning of the plan year preceding the plan year in which the amendment is adopted; and

(iii) Contain either—

(A) A statement that the amendment does not reduce the accrued benefit of any participant determined as of the time of adoption of such amendment, or

(B) A copy of the notice filed with the Secretary of Labor under section 412(c)(8) and a statement that either the Secretary of Labor has approved the amendment or he has failed to act within 90 days after notification of the amendment.

Because of the need for immediate guidance with respect to the provisions contained in this Treasury decision, it is found impracticable to issue it with notice and public procedure thereon under subsection (b) of section 553 of title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

(Sec. 7805 Internal Revenue Code of 1954 (68A Stat. 917 (26 U.S.C. 7805))

Approved: December 20, 1974.

[SEAL] DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

FREDERICK W. HICKMAN,
Assistant Secretary of the Treasury.

Title 29—Labor

CHAPTER XVII—OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION

PART 1952—APPROVED STATE PLANS FOR ENFORCEMENT OF STATE STANDARDS

Hawaii Plan; Approval of Occupational Health Plan

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations provides procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter referred to as the Act) for review of changes and progress in the development and implementation of State plans which have been approved in accordance with section 18(c) of the Act and Part 1902 of this chapter. On January 4, 1974, a notice was published in the FEDERAL REGISTER (39 FR 1010) of the approval of the Hawaii plan and of the adoption of Subpart Y of Part 1952 containing the decision of approval. On April 16, 1974, the State of Hawaii submitted a supplement to the plan involving developmental changes (see Subpart B of 29 CFR Part 1953). On October 21, 1974, a notice was published in the FEDERAL REGISTER (39 FR 37440) concerning the submission of this supplement to the Assistant Secretary of Labor for Occupational Safety and Health and the fact that the question of its approval was before him.

The supplement contained the occupational health plan for Hawaii. The plan provides that responsibility for the Hawaii occupational health program will be lodged in the Branch of Occupational Health of the Department of Labor and Industrial Relations, Division of Occupational Safety and Health. The Branch is to be fully staffed with a complement of ten persons within the three year developmental period. The supplement also provides for the participation of State laboratory services in the proficiency testing program operated by the National Institute for Occupational Safety and Health and also includes the Hawaii Occupational Health Laboratory Standard Procedures Manual. Joint funding of the occupational health program by the State and Federal governments under section 23(g) of the Act (29 U.S.C. 672(g)) is provided.

In addition, the developmental schedule for the implementation of the Hawaii occupational health program has been revised by the supplement. Full implementation of the occupational health program is now scheduled for January 1975, rather than December 1974.

Interested persons were afforded at least 30 days from the publication of the proposed supplement in the FEDERAL REGISTER to submit written comments or request an informal hearing concerning the supplements.

2. *Issues.* No comments or requests for a hearing were received during the period provided for public comments. However, in the course of the review of the supplement by the Assistant Secretary, the adequacy of the Hawaii procedures for the safeguarding of samples submitted for analysis was questioned, particularly in regard to their acceptance as evidence in any legal proceedings which might arise. By letter dated November 19, 1974, the State has provided assurances that a supplement will be added to its Occupational Health Laboratory Standard Procedures Manual which would provide adequate safeguards for samples submitted for analysis.

3. *Decision.* After consideration of the Hawaii plan supplement and the assurances of November 19, 1974, incorporated in it, it is hereby approved under Subpart B of 29 CFR Part 1953. The decision incorporates the requirements of the Act and implementing regulations applicable to State plans generally.

In accordance with this decision, Subpart Y of 29 CFR Part 1952 is amended as set forth below, effective December 20, 1974.

1. Section 1952.133 is corrected to be numbered § 1952.313; paragraphs 1 through 5 of renumbered § 1952.313 are redesignated as paragraphs (a) through (e) respectively, and redesignated paragraph (d) is amended to read as follows:

§ 1952.313 Developmental schedule.

* * * * *

(d) Complete implementation of occupational health program in January 1975.

* * * * *

2. Section 1952.314 of Subpart Y (appearing at 39 FR 44203; Dec. 23, 1974) is amended by inserting "(a)" before the first paragraph and by adding a new paragraph, (b), to read as follows:

§ 1952.314 Completed developmental steps.

* * * * *

(b) In accordance with § 1952.313(d), as amended, the Hawaii Occupational Health Plan was submitted to the Assistant Secretary on April 16, 1974, and approved on December 20, 1974, incorporating assurances from the State, by letter dated November 19, 1974.

(Secs. 8(g)(2), 18, Pub. L. 84 Stat. 1600, 1608 (29 U.S.C. 667(g)(2), 667))

Signed at Washington, D.C. this 20th day of December 1974.

JOHN STENDER,
Assistant Secretary of Labor.

[FR Doc.74-30237 Filed 12-26-74;8:45 am]

Title 33—Navigation and Navigable Waters

CHAPTER II—CORPS OF ENGINEERS, DEPARTMENT OF THE ARMY

PART 204—DANGER ZONE REGULATIONS

Gulf of Mexico, Florida and Strait of Juan De Fuca, Washington

1. a. On September 13, 1974, the Department of the Army, acting through the Chief of Engineers, published in the FEDERAL REGISTER (39 FR 33003) proposed regulations to amend the present regulations in 33 CFR 204.120 which governs the use of navigation of danger zones in the Gulf of Mexico, southeast of St. Andrew Bay, east entrance, Florida.

b. The public comment period for this regulation expired on October 15, 1974. No comments were received.

c. The Department of the Army, acting through the Corps of Engineers is publishing herewith the final regulations as set forth below.

2. a. On October 9, 1974, the Department of the Army, acting through the Chief of Engineers, published in the FEDERAL REGISTER (39 FR 36347 and 36348) regulations to govern the use and navigation of a restricted area in the Strait of Juan de Fuca in the vicinity of Smith Island, Washington.

b. The comment period for this regulation expired on November 8, 1974. No comments were received.

c. The Department of the Army, acting through the Corps of Engineers is publishing herewith the final regulations as set forth below.

By authority of the Secretary of the Army.

FRED R. ZIMMERMAN,
Chief,
Plans Office, TAGO.

Accordingly, §§ 204.120(a)(1) and 204.220 are revised to read as follows:

§ 204.120 Gulf of Mexico, southeast of St. Andrew Bay East Entrance, Small Arms Firing Range, Tyndall Air Force Base, Fla.

(a) *The Danger Zones*—(1) *Area No. 1.* The waters of the Gulf of Mexico, southeast of St. Andrew Bay East Entrance within a rectangular area beginning at a point on shore at latitude 30°04'32", longitude 85°37'07"; thence to latitude 30°03'09", longitude 85°38'42"; thence to latitude 30°02'14", longitude 85°37'15"; thence to a point on shore at latitude 30°04'13", longitude

85°36'47"; thence along the shoreline to the point of beginning.

• • • • •

(Regs. December 9, 1974, 1522-01 (Gulf of Mexico, Fla.)—DAEN-CWO-M) (Sec. 7, 40 Stat. 266, Chap. XIX, 40 Stat. 892; (33 U.S.C. 1, 3))

§ 204.220 Strait of Juan de Fuca, Washington; air-to-surface weapon range, restricted area.

(a) *The restricted area.* A circular area immediately west of Smith Island with a radius of 1.25 nautical miles having its center at latitude 49°19'11" North and longitude 122°54'12" West. In the center of the area will be located a lighted and radar reflective buoy to serve as a navigational aid to mariners. The area will be used for air-to-surface target practice using non-explosive training devices.

(b) *The regulations.* (1) No vessel or other watercraft shall enter or remain within the designated restricted area between 0700 and 2400 hours daily, local time except as authorized by the enforcing agency and as follows: The area will be open to commercial gill net fishing during scheduled fishing periods from 15 June through 15 October annually. The October 15 closure date will be extended by the enforcing agency if determined as advantageous to the commercial gill net fishing by the Washington State Department of Fisheries.

(2) Prior to each target practice operation the restricted area will be patrolled by naval aircraft. Those vessels found within the restricted area will be overflown by the aircraft at an altitude of not less than 300' in the direction in which the unauthorized vessel is to proceed to clear the area.

(c) The regulations in this section shall be enforced by the Commandant, Thirteenth Naval District, Seattle, Washington, and such agencies as he may designate.

(Regs. December 9, 1974, 1522-01 (Strait of Juan de Fuca, Washington)—DAEN-CWO-M) (Sec. 7, 40 Stat. 266, Chap. XIX, 40 Stat. 892; (33 U.S.C. 1, 3))

[FR Doc.74-30195 Filed 12-26-74;8:45 am]

Title 41—Public Contracts and Property Management

CHAPTER 101—FEDERAL PROPERTY MANAGEMENT REGULATIONS

SUBCHAPTER H—UTILIZATION AND DISPOSAL

[FPMR Amdt. E-87]

MANAGEMENT OF GOVERNMENT-OWNED PERSONAL PROPERTY

Changes in Titles, Addresses, and Administrative Procedures

This regulation provides editorial and procedural changes to update existing regulations.

PART 101-42—PROPERTY REHABILITATION SERVICES AND FACILITIES

Subpart 101-42.1—Sources of Property Rehabilitation Services

1. Section 101-42.101 is amended as follows:

§ 101-42.101 General.

• • • • •

(a) The GSA Supply Catalog is published by the Federal Supply Service, GSA, to indicate sources of supply and service provided by GSA for the use of Federal agencies, including property rehabilitation type service contracts. The GSA Supply Catalog is issued in accordance with Subpart 101-30.6.

(b) GSA regional Federal Supply Service offices periodically issue bulletins to heads of Federal agencies to provide information concerning GSA service support for the maintenance, repair, rehabilitation, and reclamation of Government-owned personal property.

(c) A GSA regional Federal Supply Service office will, upon receipt of a written request from a Federal agency serviced by that office, develop sources of services, evaluate contractor capabilities, and conduct surveys or studies to justify establishing term contracts for services not available at the time the needs arise.

2. Section 101-42.102-1(b) is revised to read as follows:

§ 101-42.102-1 Primary source provisions.

• • • • •

(b) When an agency determines that services available from an existing term contract price schedule will not fill its required needs, a request to waive the requirement shall be submitted to the GSA regional Federal Supply Service office administering the contract. These requests shall specify the quantities involved, describe the difference between the services required and those listed in the price schedule, and give the reasons why the services will not meet the requirements. Waivers are not required in the case of public exigencies.

3. Section 101-42.102-3 is revised to read as follows:

§ 101-42.102-3 Contract administration.

GSA regional Federal Supply Service offices administer service contracts for and on behalf of the contracting office with respect to: (a) expediting orders; (b) evaluating the acceptability of contract workmanship; (c) ensuring contractor compliance with technical requirements of the contract; and (d) assisting in the resolution of issues that may arise between ordering agencies and contractors concerning performance of contract provisions.

Subpart 101-42.2—Property Rehabilitation Services Performed by Federal Facilities

Section 101-42.203(b) is revised to read as follows:

§ 101-42.203 Notifications.

• • • • •

(b) Before establishing or substantially expanding facilities for repair, maintenance, rehabilitation, or reclamation of personal property, agencies shall furnish specific details of the proposal to the General Services Administration (FW), Washington, D.C. 20406. The details should include type of facility, personnel complement, capability, and geographical area to be served so that the proposal may be evaluated against existing contracts and facilities. Information regarding Department of Defense facilities will pertain only to reconditioning or depot maintenance facilities.

PART 101-43—UTILIZATION OF PERSONAL PROPERTY

Subpart 101-43.3—Utilization of Excess

1. Section 101-43.303-1(b) is revised to read as follows:

§ 101-43.303-1 Acquisition of mercury.

• • • • •

(b) Mercury, minimum 99.9 percent pure (not triple distilled), is available for transfer from GSA stocks at fair market value. Requests for mercury by an agency for its use or for use by its cost-reimbursement type contractors shall be made to the Project Manager, Minerals and Ores, General Services Administration (AP), Washington, D.C. 20405. The Project Manager will furnish the current fair market value to the requesting agency which then will submit a request for transfer to the Project Manager for the quantity required. The unit of issue is a 76-pound flask.

• • • • •

2. Section 101-43.309 is revised to read as follows:

§ 101-43.309 Controlled substances.

Holding agencies shall arrange for transfers in accordance with § 101-43.315-5. In effecting the utilization of excess controlled substances, the holding agencies shall transfer excess controlled substances only to those Federal agencies which certify that they are registered with the Drug Enforcement Administration (DEA) (formerly the Bureau of Narcotics and Dangerous Drugs (BNDD)), Department of Justice, and are authorized to procure the particular controlled substances being transferred. The certification shall include the registration number of the BND Form 223, Certificate of Registration, issued by DEA.

3. Section 101-43.311-2 is revised to read as follows:

§ 101-43.311-2 Forms and distribution of reports.

Reports of excess property shall be made on Standard Form 120, Report of Excess Personal Property, and Standard Form 120A, Continuation Sheet (Report of Excess Personal Property), illustrated in §§ 101-43.4902 and 101-43.4902-2, in accordance with the instructions in § 101-43.4902-1, or, when acceptable to GSA, by data processing output. The Standard Form 120 and 120A shall be submitted in an original and three copies. Reporting by data processing output shall be submitted in the number of copies agreed upon by GSA. Reports shall be submitted to the

GSA regional office for the region in which the property is located (see § 101–43.4903), except that reports of fixed wing and rotary wing aircraft shall be submitted to the General Services Administration (FW), Washington, DC 20406, and excess Standard forms with samples of such forms shall be submitted to the General Services Administration (3F), Washington, DC 20407, for potential redistribution under the Standard forms program. The reporting of excess ADPE shall be submitted as set forth in Subpart 101–32.47, Since Standard Form 120, Report of Excess Personal Property, is an operating supply document and submitted by agencies as excess property is generated, it is excluded from the interagency reporting requirement as set forth in Subpart 101–11.11 of this chapter.

4. Section 101–43.313–3 is revised to read as follows:

§ 101–43.313–3 Intangible property.

Excess intangible property shall be reported to the General Services Administration (F), Washington, DC 20406, and shall not be transferred or disposed of without prior approval of GSA except that bonds, notes, or other securities authorized to be disposed of by the Secretary of the Treasury under section 5 of the Act of April 3, 1945 (31 U.S.C. 741a), shall not be reported to GSA.

5. Section 101–43.315–2(d) is revised to read as follows:

§ 101–43.315–2 Information of availability.

* * * * *

(d) Submission of current and future requirements for excess personal property to the appropriate GSA regional office using revised GSA Form 1539, January 1974, Request for Excess Personal Property. Section 101–43.4904 illustrates GSA Form 1539, and § 101–43.4904–1 furnishes instructions for its acquisition and use. Property utilization specialists in GSA regional offices continually review completed forms in an effort to match agency needs with property becoming available for transfer. In addition, a mechanized method of cross matching agency requirements against reported excess property is used, keyed to the 13-digit national stock number (NSN), furnished by reporting agencies on Standard Form 120, Report of Excess Personal Property, and by requesting agencies on GSA Form 1539. A bank of requirements is maintained, recorded by agency, and identified by the applicable national item identification number (NIIN), (the last nine digits of the NSN). As excess property is reported, availability is matched against requirements on a direct NIIN to NIIN basis. It is important that wherever possible the NSN be shown for each item requested. GSA will assist agencies in obtaining NSN's so that the requirements may be incorporated into the mechanized matching system. If substitute items are acceptable, these should be furnished at the same time and identified by the NSN. Agencies having electrical accounting machine punchcard capability may elect to use this method of submitting requirements; in these instances, instructions for submission of requirements may be obtained from the Federal Supply Service, Personal Property Division, at each GSA regional office. Agencies may also submit a list of property requirements which will be incorporated into the mechanized requirements bank and retained for approximately 180 days. Reported excesses during this time, if matched with recorded requirements, will be offered for immediate transfer. Normally, items for which needs are registered will not be offered in GSA Excess Property Catalogs and GSA Excess Property Bulletins; thus, it is advantageous for agencies to update their list of items at the end of each 180-day period to derive maximum benefits from the excess property program and preclude removal of the items from the requirements bank.

6. Section 101–43.315–4(c) is revised to read as follows:

§ 101–43.315–4 Transfer for redistribution.

* * * * *

(c) Items which are identical to or can be substituted for items listed in the GSA Supply Catalog shall be furnished to agencies through the GSA stock program at prices to be determined by GSA.

* * * * *

7. Section 101–43.316–1(a)(1) is revised to read as follows:

§ 101–43.316–1 Utilization.

(a) * * *

(1) Typewriting machines; office furniture, machines, equipment, and supplies; motor vehicles and automotive equipment; printing and binding equipment; construction equipment (except hand tools); and all items in the GSA Supply Catalog.

* * * * *

Subpart 101–43.4—Utilization of Abandoned and Forfeited Personal Property

Section 101–43.402–5(d)(1) is revised to read as follows:

§ 101–43.402–5 Property required to be reported.

* * * * *

(d) * * *

(1) Controlled substances (as defined in § 101–43.104–4), regardless of quantity, condition, or acquisition cost, shall be reported to the Drug Enforcement Administration, Department of Justice, Washington, D.C. 20537.

* * * * *

Subpart 101–43.5—Utilization of Foreign Excess Personal Property

1. Section 101–43.504(c) is revised to read as follows:

§ 101–43.504 Screening and selection.

* * * * *

(c) Care will be exercised by the GSA onsite representatives in the selection of property to ensure that it is economical to return the property to the United States for Federal use. Full consideration will be given by GSA onsite representatives to transportation and accessorial costs in determining whether property will be returned. Each GSA onsite representative is furnished a consolidated want list of personal property items identified by Federal Supply Classification (FSC). This want list is developed from needs registered by Federal agencies with GSA regional offices. The want list shall be used by the GSA onsite representatives as a specific guide in selecting personal property for return to the United States. Available items which are not on the want list will not be selected by GSA onsite representatives for return to the United States without prior coordination with the overseas property officer, General Services Administration (FW), Washington, DC 20406.

* * * * *

2. Section 101–43.505(a) is revised to read as follows:

§ 101–43.505 Assistance to ordering agencies.

(a) To assist Federal agencies in the selection and transfer of foreign excess personal property returned from overseas, an experienced utilization officer of the Federal Supply Service (FSS) in each GSA regional office has been designated as the Regional Overseas Property Officer (ROPO) to serve as the contact point with Federal agencies in his regional area. The regional utilization officer receives information on the property needs of Federal agencies and transmits it to the GSA onsite representatives through the appropriate operations control officer. He also disseminates information on property available to Federal agencies. The GSA FSS Central Office staff serves as the contact point for the utilization screening of available foreign excess personal property returned to the United States with the headquarters offices of Federal agencies.

* * * * *

Subpart 101–43.49—Illustrations

1. Section 101–43.4901(b)(2) is revised to read as follows:

§ 101–43.4901 Excess personal property reporting requirements.

* * * * *

(b) * * *

(2) Items in classes 1510 and 1520 held by the Department of Defense or other agencies shall be reported to the General Services Administration (FWU), Washington, DC 20406, rather than to a GSA regional office.

* * * * *

§ 101–43.4902–1 [Amended]

2. Section 101–43.4902–1(f), item 18(b), is revised to change the term[1] Federal stock numbers to national stock numbers.

3. Section 101–43.4903 is revised to read as follows:

[1] Form and instructions filed as part of the original documents.

§ 101–43.4903 Regional offices addresses and assigned areas.

Region	Office address	Regional areas
1	General Services Administration, John W. McCormack Post Office and Courthouse, Boston, Mass. 02109.	Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont.
2	General Services Administration, 26 Federal Plaza, New York, N.Y. 10007.	New Jersey, New York, Commonwealth of Puerto Rico, Virgin Islands.
3	General Services Administration, Region 3, Washington, D.C. 20407.	Delaware, District of Columbia, Maryland, Pennsylvania, Virginia, West Virginia.
4	General Services Administration, 1776 Peachtree Street NW., Atlanta, Ga. 30309.	Alabama, Florida, Georgia, Kentucky, Mississippi, North Carolina, South Carolina, Tennessee.
5	General Services Administration, 230 South Dearborn St., Chicago, Ill. 60604.	Illinois, Indiana, Michigan, Minnesota, Ohio, Wisconsin.
6	General Services Administration, 1500 East Bannister Rd., Kansas City, Mo. 64131.	Iowa, Kansas, Missouri, Nebraska.
7	General Services Administration, 819 Taylor St., Fort Worth, Tex. 76102.	Arkansas, Louisiana, New Mexico, Oklahoma, Texas.
8	General Services Administration, Building 41, Denver Federal Center, Denver, Colo. 80225.	Colorado, Montana, North Dakota, South Dakota, Utah, Wyoming.
9	General Services Administration, 525 Market St., San Francisco, Calif. 94105.	Arizona, California, Hawaii, Nevada, Pacific Ocean areas.
10	General Services Administration, GSA Center, Auburn, Wash. 98002.	Alaska, Idaho, Oregon, Washington.

§§ 101–43.4904 and 101–43.4904–1 [Amended]

4. Section 101–43.4904 is amended to illustrate the revised GSA Form 1539, January 1974, Request for Excess Personal property.[1]

5. Section 101–43.4904–1 is revised to illustrate current instructions[1] for preparing GSA Form 1539.

PART 101–44—DONATION OF PERSONAL PROPERTY

Subpart 101–44.3—Donation for Educational, Public Health, and Civil Defense, Including Research or Public Airport Purposes

1. Section 101–44.302(c) is revised to read as follows:

§ 101–44.302 Agency responsibility.

* * * * *

(c) *Federal Aviation Administration.*

(1) The Administrator of the Federal Aviation Administration (FAA) determines whether surplus property is essential, suitable, or desirable to fulfill the immediate or foreseeable future requirements for the development, improvement, operation, or maintenance of a public airport.

(2) The Administrator of FAA is responsible for determining and enforcing compliance with the terms and conditions under which surplus property is transferred. FAA is also authorized to remove or permit the removal of certain restrictions against the use of such property which prevent or hamper the accomplishment of the purpose contemplated by the transfer.

2. Section 101–44.313 is amended as follows:

§ 101–44.313 Agency compliance.

(a) *General.* The Department of Defense (DOD), the Department of Health, Education, and Welfare (HEW), and FAA are responsible for developing and maintaining an effective system for the prevention or detection of situations involving the nonuse, improper use, or the unauthorized disposal of surplus property donated for educational public health, civil defense, or public airport purposes. This responsibility will include surveillance for any abuses of donated property; corrective action where such cases are discovered; and the furnishing of compliance reports, as may be required, to GSA.

(b) *Instructions.* DOD, HEW, and FAA will provide GSA with copies of internal instructions which outline the scope of their respective surveillance programs, the policies and methods for the enforcement of their compliance responsibilities, and the correction of abuses in the use or disposal of donated property. Copies of instructions to eligible donees concerning the proper use of donated property will also be furnished, and any changes made to these internal or external issuances and explanations thereof, will also be provided to GSA.

(c) *Reports.*

(1) For GSA to accumulate information as a basis for the exercise of its discretionary authority to approve the donation of surplus property, DOD, HEW, and FAA will make such reports on compliance actions as may be required by the Administrator of General Services.

* * * * *

3. Section 101–44.318 is revised to read as follows:

§ 101–44.318 Donation to public airports.

(a) *Requirements.* The Administrator of FAA or his duly authorized representative shall determine requirements for donable personal property of any State, political subdivision, municipality, or tax-supported institution for public airport use.

(b) *Eligibility.* The Administrator of FAA or his duly authorized representative shall prescribe the eligibility requirements for public airport applicants, and shall make determinations of eligibility.

(c) *Screening.* The Administrator of FAA, his duly authorized representatives, and duly accredited representatives of public airports shall be permitted to screen, at appropriate times, holding agencies' donable property, both reportable and nonreportable, and lists and records thereof when available.

(d) *Determination.* An applicant for surplus property, to be used for public airport purposes, shall make application to GSA using Standard Form 123, Application for Donation of Surplus Personal Property, in accordance with § 101–44.306, for donation approval of surplus property determined by the Administrator of FAA or his duly authorized representative to be essential, suitable, or desirable for the development, improvement, operation, or maintenance of a public airport, or reasonably necessary to fulfill the immediate and foreseeable future requirements of the grantees for the development, improvement, operation, or maintenance of a public airport. Applications shall be prepared in accordance with § 101–44.307 and shall not require shipment of unreasonably small quantities.

(e) *Approval.* Subject to prior approval of GSA, surplus personal property determined essential, suitable, or desirable for public airport use by the Administrator of FAA or his duly authorized representative may be transferred direct to the specific public airport applicant.

Subpart 101–44.6—Donation of Abandoned and Forfeited Personal Property

Sections 101–44.601–2, 101–44.601–3, and 101–44.601–5 are revised to read as follows:

§ 101–44.601–2 Establishment of eligibility.

Eleemosynary institutions desiring to obtain available distilled spirits, wine, and malt beverages shall submit GSA Form 18, Application of Eleemosynary Institution (see § 101–44.4904), to the General Services Administration (2FW), Washington, DC 20407.

§ 101–44.601–3 Requests by institutions.

Eligible institutions desiring to obtain available distilled spirits, wine, and malt beverages shall show on the GSA Form 18, Application of Eleemosynary Institution, the kind and quantity desired. The Federal Supply Service, GSA Region 3, will advise the eligible institution when such alcoholic beverages become available, request confirmation that the institution's requirement is current, and advise the institution that shipment will be initiated upon such confirmation.

§ 101–44.601–5 Donation of lots not required to be reported.

Forfeited distilled spirits, wine, and malt beverages not required to be reported under § 101–43.402–5 may be donated to eleemosynary institutions known to be eligible therefor if the beverages are determined by the seizing agency to be suitable for human consumption. The holding agency shall promptly report such donations by letter to the General Services Administration (3FW), Washington, DC 20407. This report shall state the quantity and type so donated, the name and address of the donee institution, and the date of the donation.

[1] Form and instructions filed as part of the original document.

PART 101–45—SALE, ABANDONMENT, OR DESTRUCTION OF PERSONAL PROPERTY

Subpart 101–45.3—Sale of Personal Property

1. Section 101–45.303(b) is revised to read as follows:

§ 101–45.303 Reporting property for sale.

• • • • •

(b) *Nonreportable property.* Property not required to be reported for utilization screening and for which any required donation screening has been completed shall be reported to the appropriate GSA regional office on Standard Form 126, Report of Personal Property for Sale (illustrated in § 101–45.4923). Standard Form 126A, Report of Personal Property for Sale (Continuation Sheet), shall be used if additional pages are required (illustrated in § 101–45.4923–1). Standard Forms 126 and 126A are stocked as five-part carbon interleaved forms and may be obtained from GSA supply distribution facilities.

2. Section 101–45.304–8 is amended as follows:

§ 101–45.304–8 Forms prescribed.

• • • • •

(a) *Deviation.* In the interest of establishing and maintaining uniformity in Government sales contracts, no deviation shall be made from the Standard Form 114 series, and no special conditions of sales shall be included which are inconsistent with the provisions contained therein, unless approval is obtained from the Commissioner, Federal Supply Service, General Services Administration, Washington, DC 20406.

• • • • •

(d) *Other special conditions.*

(1) Other special terms and conditions considered by a selling agency to be necessary for the particular property offered for sale and not inconsistent with those contained in the forms prescribed in this § 101–45.304–8 may be incorporated in invitations for bids in which these forms are used. Such additional terms and conditions should be kept to an absolute minimum. To the extent practicable, incorporation of such special conditions should be accomplished by a special form developed by the selling agency for that purpose and so indicated on Standard Form 114, Sale of Government Property-Bid and Award. Each selling agency shall review periodically such terms and conditions which are in common use in its agency with a view to standardization of those in general use and elimination of unnecessary additions. The agency shall, from time to time, forward to the Commissioner, Federal Supply Service, General Services Administration, Washington, DC 20406, such additional terms and conditions desirable for inclusion in the standard forms.

• • • • •

3. Section 101–45.309–6 is amended as follows:

§ 101–45.309–6 Controlled substances.

• • • • •

(a) • • •

(3) Be distributed only to bidders who are registered with the Drug Enforcement Administration, Department of Justice, to manufacture, distribute, or dispense the controlled substances for which the bid is being submitted; and

(4) Contain the following special condition of sale:

> The Bidder shall complete, sign, and return with his bid the certificate as contained in this invitation. No award will be made or sale consummated until after this agency has obtained from the Drug Enforcement Administration, Department of Justice, verification that the Bidder is registered to manufacture, distribute, or dispense those controlled substances which are the subject of the award.

(b) The following certification shall be made a part of the invitation for bids (and contract) to be completed and signed by the bidder and returned with the bid:

> The Bidder certifies that he is registered with the Drug Enforcement Administration, Department of Justice, as a manufacturer, distributor, or dispenser of the controlled substances for which bids are submitted and that the registration number is ——.
>
> ——————
> Name of bidder (print or type).
>
> ——————
> Signature of bidder.
>
> ——————
> Address of bidder (print or type).
>
> ——————
> City State ZIP code.

(c) As a condition precedent to making an award for surplus controlled substances, the following shall be submitted to the Drug Enforcement Administration, Department of Justice, Washington, DC 20537:

• • • • •

Subpart 101–45.5—Abandonment or Destruction of Surplus Property

Section 101–45.505 is amended as follows:

§ 101–45.505 Destruction of surplus drugs, biologicals, and reagents.

• • • • •

(b) When surplus drugs, biologicals, and reagents, including controlled substances, are required to be destroyed by the holding agency, they shall be destroyed in such a manner as to ensure total destruction of the substance to preclude the utilization of any portion thereof. The destruction shall be in accordance with Federal, State, and local air and water pollution control standards. When major amounts are to be destroyed, the action shall be coordinated with local air and water pollution control authorities. As to controlled substances, in addition to the requirements set forth herein, each executive agency shall comply with the provisions of 21 CFR 307.21 of the Drug Enforcement Administration (DEA) regulations or with equivalent procedures approved by the DEA.

(c) Destruction of surplus drugs, biologicals, and reagents, including controlled substances, shall be performed by an employee of the holding agency in the presence of two additional employees of the agency as witnesses to that destruction unless in the case of controlled substances the Regional Director of DEA directs otherwise.

• • • • •

Subpart 101–45.6—Debarred and Suspended Bidders

Section 101–45.603 is revised to read as follows:

§ 101–45.603 Notices of debarment or suspension.

(a) Any notice of debarment instituted hereunder shall be consistent with the requirements of FPR 1–1.604–1, shall be in writing, and shall provide the affected party an opportunity for a hearing if he so requests within a 20-day period from the date of mailing. The written notice shall be sent by registered or certified mail, return receipt requested, to the last known address of the party. Where the notice is sent by registered or certified mail to the last known address of the party but actual or personal delivery is not effected by the U.S. Postal Service or by other means, a debarment may be imposed; but upon the submission of an appropriate application any such debarment shall be subject to reopening, and in such event a hearing shall be accorded in respect to the debarment.

(b) Any notice of suspension instituted hereunder shall be consistent with the requirements of FPR 1–1.605–3, shall be in writing, and shall be sent to the affected party by registered or certified mail, return receipt requested, to the last known address of the party in question. The suspension shall be effective upon the mailing of this notice. However, whether or not actual or personal delivery is accomplished by the U.S. Postal Service, the party in question may, at any time, submit information in opposition to such suspension and such information shall be duly considered.

PART 101–46—UTILIZATION AND DISPOSAL OF PERSONAL PROPERTY PURSUANT TO EXCHANGE/SALE AUTHORITY

Subpart 101–46.4—Disposal

Section 101–46.407 is revised to read as follows:

§ 101–46.407 Reports.

As soon as possible after the close of each fiscal year, but in no event later than 90 calendar days after that close, executive agencies shall submit a summary report in letter form on the transactions made pursuant to this part during the fiscal year except for transactions involving books and periodicals. Negative reports are required. Total acquisition cost for property exchanged and total

acquisition cost for property sold shall be furnished by two-digit Federal Supply Classification Groups. The above data shall be broken down to show transactions in two categories: (a) in the States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, and the Virgin Islands; and (b) in all other areas of the world. The summaries shall not include any property that was initially designated for exchange/sale but which was transferred for further Federal utilization. Reports shall be addressed to the General Services Administration (FW), Washington, D.C. 20406. Since the data required by this report reflects operating supply transactions, it is excluded from the interagency reporting requirements as set forth in Subpart 101-11.11 of this chapter.

NOTE: The form and instructions in §§ 101-43.4902-1, 101-43.4904, and 101-43.4904-1 are filed as part of the original document and do not appear in the FEDERAL REGISTER.

(Sec. 205(c), 63 Stat. 390 (40 U.S.C. 486(c)).

Effective date. This regulation is effective on December 27, 1974.

Dated: December 19, 1974.

ARTHUR F. SAMPSON,
Administrator of General Services.

DEPARTMENT OF THE INTERIOR

Title 43—Public Lands: Interior

CHAPTER II—BUREAU OF LAND MANAGEMENT

APPENDIX—PUBLIC LAND ORDERS

[Public Land Order 5461]

[A-026009, F-010114, F-010904, F-024731, F-030995, F-031030, F-034043]

ALASKA

Partial Revocation of Alaska Communications System Withdrawals; Partial Revocation of Pumping Station Site Withdrawal

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952 (17 FR 4831), it is ordered as follows:

1. Public Land Order No. 2425 of July 3, 1961, which withdrew lands for the Department of the Army for the Alaska Communications System, is hereby revoked as to the following described lands:

SEWARD MERIDIAN

SHEEP MOUNTAIN REPEATER SITE (A-026009)

T. 20 N., R. 10 E. (Partly unsurveyed)
Sec. 29, E½W½SE¼SW¼, E½SE¼SW¼, S½SE¼, and those portions lying south of the centerline of the Glenn Highway of: S½SE¼NE¼SW¼, SE¼SW¼NE¼SW¼, S½SW¼NE¼SE¼, S½SE¼NW¼SE¼, and S½SW¼NW¼SE¼;
Sec. 32, N½NE¼, N½S½NE¼, E½W½NE¼NW¼, E½NE¼NW¼, E½NW¼SE¼NW¼, NE¼SE¼NW¼.
Containing approximately 287 acres.

2. Title to a portion of the lands described in Paragraph 1 has passed from the United States by quitclaim deed (AA-6185) issued under the Alaska Communications Disposal Act of November 14, 1967 (81 Stat. 441-444). The remaining lands, as described below, are withdrawn under the provisions of Public Land Order No. 5418 of March 25, 1974, for classification and protection of the public interest:

T. 20 N., R. 10 E. (Partly unsurveyed)
Sec. 29, E½W½SE¼SW¼, E½SE¼SW¼, E½SE¼SE¼, and those portions lying south of the centerline of the Glenn Highway of: S½SW¼NE¼SE¼, S½S½NW¼SE¼, S½SE¼NE¼SW¼, SE¼SW¼NE¼SW¼;
Sec. 33, NE¼NE¼NE¼, S½NW¼NE¼NE¼, S½NE¼NE¼, S½N½NW¼NE¼, S½NW¼NE¼, N½S½NE¼, E½NE¼NW¼, E½W½NE¼NW¼, E½NW¼SE¼NW¼, NE¼SE¼NW¼.
Containing approximately 212 acres.

3. (a) Public Land Order No. 975 of June 18, 1954, so far as it reserved the following described lands for use of the Department of the Army for the Alaska Communications System, is hereby revoked:

TOK TOWNSITE

TOK ACS SITE (F-010114)

Block 3E, lots 1 thru 8;
Block 4E, lots 1, 2, 3, 4, 11, 12, 13, shown as Federal Reserve on supplemental plat accepted October 16, 1951, of U.S. Survey No. [illegible]51.
Containing approximately 3.08 acres.

(b) Public Land Order No. 1114 of April 7, 1955, which withdrew lands for use of the Department of the Army for the Alaska Communications System is hereby revoked in its entirety. The affected lands are described as follows:

TOK TOWNSITE

TOK ACS SITE (F-010904)

Two tracts of land situated within Tok Townsite, U.S. Survey 2931, Alaska, more particularly described as follows:

Tract 1: Commencing at the northwest corner of Lot 8, Block 3E, Tok Townsite; thence N. 09°02' E., 80 feet across First Avenue East to the true point of beginning; thence continuing N. 09°02' E., 200 feet; thence S. 80°58' E., along the south line of Second Avenue East 200 feet; thence S. 09°02' W., along the west line of East First Street 300 feet; thence N. 80°58' W., along the north line of First Avenue East, 200 feet to the true point of beginning, containing approximately 1.38 acres.

Tract 2: Commencing at the northwest corner of Lot 13, Block 4E., Tok Townsite; thence N. 09°02' E., 80 feet across First Avenue East to the true point of beginning; thence S. 80°58' E., along the south line of thence S. 80°58' S., along the south line of Second Avenue East 400 feet; thence S. 09°02' W., along the west line of East Second Street 300 feet; thence N. 80°58' W., along the north line of First Avenue East 400 feet to the true point of beginning, containing approximately 1.75 acres.

(c) Public Land Order No. 2257 of January 19, 1961, which withdrew lands for use of the Department of the Army for an Alaska Communications System Repeater Station is hereby revoked in its entirety. The affected lands are described as follows:

DELTA JUNCTION ACS REPEATER STATION (F-024731)

Beginning at Corner No. 5, U.S. Survey No. 2770 at Delta Junction, in the Fourth Judicial Division, the true point of beginning for this description; thence, S. 31°24' W., 300 feet to a point on the centerline of the Alaska Highway; S. 58°36' E., 635.21 feet long said centerline to a point; N. 31°24' E., 625.60 feet; N. 15°07' W., 236.86 feet; S. 74°53' W., 673.33 feet through Corner No. 4 of U.S. Survey 2770 to Corner No. 5 of said survey and the point of beginning. Containing 8.57 acres.

These lands have since been surveyed and are now described as Lot 82 of sec. 23, T. 10 S., R. 10 E., Fairbanks Meridian.

(d) Executive Order No. 8577 of October 29, 1940, and Public Land Order No. 290 of July 25, 1945, which withdrew lands for the War Department as a radio station site are hereby revoked in their entirety. The lands withdrawn were originally described by metes and bounds but have since been surveyed and are now described as:

KOTZEBUE ACS SITE (F-030995)

U.S. Survey 2963A and B, Block 4, Lots 1 and 2.
Containing 2.56 acres.

(e) Public Land Order No. 916 of October 1, 1953, as amended by Public Land Order No. 1613 of April 7, 1958, which withdrew lands for the Department of the Army for the Alaska Communications System is hereby revoked as to the lands described below. The lands withdrawn were originally described by metes and bounds but have since been surveyed and are now described as:

HARDING LAKE ACS SITE (F-031030)

T. 6 S., R. 4 E., Fairbanks Meridian
Sec. 15, lots 17 and 19.

Containing 4.63 acres.

4. All of the lands described in Paragraph 3 have been conveyed to RCA by quitclaim deed of January 10, 1971 (F-13507), issued under the Alaska Communications Disposal Act of November 14, 1967 (81 Stat. 441-444).

5. Public Land Order No. 386 of July 31, 1947, as amended, withdrawing lands under the jurisdiction of the Secretary of War for right-of-way purposes for a telephone line and an oil pipeline with appurtenances, is hereby revoked so far as it affects the following described lands:

PUMPING STATION "K", CANOL PROJECT (F-034043)

A tract of land containing 60 acres, situated on the north side of the Alaska Highway, to include the pumping plant and accessories at Pumping Station "K", Canol Project, more particularly described as follows:

Beginning at a point on the centerline of the Alaska Highway opposite the pumphouse at Mile Station 1330.1, thence by metes and bounds:

S. 80°56' E., 15 chains;
N. 9°04' E., 20 chains;
N. 80°56' W., 30 chains;
S. 9°04' W., 20 chains;
S. 80°56' E., along centerline of the Alaska Highway.
Approximately 15 chains to point of beginning.

The lands described above have been declared to be "property" within the

meaning of the Federal Property and Administrative Services Act of 1949, as amended, 63 Stat. 377; 40 U.S.C. 472 (1970), and have been disposed of under that act and the regulations of the General Services Administration.

Dated: December 20, 1974.

JACK O. HORTON,
Assistant Secretary of the Interior.

[FR Doc.74-30242 Filed 12-26-74;8:45 am]

[Public Land Order 5459]

ALASKA

Amendment of Public Land Orders Nos. 5177, 5179, and 5180

By virtue of the authority vested in the Secretary of the Interior by sections 11(a)(3) and 22(h)(4) of the Alaska Native Claims Settlement Act of December 18, 1971, 85 Stat. 688, 696, 714, and pursuant to Executive Order No. 10355 of May 26, 1952 (17 F.R. 4831), it is ordered as follows:

1. Public Land Order No. 5177 of March 9, 1972, as amended, which withdrew lands for selection under section 12 of the act by any eligible village corporations established under section 8 of the act requiring deficiency withdrawal and the regional corporation for the approximate area covered by the operations of the Kodiak Area Native Association, now known as Koniag, Incorporated, is hereby amended to delete the following described lands from paragraph 2 of that order and add them to paragraph 1 of said order:

SEWARD MERIDIAN

PROTRACTED DESCRIPTIONS

T. 20 S., Rs. 45 and 46 W.
Ts. 30, 31, 32 S., R. 45 W.
Ts. 37, 38, 39 S., R. 50 W. (Fractional)
T. 41 S., R. 51 W. (Fractional)
T. 42 S., Rs. 49, 50, 51 W. (Fractional)
T. 44 S., Rs. 54 and 55 W. (Fractional)
T. 45 S., R. 54 W. (Fractional)

2. Public Land Order No. 5177 of March 9, 1972, as amended, is hereby further amended to add the following described lands to paragraph 1 of said order:

SEWARD MERIDIAN

PROTRACTED DESCRIPTIONS (FRACTIONAL)

T. 37 S., Rs. 45 and 46 W.
T. 41 S., Rs. 50 and 55 W.
T. 42 S., Rs. 50, 54, and 55 W.
T. 43 S., Rs. 54 and 55 W.

3. Public Land Orders 5179 and 5180 of March 9, 1972, as amended, are hereby further amended to delete the lands described in paragraph 2 of this order.

4. The lands described in this order are hereby made subject to all the terms and conditions of Public Land Order No. 5177, and its amendments.

5. Prior to any conveyance of the lands described in this order the lands shall be subject to administration by the Secretary of the Interior under the applicable laws and regulations, and his authority to make contracts and to grant leases, permits, rights-of-way, or easements shall not be impaired by this order. Applications for leases under the Mineral Leasing Act, as amended, 30 U.S.C. 181–287 (1970), will be rejected until this order is modified or the lands are appropriately classified to permit mineral leasing.

Dated: December 18, 1974.

JACK O. HORTON,
Assistant Secretary of the Interior.

[FR Doc.74-30243 Filed 12-26-74;8:45 am]

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 1]

SICK PAY EXCLUSION

Notice of Proposed Rulemaking

Notice is hereby given that the regulations set forth in tentative form in the attached appendix are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by January 27, 1975. Pursuant to 26 CFR 601.601(b), designations of material as confidential or not to be disclosed, contained in such comments, will not be accepted. Thus, a person submitting written comments should not include therein material that he considers to be confidential or inappropriate for disclosure to the public. It will be presumed by the Internal Revenue Service that every written comment submitted to it in response to this notice of proposed rule making is intended by the person submitting it to be subject in its entirety to public inspection and copying in accordance with the procedures of 26 CFR 601.702(d)(9). Any person submitting written comments who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner by January 27, 1975. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their requests for a hearing before notice of the hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

This document contains proposed amendments to the Income Tax Regulations (26 CFR Part 1) under sections 72, 101, and 105 of the Internal Revenue Code of 1954, pertaining to the definition of "retirement age," and to the application of section 72 to accident and health plans.

Under the existing regulations, disability annuitants are entitled to exclude some, or all, of their annuity payments as "sick pay" under section 105(d) of the Code, but only until reaching "initial retirement age." Payments received after initial retirement age are treated in accordance with the rules of section 72, pertaining to the taxation of annuities.

Because of adverse court decisions, the Internal Revenue Service announced, in technical Information Release 1283, dated April 9, 1974, that taxpayers retired on disability can now apply the sick pay exclusion to their disability payments until mandatory retirement age.

Therefore, the purpose for this regulation is to formalize the Service's position as stated in TIR–1283, and to provide transitional rules pertaining to the application of section 72 to accident and health plans.

PROPOSED AMENDMENTS TO THE REGULATIONS

In view of the foregoing, the Income Tax Regulations (26 CFR Part 1) under sections 72, 101, and 105 of the Internal Revenue Code of 1954 are revised as follows:

Paragraph 1. Paragraph (b)(2) of § 1.72–4 is amended to read as follows:

§ 1.72–4 Exclusion ratio.

* * * * * * *

(b) *Annuity starting date.* * * *

(2) Notwithstanding the provisions of paragraph (b)(1) of this section, the annuity starting date shall be determined in accordance with whichever of the following provisions is appropriate:

(i) In the case of a joint and survivor annuity contract described in section 72(d) and paragraph (b)(3) of § 1.72–5, the annuity starting date is January 1, 1954, or the first day of the first period for which an amount is received as an annuity by the surviving annuitant, whichever is the later;

(ii) In the case of the transfer of an annuity contract for a valuable consideration, as described in section 72(g) and paragraph (a) of § 1.72–10, the annuity starting date shall be January 1, 1954, or the first day of the first period for which the transferee received an amount as an annuity, whichever is the later;

(iii) If the provisions of paragraph (e) of § 1.72–11 apply to an exchange of one contract for another, or to a transaction deemed to be such an exchange, the annuity starting date of the contract received (or deemed received) in exchange shall be January 1, 1954, or the first day of the first period for which an amount is received as annuity under such contract, whichever is the later; and

(iv) In the case of an employee who has retired from work because of personal injuries or sickness, and who is receiving amounts under a plan that is a wage continuation plan under section 105(d) and § 1.105–4, the annuity starting date shall be the date the employee reaches mandatory retirement age, as defined in § 1.105–4(a)(3)(i)(B). (See, also §§ 1.72–15 and 1.105–6 for transitional and other special rules.)

However, where such an employee retired before January 27, 1975, and elected to apply section 72 to amounts received for periods before mandatory retirement age, as provided in § 1.72–15(i), the annuity starting date shall be his retirement age as defined in § 1.79–2(b)(3).

PAR. 2. Section 1.72–15 is amended by revising paragraphs (a) and (d), example (1) of paragraph (f), and by adding new paragraphs (i) and (j) to read as follows:

§ 1.72–15 Applicability of section 72 to accident or health plans.

(a) *Applicability of section.* This section provides the rules for determining the taxation of amounts received from an employer-established plan which provides for distributions that are taxable under section 72 (or for distributions that are taxable under section 402(a)(2) or (e), or section 403(a)(2), in the case of certain total distributions) and which also provides for distributions that may be excludable from gross income under section 104 or 105 as accident or health benefits. See, however, paragraph (i) of this section with respect to the special election to apply section 72 to certain health or accident benefits. For example, this section will apply to a pension plan described in section 401 and exempt under section 501 which provides for the payment of pensions at retirement and the payment of an earlier pension in the event of permanent disability. This section will also apply to a profit-sharing plan described in section 401 and exempt under section 501 which provides for periodic distribution of the amount standing to the account of a participant during any period that the participant is absent from work due to a personal injury or sickness and for the distribution of any balance standing to the account of the participant upon his separation from service. For purposes of this section, the term "contributions of the employee" includes contributions by the employer which were includible in the employee's gross income. For special

rules relating to certain accident or health benefits which were treated as distributions to which section 72 applied, see paragraph (j) of this section.

* * * * *

(d) *Accident or health benefits attributable to employer contributions.* Any amounts received as accident or health benefits and not attributable to contributions of the employee are includible in gross income except to the extent that such amounts are excludable from gross income under section 105 (b), (c), or (d) and the regulations thereunder. Thus, such amounts may be excludable under section 105(d) as payments under a wage continuation plan. However, if such payments, when added to other such payments attributable to employer contributions, exceed the limitations of section 105(d), then the excess is includible in gross income under section 105(a). Such excess is not excludable under section 72. See, however, paragraph (i) with respect to the special election to apply section 72 to certain amounts received as accident or health benefits, and paragraph (j), for special rules relating to certain accident or health benefits which were treated as distributions to which section 72 applied.

* * * * *

(f) *Examples* * * *

Example (1). A, an employee, is a participant in a contributory pension plan described in section 401(a) and exempt under section 501(a). Such plan provides for the payment of a pension to each participant when he retires at age 65 or when he retires earlier if the retirement is due to permanent and total disability. In 1964, A, who was age 52, became totally and permanently disabled because of an injury, was hospitalized, and commenced to receive a pension of $74 a week under this plan. The weekly amounts received by A do not exceed 75 percent of his "regular weekly rate of wages" under section 105(d). A had contributed $11,500 to the plan. The plan does not expressly provide that any portion of the disability pension is purchased with employee contributions. Accordingly, it is presumed that no portion of the disability pension is purchased with A's contributions. The disability pension which A receives qualifies as payments under a wage continuation plan for purposes of section 105(d) and § 1.105-4, and if such payments are the only accident or health benefits which are attributable to the contributions of his employer, such payments are entirely excludable under section 105(d) until A reaches age 65, his mandatory retirement age under the plan. The payments which A receives after he becomes age 65 are taxable under section 72. The payments which A receives do constitute an annuity as defined in paragraph (b) of § 1.72-2, but since the amounts which he will receive during the first three years after attaining age 65 exceed his contributions, he shall exclude under § 1.72-13 the entire amount of all payments that he receives as an annuity after attaining age 65 until such amounts equal his contributions to the plan, or $11,500. Thereafter, the payments that he receives under the plan are includable in gross income.

* * * * *

(i) *Special election for employees retired before January 27, 1975.* (1) *Election to apply section 72.* Any employee who—

(i) Retired from work before January 27, 1975, because of personal injuries or sickness; and

(ii) Reached retirement age as defined in § 1.72-2(b)(3) (hereinafter referred to as "initial retirement age") before such date,

may elect to apply section 72 to amounts received after initial retirement age under an employer-established plan (as described in paragraph (a) of this section), even though such amounts constitute accident or health benefits to which section 105(d) would otherwise apply. The election provided for in this paragraph must be made with respect to all payments received after the employee's initial retirement age, or if assessment or collection of tax is prevented for such year by operation of any law or rule of law, then such election must be made for payments received in or after the first taxable year for which assessment or collection is not so prevented. However, elections which affect years after the first year for which the election is made and for which assessment or collection is so prevented, may be made only with the consent of, and subject to the conditions imposed by, the Commissioner. Further, where an employee has exercised the election provided for in this paragraph, the special rule of paragraph (j)(1) of this section, relating to the recomputation of the amount treated as the employee's investment in his annuity contract, shall not apply. An election made under this paragraph may be revoked only with the consent of the Commissioner.

(2) *Limitation.* If a taxpayer had claimed an exclusion after initial retirement age under section 105(d) for a taxable year for which assessment or collection of a deficiency is prevented by operation of any law or rule of law, such taxpayer may qualify for the election under this paragraph only if he agrees to the adjustments and conditions required by the Commissioner.

(3) *Manner of election.* The election provided for in paragraph (i)(1) of this section shall be made by the employee or his representative by attaching a statement to that effect to a return, or amended return, made for the taxable year in which the employee reached initial retirement age, or, if assessment or collection of tax is prevented for such year by operation of any law or rule of law, then such election shall be made by attaching such statement to the return, or amended return, for the first taxable year for which assessment or collection is not so prevented. In lieu of the procedures provided in this paragraph (i)(3) the Commissioner may prescribe a form and instructions for making the election.

(4) *Time for election.* The election provided for in paragraph (i)(1) of this section must be made within one year from [the date on which final regulations are filed by the Office of the Federal Register].

(5) *Example.* The provisions of this paragraph may be illustrated by the following example:

Example. On January 1, 1972, A, a calendar year taxpayer, retires at age 60, his initial retirement age, and receives an annuity to which (but for this paragraph) section 105(d) applies. A's mandatory retirement age is 65. A elects to apply section 72(d) as provided in this paragraph. Therefore, for 1972 and all subsequent years no amount received under the disability annuity may be excluded under section 105(d).

(j) *Special rules.* (1) *Amounts received as accident or health benefits in years closed to refund claims by law or rule of law.* Except where the election provided under paragraph (i) of this section has been exercised, an employee who—

(i) Retired from work because of personal injuries or sickness, and has reached initial retirement age, within the meaning of paragraph (i)(1) of this section, before January 27, 1975; and

(ii) Received amounts to which this section applies in years for which the allowance of a credit or refund of an overpayment of tax is prevented by operation of any law or rule of law,

shall determine the investment in, the consideration for, or the basis of the contract of such employee (hereinafter referred to in paragraph (j)(1) of this section as investment in the contract) in accordance with the rules of this paragraph. For years referred to in paragraph (j)(1)(ii) of this section, in determining the amount by which such investment in the contract shall be decreased, such investment shall not be decreased by amounts to the extent such amounts could have been excluded under section 105(d) (subject to the limitations contained in such provision). Therefore, such investment in the contract shall be decreased only by the excess of the amount excluded under section 72 for such years over the amount which could have been excluded under section 105(d). For example, in the case of an individual who was retired from work on account of injury or sickness for a full taxable year, if the amount excluded under section 72 was less than $5,200, the entire amount could have been excluded under section 105(d). On the other hand, if the amount excluded under section 72 was equal to or greater than $5,200 for a full taxable year, then $5,200 could have been excluded under section 105(d).

(2) *Surviving annuitants and beneficiaries.* (i) The rights of a surviving annuitant or beneficiary, with respect to the application of the rules of section 72, shall be based on the employee's investment in his annuity contract, as adjusted in accordance with the provisions of this paragraph. Thus, where an employee dies after having recomputed his investment as provided in paragraph (j)(1) of this section, and his contract provided a survivorship element, the survivor would assume the employee's recomputed investment for purposes of determining excludability of amounts under section 72.

(ii) Where a surviving annuitant or beneficiary failed to increase the amount treated as an employee's contribution toward his annuity contract to reflect the employee death benefit under section 101(b) and § 1.72-8(b), because the employee had treated his initial retirement

age (within the meaning of paragraph (i)(1) of this section) as his annuity starting date, such surviving annuitant or beneficiary may apply section 101 (b) as if the appropriate addition to basis had been made in the year of the employee's death. For purposes of this paragraph, the amount treated as the section 101(b) death benefit would be valued as of the date of the employee's death.

(3) *Cross references.* (i) See section 72 (b)(4) and §1.72–4(b) with respect to annuity starting dates.

(ii) See §§ 1.72–8(b) and 1.101–2(a)(2) with respect to treating certain amounts received by an estate or beneficiary as employee death benefits.

(iii) See §1.105–4(a)(3)(i)(B) for the definition of "mandatory retirement age."

(iv) See § 1.105–6 with respect to the application of section 105(b) to certain amounts received as retirement annuities before January 27, 1975, where the employee would otherwise have been eligible for benefits to which section 105(d) applies.

(4) The provisions of this section may be illustrated by the following examples. In such examples assume that the plan does not expressly provide that any portion of the disability pension is purchased with employee contributions. Accordingly, it is presumed that no portion of the disability pension is purchased with employee contributions. Also, assume that in each case the taxpayer retired only after he had been absent from work for at least 30 days on account of personal injuries or sickness:

Example (1). A, a calendar year taxpayer, retired because of disability on January 1, 1968, his 59th birthday, receiving $80 per week ($4,160 per year) under a plan which qualifies as a wage continuation plan under section 105(d) and § 1.105–4. Under the plan, A's initial retirement age is age 60 (January 1, 1970), and his mandatory retirement age is 65 (January 1, 1975). A's consideration for the contract was $10,000. For payments received in 1968 and 1969 A excluded the entire amount under section 105(d). Payments received with respect to periods after A's initial retirement age (January 1, 1970) were excluded under section 72(d) until his entire $10,000 consideration for his contract had been excluded. Thus, A applied section 72(d) to exclude $4,160 each year for taxable years 1970 and 1971, and $1,680 ($10,000—($4,160+$4,160)) for 1972. In late 1974 A realized that he was entitled to treat the full amount received under his annuity as excludable under section 105(d) rather than section 72 for the taxable years 1970 through 1974. Consequently, A filed amended returns for 1972 and 1973 excluding an additional $2,480 ($4,160—$1,680) and $4,160, respectively, claiming refunds based upon such additional exclusions. Moreover, A's annuity starting date is January 1, 1975 (A's mandatory retirement age), and he excludes under section 72(d) for 1975, 1976, and 1977, $4,160, $4,160 and $1,680 ($10,000—($4,160+$4,160)), respectively.

Example (2). B, a calendar year taxpayer retired because of disability, July 1, 1970, on his 58th birthday, receiving $1,000 per month under a plan which qualifies as a wage continuation plan for purposes of section 105(d) and § 1.105–4. Under the plan, B's initial retirement age is age 60 (July 1, 1972), and his mandatory retirement age is 65 (July 1, 1977). B's consideration for the contract was $25,000. For payments received in 1970 and 1971 B excluded under section 105(d) $2,600 and $5,200, respectively, from the $6,000 (6 x $1,000) and $12,000 (12 x $1,000) of the payments received under the plan. For the period January 1, 1972 through June 30, 1972, B excluded an additional $2,600 under section 105(d). For the period July 1, 1972 through December 31, 1972 B excluded under section 72(d)(1) the entire $6,000 in payments received under the plan. Similarly, B excluded under section 72(d)(1), the entire $12,000 in payments received under the plan in 1973. In 1974, B realized that he was entitled to take full advantage of the exclusion under section 105(d) for periods through June 30, 1977, when he would reach age 65. B filed amended returns for his 1972 and 1973 taxable years, recomputing his income without regard to section 72 and instead taking into account the exclusion under section 105(d). Thus, B restored to income the $6,000 he had previously excluded under section 72(d)(1) for 1972, and instead excluded an additional $2,600 ($5,200—$2,600) under section 105(d). Similarly, he restored to income the $12,000 he had previously excluded under section 72(d)(1) for 1973, and instead excluded $5,200. As a result, B's gross income was increased by a net amount of $3,400 ($6,000—$2,600) for 1972 and by a net amount of $6,800 ($12,000—$5,200 for 1973. B may continue to exclude under section 105(d) amounts he receives under the plan for periods prior to July 1, 1977. Thereafter, B would treat amounts received under the plan in accordance with the principles of section 72. Thus, July 1, 1977, would be his annuity starting date, and $25,000 would be his consideration for the contract.

Example (3). Assume the same facts as in example (2) except that B's investment in his annuity contract is $37,000, and that he is entitled to exclude under section 72(b) (without regard to this section) 16.9 percent or $2,028 of the $12,000 payments received per year. Thus, for the period July 1, 1972 through December 31, 1972, B had excluded under section 72(b) $1,014 (16.9 percent of $6,000), and for 1973, B excluded under section 72(b) $2,028. B files amended returns for 1972 and 1973 claiming the exclusion under section 105(d) for the entire period for both years. Thus, B restored to income $1,014 for 1972 and $2,028 for 1973, and claimed an additional $2,600 ($5,200—$2,600) exclusion under section 105(d) for 1972 and a $5,200 exclusion for 1973. Thus, for 1972 B is entitled to a net exclusion of $1,586 ($2,600—$1,014), and for 1973 a net exclusion of $3,172 ($5,200—$2,028). On July 1, 1977, B's investment in the contract is $37,000.

Example (4). C, a calendar year taxpayer, retired because of disability on January 1, 1965, on his 58th birthday receiving payments of $500 per month under a plan which qualifies as a wage continuation plan for purposes of section 105(d) and § 1.105–4. C had contributed $18,000 toward the cost of his annuity contract. Under the plan, C's initial retirement age is age 60 (January 1, 1967) and C's mandatory retirement age is age 70 (January 1, 1977). For taxable years 1965 and 1966 C excluded from gross income under section 105(d) $5,200 of the $6,000 (12×$500) he received from his employer as wage continuation benefits. On January 1, 1967, C began excluding all of the benefits C received in accordance with the rules of section 72(d). Thus, for 1967, 1968 and 1969, C excluded 100 percent of the annuity payments. For his taxable years 1970 through 1973, C included in his gross income all annuity payments. In 1974, C realized that he was entitled to use the exclusion under section 105(d) through December 31, 1976 (until he reached age 70). In 1974, C filed a timely claim for refund for his taxable years 1971, 1972 and 1973 (refunds for taxable year 1970 and prior years were barred by the statute of limitations), and continues to claim the exclusion under section 105(d) for 1974, 1975 and 1976. For 1977, C treats January 1, 1977 as the annuity starting date, and treats $15,600 as the investment in the contract. The $15,600 represents the $18,000 original investment in the contract reduced by the excess, $2,400, of the amount excluded under section 72 for 1967, 1968 and 1969 ($18,000) over the amount excludable under section 105(d) ($5,200×3) for such years.

Example (5). (i) D, a calendar year taxpayer retired because of disability, June 30, 1965, receiving $100 per month under a plan which qualifies as a wage continuation plan for purposes of section 105 (d) and § 1.105–4. Under the plan, the initial retirement age of D, whose birthday is January 1, is age 60 (January 1, 1967), and D's mandatory retirement age is age 70 (January 1, 1977). D has contributed $6,000 toward the cost of the annuity contract under such plan. For 1965 and 1966, D excludes under section 105 (d) the entire amount received under the plan ($600 and $1,200 respectively). For 1967, assume that D is entitled to exclude under section 72 (b) (without regard to this section) 27.5 percent, or $330 of the $1,200 payments under the plan per year. For 1967 through 1973, D excludes $330 per year under section 72 (b).

(ii) In 1974, D realized that he was entitled to use the exclusion provided in section 105 (d) up until January 1, 1977 when he reaches his mandatory retirement age and that he improperly applied section 72 to payments received in the years 1967 through 1973. In 1974, D filed a timely claim for refund with respect to the section 105 (d) wage continuation benefits, for 1971, 1972 and 1973 (refunds for taxable year 1970 and prior years were barred by the statute of limitations), and continues to claim the section 105 (d) exclusion for 1974, 1975 and 1976. D is entitled to a net exclusion of $870 ($1,200—$330) for each of the years 1971, 1972 and 1973.

(iii) Upon reaching mandatory retirement age on January 1, 1977, D treats such date as the annuity starting date, and treats $6,000 as the investment in the contract. The investment in the contract is not reduced, because the amount excluded under section 72(b) for 1967 through 1970 ($330 per year) does not exceed the amount excludable under section 105(d) ($1,200 per year), and the $330 per year excluded for 1971, 1972, and 1973 were restored to the investment in the contract. Therefore, assuming that D would be entitled to exclude 41.3 percent of the payments under the plan if the annuity starting date is January 1, 1977, D would be entitled to exclude $495.60 (41.3 percent of $1,200) per annum.

Example (6). Assume the facts stated in example (5) except that D's investment in his annuity contract is $100,000 and he received payments equaling $10,000 per year, and assume that D is entitled to exclude under section 72(b) (without regard to this section) 54.9 percent of the payments under the plan. Consequently, he excluded $5,490 (54.9 percent of $10,000) from his gross income for the years 1967 through 1973. In D's amended returns for 1971, 1972 and 1973, D restores $5,490 per year to the investment in the contract and excludes under section 105(d), $5,200, which represents a net increase in gross income of $290 ($5,490—$5,200). D excludes $5,200 per year under section 105(d) for 1974, 1975 and 1976. As of anuary 1, 1977, the annuity starting date, D treats $93,840 as his investment in the contract for purposes of section 72(b). The $93,840 represents the original investment of $100,000 reduced by the excess ($1,160) of the amount excluded under section 72 for

1967, 1968, 1969 and 1970 ($5,490×4=$21,960) over the amount excludable under section 105(d) ($5,280×4=$20,800). Therefore, assuming that D would be entitled to exclude 81.7 percent of the payments under the plan if the annuity starting date is January 1, 1971, D would be entitled to exclude $8,170 (81.7 percent of $10,000) per annum.

Example (7). Assume the same facts as in example (6) except that D's mandatory retirement age is 65 (January 1, 1970). D would determine his exclusion ratio for purposes of section 72(b) as of January 1, 1970, since D's mandatory retirement age is D's annuity starting date. D would treat $99,120 as his investment in his annuity contract as of such date for purposes of section 72(b). Assuming refunds for 1970 and prior taxable years were barred by the statute of limitations, the $99,120 represents the original investment of $100,000 reduced by the excess of the amount excluded under section 72(b) for 1967, 1968, and 1969 ($5,490×3=$16,470) over the amount otherwise excludable during those years under section 105(d) $5,200 × 3=$15,600). Therefore, assuming that D would be entitled to exclude 81.2 of the payments received under the plan if the annuity starting date is January 1, 1970, D would be entitled to exclude $8,120 (81.2 percent of the $10,000 received under the plans) per annum for 1971 and subsequent years. However, D is not entitled to exclude the additional $630 ($8,120—$5,490) for 1970 because credit or refund for 1970 and prior years is barred by the statute of limitations.

PAR. 3. Paragraph (a) (2) of § 1.101–2 is amended to read as follows:

§ 1.101–2 Employees' death benefits.

(a) *In general.* • • •

(2) The exclusion does not apply to amounts constituting income payable to the employee during his life as compensation for his services, such as bonuses or payments for unused leave or uncollected salary, nor to certain other amounts with respect to which the deceased employee possessed, immediately before his death, a nonforfeitable right to receive the amounts while living (see section 101(b)(2)(B) and paragraph (d) of this section). Further, the exclusion does not apply to amounts received as an annuity under a joint and survivor annuity obligation where the employee was the primary annuitant and the annuity starting date occurred before the death of the employee (see section 101(b)(2)(C) and paragraph (e)(1)(ii) of this section). In the case of amounts received by a beneficiary as an annuity (but not as a survivor under a joint and survivor annuity with respect to which the employee was the primary annuitant), the exclusion is applied indirectly by means of the provisions of section 72 and the regulations thereunder (see section 101(b)(2)(D) and paragraph (e)(1)(iii) and (iv) of this section). Thus, for example, the exclusion applies to amounts which are received by a survivor of an employee retired on disability under the provisions of the Civil Service retirement law (5 U.S.C. 8301 or any former corresponding provisions of law) or the Retired Serviceman's Family Protection Plan or Survivor Benefit Plan (10 U.S.C. 1431 et seq.), provided such employee dies before attaining mandatory retirement age (as defined in § 1.105–4(a)(2)(i)(B)).

• • • • •

PAR. 4. Paragraph (a) (3) (i) and (a) (3) (ii) of § 1.105–4 is amended to read as follows:

§ 1.105–4 Wage continuation plans.

(a) *In general.* • • •

(2) (i) Section 105(d) is applicable only if the wages or payments in lieu of wages are paid pursuant to a wage continuation plan. (See, however, § 1.105–6 for special rules for employees retired before January 27, 1975.) The term "wage continuation plan" means an accident or health plan, as defined in § 1.105–5, under which wages, or payments in lieu of wages, are paid to an employee for a period during which he is absent from work on account of a personal injury or sickness. Such term includes plans under which payments are continued as long as the employee is absent from work on account of personal injury or sickness. It includes plans under which there is a limitation on the period for which benefits will be paid, such as 13 or 26 weeks, and also plans under which benefits are continued until the employee is either able to return to work or reaches mandatory retirement age. Such term also includes a plan under which wages or payments in lieu of wages are paid to an employee who is absent from work on account of personal injury or sickness, even though the plan also provides that wages or payments in lieu of wages may be paid to an employee who is absent from work for reasons other than a personal injury or sickness.

• • • • •

(3) (i) (A) Section 105(d) applies only to amounts attributable to periods during which the employee would be at work were it not for a personal injury or sickness. Thus, an employee is not absent from work if he is not expected to work because, for example, he has reached mandatory retirement age. If a plan provides that an employee, who is absent from work on account of a personal injury or sickness, will receive a disability pension or annuity as long as he is disabled, section 105(d) is applicable to any payments that he receives under this plan before reaching mandatory retirement age, as defined in paragraph (a)(3)(i)(B) of this section. Thus, section 105(d) would not apply to the payments that an employee receives after reaching mandatory retirement age. The disability retired pay received by a member on the retired list pursuant to section 402 of the Career Compensation Act of 1949 (63 Stat. 802) or chapter 61 of title 10, United States Code (10 U.S.C. 1201 et seq.) which is in excess of the amounts excludable under section 104(a)(4) and paragraph (c) of § 1.104–1 shall be excluded from gross income subject to the limitations of section 105(d) and this section, if such pay is received before the member reaches mandatory retirement age. See § 1.72–15 for additional rules relating to the tax treatment of disability pensions. For the rules relating to certain reduced uniformed services retirement pay, see paragraph (c)(2) of § 1.122–1. For rules relating to a waiver by a member or former member of the uniformed services of a portion of disability retired pay in favor of a pension or compensation receivable under the laws administered by the Veterans Administration (38 U.S.C. 3105), see § 1.122–1(c)(3).

(B) The term "mandatory retirement age" as used in paragraph (a)(3)(i)(A) of this section means the age set by an employer for the mandatory retirement of employees in the class to which the taxpayer last belonged. Where no age is set for mandatory retirement, such term means age 65, or the age at which it has been the practice of the employer to terminate due to age, the services of the class of employees to which the taxpayer last belonged.

PAR. 5. The following section is added immediately after § 1.105–5 to read as follows:

§ 1.105–6 Special rules for employees retired before January 27, 1975.

(a) *Application of section 105 (d) to amounts received as retirement annuities.* An employee who retired from work before January 27, 1975, receiving payments under his employer-established plan (to which § 1.72–15 (a) applies) which payments were not treated as amounts received under a wage continuation plan for purposes of section 105(d), may, as of the date the employee retired, treat such plan as such a wage continuation plan to the extent such payments are received prior to mandatory retirement age (as described in § 1.105–4 (a)(3)(i)(B)), if—

(1) His employer had in operation at the time of his retirement a program providing accident and health benefits under a wage continuation plan to which section 105(d) would apply;

(2) The employer certifies, under procedures approved in advance under paragraph (c) of this section, that the employee would have been eligible for wage continuation benefits, under the terms and conditions of his employer's plan, because of personal injuries or sickness;

(3) At the time of the employee's retirement there was no substantive difference between the benefits being actually received and the benefits he would have received had he retired under his employer's wage continuation plan; and

(4) The employee agrees to the adjustments and conditions required by the Commissioner with respect to amounts excluded under section 72(b) or (d) in taxable years for which assessment or collection of a deficiency is prevented by law or rule of law.

(b) *Filing requirements.* (1) The certification required in paragraph (a)(2) and the agreement required in paragraph (a)(4) of this section shall be filed with the return, or amended return, made for the taxable year in which the employee reached initial retirement age, or, if assessment or collection of tax, or the filing of a claim for refund, is pre-

vented by operation of law or any rule of law, then for the first taxable year for which assessment of tax or claim for refund is not so prevented.

(2) The Commissioner may prescribe a form and instructions with respect to the agreement provided for in paragraph (a)(4) of this section.

(c) *Employer certification.* (1) *Advance approval of procedures.* Any reasonable and consistently applied procedures, approved in advance by the Internal Revenue Service, which require the employee to provide the employer or the insurer with medical documentation sufficient to show that an illness or disability existed as of the date of the employee's retirement, which would have entitled him to retire on account of personal injuries or sickness alone, are sufficient for purposes of this paragraph.

(2) *Place of submission.* Requests for advance approval of procedures for certification shall be submitted to the district director.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 28]

DUNGENESS NATIONAL WILDLIFE REFUGE; WASH.

Public Access, Use, and Recreation; Correction

In FR Doc. 74-29393 appearing on page 43728 in the issue of Wednesday, December 18, 1974, an error was printed in the first sentence of paragraph 3. The sentence read as follows:

An evaluation of public use on the refuge has led to a recommendation that horses be permitted on the trail at all times and that horses be prohibited on the Spit during the principal public use season.

It was not the intent of this proposed rule to mean permitted; rather, the word should have been prohibited.

Accordingly, the first sentence of the third paragraph is corrected to read as follows:

An evaluation of public use on the refuge has led to a recommendation that horses be prohibited on the trail at all times and that horses be prohibited on the Spit during the principal public use season.

M. A. MARSTON,
Acting Director,
U.S. Fish and Wildlife Service.

GRAIN STANDARDS

Miscellaneous Amendments; Supplemental Notice of Proposed Rulemaking

On December 4, 1974, a notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 42226) to amend certain sections of the regulations under the U.S. Grain Standards Act (7 U.S.C. 71 *et seq.*).

Notice is hereby given, in accordance with the administrative procedure provisions in 5 U.S.C. 553, and pursuant to the authority contained in the Act, that the said notice is hereby amended and supplemented with respect to certain provisions proposed for sections 26.14 and 26.15 of the regulations (7 CFR 26.14 and 26.15) in the above-mentioned notice of rulemaking published December 4, 1974, as hereinafter set out.

Statement of considerations. The proposed definition of "uniform in quality" in § 26.14(b)(4) of the proposal should be changed to reflect that the weighted average of the grain in the lot is not inferior to the load order grade. The wording in certain provisions of § 26.15, which provided for the inspection of grain in combined lots, inadvertently provided that the grain in each car, truck, barge, and each shiplot must conform to the load order grade. The wording of the section should have provided that no "material portion" of the grain in the combined lot could be of a grade inferior to the load order grade. A proposed definition of the term "material portion" has been added to section 26.15.

Accordingly, certain paragraphs proposed for §§ 26.14 and 26.15 in the notice of rulemaking published December 4, 1974 (39 FR 42226) are amended to read as follows:

1. In § 26.14, paragraph (b)(4) is revised to read as follows:

§ 26.14 Inspection of grain in ships.

* * * * * * *

(b) * * *

(4) The term "uniform in quality" shall mean that the weighted average of the grain in the lot is not inferior to the load order grade, and that no material portion in the lot is of a grade or equivalent of a grade inferior to the load order grade.

* * * * * * *

2. In section 26.15, paragraphs (b)(1), (c)(7), (d)(3), (e)(1) and (e)(2) are revised and (b)(4) is added to read as follows:

§ 26.15 Inspection and certification of grain in combined lots.

* * * * * * *

(b) * * *

(1) The term "uniform in quality" shall mean that the weighted average of the grain in the combined lot is not inferior to the load order grade, and that no material portion in the lot is of a grade or equivalent of a grade inferior to the load order grade.

* * * * * * *

(4) The term "material portion" shall mean a portion which is considered significant under a sampling plan prescribed in the instructions on the basis of approved statistical principles after consultation with the users of the service: *Provided*, That if the applicant has been informed by official inspection personnel or otherwise knows the quality of the grain prior to loading the grain on a ship, any portion of "off-grade" grain which is of an inferior grade in comparison with the load order grade shall be deemed to be a material portion.

(c) * * *

(7) The grain in the combined lots is found to be uniform in quality.

* * * * * * *

(d) * * *

(3) The grain in the combined lots was found to be uniform in quality.

* * * * * * *

(e) * * *

(1) *Grain not uniform in quality.* If the grain in the combined lot is found to be not uniform in quality, the grain in each portion shall be sampled, inspected, graded, and certificated as a separate lot.

(2) *Grain uniform in quality.* If the grain in the combined lot is found to be uniform in quality, an official certificate shall be issued.

* * * * * * *

Opportunity is hereby afforded all interested parties to submit written data, views, or arguments with respect to the proposed amendments of the regulations published December 4, 1974, as herein amended, to the Hearing Clerk, U.S. Department of Agriculture, Washington, D.C. 20250. The time period for receiving written submissions on the proposal published on December 4, 1974, and as herein amended, is hereby extended to February 3, 1975. All written submissions on this said proposal, as herein amended, should be in duplicate and should be filed with the Hearing Clerk not later than February 3, 1975. All submissions made pursuant to this notice will be made available for public inspection at the Office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Consideration will be given to the written data, views, or arguments received by the Hearing Clerk and to other information available to the U.S. Department of Agriculture before final determination is made with respect to this proposal.

Done in Washington, D.C. on: December 20, 1974.

JOHN C. BLUM,
Acting Administrator.

FRESH PEARS, PLUMS, AND PEACHES GROWN IN CALIFORNIA

Notice of Proposed Rule Making With Respect to an Increase in Expenses for the 1974-75 Fiscal Period

This notice invites written comments relative to a proposed increase of $15,431 in the Control Committee expenses during the 1974-75 fiscal period (March 1, 1974, through February 28, 1975) under Marketing Order No. 917. Said increase would change the seasonal committee budget from $809,827 to $825,258 with no change in the related rate of assessment on handlers of the regulated fruits.

Consideration is being given to the following proposal submitted by the Com-

trol Committee, established under the marketing agreement, as amended, and Order No. 917, as amended (7 CFR Part 917), regulating the handling of fresh pears, plums, and peaches grown in California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), as the agency to administer the terms and provisions thereof:

That the Secretary find that provisions pertaining to the committee expenses in paragraph (a) of § 917.212 *Expenses and rate of assessment* (39 FR 28277 and 30477) be revised to read as follows:

§ 917.212 Expenses and rate of assessment.

(a) *Expenses.* Expenses that are reasonable and likely to be incurred during the fiscal period March 1, 1974, through February 28, 1975, will amount to $825,258.

* * * * * * *

All persons who desire to submit written data, views, or arguments in connection with the aforesaid proposal should file the same, in quadruplicate, with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, not later than January 17, 1975. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Dated: December 20, 1974.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Docket No. AO 166-A46]

MILK IN THE OHIO VALLEY MARKETING AREA

Notice of Extension of Time for Filing Briefs

Notice is hereby given that the time for filing briefs, proposed findings and conclusions on the record of the public hearing held November 7–8, 1974, at Columbus, Ohio, with respect to proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Ohio Valley marketing area pursuant to notice issued October 16, 1974 (39 FR 37502) is hereby extended to January 2, 1975.

This notice is issued pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

Signed at Washington, D.C., on: December 20, 1974.

JOHN C. BLUM,
Associate Administrator.

[9 CFR Part 113]

VIRUSES, SERUMS, TOXINS, AND ANALOGOUS PRODUCTS

Notice of Extension of Time to Submit Written Data, Views, or Arguments

Notice is hereby given in accordance with the provisions contained in section 553 of title 5, United States Code, that the time for filing data, views, and arguments with respect to the proposed amendments to the regulations relating to viruses, serums, toxins, and analogous products in 9 CFR Part 113, as published in the FEDERAL REGISTER on October 22, 1974 (39 FR 37503) is extended to April 1, 1975 (37 Stat. 832–833; 21 U.S.C. 151–158).

Because of the newness of the requirements contained in the proposal, unexpected variations in the test results have occurred and additional time has been requested by industry to conduct more of the tests before making their comments.

Interested parties are invited to submit written data, views, or arguments regarding the proposed regulations to Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service, U.S. Department of Agriculture, Room 828–A, Federal Building, Hyattsville, Maryland 20782. All comments received on or before April 1, 1975, shall be considered.

All written submissions made pursuant to this notice will be made available for public inspection at such times and places and in a manner convenient to the public business. (7 CFR 1.27(b))

Done at Washington, D.C., this 20th day of December 1974.

J. M. HEJL,
Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

Office of the Secretary

[7 CFR Part 20]

[Amdt. 2]

EXPORT SALES REPORTING REGULATIONS

Notice of Proposed Rulemaking

The Export Sales Reporting Regulations issued pursuant to section 812 of the Agricultural Act of 1970, as added by the Agriculture and Consumer Protection Act of 1973 (38 FR 28055, 39 FR 18630), require exporters to report information with respect to contracts for export sales of certain agricultural commodities.

Notice is hereby given that the Administrator, Foreign Agricultural Service, proposes to amend §§ 20.4(h) and 20.4(m) of these regulations to require that only transactions which include a firm price are to be reported. Transactions, which contain an agreed upon mechanism by which a firm price can be established would not be reportable until a fixed price has been determined. The Administrator further proposes to amend § 20.6(e) to provide for reporting only an ultimate country of destination and then only if such destination is definitely known to the reporting exporter. Intermediate destinations would no longer be reportable. Under this proposal the first report submitted after the effective date of this amendment would reflect adjustments in outstanding export sales in accordance with the proposed changes in these regulations. It is felt these proposals would improve the quality of data available to FAS.

Inquiries may be addressed, and data, views and arguments concerning the proposed amendment may be submitted to the Director, Export Sales Division, Rm. 4506, South Agriculture Building, 14th and Independence Avenue, SW, Washington, D.C. 20250. All material received on or before January 27, 1975, will be available for public inspection during normal business hours at the foregoing address.

It is therefore proposed to amend §§ 20.4(h), 20.4(m) and 20.6(e) in the manner set forth below.

Dated: December 23, 1974.

RICHARD J. BRODNER,
Acting Administrator Foreign Agricultural Service.

Sections 20.4 (h) and (m) and 20.6(e) are revised to read as follows:

§ 20.4 Definitions.

* * * * * * *

(h) *Export sale.* A transaction entered into between a reporting exporter and a foreign buyer. The transaction must represent a written agreement under which (1) the exporter agrees to export the commodity, (2) the foreign buyer agrees to receive the commodity, (3) there is a fixed price, and (4) payment will be made to or for the account of the reporting exporter by or on the behalf of the foreign buyer for delivery of the commodity. The quantity of "outstanding export sale" means the quantity not yet exported under an export sale. A transaction containing an agreed upon mechanism by which a price can be established shall not be reported until a fixed price is determined. A transaction which becomes operative only upon the imposition of export controls is excluded from this definition of "export sale" and such transactions shall not be reported under these regulations.

(m) *Purchases from foreign sellers.*

* * * * * * *

The purchase of a commodity from a seller whose place of business with respect to the transaction is outside the United States when the terms of the contract provide that the commodity to be delivered under the contract will be exported from the United States or where the seller has the option of exporting the commodity from the United States or from one or more other exporting countries. Such contracts which contain an agreed upon mechanism by which a price can be established shall not

be reported until a fixed price is determined.

§ 20.6 Submission of reports.

• • • • •

(e) *Reporting of destinations.* If the country of destination is not definitely known to the reporting exporter at the time of filing a report, he shall report the destination as unknown.

• • • • •

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

[29 CFR Part 1910]

STANDARD FOR OCCUPATIONAL EXPOSURE TO AMMONIA

Advance Notice of Proposed Rulemaking

The National Institute for Occupational Safety and Health (NIOSH), U.S. Department of Health, Education, and Welfare has submitted to the Secretary of Labor, pursuant to the Williams-Steiger Occupational Safety and Health Act of 1970, criteria for a recommended standard on the occupational exposure to ammonia. The office of Standards Development, Occupational Safety and Health Administration, U.S. Department of Labor is studying the criteria and would appreciate public participation on the issues of whether a new standard for ammonia should be issued on the basis of the criteria or any other information, and, if so, what should be the contents of a proposed standard for ammonia. The issues are set forth with greater particularity below.

Accordingly, interested persons are invited to submit written data, views, and arguments concerning a standard on occupational exposure to ammonia. Comments are specifically requested concerning:

(1) Whether a new standard on occupational exposure to ammonia should be issued;

(2) Each section of the standard recommended by NIOSH;

(3) Suitable alternatives to the recommendations of NIOSH;

(4) Work injury and illness experience with ammonia;

(5) Supported cost data of the estimated costs of coming into compliance with the standard recommended by NIOSH;

(6) Supported data on any possible environmental impact of the recommended standard, and specifically (a) any adverse environmental effects which cannot be avoided should the standard be adopted, (b) alternatives to such standard, (c) the relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity, and (d) any irreversible commitments of resources which would be involved if the standard should be implemented; and

(7) Any other related issues.

Communications should be submitted to the Docket Officer, Occupational Safety and Health Administration, U.S. Department of Labor, Room 268, 1726 M Street, NW., Washington, D.C. 20210. The communications will be available for public inspection and copying at the above location.

The NIOSH document containing the criteria and the recommended standard on occupational exposure to ammonia will be available for inspection and copying, upon request, at any of the following addresses:

[29 CFR Part 1910]

STANDARD FOR OCCUPATIONAL EXPOSURE TO CHLOROFORM

Advance Notice of Proposed Rulemaking

The National Institute for Occupational Safety and Health (NIOSH), U.S. Department of Health, Education, and Welfare has submitted to the Secretary of Labor, pursuant to the Williams-Steiger Occupational Safety and Health Act of 1970, criteria for a recommended standard on the occupational exposure to Chloroform. The Office of Standards Development, Occupational Safety and Health Administration, U.S. Department of Labor is studying the criteria and would appreciate public participation on the issues of whether a new standard for Chloroform should be issued on the basis of the criteria or any other information, and, if so, what should be the contents of a proposed standard for Chloroform. The issues are set forth with greater particularity below.

Accordingly, interested persons are invited to submit written data, views, and arguments concerning a standard on occupational exposure to Chloroform. Comments are specifically requested concerning:

1. Whether a new standard on occupational exposure to Chloroform should be issued;

2. Each section of the standard recommended by NIOSH;

3. Suitable alternatives to the recommendations of NIOSH;

4. Work injury and illness experience with Chloroform;

5. Supported cost data of the estimated costs of coming into compliance with the standard recommended by NIOSH;

6. Supported data on any possible environmental impact of the recommended standard, and specifically (a) any adverse environmental effects which cannot be avoided should the standard be adopted, (b) alternatives to such standard, (c) the relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity, and (d) any irreversible commitments of resources which would be involved if the standard should be implemented; and

7. Any other related issues.

Communications should be submitted to the Docket Officer, Occupational Safety and Health Administration, U.S. Department of Labor, Room 260, 1726 M Street, NW., Washington, D.C. 20210. The communications will be available for public inspection and copying at the above location.

The NIOSH document containing the criteria and the recommended standard on occupational exposure to Chloroform will be available for inspection and copying, upon request, at any of the following addresses:

STANDARD FOR OCCUPATIONAL EXPOSURE TO COTTON DUST

Advance Notice of Proposed Rulemaking

The National Institute for Occupational Safety and Health (NIOSH), U.S. Department of Health, Education, and Welfare has submitted to the Secretary of Labor, pursuant to the Williams-Steiger Occupational Safety and Health Act of 1970, criteria for a recommended standard on the occupational exposure to Cotton Dust. The Office of Standards Development, Occupational Safety and Health Administration, U.S. Department of Labor is studying the criteria and would appreciate public participation on the issues of whether a new standard for Cotton Dust should be issued on the basis of the criteria or any other information, and, if so, what should be the contents of a proposed standard for Cotton Dust. The issues are set forth with greater particularity below.

Accordingly, interested persons are invited to submit written data, views, and arguments concerning a standard on occupational exposure to Cotton Dust. Comments are specifically requested concerning:

(1) Whether a new standard on occupational exposure to Cotton Dust should be issued;

(2) Each section of the standard recommended by NIOSH;

(3) Suitable alternatives to the recommendations of NIOSH;

(4) Work injury and illness experience with Cotton Dust;

(5) Supported cost data of the estimated costs of coming into compliance with the standard recommended by NIOSH;

(6) Supported data on any possible environmental impact of the recommended standard, and specifically (a) any adverse environmental effects which cannot be avoided should the standard be adopted, (b) alternatives to such standard, (c) the relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity, and (d) any irreversible commitments of resources which would be involved if the standard should be implemented; and

(7) Any other related issues.

Communications should be submitted to the Docket Officer, Occupational Safety and Health Administration, U.S. Department of Labor, Room 260, 1726 M Street, NW, Washington, D.C. 20210. The communications will be available for public inspection and copying at the above location.

The NIOSH document containing the criteria and the recommended standard on occupational exposure to Cotton Dust will be available for inspection and copying, upon request, at any of the following addresses:

[29 CFR Part 1910]

STANDARD FOR OCCUPATIONAL EXPOSURE TO CRYSTALLINE SILICA

Advance Notice of Proposed Rulemaking

The National Institute for Occupational Safety and Health (NIOSH), U.S. Department of Health, Education, and Welfare has submitted to the Secretary of Labor, pursuant to the Williams-Steiger Occupational Safety and Health Act of 1970, criteria for a recommended standard on the occupational exposure to crystalline silica. The Office of Standards Development, Occupational Safety and Health Administration, U.S. Department of Labor is studying the criteria and would appreciate public participation on the issues of whether a new standard for crystalline silica should be issued on the basis of the criteria or any other information, and, if so, what should be the contents of a proposed standard for crystalline silica. The issues

XUM
V 39 NO 250 12-27-74
XUM

are set forth with greater particularity below.

Accordingly, interested persons are invited to submit written data, views, and arguments concerning a standard on occupational exposure to crystalline silica. Comments are specifically requested concerning:

(1) Whether a new standard on occupational exposure to crystalline silica should be issued;

(2) Each section of the standard recommended by NIOSH;

(3) Suitable alternatives to the recommendations of NIOSH;

(4) Work injury and illness experience with crystalline silica;

(5) Supported cost data of the estimated costs of coming into compliance with the standard recommended by NIOSH;

(6) Supported data on any possible environmental impact of the recommended standard, and specifically, (a) any adverse environmental effects which cannot be avoided should the standard be adopted, (b) alternatives to such standard, (c) the relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity, and (d) any irreversible commitments of resources which would be involved if the standard should be implemented; and

(7) Any other related issues.

Communications should be submitted to the Docket Officer, Occupational Safety and Health Administration, U.S. Department of Labor, Room 260, 1726 M Street NW., Washington, D.C. 20210. The communications will be available for public inspection and copying at the above location.

The NIOSH document containing the criteria and the recommended standard on occupational exposure to crystalline silica will be available for inspection and copying, upon request, at any of the following addresses:

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

[45 CFR Part 151]

RIGHT TO READ STATE GRANTS

Notice of Proposed Rule Making

In accordance with section 503 of the Education Amendments of 1972 (Pub. L. 92–318) and pursuant to the authority contained in section 2(a) of the Cooperative Research Act, Pub. L. 83–531, as amended (20 U.S.C. 331a), the Commissioner of Education, with the approval of the Secretary of Health, Education, and Welfare, proposes to amend Part 151 of Title 45 of the Code of Federal Regulations by adding a new Subpart D, to read as set forth below.

1. *Right to Read Program.* Section 2 (a) (1) of the Cooperative Research Act authorizes the Commissioner of Education to award grants for surveys, dissemination of information, and exemplary projects in the field of education. Funds which are appropriated pursuant to this authority to carry out the Right to Read Program are utilized to make grants to, and contracts with, eligible applicants for the purpose of increasing functional literacy within the United States.

Apart from a limited number of specifically focused procurements, the Right to Read effort is carried out through grant awards pursuant to the provisions of this part. Grants are made within the following competitions or sub-programs: (1) Preservice Teacher Training; (2) Right to Read States Program; (3) School-based program; (4) Community-based program; and (5) Special projects for national impact.

The following regulations set forth rules governing the award and administration of grants for the planning and carrying out of statewide reading activities designed to prevent and eliminate illiteracy. The purpose of these grants is to provide financial assistance to State educational agencies (or other eligible applicants) so that they may train and provide technical assistance and information to school administrators responsible for the development and carrying out of reading programs in local educational agencies and other elementary and secondary schools.

2. *Section 503 procedures and effect.* Section 503 of the Education Amendments of 1972 requires the Commissioner to study all rules, regulations, guidelines, or other published interpretations or orders issued by him or by the Secretary after June 30, 1965, in connection with, or affecting, the administration of Office of Education programs; to report to the Committee on Labor and Public Welfare of the Senate and the Committee on Education and Labor of the House of Representatives concerning such study; and to publish in the FEDERAL REGISTER such rules, regulations, guidelines, interpretations, and orders, with an opportunity for public hearing on the matters so published. The regulations proposed below reflect the results of this study as it pertains to the Right to Read States Program. Once these regulations are published in final form, and become effective after comments and hearing, all preceding rules, regulations, guidelines, and other published interpretations and orders issued in connection with or affecting the program (except the Office of Education's general provisions regulations) will be superseded. At present there will me no guidelines for the program. If guidelines should be issued in the future, they will be limited to recommendations and suggestions for program operation and management.

3. *Citations of legal authority.* As required by section 431(a) of the General Education Provisions Act and section 503 of the Education Amendments of 1972, a citation of statutory or other legal authority for each section of the regulations has been placed in parentheses on the line following the text of the section.

On occasion, a citation appears at the end of a subdivision of the section. In that case, the citation applies to all that appears in that section between the citation and the next preceding citation. When the citation appears only at the end of the section it applies to the entire section.

4. *General provisions regulations.* The proposed regulations do not contain provisions relating to general fiscal and administrative matters. Requirements of this nature are covered by the Office of Education general provisions regulations (38 FR 30654, November 6, 1973). (Reference is made in particular to 45 CFR Part 100a, which contains general provisions for discretionary programs, including the Right to Read States Program.)

5. *Opportunity for public hearing.* Pursuant to section 503(c) of the Education Amendments of 1972, the Commissioner will provide interested parties an opportunity for a public hearing on these regulations as follows:

A hearing will take place at the U.S. Office of Education on January 27, 1975, in the auditorium of Regional Office Building Three (ROB–3), 7th and D Streets, SW., Washington, D.C. beginning at 10 a.m.

The purpose of the hearing is to receive comments and suggestions on the published materials.

Parties interested in attending the hearing should notify the Chairman, Office of Education Task Force on Section 503, 400 Maryland Avenue, SW., Room 2085, Federal Office Building Six (FOB–6), Washington, D.C. 20202, and are urged to submit a written copy of their comments with such notification. Each party planning to make oral comments at the hearing is urged to limit his presentation to a maximum of fifteen minutes.

Interested parties may also submit written comments and recommendations to the Chairman of the Education Task Force on Section 503 at the above address. All relevant material received prior to the date of the hearings will be considered. Comments and suggestions submitted in writing will be available for review in the above office between the hours of 8:30 a.m. and 4 p.m., Monday through Friday of each week.

(Catalog of Federal Domestic Assistance Program Number 13.533; Right to Read—Elimination of Illiteracy)

Dated: November 13, 1974.

T. H. BELL,
U.S. Commissioner of Education.

Approved: December 12, 1974.

CASPAR W. WEINBERGER,
Secretary of Health, Education, and Welfare.

As proposed, 45 CFR Part 151, Subpart D would read as follows:

Subpart D—Right to Read State Grants

§ 151.40 Scope and purpose.

(a) This subpart governs applications from State educational agencies (and other eligible applicants) for the purpose of carrying out statewide reading activities designed to assist school administrators responsible for the development and carrying out of reading programs in local educational agencies.

(b) (1) Although it is expected that grants pursuant to this subpart will ordinarily be awarded to State educational agencies because they are uniquely situated to carry out the activities described in this subpart, other eligible applicants under section 2 of the Act may also apply, and their applications will be reviewed on the basis of the funding requirements and criteria in this subpart.

(2) As used in this subpart, the term "State educational agency" shall include all eligible institutions, agencies, and organizations under the Act, and requirements or criteria referring to the "State educational agency" shall be applied with relationship to the applicant or grantee, as appropriate.

(20 U.S.C. 331a(a))

§ 151.41 Funding requirements.

(a) Projects assisted under this subpart must be designed to prevent and eliminate illiteracy through the following activities, and each application for assistance under this subpart must set forth a comprehensive plan which provides for the carrying out and integration of these activities:

(1) Statewide surveys and needs assessments to determine the state of the art in reading and reading instruction and to validate promising reading practices within the State. Activities conducted pursuant to this subparagraph must include an examination of the appropriateness of requirements and opportunities for preparation and certification of teachers, administrators, and other educational personnel in relationship to reading problems.

(2) (i) An exemplary training program for administrators responsible for reading programs in selected local educational agencies within the State, including training in (A) the teaching of basic reading skills, (B) organizational and administration skills, (C) interpersonal relations skills directed toward community involvement and the change process, (D) planning strategies, (E) the preparation of administrative support materials for reading programs, (F) the development and carrying out of tutoring projects in reading and the preparation of tutors for such projects, and (G) approaches to the provision of effective reading instruction for various target populations.

(ii) Administrators of reading programs in nonprofit private elementary and secondary schools may also receive training provided by the State educational agency pursuant to this subparagraph.

(3) The provision of technical assistance of an exemplary nature and the dissemination of information in support of the development, organization, and administration of reading programs in local educational agencies and other elementary and secondary schools. Activities conducted pursuant to this subparagraph must include: (i) the distribution of Right to Read materials and other information made available by the Commissioner; (ii) the provision of technical assistance, upon request and to the extent feasible, related to the use and application of such Right to Read materials and other information; (iii) the provision of follow-up technical assistance, upon request, to training program participants related to the specific areas in which training was offered, as described in subparagraph (2) of this paragraph; and (iv) the provision of information on effective and validated reading programs and specific approaches to the teaching and learning of reading skills.

(b) Assistance under this subpart shall be subject to the following requirements, and each application for assistance under this subpart must provide information adequate to establish that these requirements will be met:

(1) Activities described in paragraph (a) of this section must (i) relate to the reading problems of both children and adults and (ii) address administrative, systemic problems, as well as learning problems at the classroom or individual learner level, related to the development and carrying out of effective reading programs.

(2) With respect to each of the activities described in paragraph (a) of this section, and application submitted under this subpart must set forth: (i) Specific and measurable objectives which will contribute to the elimination of illiteracy within the State; (ii) a proposed timeframe for accomplishing such objectives; (iii) an explanation of proposed procedures and strategies for accomplishing such objectives; and (iv) an evaluation component providing for the collection, verification, and analysis of data to measure the extent to which such objectives are accomplished by the project.

(3) (i) The grantee shall establish a State agency task force consisting of representatives of all programs within the State educational agency involving or related to reading activities.

(ii) The task force shall serve as a means of securing collaboration, with respect to the planning and implementation of the project assisted pursuant to this subpart, among representatives of different programs within the State agency involving or related to reading activities and also as a means for insuring that the project is effectively coordinated with other reading activities of the State educational agency.

(4) (i) The grantee shall appoint an advisory council consisting of representatives of the following institutions, groups, or interests within the State: (A) Reading programs of local educational agencies; (B) professional educational organizations; (C) the State legislature; (D) the Governor's Office; (E) business and industry; and (F) other public and private educational service and cultural associations.

(ii) The advisory council must be equitably representative of women and of racial and ethnic minority groups within the State.

(iii) The advisory council shall serve as an advisory body in planning, implementing, and evaluating the project and in providing for its coordination with other reading activities of local educational agencies and other schools within the State.

(5) (i) The grantee shall, with the advice of the advisory council established pursuant to paragraph (b) (4) of this section, develop standards of excellence defining the elements which ought to be involved in successful reading programs in the State.

(ii) Once they are developed, the standards of excellence shall be utilized in training activities conducted pursuant to paragraph (a) (2) of this section and as a measurement instrument in carrying out any continuing survey activities pursuant to paragraph (a) (1) of this section.

(20 U.S.C. 331a(a))

§ 151.42 Evaluation criteria.

(a) *Continuation awards.* The Commissioner will evaluate Right to Read State projects according to: (1) Criteria set forth in § 100a.26(b) of this chapter (general provisions regulations applicable to discretionary project awards funded by the Commissioner); (2) the effectiveness of the existing project in carrying out the comprehensive plan described in § 151.41(a); and (3) the extent to which continuation of the project is indicated in order to avoid losing the potential benefits of prior Federal investments in the projects.

(b) *New project awards.* The Commissioner will evaluate applications for new projects under this subpart in accordance with criteria set forth in § 100a.26(b) of this Chapter and the following criteria.

(1) The extent to which the State educational agency demonstrates a commitment to the elimination of illiteracy as evidenced by factors such as the following:

(i) The existing or planned organizational status within the State educational agency of personnel with administrative responsibilities related to reading programs.

(ii) The extent to which the applicant has initiated exemplary reading activities, including comprehensive planning, organizational development, exemplary reading projects, statewide needs assessment, and evaluation.

(iii) The extent to which visibility is given to the priority of reading through public announcements, State Board resolutions, and other efforts initiated by the State educational agency.

(2) The capability of the applicant to carry out effectively activities provided for in this subpart, as evidenced by factors such as the following:

(i) The extent to which the applicant has developed effective communications and delivery systems with local educational agencies and other schools and educational resources within the State for assisting in the provision of reading programs.

(ii) The extent to which the applicant has already engaged in comprehensive planning related to reading needs within the State.

(3) The overall quality of the proposed project in providing for and integrating all of the activities described in § 151.41(a) of this part to achieve maximum impact on the elimination of illiteracy within the State.

(4) The extent to which training and technical assistance activities involve, are related to, or hold promise of generating, innovative approaches, techniques, or other activities worthy of

replication in other States or by other public or private agencies and institutions within the State.

(5) The extent to which the application reflects knowledge of recent research and development in the area of reading.

(6) The extent to which the statewide program is based on a systematic assessment of the State's needs related to reading.

(20 U.S.C. 331a(a))

§ 151.44 Allowable costs.

Allowable costs under grants awarded pursuant to this subpart shall be determined in accordance with applicable cost principles set forth in the Appendixes to Subchapter A of this chapter, subject to the restriction that not in excess of five percent of the funds supplied under the grant may be used for evaluation purposes.

(20 U.S.C. 331a(a))

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 74-CE-28]

ALTERATION OF CONTROL ZONE

Notice of Proposed Rule Making

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the control zone at Dubuque, Iowa.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106. All communications received on or before January 27, 1975, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106.

A new VOR approach procedure is being established for Runway 36 at the Dubuque, Iowa, Municipal Airport. Accordingly, it is necessary to alter the control zone to encompass the approach procedure so as to provide protection for aircraft executing the new approach procedure.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.171 (39 FR 354), the following control zone is amended to read:

DUBUQUE, IOWA

Within a 5-mile radius of Dubuque Municipal Airport (latitude 42°24'10" N., longitude 90°43'25" W.); within 3 miles each side of the Dubuque VORTAC 321° radial, extending from the 5-mile radius zone to 8 miles northwest of the VORTAC; and within 3 miles each side of the Dubuque VORTAC 126° radial, extending from the 5-mile radius zone to 8 miles southeast of the VORTAC; within 3 miles each side of the Dubuque VORTAC 182° radial, extending from the 5-mile radius zone to 8 miles south of the VORTAC. This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Kansas City, Missouri, on December 2, 1974.

A. L. COULTER,
Director, Central Region.

[FR Doc.74-30146 Filed 12-26-74;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 74-CE-29]

DESIGNATION OF TRANSITION AREA

Notice of Proposed Rule Making

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to designate a transition area at Hampton, Iowa.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106. All communications received on or before January 27, 1975, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Council, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106.

The City of Hampton, Iowa, has installed a non-directional radio beacon on the Hampton Municipal Airport and is going to establish a public use instrument approach procedure based thereon. Consequently, it is necessary to provide controlled airspace protection for aircraft executing this new procedure by designating a 700-foot transition area at Hampton, Iowa.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In Section 71.181 (39 FR 440), the following transition area is added:

HAMPTON, IOWA

That airspace extending upward from 700 feet above the surface within a five (5) mile radius of the Hampton Municipal Airport (latitude 42°43'35" N., longitude 93°13'38"); excluding that airspace which overlies the Mason City, Iowa transition area.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655 (c)).

Issued in Kansas City, Missouri, on December 2, 1974.

A. L. COULTER,
Director, Central Region.

[FR Doc.74-30147 Filed 12-26-74;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 74-CE-33]

DESIGNATION AND ALTERATION OF TRANSITION AREAS

Notice of Proposed Rule Making

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to designate a transition area at Charleston, Missouri, and alter the transition area at Cape Girardeau, Missouri.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106. All communications received on or before January 27, 1975, will be considered before action is taken on the proposed amendments. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposals contained

in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106.

A new public use instrument approach procedure is being established for the Charleston, Missouri, Municipal Airport. Accordingly, it is necessary to designate a transition area at Charleston, Missouri, to provide protection for aircraft executing the new instrument approach procedure.

The west VOR approach procedure at the Cape Girardeau, Missouri, Municipal Airport has been cancelled and a new VOR approach has been designated from the south. Accordingly, it is necessary to amend the 700-foot transition area by deleting that portion designed for the approach from the west and by adding a new description to provide protection for aircraft executing the new approach procedure from the south.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (39 FR 440), the following transition area is added:

CHARLESTON, MISSOURI

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of the Mississippi County Airport (latitude 36°50'22" N., longitude 89°21'42" W.); and within 3 miles each side of the 186° bearing from Charleston RBN (latitude 36°50'42" N., 89°21'24" W.), extending from the 6.5-mile radius area to 8.5 miles south of the RBN, excluding that portion overlying the Sikeston transition area.

In § 71.181 (39 FR 440), the following transition area is amended to read:

CAPE GIRARDEAU, MISSOURI

That airspace extending upward from 700 feet above the surface within a 10-mile radius of Cape Girardeau Municipal Airport (latitude 37°13'31" N., longitude 89°34'15" W.); within 4.5 miles east and 9.5 miles west of the Cape Girardeau VOR 194° radial, extending from the 10-mile radius area to 18.5 miles south of the VOR, excluding the portion which overlies the Sikeston transition area.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Kansas City, Missouri, on December 2, 1974.

A. L. COULTER,
Director, Central Region.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 120]

[FRL 305-8]

WEST VIRGINIA

Water Quality Standards; Withdrawal of Notice of Proposed Rulemaking

The purpose of this notice is to withdraw notice of proposed rulemaking published in the FEDERAL REGISTER on September 19, 1973 (38 FR 26209), in which the Environmental Protection Agency proposed to amend 40 CFR Part 120 to set out water quality standards for the State of West Virginia.

The September 19, 1973 notice of proposed rulemaking was issued pursuant to section 303 of the Federal Water Pollution Control Act, as amended (Pub. L. 92-500, 86 Stat. 816, 33 U.S.C. 1251 et seq., the "Act"), which provides for Federal promulgation of water quality standards where a State fails to adopt water quality standards meeting the requirements of the Act. The EPA is required to promulgate standards within 190 days of the proposal, unless by such time the State shall have adopted water quality standards which are found to be in accordance with the requirements of the Act.

One part of the standards which was considered unacceptable concerned the minimum flow rates established in the Monongahela River and zones 1 and 2 of the Kanawha River. Most States specify that water quality standards apply at all times except during periods of low or drought flow. Therefore, waste-load allocations and levels of treatment are designed so a discharge will be in compliance with water quality standards at these minimum flow levels. The minimum flow rates are determined by examining historical hydrographic records on the fluctuations in flow. EPA currently recommends that the 7 day, 10 year flow be used for design purposes. The minimum flow rates used for the rivers mentioned above were questioned by the EPA. The flows are regulated by various water control projects and natural levels can be manipulated.

It is now believed that there is insufficient technical justification to warrant final promulgation of the flow rates called for by EPA in its proposed regulation. EPA is therefore withdrawing from consideration the portion of the proposed notice concerned with promulgating minimum flow rates for the above mentioned rivers.

The State of West Virginia, EPA and the U.S. Army Corps of Engineers have undertaken a joint study to determine the minimum flow rates for the Monongahela River and zones 1 and 2 of the Kanawha River. The study is proposed for completion in December, 1974. Upon completion of the study the results will be submitted to the EPA. If the flow rates are determined to be other than what is currently in the State's standards, the State will then provide a schedule by which the correct flow rates will be adopted.

The State has adopted all other requested changes. In response, EPA fully approved the January 14, 1974 West Virginia Water Standards submittal on July 11, 1974.

The standards of West Virginia consist of Administrative Regulations, State Water Resource Board, Chapter 20, Articles 5 and 5A, Code of West Virginia, Series I (1965) and Series II (1967), as adopted by the West Virginia Water Resources Board, on January 14, 1974, filed in the Office of the Secretary of State on March 15, 1974, and which became effective April 15, 1974. The regulations amend the use classifications and certain criteria assigned to protect those classifications previously approved by the Environmental Protection Agency on July 30, 1970.

A copy of the standards may be found at EPA Headquarters, Room 807 East Tower, 401 M Street SW., Washington, D.C. 20460, the Region III Office, EPA, 6th and Walnut Streets, Curtis Building, Room 243, Philadelphia, Pennsylvania 19106 and the West Virginia Department of Natural Resources, 1201 Greenbriar Street, Charleston, West Virginia 25311.

In consideration of the foregoing, the notice of proposed rulemaking published in the FEDERAL REGISTER on September 19, 1973 (38 FR 26209), entitled "Water Quality Standards, Navigable Waters for the State of West Virginia", is hereby withdrawn.

This withdrawal is issued under the authority of section 303 of the Federal Water Pollution Control Act, as amended (Pub. L. 92-500, 86 Stat. 816, 33 U.S.C. 1251 et seq.).

Dated: December 19, 1974.

JOHN QUARLES,
Acting Administrator.

[FR Doc.74-30136 Filed 12-26-74;8:45 am]

[40 CFR Part 180]

[FRL 312-4]

TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

Carbofuran

FMC Corp., 100 Niagara Street, Middleport, NY 14115, submitted a petition (PP 4E1483) proposing establishment of a tolerance for combined residues of the insecticide carbofuran (2,3-dihydro-2,2-dimethyl-7-benzofuranyl-*N*-methylcarbamate); its carbamate metabolite 2,3-dihydro-2,2-dimethyl-3-hydroxy-7-benzofuranyl-*N*-methylcarbamate; and its phenolic metabolites 2,3-dihydro-2,2-dimethyl-7-benzofuranol, 2,3-dihydro-

2,2-dimethyl-3-oxo-7-benzofuranol, and 2,3 - dihydro - 2,2 - dimethyl-3,7-benzofurandiol in or on the raw agricultural commodity coffee beans at 0.1 part per million.

Based on consideration given data in the petition and other relevant material, it is concluded that:

1. There is no reasonable expectation of residues in eggs, meat, milk, or poultry, and § 180.6(a)(3) applies.

2. The proposed tolerance will protect the public health.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 408(e), 68 Stat. 514; 21 U.S.C. 346a(e)), it is proposed that § 180.254 be amended by revising the paragraph "0.1 part per million in or on bananas * * *" to read as follows:

§ 180.254 Carbofuran; tolerances for residues.

* * * * *

0.1 part per million in or on bananas (negligible residue), coffee beans, sorghum grain, sugar beets, and sugarcane.

* * * * *

Any person who has registered or submitted an application for the registration of a pesticide under the Federal Insecticide, Fungicide, and Rodenticide Act containing any of the ingredients listed herein may request, on or before January 27, 1975, that this proposal be referred to an advisory committee in accordance with section 408(e) of the Federal Food, Drug, and Cosmetic Act.

Interested persons are invited to submit written comments with reference to this notice to the Federal Register Section, Technical Services Division (WH-569), Office of Pesticide Programs, Environmental Protection Agency, Room 421 East Tower, 401 M Street, SW., Washington, D.C. 20460. Three copies of the comments should be submitted to facilitate the work of the Environmental Protection Agency and others interested in inspecting the documents. The comments must be received on or before January 27, 1975, and should bear a notation indicating the subject. All written comments filed pursuant to this notice will be available for public inspection in the Office of the Federal Register Section from 8:30 a.m. to 4 p.m. Monday through Friday.

Dated: December 19, 1974.

JOHN B. RITCH, Jr.,
Director,
Registration Division.

[FR Doc.74-30068 Filed 12-26-74;8:45 am]

FEDERAL DEPOSIT INSURANCE CORPORATION

[12 CFR Part 329]

INTEREST ON DEPOSITS

Notice of Pending Reconsideration

On November 26, 1974 the Board of Directors of the Federal Deposit Insurance Corporation (hereinafter the "Board of Directors") adopted a series of amendments to Part 329 of the Corporation's rules and regulations (12 CFR Part 329). The amendments appear at 39 FR 42339-42340.

Among other things, the amendments allow insured nonmember banks to hold savings deposits of public units. Since savings deposits include so-called "NOW accounts" in Massachusetts and New Hampshire, one effect of the amendments is to permit insured nonmember banks (both commercial banks and mutual savings banks) in those two States to maintain "NOW accounts" of public units. "NOW accounts" are savings deposits that are subject to withdrawal by negotiable or transferable instruments for the purpose of making transfers to third parties. 12 CFR 329.6(c) and 329.7(b)(1)(ii), as amended. The interest rate ceilings on these "NOW accounts" are presently set at 5 percent per annum for both commercial banks and mutual savings banks.

Following publication of the amendments, the Board of Directors received a sizeable number of comments, both written and oral, regarding their effect in allowing public units in Massachusetts and New Hampshire to maintain "NOW" accounts" with banks in those States.

In view of the controversy engendered by its previous action, the Board of Directors has decided to solicit public comments on the question of whether or not public units in Massachusetts and New Hampshire should be allowed to maintain "NOW accounts" with insured nonmember banks in those States.

The comment period has been set to expire on January 20, 1974. Consequently, all comments should be submitted to the Corporation on or before that date.

Since the possibility exists that the Board of Directors will decide, upon reconsideration, to bar insured nonmember banks in Massachusetts and New Hampshire (and non-Federally insured banks in Massachusetts which are subject to the Corporation's interest rate regulations) from maintaining "NOW accounts" for public units, those banks are advised not to accept such accounts from public units until the period for public comment has expired and the Board of Directors has formally acted upon reconsideration of the issues involved.

This notice is published pursuant to section 553(b) of Title 5, United States Code, and §§ 302.1-302.5 of the rules and regulations of the Federal Deposit Insurance Corporation.

Interested persons are invited to submit written data, views or arguments regarding the subject of this notice to the Office of the Executive Secretary, Federal Deposit Insurance Corporation, Washington, D.C. 20429, no later than January 20, 1975.

By order of the Board of Directors, December 23, 1974.

FEDERAL DEPOSIT INSURANCE CORPORATION,
[SEAL] ALAN R. MILLER,
Executive Secretary.

FEDERAL HOME LOAN BANK BOARD

[12 CFR Part 545]

[No. 74-1017]

FEDERAL SAVINGS AND LOAN SYSTEM

Proposed Amendment Relating to Evidence of Ownership

DECEMBER 19, 1974.

The following summary of the amendment proposed by this resolution is provided for the reader's convenience and is subject to the full explanation in the following preamble and to the specific provisions of the proposed regulation.

I. *Existing regulation.* Contains no provision respecting the issuance of plastic cards as evidence of account ownership.

II. *Proposed regulation.* Imposes a requirement that any plastic card issued as evidence of savings account ownership bear on the card the legend "nontransferable" or "not transferable"; exception for Federal associations in New Hampshire and Massachusetts.

III. *Reason for proposal.* Would put in regulatory form a requirement consistently imposed by the Board in approving remote service unit (RSU) applications under Federal Regulation § 545.4-2 and would facilitate the future offering of third party transfer services by Federal associations through RSU's.

The Federal Home Loan Bank Board considers it desirable to propose an amendment to Part 545 of the Rules and Regulations for the Federal Savings and Loan System (12 CFR Part 545), for the purposes described below. Accordingly, the Board hereby proposes to amend said Part 545 by adding a new paragraph (e) to § 545.2 thereof to read as set forth below.

The proposed amendment would have the effect of placing all Federal associations (except those having their home office in New Hampshire or Massachusetts) issuing or reissuing any machine-readable instrument as evidence of ownership of a savings account after June 30, 1975, in a position to use that instrument in connection with an approved remote service unit application under § 545.4-2 of the Federal Regulations. The amendment would require Federal associations to place on the instrument the legend "nontransferable" or "not transferable". This requirement has been consistently imposed by the Board on applications approved under said § 545.4-2.

Interested persons are invited to submit written data, views and arguments to the Office of the Secretary, Federal Home Loan Bank Board, 320 First Street, NW., Washington, D.C. 20552 by January 31, 1975, as to whether this proposal should be adopted, rejected, or modified. Written material submitted will be available for public inspection at the above address unless confidential treatment is requested or the material would not be made available to the public or otherwise disclosed under § 505.6 of the General Regulations of the Federal Home Loan Bank Board (12 CFR 505.6).

Section 545.2 would be amended by adding paragraph (e) as follows:

§ 545.2 Evidence of Ownership.

• • • • •

(e) *Issuance of plastic cards or other machine-readable instruments.* Any machine-readable instrument issued or reissued as evidence of ownership of a savings account after June 30, 1975 by a Federal association, other than such an association having its home office in New Hampshire or Massachusetts, shall bear on the instrument the legend "nontransferable" or "not transferable".

(Sec. 5, 48 Stat. 132, as amended; 12 U.S.C. 1464. Sec. 2, Pub. L. 93-100, 87 Stat. 342. Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1943-48 Comp., p. 1071)

By the Federal Home Loan Bank Board.

[SEAL] GRENVILLE L. MILLARD, JR., *Assistant Secretary.*

FEDERAL RESERVE SYSTEM

[12 CFR Part 226]

[Reg. Z]

TRUTH IN LENDING ACT

Open End Credit Accounts—Specific Disclosures

1. Pursuant to the authority contained in the Truth in Lending Act (15 U.S.C. 1604), the Board of Governors proposes to amend Part 226 (Regulation Z). The proposed amendment would require creditors sending blank checks or other credit devices to credit card holders which are intended to be used in connection with such accounts to include a clear disclosure statement of the charges and other pertinent credit information specifically related to the use of the blank checks or other credit devices delivered. Such a disclosure statement would be required only the first time the blank checks or other credit devices are sent to the customer, but not when later renewed or resupplied.

2. The Board proposes to amend § 226.7 by the addition of a new paragraph (f) to read as follows:

§ 226.7 Open end credit accounts—specific disclosures.

• • • • •

(f) *Delivery of new credit devices for use in open end accounts.* If a creditor of an open end credit account mails or delivers, other than as a renewal or resupply, a blank check, draft, or order or other credit device to a customer or cardholder for use in connection with such account, such blank check, draft, or order or other credit device shall be accompanied by a single written statement setting forth clearly and conspicuously those disclosures in paragraph (a) of this section which specifically relate to the use of the credit devices delivered. Such disclosure statement shall be separate from any other disclosures or promotional material delivered at the same time.

3. The proposed amendment to § 226.7 adds new disclosure requirements in the event that creditors deliver to their open end account customers blank checks for use in activating the cash advance feature of such accounts. Such disclosures must be sent at the time such blank checks are first issued to the customer and must clearly state the charges and terms involved in their use. Similar disclosures would also be required to accompany the first delivery of any other credit device for use in connection with open end credit accounts.

Should the Board adopt the proposed amendment after considering the comments received on it, an effective date would be set far enough in advance to allow for the orderly change of forms where necessary.

This notice is published pursuant to section 553(b) of Title 5 United States Code, and § 262.2(a) of the Rules of Procedure of the Board of Governors of the Federal Reserve System (12 CFR 262.2(a)).

To aid in the consideration of these matters by the Board, interested persons are invited to submit relevant data, views, or arguments. Any such material should be submitted in writing to the Secretary, the Board of Governors of the Federal Reserve System, Washington, D.C. 20551, or to any Federal Reserve Bank for transmittal to the Board, to be received at the Board not later than January 31, 1975. Such materials will be made available for inspection and copying upon request, except as provided in § 261.6(a) of the Board's rules Regarding Availability of Information.

By order of the Board of Governors, December 18, 1974.

[SEAL] THEODORE E. ALLISON, *Secretary of the Board.*

[FR Doc.74-30251 Filed 12-26-74;8:45 a.m.]

[12 CFR Part 226]

TRUTH IN LENDING

[Reg. Z]

Credit Other Than Open End—Specific Disclosures

1. Pursuant to the authority contained in the Truth in Lending Act (15 U.S.C. 1601 et seq.), the Board of Governors proposes to amend Part 226 (Regulation Z). The proposed amendment would require creditors to disclose to customers, in advance of their becoming obligated on a credit contract, a variable interest rate clause if the contract, note, or other instrument so provides. Amend § 226.8(b) by revising subparagraph (8) to read as follows:

§ 226.8 Credit other than open end—specific disclosures.

• • • • •

(b) *Disclosures in sale and nonsale credit.* • • •

(8) If the contract, note, or other instrument so provides, the fact that the annual percentage rate is prospectively subject to change; the conditions under which such rate may be changed; and if applicable, the maximum and minimum limits of such rates stipulated in the note, contract, or other instrument evidencing the obligation.

• • • • •

2. The proposed amendment to § 226.8 (b) stipulates disclosure requirements for other than open end credit when the contract, note, or other instrument provides that the annual percentage rate is prospectively subject to change. That possibility of change, the conditions under which the change may occur, and any maximum or minimum rates must be included with the other Truth in Lending disclosures to be given to the consumer prior to consummation of the original extension of credit.

3. Should the Board adopt the proposed amendment after considering the comments received on it, an effective date would be set far enough in advance to allow for the orderly change of forms where necessary. This notice is published pursuant to section 553(b) of Title 5 United States Code, and § 262.2(a) of the Rules of Procedure of the Board of Governors of the Federal Reserve System (12 CFR 262.2(a)).

To aid in the consideration of these matters by the Board, interested persons are invited to submit relevant data, views, or arguments. Any such material should be submitted in writing to the Secretary, the Board of Governors of the Federal Reserve System, Washington, D.C. 20551, or to any Federal Reserve Bank for transmittal to the Board, to be received at the Board not later than January 31, 1975. Such materials will be made available for inspection and copying upon request, except as provided in § 261.6(a) of the Board's rules Regarding Availability of Information.

By order of the Board of Governors, December 18, 1974.

[SEAL] THEODORE E. ALLISON, *Secretary to the Board.*

ANNUAL REPORT FORMS

Future Financing Requirements; Extension of Time

DECEMBER 19, 1974.

Revisions to FPC Annual Report Forms No. 1 and No. 2 to obtain future financing requirements.

On December 11, 1974 the Interstate Natural Gas Association of America and the American Gas Association on December 16, 1974 filed a motion to extend the time for filing comments to the proposed rulemaking noticed November 6, 1974, (39 FR 40174; Nov. 14, 1974) in the above-designated matter.

Upon consideration, notice is hereby given that the date for filing comments in the above matter is extended to and including February 21, 1975.

KENNETH F. PLUMB, *Secretary.*

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

DEPARTMENT OF STATE

Agency of International Development

ADVISORY COMMITTEE ON VOLUNTARY FOREIGN AID

Determination

The Advisory Committee on Voluntary Foreign Aid serves as liaison between the U.S. Government and the private and voluntary organization community engaged in foreign assistance activities. In addition to its statutory duty to register and approve private and voluntary organizations, the Committee advises A.I.D. and other U.S. Government agencies on policies and procedures concerning the private and voluntary organizations; provides information, counsel and assistance to such organizations; and fosters public interest in the field of voluntary foreign aid. There continues to be a significant need for such liaison and the related functions of the Committee.

Accordingly, I hereby determine, pursuant to the provisions of section 14(a)(1)(A) of the Federal Advisory Committee Act (Pub. L. 92-463) paragraph 7 of the OMB Circular A-63 (Revised) and a comprehensive review of the activities and responsibilities of the Committee which has been completed in accordance with OMB Bulletin No. 75-2, that renewal of the Advisory Committee for a two year period, beginning January 5, 1975, is in the public interest.

DANIEL PARKER,
Administrator.

DEPARTMENT OF THE TREASURY

Bureau of Alcohol, Tobacco and Firearms

FIREARMS

Granting of Relief

Notice is hereby given that pursuant to 18 U.S.C., section 925(c), the following named persons have been granted relief from disabilities imposed by Federal laws with respect to the acquisition, transfer, receipt, shipment, or possession of firearms incurred by reason of their convictions of crimes punishable by imprisonment for a term exceeding one year.

It has been established to my satisfaction that the circumstances regarding the convictions and each applicant's record and reputation are such that the applicants will not be likely to act in a manner dangerous to public safety, and that the granting of the relief will not be contrary to the public interest.

Alverson, James R., Nine Elm Street, Danville, New York, convicted on or about October 31, 1955, and March 12, 1958, in the Livingston County Court, Geneseo, New York.

Bergerson, Everett Paul, Route 2, Box 1602, Mosinee, Wisconsin, convicted on June 2, 1964, in the District Court of Payne County, Oklahoma.

Bjornson, Allen Lawrence, 45520 Platt, Utica, Michigan, convicted on December 12, 1955, in the Circuit Court, Macomb County, Michigan.

Bugg, Ronald C., Highway 100, Hogansville, Georgia, convicted on March 8, 1965, in the Coweta County Court, Georgia.

Burnia, Charles R., 630 Ethel Street, Elvins, Missouri, convicted on May 11, 1970, in St. Francois County Circuit Court, Missouri.

Butler, Joseph A., 750 Jamaica Street, Aurora, Colorado, convicted on September 23, 1942, in the Circuit Court, Cook County, Illinois.

Daily, Robert A., 13857 Cranston Avenue, Sylmar, California, convicted on January 23, 1967, and on or about December 1, 1967, in the Superior Court of the State of California for the County of Los Angeles.

Dennis, Andrew L., P.O. Box 85, Union, Washington, convicted on June 11, 1965, in the Pierce County Superior Court, Washington.

Donaho, Tony Robert, 2132-47th, Des Moines, Iowa, convicted on May 2, 1973, in the Polk County District Court, Des Moines, Iowa.

Downey, William R., 728 Cinnaminson Street, Philadelphia, Pennsylvania, convicted on November 19, 1964, in the Common Pleas Court, Philadelphia, Pennsylvania.

Ellison, David Jay, 116 North 7th Street, Mt. Vernon, Washington, convicted on February 5, 1962, in the Superior Court, Skakit County, Washington.

Esparza, Hugo R., 4421 S.W. 101st, Seattle, Washington, convicted on December 27, 1950, in the Superior Court of the State of Washington.

Ethridge, Charles Loyd, 606 Comer Street, Eufaula, Alabama, convicted on April 10, 1939, and October 4, 1962, in the United States District Court, Middle District of Alabama.

Fitch, Gregory Lee, 3473 Carnelian Way, Carson City, Nevada, convicted on February 28, 1972, in the Sixth Judicial District Court, Humboldt County, Nevada.

Frost, Bradley C., RD #1, Sterling, New York, convicted on December 13, 1966, in the Wayne County Court, New York.

Griebel, James C., 1015 North 30th Street, Billings, Montana, convicted on April 28, 1953, in the District Court of the Thirteenth Judicial District of the State of Montana, in and for the County of Yellowstone.

Hacker, Daryl L., R.R. #1, Bettendorf, Iowa, convicted on January 6, 1956, and February 4, 1956, in the State District Court, Davenport, Iowa.

Hatch, Clarence, 405 Lilac Drive, El Dorado, Arkansas, convicted on October 4, 1966, in in the First Division Circuit Court, Thirteenth Judicial District, Arkansas.

Internal Revenue Service

[Order No. 110 (Rev. 1)]

ASSISTANT COMMISSIONER (ADMINISTRATION) AND REGIONAL COMMISSIONERS

Delegation of Authority; Overpayments of Pay and Allowances; Waivers of Claims

Pursuant to authority vested in the Commissioner of Internal Revenue by Treasury Department Order No. 214 (Revision 2), dated August 19, 1974, the authority to act on requests for waivers of claims against employees (or former employees) arising from overpayments of pay and allowances, other than travel and transportation allowances and relocation expenses and allowances payable under 5 U.S.C. 5724a, by the Internal Revenue Service is hereby delegated as follows:

A. The Assistant Commissioner (Administration) is authorized:

(1) To approve or disapprove, in whole or in part, requests for waivers concerning present or former National Office employees, (including the IRS Data Center and the National Computer Center) in amounts not exceeding $500.00; and

(2) To recommend to the Comptroller General the approval or disapproval, in whole or in part, of requests for waivers concerning present or former IRS employees in amounts exceeding $500.00.

B. Regional Commissioners are authorized to approve or disapprove, in whole or in part, requests for waivers concerning present or former regional (including Regional Counsel and Regional Inspector) employees in amounts not exceeding $500.00.

The authority delegated herein may not be redelegated.

Delegation Order No. 110, issued May 9, 1969, is superseded.

Dated: December 13, 1974.

Effective: December 13, 1974.

DONALD C. ALEXANDER,
Commissioner.

[FR Doc.74-30132 Filed 12-26-74;8:45 am]

Office of the Secretary

[Treasury Dept. Order No. 234]

PUBLIC SALE OF GOLD

Directive

By virtue of the authority vested in me as Secretary of the Treasury by section 9 of the Gold Reserve Act of 1934 (31 U.S.C. 733) and the Reorganization Plan No. 26 of 1950, I hereby authorize and direct the Under Secretary for Monetary Affairs, Jack Bennett, to take all necessary and proper measures, including direction of other officials of the Department and utilization of the services of other government agencies, for the public sale of 2,000,000 fine troy ounces of gold on January 6, 1975.

Dated: December 18, 1974.

[SEAL] WILLIAM E. SIMON,
Secretary of the Treasury.

[FR Doc.74-30111 Filed 12-26-74;8:45 am]

[Treasury Dept. Order No. 233-2]

FEDERAL ENERGY ADMINISTRATION

Delegation of Authority

Cost of Living Council Order No. 47, as amended, generally delegated to the Administrator of the Federal Energy Office price stabilization authority, under the Economic Stabilization Act of 1970, as amended, with respect to petroleum products and crude oil. Executive Order No. 11790 of June 25, 1974 (39 FR 23185), abolished the Federal Energy Office and all of its regulatory powers were transferred to the Federal Energy Administration.

However, by virtue of paragraphs 3 and 5 of Cost of Living Council Order No. 47, as amended, the Council retained the authority to make determinations and take actions with respect to Phase II, Phase III, and Phase IV compliance and enforcement cases received by the Council from the nternal Revenue Service prior to December 21, 1973. Under Executive Order 11788 of June 18, 1974 (39 FR 22113), the Secretary of the Treasury assumed the authority retained by the Cost of Living Council. The Secretary in turn delegated that authority to the Office of Economic Stabilization by Treasury Department Order No. 233, dated June 28, 1974 (39 FR 24522).

It is the purpose of this order to ensure a continuing compliance and enforcement effort with respect to those Phase III and Phase IV cases involving price stabilization of petroleum and crude oil products received by the Cost of Living Council prior to December 21, 1973, and after June 13, 1973, but which have not yet been finally resolved by the Office of Economic Stabilization.

Therefore, by virtue of the authority delegated to me by paragraph 6 of Treasury Department Order No. 233, June 28, 1974 (39 FR 24522), it is hereby ordered as follows:

1. The authority formerly retained by the Cost of Living Council under the provisions of paragraphs 3 and 5 of Cost Living Council Order No. 47, as amended, insofar as they relate to Phase III and IV of the Cost of Living Council regulations, is hereby delegated to the Administrator of the Federal Energy Administration.

2. The Administrator may exercise the authority delegated by this order as though such authority had originally been delegated by Cost of Living Council Order No. 47, as amended.

3. This order is effective immediately.

Dated: December 18, 1974.

[SEAL] WARREN F. BRECHT,
Assistant Secretary for Administration.

[FR Doc.74-30110 Filed 12-26-74;8:45 am]

[Dept. Circular, Public Debt Series—No. 18-74]

7⅛ PERCENT TREASURY NOTES OF SERIES D–1979

Dated November 6, 1974, With Interest From January 7, 1975, Due May 15, 1979

DECEMBER 23, 1974.

I. INVITATION FOR TENDERS

1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites tenders at a price not less than 99.01 percent of their face value for $1,250,000,000 or thereabouts, of notes of the United States, designated 7⅛ percent Treasury Notes of Series D–1979. Additional amounts of these notes may be issued at the average price of accepted tenders to Government accounts and to Federal Reserve Banks for themselves and as agents of foreign and international monetary authorities. Tenders will be received up to 1:30 p.m., Eastern Standard time, Monday, December 30, 1974, under competitive and noncompetitive bidding, as set forth in Section III hereof.

II. DESCRIPTION OF NOTES

1. The notes now offered will be identical in all respects with the 7⅛ percent Treasury Notes of Series D–1979 issued pursuant to Department Circular, Public Debt Series—No. 12–74, dated October 15, 1974, except that interest will accrue from January 7, 1975. With this exception the notes are described in the following quotation from that circular:

1. The notes will be dated November 6, 1974, and will bear interest[1] from that date, payable on a semiannual basis on May 15, 1975, and November 15, 1975, and thereafter on May 15 and November 15 in each year until the principal amount becomes payable. They will mature May 15, 1979, and will not be subject to call for redemption prior to maturity.

2. The income derived from the notes is subject to all taxes imposed under the Internal Revenue Code of 1954. The notes are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The notes will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer notes with interest coupons attached, and notes registered as to principal and interest, will be issued in denominations of $1,000, $5,000, $10,000, $100,000 and $1,000,000. Book-entry notes will be available to eligible bidders in multiples of those amounts. Interchanges of notes of different denominations and of coupon and registered notes, and the transfer of registered notes will be permitted.

[1] On October 23, 1974, the Secretary of the Treasury announced that the interest rate on the notes would be 7⅛ percent per annum.

5. The notes will be subject to the general regulations of the Department of the Treasury, now or hereafter prescribed, governing United States notes.

III. TENDERS AND ALLOTMENTS

1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20226, up to the closing hour, 1:30 p.m., Eastern Standard time, Monday, December 30, 1974. Each tender must state the face amount of notes bid for, which must be $1,000 or a multiple thereof, and the price offered, except that in the case of noncompetitive tenders the term "noncompetitive" should be used in lieu of a price. In the case of competitive tenders, the price must be expressed on the basis of 100, with two decimals, e.g., 100.00. Tenders at a price less than 99.01 will not be accepted. Fractions may not be used. Noncompetitive tenders from any one bidder may not exceed $500,000.

2. Commercial banks, which for this purpose are defined as banks accepting demand deposits, and dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, may submit tenders for account of customers provided the names of the customers are set forth in such tenders. Others will not be permitted to submit tenders except for their own account. Tenders will be received without deposit from banking institutions for their own account. Federally-insured savings and loan associations, States, political subdivisions or instrumentalities thereof, public pension and retirement and other public funds, international organizations in which the United States holds membership, foreign central banks and foreign States, dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowing thereon, and Government accounts. Tenders from others must be accompanied by payment of 5 percent of the face amount of notes applied for.

3. Immediately after the closing hour tenders will be opened, following which public announcement will be made by the Department of the Treasury of the amount and price range of accepted bids. Those submitting competitive tenders will be advised of the acceptance or rejection thereof. In considering the acceptance of tenders, those at the highest prices will be accepted to the extent required to attain the amount offered. Tenders at the lowest accepted price will be prorated if necessary. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders, in whole or in part, including the right to accept more or less than the $1,250,000,000 offered to the public, and his action in any such respect shall be final. Subject to these reservations, noncompetitive tenders for $500,000 or less without stated price from any one bidder will be accepted in full at the average price[2] (in two decimals) of accepted competitive tenders.

4. All bidders are required to agree not to purchase or sell, or to make any agreements with respect to the purchase or sale or other disposition of any notes of this issue at a specific rate or price, until after 1:30 p.m., Eastern Standard time, Monday, December 30, 1974.

5. Commercial banks in submitting tenders will be required to certify that they have no beneficial interest in any of the tenders they enter for the account of their customers, and that their customers have no beneficial interest in the banks' tenders for their own account.

IV. PAYMENT

1. Settlement for accepted tenders in accordance with the bids together with $13.45565 per $1,000 for accrued interest from November 6, 1974, to January 7, 1975, must be made or completed on or before Tuesday, January 7, 1975, at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt. Payment must be in cash, in other funds immediately available to the Treasury by January 7, or by check drawn to the order of the Federal Reserve Bank to which the tender is submitted, or the United States Treasury if the tender is submitted to it, which must be received at such bank or at the Treasury no later than: (1) Friday, January 3, 1975, if the check is drawn on a bank in the Federal Reserve District of the Bank to which the check is submitted, or the Fifth Federal Reserve District in case of the Treasury, or (2) Tuesday, December 31, 1974, if the check is drawn on a bank in another district. Checks received after the dates set forth in the preceding sentence will not be accepted unless they are payable at a Federal Reserve Bank. Where full payment is not completed on time, the allotment will be canceled and the deposit with the tender up to 5 percent of the amount of notes allotted will be subject to forfeiture to the United States. Payment may not be made through Tax and Loan Accounts. Payment will not be deemed to have been completed where registered notes are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished.

V. GENERAL PROVISIONS

1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive tenders, to make such allotments as may be prescribed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery of notes on full-paid tenders allotted, and they may issue interim receipts pending delivery of the definitive notes.

2. The Secretary of the Treasury may at any time, or from time to time, pre-

[2] Average price may be at, or more or less than 100.00.

scribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

WILLIAM E. SIMON,
Secretary of the Treasury.

[DEPT. CIRCULAR, Public Debt Series—No. 17-74]

8 PERCENT TREASURY NOTES OF SERIES H-1976

Dated April 9, 1974, with Interest From January 9, 1975; Due March 31, 1976

DECEMBER 23, 1974.

I. INVITATION FOR TENDERS

1. The Secretary of the Treasury, pursuant to the authority of the Second Liberty Bond Act, as amended, invites tenders at a price not less than 99.76 percent of their face value for $750,000,000, or thereabouts, of notes of the United States, designated 8 percent Treasury Notes of Series H-1976. Additional amounts of these notes may be issued at the average price of accepted tenders to Government accounts and to Federal Reserve Banks for themselves and as agents of foreign and international monetary authorities. Tenders will be received up to 1:30 p.m., Eastern Standard time, Thursday, January 2, 1975, under competitive and noncompetitive bidding, as set forth in Section III hereof.

II. DESCRIPTION OF NOTES

1. The notes now offered will be identical in all respects with the 8 percent Treasury Notes of Series H-1976 issued pursuant to Department Circular, Public Debt Series—No. 4-74, dated March 21, 1974, except that interest will accrue from January 9, 1975. With this exception the notes are described in the following quotation from that circular:

1. The notes will be dated April 9, 1974, and will bear interest [1] from that date, payable on a semiannual basis on September 30, 1974, March 31 and September 30, 1975, and March 31, 1976. They will mature March 31, 1976, and will not be subject to call for redemption prior to maturity.

2. The income derived from the notes is subject to all taxes imposed under the Internal Revenue Code of 1954. The notes are subject to estate, inheritance, gift or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority.

3. The notes will be acceptable to secure deposits of public moneys. They will not be acceptable in payment of taxes.

4. Bearer notes with interest coupons attached, and notes registered as to principal and interest, will be issued in denominations of $1,000, $5,000, $10,000, $100,000 and $1,000,000. Provision will be made for the interchange of notes of different denominations and of coupon and registered notes, and for the transfer of registered notes, under rules and regulations prescribed by the Secretary of the Treasury.

5. The notes will be subject to the general regulations of the Department of the Treasury, now or hereafter prescribed, governing United States notes.

III. TENDERS AND ALLOTMENTS

1. Tenders will be received at Federal Reserve Banks and Branches and at the Bureau of the Public Debt, Washington, D.C. 20226, up to the closing hour, 1:30 p.m., Eastern Standard time, Thursday, January 2, 1975. Each tender submitted must be in the minimum amount of $5,000. Tenders over $5,000 must be in multiples of $1,000. Each tender must state the price offered, except that in the case of noncompetitive tenders the term "noncompetitive" should be used in lieu of a price. In the case of competitive tenders, the price must be expressed on the basis of 100, with two decimals, e.g., 100.00. Tenders at a price less than 99.76 will not be accepted. Fractions may not be used. Noncompetitive tenders from any one bidder may not exceed $500,000.

2. Commercial banks, which for this purpose are defined as banks accepting demand deposits, and dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, may submit tenders for account of customers provided the names of the customers are set forth in such tenders. Others will not be permitted to submit tenders except for their own account. Tenders will be received without deposit from banking institutions for their own account, Federally-insured savings and loan associations, States, political subdivisions or instrumentalities thereof, public pension and retirement and other public funds, international organizations in which the United States holds membership, foreign central banks and foreign States, dealers who make primary markets in Government securities and report daily to the Federal Reserve Bank of New York their positions with respect to Government securities and borrowings thereon, and Government accounts. Tenders from others must be accompanied by payment of 5 percent of the face amount of notes applied for.

3. Immediately after the closing hour tenders will be opened, following which public announcement will be made by the Department of the Treasury of the amount and price range of accepted bids. Those submitting competitive tenders will be advised of the acceptance or rejection thereof. In considering the acceptance of tenders, those at the highest prices will be accepted to the extent required to attain the amount offered. Tenders at the lowest accepted price will be prorated if necessary. The Secretary of the Treasury expressly reserves the right to accept or reject any or all tenders, in whole or in part, including the right to accept more or less than the $750,000,000 offered to the public, and his action in any such respect shall be final. Subject to these reservations, noncompetitive tenders for $500,000 or less without stated price from any one bidder will be accepted in full at the average price [2] (in two decimals) of accepted competitive tenders.

4. All bidders are required to agree not to purchase or sell, or to make any agreements with respect to the purchase or sale or other disposition of any notes of this issue at a specific rate or price, until after 1:30 p.m., Eastern Standard time, Thursday, January 2, 1975.

5. Commercial banks in submitting tenders will be required to certify that they have no beneficial interest in any of the tenders they enter for the account of their customers, and that their customers have no beneficial interest in the banks' tenders for their own account.

IV. PAYMENT

1. Settlement for accepted tenders in accordance with the bids together with $22.19780 per $1,000 for accrued interest from September 30, 1974, to January 9, 1975, must be made or completed on or before Thursday, January 9, 1975, at the Federal Reserve Bank or Branch or at the Bureau of the Public Debt. Payment must be in cash, in other funds immediately available to the Treasury by January 9, or by check drawn to the order of the Federal Reserve Bank to which the tender is submitted, or the United States Treasury if the tender is submitted to it, which must be received at such bank or at the Treasury no later than: (1) Monday, January 6, 1975, if the check is drawn on a bank in the Federal Reserve District of the Bank to which the check is submitted, or the Fifth Federal Reserve District in case of the Treasury, or (2) Thursday, January 2, 1975, if the check is drawn on a bank in another district. Checks received after the dates set forth in the preceding sentence will not be accepted unless they are payable at a Federal Reserve Bank. Where the full payment is not completed on time, the allotment will be canceled and the deposit with the tender up to 5 percent of the amount of notes allotted will be subject to forfeiture to the United States. Payments may not be made through Tax and Loan Accounts. Payment will not be deemed to have been completed where registered notes are requested if the appropriate identifying number as required on tax returns and other documents submitted to the Internal Revenue Service (an individual's social security number or an employer identification number) is not furnished.

V. GENERAL PROVISIONS

1. As fiscal agents of the United States, Federal Reserve Banks are authorized and requested to receive tenders, to make such allotments as may be prescribed by the Secretary of the Treasury, to issue such notices as may be necessary, to receive payment for and make delivery

---

[1] On March 27, 1974, the Secretary of the Treasury announced that the interest rate on the notes would be 8 percent per annum.

[2] Average price may be at, or more or less than 100.00.

of notes on full-paid tenders allotted, and they may issue interim receipts pending delivery of the definitive notes.

2. The Secretary of the Treasury may at any time, or from time to time, prescribe supplemental or amendatory rules and regulations governing the offering, which will be communicated promptly to the Federal Reserve Banks.

WILLIAM E. SIMON,
Secretary of the Treasury.

DEPARTMENT OF DEFENSE

Defense Nuclear Agency

STEMMING AND CLOSURE PANEL

Meeting

DECEMBER 18, 1974.

The next meeting of the Stemming and Closure Panel (SACPAN), sponsored by the Defense Nuclear Agency (DNA), will be held 9–10 January 1975. SACPAN members will be asked to provide advice on on-going and future DNA underground test programs. The meeting will be closed to the public.

REED R. SAMUELSON,
Executive Secretary, SACPAN.

[FR Doc.74-30201 Filed 12-26-74;8:45 am]

Office of the Secretary

DEFENSE PANEL ON INTELLIGENCE

Closed Meeting

The Fourth meeting of the Defense Panel on Intelligence will be held 9 January 1975 in the Pentagon, Office of the Secretary of Defense, and in the interest of national security the meeting shall be closed to the public under the provisions of section 552(b)(1) of title 5, United States Code, since classified material will be discussed at all sessions of the meeting. Subject matter is to assess the cumulative effect of actions which have been taken to improve intelligence within the Department of Defense in response to recommendations of the Blue Ribbon Defense Panel and to the President's memorandum of 5 November 1971.

MAURICE W. ROCHE,
Director, Correspondence and Directives OASD (Comptroller).

DECEMBER 23, 1974.

[FR Doc.74-30241 Filed 12-26-74;8:45 am]

DEFENSE SCIENCE BOARD VULNERABILITY TASK FORCE

Advisory Committee Meeting

The Defense Science Board Vulnerability Task Force will meet in closed session on 28–29 January 1975 at the Air Force Weapons Laboratory, Kirkland Air Force Base, New Mexico.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Director, Defense Research and Engineering on overall research and engineering and to provide long range guidance in these areas to the Department of Defense.

The Task Force will provide an assessment of the requirement for large Electromagnetic Pulse Simulators to verify the survivability of aircraft systems in environments produced by the detonation of nuclear weapons.

In accordance with Pub. L. 92–463, section 10, paragraph (d) it has been determined that this meeting concerns matters listed in section 552(b) of title 5 of the United States code, particularly subparagraph (1) thereof, and that the public interest requires such meetings to be closed insofar as the requirements of subsections (a)(1) and (a)(3) of section 10 Pub. L. 92–463 are concerned.

MAURICE W. ROCHE,
Director, Correspondence and Directives OASD (Comptroller).

DECEMBER 23, 1974.

DEFENSE SCIENCE BOARD TASK FORCE ON ACCURACY

Advisory Committee Meeting

The Defense Science Board Task Force on Accuracy will meet in closed session on January 13 at the ARPA offices (1400 Wilson Blvd., Arlington, Va.) and January 14 at the Pentagon, Arlington, Va.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Director of Defense Research and Engineering on overall research and engineering and to provide long range guidance in these areas to the Department of Defense.

The task Force will undertake a review of the accuracy of U.S. and Soviet strategic offensive systems to determine the confidence that can be placed in our present estimates of accuracy and it will recommend an R&D program which can lead to improved accuracy.

In accordance with Pub. L. 92–463, section 10, paragraph (d), it has been determined that Defense Science Board meetings concern matters listed in section 552(b) of title 5 of the United States code, particularly subparagraph (1) thereof, and that the public interest requires such meetings to be closed insofar as the requirements of subsections (a)(1) and (a)(3) of section 10, Pub. L. 92–463 are concerned.

MAURICE W. ROCHE,
Director, Correspondence and Directives OASD (Comptroller).

DEFENSE SCIENCE BOARD TASK FORCE ON "TRAINING TECHNOLOGY"

Advisory Committee Meeting

A Defense Science Board Task Force on "Training Technology" will meet in closed session on 20–22 January 1975 at the Institute for Defense Analyses, Arlington, Virginia.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Director of Defense Research and Engineering on overall research and engineering and to provide long range guidance in these areas to the Department of Defense.

The Task Force will provide an evaluation of the current effectiveness of DoD programs and management in the R&D area of Training Technology to serve as the basis for DoD policy decisions to reduce costs and increase effectiveness and efficiency of DoD Training.

In accordance with Pub. L. 92–463, section 10, paragraph (d), it has been determined that Defense Science Board meetings concern matters listed in section 552(b) of title 5 of the United States code, particularly subparagraph (1) thereof, and that the public interest requires such meetings to be closed insofar as the requirements of subsections (a)(1) and (a)(3) of section 10, Pub. L. 92–463 are concerned.

DEPARTMENT OF JUSTICE

ACTION TO ENJOIN DISCHARGE OF POLLUTANTS

Proposed Consent Judgment

In accordance with Departmental Policy, 28 CFR § 50.7, 38 FR 19029, Notice is hereby given that on December 3, 1974, a proposed consent decree in United States v. Michaelian, et al. was lodged with the United States District Court for the Southern District of New York. The proposed decree prescribes measures to substantially eliminate the flow of leachate from the Westchester County landfill at Croton Point, Westchester County, New York.

The Department of Justice will receive on or before January 27, 1975, written comments relating to the proposed judgment. Comments should be addressed to the Assistant Attorney General of the Land and Natural Resources Division, Department of Justice, Washington, D.C. 20530 and refer to United States v. Michaelian, et al., D.J. Ref. 90–5–1–1–268.

The proposed consent decree may be examined at the office of the United States Attorney, Foley Square, New York, New York 10007, at the Region II Office of the Environmental Protection Agency, 26 Federal Plaza, New York, New York 10007 and at the Pollution Control Section, Land and Natural Resources Division, Department of Justice, Ninth Street and Pennsylvania Avenue, NW, Washington, D.C. 20530. A copy of the proposed consent decree may be obtained by applying in person or by mail to the Pollution Control Section. In requesting a copy, please enclose a check in the amount of $0.80 (10 cents per page reproduction charge) payable to the Treasurer of the United States.

WALLACE H. JOHNSON,
Assistant Attorney General, Land and Natural Resources Division.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Colorado 22237]

COLORADO

Notice of Application

DECEMBER 19, 1974.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (41 Stat. 449), as amended (30 USC 185), Western Slope Gas Co., P.O. Box 840, Denver, Colorado 80201, has applied for a right of way for two (2) four inch natural gas gathering pipelines across the following lands:

SIXTH PRINCIPAL MERIDIAN, COLORADO
T. 3 S., R. 101 W.,
Sections 5 and 6

The pipelines will connect the continental Douglas Creek No. 19 and No. 20 natural gas wells to applicant's West Douglas Natural Gas Field Gathering System. The purpose of this project is to enable applicant to meet the increasing demands for adequate supplies of natural gas in the Grand Junction, Colorado market area to meet residential, commercial and industrial requirements.

The purposes of this notice are: To inform the public that the Bureau of Land Management will be proceeding with the preparation of environmental and other analyses necessary for determining whether the application should be approved and, if so, under what terms and conditions; to allow interested parties to comment on the application, and to allow any persons asserting a claim to the lands or having bona fide objections to the proposed pipeline right of way to file their objections in this office. Any person asserting a claim to the lands or having bona fide objections must include evidence that a copy thereof has been served on the applicant.

Any comment, claim, or objections must be filed with the Chief, Branch of Land Operations, Bureau of Land Management, Colorado State Office, Room 700, Colorado State Bank Building, 1600 Broadway, Denver, Colorado 80202, within thirty days from the date of this notice.

EVERETT K. WEEDIN,
Chief, Branch of Land Operations.

NEW MEXICO

Notice of Application

DECEMBER 17, 1974.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), Southern Union Gas Co. has applied for a 2-inch natural gas pipeline right-of-way across the following lands:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 26 N., R. 6 W.,
Sec. 1, Lot 1.

This pipeline will convey natural gas across .054 miles of national resource lands in Rio Arriba County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, 3550 Pan American Freeway, Albuquerque, NM 87107.

This pipeline will convey liquid fuel across 67.97 miles of national resource lands in San Bernardino County, California.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the State Office, Bureau of Land Management, Federal Office Building, Room E-2841, 2800 Cottage Way, Sacramento, California 95825.

WALTER F. HOLMES,
Chief, Branch of Lands and Minerals Operations.

OUTER CONTINENTAL SHELF RESEARCH MANAGEMENT ADVISORY BOARD

Notice and Agenda for Meeting

This notice is issued in accordance with the provisions of the Federal Advisory Committee Act, Pub. L. No. 92-463, 5 U.S.C. App. I and the Office of Management and Budget Circular No. A-63, Revised.

The Outer Continental Shelf Research Management Advisory Board will meet during the period 9:30 a.m. to 4 p.m., Rooms 7000 A and B, Department of the Interior, January 16 and 17. The meeting will cover the following agenda items:

1. Approval of Minutes of October 3 and 4 meeting.
2. Environmental monitoring plans for Mississippi-Alabama-Florida (MAFLA) OCS.
3. Progress report on environmental benchmark data programs in Gulf of Alaska and South Texas.
4. Report on the Mid-Atlantic OCS environmental workshop meeting and initial planning for bench-mark data gathering in the Mid-Atlantic OCS.
5. Report on Southern California OCS environmental workshop meeting and status of planning for bench-mark data gathering in that area.
6. Progress in developing a comprehensive plan for collection of environmental baseline data on the Alaska OCS.
7. Discussion of the overall Bureau of Land Management Environmental Studies Program.
8. Report of Ad Hoc Committee on development of guidelines for environmental data collection.
9. Report of Ad Hoc Committee on special committee needs of the OCS Research Management Advisory Board.
10. Other business.

The meeting is open to the public and written or oral statements concerning the program content are welcome.

Those who expect to attend should make this intention known not later than January 10 to the Board's Chairman:

Frank E. Clarke, Senior Scientist, U.S. Geological Survey, Room 4443, Interior Building, Washington, D.C. 20240, 202/343-2868.

Written statements should also be submitted to the Chairman not later than January 10.

Dated: December 23, 1974.

GEORGE L. TURCOTT,
Associate Director,
Bureau of Land Management.
JACK HORTON,
Assistant Secretary of the Interior

[FR Doc.74-30087 Filed 12-26-74;8:45 am]

National Park Service

MIDWEST REGIONAL ADVISORY COMMITTEE

Notice is hereby given in accordance with Public Law 92-463 that a meeting will be held at 1:30 p.m., January 16 in Room 242 of the Nebraska Union at 14th and R Streets in Lincoln, Nebraska, and at 8:30 a.m., January 17 in the Flanagan Room of the Hilton Hotel, 16th and Dodge Streets, Omaha.

The Committee was established pursuant to Public Law 91-383 to provide for the free exchange of ideas between the National Park Service and the public and to facilitate the solicitation of advice or other counsel from members of the public on programs and problems pertinent to the Midwest Region of the National Park Service.

The members of the Committee are:

Honorable Robert W. Kerrey III (Chairman)
Mrs. Mildred Curtis
Mr. Norman G. Dulle
Mr. John J. Franks, Jr.
Mr. Glenn C. Gloyd
Mr. Fred D. Hartley
Mr. Lewis W. Jones
Mr. William L. Lieber
Mr. Erwin D. Sies

Matters to be considered at this meeting include:

1. The National Park Service program of historic preservation and archeology as it applies to the Midwest Region.
2. Status report on public input activities in the region.
3. Bicentennial activities.

The meeting is open to the public. It is expected that about 50 persons, in addition to the Committee, can attend. Interested persons may make presentations to the Committee or file written statements. Such requests should be made to the official listed below before 1:30 p.m., January 16.

Further information concerning this meeting may be obtained from Bill W. Dean, Associate Regional Director, Cooperative Activities, Midwest Region, National Park Service, 1709 Jackson Street, Omaha, Nebraska 68102, telephone Area Code 402 221-3481. Minutes of the meeting will be available for public inspection and copying four weeks after the meeting at the Midwest Regional Office, National Park Service, 1709 Jackson Street, Omaha, Nebraska.

Dated: December 17, 1974.

ROBERT L. GILBO,
Acting Regional Director, Midwest Region National Park Service.

Office of the Assistant Secretary, Land and Water Resources

WATER RESOURCES; USE AND MANAGEMENT

Policy Statement

Notice is hereby given of a proposal to adopt a new policy concerning the use and management of water resources by persons applying for certain contracts, leases, permits, and other agreements for natural resource use under the jurisdiction of the Department of the Interior. The proposed policy and guidelines appear below. Written comments and statements will be accepted in the Office of the Assistant Secretary, Land and Water Resources, Department of the Interior, Washington, D.C. 20240, until March 3, 1975.

The Department of the Interior has responsibility for managing a considerable portion of the Nation's renewable and nonrenewable resources. Water is a key factor in the management of all these resources and is rapidly becoming a major determinant in assessment of energy development alternatives. The Department recognizes its responsibility for conserving water resources and protecting their quality. This responsibility must be exercised in a timely manner and in accord with optimal use of this limited resource. It is, therefore, the policy of this Department that:

(a) Leases, contracts, permits, and other agreements concerning resource use to which the Department is a party shall be structured as practicable to promote effective management and efficient use of water, to conserve the quantity and quality of the water resource involved, and to protect related aspects of the environment.

(b) Persons holding leases, contracts, permits, and other agreements from the Department which will have a significant impact on water resources shall submit, as part of their use plans, a description of the proposed management procedures affecting water resources. Guidelines for development of such procedures are provided following this policy statement.

(c) Institutional arrangements with the States will be sought to facilitate coordination with State entities having regulatory authority for water resources use and protection.

(d) The need for efficient use of water will be taken into account in discharging the Department's trust responsibilities for resources on Indian lands.

OUTLINE OF GUIDELINES FOR WATER MANAGEMENT PROCEDURES

In the issuance of contracts, leases, permits, and other agreements to use land or water resources under the jurisdiction of the Department of the Interior, the authorized officer of the Department may, to the extent permitted by law, specify appropriate terms and conditions relating to management of water affected by the agreement. For the purpose of aiding in the determinations as to whether an agreement should be made and, if so, what its terms and conditions should be, and for other purposes described below, the applicant, when required by regulation of the Secretary or by specific request of his delegate, must submit with his application details concerning his proposed water management procedures. A statement of detailed management procedures will be required for applicants whose proposals could have a significant effect, in the opinion of the authorized officer of the Department, on the quality and quantity of water available for uses and purposes other than those described in the application.

The following guidelines apply to the water management procedures to be included as a part of the use plan required by the Department of the Interior as an integral part of any major lease, construction permit, or other agreement. Such plans will enable the Secretary or his designee to administer the programs and responsibilities of the Department so as to conserve water resources through full consideration of viable alternative uses of water and to assure more efficient use of water in proposed operations. These procedures, moreover, will assure that water conservation considerations are taken into account in the Department's implementation of the National Environmental Policy Act (NEPA) and the Water Resources Council's Principles and Standards for Planning Water and Related Land Resources, approved by the President on September 5, 1973.

Applicants shall address the following considerations in developing water management procedures for effective and efficient use of water and in the statements required to be submitted to the Department.

1. The sources to be used in the proposed activity, whether surface or ground water and whether self-supplied or from a government or other organized entity, including information on quantity and quality of water supply.

2. Water rights owned or applied for by the applicant and by any and all subsidiaries or otherwise owned or controlled entities which hold such water or water rights.

3. Expected significant changes in quantity and quality of water through applicants' planned use involving Federal lands or resources under Interior Department jurisdiction.

4. The justification for the water quality and quantity proposed to be used.

5. The method of water use and the amount of water consumed, returns to streams, and the need for treatment before return or disposal.

6. Methods employed for conservation of water use in the proposed activity, including management and structural measures for most efficient water use and recycling or reuse of water and return flow standards.

7. Alternatives considered to reduce or minimize fresh water demand, such as air cooling in lieu of water cooling, utilization of poor quality water, or other technology.

8. The compatibility of the method and the alternatives of water use with the draft environmental impact statement required by the National Environmental Policy Act.

9. The compatibility of the water management procedures with Federal water quality control criteria and the requirements of the discharge permit system of the Federal Water Pollution Control Act of 1973, Pub. L. 92-500, section 401.

10. The compatibility of water management procedures with overall State, regional, and national water development plans.

Dated: December 18, 1974.

JACK O. HORTON,
Assistant Secretary of the Interior for Land and Water Resources.

Forest Service

ROCK CREEK ADVISORY COMMITTEE

Notice of Meeting

The Rock Creek Advisory Committee will meet at 7:00 p.m. on January 21, 1975. Meeting place will be in Drummond, Montana, in the Catholic Church basement.

The purpose of this meeting is to complete Committee review of the planning processes and begin the critique of management options in Upper Rock Creek.

The meeting will be open to the public. Any member of the public who wishes to do so shall be permitted to file a written statement with the Committee before or after the meeting. To the extent that time permits, the Committee Chairman may permit interested persons to present oral statements at the meeting.

General participation by members of the public, or questioning of Committee members or other participants shall not be permitted unless approved by the majority of Committee members.

Dated: December 17, 1974.

ROBERT W. DAMON,
Forest Supervisor, Deerlodge National Forest.

[FR Doc.74-30117 Filed 12-26-74;8:45 am]

EL YUNQUE PEAK ELECTRONIC SITE

Notice of Negative Determination

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 8411.43 of the Forest Service Guidelines (39 FR 38249) October 30, 1974: The Forest Service, U.S. Department of Agriculture gives notice that an environmental statement is not being prepared for the El Yunque Peak Electronic Site, Caribbean National Forest, Puerto Rico.

The environmental analysis does not indicate high controversy, or significant adverse local, regional or national effect on quality of the human environment as a result of the proposed policy for management of this site. As a result of these findings, Mr. Leonard A. Lindquist, Forest Supervisor of the Caribbean National Forest, P.O. Box AQ, Rio Piedras, Puerto Rico 00928, has determined that the preparation and review of an environmental statement is not required.

The proposal concerns a policy for managing an existing 25 acre electronic uses site. The policy establishes a zone to be kept free of structures in order to preserve scenic values. Zones are established to provide separation between radio receivers and transmitters, and a policy regulating future developments is established. A deadline of December 31, 1979 is set for removal of non-conforming electronic uses.

The environmental analysis report and written determination is available for inspection during regular working hours at the following location:

Institute of Tropical Forestry, University of Puerto Rico Agricultural Experiment Station Grounds, Rio Piedras, Puerto Rico 00928.

No administrative action on implementation of the policy will be taken until January 31, 1975.

Dated: December 12, 1974.

DAVID F. JOLLY,
Regional Environmental Coordinator, Southern Region.

[FR Doc.74-30192 Filed 12-26-74;8:45 am]

FALL CANKERWORM CONTROL

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, and Virginia Division of Forestry, have prepared a draft environmental statement for Fall cankerworm control in Virginia. (USDA-FS-SA-DES (Adm) FY-75-1.)

This environmental statement is an analysis of impacts associated with the proposed suppression of fall cankerworm infestations on 514 acres of wooded residential area in Prince William County, Virginia. Subjects discussed are the impacts of aerial applications of the bacterial insecticide, *Bacillus thuringiensis*, and description of techniques and benefits of suppression.

The draft environmental statement was filed with CEQ on December 19, 1974.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Building, Room 3230, 12th St. & Independence Ave., SW, Washington, D.C. 20250.

USDA, Forest Service, Division of Forest Pest Control, 1621 N. Kent St., Room 1205-B, Arlington, Va. 22209.

A limited number of single copies are available upon request to:

USDA, Forest Service, Division of Forest Pest Management, 1720 Peachtree St., Room 711, Atlanta, Ga. 30309.

Virginia Division of Forestry, P.O. Box 3758, McCormick Road, Charlottesville, Virginia 22903.

Copies of the environmental statement have been sent to various Federal, State and Local agencies as outlined in the Council on Environmental Quality Guidelines.

Comments are invited from the public and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved from which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Sidney Weitzman, Area Director, 1720 Peachtree St. NW., Atlanta, Georgia 30309. Comments must be received by February 17, 1975 in order to be considered in the preparation of the final environmental statement.

CARTER P. OUALLS
Acting Area Director, Southeastern Area.

Rural Electrification Administration

CHUGACH ELECTRIC ASSOCIATION, INC.

Draft Environmental Impact Statement

Notice is hereby given that the Rural Electrification Administration intends to prepare a Draft Environmental Impact Statement in accordance with section 102(2)(c) of the National Environmental Policy Act of 1969 in connection with the release of loan funds to Chugach Electric Association, Inc., Gambell at Eighth Street, Anchorage, Alaska 99501. The statement will cover approximately 23 miles of new 230 kV transmission line from the Chugach's Teeland substation to Reed substation of the Alaska Power Administration. The Teeland substation site is near the east side of Knik road about 9 miles southwest of Wasilla, Alaska. Reed substation is located ¼ mile southeast of the Glen Highway, approximately 1 mile east of the Village of Eklutna.

Interested persons are invited to submit comments which may be helpful in preparing the Draft Environmental Impact Statement.

Comments should be forwarded to the Assistant Administrator—Electric, Rural Electrification Administration, Washington, D.C. 20250, with a copy to the Chugach Electric Association, Inc., whose address was given above. Additional information may be obtained at

Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before January 16, 1975.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket number: 75-00233-33-90000. Applicant: Methodist Hospital, 1265 Union Avenue, Memphis, Tennessee 38104. Article: EMI Scanner System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used to study the brain, its coverings, and the eyes for detecting and localizing disease processes. The article will also be used for teaching purposes in Residency programs in Radiology, Neurosurgery, Ophthalmology, Pathology. Application received by Commissioner of Customs: November 22, 1974.

Docket number: 75-00234-33-46500. Applicant: Veterans Administration Hospital, General Medical Research 4500 South Lancaster Road, Dallas, Texas 75216. Article: Ultramicrotome, LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for three dimensional sectioning of biological membranes and related structures which will be examined to understand the molecular organization in terms that will explain their cellular functions. Application received by Commissioner of Customs: November 26, 1974.

Docket number: 75-00235-33-46500. Applicant: Veterans Administration Hospital, 500 North Foothill Blvd., Salt Lake City, Utah 84113. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for studies of the mechanism of tumor cell killing by macrophages. The article will also be used in the course Principles and Techniques of Electron Microscopy in which students will be instructed in the proper use of the article. Application received by Commissioner of Customs: November 20, 1974.

Docket number: 75-00237-33-46500. Applicant: CMDNJ-Rutgers Medical School, Anatomy Department, P.O. Box 101, Piscataway, New Jersey 08854. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: This article is intended to be used for ultrastructural investigation of 1) sensory ganglia in tissue culture exposed to a variety of chemicals and 2) spinal cultures treated with sera and other fluids from patients with various neurological diseases including Multiple Sclerosis, Amyotrophic Lateral Sclerosis and other motor neuron diseases. Application received by Commissioner of Customs: November 26, 1974.

Docket number: 75-00238-33-46500. Applicant: Fred Hutchinson Cancer Research Center, 1102 Columbia Street, Seattle, Washington 98104. Article: Ultramicrotome, Model Om U3. Manufacturer: C. Reichert Optische Werke, Austria. Intended use of article: The article is intended to be used for studies of a wide variety of biological specimens ranging from human normal control material to pathologic (especially tumors) samples collected from surgery or biopsies. In addition, the virologist will be examining cell culture and cut specimens for evidence of virus particles. The article will also be used for instruction for technicians, graduate students and staff in the techniques of electron microscopy. Application received by Commissioner of Customs: November 26, 1974.

Docket number: 75-00239-33-46070. Applicant: St. Louis University Medical School, Department of Pathology, 1402 South Grand, St. Louis, Mo. 63104. Article: Scanning Electron Microscope, Model JSM-35U. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used for a variety of specimens from patients with diseases for diagnostic and investigational purposes and for studies of various experimental models of human diseases as a means toward a better understanding of etiology, pathogenesis and control. These studies include:

(1) Diagnostic studies of human renal and hepatic biopsies.

(2) Diagnostic studies of human lung tissue and of experimental animal lung with emphasis on oxygen toxicity in the newborn.

(3) Diagnostic studies of human blood and bone marrow specimens.

(4) Studies of human tissue upon removal in surgery and freezing in cold stage accessory using low accelerating voltage to reduce specimen damage.

(5) Studies of lung inclusions using x-ray analyzer for elemental analysis of trace elements contained in said inclusions.

In addition, the article will be used in training programs for medical and graduate students in electron miscroscopy. Undergraduates in the schools of biology and medical technology will also be trained in the use of the article as a basis for technical careers and for further training and research at the graduate level. Application received by Commissioner of Customs: November 26, 1974.

Docket number: 75-00240-33-46500. Applicant: Roswell Park Memorial Institute, 666 Elm Street, Buffalo, New York 14203. Article: Ultramicrotome, Model LKB 8800A. Manufacturer: LKB Produkter AB, Sweden. Intended use of article: The article is intended to be used for the preparation of ultrathin sections which will be examined with particular respect to cell surface features in the following material:

Cultural cells of human and animal origin, before and after malignant transformation by oncogenic viruses, and reversion of the transformed cells to normal *in vitro* behavioral pattern.

Application received by Commissioner of Customs: November 26, 1974.

UNIVERSITY OF TEXAS MEDICAL BRANCH

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 75-00048-33-46040. Applicant: University of Texas Medical Branch, Galveston, Texas 77550. Article: Electron Microscope, Model EM 201. Manufacturer: Philips Eleteronic Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used for ultrastructural studies on human pituitary tissue obtained from autopsies and surgical specimens, a major component of an ongoing correlated light and electron microscopic study of the normal and pathological human pituitary gland. The article will also be used for ultrastructural studies of human brain and muscle biopsies. In addition the article will be used for training to familiarize residents in neurosurgery, neurology and pathology with the diagnostic potential of electron microscopy and the necessity for proper procedure in obtaining tissue for electron microscopy as well as to impart factual

knowledge regarding the ultrastructural characteristics of various neurological and muscular disorders.

Comments: No comments have been received with respect to this application.

Decision: Application Denied. An instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: This application is a resubmission of Docket Number 74–00275–33–46040 which was denied without prejudice to resubmission on May 22, 1974 for informational deficiencies.

The applicant alleges in reply to Question 8 that the following specifications of the article are pertinent to his intended purposes and are not matched in the Model EMU–4C electron microscope, supplied by the Adam David Company.

(1) A magnification range of 1600 to 200,000x, and a scanning magnification of 200x;

(2) An automatic plate numbering device in order to provide positive identification of the negatives; and

(3) Simplicity of operation in order that resident physicians can use the article after a minimal period of instruction. The Department of Health, Education, and Welfare (HEW) reviewed this application and compared the alleged pertinent specifications of the article with those of the EMU–4C, which it deemed the most closely comparable domestic electron microscope. HEW advises in its memorandum dated November 6, 1974 that (1) The use of low scanning magnifications is intended for cell recognition and special correlation of relatively large structures wherein minor distortions and differences between 200x and 400x [the capability of the Model EMU–4C] are not pertinent. (We note that the domestic Model EMU–4C electron microscope provides a magnification range of 1400 to 240,000x with 400x for scanning without a pole piece change.) HEW also advises that (2) an automatic plate numbering device is intended for the care and treatment of patients and not for scientific research or educational purposes, and is otherwise a convenience which is not necessary for accomplishing the intended research or educational purposes. Finally, HEW advises that (3) the teaching intended by the applicant is at a relatively sophisticated level wherein simplicity of operation is not pertinent; moreover, HEW is not convinced that the article is simpler and easier to operate than the domestic Model EMU–4C.

HEW concludes that the applicant provides no pertinent specification within the meaning of subsection 701.2(z) of the regulations upon which duty-free entry could be based.

Accordingly, we find that the EMU–4C is of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

TELECOMMUNICATIONS EQUIPMENT TECHNICAL ADVISORY COMMITTEE

Notice of Partially Closed Meeting and Agenda

Pursuant to the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. II, 1972) notice is hereby given that a meeting of the Telecommunications Equipment Technical Advisory Committee will be held Tuesday, January 28, 1975, at 9:30 am., in Room 3708, Main Commerce Building, 14th and Constitution Avenue, NW., Washington, D.C.

The Committee[1] was established to advise the Office of Export Administration, Bureau of East-West Trade, with respect to questions involving technical matters, world-wide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to telecommunications equipment, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls.

The Committee meeting agenda has five parts:

GENERAL SESSION

(1) Opening remarks by the Chairman.

(2) Presentation of papers or comments by the public.

(3) Report on Telecommunications Technical Seminar in Poland.

(4) Discussion of draft sections on Findings of the Second Annual Report due March 1975.

EXECUTIVE SESSION

(5) a. Conclusions and Recommendations—draft reports.

b. Update on progress of COCOM negotiations.

The public will be permitted to attend the General Session, at which a limited number of seats will be available to the public. To the extent time permits members of the public may present oral statements to the Committee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (5), the Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on December 16, 1974, pursuant to section 10(d) of the Federal Advisory Committee Act that the matters to be discussed in the Executive Session should be exempt from the provisions of the Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552(b)(1), i.e., it is specifically required by Executive Order 11652 that they be kept confidential in the interest of the national security. (A copy of the determination follows this notice.) All Committee members have appropriate security clearances.

Minutes of the open portion of the meeting will be available upon written request addressed to the Central Reference and Records Inspection Facility, Room 7043, U.S. Department of Commerce, Washington, D.C. 20230.

For further information, contact Mr. Charles C. Swanson, Director Operations Dvision, Office of Export Administration, Room 1620, U.S. Department of Commerce, Washington, D.C. 20230, telephone: A/C 202/967–4196.

In accordance with paragraph (4) of the Order of the United States District Court for the District of Columbia in Aviation Consumer Action Project, et al., v. C. Langhorne Washburn, et al., September 10, 1974, as amended, September 23, 1974 (Civil Action No. 1636–73), the Complete Notice of Determination to close portions of the meetings of the Telecommunications Equipment Technical Advisory Committee is hereby published.

Dated: December 23, 1974.

RAUER H. MEYER,
Acting Director, Bureau of East-West Trade, U.S. Department of Commerce.

[1] Determination filed as a part of the original document.

National Oceanic and Atmospheric Administration

INTERIM CONVENTION ON CONSERVATION OF NORTH PACIFIC FUR SEALS

Renegotiation and Preparation of Environmental Impact Statement

The Interim Convention on Conservation of North Pacific Fur Seals was signed in Washington, D.C. on February 9, 1957, on behalf of the Governments of Canada, Japan, the Union of Soviet Socialist Republics, and the United States of America. The Interim Convention came into force on October 14, 1957, and was amended by a Protocol which was signed in Washington on October 8, 1963, and entered into force on April 10, 1964. The Protocol extended the term of the Interim Convention for an additional six years, and effected several changes. The Interim Convention was, as amended, continued in force for a further period of six years by an exchange of notes which became effective on September 3, 1969.

Pursuant to Article XIII, paragraph 4, regarding the term of the Interim Convention, as amended, the United States intends to initiate the renegotiation of the Convention in March 1975. In connection with the renegotiation, the National Marine Fisheries Service has determined that a Draft Environmental Impact Statement will be prepared prior to initiation of renegotiation.

Anyone with views or information regarding the preparation of the Draft

Environmental Impact Statement is invited to transmit such views or information to the Director, National Marine Fisheries Service, Washington, D.C. 20235 by December 31, 1974.

Dated: December 13, 1974.

JACK W. GEHRINGER,
Acting Director.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Alcohol, Drug Abuse, and Mental Health Administration

NATIONAL ADVISORY COUNCIL ON ALCOHOL ABUSE AND ALCOHOLISM

Notice of Rechartering

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Pub. L. 92-463, 86 Stat. 770-776), the Alcohol, Drug Abuse, and Mental Health Administration announces the rechartering by the Secretary, Department of Health, Education, and Welfare, on December 13, 1974, of the National Advisory Council on Alcohol Abuse and Alcoholism in accordance with section 14(b)(2) of said Act.

Dated: December 19, 1974.

JAMES D. ISBISTER,
Acting Administrator, Alcohol, Drug Abuse, and Mental Health Administration.

Center for Disease Control

IMMUNIZATION PRACTICES ADVISORY COMMITTEE

Meeting

Pursuant to the Federal Advisory Committee Act (Pub. L. 92-463), the Director, Center for Disease Control, announces the meeting dates and other required information for the following National Advisory body which is scheduled to assemble during the month of January 1975.

Committee name	Date, time, place	Type of meeting and/or contact person
Immunization Practices Advisory Committee.	Jan. 15 to Jan. 16, 1975—8:30 a.m., room 207, Bldg. 1, Center for Disease Control, Atlanta, Ga. 30333.	Open—contact H. Bruce Dull, M.D., Bldg. No. 1—room 224, Center for Disease Control, Atlanta, Ga. 30333. Code: 404-633-3311, extension 3701.

Purpose. The Committee is charged with advising on the appropriate uses of immunizing agents for public health practice.

Agenda. The Committee will consider the current status of BCG vaccine in the prevention and control of tuberculosis in the United States. It will also continue its regular review of recommendations on the use of vaccines in public health practice.

Agenda items are subject to change as priorities dictate.

The meeting is open to the public for observation and participation. A roster of members and other relevant information regarding the meeting may be obtained from the contact person listed above.

Dated: December 18, 1974.

H. BRUCE DULL,
Acting Director,
Center for Disease Control.

[FR Doc.74-30302 Filed 12-26-74;8:45 am]

OCCUPATIONAL SAFETY AND HEALTH

Request for Information on Certain Chemical Agents

Section 20(a)(3) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 669(a)(3)) provides that the Secretary of Health, Education, and Welfare, on the basis of information available to him, shall develop criteria dealing with toxic materials which will describe exposure levels that are safe for various periods of employment. Section 22(c) of the Act authorizes the National Institute for Occupational Safety and Health (NIOSH) to develop recommended occupational safety and health standards and to perform all functions of the Secretary of Health, Education, and Welfare, under sections 20 and 21 of the Act. NIOSH is proposing to develop criteria documents and recommended occupational health standards on the following substances:

1. Methyl Parathion.
2. Carbaryl.
3. Malathion.

Each criteria document will include among other items an evaluation of available information relative to the areas listed below.

Any person having information or data in any of the areas listed below, or in other areas considered relevant to the establishment of a safe and healthful occupational environment involving these substances is requested to submit such information, with accompanying documentation to Acting Director, Office of Research and Standards Development, NIOSH, 5600 Fishers Lane, Rockville, MD 20852 on or before March 27, 1975.

1. Establishment of safe occupational environment levels for such agents including levels for acute and chronic exposure to airborne concentrations of the chemical agents as well as safe practices concerning direct contact with such agents.

2. Establishment of biologic standards, i.e., the levels of such agents, metabolites, or other effects of exposure which may be present within man without his suffering ill effects taking into consideration (a) the correlation of airborne concentrations of, and extent of exposure to such substances with effects on specific biological systems of man such as the circulatory, respiratory, urinary, and nervous system, and (b) the analytical methods for determining the amount of the substance which may be present within man.

3. Engineering controls, including ventilation, environmental temperature, humidity, and housekeeping and sanitation procedures, with attention to the technological feasibility of such controls.

4. Specifications for the conditions under which personal protective devices should be required.

5. Methodology, including instrumentation, for air sampling and sample analysis of chemical agents and methodology for measuring levels of exposure to physical agents.

6. The need for medical examinations for workers exposed to such agents, the frequency of such examinations, and the specific diagnostic tests which should be used and the rationale of their selection.

7. Work practices or procedures which may be instituted for control of the workplace environment in normal operations and those which may be instituted when environmental levels are temporarily exceeded or where peak concentrations of chemical agents in man are reached.

8. The types of records concerning occupational exposure to such agents that employers should be required to maintain.

9. Warning devices and labels which should be required for the prevention of occupational diseases and hazards caused by such agents.

All information received concerning these substances will be available for public inspection after the development of the respective criteria document.

Dated: December 20, 1974.

EDWARD J. BAIER,
Acting Director, National Institute for Occupational Safety and Health.

National Institutes of Health

AD HOC REVIEW GROUP ON BREAST CANCER TREATMENT

Notice of Establishment

The Director, National Institutes of Health, announces the establishment on December 11, 1974, of the advisory committee indicated below by the Director, National Cancer Institute, under the authority of section 410(a)(3) of the Public Health Service Act (42 U.S.C. 286d). Such advisory committee shall be governed by the provisions of the Federal Advisory Committee Act (Public Law 92-463) setting forth standards governing the establishment and use of advisory committees.

Name: Ad Hoc Review Group on Breast Cancer Treatment.

Purpose: The Committee provides to the Director, NCI and the Director, Division of Cancer Biology and Diagnosis, advice on matters relating to the treatment of breast cancer and assistance in the technical and scientific review of contract proposals in this area. The Committee will terminate on February 11, 1976.

R. W. LAMONT-HAVERS.

DECEMBER 20, 1974.

HUMAN EMBRYOLOGY AND DEVELOPMENT STUDY SECTION, DIVISION OF RESEARCH GRANTS

Amended Notice of Meeting

Notice is hereby given of a change in the meeting date of the Human Embryology and Development Study Section, Division of Research Grants, which was published in the FEDERAL REGISTER on November 29, 1974 (39 FR 41571).

The Human Embryology and Development Study Section was to have convened at 9 a.m. on January 8–11, 1975, but has been changed to 9 a.m. January 9–11, 1975 at Building 31, Bethesda, Maryland 20014, the same location for which it was originally scheduled.

The meeting will be open to the public for approximately one hour at the beginning of the first session of the first day of the meeting.

SUZANNE L. FREEMAN,
Committee Management Officer,
National Institutes of Health.

PULMONARY YOUNG INVESTIGATOR GRANT COMMITTEE

Notice of Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Pulmonary Young Investigator Grant Committee, National Heart and Lung Institute, February 3 and 4, 1975, National Institutes of Health, Building 31, Conference Room 7.

This meeting will be open to the public from 8:30 a.m. to 9:30 a.m. on February 3, 1975 for an introduction to the program and discussion of review procedures. Attendance by the public will be limited to space available. In accordance with the provisions set forth in sections 552(b)(4) and 552(b)(6), title 5, U.S. Code and section 10(d) of Pub. L. 92-463, the meeting will be closed to the public on February 3 from 9:30 a.m. to adjournment for the review, discussion and evaluation of individual grant applications. The applications contain information of proprietary or confidential nature, including detailed research protocols, designs, and other technical information; financial data, such as salaries; and personal information concerning individuals associated with the applications.

Mr. York Onnen, Chief, Public Inquiries and Reports Branch, National Heart and Lung Institute, Building 31, Room 5A21, NIH, Bethesda, Maryland 20014, phone (301) 496-4236, will provide summaries of the meeting and rosters of the committee members.

Dr. Robert C. Stroud, Review Branch, Division of Extramural Affairs, National Heart and Lung Institute, Westwood Building, Room 552A, phone (301) 496-7915, will furnish substantive program information.

(Catalog of Federal Domestic Assistance Program No. 13.836, National Institutes of Health)

SUZANNE L. FREEMAN,
Committee Management Officer, NIH.

Office of Education

EXEMPLARY PROJECTS FOR THE DEVELOPMENT OF PRESERVICE TEACHER PREPARATION PROGRAMS

Notice of Closing Date for Receipt of Applications

Notice is hereby given that pursuant to the authority contained in the Cooperative Research Act, Public Law 83-531, as amended, 20 USC 331, applications are being accepted for non-competing continuation grants under the Right to Read Program for the Development of Preservice Teacher Preparation Programs. No new grants will be awarded under this program.

In order to be considered for support, applications should be received by the U.S. Office of Education Application Control Center on or before March 14, 1975.

A. *Applications sent by mail.* An application sent by mail should be addressed as follows: U.S. Office of Education, Application Control Center, 400 Maryland Avenue SW, Washington D.C. 20202, Attention: 13.533. An application sent by mail will be considered to be received on time by the Application Control Center if:

(1) the Application was sent by registered or certified mail not later than the fifth calendar day prior to the closing date or if such fifth calendar day is a Saturday, Sunday, or Federal Holiday, not later than the next following business day, as evidenced by the U.S. Postal Service postmark on the original receipt from the U.S. Postal Service; or

(2) The application is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail rooms in Washington, D.C. In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.

B. *Hand delivered applications.* An application to be hand delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D. Streets, S.W., Washington, D.C. 20202.

Hand delivered applications will be accepted daily between the hours of 8:30 a.m. and 4 p.m. Washington time except Saturdays, Sundays, or Federal Holidays. Applications will not be accepted after 4 p.m. on the

C. *Authority.* The regulations applicable to this program include the Office of Education General Provisions Regulations (45 CFR 100a) and the General Regulations for Right to Read (45 CFR Part 151, Subpart A, published in the FEDERAL REGISTER on June 20, 1974 in Volume 39, Number 120, page 22147). In addition, the final regulation specifically governing the Preservice Teacher Preparation Program was published in the FEDERAL REGISTER on June 20, 1974, at 39 FR 22148.

D. *Program Information and forms.* Information and application forms may be obtained from the Right to Read Program, U.S. Office of Education, Room 2131, 400 Maryland Avenue, SW, Washington, D.C. 20202.
(20 U.S.C. 331a(a)(1))

(Catalog of Federal Domestic Assistance Number 13.533; Right to Read—Elimination of Illiteracy)

Dated: December 17, 1974.

T. H. BELL,
U.S. Commissioner of Education.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

U.S. ADVISORY COMMITTEE ON VISUAL AIDS TO APPROACH AND LANDING

Notice of Renewal

Notice is hereby given that the U.S. Advisory Committee on Visual Aids to Approach and Landing is being renewed. The Airports Service is the sponsor of the Committee which consists of a group of 14 experts on airport ground visual aids. The Committee develops information and data in support of proposals to be submitted by the United States to the ICAO Visual Aids Panel for consideration and/or positions to be taken by the United States relating to proposed international standards and recommended practices for airport ground visual aids. The Committee's activity is limited to those visual aids matters which have international implications.

The Secretary of Transportation has determined that the formation and use of the U.S. Committee on Visual Aids to Approach and Landing are necessary in the public interest in connection with the performance of duties imposed on the Federal Aviation Administration by law. Meetings of the Committee will be open to the public.

Issued in Washington, D.C. on December 17, 1974.

J. STUART JAMISON,
Acting Chairman, U.S. Advisory Committee on Visual Aids to Approach and Landing.

[FR Doc.74-30153 Filed 12-26-74;8:45 am]

U.S. TERMINAL INSTRUMENT PROCEDURES (TERPS) ADVISORY COMMITTEE

Notice of Establishment

Notice is hereby given of the establishment of the U.S. Terminal Instrument Procedures (TERPS) Advisory Committee. The Flight Standards Service is the sponsor of the committee, and members include representatives of the Federal Aviation Administration, Department of Defense, and civil aviation organizations. The committee will participate in the development, official adoption, promulgation and annual review of the TERPS standards for use in terminal areas of civil and military airports. TERPS standards are published as an FAA publication jointly signed by officials of the Federal Aviation Administration, the U.S. Army, the U.S. Navy, the U.S. Air Force, and the U.S. Coast Guard.

The Secretary of Transportation has determined that the formation and use of the U.S. Terminal Instrument Procedures (TERPS) Advisory Committee are necessary in the public interest in connection with the performance of duties imposed on the Federal Aviation Administration by law.

Issued in Washington, D.C. on December 18, 1974.

JAMES A. FORGAS,
Chairman, U.S. Terminal Instrument Procedures (TERPS) Advisory Committee.

[FR Doc.74-30151 Filed 12-26-74;8:45 am]

National Highway Traffic Safety

YOUTH HIGHWAY SAFETY ADVISORY COMMITTEE

Notice of Renewal

Notice is hereby given that the Youth Highway Safety Advisory Committee is being renewed. The Committee is composed of persons appointed by the National Highway Traffic Safety Administrator to consult with and advise him concerning programs and activities to attract and sustain the participation of young people in the national effort to combat highway deaths and injuries. The National Highway Traffic Safety Administration sponsors the Committee, which consists of 15 Members between the ages of 15–24.

The Committee reviews highway safety programs as they relate to young people and advises the Administrator on those aspects of the safety standards and countermeasures programs relating to young people. The Committee is limited to advisory functions only.

The Secretary of Transportation has determined that the formation and use of the Youth Highway Safety Advisory Committee are necessary in the public interest in connection with the performance of duties imposed on the Department by law.

Issued in Washington, D.C. on December 18, 1974.

CRAIG L. MILLER,
Acting Executive Secretary.

ATOMIC ENERGY COMMISSION

[Docket No. P-507-A]

NEW YORK STATE ELECTRIC & GAS CORP.

Notice of Receipt of Partial Application for Construction Permit and Facility License: Time for Submission of Views on Antitrust Matters

New York State Electric and Gas Corporation (the applicant), pursuant to section 103 of the Atomic Energy Act of 1954, as amended, has filed one part of an application, dated November 27, 1974, in connection with its plans to construct and operate 2 boiling water reactors in the Town of Somerset, Niagara County, New York. The portion of the application filed contains the information requested by the Attorney General for the purpose of an antitrust review of the application as set forth in 10 CFR Part 50, Appendix L.

The remaining portion of the application consisting of a Preliminary Safety Analysis Report accompanied by an Environmental Report, pursuant to § 2.101 of Part 2, is expected to be filed during September 1975. Upon receipt of the remaining portions of the application dealing with radiological health and safety and environmental matters, separate notices of receipt will be published by the Commission including an appropriate notice of hearing.

A copy of the partial application is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C., 20545. Docket No. P-507-A has been assigned to the application and it should be referenced in any correspondence relating to it.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before February 25, 1975.

Dated at Bethesda, Maryland, this 18th day of December 1974.

For the Atomic Energy Commission.

WALTER R. BUTLER,
Chief, Light Water Reactors Projects Branch 1-2, Directorate of Licensing.

[Docket No. 50-367]

NORTHERN INDIANA PUBLIC SERVICE CO.

Notice and Order Setting Evidentiary Hearing

In the matter of NORTHERN INDIANA PUBLIC SERVICE COMPANY (Bailly Generating Station, Nuclear-1).

On December 16, 1974, the Atomic Safety and Licensing Appeal Board remanded the above-captioned case for further evidentiary proceedings confined to the question of the environmental impact, if any, of slurry wall construction. The further proceedings are to commence on or before January 6, 1975. The purpose of the further proceedings is to permit the Joint Intervenors and the State of Illinois (1) to cross-examine such of the witnesses of the Permittee and the AEC Regulatory Staff (the Staff) as they desire; and (2) to present their own affirmative relative evidence.

In connection with this further evidentiary proceeding, the Joint Intervenors and the State of Illinois are to designate on or before December 27, 1974,

the witnesses of the Permittee and the Staff whom they wish to cross-examine at this further evidentiary hearing.

In addition, the Joint Intervenors and the State of Illinois are to supply the name, address and field of expertise of any witnesses they intend to present as soon as such witnesses have been identified. If possible, advance written testimony will be filed for these witnesses.

Please take notice that the further evidentiary proceedings will commence on Friday, January 3, 1975, in the vicinity of Chicago, Illinois, or in the vicinity of the Bailly site. The exact location of the hearing will be supplied by later notice and order.

Members of public are invited to attend this further evidentiary hearing.

Issued at Bethesda, Maryland, this 19th day of December 1974.

By order of the Atomic Safety and Licensing Board.

DANIEL M. HEAD,
Chairman.

[Docket No. 50-317]

BALTIMORE GAS AND ELECTRIC CO.

Issuance of Amendment to Facility Operating License

Notice is hereby given that the U.S. Atomic Energy Commission (the Commission) has issued Amendment No. 6 to Facility Operating License No. DPR-53 issued to Baltimore Gas and Electric Company which revised Technical Specifications for operation of the Calvert Cliffs Nuclear Power Plant, Unit 1, located in Calvert County, Maryland. The amendment is effective as of its date of issuance.

The amendment modifies the specifications to delete some of the Appendix A Technical Specifications Requirements and to supplement the remainder with specification needed to assure safe conditions during reactor shutdown operations to inspect and recouple several control element assemblies that were not recoupled to their respective extension shafts following a recent core inspection.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Ch. I, which are set forth in the license amendment.

For further details with respect to this action, see (1) the application for amendment, dated December 19, 1974, (2) Amendment No. 6 to License No. DPR-53, with any attachments, and (3) the related safety evaluation contained in the Commission's letter to Baltimore Gas and Electric Company. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C., and at the Calvert County Library, Prince Frederick, Maryland 20678.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing-Regulation.

Dated at Bethesda, Maryland, this 20th day of December 1974.

For the Atomic Energy Commission.

OLAN D. PARR,
Chief, Light Water Reactors Project Branch 1-3, Directorate of Licensing.

[Docket No. 50-317]

BALTIMORE GAS AND ELECTRIC CO.

Issuance of Amendment To Facility Operating License

Notice is hereby given that the U.S. Atomic Energy Commission (the Commission) has issued Amendment No. 5 to Facility Operating License No. DPR-53 issued to Baltimore Gas and Electric Company which revised Technical Specifications for operation of the Calvert Cliffs Nuclear Power Plant, Unit 1, located in Calvert County, Maryland. The amendment is effective as of its date of issuance.

The amendment modifies the Specifications to require that the baseline reactor internals vibration surveillance measurements be made at 20 percent, 50 percent, 80 percent and 100 percent power levels.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Ch. I, which are set forth in the license amendment.

For further details with respect to this action, see (1) the application for amendment, dated December 9, 1974, (2) Amendment No. 5 to License No. DPR-53, with any attachments, and (3) the related safety evaluation contained in the Commission's letter to Baltimore Gas and Electric Company. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and at the Calvert County Library, Prince Frederick, Maryland 20678.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing—Regulation.

Dated at Bethesda, Maryland, this 20th day of December 1974.

For the Atomic Energy Commission.

OLAN D. PARR,
Chief, Light Water Reactors Project Branch 1-3, Directorate of Licensing.

[Docket Nos. 50-369, 50-370]

DUKE POWER CO.

Notice and Order Scheduling Prehearing Conference

In the matter of Duke Power Co. (William B. McGuire Nuclear Station, Units 1 and 2).

Take Notice, that in accordance with the "Notice of Hearing on Application for Facility Operating License" published by the Atomic Energy Commission in the FEDERAL REGISTER on October 7, 1974 (39 FR 36037), a prehearing conference will be held in the above captioned proceeding on January 16, 1974, at 10:00 a.m., local time in the Mecklenburg County Administration Building, Fourth Floor Commissioners' Meeting Room, 720 East Fourth Street, Charlotte, North Carolina 28202.

The Prehearing Conference will deal with the following matters:

1. Identification of the key issues in the proceeding.
2. Consideration of the intervention petition filed by the Carolina Environmental Study Group, to allow the Atomic Safety and Licensing Board to make such preliminary or final determination as to the specification of controverted matters, as may be appropriate, and
3. Establishment of a schedule for further actions in this proceeding.

Members of the public are welcome to attend the conference of parties or their counsel, however no evidence will be received and no limited appearance statements will be accepted at the prehearing conference. Statements by members of the public making limited appearances will be received at the commencement of the evidentiary hearing which will be scheduled at a later date.

Issued at Bethesda, Maryland this 20th day of December, 1974.

For the Atomic Safety and Licensing Board.

ROBERT M. LAZO,
Chairman.

DUQUESNE LIGHT CO.

Reconstitution of Board

In the matter of Duquesne Light Company (Beaver Valley Unit 1).

Dr. John C. Geyer was a member of the Atomic Safety and Licensing Board established to consider the above application. Dr. Geyer is retiring from the Atomic Safety and Licensing Board Panel.

By Order of the Commission, Gustave A. Linenberger, whose address is Atomic Safety and Licensing Board Panel, U.S. Atomic Energy Commission, Washington, D.C. 20545, has been appointed a member of the Board. Reconstitution of the Board in this manner is in accordance with § 2.721 of the rules of practice, as amended.

Dated at Bethesda, Maryland, this 20th day of December, 1974.

The Atomic Safety and Licensing Board Panel.

NATHANIEL H. GOODRICH,
Chairman.

[Docket Nos. STN 50-522 and STN 50-523]

PUGET SOUND POWER AND LIGHT CO. ET AL.

Receipt of Application for Construction Permits and Licenses

Notice of receipt of application for construction permits and facility licenses and availability of applicants' environmental report and certain site suitability information; time for submission of views on antitrust matters.

The Puget Sound Power and Light Company, acting for itself and as agent for the Pacific Power and Light Company, The Washington Water Power Company, the Idaho Power Company, and the Washington Public Power Supply System (the applicants), pursuant to section 103 of the Atomic Energy Act of 1954, as amended, have filed an application, which was docketed September 30, 1974, for authorization to construct and operate two generating units utilizing two boiling water reactors. The application was tendered on August 6, 1974. Following a preliminary review for completeness, the application [environmental report and site suitability information required for an authorization to conduct certain on-site work in accordance with 10 CFR § 50.10(e)] was found to be acceptable for docketing. Docket Nos. STN 50-522 and STN 50-523 have been assigned to the application and they should be referenced in any correspondence relating to the application. The Preliminary Safety Analysis Report, which was tendered on November 27, 1974, is undergoing a preliminary review to determine its acceptability for a detailed review.

The proposed nuclear facilities, designated by the applicants as the Skagit Nuclear Power Project, Units 1 and 2, are to be located in Skagit County, Washington, approximately 5 miles northeast of Sedro Woolley. Each unit is designed for initial operation at approximately 3800 megawatts (thermal), with a net electrical output of approximately 1300 megawatts.

A notice of hearing with opportunity for public participation is being published separately.

Any person who wishes to have his views on the antitrust matters of the application presented to the Attorney General for consideration should submit such views to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Office of Antitrust and Indemnity, Directorate of Licensing, on or before February 19, 1975. The request should be filed in connection with Docket Nos. STN 50-522-A and STN 50-523-A.

A copy of the application is available for public inspection at the Commission's Public Document Room, 1717 H Street, NW, Washington, D.C. 20545, and at the Sedro Woolley Library, 802 Ball Avenue, Sedro Woolley, Washington 98284.

The applicants have filed, pursuant to the National Environmental Policy Act of 1969 and the regulations of the Commission in 10 CFR Part 51, an environmental report dated September 18, 1974. The report, which discusses environmental considerations related to the construction and operation of the proposed facilities is being made available for public inspection at the aforementioned locations and at the Office of the Governor, State Planning and Community Affairs Agency, Olympia, Washington 98504.

After the environmental report has been analyzed by the Commission's Director of Regulation or his designee, a draft environmental statement will be prepared by the Commission's Regulatory staff. Upon preparation of the draft environmental statement, the Commission will, among other things, cause to be published in the FEDERAL REGISTER a summary notice of availability of the draft statement, with a request for comments from interested persons on the draft statement. The summary notice will also contain a statement to the effect that comments of Federal agencies and State and local officials will be made available when received. Upon consideration of comments submitted with respect to the draft environmental statement, the Regulatory staff will prepare a final environmental statement, the availability of which will be published in the FEDERAL REGISTER.

Dated at Bethesda, Maryland, this 11th day of December, 1974.

For the Atomic Energy Commission.

JOHN F. STOLZ,
Chief, Light Water Reactors Project Branch 2-1, Directorate of Licensing.

[FR Doc.74-30393 Filed 12-19-74;8:45 am]

[Docket Nos. 50-445, 50-446]

TEXAS UTILITIES GENERATING CO., ET AL.

Issuance of Construction Permits

Notice is hereby given that, pursuant to the Initial Decisions of the Atomic Safety and Licensing Board, dated October 11, 1974, and December 12, 1974, the Atomic Energy Commission (the Commission) has issued Construction Permits No. CPPR-126 and No. CPPR-127 to the Texas Utilities Generating Company, Dallas Power and Light Company, Texas Electric Service Company, and Texas Power and Light Company, for construction of two pressurized water nuclear reactors at the applicants' site in Somervell County, Texas. The proposed reactors, known as the Comanche Peak Steam Electric Station, Units 1 and 2, are each designed for a rated

power of approximately 3411 megawatts thermal with a net electrical output of approximately 1159 megawatts.

The Initial Decisions are subject to review by an Atomic Safety and Licensing Appeal Board prior to their becoming final. Any decision or action taken by an Atomic Safety and Licensing Appeal Board in connection with the Initial Decisions may be reviewed by the Commission.

The Commission has made appropriate findings as required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations in 10 CFR Ch. I, which are set forth in the construction permits. The application for the construction permits complies with the standards and requirements of the Act and the Commission's rules and regulations.

The construction permits are effective as of their date of issuance. The earliest dates for the completion of the facilities are August 1, 1979 and August 1, 1981, for Units 1 and 2 respectively, and the latest dates for completion are August 1, 1981 and August 1, 1983, for Units 1 and 2 respectively. Each permit shall expire on the latest date for completion of the facility for which it is issued.

A copy of (1) the Initial Decisions, dated October 11, 1974, and December 12, 1974; (2) Construction Permits Nos. CPPR–126 and CPPR–127; (3) the report of the Advisory Committee on Reactor Safeguards, dated October 18, 1974; (4) the Directorate of Licensing's Safety Evaluation Report, dated September 3, 1974, and Supplement No. 1 to the Safety Evaluation Report, dated November 15, 1974; (5) the Preliminary Safety Analysis Report and amendments thereto; (6) the applicants' Environmental Report dated June 5, 1973, and supplements thereto; (7) the Draft Environmental Statement dated February 1974; and (8) the Final Environmental Statement dated June 1974 are available for public inspection at the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C. and at the Somervell County Public Library, On the Square, P.O. Box 417, Glen Rose, Texas. A copy of the construction permits, the Safety Evaluation Report, and its Supplement No. 1 may be obtained upon request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

Dated at Bethesda, Maryland, this 19th day of December, 1974.

For the Atomic Energy Commission.

D. B. VASSALLO,
Chief, Light Water Reactors Project Branch 1–1, Directorate of Licensing—Regulation.

[FR Doc.74–30170 Filed 12–26–74;8:45 am]

[Docket Nos. 50–434, 50–435]

VIRGINIA ELECTRIC AND POWER CO.

Issuance of Construction Permits

Notice is hereby given that, pursuant to the Initial Decision of the Atomic Safety and Licensing Board, dated December 16, 1974, the Atomic Energy Commission (the Commission) has issued Construction Permits Nos. CPPR–124 and CPPR–125 to the Virginia Electric and Power Company for construction of two pressurized water nuclear reactors at the applicant's site in Surry County, Virginia. The proposed reactors known as the Surry Power Station, Units 3 and 4, each designed for a rated power of 2631 megawatts thermal with a net electrical output of 859 megawatts.

The Initial Decision is subject to review by an Atomic Safety and Licensing Appeal Board prior to its becoming final. Any decision or action taken by an Atomic Safety and Licensing Appeal Board in connection with the Initial Decision may be reviewed by the Commission.

The Commission has made appropriate findings as required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations in 10 CFR Ch. I, which are set forth in the construction permits. The application for the construction permits complies with the standards and requirements of the Act and the Commission's rules and regulations.

The construction permits are effective as of their date of issuance. The earliest date for the completion of Unit 3 is November 1, 1982, and the latest date for completion is December 15, 1983. The earliest date for the completion of Unit 4 is November 1, 1983, and the latest date for completion is December 15, 1984. Each permit shall expire on the latest date for completion of the facility.

A copy of (1) the Initial Decision, dated December 16, 1974; (2) Construction Permits Nos. CPPR–124 and CPPR–125; (3) the report of the Advisory Committee on Reactor Safeguards, dated July 16, 1974; (4) the Directorate of Licensing's Safety Evaluation, dated May 23, 1974 and supplement thereto; (5) the Preliminary Safety Analysis Report and amendments thereto; (6) the applicant's Environmental Report, dated April 1973 and supplements thereto; (7) the Draft Environmental Statement, dated February 1974; and (8) the Final Environmental Statement, dated May 1974, are available for public inspection at the Commission's Public Document Room at 1717 H Street, NW, Washington, D.C. and the Swem Library, College of William and Mary, Williamsburg, Virginia 23185. Copies of the construction permits and the Safety Evaluation may be obtained upon request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing-Regulation.

Dated at Bethesda, Maryland, this 20th day of December, 1974.

For the Atomic Energy Commission.

A. SCHWENCER,
Chief, Light Water Reactors Branch 2–3, Directorate of Licensing.

[FR Doc.74–30169 Filed 12–26–74;8:45 am]

CIVIL AERONAUTICS BOARD

[Docket 26903; Order 74–12–80]

ALASKA AIRLINES, INC.

Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C.

On August 30, 1974, Alaska Airlines, Inc., filed a motion for leave to file an otherwise unauthorized document, accompanied by a petition requesting the Board to approve and establish, under section 406 of the Federal Aviation Act of 1958, a fuel surcharge applicable to mail transported by Alaska in its intra-Alaska service. Alaska does not desire at this time to institute proceedings leading to a general reexamination of its service mail rates but only requests that a fuel surcharge, to be effective September 1, 1974, be added to its present service mail rates.[1] Alaska's petition describes the substantial increases in fuel prices which have occurred since final service mail rates were established for the carrier's intra-Alaska services and seeks the establishment of a fuel surcharge based on current fuel costs. By answer filed September 6, 1974, the U.S. Postal Service indicates its support for the relief requested by Alaska.

Under the Board's rules,[2] a petition seeking an adjustment in a mail rate must challenge that rate. Since Alaska makes no request that its entire mail rate be opened, the carrier's petition fails to meet the requirements of our rules and does not serve to open its service mail rates. We will, however, treat Alaska's filing as a petition requesting the Board to institute a mail rate proceeding to determine a fuel-related surcharge on a prospective basis for its intra-Alaska mail service.[3] We take this action because we are aware that Alaska, like the other air carriers, has experienced significant fuel cost increases.

Alaska was granted a five percent intra-Alaska passenger-fare increase, effective September 20, 1974, to compensate for the unusually high fuel costs it has been experiencing. In view of this, we will institute a proceeding proposing to amended Alaska's present intra-Alaska service mail rates to establish for the future a fuel-related surcharge. We will, therefore, open Alaska's intra-Alaska service mail rates to the extent necessary to consider an appropriate fuel surcharge. It is not the intent of this proceeding to conduct a definitive inquiry into all aspects of Alaska's mail operations, but to deal primarily with whatever reasonable adjustment is needed, under the present circumstances, to reflect increased fuel costs.

In support of its petition, Alaska states that Chevron International Oil Com-

---

[1] These rates were established by Order 71–2–56, February 10, 1971, and Order 71–2–102, February 23, 1971.

[2] Section 302.303(b) of the Board's Procedural Regulations.

[3] Therefore, Alaska's motion to file an unauthorized document will be denied except to the extent granted herein.

pany, Inc., who supplies all if its aviation fuel, has increased fuel prices, effective September 1, 1974, by 4.7 cents per gallon at all stations except Fairbanks where the increase was 6.39 cents. This is in addition to increases of four cents per gallon in 1973 and 4.5 cents on January 1, 1974. Based on the carrier's computations for the first six months of 1974, there has been a 58.6 percent increase in fuel cost per great-circle mail ton-mile over the fiscal year 1969 base period or an increase of 4.66 cents per great-circle mail ton-mile. The computations for the amended priority and nonpriority rates, herein, are set out in the attached Appendix.

Based on our review of the data submitted with Alaska's petition, plus additional data subsequently provided by Alaska,[4] and data provided in their Form 41 reports, we find that it is appropriate to base a fuel surcharge for Alaska on the percentage increase in fuel costs per great-circle mail ton-mile for the first half of 1974 over those for the fiscal year 1969 based period.

In view of the extraordinary fuel price increases experienced by the air carriers, we have determined to propose a fuel surcharge applicable to the carriage of mail by Alaska, effective on and after the adoption of this order. We also propose that upon application by Alaska or the Postmaster General, further adjustments of this surcharge may be made as warranted by any significant fluctuation in fuel costs which would otherwise constitute an undue burden upon the carrier or the U.S. Postal Service.

As we have previously indicated, this proceeding is primarily concerned with the limited issue of escalating fuel costs experienced by Alaska. Nevertheless, it is found from an examination of reported results that there is no reason to believe that Alaska's costs for transporting mail have declined, nor that the productivity achieved by this carrier could compensate for experienced fuel cost increases that have occurred since Alaska's intra-Alaska service mail rates were computed on the basis of fiscal year 1969 cost data. Based on the available information, it is clear that the addition of the fuel surcharge requested by Alaska is reasonable and will not result in an overpayment to the carrier for the carriage of mail.[5] While the Board does not favor opening a rate for an adjustment based on a change in only one element of cost, we recognize the unprecedented situation that has been occasioned by the world energy crisis and the resultant precipitous increase in fuel costs. Under the circumstances, no useful purpose would be served by a complete review of Alaska's intra-Alaska service mail rates, and this is particularly relevant since the Postmaster General supports the petitioner's request for a fuel-related surcharge. However, our action herein is limited to the specific circumstances of this case and is not to be considered a precedent in future proceedings.

Based on the foregoing, the Board tentatively finds and concludes that on and after December 20, 1974, the fair and reasonable final rates of compensation to be paid by the Postmaster General to Alaska Airlines, Inc., for the transportation of mail by aircraft over its intra-Alaska routes, the facilities used and useful therefor, and the services connected therewith, are those rates established in Order 71-2-102, February 23, 1971, plus a fuel surcharge of 4.66 cents per great-circle mail ton-mile as indicated in the Appendix: *Provided, however,* That if there is a further significant variation in the fuel cost per revenue ton-mile for scheduled services, the aforesaid fuel surcharge may be adjusted by further order of the Board upon application by the carrier or the Postmaster General accompanied by supportive fuel cost data.

Accordingly, pursuant to the Federal Aviation Act of 1958, particularly sections 204(a) and 406 thereof, and the Regulations promulgated in 14 CFR, Part 302,

It is ordered, That:

1. All interested persons, and particularly Alaska Airlines, Inc., and the Postmaster General, are directed to show cause why the Board should not amend Order 71-2-102, February 23, 1971, so as to adopt the following service mail rates per great-circle mail ton-mile effective on and after December 20, 1974: priority mail $1.3466 and nonpriority $1.0966, subject to the terms and conditions as set forth in Order 71-2-102;

2. The motion filed by Alaska is denied except to the extent granted herein;

3. Further procedures herein shall be in accordance with the Rules of Practice, 14 CFR Part 302, and if there is any objection to the rates and charges or to the related findings and conclusions proposed herein, notice thereof shall be filed within 10 days, and if notice is filed, written answer and supporting documents shall be filed within 30 days after the date of service of this order;

4. If notice of objection is not filed within 10 days, or if notice is filed and answer is not filed within 30 days after service of this order, or if an answer timely filed raises no material issue of fact, all persons shall be deemed to have waived the right to a hearing and all other procedural steps short of an order fixing final service mail rates and the Board may enter an order incorporating the findings and conclusions proposed herein and fix and determine the rates herein specified;

5. If notice of objection and answer are filed presenting issues for hearing, issues going to the establishment of the fair and reasonable rates herein [1] shall be limited to those specifically raised by such answers except as otherwise provided in 14 CFR 302.307; and

6. This order shall be served upon Alaska Airlines, Inc., and the Postmaster General.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

Administrative Law Judge.

[FR Doc.74-30104 Filed 12-26-74;8:45 am]

[Dockets 26260, 26494; Agreements C.A.B. 24714 R-4, 24816 R-1 through R-5, 24817 R-1 through R-6; Order 74-12-70]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Cargo Rate, Passenger Fare, and Currency Matters

Issued under delegated authority December 19, 1974.

Agreements have been filed with the Board, pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations, between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of the Traffic Conferences of the International Air Transport Association (IATA).

Agreement C.A.B. 24714, would revalidate Resolution 016h (North and Central Pacific Cargo Policy Study Group) through September 30, 1975.[1]

Agreement C.A.B. 24816 would amend various resolutions imposing currency-related surcharges on passenger fares from Iceland and Japan to reflect recent depreciations in the values of the Icelandic krona and Japanese yen. The Board has previously approved other IATA agreements reflecting the same

---

[4] Schedule F-6(b)—Fuel Consumption and Inventories—for the month of September 1974 was received on October 18, 1974.

[5] For fiscal year 1969, Alaska's reported results indicate total operating costs of 58.57 cents per revenue ton-mile. By fiscal year 1974, these costs had risen approximately 27 percent to 74.53 cents per revenue ton-mile.

[1] Filed as part of the original document.

[1] Agreement C.A.B. 24714 also proposes introduction of rates for B-747F aircraft containers, as well as a general 8 percent increase in all North/Central Pacific cargo rates; and would revalidate the underlying rate structure through September 30, 1975. Order 74-10-120 (October 23, 1974) established procedures for the disposition of these resolutions, which will be treated in a separate order.

surcharge levels from Iceland and Japan,[2] and the agreements now before us would merely clarify application of the surcharges to other world areas.

Agreement C.A.B. 24817 encompasses the revalidation, and amendment, of the TC2 (Europe/Middle East/Africa) fare structure through March 31, 1976. The agreement affects air transportation as defined by the Act only insofar as it involves normal fares, which are combinable with fares to/from U.S. points. We will approve those portions of the agreement, and disclaim jurisdiction with respect to the balance of the agreement.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.14:

1. It is not found that the following resolutions, incorporated in the agreements indicated, are adverse to the public interest or in violation of the Act:

R-2	002a	Special Readoption Resolution	2
24817:			
R-4	002d	TC2 Special Rules for Sales of Passenger Air Transportation (Revalidating and Amending).	2
R-5	002dd	TC2 Special Rules for Sales of Passenger Air Transportation (Revalidating and Amending).	2
R-6	311	Baggage Excess Weight Charges (Amending)	2

2. It is not found that the following resolutions, incorporated in Agreement C.A.B. 24817 as indicated, affect air transportation within the meaning of the Act:

Agreement CAB	IATA No.	Title	Application
24817:			
R-3	034e	Special Fares to/from United Kingdom	2
R-6	034r	Group Inclusive Tours from Scandinavia (Revalidating and Amending).	2
R-7	230h	TC2 Family Fares Between Points in Middle East and Between Libya and the Middle East (Revalidating and Amending).	2
R-8	002	Student Fares (Revalidating and Amending)	2

Accordingly, it is ordered, That: 1. Agreements C.A.B. 24714, R-4; C.A.B. 24816, R-1 through R-5; and C.A.B. 24817, R-1, R-2, R-4, R-5 and R-6, be and hereby are approved;

2. Jurisdiction be and hereby is disclaimed with respect to Agreement C.A.B. 24817, R-3, R-6, R-7, and R-8; and

3. The carriers are hereby authorized to file tariffs reflecting the provisions of the approved agreements, insofar as they apply in air transportation as defined by the Act, on not less than one day's notice for effectiveness not earlier than December 23, 1974. The authority granted in this paragraph expires January 20, 1975.

Persons entitled to petition the Board for review of this order pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

JAMES L. DEEGAN,
Chief, Passenger and Cargo Rates Division, Bureau of Economics.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

CIVIL SERVICE COMMISSION

FUND-RAISING ADVISORY COUNCIL

Charter Renewal

Pursuant to section 14 of the Federal Advisory Committee Act (Pub. L. 92-463) and OMB Circular A-63 Revised, March 27, 1974, notice is hereby given of the renewal of the charter of the Fund-Raising Advisory Council. The Council was established under the authority of Executive Order 10927. The objectives of the Council are to maintain liaison and to provide working relationships on a national scope between the Federal Government and private voluntary charitable organizations which seek to solicit Federal employees and military personnel on the job.

The Civil Service Commission certifies that the renewal of the Council is in the public interest. A new charter for the Council has been approved and filed as required.

[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.74-30263 Filed 12-26-74;8:45 am]

PRIVATE VOLUNTARY AGENCY ELIGIBILITY COMMITTEE

Charter Renewal

Pursuant to section 14 of the Federal Advisory Committee Act (Pub. L. 92-463) and OMB Circular A-63 Revised, March 27, 1974, notice is hereby given of the renewal of the charter of the Committee on Private Voluntary Agency Eligibility. The Committee was established under the authority of Executive Order 10927. Its objectives are to insure through prior review of applications and supplementary financial and accounting data, that only responsible and worthy national voluntary agencies are authorized to solicit on the job in Federal installations, and to make recommendations regarding certain other matters relating to fund-raising appeals.

The Civil Service Commission certifies that the renewal of this advisory committee is in the public interest. A new charter for the Committee has been approved and filed as required.

[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.74-30264 Filed 12-26-74;8:45 am]

COMMISSION ON THE ORGANIZATION OF THE GOVERNMENT FOR THE CONDUCT OF FOREIGN POLICY

CONGRESS AND CONGRESSIONAL-EXECUTIVE RELATIONS INTERNATIONAL ECONOMIC POLICY

Public Hearings

Notice is hereby given that the Commission on the Organization of the Government for the Conduct of Foreign Policy will hold public hearings, on the subject areas noted below, in San Francisco, California, on January 28, 1975, at 9:30 a.m., in the Ceremonial Courtroom of the U.S. District Courthouse, 450 Golden Gate, 19th Floor. A second day of hearings on January 29 will be held if necessary. The hearings are held in furtherance of the Commission's mandate, as stated in section 603(a) of Pub. L. 92-352 (92nd Congress, H.R. 14734):

Section 603(a) The Commission shall study and investigate the organization, methods of operation, and powers of all departments, agencies, independent establishments, and instrumentalities of the United States Government participating in the formulation and implementation of United States foreign policy and shall make recommendations which the Commission considers appropriate to provide improved governmental processes and programs in the formulation and implementation of such policy, including, but not limited to, recommendations with respect to—

(1) the reorganization of the departments, agencies, independent establishments, and instrumentalities of the executive branch participating in foreign policy matters;

(2) more effective arrangements between the executive branch and Congress, which will better enable each to carry out its constitutional responsibilities;

(3) improved procedures among departments, agencies, independent establishments, and instrumentalities of the United States Government to provide improved coordination and control with respect to the conduct of foreign policy;

(4) the abolition of services, activities, and functions not necessary to the efficient conduct of foreign policy; and

(8) other measures to promote peace, economy, efficiency, and improved administration of foreign policy.

The hearing will focus upon two specific subject areas:

1. *Congressional-Executive Relations.* The Commission is seeking views of informed persons on the Congressional-Executive relationship in the formulation and implementation of U.S. foreign policy, views offering specific criticism and recommendations for improving Congressional-Executive organization in the following areas:

Operational Congressional Reforms: Staffing and Support Systems.
Institutional Congressional Reforms: Committee Roles and Jurisdictions.
Congressional Oversight Over the Executive Branch and Foreign Policy.
Congressional-Executive Organization: Role of Congress and Executive Branch.
Congressional-Executive Organization: The Constitutional Framework.

A partial listing of some issues raised which testimony should focus upon include the organization of committee jurisdictions for efficient consideration of foreign policy issues; the utilization of staff and support to give expertise to the Congress in its partnership with the Executive on foreign policy matters; the Congressional oversight of foreign policy, including military programs and policies, and the intelligence agencies; Congress' access to timely information, the classification system, secrecy in foreign policy; Congress' role in the treaty-making process, and the use of Executive Agreements; the issue of constitutional primacy in foreign affairs between Congress and the Executive; use of force policies, war powers, and the Commander-in-Chief authority; the constitutional and practical aspects of Congress' power of the purse in foreign policy.

Testimony need not be limited to the above issues. The only restriction is that witnesses confine themselves to organizational, structural, and procedural matters and not to substantive policy matters.

2. *International Economic Policy.* The objective of the Commission in soliciting testimony from private sectory witnesses on the subject of international economic policy organization is to receive suggestions, comments and criticisms aimed at improving governmental organization in the following specific functional areas:

International Trade.
International Investment and Multinational Corporations.
International Finance, Monetary Policy and Taxation.
Economic Assistance to Less Developed Countries.
Raw Materials and Natural Resource Availability.
Labor.

Testimony should be directed at identifying problem areas and suggesting improvements in the organization, procedures, and personnel in the manner in which the Federal Government formulates, implements, and conducts international economic policy and maintains relations with the domestic business community. The Commission is interested in compiling a detailed perspective of the private sector's experiences in dealing with the Government in the field of international economic policy. Specifically, we hope that testimony should touch on such issues as the ability to make private sector attitudes known and understood in the Government, the ability to receive explanations of governmental policies and intentions, policy inconsistencies and shifting jurisdictional responsibilities among governmental agencies, and comparisons of organizational and procedural techniques with those of foreign governments. Testimony need not be limited to such issues; the only restriction is that witnesses confine themselves to organizational, procedural and personnel matters and not to substantive policy matters.

Interested persons are encouraged to present information and views in the course of the Commission's hearing, subject to the following conditions and procedures:

(1) Any person wishing to present information and views to the Commission shall submit a request in writing, specifying the date of the hearing for which the request is made, a concise summary of the proposed presentation, and the amount of time requested for oral testimony (if any). Such request must be received at the offices of the Commission no less than 14 days prior to the proposed hearing date.

(2) The Chairman shall, within three (3) days from receipt of any such request, notify the requesting person whether the proposed presentation is consistent with the legislative mandate of the Commission, and how much time (if any) can be allotted for oral testimony.

(3) Two (2) typewritten copies of all material to be presented to the Commission shall be filed with the Commission no less than two (2) business days prior to the hearing to which it relates. Any statement or material for which no time for oral presentation has been allotted or is available shall be included in the official hearing record.

(4) Any person who takes exception to any determination of the Commission may present in writing to any Commissioner the basis for such exception and thereafter the decision of the Chairman shall be considered by the Commission and may be overruled by a majority vote. Such person shall be notified by certified mail of the decision of the Commission, which shall be final.

Requests for further information, questions, and other communications should be addressed to the Executive Director, Commission on the Organization of the Government for the Conduct of Foreign Policy, 2025 M Street NW., Washington, D.C. 20506, Suite 3002, Telephone 202-254-9850 or the World Affairs Council of Northern California, 406 Sutter Street, San Francisco, California 94108, Telephone 415-982-2541.

By the Commission.

FRANCIS O. WILCOX,
Executive Director.

ENVIRONMENTAL PROTECTION AGENCY

[OPP-32000/161; PRL 310-1]

RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street, SW., Washington, D.C. 20460.

On or before February 25, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street, SW., Washington, D.C. 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after February 25, 1974.

APPLICATIONS RECEIVED

EPA File Symbol 1029-REE. Aidex Corp., 1024 N. 17th St., Omaha NE 68102. DACTHEX 5-G TURF AND GARDEN HERBICIDE. Active Ingredients: Dimethyltetrachloroterephthalate 5.0%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 241-EUA. American Cyanamid Co., PO Box 400, Princeton NJ 08540. 2% TEMEPHOS PRESSURIZED SPRAY FOR CONTROL OF FLEAS ON DOGS ONLY. Active Ingredients: (0,0'-(thiodi-p-phenylene) 0,0,0',0'- tetramethyl

bis-(phosphorothioate) 2.0%. Method of Support: Application proceeds under 2(c) of interim policy.

SCIENCE ADVISORY BOARD, HAZARDOUS MATERIALS ADVISORY COMMITTEE

Notice of Meeting

Pursuant to Public Law 92-463, notice is hereby given that a meeting of the Hazardous Materials Advisory Committee of the Science Advisory Board will be held beginning at 8:30 a.m., January 13, 1975, in Room 3307, Waterside Mall, 401 M Street, SW., Washington, D.C. Individuals without an EPA Building Pass, must enter at the West Tower. This is a tentative meeting date. Persons planning to attend should contact the Acting Executive Secretary by January 8, 1975 (approximately 5 days prior to the meeting) for final confirmation.

This is a regularly scheduled meeting of the Committee. The agenda includes presentations and discussions on the Environmental Protection Agency's Environmental Sciences Research Programs—Health Effects and Ecological Processes and Effects; Pesticide Registration as related to the use of pesticides on minor crops; toxicology and the use of primates in research; developments in the utilization of solid waste; member items of interest; and comments by program liaison representatives.

The meeting is open to the public. Any member of the public wishing to attend, participate, or obtain additional information should contact Dr. J. Frances Allen, Acting Executive Secretary, Hazardous Materials Advisory Committee, (703) 557-7720.

ALBERT C. TRAKOWSKI,
Acting Assistant Administrator for Research and Development.

DECEMBER 20, 1974.

SCIENCE ADVISORY BOARD, NATIONAL AIR QUALITY CRITERIA ADVISORY COMMITTEE

Notice of Meeting

Pursuant to Public Law 92-463, notice is hereby given that a meeting of the National Air Quality Criteria Advisory Committee of the Science Advisory Board will be held at 9 a.m. on January 16, 1975 in Conference Room A (Room 1112), Crystal Mall Building No. 2, 1921 Jefferson Davis Highway, Arlington, Virginia.

The purpose of the meeting will be (1) to consult the committee regarding atmospheric suspended sulfates; (2) to brief the committee on and to discuss the preparation of scientific and technical assessment reports of the EPA Office of Research and Development; (3) to brief the committee on and to discuss the functions and activities of the EPA Science Advisory Board; and (4) to discuss the future role of the committee and ways of assuring its effectiveness. The agenda will also include (5) brief reports or informational items of current interest to the members.

The meeting will be open to the public. This is a tentative meeting date and any member of the public wishing to attend or submit a paper should contact the Executive Secretary, Mr. Ernst Linde, Scientist Administrator, National Environmental Research Center, Environmental Protection Agency, Research Triangle Park, North Carolina 27711 by January 9, 1975 for final confirmation.

The telephone number is (919) 549-8411, extension 2266.

ALBERT C. TRAKOWSKI,
Acting Assistant Administrator for Research and Development.

FEDERAL HOME LOAN BANK BOARD

[No. 74-1316]

FEDERAL ASSOCIATIONS IN ILLINOIS

Applications for Permission To Establish Branch Offices, Mobile Facilities and Satellite Offices; Policy Statement

DECEMBER 19, 1974.

Under its statement of policy set out in paragraph (b)(1) of § 556.5 of the rules and regulations for the Federal Savings and Loan System (12 CFR 556.5 (b)(1)), the Federal Home Loan Bank Board began processing and considering applications from Federal associations in Illinois for de novo branch offices, mobile facilities, and satellite offices of associations on February 1, 1973. In order to effect an orderly transition in Illinois, the Board has imposed certain limitations with respect to such applications as set forth in Resolution No. 73-178, dated February 7, 1973, as amended by Resolution No. 73-2035, dated December 28, 1973, and by Resolution No. 74-506, dated June 5, 1974. Effective January 1, 1975, those limitations are modified to read as follows:

1. Only one application may be on file at any one time during the period January 1, 1975 through June 30, 1975.

2. An application on file at December 31, 1974 may thereafter be approved by the Board.

3. Only one application filed after December 31, 1974 may be approved by the Board during the period January 1, 1975 through June 30, 1975.

By the Federal Home Loan Bank Board.

[SEAL] GRENVILLE L. MILLARD, JR.,
Assistant Secretary.

FEDERAL POWER COMMISSION

[Docket No. RP74-90]

CONSOLIDATED GAS SUPPLY CORP.

Order Granting Interventions

DECEMBER 18, 1974.

On May 16, 1974, Consolidated Gas Supply Corporation (Consolidated) tendered for filing proposed changes in its FPC Gas Tariff[1] to provide for a rate increase in jurisdictional revenues of approximately $24.9 million annually based upon claimed costs and revenues for twelve months ended January 31, 1974, as adjusted.

Letters of protest, comments or petitions to intervene were due on or before June 14, 1974. The following parties filed untimely interventions:

Transcontinental Gas Pipe Line Corporation
Public Utilities Commission of Ohio

The participation of the above-named Company and State Commission may be in the public interest and therefore, their untimely intervention shall be granted.

The Commission finds:

The participation of the above-named parties may be in the public interest.

The Commission orders:

(A) The above-named parties are permitted to intervene in this proceeding subject to the Rules and Regulations of the Commission and the procedures set forth in the Commission Order of June 28, 1974: *Provided, however,* That participation of said intervenors shall be limited to matters affecting asserted rights and interests specifically set forth in their petitions to intervene: *And Provided, further,* The admission of said intervenors shall not be construed as recognition by the Commission that they might be aggrieved by any order or orders entered in this proceeding.

(B) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[Docket No. CP74-169]

KANSAS-NEBRASKA NATURAL GAS CO., INC.

Notice of Amendment to Application

DECEMBER 18, 1974.

Take notice that on December 9, 1974, Kansas-Nebraska Natural Gas Company, Inc. (Applicant), 300 North St. Joseph Avenue, Hastings, Nebraska 68901, filed in Docket No. CP74-169 an amendment to its application filed on December 13, 1973,[2] in said docket requesting a certificate of public convenience and necessity pursuant to section 7(c) of the Natural Gas Act to reflect the cancellation of the original agreement which was the subject of this proceeding and replacement with a new agreement which differs to the extent that delivery points are changed and no purchase of gas by Applicant is contemplated, all as more fully set forth in the amendment which is on file with the Commission and open to public inspection.

In its original application, Applicant proposed a gas exchange and purchase arrangement with Natural Gas Pipeline Company of America (Natural) whereby up to 25,000 Mcf of gas per day would be exchanged between the two companies. During the first year of said arrangement Applicant was to purchase 25 percent of the volumes delivered by Natural at a proposed price of 50.0 cents per Mcf and retain the remaining 75 percent for Natural's account. Applicant further proposed to contruct and operate certain facilities to effectuate the deliveries under the proposed exchange at an estimated cost of $20,100.

Applicant now proposes a new exchange arrangement pursuant to a contract dated August 15, 1974, which is substantially similar to the original agreement but differs in certain respects. The August 15, 1974, contract makes no provisions for the purchase of gas by Applicant but contemplates a gas-for-gas exchange with no monetary compensation. Delivery points are changed to different locations in the same counties. Applicant will not be required to install and operate the facilities proposed in the original application to effectuate the exchange. The application states that all facilities necessary to effectuate deliveries under the new exchange agreement will be installed and operated by Natural. The August 15, 1974, contract states that Applicant will be totally reimbursed by Natural for installation of any facilities on Applicant's system necessary to effect delivery pursuant to the agreement. No other substantial changes to the originally requested authorization are proposed.

Applicant states that it understands Natural has filed an amended application in Docket No. CP 74-166 to reflect the provisions of the August 15, 1974, exchange agreements.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before January 9, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB, *Secretary.*

[FR Doc.74-30036 Filed 12-26-74;8:45 am]

[Docket No. CP74-102]

TEXAS EASTERN TRANSMISSION CORP.

Amendment to Application

DECEMBER 18, 1974.

Take notice that on December 2, 1974, Texas Eastern Transmission Corporation (Applicant), P.O. Box 2521, Houston, Texas 77001, filed in Docket No. CP74-102 an amendment to its application, as amended, filed in said docket pursuant to section 7(c) of the Natural Gas Act by authorizing the construction and operation of certain natural gas transportation facilities in lieu of those facilities originally proposed, all as more fully set forth in the amendment, which is on file with the Commission and open to public inspection.

In its original application, notice of which was published in the FEDERAL REGISTER on November 11, 1973 (38 FR 31050), Applicant proposed to construct 70 miles of 24-inch pipeline from the Block 349 Field, Eugene Island Area, South Addition, to the terminus of its certificated offshore pipeline in Block 286, East Cameron Area, and 47 miles of 24-inch pipeline loop to its existing pipeline between Block 286 and Block 272, West Cameron Area, for the purpose of attaching volumes of natural gas from wells drilled in Block 349. In the first amendment to the application in the instant docket, notice of which was published in the FEDERAL REGISTER on February 6, 1974 (39 FR 4690), Applicant amended its original request to request authorization, in addition to those facilities already proposed, for facilities to enable the purchase and transportation of natural gas from Block 333, Eugene Island Area. These facilities consisted of 4.0 miles of 12-inch pipeline extending from Block 333 to the 24-inch pipeline proposed in the original application.

By the instant amendment Applicant proposes to construct a 30-inch pipeline with an initial maximum capacity of 192,000 Mcf per day instead of the 24-inch pipeline to Block 349 and to extend the pipeline from Block 333 to Block 286 instead of from Block 349 to Block 286. Applicant further proposes to eliminate the 24-inch loop in the original application and to add a 27,750 H.P. onshore compressor station, with appurtenant facilities, near Grand Chenier, Louisiana.

Applicant estimates the cost of the facilities now proposed in the instant proceeding at $92,192,075, as opposed to $87,645,000 for the facilities proposed in the original application and the first amendment.

Applicant states that the filing of this second amendment is necessitated by the recent filing by Applicant and Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), in Docket No. CP75-127 of an application for authorization to construct and operate facilities connecting Block 349 with Tennessee's offshore pipeline system in Block 198, Ship Shoal Area, and connecting Applicant's offshore pipeline system in Block 245, East Cameron Area, to Block 201, East Cameron Area, and for authorization for Applicant and Tennessee to

---

[1] See Order issued June 24, 1974 for listing of tariff sheets affected by the May 16, 1974, filing.

[2] Notice was published in the FEDERAL REGISTER on January 15, 1974 (39 FR 1661).

receive offshore and exchange onshore up to 140,000 Mcf per day of gas for each other. Therefore, according to the instant amendment, the 140,000 Mcf of gas which Applicant states is available from Block 349 would be delivered onshore to Applicant by an exchange with Tennessee, thus obviating the need for the originally proposed pipeline extending to Block 249.

Applicant further states, as a reason for requesting authorization for the increase in size of the originally proposed pipeline from 24 inches to 30 inches, that it needs additional capacity in its offshore system to enable it to take substantial additional gas supplies which it estimates will become available to Applicant from the Block 333 area and in blocks in the vicinity of Block 333 or in close proximity to the proposed pipeline. Applicant states that it has obtained rights to purchase gas from Mesa Petroleum Company and Mobil Oil Corporation (Mobil) in Block 333 and cites negotiations for purchase of gas in nearby blocks or in blocks in the vicinity of the proposed pipeline with Mobil, Exxon Corporation, Gulf Oil Corporation, Texaco, Inc., Pennzoil Marathon Oil Company (Operator), Conoco, Getty and Cities Service. Applicant asserts the need for construction of the pipeline proposed in the instant amendment for the purpose of placing Applicant in a position to negotiate with the successful lease bidders for the purchase of gas from the subject area. Applicant states that the route of the proposed pipeline overlies or is in close proximity to offshore blocks which were leased in the lease sale of March 1974 and that the route would be within five or ten miles of 26 other blocks leased in the lease sale of October 1974.

Applicant justifies the proposed compressor near Grand Chenier in lieu of the 24-inch loop pipeline originally proposed by the need to provide additional capacity for transporting gas involved in the exchange with Tennessee proposed in Docket No. CP75-127 and for transporting expected volumes of gas in the vicinity of the 30-inch line proposed in the instant amendment.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before January 9, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-30033 Filed 12-26-74;8:45 am]

[Docket Nos. CI72-555, CI72-556; RI75-29, RI75-30]

TEXAS PACIFIC OIL CO., INC.

Order Consolidating Proceedings, Providing for Hearing, Setting Date for Prehearing Conference, Granting Interventions and Granting Motion to Amend

DECEMBER 18, 1974.

On September 9, 1974, Texas Pacific Oil Company, Inc. (Texas Pacific), filed two petitions for special relief in Docket Nos. RI75-29 and RI75-30, each seeking a rate above the applicable area ceiling under Opinion No. 586 and the nationwide rate under Opinion No. 699.[1] In Docket No. RI75-29, Texas Pacific seeks a rate of 55 cents per Mcf of natural gas with annual escalations of 1 cent per Mcf for the sale of gas to Panhandle Eastern Pipeline Company (Panhandle Eastern) and in Docket No. RI75-30, Texas Pacific seeks a similar rate for the sale of gas to Kansas-Nebraska Natural Gas Company (Kansas-Nebraska) with both sales to be made from currently producing wells and from future wells to be drilled on acreage within the Reydon Area located in Roger Mills County, Oklahoma and Hemphill County, Texas.

Notice of each petition was issued on September 18, 1974, and appeared in the FEDERAL REGISTER at 39 FR 34337, 34338 on September 24, 1974. Kansas-Nebraska filed a timely petition to intervene in Docket No. RI75-30 on October 7, 1974 and Panhandle Eastern filed an untimely petition to intervene in Docket No. RI75-29 on October 9, 1974.

On September 20, 1974, Texas Pacific filed a motion to amend its petition designated as Docket Nos. RI75-30 and CI72-556, to correct several errors in a footnote which do not substantively affect the petition and application.

Texas Pacific in both petitions states that it intends to commit an additional 9,563 acres of previously uncommitted acreage within the ultra-deep Reydon Area to Panhandle Eastern and Kansas-Nebraska on an equal basis and requests that its Temporary Certificates of Public Convenience and Necessity in Docket Nos. CI72-555 and CI72-556[2] be amended accordingly. Texas Pacific further states that its new contract requires it to drill or participate in at least five new wells on the total dedicated acreage in the Reydon Area within the next three years. The additional costs incurred by operating and drilling below 15,000 feet are cited by Texas Pacific as economic justification for the proposed higher rate.

As we stated in Opinion No. 699, we believe that it is important to state that applications for special relief or under the optional procedure from the national rate based upon well depths greater than 15,000 feet and increasing water depths will be considered on the total cost of the project including return on the invested capital.[3] All such applications will be decided on an ad hoc basis to insure that each project is fairly treated.[4]

The proper cost data and methodology necessary to support these petitions are issues in determining a just and reasonable rate and we deem it in the public interest to set a prehearing conference for discussion of these matters by the interested parties.

The Commission finds:

(1) It is in the public interest and convenience that Docket Nos. RI75-29, CI72-555 and RI75-30, CI72-556 be consolidated and set for hearing.

(2) It is desirable and in the public interest to allow Panhandle Eastern and Kansas-Nebraska to intervene in this proceeding.

(3) Good cause exists to allow the amendment in Docket Nos. CI72-556 and RI75-30.

The Commission orders:

(A) Pursuant to the authority of the Natural Gas Act, particularly Sections 4, 5, 7, 14 and 16 thereof, the Commission's Rules of Practice and Procedure, and the Regulations under the Natural Gas Act (18 CFR, Chapter I) Docket Nos. RI75-29, CI72-555, RI75-30 and CI72-556 are consolidated and set for public hearing.

(B) Pursuant to the authority of Section 1.11 of the General Rules of the Federal Power Commission, Texas Pacific's motion to amend the petition designated as Docket Nos. CI72-556 and RI75-30 is hereby granted.

(C) On or before January 16, 1975, Texas Pacific, Panhandle Eastern and Kansas-Nebraska shall file their direct testimony and evidence in support of the petitions. All testimony and evidence filed herein shall be served upon the Presiding Administrative Law Judge, Commission Staff, and all other parties to the proceeding.

(D) On January 30, 1975, a prehearing conference shall be held in accordance with § 1.18 of the rules of practice and procedure to resolve the issues herein in a hearing room of the Federal Power Commission, Washington, D.C. 20426, at 10 a.m. (E.s.t.).

(E) A Presiding Administrative Law Judge, to be designated by the Chief Administrative Law Judge for that purpose shall convene the prehearing conference in the proceeding.

(F) The Administrative Law Judge may in his discretion grant recesses from time to time if he deems a settlement or submission of the issues upon stipulated facts to be possible. If no stipulation or settlement can be reached by the parties hereto after reasonable time and provisions have been made for the same, the Presiding Administrative Law Judge shall establish the time for the submission of other evidence by any party desiring so to do, and the commencement of the hearing, and shall prescribe rele-

[Docket No. CP74-88]

NORTH PENN GAS CO.

Notice of Conference on Rates and Charges

DECEMBER 18, 1974.

This will confirm the telephone call to the parties in the above proceedings that a conference will be held on December 20, 1974 with the Applicant, North Penn Gas Company (North Penn), and the Commission Staff in the Commission's Conference Room No. 8402, at 825 North Capitol Street, NE, Washington, D.C., at 10 a.m. (EST).

The conference will be held pursuant to § 1.18 (Conferences, Offers of Settlement) of the Commission's rules of practice and procedure (18 CFR 1.18). Customers and other interested persons will be permitted to attend, but if such persons have not previously been permitted to intervene by order of the Commission, such attendance at the conference will not be deemed to authorize such intervention as a party in the proceedings.

In accordance with the provisions of § 1.18 of the rules, all parties will be expected to come fully prepared to discuss the merits of all issues concerning the lawfulness of North Penn's proposed rate increase, filed on May 15, 1974, and any procedural matters preparatory to a full evidentiary hearing, or to make commitments with respect to such issues and any offers of settlement or stipulations discussed at the conference. Failure to attend the conference shall constitute a waiver of all objections to stipulations and agreements reached by the parties in attendance at the conference.

Copies of this notice are being mailed this date to all jurisdictional customers and interested State commissions.

KENNETH F. PLUMB, *Secretary.*

NORTHWEST PIPELINE CORP.

Notice of Application

[Docket No. CP75-170]

DECEMBER 18, 1974.

Take notice that on December 9, 1974, Northwest Pipeline Corporation (Applicant), P.O. Box 1526, Salt Lake City, Utah 84110, filed in Docket No. CP75-170 an application pursuant to sections 7(b) and 7(c) of the Natural Gas Act and § 157.7(g) of the Regulations thereunder (18 CFR 157.7(g)) for a certificate of public convenience and necessity authorizing the construction and for permission for and approval of the abandonment, for the calendar year 1975, and operation of field gas compression and related metering and appurtenant facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The purpose of this budget-type application is to augment Applicant's ability to act with reasonable dispatch in the construction and abandonment of facilities which will not result in changing Applicant's system salable capacity or service from that authorized prior to the filing of the instant application.

Applicant states that the total cost of the proposed construction and abandonment will not exceed $3,000,000 nor will the cost of any single project exceed $500,000. Applicant states that the proposed facilities will be financed from funds on hand.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 9, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB, *Secretary.*

[Docket No. CP75-168]

KANSAS-NEBRASKA NATURAL GAS CO., INC.

Notice of Application

DECEMBER 19, 1974.

Take notice that on December 9, 1974, Kansas-Nebraska Natural Gas Company, Inc. (Applicant), 300 North St. Joseph Avenue, Hastings, Nebraska 68901, filed in Docket No. CP75-168 an application pursuant to section 7 of the Natural Gas Act for authorization to abandon its present tap and metering facilities serving the alfalfa dehydration plant of Consolidated Blenders, Inc. (Consolidated), in Lexington, Dawson County, Nebraska, and to install a new tap and metering facilities so as to be able to serve Consolidated at the desired point of relocation of its plant facilities near Overton, Nebraska, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

Applicant states that it currently delivers gas to Consolidated pursuant to authority granted in Docket No. G-1180 at a point on Applicant's existing 6-inch transmission line in Lexington. The relocation of Consolidated's plant to Overton is said to be, in part, contingent upon applicant's obtaining Commission approval for the relocation of the existing plant delivery point to a point approximately 15.6 miles east of the existing delivery point. Applicant states that relocation of the delivery point will not alter the conditions of service or the quantities of gas delivered as provided in the existing service agreement between Applicant and Consolidated.

Applicant estimates the salvage value of the existing delivery point, which it proposes to abandon, at $1,900 and the cost of the proposed new facilities at $4,500.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 10, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the atural Gas Act (18 CFR N157.10). All protests filed with the Commission will be considered by it in

determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-30233 Filed 12-26-74;8:45 am]

[Docket No. CP75-167]

MICHIGAN WISCONSIN PIPE LINE CO.

Notice of Application

DECEMBER 19, 1974.

Take notice that on December 6, 1974, Michigan Wisconsin Pipe Line Company (Applicant), One Woodward Avenue, Detroit, Michigan 48226, filed in Docket No. CP75-167 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing Applicant to construct and operate facilities for the reinforcement of its gathering systems in the Woodward and Laverne Areas of Oklahoma, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

Applicant states that it operates extensive natural gas gathering systems in the Laverne and Woodward Areas of Oklahoma incident to its purchase of gas in said areas. The gas sales contracts are said to obligate Applicant to operate its gathering systems at such line pressures as may be required to permit not less than 75 percent of all connected wells to flow at natural pressure into the gathering systems; and where the wellhead pressure is too low to permit gas to flow into Applicant's gathering systems, Applicant's right to purchase gas is subject to termination. Applicant further states that it has been purchasing gas in the Laverne Area since 1958 and in the Woodward Area since 1960 and that, as a result of these extended periods of production and the fact that numerous other pipeline companies which purchase gas in the same areas, in many instances from the same pools and wells as Applicant, have already reduced the pressures at which their gathering systems operate thereby draining Applicant's producers' reserves as gas flows into the lower pressure gathering systems, field pressures have steadily and predictably declined to a point where Applicant's ability to purchase gas with existing facilities will soon be severely restricted.

In order to enable it to meet its contractual obligations to its producers, to restore declining deliverability and to assure maximum recovery of committed gas reserves, Applicant proposes to construct and operate facilities which will enable it to reduce the operating pressures in its Laverne and Woodward gathering systems. The total estimated cost of the proposed facilities is $20,282,600 to be financed initially with treasury funds, retained earnings and other funds generated internally, together with borrowings from banks under short term lines of credit as required.

Specifically, Applicant proposes to construct in the Laverne Area three segments of 16-inch loop line with an aggregate length of 11.3 miles, one segment of 20-inch loop 3.9 miles in length, four new satellite compressor stations with an aggregate of 3,400 horsepower and a 12,000 horsepower compressor unit in its existing Laverne Compressor Station. Applicant states that it expects throughput increases in the Laverne system as a result of the proposed facilities from 152,900 Mcf to 214,400 Mcf per day. In the Woodward Area Applicant proposes to construct 5.6 miles of 6-inch loop, 12.5 miles of 10-inch loop, 6.2 miles of 12-inch loop, 27.4 miles of 16-inch loop, five new satellite compressor stations with an aggregate of 7,130 horsepower and an aggregate of 8,400 horsepower in three existing satellite stations. The Woodward facilities will result, according to Applicant, in an increase of throughput from 170,500 Mcf per day to 219,200 Mcf per day. Applicant states that the increase of throughput levels in the Laverne and Woodward systems merely restores throughput to historical levels.

Applicant further states that the proposed facilities will not result in any expansion of capacity but will permit Applicant to maximize recovery of dedicated gas reserves and continue to receive into its Laverne and Woodward gathering systems essentially the same volumes of gas as in prior years. Applicant proposes no new or additional sales.

Applicant states that the proposed loop lines will be constructed on, or immediately adjacent to, its existing rights-of-way, that compressor facilities will be installed either as additions to existing compressor stations or at new sites located on, or immediately adjacent to, its existing rights-of-way.

Any person desiring to be heard or to make any protest with reference to said application should on or before January 8, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-30232 Filed 12-26-74;8:45 am]

[Docket No. E-9063]

MISSOURI POWER AND LIGHT CO.

Notice of Supplemental Filing

DECEMBER 18, 1974.

Take notice that on December 2, 1974, Missouri Power and Light Company (Missouri) tendered for filing additional data intended to make complete its original filing on October 15, 1974 in this docket. The data is submitted in response to a deficiency letter issued by the Secretary.

In addition to an impact by the proposed changes upon the City of Centralia, Missouri, as noted in the Notice of Application for Rate Increase (issued October 29, 1974), Missouri now states that the proposed changes will specifically affect the Cities of Perry and Linneus, Missouri as well.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before December 26, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene or protest. Copies of this application are on file with

the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-30229 Filed 12-26-74;8:45 am]

[Docket No. E-9161]

MONONGAHELA POWER CO., ET AL.

Filing of Rates and Charges for New Service

DECEMBER 18, 1974.

Take notice that Allegheny Power Service Corporation (APSC) on December 9, 1974, tendered for filing on behalf of its affiliates, Monongahela Power Company, The Potomac Edison Company and West Penn Power Company (the APS Companies) an Agreement between the APS Companies and UGI Corporation (UGI) for the sale by the APS Companies and the purchase by UGI of 50,000 kw of electric power and energy to be sold from the APS Companies' Harrison Station (Harrison Power) for a period of six years commencing January 1, 1975. The Agreement provides, among other things, that Harrison Power will be sold to UGI at a rate of $3.95 per kw per month plus 110 percent of the out-of-pocket cost of energy delivered, including losses. Deliveries of energy to UGI will be scheduled for as many hours as UGI desires but not to exceed 50,000 kwh per hour, and such deliveries shall be made unless: (1) None of the three units of the Harrison Station is operating; (2) the APS Companies have received an order from an appropriate governmental body to curtail or for any other reason have curtailed the output of the Harrison Station as a result of a shortage of fuel; or (3) transmission of the energy is made impossible.

Applicants estimate that for the twelve months ended December 31, 1975 the demand charges will total $2,370,000 ($197,500 per month). Further, Applicants state that energy charges cannot be estimated at the present time since the cost of producing energy will vary and the number of kwh that UGI will take will vary from month to month.

Applicants state that no facilities need be constructed or acquired in connection with the sale and purchase of Harrison Power.

Applicants have requested the Commission to accept the Agreement for filing, to be effective on or before January 1, 1975, as they intend to commence the sale and purchase of Harrison Power as of that date. Accordingly, Applicants have requested waiver of any requirements of the Commission's rules and regulations deemed necessary and desirable by the Commission to grant the requested effective date.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure on or before December 30, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-30230 Filed 12-26-74;8:45 am]

[Docket No. E-9046]

MONTAUP ELECTRIC CO.

Rate Changes and Other Proceedings

DECEMBER 18, 1974.

On October 1, 1974, Montaup Electric Company (Montaup) and its affiliated owner companies within the Eastern Utilities Associates System (EUA), Blackstone Valley Electric Company (Blackstone), Brockton Edison Company (Brockton), and Fall River Electric Light Company (Fall River), filed a series of documents[1] intended to effectuate a complete reorganization of their wholesale power supply arrangements. According to Montaup, the filings would make it responsible for wholesale bulk power supply service to its owner companies, as well as to non-affiliated wholesale customers now being served by those owner companies, and would provide for a new single rate for that service. Montaup further stated that the filing was intended to simplify and make more uniform the existing wholesale rate arrangements and enable the Federal Power Commission to consider changes in such arrangements in a single proceeding.

On November 18, 1974, Montaup tendered supplemental data intended to make complete its filing of October 1, 1974. This action was in response to a deficiency letter issued by the Secretary on October 29, 1974. At that time Montaup requested that the thirty day notice requirement of the Commission's regulations be waived to allow an effective date of December 1, 1974.

Timely petitions to intervene were filed by the Municipal Gas and Electric Department of Middleborough (Middleboro) on October 22, 1974, the Rhode Island Consumers' Council (Consumers Council) on October 22, 1974, and by the Narragansett Electric Company (Narragansett) on October 29, 1974. Both Middleboro and Narragansett included motions to reject as part of their filings, each claiming that the Mobile-Sierra[2] doctrine prohibits the proposed alteration of presently effective contracts.

Middleboro states that it is a partial requirements customer of Brockton under a contract dated April 26, 1965 and amended January 15, 1973, said amendment effective November 1, 1973. Under this amendment, Middleboro argues, the term of the entire contract is fixed as well as the price to be charged, thereby justifying the motion to reject. In the alternative, Middleboro requests that the Commission reject Montaup's petition for waiver and impose a five month suspension, citing, inter alia, what Middleboro states to be unreasonably high rate of return (9.33 percent) and return on common equity (14 percent).

Narragansett states that it is presently purchasing power from Fall River under a contract dated January 31, 1931.[3] Narragansett alleges that the contract, provides for unilateral changes in rates regulated by the Massachusetts Department of Public Utilities (MDPU) but not for unilateral changes in the rates not subject to the jurisdiction of the MDPU. Narragansett further states that the contract provides for changes in such rates only through a proceeding similar to a section 206 proceeding under the Federal Power Act.

Consumers Council states that the proposed changes will have an adverse effect on Rhode Island consumers and therefore requests a full five month suspension period.

Montaup's answer to the petitions of Middleboro and the Consumers Council was filed on October 25, 1974. Montaup states that it opposes the motion to reject of Middleboro as well as a similar motion expected from Narragansett. Montaup alleges that the most pertinent term of the 1965 Middleboro contract is a provision for general review, wherein the prices paid for electricity are subject to review and change by the Massachusetts Department of Public Utilities in any proceeding brought under Chapter 164 of the General Laws of Massachusetts, a procedure similar to a section 205 proceeding under the Federal Power Act. Montaup states that this provision indicates that the parties contemplated that the seller could unilaterally effect a change in rates, and cites City of Richmond v. F.P.C.[4] as support for this argument.

The term of the Middleboro contract, as provided in the November 1, 1973 amendment thereto, is for ten years from the date of the amendment with a provision for termination on November 1 by either party giving 24 months notice. No such notice has been given. The provision for general review in the 1965 contract between Middleboro and Brockton reads as follows:

Governmental Review. This agreement is made subject to present or future state or federal laws and to present and future regulations or orders properly issued by state or federal regulatory bodies having jurisdiction and in particular, the prices to be paid for electricity hereunder as set forth herein shall be subject to review and determination by the

---

[1] Designated as shown on Appendix A, which is filed as part of the original document.

[2] United Gas Pipeline Co. v. Mobile Gas Service Corp., 350 U.S. 332 (1956) and F.P.C. v. Sierra Pacific Power Co., 350 U.S. 348 (1956).

[3] Parties to the original contract were Fall River and Tiverton Electric Light Company (Tiverton). By indenture of assignment dated August 4, 1936, Tiverton assigned its interest under this contract to Narragansett.

[4] 461 F.2d 490 (D.C. Cir. 1973); cert. denied 414 U.S. 1068 (1973).

Massachusetts Department of Public Utilities in any proceeding brought under Chapter 164 of the General Laws of Massachusetts, as amended, to the extent provided for and in accordance with the provisions of said Chapter so far as the same may be applicable in the premises.

Section 94 of Chapter 164 of the General Laws of Massachusetts required in 1965 that a filing "shall not become effective until the first day of the month next after the expiration of fourteen days from the filing thereof," and that the state agency had the authority to "suspend the taking thereof, from time to time, but not for a period longer than ten months beyond the time when such rate, price or charge would otherwise become effective." We agree with Montaup that this statute provides for a proceeding substantially similar to that in section 205 of the Federal Power Act. We therefore also concur that an intent was indicated (through the General Revise provision) by the parties to provide for unilaterally filed rate changes. The basic issue lies in whether the November 1, 1973 Amendment to the contract alters the General Review provision. The pertinent provision of the Amendment reads as follows:

Now therefore, both parties find it mutually desirable to redefine and amend said Power Contract by inserting the following provisions after the Governmental Review clause of said contract of April 26, 1965, it is further understood and agreed that in the event there are provisions of said Power Contract that are inconsistent or in conflict with the within Amendment that the provisions of this Agreement shall prevail over the original contract provisions.

We find that the Amendment does not reform the Governmental Review clause. We also find that there are no inconsistent or conflicting provisions within the Amendment indicating that the parties intended to revise or revoke the Governmental Review clause. We therefore find the intent of the parties to be that Montaup could unilaterally effect a rate change, and we will accordingly deny Middleboro's motion to reject.

Article I of the Narragansett contract states that the term of the contract shall commence on January 31, 1931 and shall continue until terminated by either party giving to the other six months written notice of the date of termination. No such notice has been given. The other pertinent provisions in the Narragansett contract are found in Articles III and VIII, which state:

ARTICLE III. PRICE

The CUSTOMER shall each month pay to the POWER COMPANY for electricity taken hereunder during the next preceding month at the rate set forth in the POWER COMPANY's Rate Schedule For Primary Power as filed with the Massachusetts Department of Public Utilities as M.D.P.U. No. 302 or at such rate as may be filed with said Department from time to time in supersession thereof. A copy of said rate as at present in force and filed with said Department is attached hereto for reference and marked "Exhibit B."

ARTICLE VIII. REVISION OF PUBLIC UTILITIES COMMISSION

If at any time either of the parties hereto shall make a written claim upon the other party that the rates herein, not then subject to regulation by the constituted authority of any state, are unjust or unreasonable and the said parties fail to agree upon new rates within six (6) months after the date of said written claim, then either party may file an application with the Commission having jurisdiction over Electric Utilites in Massachusetts or the Commission having jurisdiction over Electric Utilities in Rhode Island requesting that the disagreement between said parties shall be determined by the Commission of both said states acting jointly and if a majority of the Commission of each said state, after hearing the parties, shall determine in accordance with law that a modification of this contract in respect to the rates set forth herein shall be made, such determination shall, from and after the date fixed in such determination, act as an automatic revision of the rates and such revised rates shall remain in force for the remainder of the term of this contract.

We find that Article VIII, which sets forth the procedures to be followed in the event the M.D.P.U. lost its jurisdiction over the subject matter, is the controlling provision. The provisions of Article VIII require a written claim made upon the other party that the contractual rates are unjust and unreasonable and six months thereafter an application for a hearing and a prospective remedy similar to that provided under section 206 of the Federal Power Act. Therefore, to permit a unilaterally filed rate change as to Narragansett would violate the rule set forth in the Mobile-Sierra cases. Furthermore, we cannot accept the instant filing as proper under section 206 of the Federal Power Act as Montaup has not complied with the six months notice requirement of Article VIII of the contract. Accordingly, we shall reject the proposed changes as they apply to Narragansett.

Our review of Montaup's filing and the issues raised therein indicates that the proposed changes have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential, or otherwise unlawful. Accordingly, we shall reject Montaup's motion for waiver, suspend the proposal for five months, and establish hearing procedures to determine the justness and reasonableness of Montaup's filing.

The Commission finds.

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in Montaup's revised rate schedule proposed in this docket and that the tendered rate schedules other than those applicable to Narragansett be suspended as hereinafter provided.

(2) Good cause exists to reject the proposed filings as to Narragansett.

(3) Good cause does not exist to grant Montaup's motion for waiver of the notice requirements of the Commission's regulations.

The Commission orders.

(A) Pending a hearing and a decision therein, Montaup's proposed changes in its rates and charges, other than those applicable to Narragansett, tendered on November 18, 1974, are accepted for filing, and suspended for five months, the use thereof deferred until May 19, 1975, subject to refund.

(B) Montaup's proposed filing as it applies to Narragansett is hereby rejected.

(C) Pursuant to the authority of the Federal Power Act, particularly section 205 thereof, and the Commission's rules and regulations, and the regulations under the Federal Power Act (18 CFR Ch. I), a public hearing shall be held on May 20, 1975, at 10:00 a.m., e.d.t., in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, concerning the lawfulness of Montaup's proposed rate changes, other than those applicable to Narragansett, in Docket No. E-9046.

(D) On or before April 8, 1975, the Commission Staff shall serve its prepared testimony and exhibits. Any intervenor evidence will be filed on or before April 22, 1975. Any rebuttal evidence by company shall be served on or before May 6, 1975.

(E) The above-named petitioners to intervene are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission; *Provided, however,* That the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in their petitions to intervene.

(F) The motion of Narragansett to reject is hereby granted.

(G) The motion of Middleboro to reject is hereby denied.

(H) The motion of Montaup for waiver of the notice requirements of the Commission's regulations is hereby denied.

(I) Nothing contained herein shall be construed as limiting the rights of parties to this proceeding regarding the convening of conferences or offers of settlement pursuant to § 1.18 of the Commission's rules of practice and procedure.

(J) The Secretary of the Commission shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.*

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-30237 Filed 12-26-74;8:45 am]

[Docket Nos. RP71-110, RP74-31-28]

PANHANDLE EASTERN PIPE LINE CO. AND ANCHOR HOCKING CORP.

Petition for Extraordinary Relief

DECEMBER 13, 1974.

Take notice that on December 12, 1974, Anchor Hocking Corporation ("Anchor Hocking") filed a petition for permanent extraordinary relief from the natural gas curtailments imposed by Panhandle Eastern Pipe Line Company

* Commissioner Brooke, dissenting, would prefer a one-day suspension.

("Panhandle") on Anchor Hocking's glass container plant located at Winchester, Indiana. Anchor Hocking, a direct sale customer of Panhandle, states that due to unexpected additional curtailments being imposed this winter season by Panhandle, Anchor Hocking could effectively lose delivery of the required 790 Mcf per average day necessary to fuel the feeders and annealing lehrs at the Winchester plant. If the minimum 790 Mcf of process gas per average day is curtailed, Anchor Hocking will not have sufficient gas to maintain full production and will as a result suffer irreparable injury. Without relief, the Winchester plant will have to shut down, at least in part. This will create a significant loss of employment in the town of Winchester, to which Anchor Hocking is by far the largest employer. Irreparable injury will also occur to Anchor Hocking itself and to its customers.

Accordingly, Anchor Hocking has moved for permanent extraordinary relief from curtailment through a Commission order requiring Panhandle to deliver to the Winchester plant 790 Mcf per average day, with a peak day of 875 Mcf. Any volume delivered pursuant to such extraordinary relief in excess of entitlements under the effective Panhandle curtailment plan would be subject to payback out of subsequent daily entitlements in excess of 790 Mcf per average day.

In order to avoid irreparable injury pending hearings on its request for permanent relief, Anchor Hocking has also moved for immediate temporary relief identical with the permanent relief requested. In this connection, Anchor Hocking requested and Panhandle has agreed to a grant of emergency relief from curtailments during the months of December and January.

It appears reasonable and consistent with the public interest in this proceeding to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to protest said petition should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10) on or before December 27, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene in accordance with the Commission's rules. This filing which was made with the Commission is available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-30231 Filed 12-26-74;8:45 am]

[Docket No. E-8492; Project No. 1835]

SIERRA CLUB AND NEBRASKA PUBLIC POWER DISTRICT

Intervention Out of Time, Requiring the Filing of an Exhibit W, Denying Applications for Rehearing, Providing for Hearing, and Setting Dates

DECEMBER 18, 1974.

On October 25, 1974, we issued an Order to Cease and Desist Construction, To Show Cause, and Consolidating Proceedings, to Nebraska Public Power District (NPPD). This order required NPPD to show cause under oath, if any there be, on or before November 15, 1974, why:

(1) The use of project lands and waters for the construction of the steam electric generating plant and related facilities within the project boundary does not require Commission approval.

(2) Section 2.81 of the Commission's rules and regulations, 18 CFR § 2.81 (1974), does not require the filing of an Exhibit W prepared in accordance with the Commission's rulesand regulations.

NPPD was further ordered to cease and desist construction of steam electric generating facilities within the project boundary pending further order of the Commission.

On November 15, 1974, NPPD filed a response to that part of our Order which required NPPD to show cause. On November 18, 1974, NPPD filed an application for rehearing with respect to that part of our Order which required NPPD to cease and desist construction. We find nothing in these filings which would warrant any change in or modification of our Order of October 25, 1974.

This Commission has continuing authority over the use of project lands and waters under the Federal Power Act, particularly sections 4, 6, 10(a), 26 and 309 of the Act, and the license for Project No. 1835.

The gist of our concern was stated in our prior Order of October 25, 1974, as follows:

* * * We believe the time for effective environmental review of the use of project lands and waters for cooling a steam electric generating plant is before construction. We cannot allow the construction of this facility to continue when NPPD may not be allowed to use project waters to operate and maintain the steam electric generating plant pursuant to Article 12 * * *

Nothing in either NPPD's response of November 15, 1974 or its application for rehearing filed November 18, 1974 provides any new facts or arguments to cause us to be any less concerned over the unauthorized use of project lands and waters, actual and proposed, in this matter.

We, therefore, believe that the stay of construction should be continued while we resolve the issues involved through the means of an expedited public hearing. Among the issues to be tried will be the issue of the ecological impact on reservoir waters and lands of Project No. 1835, if used for cooling and what conditions must be imposed under section 10(a) to achieve comprehensive development if the proposed use of project waters and lands is to be permitted. In the interest of expediting the proceedings we are also requiring NPPD to file a report on environmental factors specified in § 2.80 of our regulations as part of its direct case. Commission Staff will be directed to prepare a draft environmental impact statement which, when finalized, is to be placed in the record with opportunity to further cross-examine witnesses upon it.

On November 25, 1974, Senators Hruska and Curtis and Representatives McCollister, Martin, and Thone of the Nebraska Congressional Delegation filed a petition to intervene and also filed a separate document entitled "Application of Senators and Representatives For Rehearing Of Order To Cease And Desist Steam-Electric Facilities And For Rehearing Of Denial Of Request For Approval Of Revised Project Boundary." On December 10, 1974, Sierra Club filed a response to the petition to intervene in which Sierra Club did not oppose intervention.

The petition to intervene recites that the Congressional Delegation was unaware of this proceeding until the Commission issued its Order of October 25, 1974. We believe the petition sets forth good cause for the late filing. We, therefore, accept the petition to intervene for filing and grant the intervention. For the reasons hereinbefore noted, we deny the application for rehearing.

The Commission finds.

(1) Although the above noted petition to intervene of the Nebraska Congressional Delegation was not timely filed, good cause exists for permitting such intervention.

(2) Participation by the Nebraska Congressional Delegation in these consolidated proceedings may be in the public interest.

(3) NPPD should be required to file a report on environmental factors specified in § 2.80 of our regulations.

(4) Upon receipt of NPPD's environmental report, Commission Staff shall prepare a draft environmental impact statement which, when finalized, shall be placed in the record of these proceedings with opportunity for cross-examination.

(5) The applications for rehearing of NPPD and the Nebraska Congressional Delegation presents no facts or legal arguments which require any change in or modification of our Order of October 25, 1974.

(6) It is appropriate and in the public interest that a public hearing be held respecting matters involved and issues presented in these consolidated proceedings.

The Commission orders.

(A) The Nebraska Congressional Delegation is hereby permitted to intervene in these consolidated proceedings subject to the rules and regulations of the Commission: *Provided*, That participation of the petitioner shall be limited to matters affecting asserted rights and interests specifically set forth in the petition to intervene: *Provided further*, That the admission of petitioner shall not be construed as recognition by the Commission that petitioner might be aggrieved by any order or orders entered in these proceedings.

(B) NPPD shall file a report on environmental factors specified in § 2.80 of our regulations.

(C) The applications for rehearing on NPPD and the Nebraska Congressional Delegation filed November 18, and November 25, 1974, in this proceeding are denied.

(D) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by the Federal Power Act, and the Commission's rules of practice and procedure, a public hearing shall be held in a hearing room of the Federal Power Commission, 825 N. Capitol Street NE, Washington, D.C., respecting the matters involved and the issues presented in this proceeding.

(E) The following procedure is prescribed for this proceeding:

1. NPPD shall file by February 14, 1975, with the Secretary of the Commission an original and ten copies of all testimony, including qualifications of the witnesses, and exhibits, including the environmental report, to be presented in licensee's direct case. Copies of such testimony and exhibits shall be served on all participants.

2. All other participants, including the Commission Staff, shall file by March 7, 1975, with the Secretary direct testimony and exhibits including qualifications of witnesses with copies served on all participants.

3. In the interest of expediting these proceedings, Commission Staff shall prepare a draft environmental impact statement which, when finalized, shall be placed in the record with opportunity to cross-examine thereon. Because of the need for expeditious treatment, opening of the hearing shall not be delayed until a finalized environmental impact statement is completed.

4. All motions to strike prepared testimony and exhibits and replies to such motions shall be filed with the Administrative Law Judge by March 21 and March 31, 1975.

5. The first hearing session will commence at 10:00 a.m. on Tuesday, April 8, 1975, in a hearing room of the Federal Power Commission to be specified at a later time. Subsequent hearing sessions, as needed, shall be scheduled by the Administrative Law Judge.

6. All of the testimony, except exhibits, shall be in question and answer form.

7. No exhibits, except those of which official notice may properly be taken, shall contain narrative material other than brief explanatory notes.

8. Any party submitting more than one exhibit shall enclose a cover sheet listing the title of each exhibit in the sequence in which it is to be marked for identification.

9. The Administrative Law Judge will specify the order of cross-examination and time to be permitted for preparation of rebuttal evidence.

10. The Administrative Law Judge may direct that a public hearing session in the vicinity of the project be held for the purpose of receiving statements of position from interested members of the public if he finds that it will be in the public interest. Public notice of such public hearing session should be given in the vicinity of the project prior to such hearing session.

11. If it becomes apparent that a saving of time or money may be achieved in clarifying relevant issues to be tried, the Administrative Law Judge shall hold a prehearing conference, at which, among other matters, the admission into evidence of relevant but uncontroverted facts without the necessity of presenting a sponsoring witness therefor shall be considered. If a statement of facts can be agreed upon by the parties, the Administrative Law Judge shall provide a briefing schedule and submit his initial decision to be followed by the filing of exceptions in accordance with §§ 1.29, 1.30 and 1.31 of the Commission's rules of practice and procedure.

12. For good cause shown the Presiding Administrative Law Judge may change the procedural date provided for above.

(F) The Commission's rules of practice and procedure shall apply in this proceeding except to the extent they are modified or supplemented herein.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. RP72-91 (Phase II), etc.]

SOUTHERN NATURAL GAS CO.

Extension of Procedural Dates

DECEMBER 18, 1974.

On December 17, 1974, Southern Natural Gas Company filed a motion to extend the procedural dates fixed by order issued October 9, 1974, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Company Testimony, January 16, 1975.
Service of Staff's Testimony, February 13, 1975.
Service of Intervenor's Testimony, February 27, 1975.
Service of Company Rebuttal, March 13, 1975.
Hearing, March 25, 1975 (10:00 a.m.) e.s.t.).

KENNETH F. PLUMB,
Secretary.

[Docket No. RP75-24]

UNITED GAS PIPELINE CO. AND UTILITIES COMMISSION OF MONROE, LA.

Reduction of Time for Filing Answer

DECEMBER 18, 1974.

On December 16, 1974, Staff Counsel filed a motion requesting a reduction of the time for filing answers to Staff's motion of the same date "To Hold Proceedings in Abeyance, or in the Alternative, Motion to Dismiss Order to Show Cause Without Prejudice."

Upon consideration, notice is hereby given that pursuant to § 1.12(c) of Commission rules of practice and procedure the time for filing answers in the above matter is reduced to and including December 23, 1974.

KENNETH F. PLUMB,
Secretary.

FEDERAL RESERVE SYSTEM

CENTRAL STATES BANCOR, INC.

Formation of Bank Holding Company

Central States Bancor, Inc., Des Moines, Iowa, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 93.01 percent of the voting shares of Capital City State Bank, Des Moines, Iowa. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit views in writing to the Reserve Bank, to be received not later than January 13, 1975.

Board of Governors of the Federal Reserve System, December 18, 1974.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.74-30196 Filed 12-26-74;8:45 am]

CENTRAL BANCORPORATION, INC.

Order Approving Acquisition of Bank

The Central Bancorporation, Inc., Cincinnati, Ohio, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent (less directors' qualifying shares) of the voting shares of The Newark Trust Company, Newark, Ohio ("Bank").

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1482(c)).

Applicant is the ninth largest banking organization in Ohio and controls eight

banks with aggregate deposits of $926.5 million, representing approximately 3.3 percent of total commercial bank deposits in the State.[1] Applicant's acquisition of Bank would increase Applicant's share of deposits by approximately .2 percent, while Applicant's rank among the State's banking organizations would remain unchanged.

Bank (with deposits of $63.9 million) is the second largest of six banking organizations in the Licking County banking market and controls approximately 25.5 percent of total commercial bank deposits in this market.[2] Bank is presently the sole banking subsidiary of Citizens Financial Corporation, Cleveland, Ohio ("Citizens"), a registered one-bank holding company. Citizens has filed an irrevocable declaration that it will cease to be a bank holding company by January 1, 1981, and this proposal represents its method of accomplishing that objective. Applicant's three subsidiaries nearest to Bank are approximately 15, 19 and 25 miles away, and there is no significant existing competition between Bank and any of these subsidiaries. In addition, none of Applicant's other subsidiary banks compete with Bank to any significant extent. Applicant seeks to acquire the second largest banking organization in a market in which the three largest banking organizations control, respectively, 45.5, 25.5 and 24.8 percent of total commercial bank deposits. Consummation of the proposed transaction would eliminate Applicant as a potential entrant into the relevant banking market. However, under the circumstances of this case, the Board does not regard the elimination of potential competition that would result from the consummation of this proposal as being significant. In particular, the Board notes that Bank's market position has been declining somewhat recently and that Applicant does not now occupy a significant position in either the State or in any of the banking markets adjacent to Licking County. Moreover, it appears unlikely that Applicant would attempt to enter the market either de novo or through the acquisition of one of the smaller banks in the market, none of which is located in Newark, the economic center of the market. Accordingly, on the basis of the facts of record, the Board concludes that competitive considerations are consistent with approval of the application.

The financial and managerial resources and future prospects of Applicant and its subsidiary banks are regarded as generally satisfactory and consistent with approval. Bank's affiliation with Applicant should result in a strengthening of Bank's overall financial condition, as well as providing Bank with additional managerial expertise. Thus, the banking factors lend weight toward approval of the application.

In regard to considerations relating to convenience and needs, Applicant intends to supply Bank with access to Applicant's wide range of banking expertise, particularly in the areas of trust services and loan participations. In addition, Applicant proposes to direct Bank's loan funds into Bank's service area for residential, business, and personal loans. These considerations relating to the convenience and needs of the community to be served lend additional weight toward approval of the application. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Cleveland pursuant to delegated authority.

By order of the Board of Governors,[3] effective December 16, 1974.

[SEAL] THEODORE E. ALLISON, *Secretary of the Board.*

[FR Doc.74-30247 Filed 12-26-74;8:45 am]

CENTRAL TEXAS FINANCIAL CORP.

Order Approving Acquisition of Banks

Central Texas Financial Corp., Brownwood, Texas, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of voting shares (less directors' qualifying shares) of the successors by merger to the Commercial National Bank of Brady, Brady, Texas ("Brady Bank") and Coleman Bank, Coleman, Texas ("Coleman Bank"). The banks into which Brady Bank and Coleman Bank are to be merged have no significance except as means to facilitate the acquisitions of the voting shares of Brady Bank and Coleman Bank. Accordingly, the proposed acquisitions of the successor organizations are treated herein as the proposed acquisitions of Brady Bank and Coleman Bank.

Notices of the applications affording opportunity for interested persons to submit comments and views have been given in accordance with section 3(b) of the Act. The times for filing comments and views have expired and none have been timely received. The Federal Reserve Bank of Dallas acting pursuant to delegated authority has considered the applications in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant currently controls one bank with aggregate deposits of $37.6 million representing 0.097 percent of the total commercial bank deposits in Texas.[2] Approval of the present acquisitions would cause Applicant to control aggregate deposits of $65.4 million or 0.17 percent of deposits in the State. Approval would not produce a significant increase in the concentration of banking resources in Texas.

Brady Bank is located within the banking market approximated by McCulloch County. Brady Bank is the largest of three banks in the market controlling deposits of $11.1 million or 46.8 percent of total market deposits. Applicant's nearest existing subsidiary is located in an adjacent county 47 miles from Brady Bank. Coleman Bank is situated within a banking market approximated by Coleman County. Coleman Bank is the largest of three banks in the market controlling deposits of $16.7 million or 46.8 percent of total market deposits. Applicant's nearest subsidiary is located in an adjacent county 30 miles from Coleman Bank. Brady Bank and Coleman Bank are separated by a distance of approximately 52 miles. Approval of these applications will have no adverse effect on competition in either banking market although both Brady Bank and Coleman Bank are each the largest bank in their respective banking markets. The second-ranked banks in each of the banking markets are nearly as large as Brady Bank and Coleman Bank respectively. Approval of these applications will have no adverse effect on potential competition in any relevant area because of the distance of Applicant's banking subsidiary from the banks, Texas' restrictive branching laws, and the unattractiveness of both markets to de novo entry.

The financial and managerial resources and future prospects of Applicant, its subsidiary bank, Brady Bank and Coleman Bank, are regarded as generally satisfactory and consistent with approval in view of the addition of equity capital in the amount of $75,000 to Coleman Bank. Although there is no evidence that the convenience and needs of the communities involved are not adequately being served, considerations of the convenience and needs of the communities to be served are consistent with approval. Applicant will be in a position to provide portfolio management advice, more complete trust services, credit investigation services, and computerized bookkeeping services. It is the judgment of the Federal Reserve Bank of Dallas that the proposed acquisitions serve the public interest and that the applications should be approved.

On the basis of the record, as summarized above, the Federal Reserve Bank of Dallas approves the applications, provided that the transactions shall not be consummated before the 30th calendar day following the effective date of this Order or later than three months after

---

[1] All banking data are as of December 31, 1973, unless otherwise indicated.

[2] The relevant banking market includes all of Licking County, which is bordered on the west by Franklin County, the center of the Columbus, Ohio, banking market.

[3] Voting for this action: Vice Chairman Mitchell and Governors Sheehan, Bucher, Holland, Wallich and Coldwell. Absent and not voting: Chairman Burns.

[1] All deposit figures are as of December 31, 1973 and reflect bank holding company formations and acquisitions approved through October 1, 1974.

the effective date of this Order unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Federal Reserve Bank of Dallas, acting pursuant to delegated authority for the Board of Governors of the Federal Reserve System, effective December 9, 1974.

[SEAL] ROBERT H. BOYKIN,
Secretary.

[FR Doc.74-30244 Filed 12-26-74;8:45 am]

DOMINION BANKSHARES CORP.

Order Approving Acquisition of Bank

Before the Federal Reserve Bank of Richmond acting under delegated authority by the Board of Governors of the Federal Reserve System.

Dominion Bankshares Corp., Roanoke, Virginia (Applicant), a bank holding company within the meaning of the Bank Holding Company Act (12 U.S.C. 1842), has applied for approval under section 3(a)(3) of the Act to acquire at least 80 percent of the voting shares of the Bank of Smithfield, Smithfield, Virginia (Bank).

Notice of the application, affording opportunity for interested persons to submit comments and views, was given in accordance with section 3(b) of the Act and the time for filing all comments and views has expired. The Reserve Bank has considered the application and all comments received in the light of factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls ten banking affiliates operating 89 banking offices with aggregate deposits of $993.4 million,[1] an amount equivalent to 7.9 percent of total commercial bank deposits in Virginia. In terms of deposits it is the state's fifth largest banking organization. Acquisition of Bank with deposits of $14.2 million would increase Applicant's share of deposits in the state by approximately 0.1 percent. Consummation of the proposed transaction would not significantly increase the concentration of banking resources within the state.

Bank is one of three banking organizations located in the relevant geographic market, which is approximated by the Newport and Hardy Magisterial Districts of Isle of Wight County. Of these three, Bank ranks first, with 53.1 percent of the market's deposits, followed by the Smithfield branch of Virginia National Bank with 46.9 percent.[2] Although Applicant has ten offices representing three banks within 25 miles of Bank, no significant competition exists between Bank and any of Applicant's subsidiary banks and it is unlikely that any will develop in the future due to numerous legal, geographic and market barriers. It further appears that the market is not particularly attractive to de novo entry. Accordingly, on the basis of the record, it is concluded that consummation of the proposed acquisition would not have significant adverse effects on competition in any relevant area.

The financial and managerial resources of Applicant are generally satisfactory, and future prospects appear favorable. Considerations relating to convenience and needs of the community to be served lend some weight in support of approval since Applicant's acquisition of Bank will enable the latter to offer a wider range of banking and financial services and provide an alternate source within the market for these services. It is the Reserve Bank's judgment, therefore, that the proposed acquisition would be in the public interest and that the application may be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board of Governors of the Federal Reserve System or by the Federal Reserve Bank of Richmond pursuant to delegated authority.

By order of the Federal Reserve Bank of Richmond, acting pursuant to delegated authority for the Board of Governors of the Federal Reserve System, effective December 13, 1974.

[SEAL] ROBERT P. BLACK,
President.

GEORGE MADISON CORP.

Formation of Bank Holding Company

The George Madison Corp., Pawnee, Oklahoma, has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of all of the voting shares (less directors' qualifying shares) of The First National Bank of Pawnee, Pawnee, Oklahoma. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Kansas City. Any person wishing to comment on the application should submit views in writing to the Reserve Bank, to be received not later than January 13, 1975.

Board of Governors of the Federal Reserve System, December 18, 1974.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[FR Doc.74-30249 Filed 12-26-74;8:45 am]

MERCHANTS NATIONAL CORP.

Order Approving Acquisition of Pacific American Leasing Corp.

Merchants National Corp., Indianapolis, Indiana, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to acquire all of the voting shares of Pacific American Leasing Corp., Phoenix, Arizona ("Company"), a company that engages in the activity of full pay-out leasing. Such activity has been determined by the Board to be closely related to banking (12 CFR 225.4(a)(6)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (39 FR 37433 (1974)). The time for filing comments and views has expired, and none has been timely received.

Applicant controls one bank, Merchants National Bank & Trust Company of Indianapolis, Indianapolis, Indiana ("Bank"), with deposits of about $643 million, representing approximately 4 percent of the total amount of deposits in commercial banks in the State.[1] In addition to its banking subsidiary, Applicant has two wholly-owned nonbanking subsidiaries: Circle Leasing Corp., Indianapolis, Indiana ("Circle"), which engages in full pay-out leasing; and Merchants Investment Counseling, Inc., Indianapolis, Indiana, which engages in investment adviser activities from its sole office in Indianapolis. Circle has existing and proposed offices located in Indiana, Kentucky, Michigan, and Ohio. Upon consummation of the subject proposal, Company would become a wholly-owned subsidiary of Circle.

Company, with its home office located in Phoenix, Arizona and with branch offices in Burbank and Menlo Park, California, is engaged in leasing personal property on a full pay-out basis and acts as a broker in certain leasing transac-

[1] All data, unless otherwise noted, as of June 30, 1974.

[2] Market share as of June 30, 1973.

[1] All banking data are as of June 30, 1974.

tions, serving industrial, commercial and medical equipment leasing customers in its Arizona and California markets. Company's lease receivables on March 31, 1974, were $5.88 million. Approximately 45.2 percent of its gross receipts was accounted for by the Phoenix office, and 40.8 and 14 percent respectively from the Burbank and Menlo Park offices. Due to the wide geographic separation of Company and Circle, consummation of the subject proposal would not eliminate existing competition. Because of the distance involved, and the number and size of the firms engaging in full pay-out leasing in Arizona and California, it does not appear probable that Circle would enter *de novo* into the markets served by Company. Due to Company's small size, the presence of numerous competitors in the market, and the lack of competition between Company and Circle, no adverse competitive effects would result from this acquisition.

Over the past few years, Company has had a significant increase in its gross receivables. In the same period, earnings have also increased. The principal source of Applicant's income is derived from the operations of Bank. Operating statements indicate that based on net income, Bank's earnings are good and future prospects appear favorable. Circle's earnings are sufficient to serve its debt and provide for capital augmentation. Consummation of the subject proposal would result in added financial strength for Applicant, and in the Board's judgment, this proposal would not detract from Applicant's overall financial condition and reduce Applicant's ability to provide additional financial support to its subsidiary bank.

There is no evidence that consummation of the proposed transaction would result in undue concentration of resources, conflicts of interests, unsound banking practices, or decreased or unfair competition. Applicant intends to provide operating funds to Company through Circle, thereby removing Company's reliance on increasingly expensive bank lines of credit and assignment of lease receivables, and decreasing the costs of financing Company's activities. Some public benefit may be expected as these costs savings are passed on to Company's customers.

Based upon the foregoing and other considerations reflected in the record, the Board has determined, in accordance with section 4(c)(8) of the Act, that consummation of this proposal can reasonably be expected to produce benefits to the public that outweigh possible adverse effects. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

The transaction shall be made not later than three months after the effective date of this Order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Chicago pursuant to authority delegated hereby.

By order of the Board of Governors,* effective December 19, 1974.

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.74-30248 Filed 12-26-74;8:45 am]

MORAMERICA FINANCIAL CORP.

Proposed Acquisition and Retention Through Merger With Bezanson Investments, Inc.

MorAmerica Financial Corp., Cedar Rapids, Iowa, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire and retain certain insurance agency activities pursuant to its merger with Bezanson Investments, Inc., Cedar Rapids, Iowa. That merger has already been approved by the Board of Governors by order dated October 1, 1974 (39 FR 36391). Notice of the application was published on November 16, 1974 in The Cedar Rapids Gazette, a newspaper circulated in Cedar Rapids, Iowa.

Applicant states that the proposed subsidiary would engage in the activities of an agent for the sale of insurance for the Applicant and its subsidiaries, as well as for the sale of credit life, credit accident and credit health insurance. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Chicago.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than January 17, 1975.

Board of Governors of the Federal Reserve System, December 17, 1974.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

GENERAL SERVICES ADMINISTRATION

[F.P.M.R. Temp. Reg. E-32; Supp 1]

ADP SCHEDULE CONTRACTS

Use for Acquisition of ADPE; Extension of Expiration Date

1. *Purpose.* This supplement extends the expiration date of FPMR Temporary Regulation E-32.

2. *Effective date.* This regulation is effective December 27, 1974.

3. *Expiration date.* This regulation expires June 30, 1975, unless sooner superseded or revised.

4. *Revised date.* The expiration date shown in paragraph 3 of FPMR Temp. Reg. E-32 is extended to June 30, 1975, since its provisions address the use of fiscal year 1975 ADP Schedule contracts.

ARTHUR F. SAMPSON,
Administrator of General Services.

DECEMBER 18, 1974.

[FR Doc.74-30197 Filed 12-26-74;8:45 am]

[FPMR Temp. Reg. E-1]

ANNUAL REPORT ON FEDERAL ADVISORY COMMITTEES

Reporting Instructions

1. *Purpose.* This regulation sets forth the reporting instructions to be followed by agencies in the preparation and submission of the Annual Report on Federal Advisory Committees.

2. *Effective date.* This regulation is effective December 27, 1974.

3. *Expiration date.* This temporary regulation expires on March 31, 1975, unless sooner revised or superseded.

4. *Background.* The Federal Advisory Committee Act requires an annual report to the Congress on Federal advisory committees in existence during the preceding calendar year. The 1972 and 1973 reports were prepared according to instructions issued by the Office of Management and Budget (OMB). Executive Order 11769 of February 21, 1974, directed the Administrator of General Services to prepare this report for the consideration of the President.

5. *Authority.* The provisions of this regulation are issued pursuant to the Federal Advisory Committee Act (Public Law 92-463), 5 U.S.C. App. I, and Executive Order 11769 of February 21, 1974.

6. *Definitions.* The following definitions shall apply for the purposes of this report.

a. *Advisory committee.* The term "advisory committee" means any committee, board, commission, council, conference, panel, task force, or other similar group,

or any subcommittee or other subgroup thereof, which is:

(1) Established by statute or reorganization plan;

(2) Established or utilized by the President; or

(3) Established or utilized by one or more agencies, in the interest of obtaining advice or recommendations for the President or one or more agencies or officers of the Federal Government; except that the term excludes (a) the Advisory Commission on Intergovernmental Relations; (b) the Commission on Government Procurement; and (c) any committee which is composed wholly of full-time officers or employees of the Federal Government.

b. *Agency*. The term "agency" has the same meaning as it does in 5 U.S.C. 551(1). That is, "agency" means each authority of the United States, whether or not it is within or subject to review by another agency, but does not include:

(1) The Congress;

(2) The courts of the United States;

(3) The governments of the territories or possessions of the United States;

(4) The government of the District of Columbia; and

(5) Other miscellaneous exclusions.

7. *Reports*. The reports prescribed by this regulation have been cleared in accordance with FPMR 101–11.11 and assigned interagency report control number 1121–GSA–AN. Agencies shall use the documents and procedures prescribed below when preparing and submitting the Annual Report on Federal Advisory Committees.

a. *Content of report*. The Annual Report on Federal Advisory Committees shall consist of the original and four copies of each of the following:

(1) SF 248–Test, Annual Report of Federal Advisory Committee;

(2) SF 249–Test, Membership List of Federal Advisory Committee;

(3) SF 250–Test, Annual Report of Federal Advisory Committees Summary Sheet; and

(4) A letter of transmittal for the report that includes the following information:

(a) A list of any statutory advisory committees (committees shown in block 5a, SF 248–Test) that the department or agency recommends be abolished and the reasons therefor;

(b) A summary estimate of the total cost to fund, supply, and maintain the agency's advisory committees in the calendar year following that covered by this report;

(c) A recapitulation of the exemptions in the Freedom of Information Act used as a basis for closing meetings;

(d) Comments in some detail on agency efforts and procedures to ensure balanced membership on its advisory committees; and

(e) Name, address, and telephone number of the agency Committee Management Officer and staff contact person.

b. *Preparation of the report*. It is suggested that SF 248–Test, Annual Report of Federal Advisory Committee, and SF 249–Test, Membership List of Federal Advisory Committee, be completed by the organizational element responsible for support of the individual committee. It is intended that SF 250–Test, Annual Report of Federal Advisory Committees Summary Sheet, and the letter of transmittal be completed at the department or agency level. Information for completion of SF 250–Test is compiled directly from data on appropriate Standard Forms 248.

c. *Due date*. This report is due on or before February 1, 1975. Submit the report to the Office of Records Management, National Archives and Records Service (mailing address: General Services Administration (NR), Washington, D.C. 20408).

8. *Availability of forms*. Standard Form 248–Test, Annual Report of Federal Advisory Committee; Standard Form 249–Test, Membership List of Federal Advisory Committee; and Standard Form 250–Test, Annual Report of Federal Advisory Committees Summary Sheet, and their instructions are illustrated in attachments A, B, and C. These forms should be requisitioned from the nearest GSA supply distribution facility.

9. *Inquiries*. Inquiries concerning these regulations, forms, or reporting procedures should be directed to the Office of Records Management, National Archives and Records Service (mailing address: General Services Administration (NR), Washington, D.C. 20408).

NOTE.—The forms listed in paragraph 8 are filed as part of the original document and do not appear in the FEDERAL REGISTER.

DWIGHT A. INK,
Acting Administrator of General Services.

DECEMBER 13, 1974.

[FPMR Temp. Reg. F-316]

SECRETARY OF DEFENSE

Delegation of Authority

1. *Purpose*. This regulation delegates authority to the Secretary of Defense to represent the consumer interest of the executive agencies of the Federal Government in a proceeding involving the investigation of electric rate structures.

2. *Effective date*. This regulation is effective immediately.

3. *Delegation*.

a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, particularly sections 201(a)(4) and 205(d), (40 U.S.C. 481(a)(4) and 486(d)), authority is delegated to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government before the California Public Utilities Commission in a proceeding involving the investigation of electric rate structures (Case No. 9804).

b. The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

c. This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and, further, shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

ARTHUR F. SAMPSON,
Administrator of General Services.

DECEMBER 19, 1974.

ADVISORY COMMITTEE FOR PROTECTION OF ARCHIVES AND RECORDS CENTERS

Meetings

Pursuant to section 10(a)(2) of the Federal Advisory Committee Act, Pub. L. 92–463, notice is hereby given that meetings of the Advisory Committee for Protection of Archives and Records Centers will be held at 9 a.m. on January 16 and at 9 a.m. on January 17, 1975, in the Departmental Auditorium, Conference Room B, 14th and Constitution Avenue NW., Washington, D.C.

The meeting on January 16 will be devoted to a report on the fire at the Military Personnel Records Center (MPRC) in Overland, Missouri, on July 12, 1973, and a review of current record storage requirements as developed by the National Archives and Records Service and the Public Buildings Service of the General Services Administration; the National Fire Protection Association; and other appropriate organizations.

The meeting on January 17 will be to hear reports on record storage test fires conducted by Factory Mutual Engineering Association, for the GSA Public Buildings Service, and to receive testimony from interested parties concerning the protection of archives and records from fire.

Individuals wishing to offer testimony are requested to submit, in advance, to the Advisory Committee Secretary, a one page outline of their testimony, and to limit their oral remarks to fifteen minutes. Written statements of any length will be accepted.

Further information with reference to these meetings can be obtained from Mr. D. Peter Lund, Advisory Committee Secretary, c/o Society of Fire Protection Engineers, 60 Batterymarch St., Boston, MA 02110, or call (617) 482–0686.

Dated: December 19, 1974.

W. A. MEISEN,
Acting Commissioner, Public Buildings Service.

NATIONAL ADVISORY COMMITTEE ON OCEANS AND ATMOSPHERE

RESCHEDULED MEETING

DECEMBER 20, 1974.

Some details of the January meeting of the National Advisory Committee on Oceans and Atmosphere (NACOA) announced in the December 18, 1974 FEDERAL REGISTER have been changed. The agenda announced for January 20 will be rescheduled for a later date and the January 21 session has been moved up

to take its place. Accordingly, the meeting will consist of a one day informal working session on Monday, January 20, 1975 to consider NACOA work in progress on issues related to the coastal zone impact of Outer Continental Shelf development, the International Decade of Ocean Exploration (IDOE) and plans for NACOA's fourth Annual Report. This session will be held in Room 6802 of the U.S. Department of Commerce Building, 15th and Constitution Avenue, NW, Washington, D.C. beginning at 9 a.m. and ending about 4 p.m. This working session will be open to the public.

Additional information concerning this meeting may be obtained through the Committee's Executive Director, Dr. Douglas L. Brooks, whose mailing address is: National Advisory Committee on Oceans and Atmosphere, Room 5225, Department of Commerce Building, Washington, D.C. 20230. Telephone: (202) 967-3343.

DOUGLAS L. BROOKS,
Executive Director.

PRESIDENTIAL CLEMENCY BOARD

NOTICE OF MEETINGS

DECEMBER 18, 1974.

Notice is hereby given, pursuant to the provisions of the Federal Advisory Committee Act of 1972, that meetings of the Presidential Clemency Board will be held on January 9, 10, 11, 1975, at 9 a.m., in Room 459, Old Executive Office Building, Washington, D.C.

These meetings will not be open to the public since (1) the Board will discuss matters related solely to its internal personnel and practices under 5 U.S.C. 552-(b)(2) and (2) will examine personnel and similar files, disclosure of which would constitute an unwarranted invasion of privacy under (b)(6) of the same section.

CHARLES E. GOODELL,
Chairman.

SECURITIES AND EXCHANGE COMMISSION

[Rel. No. 18719; 37-60]

AMERICAN NATURAL GAS CO. AND AMERICAN NATURAL GAS SERVICE CO.

Proposal To Issue Notes to Holding Company and of Settlement of Interest Rate Matter

Notice is hereby given that American Natural Gas Company ("American Natural"), a registered holding company, and American Natural Gas Service Company ("Service Company"), One Woodward Avenue, Detroit, Michigan 48226, its wholly-owned subsidiary service company, have filed a joint-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating section 13 of the Act and rules 40(b), 42(b)(2), 43(b)(3), and 50(a)(3) promulgated thereunder as applicable to the following proposed transactions. All interested persons are referred to the joint declaration, which is summarized below, for a complete statement of the proposed transactions.

By Order dated January 14, 1966 (Holding Company Act Release No. 15174) Service Company was authorized, effective as of January 1, 1965, to include in its charges to associated companies for services rendered such amount of compensation for the use of capital equity as will, together with interest (at the rate of ¼ percent over the current prime rate) paid on its outstanding notes, provide Service Company with an overall return of 6½ percent per annum after taxes on its total capitalization and surplus. The Commission at that time reserved jurisdiction to determine whether the proposed interest rate and compensation for the use of equity capital are consistent with the provisions of rule 91 under the Act.

At September 30, 1974, Service Company's outstanding securities-all owned by American Natural—and its retained earnings, were as follows:

Notes due 1989	$450,000
Capital stock	250,000
Retained earnings	209,933
Total capitalization and retained earnings	909,933

It is stated that due to prevailing high interest rates, the return on Service Company's equity under the above formula has fallen to an average of $859 per month during 1974 (an annual rate of approximately 2 percent on equity of September 30, 1974). It is now proposed, in view of such negligible return on equity, that the formula be changed so as to include in Service Company's charges for services a return on equity (capital stock plus retained earnings) of 6½ percent per annum after taxes. The charge for interest costs on the $450,000 principal amount of outstanding notes due 1989 will continue at the prime rate plus ¼ of 1 percent. Service Company proposes to enter into a form of service agreement with each of its associate companies reflecting this change.

Pursuant to Commission requirements (see Holding Company Act Release No. 14974, December 5, 1963), Service Company has heretofore duly advised the Commission that it proposes, effective January 1, 1975, to transfer certain activities and functions from associated companies to Service Company, resulting in new and expanded activities for Service Company; and that Service Company would incur costs for additional equipment including equipment transferred from associated companies at depreciated cost. It is stated that Service Company's total 1975 budget for capital expenditures, including the above-mentioned equipment, is estimated at approximately $1,500,000, as follows:

	Additional and replacement	Transferred	Total
Furniture and equipment	$431,300	$101,800	$533,100
Transportation and work equipment	380,000	185,000	565,000
Medical equipment	25,000	.....	25,000
Audio/visual equipment	75,750	40,250	115,950
Drilling rig additions	297,300	.....	297,300
Laboratory equipment	86,250	282,950	369,200
Total	$1,295,600	$709,950	$2,005,550
Less: Estimated depreciation	.....	205,150	205,150
Net	$1,295,600	$414,800	$1,800,400

To cover these costs, Service Company proposes to issue and sell to American Natural from time to time during 1975, up to $1,500,000 principal amount of unsecured notes ("Notes"). The aggregate of Service Company's principal amount of notes outstanding and capital stock will at no time exceed an amount approximately equal to the sum of the depreciated cost of its fixed assets, two months operating expenses, and petty cash working funds.

The Notes will be dated the date of issuance, will mature December 31, 1994, will be prepayable at Service Company's option at any time without penalty, and will bear interest at an annual rate of 1 percent plus the prime rate (adjusted monthly for any changes thereof) in effect at First National City Bank, New York. The proposed interest rate is the same as the interest cost to American Natural in respect of its most recent bank borrowings (see Holding Company Act Release No. 18391, April 25, 1974). Service Company's interest costs on the Notes will be included in its service charges to associate companies.

It is stated that no State Commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions. No fees, commissions or expenses will be incurred in connection with the proposed transaction.

Notice is further given that any interested person may, not later than January 13, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said joint-declaration which he desires to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the joint-declaration, as filed or as it may be amended, may be permitted to become effective as provided in rule 23 of the general rules and regulations promulgated under the Act or the Commission may grant exemption from such rules as provided in rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

APPALACHIAN POWER CO.

Notice of Proposed Increase in Aggregate Maximum Amount of Short-Term Indebtedness, Addition of Lending Banks, Increase in Bank Debt, and Exception from Competitive Bidding

Notice is hereby given that Appalachian Power Company ("Appalachian"), 40 Franklin Road, Roanoke, Va. 24009, an electric utility subsidiary company of American Electric Power Company, Inc., a registered holding company, has filed with this Commission an eighth post-effective amendment to the application previously filed in this matter, pursuant to Section 6(b) of the Public Utility Holding Company Act of 1935 ("Act") and Rule 50(a)(5) promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the application as now amended, which is summarized below, for a complete statement of the proposed transaction.

By orders dated June 29, 1973, March 29, 1974, June 11, 1974, July 5, 1974 and August 23, 1974 (Holding Company Act Release Nos. 18015, 18348, 18448, 18480, and 18543), this Commission, among other things, authorized the issuance and sale of short-term notes and commercial paper by Appalachian. Appalachian has been authorized to incur such short-term indebtedness in an aggregate amount not to exceed $150,000,000.

It is now proposed that the maximum aggregate amount of such short-term indebtedness be increased to $175,000,000. It is further proposed that two additional banks be added to the list of 89 banks from which Appalachian was previously authorized to borrow funds and that the total maximum amount of borrowings from banks be increased from $152,423,000 to $163,423,000.

Each note payable to a bank to be issued by Appalachian will be dated as of the date of the borrowing which it evidences and will mature not more than 270 days after the date of issuance or renewal thereof. Each note will bear interest no greater than the prime rate of commercial banks at the time of issuance or in effect from time to time and will be prepayable at any time without premium or penalty. It is stated that Appalachian will not pay any fees or charges to any of the banks in connection with the issuance and sale of such notes. Sufficient bank balances to meet operating and financial needs are kept at such banks to satisfy any compensating balance requirements in connection with the borrowings. If the average of such bank balances were maintained solely in order to fulfill the prevailing compensating balance requirements of such banks, generally between 15 and 20 percent, the effective interest cost to Appalachian of the issuance and sale of such notes to banks would be approximately between 12.06 percent and 12.8 percent per annum, assuming a prime rate of 10¼ percent.

The commercial paper will be in the form of promissory notes in denominations of not less than $50,000 nor more than $5,000,000 and will be of varying maturities, with no maturity more than 270 days after the date of issue; none will be prepayable prior to maturity. The commercial paper notes of Appalachian will be sold directly to not more than two dealers at a discount not in excess of the discount rate per annum prevailing at the time of issuance for commercial paper of comparable quality and maturity. No commercial paper notes will be issued having a maturity of more than 90 days at an effective interest cost which exceeds the effective interest cost at which Appalachian could borrow from banks. The dealers will reoffer the commercial paper notes to not more than 100 of their customers identified and designated in a list (nonpublic) prepared in advance. It is expected that Appalachian's commercial paper notes will be held by each dealer's customers to maturity, but if the customers wish to resell prior to maturity, the dealer, pursuant to a verbal repurchase agreement, will repurchase the notes and reoffer them to others in its group of 100 customers.

The proceeds from the issuance and sale of the notes will be used by Appalachian to reimburse its treasury for past expenditures made in connection with its construction program and to pay part of the cost of its future construction program. Such construction expenditures for the year 1974 is estimated to total $105,000,000. The application states that, unless otherwise authorized by the Commission, all of the short-term debt of Appalachian will be retired by June 30, 1975, from internal cash resources, debt or equity financing, or cash capital contributions.

Appalachian requests exception from the competitive bidding requirements of rule 50 for the proposed issuance and sale of its commercial paper pursuant to paragraph (a)(5) thereof on the grounds that it is not practicable to invite competitive bids for commercial paper. Appalachian also requests authority to file certificates under rule 24 with respect to the issuance and sale of commercial paper on a quarterly basis.

The Virginia State Corporation Commission has authorized the transaction proposed by Appalachian. No other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than December 30, 1974, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said post-effective amendment to the application which he desires to controvert; or he may request that he be notified should the Commission order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as now amended or as it may be further amended, may be granted as provided in rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

[Rel. No. 19118; 70-5093]

GEORGIA POWER CO.

Notice of Proposed Charter Amendment Regarding Unsecured Debt Limitation and Solicitation of Proxies

Notice is hereby given that Georgia Power Company ("Georgia"), 270 Peachtree Street, NW., Atlanta, Georgia 30303, an electric utility subsidiary company of The Southern Company ("Southern"), a registered holding company, has filed a declaration and amendment thereto pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), 7 and 12(e) of the Act and rules 62 and 65 promulgated thereunder as applicable to the following proposed transactions. All interested persons are referred to the declaration, as amended, for a more complete statement of the proposed transactions.

Georgia states that the terms of its preferred stock, as set forth in its Charter, provide that, except for limited specified purposes or except with the affirmative vote in favor thereof of the holders of at least a majority of the shares of the preferred stock at the time outstanding, the amount of securities representing unsecured indebtedness having maturities of less than ten years as defined in the Charter ("short-term debt") which Georgia may issue or assume shall not exceed 10 percent of its other capitalization, namely the sum of (a) the total principal amount of all bonds and other securities representing secured indebtedness issued or assumed by Georgia and then to be outstanding and (b) the capital and surplus to Georgia (paid-in, earned and other, if any) as stated on its books of account.

Georgia states that on December 14, 1971, the holders of a majority of the outstanding preferred stock authorized Georgia, until July 1, 1975, to issue or assume unsecured short-term debt as above defined in excess of such 10 percent limitation, provided that (a) none of such additional short-term debt outstanding on July 1, 1975 shall mature on or after January 1, 1976, and (b) the company's total indebtedness represented by unsecured securities shall at no time exceed 20 percent of its other capitalization, as above defined. Such action was authorized by order of the Commission dated November 5, 1971 (HCAR No. 17345).

Georgia now proposes to submit to the holders of its outstanding preferred stock a proposal that Georgia be authorized, for a further period of 5 years, until July 1, 1980, to issue or assume unsecured short-term debt in excess of the 10 percent limitation, provided that (a) none of such additional short-term debt outstanding on July 1, 1980 shall mature on or after January 1, 1981, and (b) the company's total indebtedness represented by unsecured securities shall at no time exceed 20 percent of its other capitalization, as above defined.

Georgia intends to submit the above proposal to the holders of its preferred stock for their approval at a special meeting to be held on March 5, 1975. Georgia additionally proposes to solicit proxies regarding such matter from the holders of its preferred stock. The affirmative vote of at least a majority of the shares of preferred stock at the time outstanding is required by Georgia's Charter to adopt the proposal.

It has been the practice of Georgia to finance current construction expenditures in excess of available internally generated funds from the proceeds of short-term borrowings to be funded through the sale of additional first mortgage bonds and preferred stock and from capital contributions by its parent, Southern. Difficulty in achieving earnings sufficient to meet interest and dividend coverage requirements for the sale of bonds and preferred stock, as well as unstable market conditions, has forced Georgia to postpone part of its 1974 financing program. Georgia is uncertain as to when and in what amounts additional sales of its first mortgage bonds and preferred stock may be accomplished. Accordingly, it has been and may be required to rely on the continued availability to it of short-term borrowings to meet, in part, construction expenditures and maturing short-term obligations.

Based on the capitalization of Georgia as of September 30, 1974, the 10% Charter limitation on short-term debt is $286,318,200. Georgia estimates that its financing requirements in 1975 will necessitate the incurrence of short-term unsecured debt substantially in excess of the amount indicated by such 10 percent Charter limitation. While a favorable vote by the preferred stockholders would permit Georgia to incur short-term indebtedness in excess of that limitation, exercise of the privilege by Georgia would require prior approval of the Commission.

Georgia has filed with the Commission (File No. 70-5463) a request to increase the amount of its present short-term borrowing authorization (HCAR No. 18517, July 31, 1974) from $250,000,000 to a maximum aggregate principal amount of $450,000,000, at any one time outstanding through March 31, 1975.

By order dated December 5, 1974 (HCAR No. 18692), the Commission granted Georgia authority to make interim borrowings during the period expiring January 15, 1975, in a maximum amount not exceeding $350,000,000 at any one time outstanding. At that date, unless authorized by the Commission, Georgia's short-term borrowing authority will decrease to $250,000,000 through March 31, 1975.

Fees and expenses to be paid or incurred in connection with the proposed transactions are estimated at $63,000, including legal fees of $10,000. It is stated that no State or Federal commission, other than this Commission has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than January 10, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration, as amended, which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as amended or as it may be further amended, may be permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in rule 20(a) and 100 thereof or take such other action as it

may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[Rel. No. 8618; 811-1606]

TMR APPRECIATION FUND, INC.

Notice of Proposal To Terminate Registration

Notice is hereby given that the Commission proposes, pursuant to section 8(f) of the Investment Company Act of 1940 ("Act") to declare by order on its own motion that TMR Appreciation Fund, Inc. ("Appreciation Fund"), 245 Park Avenue, New York, New York 10017, registered under the Act as an open-end investment company, has ceased to be an investment company as defined in the Act.

Appreciation Fund registered under the Act on February 20, 1968. It also filed a registration statement on Form S-5 (File No. 2-28266) under the Securities Act of 1933 which became effective on July 17, 1968. As of June 30, 1974, it had net assets of $7,240,809 and on July 26, 1974, it had outstanding 1,140,217 shares of common stock.

The Commission's records indicate that on September 19, 1974, shareholders of Appreciation Fund approved a plan of reorganization providing for the merger of Appreciation Fund with Manhattan Fund, Inc. ("Manhattan") under which Manhattan was to be the surviving corporation. The merger was made effective on the same date shareholders approved the Plan of Reorganization. Appropriate dissolution papers were filed with the States having jurisdiction and, thereafter, Appreciation Fund technically ceased to exist.

Section 8(f) of the Act provides, in pertinent part, that when the Commission on its own motion or upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order and upon the effectiveness of such order, the registration of such company shall cease to be in effect.

Notice is further given, that any interested person may, not later than January 13, 1975, at 5:30 p.m., submit to the Commission in writing a request for a hearing on this matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon TMR Appreciation Fund, Inc., at the address stated above. Proof of such service (by affidavit, or in the case of an attorney-at-law, by certificate) shall be filed contemporaneously with the request. As provided by rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the matter herein will be issued as of course following said date unless the Commission thereafter orders a hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Management Regulation, pursuant to delegated authority.

[SEAL] GEORGE R. FITZSIMMONS, *Secretary.*

SMALL BUSINESS ADMINISTRATION

[License No. 09/09-0174]

AMERICAN-EURO INTERFUND CORPORATION

Issuance of a License to Operate as a Small Business Investment Company

On September 26, 1974, a notice was published in the FEDERAL REGISTER (39 FR 34611) stating that an application had been filed with the Small Business Administration pursuant to § 107.102 of the Regulations governing Small Business Investment Companies for a license to operate as a small business investment company by American-Euro Interfund Corp., 44 Montgomery Street, Suite 2870, San Francisco, California 94104.

Interested parties were invited to submit their written comments to SBA. No comments were received.

Notice is hereby given that pursuant to the provisions of the Small Business Investment Act of 1958, as amended (15 U.S.C. 661 et seq.), after having considered the application and all other pertinent information and facts with regard thereto, SBA has issued License No. 09/09-0174 to American-Euro Interfund Corporation to operate as a small business investment company.

Dated: December 18, 1974.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

[FR Doc.74-30218 Filed 12-26-74;8:45 am]

[License No. 08/73-0001]

SMALL BUSINESS IMPROVEMENT COMPANY

Filing of Application for Approval of Conflict of Interest Transaction

Notice is hereby given that Small Business Improvement Co. (Small Business Improvement), 711 Central Avenue, Billings, Montana 59103, a Federal Licensee under the Small Business Investment Act of 1958, as amended, has filed an application pursuant to § 107.1004(b) of the regulations governing small business investment companies (13 CFR 107.1004(1974)), for an exemption from the provisions of the conflict of interest regulations.

The exemption, if granted, will permit Small Business Improvement to provide financing in the amount of $25,000 to Mr. John O. Bonisteel, a former employee of Super Save Markets which are owned by a wholly owned subsidiary of Ryans, Inc., parent company of Small Business Improvement.

Information provided by the Applicant in connection with this application indicates that:

1. Mr. H. E. Bollinger owned Bud's IGA Foodliner (Foodstore), which was financed by Small Business Improvement. Mr. Bollinger died on September 1, 1972. The business passed to his estate, under the management of his widow, Mrs. Thelma B. Bollinger. Mrs. Bollinger now wishes to sell this store.

2. Mr. Bonisteel signed a Buy and Sell Agreement dated September 25, 1974. The Agreement hinges upon Mr. Bonisteel obtaining through the Western Bank of Chinook, Montana, a Small Business Administration (SBA) loan

3. Subject to SBA approval, Small Business Improvement agreed to make a loan to Mr. Bonisteel and to subordinate it to a bank participation loan, guaranteed by SBA in the amount of $50,000.

Pursuant to Paragraphs (b) and (c) of the definition of "Associate of a Licensee" in § 107.3 of the regulations, Mr. Bonisteel is considered to be an associate of Small Business Improvement. As such, the transaction will require an exemption pursuant to § 107.1004(b) of the regulations.

Notice is hereby given that any person may, no later than January 13, 1975, submit written comments on the proposed transaction to: Deputy Associate Administrator for Investment, Small Business Administration, 1441 "L" Street, NW., Washington, D.C. 20416.

A copy of this notice shall be published in a newspaper of general circulation in Chinook, Montana.

Dated: December 18, 1974.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

TARIFF COMMISSION

[337-L-30]

CERTAIN ANGOLAN ROBUSTA COFFEE

Notice of Complaint Received

The United States Tariff Commission hereby gives notice of the receipt on November 26, 1974, of a complaint under section 337 of the Tariff Act of 1930 (19 U.S.C. 1337), filed by Cofinco Inc., Imperial Commodities Corporation, Mitsui & Co. (U.S.A.), Inc., S.F. Pellas Co., Inc., and Van Ekris & Stoett, Inc., each of New York, N.Y., alleging unfair methods of competition and unfair acts in the importation and sale of Angolan Robusta coffee of the grade "Ambriz 2BB", which unfair acts have the effect or tendency to restrain or monopolize trade and commerce in the United States. Complainants also allege that the effect or tendency of such acts injures a domestic coffee importing industry. The specific unfair acts are alleged to consist of illegal price-fixing arrangements for the sale of such coffee in the United States and boycotts and refusals to deal with United States importers and traders not participating in such price-fixing arrangements. The complaint names A.C. & Leon Israel Coffee Co., E. R. Camilleri & Co., Inc., Gill & Duffus, Inc., and Socomex Coffee, Inc., each of New York, N.Y., as engaging in the unfair acts with Cardoso & CIA, LDA, Jopedros, LDA, Van Caf Ltd., Madeira & Marques, LDA, Cooperative dos Proditores-Exportadores, E Commerciantes-Exportadores Do Cafe De Luanda, S.C.A.R.L., each of Luanda, Angola, Angola Coffee Company of Rotterdam, The Netherlands, and Pacol Limited, of London, England, among others.

In accordance with the provisions of § 203.3 of its rules of practice and procedure (19 CFR 203.3), the Commission has initiated a preliminary inquiry into the issues raised in the complaint for the purpose of determining whether there is good and sufficient reason for a full investigation and if so whether the Commission should recommend to the President the issuance of a temporary exclusion from entry under section 337(f) of the Tariff Act.

A copy of the complaint is available for public inspection at the Office of the Secretary, United States Tariff Commission, 8th and E Streets, NW, Washington, D.C., and at the New York City office of the Tariff Commission located at 6 World Trade Center.

Information submitted by interested persons which is pertinent to the aforementioned preliminary inquiry will be considered by the Commission if it is received not later than January 24, 1975. Extensions of time for submitting information will not be granted unless good and sufficient cause is shown therefor. Such information should be sent to the Secretary, United States Tariff Commission, 8th and E Streets, NW, Washington, D.C. 20436. A signed original and nineteen (19) true copies of each document must be filed.

Issued: December 23, 1974.

By order of the Commission:

(SEAL) KENNETH R. MASON,
Secretary.

DEPARTMENT OF LABOR

Bureau of Labor Statistics

BUSINESS RESEARCH ADVISORY COUNCIL; MANPOWER AND EMPLOYMENT COMMITTEE

Meeting

The BRAC Committee on Manpower and Employment will meet at 9:30 a.m., January 15, 1975, at the General Accounting Office Building, 441 G Street, NW, Room 2106, Washington, D.C. The agenda for the meeting is as follows:

1. Office of Manpower Structure and Trends.

A. Report on the recent benchmark revision of the establishment employment (790) series. This will include comment on the magnitude of the employment revisions, as well as explanation of recently discovered errors in certain hours and earnings series.

B. Discussion with regard to other questions associated with the 790 program.

I. The Bureau's present examination of the net spendable earnings series.

2. Consideration of the desirability and practicability of measuring separately, in the establishment survey, the number and earnings of part-time workers.

3. Recent research and contemplated developments as regards the separate measurement of hours worked and hours paid for, and the possible use of hours worked as the denominator for a measure of hourly earnings.

4. Special plans for reporting designed to measure the impact of changing energy supplies on industry.

C. Discussion of programs dealing with information concerning occupational requirements.

2. Office of Current Employment Analysis. Current Population Survey sample expansion and the status of local area employment and unemployment statistics.

It is suggested that persons planning to attend this meeting as observers contact Kenneth G. Van Auken, Executive Secretary, Business Research Advisory Council on (Area Code 202) 961-2559.

Signed at Washington, D.C., this 18th day of December 1974.

JULIUS SHISKIN,
Commissioner of Labor Statistics.

Occupational Safety and Health Administration

HAWAII STATE STANDARDS

Notice of Approval

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (hereinafter called the Act) by which the Assistant Regional Directors for Occupational Safety and Health (hereinafter called Assistant Regional Director) under a delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary) (29 CFR 1953.4) will review and approve standards promulgated pursuant to a State plan which has been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. On January 4, 1974, notice was published in the FEDERAL REGISTER (39 FR 1010) of the approval of the Hawaii plan and the adoption of Subpart Y of Part 1952 containing the decision.

The Hawaii plan provides for the adoption of State standards which are at least as effective as comparable Federal standards promulgated under section 6 of the Act. State standards comparable to 29 CFR Part 1910, Subparts E, F, H, I, J, L, M, O and R were submitted with the State plan. However, the following State standards were determined to need additional revision (29 CFR Part 1910, Subparts D, G, K, N, P, Q and S and all of 29 CFR Part 1926). Accordingly Hawaii has revised these standards and promulgated them in accordance with applicable State procedures.

Section 1952.313 of Subpart Y sets forth the State's schedule for the adoption of at least as effective State standards. By letter dated April 3, 1974, from Robert K. Hasegawa, Director of the Department of Labor and Industrial Relations, to Gabriel J. Gillotti, Assistant Regional Director, and incorporated as part of the plan, the State submitted proof documents concerning 29 CFR Part 1910 Subparts D, G, K, N, P, Q and S and all Subparts of Part 1926, Title 29 Code of Federal Regulations. These standards, which are contained in Hawaii Occupational Safety and Health Standards—Rules and Regulations, were promulgated by the State after public hearings on the following dates: April 18, 22, 23, 24 and 25, 1974.

2. *Decision.* Having reviewed the State submission in comparison with the Federal standards, it has been determined that the State standards are at least as effective as the comparable Federal standards. The State standards are more specific in several areas particularly with respect to Subpart I, 29 CFR 1910.135 "Occupational Head Protection" and Subpart K, 29 CFR 1910.151 "Medical and First Aid." The detailed standards comparison is available at the locations specified below.

3. *Location of supplement for inspection and copying.* A copy of the standards supplement, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Assistant Regional Director, Occupational Safety and Health Administration, 450 Golden Gate Avenue, Room 9470, San Francisco, California 94102; and the offices of the Department of Labor and Industrial Relations, Room 308, 825 Mililani Street, Honolulu, Hawaii 96313; and Office of the Associate Assistant Secretary for Regional Programs, Room 850, 1726 M Street NW., Washington, D.C. 20210.

4. *Public participation.* Under § 1953.2 (c) of 29 CFR Part 1953 the Assistant Secretary may prescribe alternative procedures to expedite the review process or for other good cause which may be consistent with applicable laws. The Assistant Secretary finds that good cause exists for not publishing the supplement to the Hawaii plan as a proposed change and making the Assistant Regional Director's approval effective upon publication for the following reason.

The standards were adopted in accordance with the procedural requirements of State law which included public comment and further public participation would be unnecessary.

This decision is effective December 27, 1974.

(Sec. 18, Pub. L. 91-596, 84 Stat. 1608 (29 U.S.C. 667))

Signed at San Francisco, California this 3rd of December, 1974.

GABRIEL J. GILLOTTI,
Assistant Regional Director.

INTERSTATE COMMERCE COMMISSION

[Notice No. 102]

MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

DECEMBER 20, 1974.

The following applications (except as otherwise specifically noted, each applicant (on applications filed after March

27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application, are governed by Special Rule 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the methods—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

APPLICATION SET FOR HEARING

No. MC 125433 (Sub-No. 55), filed December 11, 1974. Applicant: F-B TRUCK LINE COMPANY, 1891 West 2100 South, Salt Lake City, Utah 84119. Applicant's representative: David J. Lister (Same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Contractors, construction and mining machinery, equipment, materials, supplies, and parts* (except commodities in bulk), from Pocatello, Idaho, to points in Oregon, Washington, California, Idaho Nevada, Arizona, Utah, Montana, Wyoming, Colorado, New Mexico, North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Texas, Minnesota, Wisconsin, Iowa, Illinois, Missouri, Arkansas, and Louisiana.

NOTE.—Common control may be involved.

HEARING: January 16, 1975, for 2 days, at 9:30 Local Time, at Salt Lake City, Utah, in a room to be later designated.

No. MC 531 (Sub-No. 302), filed November 29, 1974. Applicant: YOUNGER BROTHERS, INC., 4904 Griggs Road, Houston, Tex 77021. Applicant's representative: Wray E. Hughes (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals* (except anhydrous ammonia, aqua ammonia, and liquid fertilizer), in bulk, in tank vehicles, from the plantsite of Monsanto Company located at or near Muscatine, Iowa, to points in Arizona, California, Idaho, Nevada, Oregon, and Washington.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at St. Louis, Mo.

No. MC 2229 (Sub-No. 188), filed December 4, 1974. Applicant: RED BALL MOTOR FREIGHT, INC., 3177 Irving Blvd., P.O. Box 47407, Dallas, Tex. 75247. Applicant's representative: Douglas Anderson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except household goods as defined by the Commission, *commodities* in bulk, and those requiring special equipment): Serving points in Union County, Ark., as off-route points in connection with carrier's authorized regular-route operation from and to El Dorado, Ark.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either El Dorado or Little Rock, Ark.

No. MC 2229 (Sub-No. 189), filed December 4, 1974. Applicant: RED BALL MOTOR FREIGHT, INC., 3177 Irving Blvd., P.O. Box 47407, Dallas, Tex. 75247. Applicant's representative: Douglas Anderson (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except household goods as defined by the Commission, *commodities* in bulk, and those requiring special equipment): Serving all points in Hot Spring County, Ark., as off-route points in connection with carrier's authorized regular-route operation, from and to Little Rock, Ark.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Little Rock, Ark.

No. MC 20722 (Sub-No. 27), filed Nov. 25, 1974. Applicant: M & G CONVOY, INC., 590 Elk Street, Buffalo, N.Y. 14240. Applicant's representative: Eugene C. Ewald, 100 West Long Lake Road, Suite 102, Bloomingfield Hills, Mich. 48013. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Motor vehicles*, (1) from Chesapeake, Va., in initial and secondary movements; and (2) from Portsmouth, Va., in secondary movements, to points in the United States (including Alaska, but excluding Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 28478 (Sub-No. 43), filed November 21, 1974. Applicant: GREAT LAKES EXPRESS CO., a Corporation, 1150 North Niagara Street, Saginaw, Mich. 48602. Applicant's representative: LaVergne L. Adsit (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the village of Addison, Mich., located approximately 15 miles south of Jackson, Mich., on U.S. Highway 127, as an off-route point in connection with applicant's authorized regular route operations to and from Jackson, Mich.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Detroit or Lansing, Mich.

No. MC 29120 (Sub-No. 187) (Correction), filed November 6, 1974, published in the FEDERAL REGISTER issue of December 5, 1974, and republished as corrected, this issue. Applicant: ALL-AMERICAN, INC., 900 West Delaware, Sioux Falls, S. Dak. 57101. Applicant's representative: R. H. Jinks (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those

of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), Between Sioux Falls and Spearfish, S. Dak., serving no intermediate points: From Sioux Falls over Interstate Highway 90 to Spearfish, and return over the same route, as an alternate route for operating convenience only, in connection with carrier's authorized regular route operations.

NOTE.—The purpose of this republication is to indicate applicant seeks alternate route authority. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Sioux Falls, S. Dak.

No. MC 31389 (Sub-No. 191), filed Nov. 25, 1974. Applicant: MCLEAN TRUCKING COMPANY, a Corporation, 617 Waughtown Street, Winston-Salem, N.C. 27107. Applicant's representative: David F. Eshelman, P.O. Box 213, Winston-Salem, N.C. 27102. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment): Serving Santa Claus, Ind., as an off-route point in conjunction with applicant's regular routes, to and from Evansville, Ind.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or New York, N.Y.

No. MC 43246 (Sub-No. 20), filed Nov. 27, 1974. Applicant: BUSKE LINES, INC., 123 W. Tyler Avenue, Litchfield, Ill. 62056. Applicant's representative: Harold Buske, 123 W. Tyler Avenue, Litchfield, Ill. 62056. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers*, from Hillsboro, Ill., to Schaefferstown, Pa., and Scobeyville, N.J., under contract with Hillsboro Glass Co.

NOTE.—Applicant holds common carrier authority in MC 15975 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo., or Springfield, Ill.

No. MC 44735 (Sub-No. 20), filed December 2, 1974. Applicant: KISSICK TRUCK LINES, INC., 7101 East 12th Street, Kansas City, Mo. 64126. Applicant's representative: John E. Jandera, 641 Harrison Street, Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Mineral mixtures, dry animal and poultry feed and ingredients thereof, and dry fertilizer and ingredients thereof*, from the plantsites of Micro Lite, Inc., at or near Buffalo and Chanute, Kans., to points in Arkansas, Colorado, Illinois, Indiana, Iowa, Louisiana, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, Oklahoma, South Dakota, Texas, Wisconsin, and Wyoming.

NOTE.—If a hearing is deemed necessary, applicant requests it be held on consolidated record with the similar applications filed by Dahlsten Truck Line, Inc., and Hofer, Inc.

No. MC 45736 (Sub-No. 46), filed November 21, 1974. Applicant: GUIGNARD FREIGHT LINES, INC., P.O. Box 26067, Highway 21 North, Charlotte, N.C. 28213. Applicant's representative: Edward G. Villalon, 1032 Pennsylvania Building, Pennsylvania Ave. and 13th St. NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Roofing, roofing materials, siding and siding materials*, from Charleston, S.C., to points in Duval County, Fla.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Boston, Mass., or Washington, D.C.

No. MC 51146 (Sub-No. 405), filed November 25, 1974. Applicant: SCHNEIDER TRANSPORT, INC., 2661 South Broadway, Green Bay, Wis. 54304. Applicant's representative: Neil A. DuJardin, P.O. Box 2298, Green Bay, Wis. 54306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Printed matter, publications, and exempted printed matter*, as described in Section 203(B)(7) of the Act, as amended, when transported at the same time and in the same vehicle with printed matter, and *materials, supplies, and equipment* used in the maintenance and operation of printing plants, between the plant site of the R. R. Donnelly & Sons Company at Dwight, Ill., on the one hand, and, on the other, points in New York, West Virginia, Missouri, Pennsylvania, Wisconsin, Michigan, Ohio, Indiana, and Illinois.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 51146 (Sub-No. 406), filed November 29, 1974. Applicant: SCHNEIDER TRANSPORT, INC., 2661 South Broadway, Green Bay, Wis. 54304. Applicant's representative: Neil A. DuJardin, P.O. Box 2298, Green Bay, Wis. 54306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Arts and crafts, games and toys*, from points in Maine, Vermont, New Hampshire, Delaware, Virginia, West Virginia, North Carolina, South Carolina, Georgia, Florida, Michigan, Ohio, Indiana, Kentucky, Tennessee, Alabama, Mississippi, Louisiana, Arkansas, Texas, Oklahoma, Missouri, Illinois, Iowa, Minnesota, Kansas, Nebraska, North Dakota, and South Dakota, to points in Wisconsin.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 61592 (Sub-No. 331), filed November 25, 1974. Applicant: JENKINS TRUCK LINE, INC., P.O. Box 697, Rural Route 3, Jeffersonville, Ind. 47130. Applicant's representative: E. A. DeVine, P.O. Box 737, 101 First Avenue, Moline, Ill. 61265. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Roofing materials, shakes, and shingles* (except commodities in bulk), from Santa Clara, Pittsburg, and Bakersfield, Calif., to points in Washington.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Seattle, Wash.

No. MC 61592 (Sub-No. 332), filed November 29, 1974. Applicant: JENKINS TRUCK LINE, INC., P.O. Box 697, Rural Route 3, Jeffersonville, Ind. 47130. Applicant's representative: E. A. DeVine, P.O. Box 737, 101 First Avenue, Moline, Ill. 61265. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Granite, marble, slate, and stone, including precast stone and equipment, materials, and supplies*, used in the quarrying, manufacturing, and installation of granite, marble, slate, and stone, including precast stone (except commodities in bulk), between points in California, on the one hand, and, on the other, points in Alabama, Arizona, Arkansas, Colorado, Florida, Georgia, Kansas, Louisiana, Missouri, Mississippi, Nevada, New Mexico, North Carolina, Oklahoma, South Carolina, Texas, and Utah; (2) *granite, marble, slate, and stone, including precast stone and equipment, materials, and supplies*, used in the quarrying, manufacturing and installation of granite, marble, slate, and stone, including precast stone (except commodities in bulk), between points in Burnet, Gillespie, and Llano Counties, Tex., on the one hand, and, on the other, points in Arizona, California, Colorado, Nevada, New Mexico, and Utah; and (3) *granite, marble, slate, and stone, including precast stone and equipment, materials, and supplies*, used in the quarrying, manufacturing and installation of granite, marble, slate, and stone (except commodities in bulk), between points in Greer, Johnston, Kiowa, and Tillman Counties, Okla., on the one hand, and, on the other, points in Alabama, Arizona, Arkansas, California, Colorado, Florida, Georgia, Louisiana, Mississippi, Nevada, New Mexico, North Carolina, South Carolina, Texas, and Utah.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Dallas, Tex.

No. MC 64932 (Sub-No. 541), filed November 18, 1974. Applicant: ROGERS CARTAGE CO., a Corporation, 10735 South Cicero Avenue, Oak Lawn, Ill. 60453. Applicant's representative: Carl L. Steiner, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, from points in St. Charles County, Mo., to points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill., or St. Louis, Mo.

No. MC 67200 (Sub-No. 43), filed December 4, 1974. Applicant: THE FURNITURE TRANSPORT COMPANY, INC., P.O. Box 392, Furniture Row, Milford, Conn. 06460. Applicant's representative: Arthur J. Piken, One Lefrak City Plaza, Flushing, N.Y. 11368. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Organs*, from the warehouse, terminal and storage facilities of The Furniture Transport Company, Inc., located in the Commercial Zones of Milford, Conn.; Orlando, Fla.; and Atlanta, Ga., to points in Connecticut, Massachusetts, Rhode Island, Maine, New Hampshire, Vermont, New York, New Jersey, Pennsylvania, Florida, Georgia, and Alabama.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C., or Chicago, Ill.

No. MC 75320 (Sub-No. 176), filed December 4, 1974. Applicant: CAMPBELL SIXTY-SIX EXPRESS, INC., P.O. Box 807, Springfield, Mo. 65801. Applicant's representative: P. E. Adams (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment): Serving the plantsite and warehouse facilities of Federal-Mogul Corporation, at or near Jacksonville, Ala., as an off-route point in conjunction with applicant's regular-route operations between Birmingham, Ala., and Atlanta, Ga.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Birmingham, Ala., or Atlanta, Ga.

No. MC 89684 (Sub-No. 87), filed November 29, 1974. Applicant: WYCOFF COMPANY, INCORPORATED, 560 South 300 West, Salt Lake City, Utah 84110. Applicant's representative: Harry D. Pugsley, Suite 400, 315 East 2d South, Salt Lake City, Utah 84111. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), between Salt Lake City International Airport at Salt Lake City, Utah and Stapleton International Airport at Denver, Colo., restricted to shipments having a prior or subsequent movement by air.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Salt Lake City, Utah, or Denver, Colo.

No. MC 95876 (Sub-No. 162), filed November 8, 1974. Applicant: ANDERSON TRUCKING SERVICE, INC., 203 Cooper Avenue North, St. Cloud, Minn. 56301. Applicant's representative: Andrew R. Clark, 1000 First National Bank Bldg., Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Hydrants, accessories, and parts*, from St. Paul, Minn., to points in the United States (except Alaska and Hawaii).

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Minneapolis, Minn.

No. MC 96876 (Sub-No. 164), filed November 29, 1974. Applicant: ANDERSON TRUCKING SERVICE, INC., 203 Cooper Avenue North, St. Cloud, Minn. 56301. Applicant's representative: Val M. Higgins, 1000 First National Bank Building, Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Equipment, materials, and supplies* used in the manufacturing and the distribution of cast iron products, between Council Bluffs, Iowa, Lynchburg, Va., and Florence, N.J.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 104004 (Sub-No. 195) (Correction), filed July 10, 1974, and published in the FEDERAL REGISTER issue of September 12, 1974, and republished as corrected this issue. Applicant: ASSOCIATED TRANSPORT, INC., 380 Madison Avenue, New York, N.Y. 10017. Applicant's Representative: John P. Tynan, 65–12 69th Place, Middle Village, N.Y. 11379. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, livestock, Classes A and B explosives, liquid commodities in bulk, household goods as defined by the Commission, and those requiring special equipment), Between Columbia, S.C., and points in South Carolina within 150 miles of Charlotte, N.C., and Chattanooga, Tenn.: From Columbia over Interstate Highway 26 to junction U.S. Highway 276, thence over U.S. Highway 276 to junction Interstate Highway 85, thence over Interstate Highway 85 to junction Interstate Highway 75, thence over Interstate Highway 75 to Chattanooga, and return over the same route, as an alternate route for operating convenience only in connection with applicant's authorized regular route operations, serving no intermediate points.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y., or Washington, D.C.

No. MC 106433 (Sub-No. 6), filed December 2, 1974. Applicant: ANTRIM TRANSPORTATION CO., INC., 7–11 Suffern Place, Suffern, N.Y. 10901. Applicant's representative: John L. Alfano, 550 Mamaroneck Avenue, Harrison, N.Y. 10528. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Malt beverages and related advertising materials*, from Radisson, N.Y., to points in Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, and Vermont; and (2) *materials, supplies, and equipment* used in the manufacture, sale, and distribution of malt beverages, including empty containers and returned malt beverages, from points in Connecticut, Maine, Massachusetts, New Hampshire, New Jersey, New York, Pennsylvania, Rhode Island, and Vermont, to Radisson, N.Y.

NOTE.—Common control and dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 107403 (Sub-No. 924), filed Nov. 22, 1974. Applicant: MATLACK, INC., Ten West Baltimore Avenue, Lansdowne, Pa. 19050. Applicant's representative: Harry C. Ames, Jr., 666 11th St., NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid fertilizer solutions*, in bulk, in tank trailers, from the plantsite of Union Texas Petroleum Division of Allied Chemical Corporation, located at Baltimore, Md., to points in Maryland, Virginia, Delaware, Pennsylvania, and New Jersey, restricted to traffic originating at and destined to, the points named herein.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 107496 (Sub-No. 975), filed November 29, 1974. Applicant: RUAN TRANSPORT CORPORATION, Third at Keosauqua Way, P.O. Box 855, Des Moines, Iowa 50309. Applicant's representative: E. Check (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Lube oil*, in bulk, from Wichita, Kans., to points in Illinois and Indiana; (2) *dry detergents*, in bulk, from the plantsite of Economics Laboratory, Inc., at or near Channahon, Ill., to points in Texas and New Jersey; (3) *liquid fertilizer*, in bulk, from points in Peoria County, and Peoria, Ill., to points in Iowa, Indiana, Missouri, Wisconsin, Ohio, Michigan, and Kentucky; (4) *barytes ore*, in bulk, from Pfizer, Inc., plantsites and facilities in Washington County, Mo., to points in Illinois; and (5) *liquid foundry facing*, in bulk, from Highland, Ind., to points in Alabama, and Missouri (excluding St. Louis, Mo.).

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Kansas City, Mo., or Chicago, Ill.

No. MC 107515 (Sub-No. 966), filed November 21, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 30050. Applicant's representative: Alan E. Serby, 3379 Peachtree Road NE., Suite 375, Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen bakery products*, from Nashville, Tenn., to points in the United States on and east of U.S. Highway 85 (except points in Tennessee).

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Atlanta, Ga., or Memphis, Tenn.

No. MC 107515 (Sub-No. 997), filed November 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 30050. Applicant's representative: Alan E. Serby, 3379 Peachtree Road NE., Suite 375, Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Adairville, Ky., to points in the United States (except Alaska and Hawaii), restricted to traffic originating at the above named origin.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Nashville, Tenn. or Atlanta, Ga.

No. MC 108884 (Sub-No. 32), filed December 4, 1974. Applicant: ROGERS TRANSFER, INC., Route 46, P.O. Box 175, Great Meadows, N.J. 07838. Applicant's representative: Bert Collins, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, in vehicles equipped with mechanical refrigeration, from Mount Airy, Md., to points in Minnesota, Iowa, Missouri, Arkansas, Louisiana and points in States east thereof. If a hearing is deemed necessary, applicant requests it be held at New York, N.Y.

No. MC 109533 (Sub-No. 68), filed November 25, 1974. Applicant: OVERNITE TRANSPORTATION COMPANY, a corporation, 1100 Commerce Road, Richmond, Va. 23224. Applicant's representative: C. H. Swanson, P.O. Box 1213, Richmond, Va. 23209. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods, as defined by the Commission, commodities in bulk and commodities requiring special equipment), serving the plantsite of The Firestone Tire and Rubber Company located at or near Nashville, Tenn., as an off-route point in connection with carrier's authorized regular-route operations.

NOTE.—If a hearing is deemed necessary, the applicant does not specify location.

No. MC 109633 (Sub-No. 19), filed November 15, 1974. Applicant: ARBET TRUCK LINES, INC., 222 East 135th Place, Chicago, Ill. 60627. Applicant's representative: Arnold L. Burke, 127 North Dearborn Street, Chicago, Ill. 60602. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, liquid commodities in bulk, commodities requiring special equipment and household goods as defined by the Commission), between Indianapolis, Ind. and its Commercial Zone, on the one hand, and, on the other, Louisville, Ky.

NOTE.—Applicant states purpose of this application is to eliminate a Clinton County, Ind., gateway. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 111611 (Sub-No. 24), filed November 6, 1974. Applicant: NOERR MOTOR FREIGHT, INC., 205 Washington Ave., Lewistown, Pa. 17044. Applicant's representative: John E. Fullerton, 407 N. Front Street, Harrisburg, Pa. 17101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) (1) *Tractors* (except those with vehicle beds, bed frames, and fifth wheels); (2) *equipment* designed for use in conjunction with said tractors; (3) *agricultural, industrial, and construction machinery and equipment;* (4) *trailers*, designed for transportation of the afore-described commodities; (5) *attachments* for the afore-described commodities; (6) *internal combustion engines;* (7) *accessories, parts and supplies* used in the manufacture, repair and assembly of (1) through (6) above, from Belleville, Pa., to points in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Maine, Maryland, Massachusetts, Michigan, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Ohio, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia; and (B) (1) *equipment* designed for use in conjunction with tractors (except those with vehicle beds, bed frames, and fifth wheels); (2) *trailers* designed for transportation of the afore-described commodities; (3) *attachments* for the afore-described commodities; (4) *internal combustion engines;* (5) *accessories, parts and supplies* used in the manufacture, repair and assembly of (1) through (4) above, from points in the destination territory described in (A) above, to Belleville, Pa.

Note.—Applicant states that it presently holds the requested authority and that the purpose of this application is to clarify the commodity description as authorized. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 112520 (Sub-No. 295), filed November 21, 1974. Applicant: McKENZIE TANK LINES, INC., Post Office Box 1200, Tallahassee, Fla. 32302. Applicant's representative: W. Guy McKenzie, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in bulk, in tank vehicles, from Port St. Joe, Fla., to points in Ohio and South Carolina.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Atlanta, Ga., or Washington, D.C.

No. MC 112822 (Sub-No. 358), filed November 25, 1974. Applicant: BRAY LINES INCORPORATED, 1401 N. Little Street, P.O. Box 1191, Cushing, Okla. 74023. Applicant's representative: William W. Frick (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Fire logs*, manufactured with vegetable fiber and wax, and compressed with binder content; and (2) *flare up logs*, wood, impregnated with paraffin wax, from points in Georgia, to points in the United States (except Alaska, Hawaii, Maine, Vermont, New Hampshire, Massachusetts, Connecticut, New York, Pennsylvania, Rhode Island, Delaware, New Jersey, Maryland, West Virginia, Virginia, North Carolina, South Carolina, and the District of Columbia).

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Atlanta, Ga., or New Orleans, La.

No. MC 113300 (Sub-No. 6), filed December 2, 1974. Applicant: WILLIAM T. HERRON, Route 3, Marietta, Ohio 45750. Applicant's representative: Paul F. Beery, 9th Floor, 8 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are usually transported in dump trucks, between points in Barbour, Lewis, Marion, Taylor, and Upshur Counties, W. Va., on the one hand, and, on the other, points in Washington County, Ohio.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 113646 (Sub-No. 12), filed Nov. 25, 1974. Applicant: JEFFERSON TRUCKING COMPANY, a Corporation, P.O. Box 17, National City, Mich. 48748. Applicant's representative: William B. Elmer, 21635 East Nine Mile Road, St. Clair Shores, Mich. 48080. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Paper, scrap and waste*, from points in Florida, Georgia, Illinois, Kentucky, Louisiana, Mississippi, North Carolina, South Carolina, and Tennessee, to the plantsite and storage facilities of Gold Bond Building Products, Division of National Gypsum Company, at or near Anniston, in Calhoun County, Ala., under a continuing contract or contracts with National Gypsum Company.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Lansing, Mich., Chicago, Ill., or Birmingham, Ala.

No. MC 113855 (Sub-No. 302), filed Nov. 29, 1974. Applicant: INTERNATIONAL TRANSPORT, INC., 2450 Marion Road SE., Rochester, Minn. 55901. Applicant's representative: Alan Foss, 502 First National Bank Bldg., Fargo, N. Dak. 58102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Lifting, towing, hoisting, and material handling trucks;* and (2) *parts and accessories*, for the commodities described in (1) above, (a) between the plant, warehouse, and storage sites of Clark Equipment Co., located at or near Georgetown, Ky., on the one hand, and, on the other, points in Michigan; and (b) from the plant, warehouse, and storage sites of Clark Equipment Co., located at or near Georgetown, Ky., to points in Arizona, California, Idaho, Minnesota, Montana, Nevada, North Dakota, Oregon, South Dakota, Utah, Washington, and Wyoming.

XUM
DEC 27 1974

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 113666 (Sub-No. 329), filed Nov. 20, 1974. Applicant: ERICKSON TRANSPORT CORPORATION, 2105 East Dale Street, P.O. Box 3180 G.S.S., Springfield, Mo. 65804. Applicant's representative: B. B. Whitehead (Same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Beverage bases, beverages, beverage concentrates, fruit emulsions, and fruit juices*, in bulk, from Chicago, Ill., and the Commercial Zone thereof (except points in Indiana), to Lawrence, Kans., and the Commercial Zone thereof.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo., Chicago, Ill., or Washington, D.C.

No. MC 114369 (Sub-No. 18), filed Nov. 25, 1974. Applicant: GALE B. ALEXANDER, 120 S. Ward Street, Ottumwa, Iowa 52501. Applicant's representative: Kenneth P. Dudley, 611 Church Street, P.O. Box 279, Ottumwa, Iowa 52501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Articulated wheel loaders*, from Deerfield, Ill., and Topeka, Kans., to the plant site of Al-Jon, Incorporated, at or near Ottumwa, Iowa, under contract with Al-Jon, Incorporated.

NOTE.—Applicant holds common carrier authority in MC 136606 Sub 3, therefore, dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Des Moines, Iowa, or Kansas City, Mo.

No. MC 115311 (Sub-No. 172), filed November 27, 1974. Applicant: J & M TRANSPORTATION CO., INC., P.O. Box 488, Milledgeville, Ga. 31061. Applicant's representative: K. Edward Wolcott, P.O. Box 872, Atlanta, Ga. 30301. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Materials and supplies* used in the manufacture and distribution of cast iron products and finished products thereof, from points in Kentucky, Tennessee, Alabama, Georgia, Louisiana, North Carolina, South Carolina, Mississippi, West Virginia, Virginia, Florida, Texas, and Ohio, to Lynchburg, Va.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Atlanta, Ga., or Chicago, Ill.

No. MC 115496 (Sub-No. 22), filed November 18, 1974. Applicant: LUMBER TRANSPORT, INC., P.O. Box 111, Cochran, Ga. 31014. Applicant's representative: Virgil H. Smith, 1587 Phoenix Boulevard, Suite 12, Atlanta, Ga. 30349. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, from the plantsites of Continental Can Company, Inc., located at or near Bulloch and Jeff Davis Counties, Ga., to points in Alabama, Indiana, Maryland, Mississippi, North Carolina, Ohio, South Carolina, and Shelby County, Tenn., Louisiana, and Virginia.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 116326 (Sub-No. 6), filed Nov. 25, 1974. Applicant: HENDRIE'S, INC., 131 Eliot Street, Milton, Mass. 02187. Applicant's representative: Kenneth B. Williams, 84 State Street, Boston, Mass. 02109. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from points in Connecticut and Rhode Island, to the plantsite of Hendrie's, Inc., at Milton, Mass., under continuing contract or contracts with The Stop & Shop Companies, Inc., at Boston, Mass.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Boston, Mass.

No. MC 116915 (Sub-No. 16), filed December 3, 1974. Applicant: ECK MILLER TRANSPORTATION CORPORATION, P.O. Box 1279, Owensboro, Ky. 42301. Applicant's representative: William P. Sullivan, 1819 H St., NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Motor graders, roadmaking, construction and earth moving machinery and equipment, and components and parts*, for such commodities; and (2) *materials, equipment, and supplies*, used in the manufacture of the commodities in (1) above, between Owensboro, Ky., on the one hand, and, on the other, points in the United States including Alaska, but excluding Hawaii.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C., or Louisville, Ky.

No. MC 117851 (Sub-No. 16), filed November 18, 1974. Applicant: JOHN R. CHEESEMAN, 501 North First Street, Fort Recovery, Ohio 45846. Applicant's representative: Earl N. Merwin, 85 East Gay Street, Columbus, Ohio 43215. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Plumbing supplies and materials:* (a) From Delphi, Ind., to points in Virginia; (b) from Kokomo, Ind., to points in Connecticut, Delaware, District of Columbia, Louisville, Ky., and points in its commercial zone, Maine, Maryland, Massachusetts, New Hampshire, New York, Pennsylvania, Rhode Island, Virginia, and Vermont; (c) from Frankfort, Ind., to points in Alabama, Florida, Georgia, Kentucky, North Carolina, South Carolina, and Tennessee; (d) from Gadsden and Leighton, Ala., to points in Alabama, Arkansas, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, North Carolina, New Jersey, New York, North Dakota, Ohio, Maine, Oklahoma, Pennsylvania, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Virginia, Vermont, West Virginia, and Wisconsin; (e) from Woodbridge, N.J., and Sheboygan Falls, Wis., to points in Alabama, Arkansas, California, Colorado, Connecticut, Delaware, District of Columbia, Florida, Georgia, Illinois, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, Nebraska, New Hampshire, North Carolina, New Jersey, New York, North Dakota, Ohio, Oklahoma, Oregon, Pennsylvania, Rhode Island, South Carolina, South Dakota, Texas, Tennessee, Virginia, Vermont, West Virginia, and Wisconsin; (f) from Addison, Ill., to points in Alabama, Arkansas, Connecticut, Delaware, District of Columbia, Florida, Georgia, Indiana, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, Missouri, New Hampshire, North Carolina, New Jersey, New York, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Virginia, Vermont, and Wisconsin; (g) from Pomona, Calif.; Elyria and Cleveland, Ohio; and Erie, Philadelphia, and Washington, Pa., to Gadsden, Ala.; Kokomo, Ind.; and Woodbridge, N.J.; (h) from Princeton, Ind. and Fowlerville, Mich., to Gadsden, Ala., and Woodbridge, N.J.; (i) from Bauxite, Ark., to Kokomo, Ind.; (j) from LaPorte, Ind. and Beaufort, S.C., to Woodbridge, N.J.; and (k) from Franklin, Ga.; Cincinnati, Cleveland, Delaware, Elyria, Mansfield, Marysville, and Mingo Junction, Ohio; and Farmington, Grand Rapids, and Port Huron, Mich., to Delphi, Ind.; (2) *feldspar*, from Kona and Spruce Pine, N.C. to Gadsden, Ala.; Kokomo, Ind.; and Woodbridge, N.J.; (3) *clay*, from Edgar, Fla.; McIntyre and Gordon, Ga.; Mayfield, Ky.; and Andrews, Bath, and Calico, S.C., to Gadsden, Ala.; Kokomo, Ind.; and Woodbridge, N.J.; (4) *petroleum, oil, and lubricants*, in barrels and boxes, from Bristol, Pa., to Gadsden, Ala.; Kokomo, Ind.; and Woodbridge, N.J.; (5) *plaster* (except in bulk): (a) from Niagara Falls, N.Y., and Pittsburgh, Pa., to Gadsden, Ala.; Kokomo, Ind.; and Woodbridge, N.J. and (b) from Southward, Okla., to Gadsden, Ala. and Woodbridge, N.J.; (6) *foundry compounds*, from Cincinnati, Ohio, and Sheboygan, Wis., to Delphi, Ind.; (7) *buffing compounds*, from Howell, Mich., to Delphi, Ind.; and (8) *fire brick:* (a) From New Castle, Pa., to Gadsden, Ala.; and (b) Tyler, Tex., to Kokomo, Ind.; Gadsden, Ala.; and Woodbridge, N.J., under a continuing contract or contracts with Gerber Plumbing Fixtures Corp.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio, or Washington, D.C.

No. MC 118178 (Sub-No. 22), filed Nov. 29, 1974. Applicant: BILL MEEKER, 1632 North Mosley, P.O. Box 11184, Wichita, Kans. 67202. Applicant's representative: Bill Meeker (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, meat by-products, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and

commodities in bulk), from Wichita, Kans., to points in Nebraska, Iowa, Illinois, Indiana, Ohio, Kentucky, Tennessee, Arkansas, Oklahoma, Texas, Louisiana, Colorado, New Mexico, Arizona, California, Pennsylvania, Michigan, Virginia, Wisconsin, West Virginia, North Carolina, South Carolina, Georgia, Florida, Alabama, Mississippi, and Missouri, restricted to traffic originating at the named origins and destined to the named destinations.

NOTE.—Applicant holds contract carrier authority in MC 11064, therefore dual operations may be involved.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Wichita, Kans.

No. MC 118610 (Sub-No. 25), filed November 25, 1974. Applicant: L & B EXPRESS, INC., P.O. Box 137, Madisonville, Ky. 42431. Applicant's representative: Fred F. Bradley, P.O. Box 773, Frankfort, Ky. 40601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Lifting, towing, hoisting, and material handling trucks*; and (2) *parts and accessories*, for (1) above, between the plant, warehouse and storage site of Clark Equipment Company, at or near Georgetown, Ky., on the one hand, and, on the other, points in Kentucky, Tennessee, Indiana, Illinois, Alabama, Mississippi, Georgia, Pennsylvania, West Virginia, and Michigan.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Frankfort, or Louisville, Ky., or Cincinnati, Ohio.

No. MC 118959 (Sub-No. 122), filed Nov. 25, 1974. Applicant: JERRY LIPPS, INC., 130 South Frederick, Cape Girardeau, Mo. 63701. Applicant's representative: Edward G. Baselon, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cellulose materials, and products, and paper and paper products, and materials, equipment and supplies*, used in their production and distribution, between the plantsite of Charmin Paper Products Company, near Neelys Landing, and St. Louis, Mo., restricted to traffic having an immediately prior or subsequent movement by rail or water.

NOTE.—Applicant holds contract carrier authority in MC 125664, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at St. Louis, Mo.

No. MC 119099 (Sub-No. 17), filed November 25, 1974. Applicant: BJORKLUND TRUCKING, INC., First Avenue N.E. & 8th Street, Buffalo, Minn. 55313. Applicant's representative: Val M. Higgins, 1000 First National Bank Bldg., Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Equipment, materials, and supplies* used in the manufacture of burial vaults and burial vault liners (except commodities in bulk and those requiring special equipment or special handling) between the plantsites and warehouse facilities of Wilbert, Inc., located at Little Hocking, Ohio, St. Paul, Minn., Broadview, Ill., and Springfield, Mo., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii), restricted to shipments originating at or terminating at said named plantsites.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Minneapolis, Minn., or Chicago, Ill.

No. MC 119619 (Sub-No. 77), filed Nov. 22, 1974. Applicant: DISTRIBUTORS SERVICE CO., a Corporation, 2000 West 43rd Street, Chicago, Ill. 60609. Applicant's representative: Arthur J. Piken, One Lefrak City Plaza, Flushing, N.Y. 11368. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Meats, meat products, and meat byproducts, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from the plantsites and storage facilities of Circle "C" Beef Co., at or near Denver, Colo., to points in the United States (except Alaska and Hawaii); and (2) *meats, fresh and frozen, and materials and supplies*, used in the manufacturing, preparation, processing, selling, and distribution of the commodities shown in (1) above, from points in the United States (except Alaska and Hawaii), to the plantsites and storage facilities of Circle "C" Beef Co., at or near Denver, Colo. If a hearing is deemed necessary, applicant requests it be held at Denver, Colo.

No. MC 119726 (Sub-No. 46), filed November 26, 1974. Applicant: N.A.B. TRUCKING CO., INC., 3220 Bluff Road, Indianapolis, Ind. 46217. Applicant's representative: James L. Beattey, 130 E. Washington Street, Suite 1000, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ground clay*, known as Fullers Earth (except in bulk), from the plantsite and warehouse facilities of Oil-Dri Corporation of America, at or near Ripley, Miss., to points in Minnesota, Wisconsin, Michigan, Iowa, Nebraska, Illinois, Indiana, Ohio, Pennsylvania, Kansas, Missouri, Kentucky, West Virginia, Virginia, Oklahoma, Texas, Arkansas, Tennessee, and Alabama.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind.

No. MC 119726 (Sub-No. 47), filed Nov. 29, 1974. Applicant: N.A.B. TRUCKING CO., INC., 3220 Bluff Road, Indianapolis, Ind. 46217. Applicant's representative: James L. Beattey, 130 E. Washington Street, Suite 1000, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ground clay*, Fullers Earth (except in bulk), from the plantsite and warehouse facilities of Oil-Dri Corporation of America, at or near Ochlocknee, Ga., to points in Florida, Texas, Louisiana, Mississippi, Alabama, South Carolina, North Carolina, Tennessee, Arkansas, Oklahoma, Kansas, Missouri, Kentucky, West Virginia, Nebraska, Iowa, Illinois, Indiana, Ohio, Pennsylvania, Minnesota, Wisconsin, Virginia, and Michigan.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Indianapolis, Ind.

No. MC 119777 (Sub-No. 310), filed November 6, 1974. Applicant: LIGON SPECIALIZED HAULER, INC., P.O. Drawer "L", Madisonville, Ky. 42431. Applicant's representative: John B. Ratliff (Same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ferro-chrome, ferro-chrome silicon, ferro-silicon, silicon manganese, ferro-manganese, silicon metal, and scrap iron*, from Calvert City, Ky., to Woodstock, Nashville, and Memphis, Tenn., and points in Arizona, California, Colorado, Connecticut, Idaho, Maine, Massachusetts, Minnesota, Montana, Nebraska, Nevada, New Hampshire, New Mexico, North Carolina, North Dakota, Oregon, Rhode Island, South Carolina (except Owen, Columbia, East Greenville, and Charleston, S.C.), South Dakota, Utah, Vermont, Washington, and Wyoming.

NOTE.—Applicant holds contract carrier authority in MC 126970, and subs 1 and 3 thereunder, therefore dual operations may be involved. Common control may also be involved. If a hearing is deemed necessary, applicant requests it be held at Louisville, Ky.

No. MC 119789 (Sub-No. 228), filed November 7, 1974. Applicant: CARAVAN REFRIGERATED CARGO, INC., P.O. Box 6188, Dallas, Tex. 75222. Applicant's representative: James K. Newbold, Jr. (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals*, in containers, *blood analysis instruments, supplies, and parts*, in mechanically refrigerated equipment, from Houston, Tex., to Chicago, Ill., Philadelphia, Pa., Los Angeles, Calif., and Tampa, Fla.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Houston or Dallas, Tex.

No. MC 119792 (Sub No. 47), filed November 18, 1974. Applicant: CHICAGO SOUTHERN TRANSPORTATION COMPANY, a Corporation, 3215 South Hamilton Avenue, Chicago, Ill. 60608. Applicant's representative: Carl L. Steiner, 39 South La Salle Street, Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas and agricultural commodities* exempt from economic regulations under Section 203(b)(6) of the Act when transported in mixed shipments with bananas, from Gulfport, Miss., to points in Iowa, Illinois, Indiana, Kansas, Kentucky, Michigan, Minnesota, Missouri, Ohio, and Wisconsin.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 123048 (Sub No. 318), filed Nov. 29, 1974. Applicant: DIAMOND TRANSPORTATION SYSTEM, INC., 5021 21st Street, Racine, Wis. 53406. Applicant's representative: Paul C. Gartzke, 121 West Doty Street, Madison, Wis. 53703. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors, agricultural implements and attachments, and accessories and parts*, from New Orleans, La., New York, N.Y., Newark, N.J., and Milwaukee, Wis., to points in Alabama, Arkansas, Colorado, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Montana, Nebraska, North Dakota, Ohio, South Dakota, Tennessee, Wisconsin, and Wyoming.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Washington, D.C.

No. MC 123872 (Sub-No. 40), filed December 4, 1974. Applicant: W & L MOTOR LINES, INC., State Road 1148, P.O. Drawer 2607, Hickory, N.C. 28601. Applicant's representative: Theodore Polydoroff, Suite 606, 1250 Connecticut Avenue NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products, meat by-products, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides, and commodities in bulk, in tank vehicles), from Wichita, Kans., to points in North Carolina, South Carolina, Tennessee, and Virginia.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Hickory or Charlotte, N.C.

No. MC 124078 (Sub-No. 627), filed November 25, 1974. Applicant: SCHWERMAN TRUCKING CO., 611 South 28th Street, Milwaukee, Wis. 53246. Applicant's representative: James R. Ziperski (Same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Nitric acid; and* (2) *fertilizer and fertilizer materials*, (1) from Atlas, Mo., to points in Alabama, Illinois, Indiana, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Nebraska, and New Mexico; and (2) from Atlas, Mo., to points in Alabama, Colorado, Indiana, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, New Mexico, Tennessee, and Wisconsin.

NOTE.—Common control may be involved. Applicant holds contract carrier authority in MC 113832 Sub 60, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Washington, D.C. or Kansas City, Mo.

No. MC 125952 (Sub-No. 22), filed November 29, 1974. Applicant: INTER-STATE DISTRIBUTOR Co, a Corporation, 8311 Durango SW., Tacoma, Wash. 98499. Applicant's representative: George R. LaBissoniere, P.O. Box 98968, Tukwila Branch, Suite 101, 130 Andover Park East, Seattle, Wash. 98188. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Foodstuffs*, when moving in vehicles equipped with mechanical refrigeration (except commodities in bulk), from the plant-sites and storage facilities of H. J. Heinz Co. at Tracy and Stockton, Calif., to points in Oregon and Washington, under a continuing contract or contracts with H. J. Heinz Co.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

No. MC 126582 (Sub-No. 3), filed November 29, 1974. Applicant: JOHN J. CANOVA, doing business as CANOVA MOVING & STORAGE CO., 1336 Woolner Avenue, Fairfield, Calif. 94533. Applicant's representative: Thomas M. Loughran, 100 Bush Street, 21st Floor, San Francisco, Calif. 94104. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Used household goods*, (1) between points in Alameda, Amador, Calaveras, Colusa, Del Norte, El Dorado, Glenn, Humboldt, Lake, Lassen, Marin, Mendocino, Plumas, San Francisco San Joaquin, San Mateo, Santa Clara, Santa Cruz, Shasta, Stanislaus, Tehama, and Tuolemne Counties, Calif.; and (2) between points in the above Counties, on the one hand, and, on the other, points in Sonoma, Napa, Solano, Contra Costa, Yolo, Sacramento, Sutter, Butte, Yuba, Nevada, and Placer Counties, Calif., restricted to the transportation of traffic having a prior or subsequent movement, in containers, beyond the points authorized, and further restricted to the performance of pickup and delivery service in connection with packing, crating, and containerization, or unpacking, uncrating, and decontainerization of such traffic.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at San Francisco, Calif.

No. MC 126715 (Sub-No. 8), filed November 18, 1974. Applicant: TRANSPORT SERVICE, 8101 N.E. 11th Street, Portland, Oreg. 97211. Applicant's representative: Jerry R. Woods, 620 Blue Cross Building, 100 S.W. Market Street, Portland, Oreg. 97211. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum and petroleum products*, in bulk, in tank vehicles, between points in Whitman County, Wash., on the one hand, and, on the other, points in Washington.

NOTE.—Applicant states that the requested authority can be tacked with its existing authority at Whitman County, Wash., to provide service between points in Washington, on the one hand, and, on the other, points in Oregon, Idaho, and Montana.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Portland, Oregon, or Olympia, Wash.

No. MC 127476 (Sub-No. 5) filed December 2, 1974. Applicant: J. D. McCLYMONDS, INC., Portersville, Pa. 16051. Applicant's representative: Warren R. Keck III, 28 South Second Street, Greenville, Pa. 16125. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Scrap grinding wheels*, in dump trucks, between the plant site of Bendix Corp., Westfield, Mass., on the one hand, and, on the other, the plant site of Detroit Abrasives at Chelsea, Mich.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Pittsburgh, Pa., or Washington, D.C.

No. MC 126007 (Sub-No. 72), filed November 25, 1974. Applicant: HOFER, INC., P.O. Box 583, Pittsburg, Kans. 66762. Applicant's representative: Clyde N. Christey, 641 Harrison Street, Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Yeast*, from Denver, Colo., to points in Kansas, Oklahoma, Missouri, Arkansas, and Nebraska; and (2) *feed ingredients*, from points in Harrison County, Tex., to points in Colorado, New Mexico, Oklahoma, Nebraska, Kansas, Iowa, Missouri, Arkansas, Louisiana, Mississippi, Illinois, Indiana, Kentucky, Tennessee, and Alabama.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo.

No. MC 128078 (Sub-No. 3), filed November 20, 1974. Applicant: MICHAEL VALIHORA, 3050 W. Fort Street, Detroit, Mich. 48216. Applicant's representative: James Tryand, 111 S. Main Street, Ann Arbor, Mich. 48108. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lumber*, between points on the International Boundary line between the United States and Canada in Minnesota, Michigan, New York, Vermont, New Hampshire, and Maine, on the one hand, and, on the other, points in Connecticut, Illinois, Indiana, Iowa, Kentucky, Maryland, Maine, Massachusetts, Michigan (Lower Penninsula), Minnesota, Missouri, New Hampshire, New Jersey, New York, Ohio, Pennsylvania, Vermont, Virginia, West Virginia, Wisconsin; and (2) between points on the International Boundary line between the United States and Canada in Minnesota, Michigan, New York, Vermont, New Hampshire, and Maine on the one hand, and, on the other, points in Alabama, Arkansas, Delaware, Florida, Georgia, Kansas, Louisiana, Michigan (Upper Penninsula), Mississippi, Nebraska, North Carolina, North Dakota, Oklahoma, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, and the District of Columbia.

NOTE.—Applicant states that the purpose of this application in (1) above is to extend its existing operations through all ports of entry on the International Boundary line. Applicant holds contract authority in MC

126878 Sub 2, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at either Detroit, Mich., Chicago, Ill., or Washington, D.C.

No. MC 129490 (Sub-No. 10), filed November 29, 1974. Applicant: ROBERT J. ERICKSON, doing business as BOB ERICKSON TRUCKING, Rush City, Minn. 55069. Applicant's representative: Val M. Higgins, 1000 First National Bank Bldg., Minneapolis, Minn. 55402. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Fire protection sprinkler systems and materials and equipment and supplies* used in the installation thereof, (1) between Rush City, Minn., on the one hand, and, on the other, points in Alabama, Florida, Georgia, Kansas, Louisiana, Mississippi, Missouri, Montana, North Carolina, Pennsylvania, South Carolina, Tennessee, Virginia, and West Virginia; and (2) between Rush City, Minn., on the one hand, and, on the other, points in Illinois, Iowa, Kansas, Michigan, Missouri, Nebraska, North Dakota, South Dakota, and Wisconsin, under contract with United Sprinkler Division of Waycross, Inc.

NOTE.—Applicant holds common carrier authority in MC 126478, therefore dual operations may be involved. If a hearing is deemed necessary, applicant requests it be held at Minneapolis, Minn.

No. MC 128638 (Sub-No. 7) (Correction), filed November 8, 1974, published in the FEDERAL REGISTER, issue of December 12, 1974, as No. MC 128638 (Sub-No. 8), and republished as corrected this issue. Applicant: CENTRAL GRAIN HAULERS, INC., Route #1, Van Meter Road, Winchester, Ky. 40391. Applicant's representative: George M. Catlett, 703–706 McClure Building, Frankfort, Ky. 40601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Coal*, from points in Clay, Leslie, Harlan, Laurel, Breathitt, Knott, and Perry Counties, Ky., to points in Kentucky, Ohio, Indiana, West Virginia, and Tennessee.

NOTE.—The purpose of this republication is to indicate the correct docket number assigned to this proceeding. If a hearing is deemed necessary, the applicant requests it be held at either Lexington or Louisville, Ky.

No. MC 128645 (Sub-No. 10) (Correction), filed November 4, 1974, published in the FEDERAL REGISTER issue of December 12, 1974, as No. MC 128638 (Sub-No. 7) and republished as corrected this issue. Applicant: RAY L. KRALL, P.O. Box 336, Carson, Wash. 98610. Applicant's representative: David C. White, 2400 S.W. Fourth Avenue, Portland, Oreg. 97201. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Plywood*, from Astoria, Oreg., to Portland, Oreg., and Vancouver, Washougal, Centralia, and Tacoma, Wash., under a continuing contract or contracts with Astoria Plywood Corp.

NOTE.—The purpose of this republication is to indicate the correct docket number assigned to this proceeding. If a hearing is deemed necessary, the applicant requests it be held at Portland, Oreg.

No. MC 128657 (Sub-No. 8), filed November 29, 1974. Applicant: G. L. GIBBONS, doing business as GIBBONS TRUCKING SERVICE, P.O. Box 5861, Tucson, Ariz. 85703. Applicant's representative: A. Michael Bernstein, 1327 United Bank Bldg., Phoenix, Ariz. 85012. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lime*, (1) from points in Arizona, to points in Nevada, Utah, and those points in California south of the northern boundaries of San Luis Obispo, Kern, and San Bernardino Counties, Calif.; and (2) from points in Nevada, to points in Utah, and those points in California south of the northern boundaries of San Luis Obispo, Kern, and San Bernardino Counties, Calif.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Phoenix or Tucson, Ariz.

over irregular routes, transporting: *Hanging garments and merchandise related thereto*, carried in trucks specially equipped with racks (except commodities in bulk), (1) from points on the International Boundary line between the United States and Canada at or near Derby Line, and Highgate Springs, Vermont, Rouses Point and Champlain, New York, on the one hand, and, on the other, points in New York, N.Y., and its Commercial Zone, and North Bergen, Secaucus, Jersey City, N. J., restricted to traffic having a prior or subsequent movement in foreign commerce; and (2) *hanging garments and merchandise related thereto*, from Sacco and Berwick, Maine, Newburry Park and Peabody, Mass., Merrimack, N.H., to points on the International Boundary line between the United States and Canada at or near Derby Line, and Highgate Springs, Vt., Rouses Point, and Champlain, N.Y., restricted to traffic moving in foreign commerce, and further restricted to traffic destined to Montreal, Province of Quebec, Canada.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Montpelier, Vt.

No. MC 140083 (Sub-No. 1), filed November 25, 1974. Applicant: FLORENCE N. SOBEL, a Proprietorship, doing business as GENTRY FORWARDING COMPANY, 194 County Ave., Secaucus, N.J. 07094. Applicant's representative: Lawrence E. Lindeman, Suite 1032, Pennsylvania Bldg., Pennsylvania Ave. and 13th St. NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers* (except those designed to be drawn by passenger automobiles), *containers*, and *trailer chassis*, between Middletown and Monticello, N.Y.; Fairless Hills and Berwick, Pa.; and Secaucus, N.J., on the one hand, and, on the other, points in Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, and Virginia.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Newark, N.J.

No. MC 140226 (Sub-No. 2), filed November 26, 1974. Applicant: T & J TRUCKING, INC., 2 Northwest 5th Street, Dilworth, Minn. 56529. Applicant's representative: Charles E. Johnson, 425 Gate City Building, Fargo, N.D. 58102. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Crushed vehicles, scrap vehicle parts, scrap engines and scrap metal*, from points in North Dakota, South Dakota, and Minnesota to points in Illinois, Iowa, Minnesota, Nebraska, and Wisconsin, under a continuing contract or contracts with Tri-State Salvage, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Fargo, N.D., or Minneapolis, Minn.

No. MC 140260, filed November 21, 1974. Applicant: MERRY SHIPPING COMPANY, INC., 310 Bay Street, Savannah, Ga. 31402. Applicant's representative: William P. Jackson, Jr., 919 Eighteenth St. NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except automobiles), between points in the Savannah, Ga., Commercial Zone, including Savannah, Ga.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Savannah, Ga.

No. MC 140266 (Sub-No. 1), filed November 25, 1974. Applicant: BAKER TRUCK LINE, INC., 2906 29th Street North, P.O. Box 875, Lewiston, Idaho 83501. Applicant's representative: James W. Givens (same address as applicant). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Sawdust and woodchips*, between points in Idaho north of the Salmon River, under contract with Potlatch Corporation.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Lewiston, Moscow, or Coeur d'Alene, Idaho, or Spokane, Wash.

No. MC 140271 (Sub No. 1), filed November 25, 1974. Applicant: GREAT WESTERN TRUCKING CO., INC., Highway 103 East, P.O. Box 1384, Lufkin, Tex. 75901. Applicant's representative: Hugh T. Matthews, 630 Fidelity Union Tower, Dallas, Tex. 75201. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Acrylics* and *materials, equipment, and supplies* used in the manufacture thereof (except in bulk), between Hackensack, N.J., Stamford, Conn., and Dallas, Tex., on the one hand, and, on the other, points in and west of Texas, Oklahoma, Kansas, Nebraska, South Dakota, and North Dakota, restricted against the transportation of commodities which because of size or weight require the use of special equipment.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex.

No. MC 140284 (Sub-No. 3), filed December 3, 1974. Applicant: JOSEPH D. HANNAH, doing business as HANNAH TRUCKING, 35 Rathburn Street, West Asheville, N.C. 28806. Applicant's representative: W. C. Mauldin, 417 Old Post Road, Cherryville, N.C. 28021. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Junked and scrap automobiles*, for reclamation of raw materials, from points in Haywood County, N.C., to Atlanta, Ga., Columbia, S.C., and Knoxville and Rockwood, Tenn., under contract with Schulhofer's, Inc., at Waynesville, N.C.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Asheville or Charlotte, N.C., or Atlanta, Ga.

No. MC 140430, filed November 18, 1974. Applicant: DELLON R. CAPPER AND ROBERT M. NAWFEL, doing business as B AND B LEASING COMPANY, Miami, Ark. 85539. Applicant's representative: Donald E. Fernaays, Suite 312, 4040 East McDowell Road, Phoenix, Ariz. 85008. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Malt beverages and accompanying advertising material*, between Van Nuys, Calif., on the one hand, and, on the other, Globe, Miami, and Safford, Ariz.; and *empty pallets and refillable bottles* on return, under a continuing contract or contracts with Cactus Liquor Sales, Inc., and Jim Hafer Distributor.

NOTE.—If a hearing is deemed necessary, aplicant requests it be held at Phoenix, Ariz.

No. MC 140337 (Sub-No. 1), filed November 29, 1974. Applicant: JESSE SHERMAN, doing business as SHERMAN TRAILER TRANSPORTATION, P.O. Box 3343, Cheyenne, Wyo. 82001. Applicant's representative: Robert S. Stuffer, 3539 Boston Road, Cheyenne, Wyo. 82001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Mobile homes*, between points in Wyoming, Colorado, Nebraska, North Dakota, South Dakota, Montana, Idaho, and Utah.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Phoenix, Cheyenne, Wyo., or Denver, Colo.

No. MC 140405 (Sub- No. 2), filed Nov. 22, 1974. Applicant: FLORIDA CRATING AND PACKING, INC., 1511 East 11th Ave., Hialeah, Fla. 33010. Applicant's representative: Richard B. Austin, 214 Palm Coast II Bldg., 5255 N.W. 87th Ave., Miami, Fla. 33166. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Broward, Collier, Dade, Martin, and Palm Beach Counties, Fla., restricted to the transportation of traffic having a prior or subsequent movement, in containers, beyond the points authorized, and further restricted to the performance of pick-up and delivery services in connection with packing, crating, and containerization or unpacking, uncrating, or decontainerization of such traffic.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Miami, Fla.

No. MC 140429, filed November 21, 1974. Applicant: WILLIAM F. HOOPS, INC., 440 North Keyser Avenue, Deshler, Ohio 43516. Applicant's representative: A. Charles Tell, 100 East Broad Street, Columbus, Ohio 43215. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (A) *Anti-freeze, windshield washer fluid, radiator sealers, transmission sealers, starting fluids, tire cleaners, power steering sealers, carburetor cleaners, and undercoating materials*, from Pandora, Ohio, to points in Delaware, Illinois, Indiana, Kentucky, Maryland, Michigan, Missouri, New Jersey, New York, Pennsylvania, Tennessee, Virginia, and West Virginia; and (B) *mactrials and supplies*, used in producing and packaging the commodities specified in (A) above (except commodities in bulk), from points in Delaware, Illinois, Indiana, Kentucky,

Maryland, Michigan, Missouri, New Jersey, New York, Pennsylvania, Tennessee, Virginia, and West Virginia, to Pandora, Ohio, under a continuing contract or contracts with Konalrad Products, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Columbus, Ohio.

No. MC 140431, filed November 25, 1974. Applicant CRIDER TRUCK LEASING, INC., R.D. #4, Burtner Road, Butler, Pa. 16001. Applicant's representative: Arthur J. Diskin, 806 Frick Building, Pittsburgh, Pa. 15219. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Household and laundry cleaning compounds, automotive cleaning compounds, swimming pool disinfectants and deodorizers, laundry bleach, fabric softeners, detergents, carpet cleaners, windshield washer compounds, window cleaning compounds, containers, caps, and closures*, from the plant site of James Austin Company at Mars (Butler County), Pa., to points in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Delaware, Maryland, District of Columbia, Virginia, West Virginia, Ohio, Kentucky, North Carolina, South Carolina, Tennessee, Georgia, Florida, Alabama, Mississippi, Michigan, Indiana, Wisconsin, Illinois, Minnesota, Iowa, Missouri, Arkansas, Louisiana, North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, and Texas and (2) *cartons, containers, closures, labels, caps, caustic soda, alcohol detergents, and other materials and ingredients* for resale for manufacturing and packaging the aforesaid commodities on return, from the destination states named in (1) above, to the plant site of James Austin Company at Mars (Butler County), Pa., under a continuing contract with James Austin Company.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C., or Pittsburgh, Pa.

No. MC 140433, filed November 18, 1974. Applicant: CLARENCE H. GRATE, doing business as GRATES WRECKER SERVICE, 527 East Spring Street, LaGrange, Ind. 46761. Applicant's representative: Michael M. Yoder, Box 321, Topeka, Ind. 46571. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Wrecked or disabled motor vehicles*, from points in Alabama, Arkansas, Arizona, California, Colorado, Florida, Georgia, Illinois, Iowa, Kansas, Kentucky, Michigan, Minnesota, Mississippi, Missouri, Nebraska, Nevada, New Mexico, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Utah, Virginia, West Virginia, and Wisconsin, to points in LaGrange, Elkhart, Noble, and Steuben Counties, Ind.; and (2) *replacement vehicles for such wrecked vehicles*, from points in LaGrange, Elkhart, Steuben, and Noble Counties, Ind., to points in Alabama, Arkansas, Arizona, California, Colorado, Florida, Georgia, Illinois, Iowa, Kansas, Kentucky, Michigan, Minnesota, Mississippi, Missouri, Nebraska, Nevada, New Mexico, North Carolina, Ohio, Oklahoma, Pennsylvania, South Carolina, Tennessee, Texas, Utah, Virginia, West Virginia, and Wisconsin.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., Chicago, Ill., or Indianapolis, Ind.

No. MC 140437, filed November 27, 1974. Applicant: JOHN CHARLESTON, doing business as CHARLESTON'S EXPRESS, 216 North Maine Avenue, Atlantic City, N.J. 08401. Applicant's representative: Matthew Aaron, 204 Feinstein Building, Bridgeton, N.J. 08302. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except commodities in bulk, in tank vehicles, and those requiring special equipment), from Atlantic City, N.J., to points in Atlantic, Cape May, Cumberland, and Salem Counties, N.J., under a continuing contract or contracts with Lit Brothers.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Philadelphia, Pa., or Trenton, N.J.

No. MC 140438, filed Nov. 29, 1974. Applicant: HAROLD C. DAHL, P.O. Box 211, Lowell, Ind. 46356. Applicant's representative: Edwin J. Simcox, 601 Chamber of Commerce Bldg., Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Wood pallets*, from Tefft, Ind., to Oregon, Ohio; and (2) *padding, synthetic and cotton*, from Oregon, Ohio, to Lowell, Ind., restricted to traffic originating at or destined to, the plant and warehouse sites of Globe Industries, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill., or Indianapolis, Ind.

No. MC 140454, filed November 22, 1974. Applicant: PERMA TRUCKING COMPANY, INC., 214 North Williamson Road, Blossburg, Pa. 16912. Applicant's representative: David A. Sutherlund, 2001 Mass. Ave. NW., Washington, D.C. 20036. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Coal*, in bulk in dump vehicles, from points in Lycoming, Sullivan, and Tioga Counties, Pa., to points in Broome, Chenango, Tioga, and Tompkins Counties, N.Y., under a continuing contract or contracts with P and M Coal Company.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

APPLICATION(S) OF PASSENGERS

No. MC 139343 (Sub-No. 4), filed November 22, 1974. Applicant: MEXICOACH, INC., 1050 Kettner Blvd., San Diego, Calif. 92101. Applicant's representative: Eric Rath, P.O. Box 226, La Jolla, Calif. 92037. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes transporting: *Passengers and their baggage*, in the same vehicle with passengers, in round trip, charter operations, from the International Boundary line between the United States and the Republic of Mexico at San Ysidro, Calif., and Tijuana, B.C., Mexico, to points in California, Nevada, and Arizona.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at San Diego, Calif.

BROKER APPLICATION(S)

No. MC 130274 (Correction), filed October 25, 1974, and published in the FEDERAL REGISTER, issue of November 27, 1974, and republished as corrected this issue. Applicant: WILLIAM S. PEPPER and ANN C. PEPPER, doing business as MOUNT DESERT TRAVEL, Box 407, Main Street, Northeast Harbor, Maine 04662. Applicant's representative: William S. Pepper (same address as applicant). Authority sought to engage in operation, in interstate or foreign commerce, as a *broker* at Northeast Harbor, Maine, to sell or offer to sell the transportation of *Passengers and their baggage*, in round trip sightseeing or pleasure tours, between points in Hancock County, Maine, on the one hand, and, on the other, points in the United States, including Alaska, Hawaii, and points along the International Boundary line between the United States and Canada.

NOTE.—The purpose of this correction is to clarify the authority sought, and to modify the territorial description. If a hearing is deemed necessary, applicant requests it be held at Ellsworth, Bangor, or Portland, Maine.

No. MC 130281, filed November 22, 1974. Applicant: AL HOWARD ESPESETH AND C. J. ESPESETH, a Partnership, doing business as AL HOWARD PROPERTIES, 2118 Skeels Avenue, Eau Claire, Wis. 54701. Applicant's representative: James L. Nelson, 325 Cedar Street, St. Paul, Minn. 55101. Authority sought to engage in operation, in interstate or foreign commerce, as a *broker*, at Eau Claire, Wis., to sell or offer to sell the transportation of *Groups of passengers and their baggage*, in special and charter operations, in all expense tours, by motor, rail, water, and air carriers, between Eau Claire, Wis., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, applicant requests it be held at St. Paul or Minneapolis, Minn.

FREIGHT FORWARDER APPLICATION(S)

No. FF 377 (Sub-No. 1), filed December 3, 1974. Applicant: PARAMOUNT FORWARDERS, INC., 3164 Springfield Road, P.O. Box 309, Lancaster, Tex. 75146. Applicant's representative: Alan F. Wohlstetter, 1700 K Street NW., Washington, D.C. 20006. Authority sought to engage in operation, in interstate commerce, as a *freight forwarder*, through use of the facilities of common carriers by rail, motor, water, and express, in the transportation of (a) *Used household goods;* (b) *unaccompanied baggage;* and (c) *used automobiles*, between points in the United States, including Hawaii but excluding Alaska,

restricted in (b) above to the transportation of import-export traffic.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at Dallas, Tex.

No. FF 463, filed December 3, 1974. Applicant: INTERINTRA FORWARDING, INC., 6650 Hawaii Kai Drive, Honolulu, Hawaii 96825. Applicant's representative: Alan F. Wohlstetter, 1700 K Street NW., Washington, D.C. 20006. Authority sought to engage in operation, in interstate commerce, as a *freight forwarder*, through use of the facilities of common carriers by rail, motor, water, and express, in the transportation of *Used household goods, unaccompanied baggage, and used automobiles*, between points in the United States including Hawaii but excluding Alaska, restricted to the transportation of import-export traffic.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Honolulu, Hawaii.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Notice No. 103]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

DECEMBER 20, 1974.

The following publications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by the new Special Rule 1100.247 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable by the Commission.

MOTOR CARRIER OF PROPERTY

No. MC 138435 (Sub-No. 2) (Republication), filed October 5, 1973, and published in the FEDERAL REGISTER issue of November 29, 1973, and republished this issue. Applicant: LORBER TRUCK SALES & SERVICE, INC., 1140 Military Road, Buffalo, N.Y. 14217. Applicant's representative: William J. Hirsch, 35 Court Street, Buffalo, N.Y. 14217. An Order of the Commission, Review Board Number 2, dated December 6, 1974, and served December 12, 1974, finds that operation by applicant, in interstate or foreign commerce, as a *contract carrier* by motor vehicle, over irregular routes, *of waste materials and recycled products* between points in Erie, Monroe, and Niagara Counties, N.Y., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii), restricted against the transportation of shipments originating at or destined to points in Canada, under a continuing contractor contracts with Chem-Trol Pollution Services, Inc., of Porter, N.Y., will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to indicate a modification to the territorial description. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted (January 27, 1975), during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC-5296 (Notice of filing of petition for modification of certificate), filed December 4, 1974. Petitioner: LACY'S EXPRESS, INC., 81 West Pitman Street, Penns Grove, N.J. 08069. Petitioner's representative: Martin Werner, 2 West 45th Street, New York, N.Y. 10036. Petitioner holds a motor *common carrier* certificate in No. MC 5296 issued November 29, 1965, authorizing transportation, over regular routes, of *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between Philadelphia, Pa., and Salem, N.J., serving all intermediate points; and the off-route points of Woodbury, National Park, and Pedricktown, N.J.: From Philadelphia across the Delaware River to Camden, N.J., thence over New Jersey Highway 45 to junction U.S. Highway 130, and thence over U.S. Highway 130 to Pennsville, N.J., and thence over New Jersey Highway 49 to Salem, and return over the same route. By the instant petition, petitioner seeks to amend its certificate to read as follows: "*General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading): Between Philadelphia, Pa., and Salem, N.J., serving all intermediate points; and the off-route points of Woodbury, National Park, and Pedricktown, N.J., and those in Alloway, Quinton, and Lower Alloways Creek Townships, N.J., (1) from Philadelphia across the Delaware River to Camden, N.J., thence over New Jersey Highway 45 to junction U.S. Highway 130, and thence over U.S. Highway 130 to Pennsville, N.J., and thence over New Jersey Highway 49 to Salem, and return over the same route, and (2) from Philadelphia across the Delaware River to Camden, N.J., thence over New Jersey Highway 45 to Westville, N.J., thence over New Jersey Highway 44 to Bridgeport, N.J., thence over U.S. Highway 130 to Pennsville, N.J., and thence over New Jersey Highway 49 to Salem and return over the same route." Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition on or before January 27, 1975.

No. MC 107295 (Sub-No. 375) (Notice of Filing of Petition for Modification of Certificate), filed December 9, 1974. Petitioner: PRE-FAB TRANSIT CO., a Corporation, 100 S. Main Street, P.O. Box 146, Farmer City, Ill. 61842. Petitioner's representative: Mack Stephenson (same address as petitioner). Petitioner holds a motor *common carrier* certificate in No. MC 107295 (Sub-No. 375) issued October 18, 1973, authorizing transportation, as pertinent, over irregular routes, of *Insulated building panels*, from the plant site and storage facilities of Moncrief-Lenoir Manufacturing Company, at Houston, Tex., to points in the United States (except Alaska and Hawaii), with no transportation for compensation on return except as otherwise authorized. Restriction: The authority granted herein is restricted to the transportation of shipments originating at the above-described plant site or storage facilities. By the instant petition, petitioner seeks modification of the commodity description to read: "Building panels." Everything else will remain the same. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition on or before January 27, 1975.

No. MC 114552 (Sub-No. 32) (Notice of Filing of Petition for Modification of Certificate), filed December 10, 1974. Petitioner: SENN TRUCKING COMPANY, a Corporation, P.O. Drawer 220, Newberry, S.C. 29108. Petitioner's representative: William P. Jackson, Jr., 919 Eighteenth Street NW., Washington, D.C. 20006. Petitioner holds a motor *common carrier* certificate in No. MC 114552 (Sub-No. 32), issued April 2, 1968, authorizing transportation, as pertinent, over irregular routes, of *Citrus pulp, citrus meal, and oyster shells*, (1) from points in Florida, to points in Alabama, South Carolina, those points in that part of North Carolina west of U.S. Highway 1, Georgia (except Atlanta, Macon, and Waycross, and points in their commercial zones as defined by the Commission), Tennessee (except Chattanooga

and Nashville and points in their commercial zones as defined by the Commission), with no transportation for compensation on return except as otherwise authorized. Restriction: The authority granted above is restricted against the transportation of oyster shells, crushed, from Jacksonville, Fla., to those points in that part of Georgia on and north of U.S. Highway 80, and (2) from points in Mobile county, Ala., to points in Georgia, North Carolina, South Carolina, and Tennessee, with no transportation for compensation on return except as otherwise authorized. By the instant petition, petitioner seeks modification of the commodity description to read: *"Citrus pulp, citrus meal, and shells or shell products."* Everything else will remain the same. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition on or before January 27, 1975.

No. MC 124554 (Partial Correction of a Notice of Filing of Petition for Modification of Permit), filed November 21, 1974, published in the FEDERAL REGISTER issue of December 11, 1974, and republished as corrected in part this issue. Petitioner: HILARD F. LANG, VIOLA LANG, JOHN F. LANG, AND FRANK J. LANG, TRUSTEES AND MEDARD SCHMITZ, doing business as, LANG CARTAGE CORP., 338 S. 17th Street, Milwaukee, Wis. 53233. Petitioner's representative: Richard C. Alexander, 710 North Plankinton Avenue, Milwaukee, Wis. 53203.

NOTE.—Petitioner holds a motor *contract carrier* permit in No. MC 124554 issued November 25, 1974. The purpose of this partial republication is to correctly state that parts (5) and (6) of the permit should read as follows: "(5) *such merchandise* as is dealt in by wholesale drug business houses, from La Crosse, Wis., to points in Mitchell, Howard, Winneshiek, Fayette, Clayton, and Allamakee Counties, Iowa, and Houston, Fillmore, Mower, Freeborn, Waseca, Steele, Dodge, Olmsted, Winona, Goodhue, and Wabasha Counties, Minn.; and (6) *refused and returned merchandise*, from points in the destination counties named next above, to La Crosse, Wis. Restriction: The operations authorized under the 2 routes next above are limited to a transportation service to be performed under a continuing contract, or contracts, with Yahr-Lange La Crosse Drug Company, Inc., of La Crosse, Wis." The rest of the notice remains as originally published. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition on or before January 27, 1975.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's special rules governing notice of filing of applications by motor carriers of property or passengers under sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 CFR 1.240.)

MOTOR CARRIERS OF PROPERTY

No. MC-F-12200 (Interstate Contract Carrier Corp.—Purchase (Portion)—SIEFERT BROS. TRUCKING CO.), published in the April 24, 1974, issue of the FEDERAL REGISTER. By amendment filed December 12, 1974, persons now in control of the transferee, are Transport Services, Inc., John C. Williams and Roger J. Furness.

No. MC-F-12386. Authority sought for merger by SMITH & SOLOMON TRUCKING COMPANY, How Lane, New Brunswick, NJ 08903, of the operating rights and property of EAST COAST FREIGHT LINES, 3005 W. Marshall St., Richmond, VA 23230, and for acquisition by LEON SMITH and IRVING SMITH, both also of New Brunswick, NJ 08903, of control of such rights and property through the transaction. Applicants' attorney: Herbert Burstein, 1 World Trade Center, New York, NY 10048. Operating rights sought to be merged: *General commodities*, excepting, among others, dangerous explosives, household goods, and commodities in bulk, as a *common carrier*, over regular routes, between Richmond, Va., and New York, N.Y., serving all intermediate points, and at off-route points in the New York, N.Y., commercial zone, as defined by the Commission in 1 M.C.C. 665, and those in New York, N.Y., and New Jersey within 25 miles of New York, N.Y., with restrictions. Service is not authorized between Washington, D.C., and Alexandria, Va., for the movement of traffic originating at either point designated to the other, between Richmond, Va., and Petersburg, Va., serving all intermediate points, and the off-route points of Hopewell, Va., and Federal Reformatory Camp, Petersburg, Va., over numerous alternate routes for operating convenience only; and *general commodities*, excepting, among others, classes A and B explosives, household goods and commodities in bulk, over irregular routes, between Richmond, Va., and the Richmond Deep Water Terminal near Richmond. SMITH & SOLOMON TRUCKING COMPANY is authorized to operate as a *common carrier* in New York, New Jersey, Maryland, Pennsylvania, Michigan, Texas, Wisconsin, Connecticut, Massachusetts, Rhode Island, Maine, Delaware, Virginia, North Carolina, South Carolina, Georgia, Indiana, Illinois, Florida, West Virginia, Tennessee, Kentucky, Alabama, Mississippi, Ohio, and the District of Columbia. Application has not been filed for temporary authority under section 210a(b).

NOTE.—Pursuant to order dated December 29, 1970, in No. MC-F-10749, transferee acquired control of transferor.

No. MC-F-12387. Authority sought for purchase by CHARLES R. STROP, P.O. Box 1072, Hastings, NE 68901, of the operating rights of SHAW TRUCKING, INC., Juniata, NE 68955. Applicants' attorney: Arlyn L. Westergren, 530 Univac Bldg., 7100 West Center Rd., Omaha, NE 68106. Operating rights sought to be transferred: *Motor vehicle and recreational equipment, supplies*, and *accessories*, as a *contract carrier* over irregular routes, from Wahoo, Nebr., to points in the United States (except Alaska, Hawaii, and Nebraska), *equipment, materials, and supplies* with exceptions from points in the United States (except Alaska and Hawaii), to Wahoo, Nebr., *such commodities* as are normally dealt in by lumber, lumber products, and forest product yards, from points in that part of Montana on and west of U.S. Highway 91, and points in Judith Basin County, Mont., that part of Idaho on and north of U.S. Highway 12, points in Gem, Ada, Lemhi, and Bingham Counties, Idaho, Spokane, Snohomish, King, Pierce, and Grays Harbor Counties, Wash., and Baker, Wasco, Hood River, Clackamas, Polk, Benton, Linn, Lane, Douglas, Josephine, Washington, and Multnomah Counties, Oreg., to points in Kansas, Nebraska, and that part of Missouri lying on and west of U.S. Highway 65, from the plantsite of Mid-West Lumber Company at Lincoln, Nebr., to points in Kansas, Missouri, South Dakota, Minnesota, Iowa, and Illinois, with restrictions. Vendee is authorized to operate as a *common carrier* in all of the States in the United States (except Alaska and Hawaii). Application has been filed for temporary authority under section 210a (b).

No. MC-F-12388. Authority sought for purchase by SOUTH BEND FREIGHT LINE, INC., 1200 South Olive St., P.O. Box 545, South Bend, IN 46624, of the operating rights of DELIA CARTAGE, INC., 9226 Golf Road, Des Plaines, IL 60016, and for acquisition by ABRAHAM MARCUS, 20069 Lark Drive, South Bend, IN, of control of such rights through the purchase. Applicants' attorney: Philip A. Lee, 120 W. Madison St., Suite 618, Chicago, IL 60602. Operating rights sought to be transferred: Under a certificate of registration, in Docket No. MC 121255 (Sub-No. 1), covering the transportation of hardware, glassware, cosmetics, household furnishings, paper stock and office supplies; and also general commodities (except goods of unusual value, agricultural products, excavating in dumptrucks, liquid commodities in tank vehicles and heavy machinery), as a common carrier, in interstate commerce, within the State of Illinois. Vendee is authorized to operate as a *common carrier* in Illinois, Indiana, Iowa, Michigan, Kentucky, Ohio, and Wisconsin. Application has been filed for temporary authority under section 210a(b). Under the proposed transaction vendee proposes to tack or join the rights to be acquired at points in the Chicago, Ill., Commercial Zone. After the authority sought herein is authorized and the transaction consummated, vendee herein intends to file an application to eliminate any existing gateways.

NOTE.—MC 31533 (Sub-No. 13), is a matter directly related.

No. MC-F-12389. Authority sought for purchase by SOUTHWEST EQUIPMENT RENTAL, INC., doing business as

XUM

SOUTHWEST MOTOR FREIGHT, 4284 Mission Blvd., Pomona, CA 91769, of a portion of the operating rights of COASTAL CONTRACT CARRIER CORPORATION, P.O. Box 261, Selmer, TN 38375, and for acquisition by MAX LEE FULLER, 2909 Hickory St., Chattanooga, TN 37407, of control of such rights through the purchase. Applicants' attorneys: Patrick E. Quinn, P.O. Box 82028, Lincoln, NE 68501, and R. Connor Wiggins, Jr., Suite 909, 100 North Main Bldg., Memphis, TN 38103. Operating rights sought to be transferred: *Such commodities* as are used by or dealt in by retail fabric stores, *supplies*, as a *contract carrier* over irregular routes, between the facilities of House of Fabrics of South Carolina, Inc., at Montclair, Calif., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii); *such merchandise* as is sold by retail fabric stores, between the facilities of House of Fabrics of South Carolina, Inc., at or near Mauldin, S.C., on the one hand, and, on the other, points in the United States (except Alaska and Hawaii), on and west of a line beginning at the mouth of the Mississippi River and extending along the Mississippi River to its junction with the western boundary of Itasca and Koochiching Counties, Minn., to the United States-Canada Boundary line. Vendee is authorized to operate as a *contract carrier* in California, Arkansas, Colorado, Indiana, Illinois, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, Ohio, Pennsylvania, Wisconsin, and Nevada; and as a *common carrier* in all of the States in the United States (except Alaska and Hawaii). Application has been filed for temporary authority under section 210a(b).

No. MC-F-12390. Authority sought for control by FRANK MARTZ COACH COMPANY, 239 Old River Rd., Wilkes-Barre, PA 18702, of ATWOOD'S TRANSPORT LINES, INC., 5500 Tuxedo Rd., Tuxedo, MD 20781, and for acquisition by FRANK M. HENRY, also of Wilkes-Barre, PA 18702, of control of ATWOOD'S TRANSPORT LINES, INC., through the acquisition by FRANK MARTZ COACH COMPANY. Applicants' attorneys: Robert H. Griswold, P.O. Box 1166, Harrisburg, PA 17108, L. C. Major, Jr., 301 Tavern Square, Alexandria, VA 22314, and William C. Chesnutt, 1776 F St. NW., Washington, DC 20006. Operating rights sought to be controlled: Passengers and their baggage, and express, mail, and newspapers in the same vehicle with passengers, as a common carrier over regular routes, between Washington, D.C., and Point Lookout, Md., between Jarboesville and Piney Point, Md., serving all intermediate points; passengers and their baggage, between Washington, D.C., and the site of the United States Atomic Energy Commission, near Germantown, Md., serving no intermediate points; passengers and their baggage, restricted to traffic originating at the point indicated, in charter operations, over irregular routes, from Washington, D.C., to Alexandria, Arlington National Cemetery, and Mt. Vernon, Va., and return. FRANK MARTZ COACH COMPANY is authorized to operate as a common carrier in New Jersey, New York, and Pennsylvania. Application has been filed for temporary authority under section 210 a(b).

Illinois Central Gulf Railroad Company, 233 North Michigan Avenue, Chicago, Illinois 60601, represented by Mr. Robert D. Kelly, filed application on December 4, 1974, under section 5(2) of the Interstate Commerce Act for authority to acquire trackage rights over approximately 0.7 mile of track of the Illinois Terminal Railroad Company located in Sangaman County, south of Springfield, Illinois. This application has been assigned Finance Docket No. 27805. On the same day, the Illinois Central Gulf Railroad Company filed an application under section 1(18) of the Interstate Commerce Act for authority to construct two segments of track on each end of the Illinois Terminal track totaling one mile for the purpose of connecting two existing lines of the Illinois Central Gulf Railroad Company for the more expeditious movement of trains between Chicago, Illinois, and St. Louis and Kansas City, Missouri. The construction application has been assigned Finance Docket No. 27806.

In the opinion of the applicant, the authority sought by these applications is not a major Federal action significantly affecting the quality of the human environment. In accordance with the Commission's regulations (49 CFR 1100.-250) in Ex Parte No. 55 (Sub-No. 4), *Implementation—National Environmental Policy Act of 1969*, 340 I.C.C. 431 (1972), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall include information relating to the relevant factors set forth in Ex Parte No. 55 (Sub-No. 4), supra, Part (b)(1)-(5), 340 I.C.C. 431, 461. The proceedings will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protests submitted shall be filed with the Commission no later than January 27, 1975.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Letter Notices

DECEMBER 23, 1974.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065 (a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before January 6, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 30280 (Sub-No. E31) (Correction), filed May 6, 1974, published in the FEDERAL REGISTER June 13, 1974. Applicant: WATKINS CAROLINA EXPRESS, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Paul Daniell (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment, and those injurious or contaminating to other lading), between points in that part of Georgia on and west of a line beginning at the Georgia-Florida State line, thence along U.S. Highway 221 to Hariem, thence along Georgia Highway 47 to Wrens, thence along Georgia Highway 80 to Waynesboro, thence along U.S. Highway 25 to Statesboro, thence along U.S. Highway 25/301 to Nahunta, thence along U.S. Highway 84 to Atkinson, thence along Georgia Highway 110 to Waverly, thence along U.S. Highway 17 to Kingsland, thence along Georgia Highway 40 to St. Marys, on the one hand, and, on the other, Charlotte, N.C. The purpose of this filing is to eliminate the gateway of Greenville, S.C. The purpose of this correction is to clarify the territorial description.

No. MC 60157 (Sub-No. E4) (correction), filed May 10, 1974, published in the FEDERAL REGISTER November 25, 1974. Applicant: C. A. WHITE TRUCKING CO., INC., 5327 N. Central Expressway, Suite 310, Dallas, Tex. 75205. Applicant's representative: Frank Crane (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies*, used in, or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products and *machinery, materials, equipment, and supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipe lines, including the stringing and picking up thereof, between points in Montana west of a line beginning at the International Boundary line between the United States and

Canada and extending along Montana Highway 241 to Harlem, thence along U.S. Highway 2 to Ft. Belknap, thence along Montana Highway 376 to junction U.S. Highway 191, thence along U.S. Highway 191 to junction Montana Highway 19, thence along Montana Highway 19 to junction U.S. Highway 87, thence along U.S. Highway 87 to Billings, thence along Interstate Highway 10 to junction U.S. Highway 310, thence along U.S. Highway 310 to the Montana-Wyoming State line, and points in Kansas south of a line beginning at the Kansas-Missouri State line and extending along U.S. Highway 54 to junction U.S. Highway 154, thence along U.S. Highway 154 to Dodge City, thence along U.S. Highway 50 to the Kansas-Colorado State line. The purpose of this filing is to eliminate the gateway of points in Texas. The purpose of this correction is to clarify the commodity description.

No. MC 61057 (Sub-No. E5) (correction), filed May 10, 1974, published in the FEDERAL REGISTER November 25, 1974. Applicant: C. A. WHITE TRUCKING CO., INC., 5327 N. Central Expressway, Suite 310, Dallas, Tex. 75205. Applicant's representative: Frank Crane (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in, or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, equipment, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipe lines, including the stringing and picking up thereof, between points in Wyoming and points in that part of Kansas south of a line beginning at the Kansas-Missouri State line and extending along U.S. Highway 160 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction Kansas Highway 57, thence along Kansas Highway 57 to junction Kansas Highway 47, thence along Kansas Highway 47 to junction Kansas Highway 96, thence along Kansas Highway 96 to Wichita, thence along U.S. Highway 54 to junction U.S. Highway 154, thence along U.S. Highway 154 to Dodge City, thence along U.S. Highway 56 to the Kansas-Oklahoma State line. The purpose of this filing is to eliminate the gateway of points in Texas. The purpose of this correction is to clarify the route description.

No. MC 60157 (Sub-No. E10) (Correction), filed May 10, 1974, published in the FEDERAL REGISTER November 25, 1974. Applicant: C. A. WHITE TRUCKING CO., INC., 5327 N. Central Expressway, Suite 310, Dallas, Tex. 75205. Applicant's representative: Frank Crane (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies*, used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum, and their products, and byproducts, and *machinery, materials, equipment, and supplies* used in, or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, including the stringing and picking up thereof, between points in Louisiana, Oklahoma, Kansas, Colorado, Utah, Wyoming, and Montana. The purpose of this filing is to eliminate the gateway of points in Texas. The purpose of this correction is to clarify the territorial description.

No. MC 76177 (Sub-No. E78), filed May 6, 1974. Applicant: BAGGETT TRANSPORTATION CO., 2 South 32nd Street, Birmingham, Ala. 35233. Applicant's representative: T. C. Sinclair (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Classes A, B, and C explosives and blasting supplies*, between points in North Carolina, on the one hand, and, on the other, points in Kansas, Missouri, New Mexico, North Dakota, and South Dakota. The purpose of this filing is to eliminate the gateway of (1) points in Alabama, and (2) points which are both within 15 miles of Energy, Ill., and within 15 miles of Wolf Lake, Ill.

No. MC 76177 (Sub-No. E91), filed May 6, 1974. Applicant: BAGGETT TRANSPORTATION CO., 2 South 32nd Street, Birmingham, Ala. 35233. Applicant's representative: T. C. Sinclair (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Classes A and B explosives and blasting supplies*, from points in Maryland to points in Arkansas. The purpose of this filing is to eliminate the gateways of (1) the storage magazine of the Trojan-U.S. Powder, Division of Commercial Solvents Corp., located at the junction of West Virginia Highway 62 and White Church Road near Point Pleasant (Mason County), W. Va., (2) Grafton, Ill., and points within 2 miles thereof; and (3) Wolf Lake, Ill., and points within 15 miles thereof.

No. MC 76177 (Sub-No. E92), filed May 6, 1974. Applicant: BAGGETT TRANSPORTATION CO., 2 South 32nd Street, Birmingham, Ala. 35233. Applicant's representative: T. C. Sinclair (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Classes A and B explosives, and blasting supplies*, from points in Kentucky, Virginia, and West Virginia to points in Utah, Wyoming, and Colorado. The purpose of this filing is to eliminate the gateways of (1) Grafton, Ill., and points within 2 miles thereof, and (2) Atlas, Mo., and points within 6 miles of Carthage, Mo.

No. MC 76177 (Sub-No. E93), filed May 6, 1974. Applicant: BAGGETT TRANSPORTATION CO., 2 South 32nd Street, Birmingham, Ala. 35233. Applicant's representative: T. C. Sinclair (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Classes A and B explosives and blasting supplies*, from points in Arizona, Colorado, Kansas, and Oklahoma, to points in Virginia and West Virginia. The purpose of this filing is to eliminate the gateway of Wolf Lake, Ill., and points within 15 miles thereof.

No. MC 76177 (Sub-No. E95), filed May 6, 1974. Applicant: BAGGETT TRANSPORTATION CO., 2 South 32nd Street, Birmingham, Ala. 35233. Applicant's representative: T. C. Sinclair (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Classes A and B explosives and blasting supplies*, from points in Maryland, New York and Pennsylvania to points in Kansas. The purpose of this filing is to eliminate the gateways of (1) the storage magazines of the Trojan-U.S. Powder, Division of Commercial Solvents Corp., located at the junction of West Virginia Highway 62 and White Church Road near Point Pleasant (Mason County), W. Va., and (2) Grafton, Ill., and points within 2 miles thereof.

No. MC 76177 (Sub-No. E96), filed May 6, 1974. Applicant: BAGGETT TRANSPORTATION CO., 2 South 32nd Street, Birmingham, Ala. 35233. Applicant's representative: T. C. Sinclair (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Classes A and B explosives and blasting supplies*, from points in Texas to points in Ohio. The purpose of this filing is to eliminate the gateways of (1) Jasonville, Ind., and points within 15 miles thereof, and (2) those points which are both within 15 miles of Energy, Ill., and within 15 miles of Wolf Lake, Ill.

No. MC 76177 (Sub-No. E97), filed May 6, 1974. Applicant: BAGGETT TRANSPORTATION CO., 2 South 32nd Street, Birmingham, Ala. 35233. Applicant's representative: T. C. Sinclair (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Classes A and B explosives and blasting supplies*, from points in Oklahoma to points in Maryland. The purpose of this filing is to eliminate the gateways of (1) points in West Virginia within 10 miles of Martinsburg, W. Va. (except Martinsburg), and (2) Wolf Lake, Ill., and points within 15 miles thereof.

No. MC 76177 (Sub-No. E98), filed May 6, 1974. Applicant: BAGGETT TRANSPORTATION CO., 2 South 32nd Street, Birmingham, Ala. 35233. Applicant's representative: T. C. Sinclair (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Classes A and B explosives and blasting supplies*, from points in Louisiana to points in West Virginia. The purpose of this filing

is to eliminate the gateway of McAdory, Ala., and points within 15 miles thereof.

No. MC 76177 (Sub-No. E99), filed May 6, 1974. Applicant: BAGGETT TRANSPORTATION CO., 2 South 32nd Street, Birmingham, Ala. 35233. Applicant's representative: T. C. Sinclair (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Classes A and B explosives and blasting supplies*, from points in New Mexico to points in Virginia and West Virginia. The purpose of this filing is to eliminate the gateway of those points which are both within 15 miles of Wolf Lake, Ill., and within 15 miles of Energy, Ill.

No. MC 76177 (Sub-No. E100), filed May 6, 1974. Applicant: BAGGETT TRANSPORTATION CO., 2 South 32nd Street, Birmingham, Ala. 35233. Applicant's representative: T. C. Sinclair (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Classes A and B explosives and blasting supplies*, from points in Texas to points in West Virginia. The purpose of this filing is to eliminate the gateway of those points which are both within 15 miles of Energy, Ill., and within 15 miles of Wolf Lake, Ill.

No. MC 76177 (Sub-No. E101), filed May 6, 1974. Applicant: BAGGETT TRANSPORTATION CO., 2 South 32nd St., Birmingham, Ala. 35233. Applicant's representative: T. C. Sinclair (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Classes A and B explosives, and blasting supplies*, from points in Oklahoma and Arizona to points in Indiana. The purpose of this filing is to eliminate the gateway of Wolf Lake, Ill., and points within 15 miles thereof.

No. MC 76177 (Sub-No. E102), filed May 6, 1974. Applicant: BAGGETT TRANSPORTATION CO., 2 South 32nd St., Birmingham, Ala. 35233. Applicant's representative: T. C. Sinclair (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Classes A and B explosives and blasting supplies*, from points in Montana to points in Virginia. The purpose of this filing is to eliminate the gateway of Wolf Lake, Ill., and points within 15 miles thereof.

No. MC 76177 (Sub-No. E103), filed May 6, 1974. Applicant: BAGGETT TRANSPORTATION CO., 2 South 32nd St., Birmingham, Ala. 35233. Applicant's representative: T. C. Sinclair (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Classes A and B explosives and blasting supplies*, from points in Oklahoma and Minnesota to points in North Carolina and South Carolina. The purpose of this filing is to eliminate the gateway of Wolf Lake, Ill., and points within 15 miles thereof.

No. MC 76177 (Sub-No. E105), filed May 6, 1974. Applicant: BAGGETT TRANSPORTATION CO., 2 South 32nd St., Birmingham, Ala. 35233. Applicant's representative: T. C. Sinclair (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Classes A and B explosives and blasting supplies*, from points in Louisiana and Mississippi to points in Michigan. The purpose of this filing is to eliminate the gateway of the plant site of Trojan-U.S. Powder, Division of Commercial Solvents Corporation, at or near Ordill, Ill.

No. MC 76177 (Sub-No. E106), filed May 6, 1974. Applicant: BAGGETT TRANSPORTATION CO., 2 South 32nd St., Birmingham, Ala. 35233. Applicant's representative: T.C. Sinclair (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Classes A and B explosives and blasting supplies*, from points in Utah and Wyoming to points in Virginia and West Virginia. The purpose of this filing is to eliminate the gateway of (1) Atlas, Mo., or (2) those points which are both within 15 miles of Atlas, Mo., and within 6 miles of Carthage, Mo.

No. MC 76177 (Sub-No. E107), filed May 6, 1974. Applicant: BAGGETT TRANSPORTATION CO., 2 South 32nd St., Birmingham, Ala. 35233. Applicant's representative: T.C. Sinclair (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Classes A and B explosives and blasting supplies*, from points in Pennsylvania to points in Texas. The purpose of this filing is to eliminate the gateway of (1) Jasonville, Ind., and points within 15 miles thereof, (2) Grafton, Ill., and points within 2 miles thereof, and (3) Wolf Lake, Ill., and points within 15 miles thereof.

No. MC 76177 (Sub-No. E111), filed May 6, 1974. Applicant: BAGGETT TRANSPORTATION CO., 2 South 32nd St., Birmingham, Ala. 35233. Applicant's representative: T. C. Sinclair (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Classes A and B explosives* and *blasting supplies*, from points in Indiana, Kentucky, Ohio, Virginia and West Virginia, to points in Kansas. The purpose of this filing is to eliminate the gateway of Grafton, Ill., or any point within 2 miles thereof.

No. MC 76177 (Sub-No. E108), filed May 6, 1974. Applicant: BAGGETT TRANSPORTATION CO., 2 South 32nd St., Birmingham, Alabama 35233. Applicant's representative: T. C. Sinclair (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Classes A and B explosives* and *blasting supplies*, between points in New Mexico and Missouri, on the one hand, and, on the other, points in South Carolina. The purpose of this filing is to eliminate the gateways of (1) any point which is both within 15 miles of Wolf Lake, Ill., and within 15 miles of Energy, Ill., and (2) points in Alabama.

No. MC 76177 (Sub-No. E109), filed May 6, 1974. Applicant: BAGGETT TRANSPORTATION CO., 2 South 32nd St., Birmingham, Alabama 35233. Applicant's representative: T. C. Sinclair (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Classes A, B and C explosives*, and *blasting supplies*, between points in Georgia, on the one hand, and, on the other, points in Wisconsin. The purpose of this filing is to eliminate the gateway of (1) any point which is both within 15 miles of Energy, Ill., and within 15 miles of Wolf Lake, Ill., and (2) points in Alabama.

No. 32063 (Sub-No. E1), filed June 4, 1974. Applicant: KLIPSCH HAULING CO., 112 North Fourth St., St. Louis, Missouri 63102. Applicant's representative: E. Stephen Heisley, 805 McLachlen Bank Bldg., 666 11th St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid chemicals*, in bulk, in tank vehicles, (1) from Dupo, Ill., to points in Oklahoma and Texas (except points in Harris County, Tex.), Springfield, and Verona, Mo.*, (2) from Dupo, Ill., to points in Louisiana, Harris County, Texas, and those points in Alabama on and south of a line beginning at the Mississippi-Alabama State line and extending along Alabama Highway 56 to its junction with U.S. Highway 43, thence along U.S. Highway 43 to its junction with Interstate Highway 65, thence along Interstate Highway 65 to its junction with Alabama Highway 21, thence along Alabama Highway 21 to the Alabama-Florida State line, and those points in Mississippi on and south of a line beginning at the Arkansas-Mississippi State line, and extending along Mississippi Highway 8 to its junction with U.S. Highway 61 thence along U.S. Highway 61 to its junction with Mississippi Highway 12, thence along Mississippi Highway 12 to its junction with U.S. Highway 49, thence along U.S. Highway 49 to its junction with Interstate Highway 20, thence along Interstate Highway 20 to its junction with Mississippi Highway 18, thence along Mississippi Highway 18 to its junction with Mississippi Highway 15, thence along Mississippi Highway 15 to its junction with U.S. Highway 84, thence along U.S. Highway 84 to its junction with U.S. Highway 45, thence along U.S. Highway 45 to the Mississippi-Alabama State line (Pine Bluff, Ark.)*, from Dupo, Ill., to opoints, in Ohio (Mt. Carmel, Ill.)*. The purpose of this filing is to eliminate the gateways designated by asterisks above.

No. MC 83745 (Sub-No. E21), filed June 4, 1974. Applicant: BOND TRANSPORT, INC., 4620 Rolling Road, Pittsburgh, Pa. 15236. Applicant's representative: William J. Lavelle, 2310 Grant Building, Pittsburgh, Pa. 15219. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Machinery and such commodities*, generally requiring rigging, special equipment, or specialized

handling except articles requiring special vehicular equipment for over-the-road movements between points in Westmoreland County, Pa., within 25 miles of Pittsburgh, Pa., on and north of U.S. Highway 30, on the one hand, and, on the other, points in West Virginia except Marion, Preston, and Monongalia Counties. The purpose of this filing is to eliminate the gateway of Pittsburgh, Pa.

No. MC 83745 (Sub-No. E27), filed June 4, 1974. Applicant: BOND TRANSPORT, INC., 4620 Rolling Road, Pittsburgh, Pa. 15236. Applicant's representative: William J. Lavelle, 2310 Grant Bldg., Pittsburgh, Pa. 15219. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery and such commodities* generally requiring rigging, special equipment, or specialized handling except articles requiring special vehicular equipment for over the road movements, between Claysville, Pa., on the one hand, and, on the other, points in West Virginia on and south of U.S. Highway 50, points in Ohio on and west of Interstate Highway 75, and points in Maryland on and east of U.S. Highway 200.

No. MC 83835 (Sub-No. E12), filed May 14, 1974. Applicant: WALES TRANSPORTATION, INC., P.O. Box 6186, Dallas, Tex. 75222. Applicant's representative: William A. Cunningham (same as above). Authority sought to operate as a *common carrier*, by motor vehicle over irregular routes; transporting: (A) *Self-propelled articles*, each weighing 15,000 pounds or more, and *related machinery, tools, parts, and supplies* moving in connection therewith (restricted to commodities which are transported on trailers), and (B) *Commodities* which, because of their size or weight, require the use of special equipment; (a) between points in Missouri and Oklahoma, on the one hand, and, on the other, points in Montana, North Dakota, South Dakota, Utah, and Wyoming; (b) between points in Illinois, on the one hand, and, on the other, points in New Mexico and Utah; (c) between points in Texas, on the one hand, and, on the other, points in Nebraska; (d) between points in Nebraska, on the one hand, and, on the other, points in that part of New Mexico on and east of a line beginning at the New Mexico-Oklahoma State line, thence along New Mexico Highway 18 to its junction with U.S. Highway 54, thence along U.S. Highway 54 to its junction with U.S. Highway 66, thence along U.S. Highway 66 to its junction with U.S. Highway 54, thence along U.S. Highway 54 to its junction with U.S. Highway 60, thence along U.S. Highway 60 to its junction with U.S. Highway 85, thence along U.S. Highway 85 to its junction with New Mexico Highway 90, thence along New Mexico Highway 90 to its junction with U.S. Highway 80, thence along U.S. Highway 80 to the New Mexico-Arizona State line; (e) between points in Illinois, on the one hand, and, on the other, points in that part of Wyoming on and west of a line beginning at the Wyoming-Montana State line, thence along Interstate Highway 90 to its junction with Interstate Highway 25, thence along Interstate Highway 25 to the Wyoming-Colorado State line, and in that part of Montana on and west of a line beginning at the U.S.-Canada International Boundary line, thence along U.S. Highway 91 to its junction with U.S. Highway 89, thence along U.S. Highway 89 to its junction with U.S. Highway 10, thence along U.S. Highway 10 to its junction with U.S. Highway 212, thence along U.S. Highway 212 to the Montana-Wyoming State line;

(f) Between points in Utah, on the one hand, and, on the other, points in that part of Nebraska on and east of a line beginning at the Nebraska-Colorado State line, thence along Nebraska Highway 23 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to its junction with Nebraska Highway 70, thence along Nebraska Highway 70 to its junction with U.S. Highway 183, thence along U.S. Highway 183 to its junction with U.S Highway 20, thence along U.S. Highway 20 to its junction with U.S. Highway 281, thence along U.S. Highway 281 to the Nebraska-South Dakota State line, and in that part of Colorado on and east of a line beginning at the Nebraska-Colorado State line, thence along U.S. Highway 34 to its junction with U.S. Highway 385, thence along U.S. Highway 385 to the Colorado-Oklahoma State line; (g) between points in Wyoming, on the one hand, and, on the other, points in that part of Illinois on and south of a line beginning at the Illinois-Iowa State line, thence along Illinois Highway 2 to its junction with U.S. Highway 20, thence along U.S. Highway 20 to its junction with U.S. Highway 41, thence along U.S. Highway 41 to the Illinois-Wisconsin State line, and in that part of Colorado on and east of a line beginning at the Nebraska-Colorado State line, thence along U.S. Highway 34 to its junction with U.S. Highway 385, thence along U.S. Highway 385 to the Colorado-Oklahoma State line, and in that part of Nebraska on and south of a line beginning at the Nebraska-Iowa State line, thence along Nebraska Highway 2 to its junction with U.S. Highway 6, thence along U.S. Highway 6 to its junction with U.S. Highway 34, thence along U.S. Highway 34 to the Nebraska-Colorado State line; (h) between points in South Dakota, on the one hand, and, on the other, points in that part of Illinois on and south of a line beginning at the Illinois-Indiana State line, thence along Interstate Highway 70 to its junction with Illinois Highway 1, thence along Illinois Highway 1 to its junction with Illinois Highway 16, thence along Illinois Highway 16 to its junction with Illinois Highway 121, thence along Illinois Highway 121 to its junction with Interstate Highway 72, thence along Interstate Highway 72 to its junction with Illinois Highway 125, thence along Illinois Highway 125 to its junction with U.S. Highway 24, thence along U.S. Highway 24 to the Illinois-Missouri State line, and in that part of Colorado on and south of a line beginning at the Colorado-Kansas State line, thence along U.S. Highway 160 to its junction with Interstate Highway 25, thence along Interstate Highway 25 to the Colorado-New Mexico State line.

(i) Between points in North Dakota, on the one hand, and, on the other, points in that part of Nebraska on and south of a line beginning at the Nebraska-Colorado State line, thence along Nebraska Highway 23 to its junction with U.S. Highway 283, thence along U.S. Highway 283 to its junction with U.S. Highway 30, thence along U.S. Highway 30 to its junction with Nebraska Highway 10, thence along Nebraska Highway 10 to its junction with U.S. Highway 6, thence along U.S. Highway 6 to its junction with Nebraska Highway 33, thence along Nebraska Highway 33 to its junction with Nebraska Highway S–55F, thence along Nebraska Highway S–55F to its junction with Nebraska Highway 43, thence along Nebraska Highway 43 to its junction with Nebraska Highway 2, thence along Nebraska Highway 2 to the Nebraska-Missouri State line, and in that part of Illinois on and south of a line beginning at the Illinois-Indiana State line, thence along U.S. Highway 150 to its junction with Illinois Highway 16, thence along Illinois Highway 16 to its junction with Interstate Highway 57, thence along Interstate Highway 57 to its junction with U.S. Highway 36, thence along U.S. Highway 36 to its junction with Illinois Highway 125, thence along Illinois Highway 125 to its junction with Illinois Highway 103, thence along Illinois Highway 103 to its junction with U.S. Highway 24, thence along U.S. Highway 24 to the Illinois-Missouri State line, and in that part of Colorado on and south of a line beginning at the Nebraska-Colorado State line, thence along U.S. Highway 34 to its junction with U.S. Highway 385, thence along U.S. Highway 385 to its junction with U.S. Highway 36, thence along U.S. Highway 36 to its junction with Colorado Highway 71, thence along Colorado Highway 71 to its junction with U.S. Highway 24, thence along U.S. Highway 24 to its junction with Colorado Highway 115, thence along Colorado Highway 115 to its junction with U.S. Highway 50, thence along U.S. Highway 50 to its junction with U.S. Highway 285, thence along U.S. Highway 285 to its junction with U.S. Highway 160, thence along U.S. Highway 160 to the Colorado-Arizona State line; (j) between points in Montana, on the one hand, and, on the other, points in that part of Nebraska on and south of a line beginning at the Nebraska-Colorado State line, thence along U.S. Highway 6 to its junction with Nebraska Highway 2, thence along Nebraska Highway 2 to the Nebraska-Iowa State line, and in that part of Illinois on and south of a line beginning at the Illinois-Missouri State line, thence along U.S. Highway 34 to its junction with Illinois Highway 150, thence along Illinois Highway 150 to its junction with U.S. Highway 24, thence along U.S. Highway 24 to its junction with Interstate Highway 57, thence along Interstate Highway 57 to its junction with Illinois Highway 17, thence along

Illinois Highway 17 to its junction with Illinois Highway 1, thence along Illinois Highway 1 to its junction with U.S. Highway 52, thence along U.S. Highway 52 to its the Illinois-Indiana State line; (k) between points in that part of Nebraska on and south of a line beginning at the Nebraska-Iowa State line, thence along U.S. Highway 30 to its junction with U.S. Highway 283, thence along U.S. Highway 283 to its junction with U.S. Highway 6, thence along U.S. Highway 6 to the Nebraska-Colorado State line, on the one hand, and, on the other, points in that part of Wyoming on and west of a line beginning at the Wyoming-Colorado State line, thence along U.S. Highway 287 to its junction with U.S. Highway 30, thence along U.S. Highway 30 to its junction with U.S. Highway 287, thence along U.S. Highway 287 to its junction with Wyoming Highway 789, thence along Wyoming Highway 789 to its junction with Wyoming Highway 120, thence along Wyoming Highway 120 to the Wyoming-Montana State line.

(l) Between points in that part of Nebraska on and south of a line beginning at the Nebraska-Iowa State line, thence along U.S. Highway 6 to its junction with U.S. Highway 34, thence along U.S. Highway 34 to the Nebraska-Colorado State line, on the one hand, and, on the other, points in that part of Wyoming on and south of a line beginning at the Wyoming-Nebraska State line, thence along U.S. Highway 30 to its junction with Wyoming Highway 91, thence along Wyoming Highway 91 to its junction with Wyoming Highway 487, thence along Wyoming Highway 487 to its junction with Wyoming Highway 220, thence along Wyoming Highway 220 to its junction with U.S. Highway 20, thence along U.S. Highway 20 to its junction with Wyoming Highway 120, thence along Wyoming Highway 120 to its junction with Wyoming Highway 296, thence along Wyoming Highway 296 to the Wyoming-Montana State line; (m) between points in that part of Nebraska on and east of U.S. Highway 83, on the one hand, and, on the other, points in that part of Utah on and east of a line beginning at the Utah-Arizona State line, thence along U.S. Highway 91 to its junction with Utah Highway 4, thence along Utah Highway 4 to its junction with U.S. Highway 89, thence along U.S. Highway 89 to its junction with Utah Highway 4, thence along Utah Highway 4 to its junction with Utah Highway 10, thence along Utah Highway 10 to its junction with Utah Highway 33, thence along Utah Highway 33 to its junction with U.S. Highway 40, thence along U.S. Highway 40 to its junction with Utah Highway 44, thence along Utah Highway 44 to the Utah-Wyoming State line.

(n) Between points in that part of Nebraska on and south of a line beginning at the Nebraska-Colorado State line, thence along U.S. Highway 34 to its junction with U.S. Highway 136, thence along U.S. Highway 136 to its junction with U.S. Highway 183, thence along U.S. Highway 183 to its junction with Nebraska Highway 4, thence along Nebraska Highway 4 to its junction with U.S. Highway 136, thence along U.S. Highway 136 to the Nebraska-Missouri State line, on the one hand, and, on the other, points in that part of South Dakota on and north of a line beginning at the South Dakota-Wyoming State line, thence along U.S. Highway 16 to its junction with South Dakota Highway 44, thence along South Dakota Highway 44 to its junction with U.S. Highway 77, thence along U.S. Highway 77 to its junction with U.S. Highway 18, thence along U.S. Highway 18 to the South Dakota-Iowa State line; (o) between points in that part of Nebraska on and east of a line beginning at the Nebraska-South Dakota State line, thence along U.S. Highway 385 to its junction with U.S. Highway 26, thence along U.S. Highway 26 to its junction with Nebraska Highway 27, thence along Nebraska Highway 27 to the Nebraska-Colorado State line, on the one hand, and, on the other, points in that part of New Mexico on and south of a line beginning at the New Mexico-Arizona State line, thence along New Mexico Highway 504 to its junction with U.S. Highway 550, thence along U.S. Highway 550 to its junction with New Mexico Highway 17, thence along New Mexico Highway 17 to its junction with New Mexico Highway 44, thence along New Mexico Highway 44 to its junction with New Mexico Highway 126, thence along New Mexico Highway 126 to its junction with New Mexico Highway 4, thence along New Mexico Highway 4 to its junction with U.S. Highway 85, thence along U.S. Highway 85 to its junction with U.S. Highway 56, thence along U.S. Highway 56 to its junction with New Mexico Highway 18, thence along New Mexico Highway 18 to the New Mexico-Oklahoma State line;

(p) Between points in that part of Montana on and west of a line beginning at the Montana-Idaho State line, thence along U.S. Highway 91 to its junction with Interstate Highway 15, thence along Interstate Highway 15 to its junction with U.S. Highway 87, thence along U.S. Highway 87 to its junction with Montana Highway 232, thence along Montana Highway 23 2to the U.S.-Canada International Boundary line, on the one hand, and, on the other, points in that part of Nebraska on and south of a line beginning at the Nebraska-Iowa State line, thence along U.S. Highway 30 to its junction with U.S. Highway 183, thence along U.S. Highway 183 to its junction with Nebraska Highway 23, thence along Nebraska Highway 23 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to its junction with U.S. Highway 30, thence along U.S. Highway 30 to the Nebraska-Colorado State line; (q) between points in that part of Illinois on and south of a line beginning at the Illinois-Indiana State line, thence along U.S. Highway 24 to its junction with U.S. Highway 52, thence along U.S. Highway 52 to its junction with Illinois Highway 116, thence along Illinois Highway 116 to its junction with U.S. Highway 34, thence along U.S. Highway 34 to the Illinois-Iowa State line, on the one hand, and, on the other, points in that part of South Dakota on and west of a line beginning at the South Dakota-North Dakota State line, thence along South Dakota Highway 63 to its junction with U.S. Highway 12, thence along U.S. Highway 12 to its junction with South Dakota Highway 47, thence along South Dakota Highway 47 to its junction with U.S. Highway 212, thence along U.S. Highway 212 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to its junction with Interstate Highway 90, thence along Interstate Highway 90 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to its junction with U.S. Highway 18, thence along U.S. Highway 18 to its junction with South Dakota Highway 73, thence along South Dakota Highway 73 to the South Dakota-Nebraska State line.

(r) Between points in that part of South Dakota on and west of a line beginning at the South Dakota-Wyoming State line, thence along U.S. Highway 18 to its junction with South Dakota Highway 71, thence along South Dakota Highway 71 to the South Dakota-Nebraska State line, on the one hand, and, on the other, points in that part of Illinois on and south of a line beginning at Lake Michigan, thence along U.S. Highway 66 to its junction with Interstate Highway 80, thence along Interstate Highway 80 to its junction with U.S. Highway 34, thence along U.S. Highway 34 to the Illinois-Iowa State line; (s) between points in that part of North Dakota on and west of a line beginning at the U.S.-Canada International Boundary line, thence along U.S. Highway 52 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to its junction with North Dakota Highway 23, thence along North Dakota Highway 23 to its junction with North Dakota Highway 22, thence along North Dakota Highway 22 to its junction with Interstate Highway 94, thence long Interstate Highway 94 to its junction with North Dakota Highway 8, thence along North Dakota Highway 8 to its junction with U.S. Highway 12, thence along U.S. Highway 12 to the North Dakota-South Dakota State line, on the one hand, and, on the other, points in that part of Illinois on and south of a line beginning at the Indiana-Illinois State line, thence along Interstate Highway 74 to its junction with Illinois Highway 116, thence along Illinois Highway 116 to its junction with U.S. Highway 34, thence along U.S. Highway 34 to the Illinois-Missouri State line.

(t) Between points in that part of Montana on and west of a line beginning at the U.S.-Canada International Boundary line, thence along Interstate Highway 15 to its junction with U.S. Highway 87, thence along U.S. Highway 87 to its junction with U.S. Highway 191, thence along U.S. Highway 191 to its junction with U.S. Highway 12, thence along U.S. Highway 12 to its junction with Montana Highway 3, thence along Montana Highway 3 to its junction with

U.S. Highway 10, thence along U.S. Highway 10 to its junction with U.S. Highway 212, thence along U.S. Highway 212 to the Montana-Wyoming State line, on the one hand, and, on the other, points in that part of Illinois on and south of a line beginning at Lake Michigan, thence along U.S. Highway 66 to its junction with Interstate Highway 80, thence along Interstate Highway 80 to the Illinois-Iowa State line; (u) between points in that part of Colorado on and south of a line beginning at the Utah-Colorado State line, thence along Interstate Highway 70 to its junction with U.S. Highway 36, thence along U.S. Highway 36 to its junction with U.S. Highway 385, thence along U.S. Highway 385 to its junction with U.S. Highway 34, thence along U.S. Highway 34 to the Nebraska-Colorado State line, on the one hand, and, on the other, points in that part of South Dakota on and east of a line beginning at the North Dakota-South Dakota State line, thence along U.S. Highway 83 to its junction with Interstate Highway 90, thence along Interstate Highway 90 to its junction with U.S. Highway 183, thence U.S. Highway 183 to the South Dakota-Nebraska State line; (v) between points in that part of North Dakota on and east of U.S. Highway 83, on the one hand, and, on the other, points in that part of Colorado on and south of a line beginning at the Utah-Colorado State line, thence along Interstate Highway 70 to its junction with U.S. Highway 36, thence along U.S. Highway 36 to its junction with U.S. Highway 385, thence along U.S. Highway 385 to its junction with U.S. Highway 34, thence along U.S. Highway 34 to the Nebraska-Colorado State line.

(w) Between points in Montana, on the one hand, and, on the other, points in that part of Colorado on and east of a line beginning at the Nebraska-Colorado State line, thence along U.S. Highway 34 to its junction with U.S. Highway 385, thence along U.S. Highway 385 to its junction with U.S. Highway 40, thence along U.S. Highway 40 to its junction with U.S. Highway 287, thence along U.S. Highway 287 to its junction with Colorado Highway 196, thence along Colorado Highway 196 to its junction with U.S. Highway 50, thence along U.S. Highway 50 to its junction with Colorado Highway 194, thence along Colorado Highway 194 to its junction with Colorado Highway 109, thence along Colorado Highway 109 to its junction with U.S. Highway 160, thence along U.S. Highway 160 to its junction with U.S. Highway 287, thence along U.S. Highway 287 to the Colorado-Oklahoma State line; (x) between points in that part of Montana on and north of a line beginning at the North Dakota-Montana State line, thence along U.S. Highway 10 to its junction with Montana Highway 200S, thence along Montana Highway 200S to its junction with Montana Highway 200, thence along Montana Highway 200 to its junction with U.S. Highway 87, thence along U.S. Highway 87 to its junction with Interstate Highway 15, thence along Interstate Highway 15 to its junction with U.S. Highway 91, thence along U.S. Highway 91 to its junction with Interstate Highway 90, thence along Interstate Highway 90 to the Idaho-Montana State line, on the one hand, and, on the other, points in that part of Colorado on and east of a line beginning at the Nebraska-Colorado State line, thence along U.S. Highway 34 to its junction with U.S. Highway 385, thence along U.S. Highway 385 to its junction with U.S. Highway 36, thence along U.S. Highway 36 to its junction with Colorado Highway 71, thence along Colorado Highway 71 to its junction with U.S. Highway 350, thence along U.S. Highway 350 to its junction with Interstate Highway 25, thence along Interstate Highway 25 to the New Mexico-Colorado State line. The purpose of this filing is to eliminate the gateways of points in Kansas.

No. MC 83835 (Sub-No. E17), filed May 14, 1974. Applicant: WALES TRANSPORTATION, INC., P.O. Box 6186, Dallas, Tex. 75222. Applicant's representative: William A. Cunningham (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Contractors' commodities*, which because of size or weight, require the use of special equipment, (a) between points in Wyoming, on the one hand, and, on the other, points in Indiana, Ohio, and Pennsylvania; (b) between points in Pennsylvania, on the one hand, and, on the other, points in Montana, Utah, and in that part of North Dakota on and west of a line beginning at the North Dakota-Montana State line, thence along U.S. Highway 2 to its junction with U.S. Highway 85, thence along U.S. Highway 85 to its junction with U.S. Highway 10, thence along U.S. Highway 10 to its junction with North Dakota Highway 22, thence along North Dakota Highway 22 to its junction with U.S. Highway 12, thence along U.S. Highway 12 to the North Dakota-South Dakota State line, and in that part of South Dakota on and west of a line beginning at the South Dakota-North Dakota State line, thence along South Dakota Highway 45 to its junction with South Dakota Highway 10, thence along South Dakota Highway 10 to its junction with South Dakota Highway 45, thence along South Dakota Highway 45 to its junction with U.S. Highway 12, thence along U.S. Highway 12 to its junction with South Dakota Highway 37, thence along South Dakota Highway 37 to its junction with U.S. Highway 12, thence along U.S. Highway 212 to its junction with South Dakota Highway 25, thence along South Dakota Highway 25 to its junction with U.S. Highway 14, thence along U.S. Highway 14 to the South Dakota-Minnesota State line; (c) between points in Indiana, on the one hand, and, on the other, points in Utah.

(d) Between points in South Dakota, on the one hand, and, on the other, points in that part of Indiana on and south of a line beginning at the Indiana-Illinois State line, thence along U.S. Highway 40 to its junction with Indiana Highway 46, thence along Indiana Highway 46 to its junction with Indiana Highway 37, thence along Indiana Highway 37 to its junction with U.S. Highway 150, thence along U.S. Highway 150 to the Indiana-Kentucky State line, and in that part of Pennsylvania on and south of a line beginning at the Pennsylvania-West Virginia State line, thence along U.S. Highway 40 to its junction with Interstate Highway 70, thence along Interstate Highway 70 to its junction with U.S. Highway 30, thence along U.S. Highway 30 to its junction with Pennsylvania Highway 271, thence along Pennsylvania Highway 271 to its junction with Pennsylvania Highway 63, thence along Pennsylvania Highway 63 to its junction with U.S. Highway 22, thence along U.S. Highway 22 to its junction with U.S. Highway 522, thence along U.S. Highway 522 to its junction with U.S. Highway 15, thence along U.S. Highway 15 to its junction with Pennsylvania Highway 45, thence along Pennsylvania Highway 45 to its junction with U.S. Highway 11, thence along U.S. Highway 11 to its junction with Pennsylvania Highway 590, thence along Pennsylvania Highway 590 to its junction with U.S. Highway 6, thence along U.S. Highway 6 to the Pennsylvania-New York State line; (e) between points in Ohio, on the one hand, and, on the other, points in that part of South Dakota on and south of a line beginning at the South Dakota-Wyoming State line, thence along U.S. Highway 212 to its junction with South Dakota Highway 34, thence along South Dakota Highway 34 to its junction with Interstate Highway 90, thence along Interstate Highway 90 to its junction with U.S. Highway 14, thence along U.S. Highway 14 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to its junction with Interstate Highway 90, thence along Interstate Highway 90 to its junction with U.S. Highway 183, thence along U.S. Highway 183 to its junction with U.S. Highway 18, thence along U.S. Highway 18 to the South Dakota-Nebraska State line.

(f) Between points in South Dakota, on the one hand, and, on the other, points in that part of Indiana on and south of a line beginning at the Indiana-Illinois State line, thence along U.S. Highway 40 to its junction with Indiana Highway 46, thence along Indiana Highway 46 to its junction with Indiana Highway 37, thence along Indiana Highway 37 to its junction with U.S. Highway 150, thence along U.S. Highway 150 to the Indiana-Kentucky State line; (g) between points in Montana, on the one hand, and, on the other, points in that part of Indiana on and south of a line beginning at the Indiana-Ohio State line, thence along U.S. Highway 40 to its junction with U.S. Highway 421, thence along U.S. Highway 421 to its junction with Indiana Highway 29, thence along Indiana Highway 29 to its junction with U.S. Highway 24, thence along U.S. Highway 24 to the Indiana-Illinois State

line; (h) between points in that part of North Dakota on and west of a line beginning at the North Dakota-Montana State line, thence along U.S. Highway 2 to its junction with U.S. Highway 85, thence along U.S. Highway 85 to its junction with U.S. Highway 10, thence along U.S. Highway 10 to its junction with North Dakota Highway 22, thence along North Dakota Highway 22 to its junction with U.S. Highway 12, thence along U.S. Highway 12 to the North Dakota-South Dakota State line, on the one hand, and, on the other, points in that part of Ohio on and south of a line beginning at the Ohio-Indiana State line, thence along U.S. Highway 36 to its junction with U.S. Highway 25, thence along U.S. Highway 25 to its junction with Ohio Highway 47, thence along Ohio Highway 47 to its junction with Ohio Highway 4, thence along Ohio Highway 4 to its junction with Ohio Highway 95, thence along Ohio Highway 95 to its junction with U.S. Highway 42, thence along U.S. Highway 42 to its junction with Interstate Highway 71, thence along Interstate Highway 71 to its junction with U.S. Highway 224, thence along U.S. Highway 224 to its junction with Interstate Highway 76, thence along Interstate Highway 76 to its junction with Ohio Highway 44, thence along Ohio Highway 44 to its junction with Ohio Highway 5, thence along Ohio Highway 5 to its junction with Ohio Highway 82, thence along Ohio Highway 82 to the Ohio-Pennsylvania State line.

(i) Between points in that part of Indiana on and south of a line beginning at the Indiana-Illinois State line, thence along U.S. Highway 52 to its junction with Indiana Highway 26, thence along Indiana Highway 26 to its junction with Indiana Highway 29, thence along Indiana Highway 29 to its junction with Indiana Highway 28, thence along Indiana Highway 28 to its junction with Indiana Highway 13, thence along Indiana Highway 13 to its junction with Indiana Highway 32, thence along Indiana Highway 32 to its junction with Indiana Highway 67, thence along Indiana Highway 67 to its junction with Indiana Highway 3, thence along Indiana Highway 3 to its junction with Indiana Highway 38, thence along Indiana Highway 38 to its junction with U.S. Highway 39, thence along U.S. Highway 35 to the Indiana-Ohio State line, on the one hand, and, on the other, points in that part of South Dakota on and west of a line beginning at the South Dakota-North Dakota State line, thence along South Dakota Highway 63, to its junction with U.S. Highway 12, thence along U.S. Highway 12 to its junction with South Dakota Highway 47, thence along South Dakota Highway 47 to its junction with U.S. Highway 212, thence along U.S. Highway 212 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to its junction with Interstate Highway 90, thence along Interstate Highway 90 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to its junction with U.S. Highway 18, thence along U.S. Highway 18 to its junction with South Dakota Highway 73, thence along South Dakota Highway 73 to the South Dakota-Nebraska State line; (j) between points in that part of Indiana on and south of a line beginning at the Ohio-Indiana State line, thence along U.S. Highway 20 to its junction with U.S. Highway 27, thence along U.S. Highway 27 to its junction with U.S. Highway 24, thence along U.S. Highway 24 to the Indiana-Illinois State line, on the one hand, and, on the other, points in that part of South Dakota on and west of a line beginning at the South Dakota-Wyoming State line, thence along U.S. Highway 212 to its junction with South Dakota Highway 34, thence along South Dakota Highway 34 to its junction with Interstate Highway 90, thence along Interstate Highway 90 to its junction with U.S. Highway 16, thence along U.S. Highway 16 to its junction with South Dakota Highway 79, thence along South Dakota Highway 79 to its junction with U.S. Highway 385, thence along U.S. Highway 385 to the South Dakota-Nebraska State line.

(k) Between points in that part of Indiana on and south of a line beginning at the Indiana-Illinois State line, thence along U.S. Highway 136 to its junction with U.S. Highway 40, thence along U.S. Highway 40 to the Indiana-Ohio State line, on the one hand, and, on the other, points in that part of North Dakota on and west of a line beginning at the U.S.-Canada International Boundary line, thence along U.S. Highway 52 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to its junction with North Dakota Highway 23, thence along North Dakota Highway 23 to its junction with North Dakota Highway 22, thence along North Dakota Highway 22 to its juction with Interstate Highway 94, thence along Interstate Highway 94 to its junction with North Dakota Highway 8, thence along North Dakota Highway 8 to its junction with U.S. Highway 12, thence along U.S. Highway 12 to the North Dakota-South Dakota State line; (l) between points in that part of Indiana on and south of a line beginning at the Indiana-Michigan State line, thence along Indiana Highway 15 to its junction with U.S. Highway 20, thence along U.S. Highway 20 to its junction with Indiana Highway 19, thence along Indiana Highway 19 to its junction with U.S. Highway 6, thence along U.S. Highway 6 to its junction with U.S. Highway 35, thence along U.S. Highway 35 to its junction with Indiana Highway 10, thence along Indiana Highway 10 to the Indiana-Illinois State line, on the one hand, and, on the other, points in that part of Montana on and west of a line beginning at the U.S.-Canada International Boundary line, thence along Montana Highway 232 to its junction with U.S. Highway 87, thence along U.S. Highway 87 to its junction with Montana Highway 236, thence along Montana Highway 236 to its junction with U.S. Highway 191, thence along U.S. Highway 191 to its junction with U.S. Highway 12, thence along U.S. Highway 12 to its junction with Montana Highway 3, thence along Montana Highway 3 to its junction with Interstate Highway 90, thence along Interstate Highway 90 to its junction with U.S. Highway 310, thence along U.S. Highway 310 to the Montana-Wyoming State line.

(m) Between points in that part of Pennsylvania on and east of a line beginning at the Pennsylvania-Ohio State line, thence along Pennsylvania Highway 68 to its junction with Pennsylvania Highway 60, thence along Pennsylvania Highway 60 to its junction with U.S. Highway 219, thence along U.S. Highway 219 to the Pennsylvania-New York State line, on the one hand, and, on the other, points in that part of North Dakota on and west of a line beginning at the U.S.-Canada International Boundary line, thence along U.S. Highway 52 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to its junction with North Dakota Highway 1804, thence along North Dakota Highway 1804 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to its junction with North Dakota Highway 11, thence along North Dakota Highway 11 to its junction with North Dakota Highway 2, thence along North Dakota Highway 3 to the North Dakota-South Dakota State line; (n) between points in that part of North Dakota on and west of North Dakota Highway 1, on the one hand, and, on the other, points in that part of Pennsylvania on and south of a line beginning at the Pennsylvania-West Virginia State line, thence along U.S. Highway 119 to its junction with U.S. Highway 40, thence along U.S. Highway 40 to its junction with Pennsylvania Highway 281, thence along Pennsylvania Highway 281 to its junction with Interstate Highway 76, thence along Interstate Highway 76 to its junction with U.S. Highway 22, thence along U.S. Highway 22 to the Pennsylvania-New Jersey State line.

(o) Between points in that part of Ohio on and south of a line beginning at the Indiana-Ohio State line, thence along U.S. Highway 36 to its junction with Interstate Highway 75, thence along Interstate Highway 75 to its junction with Ohio Highway 47, thence along Ohio Highway 47 to its junction with Ohio Highway 31, thence along Ohio Highway 31 to its junction with U.S. Highway 36, thence along U.S. Highway 36 to its junction with Ohio Highway 3, thence along Ohio Highway 3 to its junction with U.S. Highway 36, thence along U.S. Highway 36 to its junction with U.S. Highway 62, thence along U.S. Highway 62 to its junction with U.S. Highway 30, thence along U.S. Highway 30 to the Ohio-Pennsylvania State line, on the one hand, and, on the other, points in that part of South Dakota on and south of a line beginning at the South Dakota-North Dakota State line, thence along South Dakota Highway 45 to its junction with South Dakota Highway 10, thence along South Dakota Highway 10 to its junction with U.S. Highway 281, thence along U.S. Highway 281 to its junction with U.S. Highway 12, thence along U.S.

Highway 12 to its junction with South Dakota Highway 37, thence along South Dakota Highway 37 to its junction with South Dakota Highway 20, thence along South Dakota Highway 20 to its junction with Interstate Highway 29, thence along Interstate Highway 29 to its junction with U.S. Highway 14, thence along U.S. Highway 14 to the South Dakota-Minnesota State line.

(p) Between points in that part of North Dakota on and west of a line beginning at the U.S.-Canada International Boundary line, thence along U.S. Highway 52 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to its junction with North Dakota Highway 1804, thence along North Dakota Highway 1804 to its junction with U.S. Highway 83, thence along U.S. Highway 83 to its junction with North Dakota Highway 11, thence along North Dakota Highway 11 to its junction with North Dakota Highway 3, thence along North Dakota Highway 3 to the North Dakota-South Dakota State line, on the one hand, and, on the other, points in that part of Ohio on and south of a line beginning at the Ohio-Indiana State line, thence along U.S. Highway 36 to its junction with Ohio Highway 3, thence along Ohio Highway 3 to its junction with U.S. Highway 36, thence along U.S. Highway 36 to its junction with Ohio Highway 151, thence along Ohio Highway 151 to its junction with Ohio Highway 212, thence along Ohio Highway 212 to its junction with Ohio Highway 164, thence along Ohio Highway 164 to its junction with Ohio Highway 39, thence along Ohio Highway 39 to its junction with U.S. Highway 30, thence along U.S. Highway 30 to its junction with Ohio Highway 39, thence along Ohio Highway 39 to the Ohio-Pennsylvania State line, restricted against the transportation of iron and steel and iron and steel articles, but not mining or contractors' machinery and equipment, originating at points in Indiana which are within the Chicago, Ill., commercial zone, as defined by the Commission. The purpose of this filing is to eliminate the gateways of points in Illinois and Kansas.

No. MC 95540 (Sub-No. E812), filed November 11, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned Goods*, from South Edmeston, N.Y., to those points in Arkansas on and south of a line beginning at the Arkansas-Missouri State line and extending along U. S. Highway 25, to its junction with U. S. Highway 67, thence along U. S. Highway 67 to its junction with U. S. Highway 63, thence along U. S. Highway 63 to its junction with U. S. Highway 62, thence along U. S. Highway 62 to its junction with Arkansas Highway 201, thence along Arkansas Highway 201 to the Arkansas-Missouri State line. Restricted to the transportation of traffic destined to points in the named destination State. The purpose of this filing is to eliminate the gateway of Griffin, Ga.

No. MC 95540 (Sub-No. E819), filed December 5, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen potato products*, from Caribou, Maine, to points in Washington, Oregon, Idaho, Nevada, Utah, Wyoming, Colorado, and those points in Montana on and west of a line beginning at the Montana-Wyoming State line and extending along U.S. Highway 87 to its junction with U.S. Highway 2, thence along U. S. Highway 2 to its junction with Montana Highway 233, thence along Montana Highway 233 to the U.S.-Canada International Boundary line. The purpose of this filing is to eliminate the gateway of Dyersburg, Tenn.

No. MC 95540 (Sub-No. E823), filed December 1, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Dairy products, dessert puddings, and salads*, in vehicles equipped with mechanical refrigeration, from La Fargeville, Arkport, and Binghamton, N.Y., to those points in Arkansas on and south of a line beginning at the Arkansas-Tennessee State line and extending along U.S. Highway 82 to its junction with U.S. Highway 65, thence along U.S. Highway 65 to its junction with U.S. Highway 270, thence along U.S. Highway 270 to its junction with U.S. Highway 70, thence along U.S. Highway 70 to the Arkansas-Oklahoma State line. The purpose of this filing is to eliminate the gateway of Doraville, Ga.

No. MC 95540 (Sub-No. E824), filed December 1, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (Same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Dairy products*, in vehicles equipped with mechanical refrigeration, from Binghamton, N.Y., to points in Texas. The purpose of this filing is to eliminate the gateway of Doraville, Ga.

No. MC 95540 (Sub-No. E825), filed December 1, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Dairy products*, from La Fargeville and Arkport, N.Y., to those points in Texas on and south of a line beginning at the Texas-Oklahoma State line and extending along U.S. Highway 183 to its junction with U.S. Highway 287, thence along U.S. Highway 287 to its junction with U.S. Highway 70, thence along U.S. Highway 70 to the Texas-New Mexico State line. The purpose of this filing is to eliminate the gateway of Doraville, Ga.

No. MC 95540 (Sub-No. E826), filed December 1, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen foods, and meats, meat products, and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles), from South Edmeston, N.Y., to points in Alabama. The purpose of this filing is to eliminate the gateway of Tifton, Ga.

No. MC 95540 (Sub-No. E828), filed November 29, 1974. Applicant: WATKINS MOTOR LINES, INC., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Jerome F. Marks (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products* as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61, M.C.C. 209, and 766 (except hides and commodities in bulk), from Eau Claire, Wis., to those points in Georgia on and south of a line beginning at the Georgia-Florida State line and extending along Georgia Highway 91 to its junction with U.S. Highway 82, thence along U.S. Highway 82 to its junction with Georgia Highway 257, thence along U.S. Highway 257 to its junction with Interstate Highway 75, thence along Interstate Highway 75 to its junction with Georgia Highway 22, thence along Georgia Highway 22 to its junction with Georgia Highway 16, thence along Georgia Highway 16 to its junction with U.S. Highway 78, thence along U.S. Highway 78 to the Atlantic Ocean. The purpose of this filing is to eliminate the gateway of Orangeburg, S.C.

No. MC 107515 (Sub No. E121), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Prattsville, N.Y., to points in Missouri and that part of Indiana on and south of a line beginning at the Indiana-Ohio State line, thence along Indiana Highway 46 to junction U.S. Highway 40, thence along U.S. Highway 40 to the Illinois-Indiana State line, that part of Illinois on and south of a line beginning at the Illinois-Indiana State line, thence along Illinois Highway 125 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction Illinois Highway 101, thence along Illinois Highway 101 to junction Illinois Highway 94, thence along Illinois Highway 94 to junction U.S. Highway 136, thence along U.S. Highway 136 to the Mississipi River, and

that part of Iowa on and south of a line beginning at the Illinois-Iowa State line, thence along U.S. Highway 218 to junction Iowa Highway 2, thence along Iowa Highway 2 to junction Iowa Highway 14, thence along Iowa Highway 14 to junction U.S. Highway 34, thence along U.S. Highway 34 to the Iowa-Missouri State line. The purpose of this filing is to eliminate the gateway of the plant site of Food Specialties of Kentucky, at Jefferson County, Ky.

No. MC 107515 (Sub-No. E209), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Meats, meat products, and meat by-products* as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles and hides), from Dalhart, Tex., to points in Pennsylvania, Virginia, West Virginia, that part of Indiana on and east of a line beginning at the Michigan-Indiana State line, thence along Indiana Highway 327 to junction Interstate Highway 69, thence along Interstate Highway 69 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Indiana Highway 9, thence along Indiana Highway 9 to junction Indiana Highway 46, thence along Indiana Highway 46 to junction Indiana Highway 37, thence along Indiana Highway 37 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction Indiana Highway 66, thence along Indiana Highway 66 to junction Interstate Highway 94, thence along Interstate Highway 94 to the Indiana-Illinois State line, and that part of Michigan on and east of a line beginning at the Michigan-Indiana State line, thence along Interstate Highway 69 to junction Michigan Highway 50, thence along Michigan Highway 50 to junction Michigan Highway 99, thence along Michigan Highway 99 to junction Interstate Highway 96, thence along Interstate Highway 96 to junction Michigan Highway 52, thence along Michigan Highway 52 to junction Michigan Highway 46, thence along Michigan Highway 46 to junction Interstate Highway 75, thence along Interstate Highway 75 to junction U.S. Highway 23, thence along U.S. Highway 23 to Lake Huron, restricted against the transportation of traffic originating at Nashville, Tenn.

(2) *Meats, meat products, and meat by-products* as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles, and hides), from Galveston, Tex., to points in Indiana, Michigan, Pennsylvania, Virginia, West Virginia and that part of Illinois on and east of a line beginning at Illinois-Kentucky State line, thence along U.S. Highway 45 to junction Illinois Highway 15, thence along Illinois Highway 15 to junction Illinois Highway 127, thence along Illinois Highway 127 to junction U.S. Highway 68, thence along U.S. Highway 68 to junction Illinois Highway 104, thence along Illinois Highway 104 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction Illinois Highway 9, thence along Illinois Highway 9 to the Illinois-Iowa State line, that part of Iowa on and east of a line beginning at the Minnesota-Iowa State line, thence along Iowa Highway 76 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction Iowa Highway 86, thence along Iowa Highway 86 to junction Iowa Highway 38, thence along Iowa Highway 38 to junction U.S. Highway 61, thence along U.S. Highway 61 to junction Iowa Highway 99, thence along Iowa Highway 99 to the Mississippi River, that part of Wisconsin on and east of a line beginning at the Minnesota-Wisconsin State line, thence along Wisconsin Highway 54 to junction Wisconsin Highway 35, thence along Wisconsin Highway 35 to junction U.S. Highway 63, thence along U.S. Highway 63 to junction U.S. Highway 53, thence along U.S. Highway 53 to the Wisconsin-Minnesota State line, restricted against the transportation of traffic originating at Nashville, Tenn.

(3) *Meats, meat products, and meat by-products and articles*, distributed by meat packinghouses, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles, and hides), (a) from Hereford, the plant site of Missouri Beef Packers, Inc., at Friona, and Plainview, Tex., to points in Pennsylvania, West Virginia, Virginia, points in the Lower Peninsula of Michigan, and that part of Indiana on and east of a line beginning at the Illinois-Indiana State line, thence along Indiana Highway 64 to junction Indiana Highway 57, thence along Indiana Highway 57 to junction Indiana Highway 67, thence along Indiana Highway 67 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction Indiana Highway 25, thence along Indiana Highway 25 to junction U.S. Highway 35, thence along U.S. Highway 35 to junction U.S. Highway 20, thence along U.S. Highway 20 to Lake Michigan, and (b) from Amarillo, Tex., to points in Pennsylvania, Ohio, West Virginia, Virginia, the Lower Peninsula of Michigan, (except St. Joseph, Mich.), and that part of Michigan on and east of a line beginning at the Illinois-Indiana State line, thence along Indiana Highway 64 to junction Indiana Highway 57, thence along Indiana Highway 57 to junction Indiana Highway 67, thence along Indiana Highway 67 to junction U.S. Highway 231, thence along U.S. Highway 231 to junction Indiana Highway 25, thence along Indiana Highway 25 to junction U.S. Highway 35, thence along Indiana Highway 35 to junction U.S. Highway 20, thence along U.S. Highway 20 to Lake Michigan.

(4) *Meats, meat products, and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 18 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles, and hides), from San Antonio, Tex., to points in Indiana, Michigan, Pennsylvania, West Virginia, that part of Illinois on and east of a line beginning at the Illinois-Kentucky State line, thence along U.S. Highway 45 to junction Illinois Highway 146, thence along Illinois Highway 146 to junction Interstate Highway 57, thence along Interstate Highway 57 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction Illinois Highway 127, thence along Illinois Highway 127 to junction Illinois Highway 16, thence along Illinois Highway 16 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction Illinois Highway 104, thence along Illinois Highway 104 to junction Illinois Highway 78, thence along Illinois Highway 78 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction Illinois Highway 17, thence along Illinois Highway 17 to junction Interstate Highway 74, thence junction Interstate Highway 74, thence along Interstate Highway 74 to junction Illinois Highway 84, thence along Illinois Highway 84 to the Illinois-Wisconsin State line, that part of Iowa on and east of a line beginning at the Iowa-Illinois State line, thence along U.S. Highway 67 to junction U.S. Highway 52, thence along U.S. Highway 52 to the Illinois-Iowa State line, and that part of Wisconsin on and east of a line beginning at the Illinois-Wisconsin State line, thence along Wisconsin Highway 84 to junction Wisconsin Highway 80, thence along Wisconsin Highway 80 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction Wisconsin Highway 26, thence along Wisconsin Highway 26 to junction U.S. Highway 14, thence along U.S. Highway 14 to junction Wisconsin Highway 78, thence along Wisconsin Highway 78 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction Wisconsin Highway 80, thence along Wisconsin Highway 80 to junction Wisconsin Highway 73, thence along Wisconsin Highway 73 to junction U.S. Highway 8, thence along U.S. Highway 8 to Wisconsin Highway 13, thence along Wisconsin Highway 13 to junction Wisconsin Highway 169, thence along Wisconsin Highway 169 to the Wisconsin-Michigan State line, restricted against the transportation of shipments originating at Nashville, Tenn.

(5) *Meats, meat products, and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles, and hides), and vehicles equipped with mechanical refrigeration, from Austin and Luling, Tex., to points in Indiana, Michigan, Pennsylvania, Virginia, West Virginia, that part of Iowa on and east of a line beginning at the Illinois-Kentucky State line,

thence along U.S. Highway 641 to junction Illinois Highway 1, thence along Illinois Highway 1 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Illinois Highway 16, thence along Illinois Highway 16 to junction Illinois Highway 29, thence along Illinois Highway 29 to junction Interstate Highway 74, thence along Interstate Highway 74 to junction Illinois Highway 78, thence along Illinois Highway 78 to the Illinois-Wisconsin State line, in that part of Wisconsin on and east of a line beginning at the Illinois-Wisconsin State line, thence along Wisconsin Highway 78 to junction Wisconsin Highway 11, thence along Wisconsin Highway 11 to junction Wisconsin Highway 23, thence along Wisconsin Highway 23 to junction Wisconsin Highway 82, thence along Wisconsin Highway 82 to junction Wisconsin Highway 63, thence along Wisconsin Highway 63 to Lake Superior, restricted against the transportation of traffic originating at Nashville, Tenn.: (7) *Meats, meat products, and meat by-products*, as described in Section A of Appendix I the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles, and hides), from San Angelo, Tex., to points in Indiana, Michigan, West Virginia, Virginia, Pennsylvania, that part of Wisconsin on and east of U.S. Highway 51, and that part of Illinois on and east of U.S. Highway 51, restricted against the transportation originating at Nashville, Tenn.

(5) *Meats, meat products, and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles, and hides), from San Benito, Tex., to points in Indiana, Michigan, Pennsylvania, Virginia, West Virginia, and that part of Illinois on and east of a line beginning at the Illinois-Kentucky State line, thence along U.S. Highway 45 to junction Illinois Highway 15, thence along Illinois Highway 15 to junction Illinois Highway 127, thence along Illinois Highway 127 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction Illinois Highway 104, thence along Illinois Highway 104 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction Illinois Highway 9, thence along Illinois Highway 9 to the Illinois-Iowa State line, that part of Iowa on and east of a line beginning at the Minnesota-Iowa State line, thence along Iowa Highway 76 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction Iowa Highway B6, thence along Iowa Highway B6 to junction Iowa Highway 38, thence along Iowa Highway 38 to junction U.S. Highway 61, thence along U.S. Highway 61 to junction Iowa Highway 99, thence along Iowa Highway 99 to the Illinois-Iowa State line, in that part of Wisconsin on and east of a line beginning at the Minnesota-Wisconsin State line, thence along Wisconsin Highway 54 to junction Wisconsin Highway 35, thence along Wisconsin Highway 35 to junction U.S. Highway 63, thence along Wisconsin Highway 63 to junction U.S. Highway 53, thence along U.S. Highway 53 to the Wisconsin-Minnesota State line, restricted against the transportation of traffic originating at Nashville, Tenn.

(8) *Meats, meat products, and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles, and hides), from Abilene, Tex., to points in Pennsylvania, Virginia, West Virginia, Indiana, the Lower Peninsula of Michigan, that part of Wisconsin on and east of a line beginning at the Wisconsin-Michigan State line, thence along U.S. Highway 45 to junction Wisconsin Highway 29, thence along Wisconsin Highway 29 to junction Wisconsin Highway 49, thence along Wisconsin Highway 49 to junction Wisconsin Highway 23, thence along Wisconsin Highway 23 to junction Wisconsin Highway 73, thence along Wisconsin Highway 73 to junction Wisconsin Highway 59, thence along Wisconsin Highway 59 to junction U.S. Highway 51, thence along U.S. Highway 51 to the Wisconsin-Illinois State line, in that part of Illinois on and east of a line beginning at the Wisconsin-Illinois State line, thence along U.S. Highway 51 to junction Interstate Highway 74, thence along Interstate Highway 74 to junction Interstate Highway 57, thence along Interstate Highway 57 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Illinois Highway 1, thence along Illinois Highway 1 to the Illinois-Kentucky State line, restricted against the transportation of traffic originating at Nashville, Tenn.

(9) *Meats, meat products, and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles, and hides), from Dallas and Ft. Worth, Tex., to points in Pennsylvania, West Virginia, Virginia, the Lower Peninsula of Michigan, Indiana, and points in that part of Illinois on and east of a line beginning at the Illinois-Wisconsin State line, thence along U.S. Highway 14 to junction Illinois Highway 47, thence along Illinois Highway 47 to junction Interstate Highway 74, thence along Interstate Highway 74 to junction Interstate Highway 57, thence along Interstate Highway 57 to junction Interstate Highway 70, thence along Interstate Highway 70 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Illinois Highway 1, thence along Illinois Highway 1 to the Kentucky-Illinois State line, and that part of Wisconsin on and east of a line beginning at the Michigan-Wisconsin State line, thence along U.S. Highway 45 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction Wisconsin Highway 33, thence along Wisconsin Highway 33 to junction Wisconsin Highway 175, thence along Wisconsin Highway 175 to junction Wisconsin Highway 83, thence along Wisconsin Highway 83 to junction Wisconsin Highway 11, thence along Wisconsin Highway 11 to junction Wisconsin Highway 67, thence along Wisconsin Highway 67 to junction U.S. Highway 14, thence along U.S. Highway 14 to the Wisconsin-Illinois State line, restricted against the transportation of traffic originating at Nashville, Tenn.

(10) *Meats, meat products, and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles, and hides), from Houston, Tex., and the plant site of Armour & Co., near Houston, Tex., to points in Michigan, Indiana, Pennsylvania, Virginia, West Virginia, and points in that part of Illinois on and east of a line beginning at the Illinois-Indiana State line, thence along Interstate Highway 64 to junction Illinois Highway 1, thence along Illinois Highway 1 to junction Illinois Highway 130, thence along Illinois Highway 130 to junction Illinois Highway 15, thence along Illinois Highway 15 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Illinois Highway 32, thence along Illinois Highway 32 to junction Illinois Highway 16, thence along Illinois Highway 16 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction Illinois Highway 121, thence along Illinois Highway 121 to junction Illinois Highway 83, thence along Illinois Highway 83 to junction Illinois Highway 77, thence along Illinois Highway 77 to junction Illinois Highway 64, thence along Illinois Highway 64 to junction Illinois Highway 84, thence along Illinois Highway 84 to the Illinois-Wisconsin State line, and that part of Wisconsin on and east of a line beginning at the Wisconsin-Iowa State line, thence along Wisconsin Highway 82 to junction Wisconsin Highway 35, thence along Wisconsin Highway 35 to junction U.S. Highway 53, thence along U.S. Highway 53 to junction Wisconsin Highway 70, thence along Wisconsin Highway 70 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction Wisconsin Highway 27, thence along Wisconsin Highway 27 to junction Wisconsin Highway 13, thence along Wisconsin Highway 13 to Lake Superior, restricted against the transportation of traffic originating at Nashville, Tenn.

(11) *Meats, meat products, and meat by-products*, as described in Section A of Appendix I to the report in Descriptions in *Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles, and hides), from Paris, Tex., to points in the Lower Peninsula of Michigan, Indiana, Pennsylvania, Virginia, West Virginia, and points in that part of Illinois on and east of a line beginning at the Illinois-Indiana State line, thence along Interstate Highway 64 to junction Illinois Highway 130, thence along Illinois Highway 130 to junction Illinois Highway 133, thence along Illinois Highway 133 to junction Interstate Highway 57, thence along Interstate Highway 57 to junction Interstate Highway 74, thence along Interstate Highway 74 to junction Illinois Highway 47, thence

along Illinois Highway 47 to the Illinois-Wisconsin State line, and that part of Wisconsin on and east of a line beginning at the Illinois-Wisconsin State line, thence along Wisconsin Highway 140 to junction U.S. Highway 15, thence along U.S. Highway 15 to junction Wisconsin Highway 89, thence along Wisconsin Highway 89 to junction U.S. Highway 16, thence along U.S. Highway 16 to junction Wisconsin Highway 60, thence along Wisconsin Highway 60 to junction Wisconsin Highway 26, thence along Wisconsin Highway 26 to junction Wisconsin Highway 49, thence along Wisconsin Highway 49 to junction Wisconsin Highway 54, thence along Wisconsin Highway 54 to junction U.S. Highway 45, thence along U.S. Highway 45 to the Michigan-Wisconsin State line, restricted against the transportation of traffic originating at Nashville, Tenn.

(12) *Meats, meat products, and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles, and hides), from Mt. Pleasant, Tex., to points in Indiana, Michigan, West Virginia, Virginia, Pennsylvania, in that part of Illinois on and east of a line beginning at the Illinois-Kentucky State line, thence along Illinois Highway 13 to junction Illinois Highway 1, thence along Illinois Highway 1 to junction Illinois Highway 130, thence along Illinois Highway 130 to junction Illinois Highway 16, thence along Illinois Highway 16 to junction U.S. Highway 45, thence along U.S. Highway 45 to junction Interstate Highway 57, thence along Interstate Highway 57 to junction Interstate Highway 74, thence along Interstate Highway 74 to junction Illinois Highway 47, thence along Illinois Highway 47 to junction Illinois Highway 17, thence along Illinois Highway 17 to junction U.S. Highway 51, thence along U.S. Highway 51 to the Illinois-Wisconsin State line, in that part of Wisconsin on and east of a line beginning at the Illinois-Wisconsin State line, thence along U.S. Highway 51 to junction U.S. Highway 14, thence along U.S. Highway 14 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction Wisconsin Highway 13, thence along Wisconsin Highway 13 to Lake Superior; (except Ashland), restricted against the transportation of traffic originating at Nashville, Tenn.

(13) *Meats, meat products, and meat by-products*, as described in Section A of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles, and hides), from Mt. Pleasant, Tex., to points in Indiana, Michigan, West Virginia, Virginia, Pennsylvania, that part of Illinois on and east of a line beginning at the Illinois-Kentucky State line, thence along Illinois Highway 13 to junction Illinois Highway 1, thence along Illinois Highway 1 to junction Illinois Highway 130, thence along Illinois Highway 130 to junction Illinois Highway 16, thence along Illinois Highway 16 to junction of U.S. Highway 45, thence along U.S. Highway 45 to junction Interstate Highway 57, thence along Interstate Highway 57 to junction Interstate Highway 74, thence along Interstate Highway 74 to junction Illinois Highway 47, thence along Illinois Highway 47 to junction Illinois Highway 17, thence along Illinois Highway 17 to junction U.S. Highway 51, thence along U.S. Highway 51 to the Illinois-Wisconsin State line, in that part of Wisconsin on and east of a line beginning at the Illinois-Wisconsin State line, thence along U.S. Highway 51 to junction U.S. Highway 14, thence along U.S. Highway 14 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction Wisconsin Highway 13, thence along Wisconsin Highway 13 to Lake Superior (except Ashland), restricted against the transportation of traffic originating at Nashville, Tenn. The purpose of this filing is to eliminate the gateway of Odom's Sausage Co., at Madison, Tenn.

No. MC 107515 (Sub-No. E314), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33060. Applicant's representative: R. M. Tettlebaum, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen edible meats, and frozen meat products*, from the plant site of Iowa Beef Packers at or near Emporia, Kans., to the District of Columbia and points in that part of Maryland on and east of Interstate Highway 95, that part of Virginia on and east of a line beginning at the North Carolina-Virginia State line, thence along U.S. Highway 29 to junction U.S. Highway 211, thence along U.S. Highway 29/211 to the Virginia-District of Columbia Border line, that part of Delaware on and south of Interstate Highway 95, that part of New Jersey on and south of U.S. Highway 1, that part of New York on and south of U.S. Highway 1, that part of Connecticut on and east of a line beginning at the New York-Connecticut State line, thence along U.S. Highway 1 to junction Interstate Highway 91, thence along Interstate Highway 91 to the Connecticut-Massachusetts State line, and that part of Massachusetts on and east of Interstate Highway 91. The purpose of this filing is to eliminate the gateway of Rocky Mount, N.C.

No. MC 107515 (Sub-No. E264), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from points in Cook, Will, Lake, and DuPage Counties, Ill., and Lake County, Ind., to points in that part of Arkansas on and south of a line beginning at the Arkansas-Mississippi State line, thence along U.S. Highway 49 to junction Arkansas Highway 1, thence along Arkansas Highway 1 to junction Arkansas Highway 54, thence along Arkansas Highway 54 to junction Arkansas Highway 83, thence along Arkansas Highway 83 to junction Arkansas Highway 4, thence along Arkansas Highway 4 to junction U.S. Highway 79, thence along U.S. Highway 79 to the Arkansas-Louisiana State line, and that part of Texas on and south of a line beginning at the Louisiana-Texas State line, thence along Interstate Highway 20 to junction Interstate Highway 635, thence along Interstate Highway 635 to junction U.S. Highway 175, thence along U.S. Highway 175 to Seagonville, thence along an unnumbered county highway to junction Interstate Highway 45, thence along Interstate Highway 45 to junction Texas Highway 93, thence along Texas Highway 93 to junction Texas Highway 813, thence along Texas Highway 813 to junction U.S. Highway 287, thence along U.S. Highway 287 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction Texas Highway 171, thence along Texas Highway 171 to junction Interstate Highway 20, thence along Interstate Highway 20 to junction Interstate Highway 10, thence along Interstate Highway 10 to the Texas-New Mexico State line, restricted against the transportation of shipments destined to points in Florida. The purpose of this filing is to eliminate the gateway of Florence, Ala.

No. MC 107515 (Sub-No. E402), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 33050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, (1) from points in that part of Illinois on and north of U.S. Highway 136, to the District of Columbia, and to points in Massachusetts, Connecticut, Rhode Island, Delaware, Maryland, New Jersey, New York, and that part of Pennsylvania on and north of a line beginning at the Pennsylvania-West Virginia State line, thence along Interstate Highway 70 to junction U.S. Highway 119, thence along U.S. Highway 119 to the Pennsylvania-West Virginia State line, (2) from points in that part of Illinois on and north of Interstate Highway 80 to points in West Virginia, (3) from points in that part of Illinois on and north of a line beginning at the Illinois-Indiana State line, thence along U.S. Highway 50 to junction Interstate Highway 57, thence along Interstate 57 to junction U.S. Highway 13, thence along U.S. Highway 13 to junction Illinois Highway 149, thence along Illinois Highway 149 to junction Illinois Highway 3, thence along Illinois Highway 3 to junction Illinois Highway 51, thence along Illinois Highway 51 to the Illinois-Missouri State line, to the District of Columbia and to points in Massachusetts, Connecticut, Rhode Island, New York, New Jersey, Maryland, and Delaware. The purpose of this filing is to eliminate the gateway of Mendon, Mich.

No. MC 107515 (Sub-No. E404), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P. O. Box 308, Forest Park, Ga. 30050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, in vehicles equipped with mechanical refrigeration, from Detroit, Suttons Bay, Iona, Hart, and Lucington, Mich., to points in that part of South Carolina on and east of a line beginning at the Atlantic Ocean, thence along U.S. Highway 52 to junction U.S. Highway 521, thence along U.S. Highway 521 to the South Carolina-North Carolina State line, and that part of North Carolina on and east of North Carolina Highway 49. The purpose of this filing is to eliminate the gateways of (1) Detroit, Mich., and (2) Columbus, Ohio.

No. MC 107515 (Sub-No. E420), filed May 29, 1974. Applicant: REFRIGERATED TRANSPORT CO., INC., P.O. Box 308, Forest Park, Ga. 30050. Applicant's representative: Bruce E. Mitchell, Suite 375, 3379 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fresh and cured meats*, from Augusta, Ga., to points in Minnesota, Iowa, Wisconsin, that part of Missouri on and north of a line beginning at the Missouri-Oklahoma State line, thence along U.S. Highway 60 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction Interstate Highway 44, thence along Interstate Highway 44 to junction Missouri Highway 8, thence along Missouri Highway 8 to junction Missouri Highway 32, thence along Missouri Highway 32 to the Missouri-Illinois State line, that part of Indiana on and west of a line beginning at the Illinois-Indiana State line, thence along Interstate Highway 74 to junction Indiana Highway 63, thence along Indiana Highway 63 to Terre Haute, thence along Interstate Highway 70 to the Indiana-Illinois State line, and that part of Illinois on, north, and west of a line beginning at the Mississippi River, thence along Illinois Highway 150 to junction U.S. Highway 51, thence along U.S. Highway 51 to junction U.S. Highway 50, thence along U.S. Highway 50 to junction Interstate Highway 57, thence along Interstate Highway 57 to junction Interstate Highway 70, thence along Interstate Highway 70 to the Illinois-Indiana State line, thence northerly along the Illinois-Indiana State line to junction Illinois Highway 1, thence along Illinois Highway 1 to junction U.S. Highways 12/20, thence along U.S. Highways 12/20 to junction Illinois Highway 50, thence along Illinois Highway 50 to junction U.S. Highway 41, thence along U.S. Highway 41 to junction Illinois Highway 140, thence along Illinois Highway 140 to Lake Michigan. The purpose of this filing is to eliminate the gateways of (1) Columbus, Ga., and (2) the plant site of Odom's Sausage Co., at Madison, Tenn.

No. MC 113843 (Sub-No. E911) (Correction), filed June 4, 1974, published in the FEDERAL REGISTER October 23, 1974. Applicant: REFRIGERATED FOOD EXPRESS, INC., 316 Summer Street, Boston, Mass. 02210. Applicant's representative: Lawrence T. Sheils (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Moosic, Penn., to points in that part of New York on, south, and west of a line beginning at Lake Erie and extending along New York Highway 17 to junction U.S. Highway 15, thence along U.S. Highway 15 to the New York-Pennsylvania State line. The purpose of this filing is to eliminate the gateway of Elmira, New York. The purpose of this correction is to clarify the territorial description.

No. MC 114211 (Sub-No. E337), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (A) *Farm machinery and parts* thereof, restricted against the transportation of commodities which, because of size or weight, require the use of special equipment, except where such transportation is performed on ordinary vehicular equipment, and special equipment is provided for loading and unloading and the loading and unloading is performed by the consignor or the consignee, or both, and (B) *Self propelled farm machinery*, each article weighing 15,000 pounds or more, and *related farm machinery* and parts thereof, moving in connection therewith, restricted to the transportation of commodities on trailers, between points in Wyoming, on the one hand, and, on the other, points in that part of Missouri on and east of a line beginning at the Iowa-Missouri State line thence along U.S. Highway 63 to junction Missouri Highway 17, thence along Missouri Highway 17 to the Missouri-Arkansas State line. The purpose of this filing is to eliminate the gateways of Council Bluffs, Iowa and Omaha, Nebr.

No. MC 115331 (Sub-No. E9), (Correction), filed May 6, 1974, published in the FEDERAL REGISTER November 21, 1974. Applicant: TRUCK TRANSPORT INCORPORATED, 230 Saint Clair Avenue, East St. Louis, Illinois 62201. Applicant's representative: R. Stephen Heisley, 666 Eleventh Street NW., Washington, D.C. 20001. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Lime* and limestone products as defined as chemicals, in bulk, in dump vehicles, from points in Ste. Genevieve and St. Francois Counties, Mo., to points in Iowa, Kansas, Ohio, Oklahoma, Minnesota, Wisconsin, South Dakota, Michigan, Nebraska, Colorado, Montana, North Dakota, and Wyoming. The purpose of this filing is to eliminate the gateways of Chicago and East St. Louis, Ill., Davenport, Iowa, and Hannibal and Kansas City, Mo. The purpose of this correction is to clarify the origination points in Missouri.

No. MC 115603 (Sub-No. E31), filed May 30, 1974. Applicant: TURNER BROS. TRUCKING CO., INC., P.O. Box 94626, Oklahoma City, Okla. 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: Machinery, equipment, materials, and supplies used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products and machinery, materials, equipment, and supplies used in, or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipe lines, including the stringing and picking up thereof; (a) between points in that part of Missouri on and north of a line beginning at the Missouri-Illinois State line and extending along U.S. Highway 50 to its junction with Missouri Highway 5, thence along Missouri Highway 5 to its junction with Missouri Highway 52, thence along Missouri Highway 52 to the Missouri-Kansas State line, on the one hand, and, on the other, points in that part of Arkansas on and east of a line beginning at the Arkansas-Louisiana State line and extending along Arkansas Highway 29 to its junction with Arkansas Highway 4, thence along Arkansas Highway 4 to its junction with Arkansas Highway 27, thence along Arkansas Highway 27 to its junction with U.S. Highway 270, thence along U.S. Highway 270 to unnumbered highway 5 miles west of Pencil Bluff, thence along unnumbered highway to its junction with Arkansas Highway 28, thence along Arkansas Highway 28 to Gravelly, thence along unnumbered highway to its junction with Arkansas Highway 80, thence along Arkansas Highway 80 to its junction with unnumbered highway 6 miles west of Ollo, thence along unnumbered highway to its junction with Arkansas Highway 23, thence along Arkansas Highway 23 to Cass, thence along unnumbered highway to its junction with U.S. Highway 71, thence along U.S. Highway 71 to its junction with U.S. Highway 62, thence along U.S. Highway 62 to the Arkansas-Oklahoma State line.

(b) Between points in that part of Missouri on and west of a line beginning at the Missouri-Oklahoma State line and extending along Interstate Highway 44 to its junction with U.S. Highway 71, thence along U.S. Highway 71 to its junction with Missouri Highway 291, thence along Missouri Highway 291 to its junction with U.S. Highway 169, thence along U.S. Highway 169 to its junction with U.S. Highway 71, thence along U.S. Highway 71 to its junction with Missouri Highway 148, thence along Missouri Highway 148 to the Missouri-Iowa State line, on the one hand, and, on the other, points in Arkansas; (c) between points in that part of Missouri on and west of a line beginning at the Missouri-Oklahoma State line and extending along Interstate Highway 44 to its junction with U.S. Highway BYP 50, thence along U.S. Highway BYP 50, to the Missouri-Illinois

State line, on the one hand, and, on the other, points in that part of Arkansas on and west of a line beginning at the Arkansas-Louisiana State line and extending along U.S. Highway 71 to its junction with Interstate Highway 40, thence along Interstate Highway 40 to the Arkansas-Oklahoma State line; and (d) between points in Missouri, on the one hand, and, on the other, points in that part of Arkansas on and west of a line beginning at the Arkansas-Oklahoma State line and extending along Arkansas Highway 26 to Island, thence along a straight line to its junction with U.S. Highway 71, thence along U.S. Highway 71 to its junction with Arkansas Highway 282, thence along Arkansas Highway 282 to its junction with Arkansas Highway 348, thence along Arkansas Highway 348 to its junction with Arkansas Highway 59, thence along Arkansas Highway 59 to its junction with Arkansas Highway 220, thence along Arkansas Highway 220 to the Arkansas-Oklahoma State line. The purpose of this filing is to eliminate the gateway of points in Oklahoma.

No. MC 115603 (Sub-No. E38), filed May 30, 1974. Applicant: TURNER BROS. TRUCKING CO., INC., P.O. Box 94626, Oklahoma City, Okla. 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, equipment, and supplies* used in, or in connection with, the construction, operation, repair, serving, maintenance, and dismantling of pipelines, including the stringing and picking up thereof, except the stringing or picking up of pipe in connection with main or trunk pipelines, between points in that part of North Dakota on and west of a line beginning at the United States-Canada International Boundary line and extending along North Dakota Highway 30 to Lehr, thence along unnumbered highway to Ashley, and thence along North Dakota Highway 3 to the North Dakota-South Dakota State line, on the one hand, and, on the other, points in that part of Arkansas on and south of a line beginning at the Arkansas-Oklahoma State line and extending along U.S. Highway 62 to Prairie Grove, thence along unnumbered highway to its junction at West Fork with U.S. Highway 71, thence along U.S. Highway 71 to its junction with unnumbered highway, thence along unnumbered highway through Winfrey to junction with Arkansas Highway 16, thence along Arkansas Highway 16 to its junction with unnumbered highway at Pettigrew, thence along unnumbered highway through Yale to its junction with Arkansas Highway 103, thence along Arkansas Highway 103 to its junction with Interstate Highway 40, thence along Interstate Highway 40 to its junction with U.S. Highway 64, thence along U.S. Highway 64 to the Arkansas-Tennessee State line. The purpose of this filing is to eliminate the gateways of points in Texas and Oklahoma.

No. MC 115603 (Sub-No. E32), filed May 30, 1974. Applicant: TURNER BROS. TRUCKING CO., INC., P.O. Box 94626, Oklahoma City, Okla. 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Machinery, equipment, materials, and supplies* used in, or in connection with, discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, equipment, and supplies* used in, or in connection with, the construction, operation, repair, servicing, maintenance, and dismantling of pipe lines, including the stringing and picking up thereof (except the stringing or picking up of pipe in connection with main or trunk pipelines); (2) *Machinery, equipment, materials, and supplies* used in or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipelines, other than pipelines used for the transmission of natural gas, petroleum, their products and by-products, water, or sewerage, restricted to the transportation of shipments moving to or from pipeline rights-of-way; and

(3) *Earth drilling machinery and equipment, and machinery, equipment, materials, supplies, and pipe*, incidental to, used in, or in connection with (a) the transportation, installation, removal, operation, repair, servicing, maintenance, and dismantling of drilling machinery and equipment, (b) the completion of holes or wells drilled, (c) the production, storage, and transmission of commodities resulting from drilling operations at well or hole sites, and (d) the injection or removal of commodities into or from holes or wells, between points in that part of Missouri on and west of a line beginning at the Missouri-Arkansas State line and extending along Missouri Highway 37 to its junction with U.S. Highway 60, thence along U.S. Highway 60 to its junction with Missouri Highway 39, thence along Missouri Highway 39 to its junction with Missouri Highway 123, thence along Missouri Highway 123 to its junction with U.S. Highway 54, thence along U.S. Highway 54 to its junction with Missouri Highway 83, thence along Missouri Highway 83 to its junction with U.S. Highway 65, thence along U.S. Highway 65 to its junction with Missouri Highway 52, thence along Missouri Highway 52 to its junction with Missouri Highway 127, thence along Missouri Highway 127 to its junction with U.S. Highway 50, thence along U.S. Highway 50 to its junction with Missouri Highway 13, thence along Missouri Highway 13 to its junction with Missouri Highway 20, thence along Missouri Highway 20 to its junction with Missouri Highway 23, thence along Missouri Highway 23 to its junction with U.S. Highway 24, thence along U.S. Highway 24 to its junction with U.S. Highway 65, thence along U.S. 65 to its junction with U.S. Highway 36, thence along U.S. Highway 36 to its junction with Missouri Highway 139, thence along Missouri Highway 139 to the Missouri-Iowa State line, on the one hand, and, on the other, points in that part of Mississippi on and south of a line beginning at the Mississippi-Alabama State line, and extending along Mississippi Highway 388 to its junction with U.S. Alternate Highway 45, thence north along U.S. Alternate Highway 45 to its junction with U.S. Highway 82, thence along U.S. Highway 82 to the Mississippi-Arkansas State line. The purpose of this filing is to eliminate the gateway of points in Oklahoma.

No. MC 115603 (Sub-No. E33), filed May 30, 1974. Applicant: TURNER BROS. TRUCKING CO., INC., P.O. Box 94626, Oklahoma City, Okla. 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies*, used in, or in connection with, the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, equipment, and supplies* used in, or in connection with the construction, operation, repair, servicing, maintenance, and dismantling of pipe lines, including the stringing and picking up thereof, between points in Nebraska, on the one hand, and, on the other, points in Arkansas. The purpose of this filing is to eliminate the gateway of points in Oklahoma.

No. MC 115603 (Sub-No. E42), filed May 30, 1974. Applicant: TURNER BROS. TRUCKING CO., INC., P.O. Box 94626, Oklahoma City, Okla. 73109. Applicant's representative: Jack E. Turner (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Machinery, equipment, materials, and supplies* used in, or in connection with the discovery, development, production, refining, manufacture, processing, storage, transmission, and distribution of natural gas and petroleum and their products and by-products, and *machinery, materials, equipment, and supplies* used in, or in connection with the construction, operation, repair, servicing, maintenance and dismantling of pipelines, including the stringing and picking up thereof, between points in Wyoming, on the one hand, and, on the other, points in Arkansas. The purpose of this filing is to eliminate the gateways of points in Oklahoma and Nebraska.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Notice No. 206]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

DECEMBER 27, 1974.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before January 16, 1975. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75468. By order of December 13, 1974, the Motor Carrier Board approved the transfer to Northwest Transport, a corporation, Chino, Calif., of the operating rights in Certificate No. MC-136257 issued May 10, 1973, to Joe Edgeworth, doing business as Edgeworth Trucking, Tulare, Calif., authorizing the transportation of expanded plastic articles, from Fullerton, La Mirada, Pico Rivera, Santa Ana, and Torrance, Calif., to points in Arizona, New Mexico, and Nevada. *Dual operations were approved.* Jerry Solomon Berger, 9454 Wilshire Boulevard, Beverly Hills, Calif. 90212, Attorneys for applicants.

No. MC-FC-75471. By order of December 13, 1974, the Motor Carrier Board approved the transfer to Smith's Tank Service Corp., Philadelphia, Pa., of the operating rights in Certificate No. MC-29734 issued May 19, 1971, to Joseph H. Smith and William H. Smith, a partnership, doing business as Joseph H. Smith & Company, Philadelphia, Pa., authorizing the transportation of tallow and inedible animal grease, in tank vehicles, oil, in containers, empty oil containers, tallow, paper boxes, sugar, corn syrup, pineapples and pineapple juice, stationary wash tubs and drain boards, groceries and canned goods, between specified points in New York, New Jersey, Delaware, Pennsylvania, Maryland, and the District of Columbia. Alan Kahn, 1920 Two Penn Center Plaza, Philadelphia, Pa. 19102, attorney for applicants.

No. MC-FC-75527. By order of December 12, 1974, the Motor Carrier Board approved the transfer to Willett Motor Coach Co., a corporation, Chicago, Ill., of the operating rights in Certificate No. MC-16073 issued April 24, 1942, to Willett Motor Coach Company, a corporation, Chicago, Ill., authorizing the transportation of passenger and their baggage, in charter operations, from Chicago, Ill., and points within 50 miles thereof, to points in Illinois, Indiana, Wisconsin, Michigan, Iowa, Kentucky, Missouri, Pennsylvania, Ohio, Kansas, South Dakota, New Jersey, Maryland, New York, and the District of Columbia. Daniel J. Sweeney, 1750 Pennsylvania Avenue NW., Washington, D.C. 20006, attorney for applicants.

No. MC-FC-75442. By order entered December 11, 1974, the Motor Carrier Board approved the transfer to V D M Van & Storage Company, Inc., Poughkeepsie, N.Y., of the operating rights set forth in Certificate No. MC-70550 (Sub-No. 2), issued March 11, 1952, to James R. Vandemark, doing business as Pioneer Van & Storage, Poughkeepsie, N.Y., authorizing the transportation of household goods, between Wappingers Falls, N.Y., and points within 12 miles of Wappingers Falls, on the one hand, and, on the other, points in Connecticut, Massachusetts, New Jersey, New York, Pennsylvania, and Rhode Island. Carl S. Wolfson, 11 Market St., Poughkeepsie, N.Y., attorney for applicants.

No. MC-FC-75553. By order of December 10, 1974 the Motor Carrier Board approved the transfer to Boonton Transport, a corporation, Butler, N.J., of the operating rights in Certificate No. MC-96098 issued September 12, 1958 to James A. Smith & Son, Inc., Newton, N.J., authorizing the transportation of passengers and their baggage, in charter service, and in special operations, from a specified area of New Jersey to specified points and areas in New York, Virginia, Pennsylvania, and the District of Columbia, and return. Edward F. Bowes, 744 Broad St., Newark, N.J. 07102, attorney for applicants.

No. MC-FC-75556. By order entered 12.11.74 the Motor Carrier Board approved the transfer to Red Arrow Trucking Co., Belleville, N.J., of that portion of the operating rights set forth in Certificate No. MC-62512, issued by the Commission November 15, 1949, to J. De Falco Trucking Co., Inc., Newark, N.J., authorizing the transportation of various specified commodities between New York, N.Y., on the one hand, and, on the other, points in Union, Essex, Hudson, Bergen, and Passaic Counties, N.J.; and general commodities, with the usual exceptions, between points in the New York, N.Y. Commercial Zone, on the one hand, and, on the other, points in Bergen, Essex, Ocean, Hudson, Monmouth, Middlesex, Morris, Passaic, Somerset, Union, and Sussex Counties, N.J. A., David Millner, 744 Broad St., Newark, N.J. 07102, and Bernard J. Flynn, York-Flynn Building, East Blackwell St., Dover, N.J. 07801, attorneys for applicants.

V 39 N 250 DEC 27 1974 V

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

TEXTILE AND APPAREL CATEGORIES

Correlation With Tariff Schedules of United States Annotated

There is published below a list of the Tariff Schedules of the United States Annotated numbers specifying changes in the arrangement of the cotton, wool, and man-made fiber categories used by the United States in administering the textile trade agreements program. A full description of the textile and apparel products falling within each of the cotton, wool, and man-made fiber categories may be obtained by using the Tariff Schedules of the United States Annotated which also provides category placement for the item numbers covered by the program. The list of Tariff Schedules of the United States Annotated numbers published in the FEDERAL REGISTER on January 25, 1974 (39 FR 3430) is hereby amended effective January 1, 1975.

The complete, revised Correlation will appear in the FEDERAL REGISTER in early January 1975.

ALAN POLANSKY,
Acting Chairman, Committee for the Implementation of Textile Agreements, and Acting Deputy Assistant Secretary for Resources and Trade Assistance.

LIST OF THE TARIFF SCHEDULES OF THE UNITED STATES ANNOTATED NUMBERS SPECIFYING CHANGES IN THE ARRANGEMENT OF TEXTILE CATEGORIES USED BY THE UNITED STATES IN ADMINISTERING THE TEXTILE TRADE AGREEMENTS PROGRAM

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions, Modifications and Supersedeas Decisions

XUM

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

MODIFICATIONS AND SUPERSEDEAS DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payment since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

Group VII	6.50	.35	.25		.12
Group VIII	6.40	.35	.25		.12

POWER EQUIPMENT OPERATORS CLASSIFICATION DEFINITION

Group I
All crane type equipment with 100' of boom or over (including jib), all tower cranes and all crane type of 3 cu. yd. or more

Group II
Heavy duty mechanic; welder; crane hook and overhead monorail; whirley; panel board batch plant operator; derrick; piledriver; engineer; dragline; shovel; clamshell; backhoe; sideboom; gradall; hydro crane; cherry picker; hoists while operating 2 or more drums

Group III
Motor patrol (blade); dozer (engine h.p. 65 or over); Fordson tractor or like equipment with hoe or loader equipment or ditcher; scraper type equipment; Tournapull, DW 10, 15, 16, 20, 21 and similar rubber-tired equipment; Euclid, TS-24 and similar; loader operator or hi-lift (engine h.p. 65 or over); power driven hole digger; trenching machine; concrete pump-boom type

Group IV
Locomotive engineer; boring machine, tug boat; mixer, 18 cu. ft. and over; sand barge; dredging machine; tugger; hoist when operating one drum; welding machine, 3 to 6; air compressor, 3 to 6, 500 cu. ft. and under; air compressor, over 500 cu. ft. (1); pumps; battery, 3 to 6; fork-lift; bobcat and similar equipment; generator plant engineer, Diesel electric; winch trucks with A-frame; rollers all types; outside elevator or building or personnel hoist; concrete buster or tamper; heater under jurisdiction of operators; engineers, fireman; boiler operator; crushing plants; oiler distributor; pulvimixer; farmer tractor with or without attachments; batch plant operator (portable); conveyor operator-duel, continuous or belt bulk handling, screened operator; concrete pump; form grader; screening plant; well point pump operator; signal man on large whirleys when and if required, operator for rotary drilling machine when operated from console or machines

Group V
Permanant elevator - building type (automatic), concrete mixer, with hopper less than 18 cu. ft.; air compressor 500 cu. ft. and under (1 or 2); welding machine (1 or 2) fuelman; conveyor operator-single continuous belt bulk handling

Group VI
Greaser, tilt top trailer operator

Group VII
Asphalt lay machine back end man helpers

Group VIII
Truck crane oiler driver or truck crane oiler

Engineers for machine not listed under the above classifications shall receive the scale comparable to these classifications.

Engineers on all classifications when working in caverns or tunnels shall receive 25¢ per hour above listed rates.

TRUCK DRIVERS:					
Group I	5.20				
Group II	5.30				
Group III	5.40				
Group IV	5.35				
Group V	5.50				

TRUCK DRIVERS CLASSIFICATION DEFINITION

Group I
Pick-up, 1½ tons or 3½ yards and up to but not including 3 tons or 5 yards, such as dump trucks, flat beds, stake bodies and buses

Group II
3 tons or 4 yards and up to but not including 5 tons or 6 yards

Group III
5 tons or 6 yards and over including heavy equipment such as pole trucks, winch trucks, euclids, Mississippi wagons, semi-dumps, tournerpulls, or other heavy material moving equipment; tractor trailer drivers and similar equipment, such as tractors, ten wheelers

Group IV
Ready-mix concrete trucks up to but not including 8 yards

Group V
Ready-mix concrete trucks 8 yards and over

WELDERS - receive rate prescribed for craft performing operation to which welding is incidental.

NOTICES

POWER EQUIPMENT OPERATORS CLASSIFICATION DEFINITION

Group I
All crane type equipment with 100' of boom or over (incl. dits; jib), all tower cranes and all crane type of 3 cu. yd. or more

Group II
Heavy duty mechanic; welder; crane hook and overhead monorail; whirley; panel board batch plant operator; derrick; piledriver; engineer; dragline; shovel; clamshell; backhoe; sideboom; gradall; hydro crane; cherry picker; hoists while operating; 2 or more drums

Group III
Motor patrol (blade); dozer (engine h.p. 65 or over); Fordson tractor or like equipment with hoe or loader equipment or ditcher; scraper type equipment; Tournapull, DW 10, 15, 16, 20, 21 and similar rubber-tired equipment; Euclid, TS-24 and similar; loader operator or hi-lift (engine h.p. 65 or over); power driven hole digger; trenching machine; concrete pump-boom type

Group IV
Locomotive engineer; boring machine, tug boat; mixer, 18 cu. ft. and over; sand barge; dredging; machine; tugger; hoist when operating; one drum; welding machine, 3 to 6; air compressor, 3 to 6, 500 cu. ft. and under; air compressor, over 500 cu. ft. (1); pumps; battery, 3 to 6; fork-lift; bobcat and similar equipment; generator plant engineer, Diesel electric; winch trucks with A-frame; rollers all types; outside elevator or building or personnel hoist; concrete buster or tamper; heater under jurisdiction of operators; engineers, fireman; boiler operator; crushing plants; oiler distributor; pulvimixer; farmer tractor with or without attachments; batch plant operator (portable); conveyor operator-duel, continuous or belt bulk handling, screened operator; concrete pump; form grader; screening plant; well point pump operator; signal man on large whirleys when and if required, operator for rotary drilling machine when operated from console or machines

Group V
Permanant elevator - building type (automatic), concrete mixer, with hopper less than 18 cu. ft.; air compressor 500 cu. ft. and under (1 or 2); welding machine (1 or 2) fuelman; conveyor operator-single continuous belt bulk handling

Group VI
Greaser, tilt top trailer operator

Group VII
Asphalt lay machine back end man helpers

Group VIII
Truck crane oiler driver or truck crane oiler

Engineers for machine not listed under the above classifications shall receive the scale comparable to these classifications.

Engineers on all classifications working in caissons or tunnels shall receive 25¢ per hour above listed rates.

PAID HOLIDAYS:

A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Employer contributes $.86 per hour to Annuity Fund.
b. Holidays: A through F; Election Day; Employee's Birthday.
c. Holidays: A through F; Lincoln's Birthday; Washington's Birthday; Columbus Day; Election Day; Armistice Day.
d. Employees with 6 months or more but less than 5 years service receive 2 weeks vacation, 5 or more years of service receive 3 weeks.
e. Employees with 6 months or more but less than 5 years service receive 2 weeks vacation, 5 or more years but less than 15 years receive 3 weeks, 15 or more years receive 4 weeks.
f. Holidays: A through F; Washington's Birthday; Columbus Day; Election Day; Armistice Day; Lincoln's Birthday.
g. Holidays: A through F; Washington's Birthday; Christmas Eve and Good Friday, providing employee has worked 45 full days during the 120 calendar days prior to the holiday, and regular schedule work days immediately preceding and following the holiday.

FOOTNOTES: (Cont'd)

h. $3.50 per day contribution for each men to a special annuity fund.
j. Employer contributes $.857 to a Security Benefit Fund.
k. Employer contributes $.43 per hour to a Security Benefit Fund.
m. Employer contributes $7.00 per day to an Annuity Fund.
n. Holidays: A through F, Lincoln's Birthday; Washington's Birthday; Columbus Day; Election Day; Veteran's Day, providing the employee works two days in the calendar week in which the holiday falls and each remaining work day during such calendar week.
o. For each 15 days worked within the contract year an employee will receive one day's vacation with pay, with a maximum vacation of three weeks per year.
s. Holidays: B, C, D & E, Election Day, Columbus Day, providing employee works at least 1 day in the week in which the holiday occurs.
t. Holidays: A through F.
u. Employer contributes $.70 per hour to a combined Health & Welfare and Pension Fund.
v. Employer contribution of $.61 per hour to a Vacation Fund.
w. Employers contribute $.60 per hour to a Trust Fund.
x. Employers contribute $.15 per hour to an Annuity Fund.
z. Paid Holidays: New Year's Day, Christmas Day provided the employee works a full half day preceding the holiday.

THE NATIONAL ARCHIVES OF THE UNITED STATES • 1934 •

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

VINYL CHLORIDE EXPOSURE—Interior rules for testing and approving respiratory protective devices; effective 12–30–74 45012

TREASURY NOTES—Treasury announces interest rate on new notes 45059

AIRPLANE EMISSIONS—DOT/FAA issues rules prohibiting fuel venting from certain airplanes; effective 1–1–75 45008

HOME LOANS—USDA/FmHA revises regulations to expedite administration of program; effective 12–30–74 44992

MINORITY BIOMEDICAL SUPPORT PROGRAM—HEW/NIH proposes special grants; comments by 1–29–75 45042

FIRE EXTINGUISHERS—DOT/HMRB amends regulations concerning construction; effective 1–31–75 44989

FOOD ADDITIVE—HEW/FDA revokes order allowing residues of benzene hexachloride in paprika; effective 12–31–74 45011

NEW ANIMAL DRUGS—HEW/FDA approves use of robenidine hydrochloride in feeds; effective 12–30–74 45012

MEETINGS—

DoD: Defense Science Board Task Force on DoD Space Shuttle Utilization, Advisory Committee, 1–15 and 1–16–75 45059

FCC/RTCM: Special Committee No. 65, "Ship Radar", 1–15–75 45076

Collision Avoidance Working Group, 1–15–75 45076

Special Committee No. 66, "Receiver Standards for the Maritime Mobil Service", 1–15–75 45077

RTCM Executive Committee, 1–16–75 45077

FEA: Consumer Affairs and Special Impact Advisory Committee, 1–15 and 1–16–75 45077

GSA: Regional Public Advisory Panel on Architectural and Engineering Services, 1–13–75 45085

HEW/OE: Advisory Committee on the Education of Bilingual Children, 1–22 and 1–23–75 45059

Justice: Federal Advisory Committee on False Identification, 1–16–75 45059

SEC: Report Coordinating Group (Advisory), 1–10–75 45088

Advisory Committee on the Implementation of a central market system; 1–9 and 1–10–75 45086

VA: Advisory Committee on Structural Safety of VA Facilities, 1–17–75 45082

PART II:

LOW INCOME PUBLIC HOUSING—HUD establishes essential elements of Housing Assistance Payments Program; effective 1–1–75 45131

December 30, 1974—Pages 44935–45205

reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going into Effect Today

This list includes only rules that were published in the FEDERAL REGISTER after October 1, 1972.

page no. and date

Interior Department/BIA—Ahtanum Indian project; irrigation operation and maintenance..... 41534; 11–29–74

Toppenish-Simcoe Indian Irrigation project; operation and maintenance charges..... 41528; 11–29–74

Wapato Indian irrigation project; operation and maintenance charges. 41528; 11–29–74

FCC—Operation of Television broadcast stations by remote control; requirements..... 42365; 12–5–74

Labor Department/Sec.—Program consortia; comprehensive employment and training.

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5282. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

contents

AGRICULTURAL MARKETING SERVICE
Proposed Rules
Grain standards:
Retention of official file samples of grains; effective date... 45018
Expenses and rate of assessment:
Oranges (navel) grown in Arizona and designated parts of California ... 45019
Pears, plums and peaches (fresh) grown in California; changes in nominations of commodity committee members ... 45019

AGRICULTURE DEPARTMENT
See also Agricultural Marketing Service; Animal and Plant Health Inspection Service; Farmers Home Administration.
Rules
Procurement; miscellaneous amendments; correction ... 44980

ANIMAL AND PLANT HEALTH INSPECTION SERVICE
Rules
Quarantine areas:
Citrus black fly ... 44992
Scabies in cattle; correction ... 44958

ATOMIC ENERGY COMMISSION

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Republication of Amendments

Due to the large number of amendments which have been published to Part 213 of Title 5 of the Code of Federal Regulations, it has been determined that a republication without change would serve to set forth all published amendments in one codified statement. There is no substantive change in the provisions of this part. It is merely republished for the convenience of the users of the FEDERAL REGISTER and the Code of Federal Regulations. Therefore, Part 213 is revised to read as follows:

UNITED STATES CIVIL SERVICE COMMISSION,

[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

Subpart A—General Provisions

Sec.
213.101 Definitions.

AUTHORITY: The provisions of this Part 213 issued under 5 U.S.C. 3301, 3302; E.O. 10577, 3 CFR 1954–1958 Comp. p. 218.

Subpart A—General Provisions

§ 213.101 Definitions.

In this chapter:

(a) Excepted service has the meaning given that term by section 2103 of title 5, United States Code, and includes all positions in the executive branch of the Federal Government which are specifically excepted from the competitive service by or pursuant to statute, by the President, or by the Commission under § 6.1 or § 9.20 of the civil service rules (Subchapter A of this chapter).

(b) "Excepted position" means a position in the excepted service.

§ 213.102 Identification of positions in Schedule A, B, or C.

The Commission shall decide whether the duties of any particular position are such that it may be filled as an excepted position under Schedule A, B, or C.

Subpart B—[Reserved]

Subpart C—Excepted Schedules

SCHEDULE A

§ 213.3101 Positions other than those of a confidential or policy-determining character for which it is not practicable to examine.

(a) The positions enumerated in §§ 213.3102 to 213.3199 are positions other than those of a confidential or policy-determining character for which it is not practicable to examine and which are excepted from the competitive service and constitute Schedule A.

(b) An agency (including a military department) may not appoint the son or daughter of a civilian employee of that agency, or the son or daughter of a member of its uniformed service, to a position listed in Schedule A for summer or student employment within the United States. This prohibition does not apply to the appointment of persons (1) who are eligible for placement assistance under the Commission's Displaced Employee (DE) Program, (2) who are employed to meet urgent needs resulting from an emergency posing an immediate threat to life or property, or (3) who are members of families which are eligible to receive financial assistance under a public welfare program or the total income of which in relation to family size does not exceed limits established by the Commission and published in the Federal Personnel Manual.

(c) An agency may appoint for summer employment within the United States in positions listed in Schedule A only in accordance with the terms of the Commission's summer employment program. This restriction does not apply to positions that are excepted only when filled by particular types of individuals.

(d) In this section "summer employment" means any employment beginning after May 12 which will end before October 1 of the same year. "Student employment" means the employment of persons who are enrolled or who have been accepted for enrollment, on a substantially full-time basis, as resident students of a secondary school or of an institution of higher learning; a resident student, for this purpose, is a student in actual physical attendance at a school as distinguished from a correspondence student.

§ 213.3102 Entire executive civil service.

(a) Positions of Chaplain and Chaplain's Assistant.

(b) Cooks, except at fixed locations such as hospitals, quarantine stations, and penal institutions.

(c) Positions to which appointments are made by the President without confirmation by the Senate.

(d) Attorneys.

(e) Law clerk trainee positions. Appointments under this paragraph shall be confined to graduates of recognized law schools or persons having equivalent experience and shall be for periods not to exceed 14 months pending admission to the bar. No person shall be given more than one appointment under this paragraph. However, an appointment which was initially made for less than 14 months may be extended for not to exceed 14 months in total duration.

(f) Chinese, Japanese, and Hindu interpreters.

(g) Any position the duties of which are part-time or intermittent in which the appointee will receive compensation during his service year that aggregates not more than 40 percent of the annual salary rate for the first step of GS–3. This limitation on compensation includes any premium pay such as for overtime, night, Sunday, or holiday work. It does not, however, include any mandatory within-grade salary increases to which the employee becomes entitled subsequent to appointment under this authority. Appointments under this authority shall not be for job employment. In the metropolitan area of Washington, D.C., appointments under this authority shall be subject to the prior approval of the Commission.

(h) Subject to prior approval by the Commission, positions in Federal mental institutions when filled by persons who have been patients of such institutions and been discharged and are certified by the medical head thereof as recovered sufficiently to be regularly employed but it is believed desirable and in the interest of the persons and the institution that they be employed at the institution.

(i) Subject to prior approval of the Commission, positions requiring temporary, part-time, or intermittent employment in wage board type occupations (i.e., position excluded from Classification Act coverage by section 202(7) of the Act) on construction or repair work, where the activity is carried on in localities where examination coverage for the positions has not been provided and where because of employment conditions there is a shortage of available candidates for the positions. Appointments under this paragraph shall not extend beyond 1 year, and the employment thereunder shall not exceed 180 working days a year. Seasonal employments of a recurring nature are not authorized under this paragraph.

(j) Subject to approval of the Director of Selective Service, positions for which in the opinion of the Commission a local recruiting shortage exists when filled by individuals performing reconciliation service pursuant to Presidential Proclamation No. 4313 of September 16, 1974. Initial appointments under this authority may not exceed 1 year, and an initial appointment may be extended for one or more periods to a total of not to exceed 1 year. Such appointment may be further extended for one or more periods not to exceed 1 additional year. No person may serve under this authority longer than 2 years. No new appointments may be made under this authority after June 30, 1977.

(k) Positions without compensation provided appointments thereto meet the requirements of applicable laws relating to compensation.

(l) Positions requiring the temporary or intermittent employment of professional, scientific, or technical experts for consultation purposes.

(m) Nonsupervisory positions of custodial laborer (levels 1, 2, and 3) and general laborer (levels 2 and 3) in field establishments outside central office and regional office cities of the Commission where examination coverage has not been provided for the positions, as follows:

(1) For temporary, intermittent, or seasonal employment (exclusive of positions covered by paragraph (l) of this section) not to exceed 180 working days a year in the Departments of Agriculture, Commerce, and Interior, in the Federal Aviation Agency, and in the International Boundary and Water Commission; or

(2) When it is specifically held by the Commission that this authority is applicable, for employment in localities that are isolated with respect to labor supply and where there is a shortage of available candidates for the positions.

(n) Any local physician, surgeon, or dentist employed under contract or on a part-time or fee basis when, in the opinion of the Commission, appointment through competitive examination is impracticable.

(o) Positions of a scientific, professional, or analytical nature when filled by bona fide members of the faculty of an accredited college or university who have special qualifications for the positions to which appointed. Employments

under this provision shall not exceed 130 working days a year.

(p) Positions of a scientific, professional, or analytical nature when filled by bona fide graduate students at accredited colleges or universities provided that the work performed for the agency is to be used by the student as a basis for completing certain academic requirements toward a graduate degree. Employments under this provision may be continued only so long as the foregoing conditions are met, and the total period of such employment shall not exceed one year in any individual case: *Provided*, That such employment may, with the approval of the Commission, be extended for not to exceed an additional year.

(q) Postions at grade GS–7 and below when appointees are to assist scientific, professional, or technical employees. Persons employed under this provision shall be: (1) Bona fide high school science or mathematics teachers or (2) bona fide students at high schools or accredited colleges or universities who are pursuing courses related to the field in which employed. No person shall be employed under this provision in (i) positions of a routine clerical type or (ii) in excess of 1040 working hours a year; except that the 1040 working-hours-a-year limitation shall not apply to positions at grade GS–4 and below which are established in connection with associate degree cooperative education programs. Students enrolled in bachelor's degree cooperative education programs as defined in § 213.3202(a) of this Part shall not be employed under this provision. Appointments under this authority may be made only to positions for which qualification standards established under Part 302 of this chapter are consistent with the education and experience standards established for comparable positions in the competitive service.

(r) All positions of a project nature when filled by individuals the salaries for whom are paid out of funds allocated by the President under authority of Pub. L. 87–658, approved September 14, 1962, the Public Works Acceleration Act Employment under this authority shall be for a temporary period not to exceed one year.

(s) [Reserved]

(t) Positions when filled by mentally retarded persons in accordance with written agreements executed between an agency and the Commission. Provisions to be included in such agreements are specified in the Federal Personnel Manual.

(u) Subject to prior approval of the Commission, positions when filled by severely handicapped persons who (1) under temporary appointment, have demonstrated their ability to perform the duties satisfactorily; or (2) are certified by counselors of State Vocational Rehabilitation agencies or the Veterans Administration as likely to succeed in the performance of the duties.

(v) Temporary Summer Aid positions whose duties involve work of a routine nature not regularly covered under the General Schedule and requiring no specific knowledge or skills, when filled by youths appointed for summer employment under such economic or educational needs standards as the Commission may prescribe. A person may not be appointed unless he has reached his sixteenth but not his twenty-second birthday, or employed for more than 700 hours under this paragraph. This paragraph shall apply only to the positions whose pay is fixed at the equivalent of the highest minimum wage rate established by the Fair Labor Standards Act of 1938, as amended. However, during 1974 an agency shall not fix the pay at a rate less than that paid to Summer Aids by Federal agencies (other than the Postal Service) in the geographic area concerned in 1973.

(w) Part-time or intermittent positions the duties of which involve work of a routine nature when filled by students appointed in furtherance of the President's Youth Opportunity Stay-in-School Campaign and when the following conditions are met: (1) Appointees are enrolled in or accepted for enrollment in a resident secondary school or institution of higher learning, accredited by a recognized accrediting body; (2) employment does not exceed 16 hours in any calendar week (40 hours in any calendar week which falls within a vacation period); (3) while employed, appointees continue to maintain an acceptable school standing, although they need not attend school during the summer; (4) appointees need the earnings from the employment to continue in school; and (5) salaries are fixed by the agency head at a level commensurate with the duties assigned and the expected level of performance. Appointments under this authority may not extend beyond 1 year: *Provided*, That such appointments may be extended for additional periods of not to exceed 1 year each if the conditions for initial appointment are still met. A person may not be appointed under this authority unless he has reached his 16th but not his 22d birthday. No new appointments may be made under this authority between May 1 and August 31, inclusive.

(x) Subject to prior approval of the Commission, positions for which a local recruiting shortage exists when filled by inmates of Federal and District of Columbia penal and correctional institutions under work release programs authorized by the Prisoner Rehabilitation Act of 1965 and the District of Columbia Work Release Act. Initial appointments under this authority may not exceed one year. An initial appointment may be extended for one or more periods not to exceed one additional year each with the prior approval of the Commission upon a finding that the inmate is still in a work release status and that a local recruiting shortage still exists. No person may serve under this authority longer than one year beyond the date he is released from custody.

(y) Positions at grade GS–2 and below for summer employment, as defined in § 213.3101(d), of assistants to scientific, professional, and technical employees, when filled by finalists in national science contests under hiring programs approved by the Commission.

(z) Not to exceed 30 positions of assistants to top-level Federal officials when filled by persons designated by the President as White House Fellows.

(aa) Scientific and professional research associate positions at GS–11 and above when filled on a temporary basis by persons having a doctoral degree in an appropriate field of study for research activities of mutual interest to appointees and their agencies. Appointments are limited to persons referred by the National Research Council under its post-doctoral research associate program and may be made initially for 1 year only. An agency may extend an appointment made under this authority for up to 1 additional year when the program committee at the laboratory concerned determines that extension will benefit both the associate and the laboratory.

(bb) Subject to prior approval of the Commission, positions when filled by aliens in the absence of qualified citizens.

(cc) ositions at GS–15 and below when filled by persons identified as Interchange Executives by the President's Commission on Personnel Interchange. Appointments made under this authority may not extend beyond 2 years.

(dd) Positions at the grade GS–12 through GS–15 levels when filled by persons designated as Fellows under the Brookings Institution's Economic Policy Fellowship Program. Appointments made under this authority may not exceed 2 years in duration and no appointment may extend beyond June 30, 1975.

(ee) Positions in research and development facilities when filled for not to exceed 1 year by scientists and engineers appointed under a program of Presidential internships. No new appointments may be made under authority after December 31, 1975.

(ff) Not to exceed 25 positions when filled in accordance with an agreement between the Commission and the Department of Justice by persons in programs administered by the Attorney General of the United States under Pub. L. 91–452 and related statutes. A person appointed under this authority may continue to be employed under it after he ceases to be in a qualifying program only as long as he remains in the same agency without a break in service.

§ 213.3103 Executive Office of the President.

(a) *Office of Science and Technology.* (1) All professional positions on the Staff of the Office.

(b) [Reserved]

(c) *Council on Environmental Quality.* (1) Professional and technical positions in grades GS–13 through 15 on the staff of the Council.

(d) [Reserved]

(e) *Office of Telecommunications Policy.* (1) Professional positions in grades GS–13 through 15 on the staff of the Office.

(2) All positions assigned to the staff of the Domestic Council Committee on

DEC 30 1974 V 39 N 251 XUM

the Right of Privacy in grades GS–7 through GS–15.

(f) *Special Action Office for Drug Abuse Prevention.* (1) After December 1, 1973, all positions on the staff of the Special Action Office for Drug Abuse Prevention not filled in the competitive service or under another authority. No one may serve under this authority after June 30, 1975.

§ 213.3104 Department of State.

(a) *Office of the Secretary.* (1) Six physical science administration officers at GS–14 and above in International Scientific and Technological Affairs.

(2)–(4) [Reserved]

(5) Executive Officer, Executive Secretariat.

(b) [Reserved]

(c) *International Boundary and Water Commission, United States and Mexico.* (1) Gage readers employed part-time or intermittently at isolated localities when, in the opinion of the Commission, appointment through competitive examination is impracticable.

(d) *International Boundary Commission, United States and Canada.* (1) Temporary and intermittent field employees such as instrumentmen, foremen, recorders, packers, cooks, and axemen, for not to exceed 130 working days or 6 months within any 1 calendar year.

§ 213.3105 Department of the Treasury.

(a) [Reserved]

(b) *Bureau of Customs.* (1) Positions in foreign countries designated as "interpreter-translator" and "special employees," when filled by appointment of persons who are not citizens of the United States; and positions in foreign countries of messenger and janitor.

(2) [Reserved]

(3) Positions of part-time, intermittent, or temporary Customs Inspectors, and Port Directors in Alaska paid at a rate not above GS–9 and for not more than 130 working days in a service year.

(4) Positions of day "pickup" laborers whose assignments are to intermittent duties of short duration that must be performed without delay in field establishments where hiring of "pickup" laborers is authorized by the Bureau of Customs headquarters. Persons appointed under this authority may not be employed in this kind of work in the Bureau of Customs for more than 180 working days a year under this authority or under a combination of this authority and any other authority for excepted appointment that may be appropriate. This authority is not appropriate for job employment.

(5) Positions at GS–9 and below of Customs Enforcement Officer, Customs Inspector, Customs Marine Clerk/Officer, Customs Aid (sampling), Customs Warehouse Officer, Port Director, Interpreter, and Laborer, with duties of a continuing nature that require the part-time or intermittent service of an employee for not more than 700 hours in his service year. An individual appointed under this exception may not be employed in the Bureau of Customs under a combination of this and any other exception for more than 700 hours in his service year.

(6) Twenty-five positions of Criminal Investigator for special assignments.

(7) [Reserved]

(8) Staff assistant positions established to aid in the reorganization of the Bureau of Customs under Reorganization Plan No. 1 of 1965, when filled by persons with 1 year or more of current service as a Presidential appointee in a key position in the Bureau. No person may be employed under this paragraph in excess of 3 years.

(9) Not to exceed seven positions of Customs Patrol Officers in the Papago Indian Agency in the State of Arizona when filled by the appointment of persons of one-fourth or more Indian blood.

(c) *Office of Trade, Energy, and Financial Resources Policy Coordination.* (1) Not to exceed 10 positions at the equivalent of GS–13 through GS–17 to supplement the permanent staff in the study of complex problems relating to international trade and energy policies and programs of the Government, when filled by individuals with special qualifications for the particular study being undertaken. Employment under this authority may not exceed 4 years.

(d) [Reserved]

(e) *Internal Revenue Service.* (1) Twenty positions of investigator for special assignments.

(f) *Office of the Assistant Secretary for International Affairs.* (1) Not to exceed 10 positions in the Research and Planning Office at the equivalent of GS–13 through GS–17 to supplement the permanent staff in the study of complex problems relating to international financial and economic policies and programs of the Government, when filled by individuals with special qualifications for the particular study being undertaken. Employment under this authority may not exceed 4 years.

(g) *Bureau of Alcohol, Tobacco, and Firearms.* (1) Thirty positions of investigator for special assignments.

§ 213.3106 Department of Defense.

(a) *Office of the Secretary.* (1) Five Special Advisers in the immediate office of the Secretary or Deputy Secretary with responsibility for studies and recommendations in broad program areas. These positions have advisory rather than operating duties, except as operating or administrative responsibility may be exercised in connection with pilot studies.

(2) Positions assigned exclusively to Communications Intelligence Activities.

(3) Positions assigned to or in support of special classified training activities.

(4) Three Staff Assistants.

(5) Director, Intelligence Resources and Programs, OASD (Administration).

(6) One Executive Secretary, US-USSR Standing Consultative Commission and Staff Analyst (SALT), Office of the Assistant Secretary of Defense (International Security Affairs).

(b) *Entire Department (including the Office of the Secretary of Defense and the Departments of the Army, Navy, and Air Force).* (1) Professional positions in Military Dependent School Systems overseas.

(2) Positions in attache systems overseas, including all professional and scientific positions in the Naval Research Branch Office in London.

(3) Positions of clerk-translator, translator, and interpreter overseas.

(4) Positions of Educational Specialist the incumbents of which will serve as Director of Religious Education on the Staffs of the Chaplains in the military services.

(5) Positions under the program for utilization of alien scientists approved under pertinent directives administered by the Director of Defense Research and Engineering of the Department of Defense when occupied by alien scientists initially employed under the program including those who have acquired United States citizenship during such employment.

(6) Positions in overseas installations of the Department of Defense when filled by dependents of military or civilian employees of the Department resident in the area. Employment under this authority may not extend longer than 2 months following the transfer from the area or the separation of a dependent's sponsor: *Provided*, That (i) a school employee may be permitted to complete the school year; and (ii) an employee other than a school employee may be permitted to serve up to 1 additional year when the military department concerned finds the additional employment is in the interest of management.

(7) Positions assigned to all Cryptologic Intelligence Activities/Functions of the Military Departments.

(8) The Dean, Associate Dean, faculty members, and teaching/research assistant positions on the staff of the Uniformed Services University of the Health Sciences.

(c) *Interdepartmental Activities.* (1) Positions in support of National Security Programs and Space Council Activities.

(d) *General.* (1) Positions concerned with advising, administering, supervising or performing work in the collection, processing, analysis, production, evaluation, interpretation, dissemination, and estimation of intelligence information, including scientific and technical positions in the intelligence function; and positions involved in the planning, programming, and management of intelligence resources when, in the opinion of the Commission, it is impracticable to examine. This authority does not apply to positions assigned to Cryptologic and Communications Intelligence Activities/Functions.

§ 213.3107 Department of the Army.

(a) *General.* (1) Positions the duties of which are of a quasi-military nature and involve the security of secret or confidential matter when, in the opinion of the

Commission, appointment through competitive examination is impractical. This authority does not apply to positions assigned to Cryptologic Intelligence Activities/Functions.

(2) Unskilled laborers and munitions handlers engaged in handling Ordnance materiel, including ammunition, where temporary or intermittent employment is necessary.

(3) Student occupational therapist positions in Army hospitals. Appointments to these positions will not extend beyond the training period applicable to each individual case, which is a minimum of 3 months' training and a maximum of 12 months' training, depending upon the individual's previous clinical training.

(4) [Reserved]

(5) Positions assigned exclusively to Army Communications Intelligence Activities.

(6) Trainee student medical technologist (intern) positions at the Rodriguez Army Hospital, Fort Brooke, Puerto Rico. Appointments to these positions will not extend beyond the training period applicable to each individual case, depending upon the individual's previous clinical training. Employment under this provision may not exceed 1 year in any individual case: *Provided*, That such employment may, with the approval of the Commission, be extended for not to exceed an additional year. This authority shall be applied only to positions whose compensation is fixed in accordance with the provisions of section 3 of Pub. L. 90-350.

(7) [Reserved]

(8) Not to exceed 350 positions of members of treatment and counseling teams and related positions, such as those of ward attendants and occupational therapy assistants, to assist in the implementation of an alcohol and drug abuse prevention and control program, when filled by persons who have a history of alcoholism or drug addiction and who have been successfully treated.

(9) Positions of civilian technicians in an Army Reserve unit designated by the Department to participate in a special CONARC test program, when filled on a temporary basis by members of Reserve components who have military occupational specialties required for test purposes. No appointment may extend beyond September 30, 1974.

(b) *Transportation Corps.* (1) Longshoremen and stevedores employed at ports of embarkation in the United States; and all positions on vessels operated by the Transportation Corps.

(c) *Corps of Engineers.* (1) Land appraisers employed on a temporary basis for a period not to exceed 1 year on special projects where knowledge of local values or conditions or other specialized qualifications not possessed by appraisers regularly employed by the Corps of Engineers are required for successful results.

(2) Nonsupervisory positions of custodial laborer (levels 1, 2, and 3) and general laborer (levels 2 and 3) on survey, construction, short-term maintenance, or floating-plant operations, where because of turnover, lack of housing facilities, mobility of work site, or remoteness of personnel servicing facilities, an adequate labor force can be recruited only by immediate gate hiring on a local basis. This authority can be used only when the Commission has determined that it is specifically applicable to a given situation; ordinarily, it will not be used for employment in Civil Service central office, regional, and branch office cities or in cities where there is a local Board of U.S. Civil Service Examiners to service the employing establishment.

(3) Positions of Academic Director, Department Head, and Instructor at the U.S. Military Academy Preparatory School, Fort Belvoir, Va.

(d) *U.S. Military Academy, West Point, N.Y.* (1) Civilian professors, instructors, teachers (except teachers at the Children's School), hostesses, chapel organist and choirmaster, librarian when filled by an officer of the Regular Army retired from active service, and military secretary to the Superintendent when filled by a Military Academy graduate retired as a regular commissioned officer for disability.

(e) *National War College, Washington, D.C.* (1) Civilian directors of studies for employment of not to exceed 1 year: *Provided*, That such employment may, with the prior approval of the Commission, be extended for not to exceed 2 additional years.

(f) *Joint Brazil-United States Defense Commission.* (1) One position of clerk-stenographer-translator or civilian aide requiring a knowledge of English, Portuguese, and Spanish.

(g) *Defense Language Institute.* (1) Positions of instructors whose duties require proficiency in the teaching of a foreign language, and supervisory instructors whose duties require a background in language teaching.

(2) Clerk-Typist positions (except at the English Language School) whose incumbents are required to have a foreign language knowledge and whose duties require rapid and accurate typing of foreign language materials in foreign language script and proofreading of the materials typed.

(3) [Reserved]

(4) Foreign language instructor positions at local Army language training facilities established pursuant to the Defense Language Program.

(5) Positions which require a native proficiency in a given foreign language and whose incumbents serve as foreign language subject matter specialists to assist in the development and evaluation of instructional material and methods directly related to the teaching of foreign languages. Appointments under this authority are made initially for not to exceed 1 year, but may be extended for no more than 1 additional year with the prior approval of the Director, Defense Language Institute.

(h) *Army War College, Carlisle Barracks, Pa.* (1) One position of Educational Specialist for employment of not to exceed 1 year: *Provided*, That such employment may, with the prior approval of the Commission, be extended for not to exceed 1 additional year.

(i) *Defense Systems Management School, Fort Belvoir, Va.* (1) The Deputy Commandant and professors in grades GS-13 through 15.

§ 213.3103 Department of the Navy.

(a) *General.* (1) Intelligence and counterintelligence positions assigned to Naval Intelligence Activities/Functions, except positions in Cryptologic Intelligence Activities/Functions. Use of this authority outside the Naval Intelligence Command requires prior certification by the Commander, Deputy Commander, or Assistant Deputy Commander that the incumbent will perform duties concerned with the specific function in carrying out assigned responsibilities.

(2) [Reserved]

(3) [Reserved]

(4) Not to exceed 50 positions of resident-in-training at U.S. naval regional medical centers, hospitals, and dispensaries which have residency training programs, when filled by residents assigned as affiliates for part of their training from non-Federal hospitals. Assignments shall be on a temporary (full-time or part-time) or intermittent basis, shall not amount to more than 6 months for any person, and shall be applied only to persons whose compensation is fixed under 5 U.S.C. 5351-54.

(5) One Staff Assistant to the Naval Aide to the President.

(6) [Reserved]

(7) Positions of student social worker for temporary, part-time, or intermittent employment in U.S. naval regional medical centers, hospitals, and dispensaries, when filled by bona fide students enrolled in academic institutions: *Provided*, That the work performed in the agency is to be used by the student as a basis for completing certain academic requirements by such educational institution to qualify for a graduate degree in social work. This authority shall be applied only to students whose compensation is fixed under 5 U.S.C. 5351-54.

(8) Positions of student practical nurse for temporary, part-time, or intermittent employment in U.S. naval regional medical centers, hospitals, and dispensaries, when filled by trainees enrolled in a non-Federal institution in an approved program of educational and clinical training which meets the requirements for licensing as a practical nurse. This authority shall be applied only to trainees whose compensation is fixed under 5 U.S.C. 5351-54.

(9) One Personnel Security Specialist, Naval Personnel Program Support Activity, Bureau of Naval Personnel.

(10) Positions of medical technology intern in U.S. naval regional medical centers, hospitals, and dispensaries, when filled by students enrolled in approved programs of training in non-Federal institutions. Employment under this authority may be filled on a full-time, part-time, or intermittent basis but may not exceed 1 year. This authority shall be applied only to students whose compensation is fixed under 5 U.S.C. 5351-54.

(11) Positions of medical intern at U.S. naval regional medical centers, hospitals, and dispensaries, when filled by persons who are serving medical internships at participating non-Federal hospitals and whose compensation is fixed under 5 U.S.C. 5351–54. Employment under this authority may not exceed 1 year.

(12) Positions of student speech pathologist at U.S. naval regional medical centers, hospitals, and dispensaries, when filled by persons who are enrolled in participating non-Federal institutions and whose compensation is fixed under 5 U.S.C. 5351–54. Employment under this authority may not exceed 1 year.

(13) Positions of student dental assistant in U.S. naval dental centers, clinics, and departments, when filled by students who are enrolled in an approved dental assistant program in a participating non-Federal institution, and whose compensation is fixed under 5 U.S.C. 5351–54. Employment under this authority may not exceed 1 year.

(14) Not to exceed 100 positions of rehabilitation counselors and therapists in grades GS–3 through 11 to assist in the implementation of a drug rehabilitation program when filled by persons who have a history of drug addiction and who have been successfully treated. No new appointments may be made under this authority after July 31, 1973.

(15) Marine positions assigned to a coastal or seagoing vessel operated by a naval activity for research or training purposes.

(b) *Naval Academy, Naval Postgraduate School, and Naval War College.* (1) Professors, instructors, and teachers; and the librarian, organist-choirmaster, registrar, the dean of admissions, and social counselors at the Naval Academy.

(c) *Naval Home.* (1) Positions of orderly when filled by the appointment of beneficiaries of the Home.

(d) *Military Sealift Command.* (1) All positions on vessels operated by the Military Sealift Command.

(e) [Reserved]

(f) [Reserved]

(g) *Office of Naval Research.* (1) Not to exceed 5 positions of Liaison Scientist, GS–13/15, in the office of Naval Research Branch Office in Japan, when filled by research scientists who have specialized experience in scientific disciplines of current interest to the Department and who have a demonstrated ability to deal with the Japanese scientific community in their disciplines. An appointment under this authority may be made initially for a period not to exceed 2 years. With the prior approval of the Commission, total employment under this authority may be for as long as 3 years.

§ 213.3109 Department of the Air Force.

(a) *Office of the Secretary.* (1) Three Special Assistants in the Office of the Secretary of the Air Force. These positions have advisory rather than operating duties except as operating or administrative responsibilities may be exercised in connection with the pilot studies.

(b) [Reserved]

(c) [Reserved]

(d) *U.S. Air Force Academy, Colorado.* (1) Positions of Cadet Hostesses, Instructors in Physical Education, and two Instructors in Music (Choirmasters).

(e) *Air Force Systems Command.* (1) Not to exceed 12 positions of engineer, GS–14–15, at the Aeronautical Systems Division, Wright-Patterson Air Force Base, when filled on a temporary basis by persons serving under an agreement with aerospace contractors. Employment under this authority is limited to 4 years.

§ 213.3110 Department of Justice.

(a) *General.* (1) Deputy U.S. Marshals employed on an hourly basis for intermittent service.

(2) Positions of temporary deputy marshals in lieu of bailiff in the U.S. courts when employed on an intermittent basis.

(3) U.S. Marshal in the Virgin Islands.

(4) [Reserved]

(5) Thirty positions of Field Representative, GS–9 through GS–14, in the Community Relations Service for temporary or intermittent employment for not to exceed 130 working days a year.

(6) Not to exceed 20 positions of Field Representative Trainee, GS–5–7, in the Community Relations Service, for employment on college campuses for not to exceed 130 working days a year. Employment under this authority is limited to 1 year: *Provided*, That an appointment may be extended for one additional year with the prior approval of the Commission.

(b) *Immigration and Naturalization Service.* (1) Information Officer.

(2) Four positions of Regional Commissioner.

(c) *Drug Enforcement Administration.* (1) 154 special agent positions for undercover work.

§ 213.3112 Department of the Interior.

(a) *General.* (1) Temporary, intermittent, or seasonal positions in the field service of the Department of the Interior, when filled by the appointment of persons who are certified as maintaining a permanent and exclusive residence within, or contiguous to, a field activity or district, and as being dependent for livelihood primarily upon employment available within the field activity of the Department.

(2) All positions on Government-owned ships or vessels operated by the Department of the Interior.

(3) Temporary or seasonal caretakers at temporarily closed camps or improved areas to maintain grounds, buildings, or other structures and prevent damages or theft of Government property. Such appointments shall not extend beyond 130 working days a year without the prior approval of the Commission.

(4) Temporary, intermittent, or seasonal field assistants at GS–5, or its equivalent, and below in such areas as forestry, range management, soils, engineering, fishery and wildlife management, and with surveying parties. Employment under this authority shall not exceed 180 working days a year for positions at GS–4 and below in survey parties in the Bureau of Land Management and Geological Survey and shall not exceed 130 working days a year for other positions authorized under this subparagraph. This authority shall not apply to positions of field assistants engaged in fishery management work in Alaska.

(5) Temporary positions established in the field service of the Department for emergency forest and range fire prevention or suppression and blister rust control for not to exceed 180 working days a year: *Provided*, That an employee may work as many as 220 working days a year when employment beyond 180 days is required to cope with extended fire seasons or sudden emergencies such as fire, flood, storm, or other unforeseen situations involving potential loss of life or property.

(6) Persons employed in field positions, the work of which is financed jointly by the Department of the Interior and cooperating persons or organizations outside the Federal service.

(7) All positions in the Bureau of Indian Affairs and other positions in the Department of the Interior directly and primarily related to the providing of services to Indians when filled by the appointment of Indians who are one-fourth or more Indian blood.

(8) Subject to prior approval of the Commission, temporary, intermittent, or seasonal positions at GS–7 or below in Alaska, as follows: Positions in nonprofessional mining activities, such as those of drillers, miners, caterpillar operators, and samplers; and positions of field assistants engaged in fishery management work. Employment under this authority shall not exceed 180 working days a year and shall be appropriate only when the activity is carried on in a remote or isolated area, there is no Board of U.S. Civil Service Examiners to service the employing establishment, and there is a shortage of available candidates for the positions.

(9) Subject to prior approval of the Commission, temporary, part-time, or intermittent employment of mechanics, skilled laborers, equipment operators and tradesmen on construction, repair, or maintenance work for not to exceed 180 working days a year in Alaska, when the activity is carried on in a remote or isolated area, there is no Board of U.S. Civil Service Examiners to service the employing establishment, and there is a shortage of available candidates for the positions.

(10) Seasonal airplane pilots and airplane mechanics in Alaska, not to exceed 180 working days a year.

(b) *Bureau of Indian Affairs.* (1) Housekeeper positions at a gross salary not in excess of the entrance rate of grade GS–4 or its equivalent when, because of isolation or lack of quarters, appointment through competitive examination is, in the opinion of the Commission, impracticable.

(2) Subject to prior approval of the Commission, assistants in Alaska native schools (not including teachers and instructors) at a salary rate not in excess

of that of GS–4 or its equivalent where the schools are in isolated or remote areas or lack suitable quarters.

(c) *Indian Arts and Crafts Board.* (1) The Executive Director.

(d) *Bonneville Power Administration.* (1) Five Area Managers.

(e) *Office of Territories.* (1) The Clerk of the High Court of American Samoa.

(2) and (3) [Reserved]

(4) Special Assistants to the Governor of American Samoa who perform specialized administrative, professional, technical, and scientific duties as members of his immediate staff.

(f) *National Park Service.* (1) Park Ranger positions (appropriate specializations) at salaries equivalent to GS–5 or GS–4 and those equivalent to grade GS–7 or GS–6 in which the duties are supervisory or are limited to a highly specialized part of the duties performed by career protective or interpretive personnel of the National Park Service. (The total number of Park Ranger and Park Technician positions at salaries equivalent to GS–7 and GS–6 excepted under this subparagraph and subparagraph (2) of this paragraph shall not exceed 200.) Employment under this subparagraph is limited to persons who meet the qualification standards for each salary level which have been agreed upon by the Commission and the Department. These standards include as a minimum the following number of previous seasons' experience in the National Park Service as a Park Ranger at a salary equivalent to the next lower grade:

(i) For IGS–7: Two seasons at IGS–6 level.

(ii) For IGS–6: Two seasons at IGS–5 level.

(iii) For IGS–5: One season at IGS–4 level.

Employment under this subparagraph shall be only for duty that is temporary, intermittent, or seasonal, and no person shall be employed by the same appointing office in the National Park Service under this subparagraph or a combination of this and any other excepting authorities in excess of 180 working days a year.

(2) Park Aid and Park Technician positions at salaries equivalent to GS–2 through GS–5 to perform technical and practical work supporting the management, conservation, interpretation, development, and use of park areas and resources; and positions at salaries equivalent to GS–7 and GS–6 in which the duties are supervisory or are limited to a highly specialized part of the duties performed by career resources management, interpretive or visitor service personnel of the National Park Service. (The total number of Park Technician and Park Ranger positions at salaries equivalent to GS–7 and GS–6 excepted under this subparagraph and subparagraph (1) of this paragraph shall not exceed 200.) Employment under this subparagraph is limited to persons who meet the qualification standards for each salary level which have been agreed upon by the Commission and the Department. These standards include as a minimum the following number of previous seasons' experience in the National Park Service as a Park Aid or Park Technician equivalent to the next lower grade:

(i) For IGS–7: Two seasons at IGS–6 level.

(ii) For IGS–6: Two seasons at IGS–5 level.

(iii) For IGS–5: One season at IGS–4 level.

(iv) For IGS–4: One season at IGS–3 level or its equivalent in experience.

(v) For IGS–3: One season at IGS–2 level or its equivalent in experience.

Employment under this subparagraph shall be only for duty that is temporary, intermittent, or seasonal, and no person shall be employed by the same appointing office in the National Park Service under this subparagraph or a combination of this and any other excepting authorities in excess of 180 working days a year.

(g) *Bureau of Reclamation.* (1) Appraisers and examiners employed on a temporary, intermittent, or part-time basis on special valuation or prospective-entrymen-review projects where knowledge of local values or conditions or other specialized qualifications not possessed by regular Bureau employees are required for successful results. Employment under this provision shall not exceed 130 working days a year in any individual case: *Provided*, That such employment may, with prior approval of the Commission, be extended for not to exceed an additional 50 working days in any single year.

(h) *Office of the Deputy Assistant Secretary for Territorial Affairs.* (1) Positions of Territorial Management Interns, GS–5, when filled by persons selected by the Government of the Trust Territory of the Pacific Islands. No appointment may extend beyond 1 year.

§ 213.3113 Department of Agriculture.

(a) *General.* (1) Agents employed in field positions the work of which is financed jointly by the Department and cooperating persons, organizations, or governmental agencies outside the Federal service. Except for positions for which selection is jointly made by the Department and the cooperating organization, this authority is not applicable to positions in the Agriculture Research Service, the Animal and Plant Health Inspection Service, or positions in the Statistical Reporting Service. This authority is not applicable to the following positions in the Agricultural Marketing Service: Agricultural Commodity grader (grain) and (meat), (poultry), and (dairy) agricultural commodity aid (grain), and tobacco inspection positions.

(2) Any local veterinarian employed on a fee basis or a part-time basis.

(3) Not to exceed 25 professional, scientific, or technical positions in grade GS–7 or higher to be filled on an exchange basis by qualified employees on the rolls of State governments, colleges, or universities, for a limited period not to exceed 1 year.

(4) [Reserved]

(5) Temporary, intermittent, or seasonal employment in the field service of the Department in positions at and below GS–7 and WG–10 in the following types of positions: Field assistants for subprofessional services; caretakers at temporarily closed camps or improved areas; field enumerators and supervisors; forest workers engaged primarily for fire prevention or suppression activities and other forest workers employed at headquarters other than forest supervisor and regional offices; State performance assistants in the Agricultural Stabilization and Conservation Service; collectors of the Farmers Home Administration; agricultural commodity aids (cotton) in the Agricultural Marketing Service; agricultural helpers, helper-leaders, and workers in the Agricultural Research and the Animal and Plant Health Inspection Service; and, subject to prior Commission approval granted in the calendar year in which the appointment is to be made, other clerical, trades, crafts, and manual labor positions. Total employment under this subparagraph may not exceed 180 working days in a service year: *Provided*, That an employee may work as many as 220 working days in a service year when employment beyond 180 days is required to cope with extended fire seasons or sudden emergencies such as fire, flood, storm, or other unforeseen situations involving potential loss of life or property. This paragraph does not cover trades, crafts, and manual labor positions covered by paragraphs (l) and (m) of § 213.3102.

(6) Not to exceed eight positions whose incumbents serve on an intermittent or temporary basis as field representatives of the Department of Agriculture and in this capacity represent the Department's Disaster Committee in conducting surveys and appraisals of conditions in areas whose status as "major disaster" areas under Pub. L. 81–875, is under consideration. Employment under this authority shall not exceed 130 working days a year.

(7) [Reserved]

(8) Not to exceed 10 positions directly concerned with programs of the Department for employment of Cuban refugees possessing college-level training appropriate for such positions. No new appointments may be made under this authority after December 31, 1968.

(9) Not to exceed 15 positions of Program Assistant GS–12 through 15 when filled by persons whose current service in agricultural programs of the Department at the State level has provided specialized knowledge and experience needed by the Department for the more efficient administration of its programs. No new appointments may be made under this authority after June 30, 1970.

(b) *Office of the Secretary.* (1) Special Livestock Loans Committeemen employed for not more than 180 working days a year, to approve and direct the servicing of emergency livestock loans.

(2) The positions of the two members and two alternate members of the Board of Forest Appeals which must be filled under departmental regulation by persons who have not been Federal employees for 2 years before appointment. Employment under this exception

shall be on a when-actually-employed basis.

(c) *Forest Service.* (1) Temporary, intermittent, or seasonal positions when filled by the appointment of persons who are certified as maintaining a permanent and exclusive residence within, or contiguous to, a national forest and as being dependent for livelihood primarily upon employment available within the national forest.

(2) Positions in Alaska of Laborers, Boat Operators, Mechanics, Equipment Operators, and Carpenters whose duties require the operation of boats in coastal waters and/or the establishment and maintenance of work camps in remote areas.

(d) *Agricultural Stabilization and Conservation Service.* (1) Six Area Directors above GS–14.

(2) Members of State Committees.

(3) State Executive Directors.

(e) *Farmers Home Administration.* (1) State committeemen to consider, recommend, and advise with respect to the Farmers Home Administration program.

(2) County committeemen to consider, recommend, and advise with respect to the Farmers Home Administration program.

(3) Temporary positions whose principal duties involve the making and servicing of emergency loans pursuant to current statutes authorizing emergency loans. Appointments under this provision shall not exceed 1 year unless extended with the prior approval of the Commission for additional periods not to exceed 1 year each.

(4) State Directors and not to exceed three positions of State Director-at-Large.

(5) Temporary positions in State and county offices of the Farmers Home Administration whose principal duties involve the making and servicing of loans pursuant to the Economic Opportunity Act of 1964. Appointments under this provision shall not exceed 1 year unless extended with prior Commission approval for not to exceed 1 additional year.

(f) *Agricultural Marketing Service.* (1) Positions of cotton classers GS–9 and below, clerks GS–2, supervisory clerks GS–3, and laborers, employed on a seasonal basis in cotton-classing offices outside the Washington, D.C. Metropolitan Area. Employment under this authority (or under a combination of this authority and any other excepting authority) shall not exceed 1,280 hours a year in the case of cotton classers and laborers, and 1,040 hours a year in the case of clerks; except that a GS–5 cotton classer may be employed as a trainee during his first appointment for an initial period of 6 months for training purposes without regard to the above time limitation.

(2) [Reserved]

(3) Milk Market Administrators.

(4) All positions on the staffs of Milk Market Administrators.

(5) Positions of agricultural commodity graders (processed fruits and vegetables), GS–9 and below, and of graders' aides (processed fruits and vegetables), GS–2–4, for temporary employment on a part-time or intermittent basis for not to exceed 1,280 hours a year.

(6) Temporary positions at GS–9 and below of agricultural commodity graders (poultry) and agricultural commodity graders (dairy). Employment under this authority may not exceed 1,280 hours a year.

(g) *Agricultural Research Service.* (1) Field employees on programs conducted under the terms of cooperative agreements or memorandums of understanding with States or other non-Federal cooperating organizations, provided the employees are jointly selected and their salary is supplied by the cooperators on the basis of not less than a 40-percent contribution by each of the cooperators.

(h) *Foreign Agricultural Service.* (1) Agricultural Attaché positions at grade GS–16 and above where the duties require that the major portion of the employee's time be spent in foreign countries.

(i) [Reserved]

(j) *Food and Nutrition Service.* (1) Temporary positions in grade GS–4 and below, and the wage system equivalents, whose principal duties involve the distribution of food to needy families at Federal Commodity Distribution Centers. After June 30, 1971, appointments under this authority may be made only to replace employees on the rolls as of that date, or their successors.

(k) *Animal and Plant Health Inspection Service.* (1) Field employees on programs conducted under the terms of cooperative agreements or memorandums of understanding with States or other non-Federal cooperating organizations, provided the employees are jointly selected and their salary is supplied by the cooperators on the basis of not less than a 40-percent contribution by each of the cooperators.

(2) Temporary field positions concerned with the control, suppression, and eradication of emergency livestock diseases. Persons appointed under this authority may not be employed in these positions in the Animal and Plant Health Inspection Service for longer than 1 year under this authority, or under a combination of this and any other authorities for excepted appointment that may be appropriate, without prior approval of the Commission. This authority shall be appropriate only in situations declared by the Secretary of Agriculture to be emergencies threatening the livestock industry of the country.

(3) Positions of meat and poultry inspectors (veterinarians at GS–11 and below and nonveterinarians at appropriate grades below GS–11) for employment on a temporary, intermittent, or seasonal basis, not to exceed 1,280 hours a year.

§ 213.3114 Department of Commerce.

(a) *General.* (1) Agents to take and transmit meteorological observations in connection with aviation who are employed on a part-time basis and whose compensation is based on a fee for each observation performed rather than on an hourly or per annum basis: *Provided*, That the number of observations shall not exceed a daily average of 12 during any calendar month.

(2) Employment of individuals, firms, or corporations for not to exceed 1 year for special statistical studies and statistical compilations, other than Personal Census Records Service, the compensation for which is derived from funds deposited with the United States under the Act of May 27, 1935 (49 Stat. 292): *Provided*, That such employments may, with the approval of the Commission, be extended for not to exceed an additional year.

(3) Not to exceed 50 scientific and technical positions whose duties are performed primarily in the Antarctic. Incumbents of these positions may be stationed in continental United States for periods of orientation, training, analysis of data, and report writing.

(b) *Office of the Secretary.* (1) [Reserved]

(2) One Civil Aviation Specialist.

(3) One Advisor on Equal Employment Opportunity.

(c) *Coast and Geodetic Survey.* (1) All civilian positions on vessels operated by the Coast and Geodetic Survey.

(2) Temporary positions required in connection with the surveying operations of the field service of the Coast and Geodetic Survey. Appointment to such positions shall not exceed 8 months in any 1 calendar year.

(d) *Bureau of the Census.* (1) Supervisors, assistant supervisors, supervisors' clerks, and enumerators in the field service, other than Current Program Interviewers, for temporary, part-time, or intermittent employment for not to exceed 1 year: *Provided*, That such appointments may be extended for additional periods of not to exceed 1 year each; but that prior Commission approval is required for extension for longer than 1 year.

(2) Current Program Interviewers employed on an intermittent basis in the field service.

(3) [Reserved]

(e)–(g) [Reserved]

(h) *Maritime Administration.* (1) Public Information Officer.

(2)–(4) [Reserved]

(5) The positions of Chief Investigator and Security Officer and Deputy Chief Investigator and Security Officer.

(6) All positions on Government-owned vessels or those bareboats chartered to the Government and operated by or for the Maritime Administration.

(7) [Reserved]

(8) One Special Assistant to the Administrator (Tanker Advisor).

(9) Two Special Assistants to the Deputy Administrator.

(10) U.S. Merchant Marine Academy, positions of: Professors, instructors, and teachers; including heads of the Departments of Physical Training and Athletics, Ships, Medicine, Ship Management, History and Languages, Mathematics and Science, Nautical Science and Engineering; the Regimental Officer; the Drill and Activities Officers; the

Band and Activities Officer; six Company Officers; and the Assistant Commandant of Cadets.

(11) U.S. Merchant Marine Academy, positions of: The Superintendent; the Executive Officer and Assistant Superintendent; Dean; Registrar and Educational Services Officer; Educational Specialist (Administration) (Assistant Dean); Alumni Records Officer and Placement Director; Librarian; the Special Assistant to the Superintendent; three Academy Training Representatives; and one Shipboard Training Assistant.

(i) *Office of the Assistant Secretary for Domestic and International Business.* (1) Thirty positions at GS–12 and above in specialized fields relating to international trade or commerce in the Bureau of International Commerce or in other units under the jurisdiction of the Assistant Secretary for Domestic and International Business. Incumbents will be assigned to advisory rather than to operating duties, except as operating and administrative responsibility may be required for the conduct of pilot studies or special projects. Employment under this authority will not exceed 2 years for any individual appointee.

(2) Not to exceed 40 positions of Managers and Deputy Managers of International Trade Fairs and Exhibit Programs in foreign countries when the duties require a considerable portion of the employee's time to be spent in foreign countries.

(3) Not to exceed 30 positions in grades GS–12 through GS–15, to be filled by persons qualified as industrial or marketing specialists, who possess specialized knowledge and experience in industrial production, industrial operations and related problems, market structure and trends, retail and wholesale trade practices, distribution channels and costs, or business financing and credit practices applicable to one or more of the current segments of U.S. industry served by the Assistant Secretary for Domestic and International Business, and the subordinate components of his organization which are involved in Domestic Business matters. Appointments under this authority may be made for a period of not to exceed two years and may, with prior approval of the Commission, be extended for an additional period of two years.

(j) *Environmental Science Services Administration.* (1) Subject to prior approval of the Commission, which shall be contingent upon a showing of inadequate housing facilities, meteorological aid positions at the following stations in Alaska: Barrow, Bethal, Kotzebue, McGrath, Northway, and St. Paul Island.

(2) Cook positions on Swan Island.

§ 213.3115 Department of Labor.

(a) *Office of the Secretary.* (1) Chairman and two members, Employees' Compensation Appeals Board.

(2) Chairman and two members, Benefits Review Board.

(b) *Bureau of Labor Statistics.* (1) Part-time and intermittent employment for field survey and enumeration work in the Bureau of Labor Statistics. This authority is applicable to positions where the salary is equivalent to GS–5 and below. Employment within the Bureau of Labor Statistics under this authority, or a combination of this authority and any other authorities for excepted appointment, shall not exceed:

(i) 180 working days a year for positions at GS–5;

(ii) 130 working days a year for positions at GS–4 and below.

The total number of appointments at GS–5 shall not exceed 75. Appointments at the GS–3 and GS–4 grade levels are not limited in number.

(c) *Office of Federal Contract Compliance.* (1) All positions at GS–15 and below involving performance of the functions of the program known as "Plans for Progress."

(d) *Manpower Administration.* (1) Not to exceed 10 positions of Manpower Development Officer and Manpower Development Specialist in the Division of Indian Manpower Programs when filled by the appointment of persons one-fourth or more Indian blood. These positions require direct contact with Indian tribes and communities in the development and administration of comprehensive manpower training and employment programs.

§ 213.3116 Department of Health, Education, and Welfare.

(a) *National Center for Mental Health Services, Training and Research.* (1) Three Medical Officers (Surgical Resident).

(2) Student Medical Interns for temporary or part-time employment.

(3) Temporary positions of graduate nurses appointed as students for the purpose of receiving 12 weeks of training equivalent to psychiatric affiliation. This authority shall be applied only to positions whose compensation is fixed in accordance with the provisions of section 3 of Pub. L. 80–330.

(4) Three positions of Medical Officers (Radiology Resident): *Provided,* That employment under this authority shall not exceed 1 year, except that selected residents may be nominated and reappointed for an additional year of training when the parent hospital determines that the supplemental training will meet the specialized needs of the individual resident.

(5) Eight positions of psychodrama trainees, including interns and first- and second-year residents. This authority shall be applied only to positions with compensation fixed under 5 U.S.C. 5351 and 5352.

(6) Two Medical Officers (Anatomical Pathology Resident) for not to exceed 2 years' employment in the case of any one individual.

(7) Three Medical Officers (Internal Medicine Resident) for not to exceed 3 months' employment in the case of any one individual.

(8) Four positions of Medical Officer (Physical Medicine and Rehabilitation Resident): *Provided,* That employment under this authority shall not exceed 1 year, except that selected residents may be nominated and reappointed for an additional year of training when the parent hospital determines that the supplemental training will meet the specialized needs of the individual resident. Initial appointments may be made at any level within the 3-year residency as approved by the American Medical Association.

(9) Positions of Chaplain Residents: *Provided,* That employment under this authority shall not exceed 39 months for any individual. This authority shall be applied only to positions whose compensation is fixed in accordance with the provisions of 5 U.S.C. sections 5351 and 5352.

(10) One position of Medical Officer (Ophthalmology Resident) when filled by persons whose compensation is fixed under 5 U.S.C. 5351–5356. Employment under this authority may not exceed 4 months.

(b) *Public Health Service.* (1) Special escorts to accompany patients of the Public Health Service in accordance with existing laws and regulations. Employment under this subparagraph shall be only for the period of time necessary for the escort to deliver the patient to his destination and to return.

(2) Positions at Government sanatoria when filled by patients during treatment or convalescence.

(3) All positions in leprosy investigation stations.

(4) Positions concerned with problems in preventive medicine financed or participated in by the Department of Health, Education, and Welfare and a cooperating State, county, municipality, incorporated organization, or an individual in which at least one-half of the expense is contributed by the cooperating agency either in salaries, quarters, materials, equipment, or other necessary elements in the carrying on of the work.

(5) Medical and dental interns, externs, and residents; and student nurses.

(6) Positions of scientific, professional, or technical nature when filled by bona fide students enrolled in academic institutions: *Provided,* That the work performed in the agency is to be used by the student as a basis for completing certain academic requirements required by an educational institution to qualify for a scientific, professional, or technical field: *And provided further,* That appropriate exclusions of the positions under the authority of Pub. L. 80–330 have been approved by the Civil Service Commission.

(7) Student Dietitians and Resident Physicians at Freedman's Hospital.

(8) Positions directly and primarily related to the providing of services to Indians when filled by the appointment of Indians who are one-fourth or more Indian blood.

(9) Not to exceed 30 positions of clerical assistants employed on a part-time and intermittent basis to aid cooperating clinicians in non-Federal tuberculosis sanatoria in the keeping of records

(11) Until June 30, 1976, four Project

DEC 31 1974 V 39 NO 251 XUM

and the preparation of reports in connection with research studies into the effectiveness of antimicrobial agents in the treatment of tuberculosis. Persons appointed under this authority may not be employed in this kind of work in the Public Health Service for more than 180 working days in a single year under this authority or under a combination of this and any other authority for excepted appointment that may be appropriate.

(c) *Office of Education.* (1) Positions concerned with problems in education financed and participated in by the Office of Education, Department of Health, Education, and Welfare, and a cooperating State educational agency, or university or college, in which there is joint responsibility for selection and supervision of employees, and at least one-half of the expense is contributed by the cooperating agency in salaries, quarters, materials, equipment, or other necessary elements in the carrying on of the work.

(d) *Social Security Administration.* (1) Six positions of social insurance representative in the district offices of the Social Security Administration in the State of Arizona when filled by the appointment of persons of one-fourth or more Indian blood.

(2) Seven positions of social insurance representative in the district offices of the Social Security Administration in the State of New Mexico when filled by the appointment of persons of one-fourth or more Indian blood.

(3) Two positions of social insurance representative in the district offices of the Social Security Administration in the State of Alaska when filled by the appointment of persons of one-fourth or more Alaskan Native blood (Eskimos, Indians, or Aleuts).

(e) *General.* (1) Not to exceed 40 positions in medical and related occupations for employment under the Cuban refugee program. No new appointments may be made after December 31, 1968.

(f) *The President's Council on Physical Fitness.* (1) Three staff assistants, The President's Council on Physical Fitness.

(g) *Social and Rehabilitation Administration.* (1) Not to exceed 195 positions directly concerned with programs conducted by the Department in connection with the problems of Cuban refugees: *Provided,* That new appointments shall be limited to Cuban refugees.

(h) *National Institute of Mental Health—Health Services and Mental Health Administration.* (1) Positions in the National Institute of Mental Health involving performance of various therapeutic and service assignments under a rehabilitation program concerned with the treatment of drug addicts, when filled by persons who have a history of drug addiction and who have been successfully treated.

(i) *National Center for Health Statistics.* (1) Not to exceed 20 positions of Health Examination Representative, grades GS–7 and 9, serving on Health and Nutrition Examination Survey teams of the Division of Health Examination Statistics.

§ 213.3118 Environmental Protection Agency.

(a) Not to exceed 12 positions of Sanitation Facility Trainees, WG–1 through 5, to implement the Alaska Village Demonstration Projects under the Water Quality Improvement Act of 1970. Employment under this authority may not exceed 2 years.

§ 213.3121 National Security Council.

(a) All positions on the staff of the Council.

§ 213.3123 Cabinet Committee on Opportunities for Spanish-Speaking People.

(a) All positions on the committee staff.

§ 213.3124 Board of Governors, Federal Reserve System.

(a) All positions.

§ 213.3126 Office of Emergency Preparedness.

(a) One Field Representative, Resource Readiness Office.

§ 213.3127 Veterans Administration.

(a) *Construction Division.* (1) Temporary construction workers paid from "purchase and hire" funds and appointed for not to exceed the duration of a construction project.

(b) Not to exceed 300 positions of rehabilitation Counselors, GS–3 through GS–11, in drug and alcoholic treatment units when filled by former patients.

§ 213.3128 U.S. Information Agency.

(a) Two Liaison Officers (Congressional) in the Office of the General Counsel.

(b) One Chief of Religious Information.

§ 213.3129 Federal Power Commission.

(a) Three special assistants to the Commission.

§ 213.3130 Securities and Exchange Commission.

(a) Director, Division of Corporation Finance; Director, Division of Corporate Regulation; Director, Division of Trading and Markets.

(b) Nine positions of Regional Administrator.

(c) Positions of accountant and auditor, GS–13 through 15, when filled by persons selected under the SEC accounting fellow program. No more than two positions may be filled under this authority at any one time. An employee may not serve under this authority longer than 2 years.

§ 213.3132 Small Business Administration.

(a) When the President under 42 U.S.C. 1855–1855g, or the Secretary of Agriculture under 7 U.S.C. 1961 or the Small Business Administration under 15 U.S.C. 636(b)(1), declares an area to be a disaster area, positions filled by temporary appointment of employees to make and administer disaster loans in that area under the Small Business Act, as amended, for the duration of the disaster. Original appointments may not exceed 2 years and no employee may serve under this authority for longer than 2 years without the Commission's prior approval.

(b) [Reserved]

(c) Position of Community Economic-Industrial Planner, GS–7 through 12, when filled by local residents who represent the interest of the groups to be served by the Minority Enterpreneurship Teams of which they are members.

§ 213.3133 Federal Deposit Insurance Corporation.

(a) All field positions concerned with the work of liquidating the assets of closed banks or the liquidation of loans to banks, and all temporary field positions the work of which is concerned with paying the depositors of closed insured banks.

(b) One position of Chief Clerk in the San Juan, P.R., office.

§ 213.3135 National Capital Housing Authority.

(a) Executive Director.

(b) Positions of teachers engaged on a part-time or intermittent basis in the instruction of trainees enrolled in training programs on the maintenance and repair of buildings and grounds.

(c) Until December 31, 1975, one position of Chairman, Resident Involvement Workgroup, with responsibility for encouraging tenant participation in the development of a management system.

(d) Until March 1, 1976, seven positions, including two trainee positions, of Resident Housing Manager in an experimental demonstration program of public housing management improvement.

§ 213.3136 U.S. Soldiers' and Airmen's Home.

(a) All positions.

§ 213.3137 General Services Administration.

(a) *General.* (1) Custodians, guards, watchmen, laborers, and other employees engaged in the custody, care, and preservation of plants, warehouses, shipyards, airfields, and surplus facilities of a similar nature pending disposition of such facilities.

(b) *Public Buildings Service.* (1) One Receptionist—Guide, Region 9.

§ 213.3138 [Reserved]

§ 213.3139 U.S. Tariff Commission.

(a) The Secretary of the Commission.

§ 213.3141 National Labor Relations Board.

(a) Election Clerks and Election Examiners for temporary, part-time or intermittent employment in connection with elections under the Labor Management Relations Act.

§ 213.3142 Export-Import Bank of the United States.

(a) Three Special Assistants to the Board of Directors, grade GS–14 and above, with responsibility for carrying

out special overseas assignments for the Board.

§ 213.3143 Farm Credit Administration.

(a) Federal Land Bank Association receivers and conservators.

(b) Not to exceed seven positions in the Credit Services of the Farm Credit Administration in grades GS–13 or above, requiring technical or administrative experience in the field of agricultural credit: *Provided*, That this authority may be used only when making appointments of persons who have acquired such experience in the Farm Credit Administration or in one or more of the institutions supervised by the Farm Credit Administration.

§ 213.3146 Selective Service System.

(a) State Directors.

(b) Deputy or Assistant State Directors and State Medical Officers in State Headquarters.

(c) [Reserved]

(d) Executive Secretary, National Selective Service Appeal Board.

§ 213.3147 Federal Mediation and Conciliation Service.

(a) Executive Secretary of a Board of Inquiry appointed under section 206 of the Labor-Management Relations Act of 1947 (29 U.S.C. 176).

§ 213.3148 National Aeronautics and Space Administration.

(a) One hundred fifty alien scientists having special qualifications in the fields of aeronautical and space research where such employment is deemed by the Administrator of the National Aeronautics and Space Administration to be necessary in the public interest.

(b) Forty scientific specialists to be engaged on special research projects.

(c) [Reserved]

(d) Ten medical officer positions for employment of third year medical residents in the field of aerospace medicine. An individual may not be employed more than one year under this exception.

§ 213.3149 Panama Canal Company.

(a) All positions on vessels operated by the Panama Canal Company.

§ 213.3152 U.S. Government Printing Office.

(a) One Umpire.

(b) Positions in the printing trades when filled by students majoring in printing technology employed under a cooperative education agreement with the Washington Technical Institute.

§ 213.3153 District of Columbia Government.

(a) Positions of noneducational employees of the Board of Higher Education, the Board of Vocational Education, the Federal City College, and the Washington Technical Institute.

§ 213.3154 Federal Home Loan Bank Board.

(a) One Secretary, Federal Home Loan Bank Board.

(b) [Reserved]

(c) All temporary field positions in the Federal Savings and Loan Insurance Corporation concerned with the work of liquidating the assets of closed insured institutions, or the liquidation of loans or the handling of contributions to insured institutions and the purchase of assets therefrom, and all temporary field positions of the Federal Savings and Loan Insurance Corporation the work of which is concerned with paying the depositors of closed insured institutions.

§ 213.3156 Commission on Civil Rights.

(a) Until June 30, 1976, 25 positions at grade GS–11 and above of employees who collect, study, and appraise civil rights information to carry out the national clearinghouse responsibilities of the Commission under Pub. L. 88–352, as amended.

§ 213.3157 National Credit Union Administration.

(a) Liquidation Agents employed on a temporary or intermittent basis in the field.

§ 213.3158 Franklin Delano Roosevelt Memorial Commission.

(a) All positions on the staff of the Commission.

§ 213.3161 James Madison Memorial Commission.

(a) One Executive Secretary.

§ 213.3162 National Aeronautics and Space Council.

(a) All positions.

§ 213.3165 President's Advisory Committee on Labor-Management Policy.

(a) One Assistant Executive Director.

§ 213.3170 Civil Service Commission.

(a) Persons employed on a WAE basis to serve as members of the International Organizations Employees Loyalty Board for the purpose of holding hearings overseas.

(b) Chairman, Federal Prevailing Rate Advisory Committee.

§ 213.3172 Administrative Office of the U.S. courts.

(a) Not to exceed five positions of Federal Probation System Administrator in the Division of Probation, when filled by Federal probation officers on active service in the U.S. courts.

§ 213.3178 [Reserved]

§ 213.3182 National Foundation on the Arts and the Humanities.

(a) *National Endowment for the Arts.* (1) Until June 30, 1976, one Special Assistant to the Chairman.

(2) Until June 30, 1976, Director of State and Community Operations, when filled at GS–15 and below.

(3) Until June 30, 1976, eight Program Directors.

(4) Until June 30, 1976, One Assistant Director for Theatre Programs.

(5) Until June 30, 1976, one Director of Folk Arts Programs.

(6)–(10) [Reserved]

(11) Until June 30, 1976, four Project Evaluators.

(12) Until June 30, 1976, one Director of Museum Programs.

(13) Until June 30, 1976, two Assistant Directors for State and Community Operations.

(14) Until June 30, 1976, one Assistant Director of Music Programs.

(15) Until June 30, 1976, one Director of Developing Arts Programs.

(16) Until June 30, 1976, one Director for Public Media Programs.

(17) Until June 30, 1976, one Assistant to the Chairman.

(18) [Reserved]

(19) Until June 30, 1976, one Director, Interdisciplinary Programs.

(20) Until June 30, 1976, one Director of Special Projects.

(19) Until June 30, 1976, two Special Assistants to the Deputy Chairman.

(20) Until June 30, 1976, one Program Analyst, Office of Planning and Analysis.

V 39 N 251 DEC 30 1974 XUM

(21) Until June 30, 1976, one Media Programs Officer, Division of Public Programs.

(22) Until June 30, 1976, one Bicentennial Coordinator, Office of the Chairman.

(23) Until June 30, 1976, one Deputy Director of Public Programs.

(24) Until June 30, 1976, one Program Officer/Deputy Director, Division of Research Grants.

§ 213.3184 [Reserved]

§ 213.3187 District of Columbia Redevelopment Land Agency.

(a) Neighborhood Aide (Urban Renewal) positions when filled by residents of the urban renewal project area in which the Aides will serve. Employment under this authority may not exceed 2 years.

§ 213.3190 [Reserved]

§ 213.3194 Department of Transportation.

(a) *Coast Guard.* (1) Continuing positions at grade GS–9 and below whose incumbents are engaged in the admeasurement or documentation of merchant vessels on a part-time or intermittent basis not exceeding 700 hours in a service year. A person appointed under this authority may not be employed in the Coast Guard under a combination of this authority and any other authority for excepted appointment for more than 700 hours during his service year.

(2) Lamplighters.

(3) Professors, Associate Professors, Assistant Professors, Instructors, one Principal Librarian, one Cadet Hostess, and one Psychologist (Counseling) at the Coast Guard Academy, New London, Conn.

(b) *The Alaska Railroad.* (1) Temporary, part-time, or intermittent positions of nonsupervisory laborers in Alaska, involving railroad construction or repair work at locations outside the Fairbanks and Anchorage commuting areas when there are no local housing facilities available except crew cars and examination is impracticable because of the mobility of the work site, the short-term nature of a maintenance project, or the immediate need for a temporary work force to cope with unexpected turnover or unexpected situations requiring augmentation of the regular work crew in remote or isolated locations. Employment under this authority shall not exceed 180 working days a year.

(2) The General Manager.

(3) The Assistant General Manager.

(c) *Federal Highway Administration.* (1) Temporary, intermittent, or seasonal employment in the field service of the Bureau of Public Roads at grades not higher than GS–5 for subprofessional engineering aide work on the highway surveys and constructions projects, for not to exceed 180 working days a year, when in the opinion of the Commission appointment through competitive examination is impracticable.

(d) *Federal Aviation Administration.* (1) Caretakers and Light Attendants employed on emergency fields and other air navigation facilities who are paid on a fee basis.

(2) Medical Officer positions on Wake Island.

(3) Laborer positions on Swan Island.

(e) *St. Lawrence Seaway Development Corporation.* (1) Assistant Manager, Seaway International Bridge.

(f) *Urban Mass Transportation Administration.* (1) Employment for not to exceed two years of up to six individuals in grades ranging from GS–11 through 15, for the international seminar on "The Role of Urban Transportation in Community Development."

§ 213.3195 President's Temporary Commission on Pennsylvania Avenue.

(a) Not to exceed six positions on the Temporary Comission staff.

§ 213.3199 Temporary boards and commissions.

(a)–(f) [Reserved]

(g) *The National Council on Indian Opportunity.* (1) Positions at GS–15 and below on the staff of the Council when filled by Indians who are of one-fourth or more Indian blood.

(h)–(j) [Reserved]

(k) *American Revolution Bicentennial Administration.* (1) Positions in grades GS–9 through 15, other than those primarily concerned with administrative and internal management matters.

(l) *Commission on American Shipbuilding.* (1) Until December 31, 1973, positions at GS–15 and below on the staff of the Commission.

(m) *Cost of Living Council and Related Organizations.* (1) Until April 30, 1974, not to exceed 50 positions in grades GS–12 and above when it is determined that existing registers are not appropriate or do not permit appointment expeditiously.

(n) *National Commission on Productivity.*

(1) Until June 30, 1975, positions in grade GS–15 and below on the staff of the Commission.

(o) *Marine Mammal Commission.*

(1) Until June 30, 1977, all positions on the staff of the Commission.

(p) *Micronesian Claims Commission.*

(1) Until October 15, 1976, 4 Legal Research Assistant positions on the staff of the Commission.

(q) *Alaska Native Claims Ad Hoc Appeals Board.*

(1) Members of this Board.

SCHEDULE B

§ 213.3201 Positions other than those of a confidential or policy-determining character for which it is not practicable to hold a competitive examination.

The positions enumerated in §§ 213.3202 to 213.3299 are positions other than those of a confidential or policy-determining character for which it is not practicable to hold a competitive examination and which are excepted from the competitive service and constitute Schedule B. Appointments to these positions are subject to such noncompetitive examination as may be prescribed by the Commission.

§ 213.3202 Entire executive civil service.

(a) Student Trainee positions established in connection with a bachelor's degree cooperative education program which provides for a formally arranged schedule of periods of attendance at an institution of higher learning combined with periods of at least six months of study-related work in a Federal agency. The periods of work and study together must satisfy requirements for a bachelor's degree and provide experience necessary for career or career-conditional appointment to administrative, professional, or technical positions in the Federal Government upon the student's graduation. The Commission's determination on requirements relating to appointments under this paragraph will be published in the Federal Personnel Manual. Except for the requirement concerning competitive selection from a register, appointments under this paragraph are subject to all the requirements and conditions governing career-conditional appointment, including investigation by the Commission to establish an appointee's qualifications and suitability. Appointees may not continue to serve in Student Trainee positions more than 90 days after completion of or separation from the cooperative education program.

§ 213.3203 Executive Office of the President.

(a) *Office of Economic Opportunity.*

(1) Seven Regional Directors.

(2) Not to exceed 35 positions at GS–9 through GS–15 in new, experimental programs or special projects when it is determined that existing registers are not appropriate or do not permit appoint expeditiously. This authority may not be used after June 30, 1973.

(3) One Chief, Research and Plans Division.

§ 213.3204 Department of State.

(a) Persons formerly employed abroad in the Foreign Service of the United States (this means civilian employment in the executive branch) for a period of at least 4 years for service in executive and administrative positions, or for at least 2 years for professional positions, in grades GS–9 and above.

(b) Technical cryptographic positions in the Communications Security Division, Office of Communications.

(c) Director and Deputy Director, Foreign Buildings Operations.

§ 213.3205 Department of the Treasury.

(a) Positions of Deputy Comptroller of the Currency, Chief National Bank Examiner, Assistant Chief National Bank Examiner, Regional Administrator of National Banks, Deputy Regional Administrator of National Banks, Assistant to the Comptroller of the Currency, National Bank Examiner, Associate National Bank Examiner, and Assistant National Bank Examiner, whose salaries are paid from assessments against national banks and other financial institutions.

(b) [Reserved]

(c) Not to exceed two positions of Accountant (Tax Specialist) at grades

GS–13 and above to serve as specialists on the accounting analysis and treatment of corporation taxes. Employments under this paragraph shall not exceed a period of 18 months in any individual case.

(d) Positions concerned with the protection of the life and safety of the President and members of his immediate family, or other persons for whom similar protective services are prescribed by law, when filled in accordance with special appointment procedures approved by the Commission. Service under this authority may not exceed (1) a total of 4 years or (2) 120 days following completion of the service required for conversion under Executive Order 11203, whichever occurs first.

§ 213.3206 Department of Defense.

(a) *Office of the Secretary* (1) [Reserved]

(2) Professional positions at GS–11 through GS–15 involving systems, costs, and economic analysis functions in the Office of the Assistant Secretary (Program Analysis and Evaluation); and in the Office of the Deputy Assistant Secretary (Systems Policy and Information) in the Office of the Assistant Secretary (Comptroller).

(3) [Reserved]

(4) One Assistant for Counter-Insurgency, Office of the Assistant Secretary (International Security Affairs).

§ 213.3209 Department of the Air Force.

(a) Positions assigned exclusively to Air Force Communications Intelligence Activities excluding positions in Cryptologic Intelligence Activities/Functions.

(b) Civilian Deans and Professors at the Air Force Institute of Technology, Wright-Patterson Air Force Base, Dayton, Ohio.

§ 213.3210 Department of Justice.

(a) [Reserved]

(b) Positions of Port Receptionist and Supervisory Port Receptionist, Immigration and Naturalization Service.

§ 213.3212 Department of the Interior.

(a) Any competitive position at an Indian school when filled by the spouse of a competitive employee of the school, when because of isolation or lack of quarters, the Commission deems appointment through competitive examination impracticable.

§ 213.3214 Department of Commerce.

(a) *Bureau of Census.* (1) Not to exceed 100 positions of interviewers, supervisors, and data collection specialists in the Census Bureau who conduct interviews in the hard-core poverty areas of large cities or who supervise the conduct of these interviews, when filled by residents of the areas served.

(b) *Economic Development Administration.* (1) Four Area Supervisors.

(2) Four Assistant Area Supervisors.

(c) *Office of Minority Business Enterprise.* (1) Until December 31, 1974, not to exceed 35 positions of Minority Business Opportunity Specialist at grades GS–9 through GS–15.

(d) *Office of Telecommunications.* (1) Not to exceed 10 positions of Telecommunications Policy Analysts, grades GS–11 through 18. Employment under this authority may not exceed 2 years.

§ 213.3215 Department of Labor.

(a) and (b) [Reserved]

(c) Not to exceed 35 positions of Manpower Development Specialist at grades GS–9 through GS–15 in the Manpower Administration. This authority may not be used after June 30, 1973.

§ 213.3216 Department of Health, Education, and Welfare.

(a) *Office of Education.* (1) Fifty positions, GS–7 through GS–11, concerned with advising on education policies, practices, and procedures under unusual and abnormal conditions. Persons employed under this provision must be bona fide elementary school and high school teachers. Appointments under this authority may be made for a period of not to exceed 1 year, and may, with the prior approval of the Civil Service Commission, be extended for an additional period of 1 year.

(b) [Reserved]

(c) Not to exceed 10 positions of HEW Fellows in grades GS–11 through 15. Employment under this authority may not extend beyond 1 year.

§ 213.3228 U.S. Information Agency.

(a) Persons formerly employed abroad in the Foreign Service of the United States or as Binational Center Grantees for a period of at least 4 years for service in executive and administrative positions, or for at least 3 years for professional positions, in grades GS–9 and above.

§ 213.3229 Federal Power Commission.

(a) A Chief Engineer.

§ 213.3242 Export-Import Bank of the United States.

(a) Not to exceed 24 positions of Loan Specialist GS–7 through 14 when occupied by persons selected jointly by commercial banks and the agency for participation in the Eximbank-Commercial Bank Orientation Program. Appointments under this authority may not exceed 15 months.

§ 213.3246 Selective Service System.

(a) Positions in the Selective Service System when filled by persons who as commissioned officer personnel in the Armed Forces have previously been trained for or have been on active military duty in the Selective Service program, and cannot, for some reason beyond their control, be brought to active military duty in the current Selective Service program.

§ 213.3253 District of Columbia Government.

(a) Chairman, Secretary and Members of the Board of Police and Fire Surgeons, District of Columbia.

§ 213.3259 Action.

(a) *Office of Domestic and Anti-Poverty Operations.* (1) Not to exceed 25 positions of Program Specialist at grades GS–9 through GS–15.

(2) Until December 31, 1975, not to exceed 10 positions of Regional Director, GS–15. Employment under this authority may not exceed 2 years: Provided, That the Director of ACTION may extend appointments made under this authority for up to 2 additional years if he deems such action essential to the accomplishment of agency goals.

§ 213.3268 Agency for International Development.

(a) Not to exceed 30 positions at GS–9 and above when filled by persons who have served overseas with the Agency for International Development for not less than 2 years.

§ 213.3276 Appalachian Regional Commission.

(a) Two Program Coordinators.

SCHEDULE C

§ 213.3301 Positions of a confidential or policy-determining character.

The positions enumerated in §§ 213.3302 to 213.3399 are positions of a confidential or policy-determining character which are excepted from the competitive service, to which appointments may be made without examination by the Commission and which constitute Schedule C.

§ 213.3301a Special revocation of exceptions.

The exception from the competitive service for each position in the executive branch listed in Schedule C which is classified in grade GS–16, GS–17, or GS–18, and is covered by Civil Service Rule IX (§ 9.1 of Subchapter A of this chapter) is revoked effective November 17, 1967. Each such position is removed from Schedule C effective November 17, 1967.

§ 213.3301b Revocation of exceptions.

(a) Except as provided by paragraph (b) of this section the exception from the competitive service for each position at GS–15 and below in the executive branch listed in schedule C is revoked when the position has been vacant for 60 calendar days or more.

(b) Notwithstanding the provisions of paragraph (a) of this section, the Commission may delay the revocation action for an additional 60 calendar days when the agency demonstrates that it: (1) Has been actively recruiting for the position; (2) has made a tentative selection; and (3) has set an appointment date within the additional 60-day period.

(c) An agency shall notify the Commission within 3 work days after a schedule C position at GS–15 and below has been vacated or filled.

§ 213.3303 Executive Office of the President.

(a) *Office of Management and Budget.*

(1) Four Secretaries to the Director.

(2) One Special Assistant to the Deputy Director.

(3) One Private Secretary to the Deputy Director.

(4) Associate Director.

Title 13—Business Credit and Assistance

CHAPTER III—ECONOMIC DEVELOPMENT ADMINISTRATION, DEPARTMENT OF COMMERCE

GRANT AND LOAN PROGRAM

Adoption of Proposed Regulations

On November 13, 1974, there was published in the FEDERAL REGISTER (39 FR 40122) a notice of proposed rulemaking amending Title 13 of the Code of Federal Regulations by amending Parts 301, 302, 303, 304, 305, 306, 307 as well as by adding Parts 308 and 312.

The purpose of these amendments and additions is to implement new program authorities and legislative amendments contained in Pub. L. 93-423 and to make technical changes to clarify existing language and procedures.

The amendments:

Change eligibility of title I areas to title IV.

Establish operating grants for health projects.

Allow economic development districts to contain one redevelopment area instead of requiring two.

Provide that a project benefiting a redevelopment area may be located in an economic development district outside of a redevelopment area.

Qualify uninhabited Indian reservations, trust or restricted Indian-owned land for designation as a redevelopment area.

Additionally, Part 306 is restated and includes procedures to make available working capital loans and working capital guarantees and lease guarantees as authorized under section 202 of the Act.

Part 307 is amended by adding a new Subpart D to expand economic development planning capabilities of States and sub-states as authorized under section 302 of the Act.

A new Part 308 is added which describes procedures by which eligible recipients may receive assistance under title IX of the Act pursuant to a plan to alleviate economic adversity. Grants may be used for public facilities, public services, business development, planning, unemployment compensation, rent supplements, mortgage payment assistance, research, technical assistance, training, relocation of individuals, and other appropriate assistance.

Part 312 is added and describes program as provided under section 304 of the Act which grants funds to States in accordance with a prescribed formula. Funds are authorized to supplement projects under titles I, II, and IV of the Act, and also may be used for "first-dollar" assistance when funds are unavailable under titles I, II, and IV of the Act for projects that comply with these titles.

Interested persons were invited to submit written comments on or before December 9, 1974. A number of comments were received from States and interested organizations. All comments were carefully considered and a number of changes were made in response thereto. The principal changes are discussed below.

The language of Part 307, Subpart D, § 307.52(d) and § 307.55(b) has been revised to indicate a distinction between the uses of funds under section 301(b) and section 302 of the Public Works and Economic Development Act. The language of § 307.54(b)(3) has been revised to clarify the intended cooperation between State planning and subetate planning efforts.

Part 308 § 308.6(a) has been amended to provide a requirement that plans under title IX of the Act shall be consistent with planning goals and objectives developed under section 302 of the Act. A definition for "public services" has been added to § 308.22. Section 308.26(a) has been modified to provide that the use of title IX assistance for unemployment compensation must be shown to have a significant relationship to the economic adjustment of the area and would only be available when unemployment compensation assistance is not otherwise available. Section 308.27(b) has been amended to provide that title IX assistance would not be available for relocation of unemployed workers and families unless such assistance is not available under the Comprehensive Employment and Training Act of 1973. Section 308.51 has been amended to reduce the period for program reporting following the conclusion of assistance from three years to one year.

Sections 312.5 and 312.6 have been amended to provide that the Assistant Secretary shall provide with respect to basic grant and loan assistance under section 304 of the Act the same determinations of compliance and the same services of construction management as applicable to supplementary grants under section 304 of the Act.

The Assistant Secretary for Economic Development has determined that the public interest would be best served by making these regulations effective immediately. Rising levels of unemployment and other problems of economic adjustment require in the national interest that the subject programs of assistance be implemented with minimum delay. Therefore, deferral of the effective date under 5 USC 553(d) is determined to be inapplicable and these regulations shall become effective on December 30, 1974.

Accordingly, with these changes and additions, the amendments to Chapter III of Title 13 of the Code of Federal Regulations are adopted as set forth below:

PART 301—ESTABLISHMENT AND ORGANIZATION

1. Section 301.2 is amended by deleting the definition of "Title I Area"; by changing the definitions of "Designated Area", "Disaster Area", "Economic Development District", and "Qualified Area"; and by adding a new definition "Section 302 Planning Grants".

§ 301.2 Definitions.

* * * * *

"Designated Area" means any area or center which has been determined by the Assistant Secretary pursuant to sections 401 or 403 of the Act as eligible to apply for financial assistance.

"Disaster Area" means areas designated under title IV of the Act and designated by the President under the Disaster Relief Act of 1970 (Pub. L. 91-606) or Disaster Relief Act of 1974 (Pub. L. 93-288). The disaster area shall remain such for as long a period as it retains both EDA and Disaster designations, and such concurrent designations have not exceeded 1 year in duration.

* * * * *

"Economic Development District" means a geographic area composed of adjoining and economically related areas which are of proper size to permit effective economic planning, including at least one redevelopment area and one or more economic growth center(s) and which has been designated by the Assistant Secretary.

* * * * *

"Qualified Area" means an area which meet the criteria of the Act for designation as "redevelopment area".

* * * * *

"Section 302 Planning Grants" means economic development planning grants authorized under section 302 of the Act.

* * * * *

2. Section 301.20 is amended by deleting the period at the end of paragraph (a)(1) and (b) and inserting "and parts of economic development districts.", and adding a new paragraph (c) to read as follows:

§ 301.20 Public works and development facility grants.

* * * * *

(c) Under section 304 of the Act the Secretary is authorized to make grants to the States for the purpose of supplementing or making grants and loans authorized under titles I, II, and IV of the Act.

3. Section 301.21 is revised to read as follows:

§ 301.21 Loans and guarantees.

(a) Loans are authorized for public works, public service, and development facility projects in redevelopment areas and parts of economic development districts.

(b) Loans are authorized for industrial and commercial purposes in redevelopment areas and parts of economic development districts.

(c) Guarantees are authorized for loans made to private borrowers by private lending institutions and for rental payments of loans in redevelopment areas and parts of economic development districts.

4. A new § 301.23 is added to read as follows:

§ 301.23 Special Economic Development and Adjustment Assistance.

Grants may be made to States, political subdivisions of States, redevelopment areas, economic development districts, and Indian tribes to meet special needs related to existing or threatened long term unemployment or low family income levels and arising from economic dislocation. Such grants may be used for public facilities, public services, business development, planning, unemployment compensation, rent supplements, mortgage payment assistance, research, technical assistance, training, relocation of individuals, and other appropriate assistance.

5. Section 301.42 is amended by amending paragraphs (b), (6) and (8) to read as follows:

§ 301.42 Economic Development Regional Offices.

* * * * *

(b) * * *

(6) The Public Works Division, subject to general guidance from the Director, Office of Public Works, advises Regional Office personnel, Economic Development Representatives, appropriate community officials and the public of

possible uses of public works and development facilities assistance to meet the objectives of the Act; • • •

• • • • • •

(8) The Technical Support Division, subject to general guidance by the Director of the Office of Public Works with respect to public works activities, provides the Public Works, Planning and Technical Assistance Divisions, and Economic Development Representatives, with financial and technical guidance needed to assist prospective applicants in the planning of acceptable applications; applies established criteria in the engineering and financial evaluation of proposed projects except Business Development projects); prepares special conditions for Public Works projects; initiates • • •

• • • • • •

PART 302—DESIGNATION OF AREAS

6. Section 302.4 is amended by adding a new paragraph (b)(1)(i) to read as follows:

§ 302.4 Standards for designation on the basis of Indian lands.

• • • • • •

(b) • • •

(1) • • •

(i) The Assistant Secretary upon consultation with the Secretary of Interior or an appropriate State agency may designate under this section uninhabited Federal or State Indian reservations or trust or restricted Indian-owned land areas where such designation would permit assistance to Indian tribes, with a direct beneficial effect on the economic well-being of Indians.

• • • • • •

7. Section 302.11 is redesignated § 302.12.

8. A new Section 302.11 is added to read as follows:

§ 302.11 Standards for designation on the basis of substantial unemployment.

The Assistant Secretary shall designate as redevelopment areas those areas which the Secretary of Labor determines, on the basis of average annual available unemployment statistics, were areas of substantial unemployment during the preceding calendar year. Substantial unemployment for the purpose of this section is defined as an annual average unemployment rate of 6 percent or more.

Subpart C [Deleted]

9. Subpart C in its entirety is deleted.

10. Subpart D in its entirety is redesignated Subpart C.

§ 302.40 [Amended]

11. Section 302.40 is amended by deleting the reference "§ 302.11 and § 302.30," and inserting "§ 302.12" in paragraph (a).

§ 302.41 [Amended]

12. Section 302.41 is amended by deleting the reference "§ 302.11" and inserting "§ 302.12" in paragraph (b)(3).

§ 302.50 [Amended]

13. Section 302.50 is amended by deleting the reference "§ 302.11" and inserting "§ 302.12" and by deleting the reference "and § 302.30" in paragraph (a)(1).

PART 303—ECONOMIC DEVELOPMENT DISTRICTS

14. Section 303.1 is amended to read as follows:

§ 303.1 Authorization of economic development districts.

(a) The Assistant Secretary may authorize, at the request of the Governor(s) of the State or States, the delineation of economic development district (hereinafter district) boundaries as a prerequisite to designation of an economic development district and as a prerequisite to the provision of planning grants, Subpart B of Part 307 of this Chapter.

(b) Authorization of delineation may be made:

(1) Where the State or States after analyzing economic and social relationships among the various redevelopment area counties proposed to EDA a district boundary delineation.

• • • • • •

15. Section 303.2 is amended by amending paragraph (b) to read as follows:

§ 303.2 Designation of economic development districts.

• • • • • •

(b) Where the proposed district contains at least one redevelopment area.

• • • • • •

16. A new § 303.9 is added to read as follows:

§ 303.9 Notice to Regional Commission.

Each economic development district designated by the Assistant Secretary under § 303.2 shall as soon as practicable after September 27, 1974, or after its designation provide a copy of the district OEDP to the appropriate regional commission established under title V of the Act, if any part of such district is located within such a region, or to the Appalachian Regional Commission established under the Appalachian Regional Development Act of 1965, if any part of such district is located within the Appalachian region.

17. Section 303.21 is amended by correcting the first sentence to read as follows:

§ 303.21 Economic development center project characteristics.

Projects in economic development centers shall have one or more of the following characteristics:

• • • • • •

PART 304—OVERALL ECONOMIC DEVELOPMENT PROGRAM

§ 304.1 [Amended]

18. Section 304.1 is amended by deleting the words ", title I area," in paragraph (a) and (b).

§ 304.8 [Amended]

19. Section 304.8 is amended by deleting the words "and title I" in paragraph (a) and by deleting the words ", or title I area" in paragraph (b).

PART 305—PUBLIC WORKS AND DEVELOPMENT FACILITIES PROGRAM

20. Section 305.3 is amended by adding a new paragraph (c) to read as follows:

§ 305.3 Direct grants for Public Works projects.

• • • • • •

(c) In the case of a project to be located in an economic development district pursuant to section 403(j) of the Act such project shall meet the requirements as would be applicable to the project if it were located wholly within the redevelopment area for which it is determined to be a direct and substantial benefit.

21. Section 305.5 is amended by deleting the words "Title I" in the first sentence of paragraphs (b)(3)(v), (vi), and (vii); by amending paragraph (b)(3)(iv); and by adding a new paragraph (d) to read as follows:

§ 305.5 Supplementary grants.

• • • • • •

(b) • • •

(3) • • •

(iv) Projects located in areas designated under title IV of the Act, which areas have been designated by the President of the United States under the Disaster Relief Act of 1970 (Public Law 91-606) or the Disaster Relief Act of 1974 (Public Law 91-288), provided: (a) Such areas retain both EDA and disaster designations, and (b) Such concurrent designation has not exceeded one year in duration..... 80

• • • • • •

(d) The applicable maximum grant rate for projects located in economic development districts pursuant to section 403(j) of the Act shall be the same as the grant rates for the redevelopment areas for which such projects are determined to be a direct and substantial benefit.

22. Section 305.6 is amended by designating the first paragraph "(a)", redesignating the second paragraph "(1)", redesignating the third paragraph "(2)", and by adding a new paragraph (b) to read as follows:

§ 305.6 Ten percent bonus supplemental grants.

• • • • • •

(b) Projects assisted in districts outside redevelopment areas pursuant to section 403(j) of the Act shall not be eligible for 10 percent bonus grants under this section.

23. A new § 305.7 is added to read as follows:

§ 305.7 Operating grants for health facilities.

(a) The Assistant Secretary pursuant to section 102 of the Act may make grants for the operation of any health

project approved for assistance under title I of the Act after the 27th day of September, 1974. Such assistance will be available only in the most needy circumstances.

(b) Grants made under this section may be made up to 100 per centum of the estimated cost of the first fiscal year of operation, and up to 100 per centum of the deficit in funds otherwise available for operation of the facility during the second fiscal year of operation. No grant shall be made under this section unless the operation of the facility will be conducted under efficient management practices designed to obviate operating deficits as determined by the Secretary of Health, Education, and Welfare. No grant shall be made for the second fiscal year of operation unless the operating agency has adopted a plan for the funding of operations on a permanent basis which is satisfactory to the Secretary of Health, Education, and Welfare.

24. Section 305.23 is amended by adding a new paragraph (f) to read as follows:

§ 305.23 Loan requirements.

* * * * *

(f) In the case of a project to be located in an economic development district pursuant to section 403(j) of the Act, such project shall meet the requirements as would be applicable to the project if it were located wholly within the redevelopment area for which it is determined to be a direct and substantial benefit.

25. Section 305.58 is redesignated § 305.59 and a new § 305.58 is added to read as follows:

§ 305.58 Architect/Engineer Agreements.

The architect/engineer agreement shall provide for all services required by the recipient for the planning, design and construction phase administration of the proposed project. Appropriate standards or guides developed by such professional organizations as the American Consulting Engineers Council (ACEC), American Society of Civil Engineers (ASCE), National Society of Professional Engineers (NSPE), and/or the American Institute of Architects (AIA), may be used where the grantee does not have standard procurement documents.

26. Section 305.68 is amended by numbering the first paragraph (a) and by adding a paragraph (b) to read as follows:

§ 305.68 Architect/engineer services as eligible project costs.

(a) * * *

(b) It is EDA policy to require the utilization of fixed price or cost-ceiling contracts. Agreements allowing compensation to the architect/engineer based on a percentage-of-construction-cost type of fee contract are generally not acceptable.

27. Part 306 is revised to read as follows:

PART 306—BUSINESS DEVELOPMENT PROGRAM

Subpart A—Financial Assistance for Industrial and Commercial Purposes

Sec.
306.1 Purpose.
306.2 Eligible applicants.
306.3 Types of financial assistance.
306.4 Location.
306.5 Limitations.
306.6 Requirement of approval by State or political subdivision.
306.7 Alleviation of unemployment.
306.8 Financing.
306.9 Repayment.
306.10 Term.
306.11 Interest and fees.
306.12 Allowable project costs for projects involving fixed assets.
306.13 Amount of assistance.
306.14 Equity capital requirements.
306.15 Required community share in direct fixed asset loan projects.
306.16 Indian tribes.
306.17 Waiver of community share.
306.18 EDA's security with respect to assets of the applicant.
306.19 Special considerations for projects located in economic development centers or in non-designated areas of economic development districts.
306.20 Project financing.
306.21 Financing information.
306.22 Restrictive convenants on operations.
306.23 Indian reservation projects.
306.24 Feasibility reports.

Subpart B—Project Closing and Servicing

306.31 Project closing.
306.32 Project servicing.
306.33 Liquidation and administration of loans, guarantees and evidences of indebtedness.

AUTHORITY: Sec. 701, Pub. L. 89-136 (August 26, 1965) (42 U.S.C. 3211), 79 Stat. 570 and Department of Commerce Organization Order 10-4, April 1, 1970 (35 FR 5970).

Subpart A—Financial Assistance for Industrial and Commercial Purposes

§ 306.1 Purpose.

(a) The purpose of this subpart is to set forth policies and procedures under which qualified applicants may obtain financial assistance under section 202 of the Act. The following types of financial assistance are available for business development projects:

(1) Direct loans or purchase of evidences of indebtedness to provide fixed assets.

(2) Direct loans to provide for working capital.

(3) Guarantees of loans to private borrowers by private lending institutions to provide fixed assets.

(4) Guarantees of loans to private borrowers by private lending institutions to provide working capital.

(5) Guarantees of rental payments of leases from qualified lessors for buildings (including the underlying land) and equipment.

(b) These programs are administered by EDA for the prime purpose of achieving the long-range economic development goals of the Act—creating jobs, increasing incomes, and diversifying local economies—and not to underwrite commercial ventures.

(c) Lease guaranty assistance is primarily available to increase the business development opportunities in distressed areas of large cities, particularly in special impact areas, where vacant buildings are available. This program is intended to be a supplement to, and not a duplication of, the Small Business Administration's lease guaranty program.

(d) Direct working capital loans will only be made if other sources of working capital are not available.

§ 306.2 Eligible Appplicants.

(a) Applications for loans shall be made by the borrower; ordinarily applications for lease guarantees shall be made by the lessee. Where a loan or lease guarantee is requested, additional information must be supplied by the lender or lessor. It is not the policy of EDA to approve a lease guaranty without a known lessee. However, the Assistant Secretary may waive this policy. In request for waiver, the Assistant Secretary will consider, among other things:

(1) The purpose for which the lease guaranty is sought.

(2) Whether the lessor is a public or quasi-public body.

(3) Whether the lessor is seeking the lease guarantee on a solely speculative basis.

(b) EDA may participate with commercial lease guarantors provided all provisions of the Act and Regulations are met.

(c) Private lending institutions include, but are not limited to, commercial banks, savings and loan institutions, insurance companies, factoring companies, investment banking organizations, and venture capital investment companies. Any of the following entities or enterprises may be eligible as an applicant:

(1) A business enterprise including sole proprietorship, partnership, or corporation.

(2) A non-profit organization or association.

(3) A State or political subdivision thereof including municipalities and all agencies, instrumentalities and quasi-public corporations or authorities created by a State or political subdivision thereof.

(4) Indian tribes.

§ 306.3 Types of Financial Assistance.

The Assistant Secretary is authorized to approve financial assistance, on terms and conditions he shall establish, to:

(a) Provide fixed assets for eligible applicants by either making direct loans or by guaranteeing loans or leases to enable the applicant to purchase, develop or lease commercial or industrial land and/or facilities.

(1) The following are the normal kinds of fixed asset costs allowed by EDA:

(i) Land acquisition and improvements.

(ii) Machinery and/or equipment (including also furniture and fixtures).

(iii) Construction costs for new buildings.

(iv) Rehabilitation costs for abandoned or unoccupied buildings.

(v) Alteration, conversion and enlargement costs for existing buildings.

(2) Where fixed assets are leased, lease costs cannot be included as an eligible item for a direct fixed asset loan. Under the lease guaranty program, lease rentals must be reasonable in relation-

XUM

ship to the actual costs to the lessor.

(b) Provide working capital for eligible applicants by either making direct loans or by guaranteeing loans by qualified private lending institutions. The following are the normal kinds of working capital items for which EDA may make or guarantee a working capital loan:

(1) Start-up costs including employee training, pre-production sales efforts, and the acquisition of raw materials and supplies.

(2) Cash to meet the borrower's obligations to pay those costs and expenses incident to the conduct of current business such as wages, salaries, material purchases, rents, utilities, taxes, interest and the like and to pay current liabilities other than those incurred in the acquisition of non-current assets or in the reduction of shareholder's equity.

(c) EDA will not ordinarily guarantee revolving type or open-end working capital loans.

(d) The substance of all loan or lease agreements which EDA is being asked to guarantee must be approved by the Assistant Secretary prior to issuance of the guarantee.

(e) Guaranteed loans or leases may be assigned, but such assignments may only be made with the prior approval of the Assistant Secretary.

(f) Lease guarantees by EDA shall extend only to rental payments and not other obligations created under the lease.

§ 306.4 Location.

A business development project must be located within a redevelopment area or an economic development center. It may also be located within a non-eligible part of an economic development district provided it can be shown that the project will provide a substantial direct benefit to a redevelopment area within such district.

§ 306.5 Limitation.

The requirements stated in Part 309 of this chapter are pertinent to business development projects as appropriate.

§ 306.6 Requirement of approval by State or political subdivision.

No application for a business development project will be approved by EDA until such application is approved by an agency or instrumentality of the State or political subdivision in which the project is to be located.

(a) Such agency or instrumentality must be directly concerned with the problems of economic development in such State or political subdivision.

(b) Such approval must include a determination that the project is consistent with the redevelopment area's approved OEDP, except areas which will be designated under the criteria of Section 401(a)(4) of the Act. Redevelopment areas or economic development districts which do not have a currently approved OEDP will also be evaluated if:

(1) The area will be designated within a reasonable period of time, or

(2) Appropriate steps have been taken to secure the approval by EDA of an OEDP.

(c) Such approval of an agency or instrumentality shall be in a form satisfactory to EDA.

(d) Such approval may be waived by EDA if the application is to provide working capital for the operation of a commercial or industrial project whose land and/or facilities have been purchased, developed, or leased with the aid of EDA financial assistance.

§ 306.7 Alleviation of Unemployment.

A business development project must reasonably provide more than temporary alleviation of unemployment or underemployment within the area in which the project will be located.

§ 306.8 Financing.

A business development applicant must provide evidence that other financing is not available on terms and conditions which, in the opinion of the Assistant Secretary, would permit completion and/or the successful operation or accomplishment of the project. Such evidence will include:

(a) Letters from at least two qualified lending institutions declining to finance any part of the project or in the case of direct EDA loans, to participate in EDA's share of the financing.

(1) In the event only one qualified lending institution is located in the project area or lends in the project area, a letter from one qualified lending institution will be sufficient.

(2) In the event no qualified lending institutions are located in the project area or lend in the project area, applicant's certification to that effect will be sufficient.

(b) In the case of financial assistance involving direct EDA loans for fixed assets, the applicant must include evidence that no qualified lending institution will assist in the project financing other than on a first lien basis.

(c) In the case of guaranteed loans, the applicant must include evidence that no direct financing is available from private lending institutions, as above, and that the lending institution making the loan would not assist in the project financing without the EDA guaranty. In addition, no working capital loan will be guaranteed which is secured by a prior lien on the same assets which secure an EDA fixed asset loan or guarantee.

(d) Evidence that other Federal financial assistance is not available to the project.

(e) In the event that the applicant is a large corporation which would normally have its own funds available or appears to have access to non-Federal funds sufficient to finance the project, such corporation must certify that it would not locate the proposed project within the area if it were not for the benefits of EDA's financial assistance.

(f) In the case of financial assistance involving a direct loan by EDA, the applicant must also show that other lenders will not participate with EDA in its loan.

§ 306.9 Repayment.

No loan or loan guarantee application shall be approved unless the Assistant Secretary has determined there is a reasonable assurance that the borrower can repay such loan. It is the policy of EDA to determine that there is reasonable assurance of repayment of rents under a lease before approving a lease guarantee. However, in the event the prospective lessee is not known prior to approval of a lease guarantee, such prospective lessee must be approved by EDA. The approval of a lessee shall be based, but not limited to, a reasonable assurance that the lessee can repay the remaining rents under the lease.

(a) The applicant shall provide, at a minimum, the following financing information to permit the Assistant Secretary to make this determination unless the Assistant Secretary determines certain or all of such information is not necessary.

(1) Current audited financial statements of the applicant, including balance sheets, an income statement with auditors' footnotes, and supporting statements for applicant's three most recent fiscal years.

(2) Audited consolidated financial statements and income statements, with auditors' footnotes, of parent and subsidiaries for the three most recent fiscal years.

(3) Audited financial statements including balance sheets, income statements, and auditors' footnotes, of all affiliated companies for the three most recent fiscal years.

(4) Most recent interim financial statements of applicant, its parent and subsidiaries, certified to by officers of the respective companies and maintained current during EDA loan processing.

(5) Projected pro forma balance sheets, income statements, cash flows and supporting statements of the applicant quarterly from the date of the latest interim financial statements to the date of the commencement of project operations.

(6) Projected pro forma balance sheet at the commencement of project operations, and pro forma balance sheets, income statements, cash flow and supporting statements of the applicant monthly, for the first twelve months of project operations and annually for the three succeeding twelve-month periods. Such statements and balance sheets should reflect applicant's ability to repay debt principal out of earnings commencing within the first three years of operations.

(b) In addition, the applicant shall provide as much of the following non-financial information as EDA determines is necessary to allow the Assistant Secretary to substantiate the pro forma projections:

(1) Estimates, firm quotations, receipts, contracts, orders, invoices, leases, or equivalent documentation from architects, engineers, contractors, subcontractors, materialmen, suppliers, lessors

or others involved in the sale, lease or construction of fixed assets, if any, for applicant's project including schedules of implementation.

(2) Back-up information regarding applicant's operating costs, including projected employment by job category and applicable wage rates, cost and availability of raw materials and energy.

(c) Applicants are also required to provide EDA with general information about management capabilities, including resumes of top management, and marketing plans.

(d) Applicants will also supply such additional back-up information as EDA may require regarding other collateral securing EDA's financial assistance, such as appraisals and valuations of non-project assets and guarantees.

§ 306.10 Term.

The term of the financial assistance should be consistent with the purpose for which it will be used and the collateral position of EDA.

(a) The term of a fixed asset loan or guaranty or lease guaranty will ordinarily not be greater than the weighted average useful life of the project fixed assets.

(b) The term of a working capital loan, whether direct or guaranteed, generally should not exceed five (5) years and the loan should be amortized in full during its term.

(c) The term of a guaranty of a lease will generally not be less than five (5) years.

(d) No financial assistance including renewals or extensions may be made for a period exceeding twenty-five years from the date of the note evidencing a loan, the date of purchase of evidences of indebtedness, or the date of a guaranteed lease. In the case of lease guarantys, the lease itself may extend beyond twenty-five years but the Government's liability for guaranteed payments shall cease after the twenty-fifth year.

§ 306.11 Interest and Fees.

Financial assistance under this subpart shall bear interest or involve fees at the following rates:

(a) Direct fixed asset loans and evidences of indebtedness purchased by EDA will bear interest at a rate not less than a rate determined by the Secretary of the Treasury taking into consideration the current average market yield on outstanding marketable obligations of the United States with remaining periods to maturity comparable to the average maturities of such loans, adjusted to the nearest one-eighth of one percent, plus such additional charge, if any, toward covering other costs of the program as the Assistant Secretary may determine to be consistent with its purpose.

(b) Interest charges for direct working capital loans shall be computed based on the interest rate for direct fixed asset loans and purchases of evidences of indebtedness, plus such additional charge as the Assistant Secretary determines is reasonable in view of the higher risk and more limited collateral associated with working capital loans.

(c) Interest on guaranteed loans by private lending institutions must be at not more than their prevailing rates, and must be reasonable with respect to the project.

(d) EDA may charge a fee on loan and loan and lease guarantees to be determined by the Assistant Secretary.

§ 306.12 Allowable project costs for projects involving fixed assets.

Allowable project costs for EDA fixed asset projects (loans, guaranteed loans, and lease guarantys) may include the cost of land, building, machinery and equipment, and reasonable contingency reserves to cover the possibility of cost increase during processing of the application and during construction, if applicable.

(a) In arriving at the total fixed asset cost of the project, EDA cannot, under the Act, include any item which is considered as properly allocable to working capital.

(b) Other types of costs which cannot be financed include: leasehold interests or lease-purchase obligations (except as such may be financed indirectly via an EDA lease guaranty), mineral reserves, patents, organization expenses, preproduction costs, research and development expenses, goodwill, trade or brand names, franchises and licenses.

(c) Land included in the total project cost may include the following:

(1) Land acquisition costs, including reasonable real estate commission if paid by borrower.

(2) Cost of engineering fees, surveys, plats, title insurance, recording fees and legal fees incurred in connection with acquisition of land.

(3) Costs of nondepreciable grading and site improvements, as well as costs of necessary depreciable land improvements.

(4) Costs of soil tests and test borings.

(5) Preparation of plans and specifications.

(d) Buildings included in total project cost may include the following:

(1) Building acquisition costs, including reasonable real estate commission if paid by purchaser.

(2) Cost of constructing, altering, converting, rehabilitating, or enlarging buildings.

(3) Engineering, architectural, and legal fees paid in connection with the preparation of plans and specifications and the acquisition, construction, etc., of buildings and building equipment.

(4) Insurance during construction, including hazard insurance, performance, labor and material bonds.

(e) Machinery and equipment included in total cost may include the following:

(1) Machinery acquisition costs including cost of delivery and reasonable costs of installation.

(2) Engineering, architectural and legal fees paid in connection with machinery selection, design, acquisition and installation.

(3) Insurance during installation including hazard insurance, performance, labor and material bonds.

(f) In projects involving EDA direct fixed asset loans, land, buildings, machinery and equipment already owned by the applicant lien-free may be included in project costs and be treated as an in-kind equity injection and credited against the 10 percent equity required by the Act; provided they will be an integral part of the expanded operation. However, such in-kind equity credit will generally be limited to the lesser of (1) appraised fair market value, or (2) net book value (cost less accumulated depreciation) in the hands of the applicant, its principals, parent, subsidiaries, or affiliates; provided, however, that such credit as may be allowed for fixed assets owned by the applicant may not be used to provide the 5 percent required by the Act to come from a local government or non-profit organization. In-kind injections of fixed assets owned by a local government or non-profit organization may be credited toward the required local participation (State, political subdivisions or agencies thereof, and community or area organizations) to the extent of appraised fair market value. If the local government or non-profit organization does not own fixed assets, its required 5 percent share must be put into the project in cash regardless of whether the community share is waived according to § 306.17 or not. The granting of in-kind equity credit for fixed assets does not apply to any form of EDA financial assistance other than the direct fixed asset loan program.

(g) Other eligible project costs may include:

(1) Interest on interim construction financing and other necessary costs of obtaining financing, with prior concurrence of EDA.

(2) Sales and use taxes incurred in the acquisition of project fixed assets.

(3) Other costs contributing directly to the value of project fixed assets, with prior concurrence of EDA, but not including the cost of feasibility studies.

(h) Adequate contingency reserves are a necessary part of the provision for project costs in order to avoid the problem of incurring an overrun in total expenditures for the project and thereby forcing a renegotiation of the loan commitment. The contingency amount should be established according to the anticipated length of time for project construction, terms of contract, type of machinery and equipment, and technological and other developments which might be expected to increase cost.

(1) Contingency reserves for building construction and machinery and equipment should be established at a reasonable figure and justified by the applicant, depending upon the characteristics of the specific project.

(2) Construction bids or estimates and machinery and equipment quotes should allow for sufficient time and remain valid during the estimated period of project

XUM
V 39 N 251 DEC 30 1974
XUM

processing or until execution of firm contracts. These quotes should not be over sixty days old when the application is submitted to EDA.

(3) Contingency reserves for land must be considered in the event an option to purchase, earnest money agreement, or real estate contract provides for a renegotiation of terms prior to project funding. The applicant will be required to provide evidence of ability to acquire the project land and any contractural arrangement therewith must be carefully reviewed in reference to establishment of a contingency for increased land costs above the project valuation at time of submission of the application.

(i) Allowable project costs for lease guaranty projects may include all reasonable rents, including attendant costs and taxes and other expenses as are customary with respect to comparable property.

§ 306.13 Amount of Assistance.

EDA financial assistance is limited to the following percentages of project cost:

(a) Direct fixed asset loan assistance shall never exceed 65 percent of the aggregate project cost. In the event other Federal aid is available and used to pay part of the project cost, such other Federal aid shall be subtracted from the aggregate project cost and the remainder shall be the aggregate cost for the purposes of business development fixed asset loan.

(b) Direct working capital loan assistance may be in an amount sufficient to include all of the applicant's allowable working capital needs.

(c) Lease guarantys shall never exceed 90 percent of the remaining rental payments required by the lease, provided no rental payments which accrue later than twenty-five years from the effective date of the guaranty shall be covered by the guaranty.

(d) No working capital guaranty shall at any time exceed 90 percent of the amount of the outstanding unpaid balance of the working capital loan by the private lending institution.

(e) No fixed asset loan guaranty shall at any time exceed 90 percent of the amount of the outstanding unpaid balance of the fixed asset loan by the private lending institution.

§ 306.14 Equity capital requirements.

The Act requires a minimum equity contribution only for direct fixed asset loan projects. However, all projects should be supported by equity capital to the following extent:

(a) Not less than 15 percent of the aggregate cost of a direct fixed asset loan project (which may include amounts required by § 306.15) shall be provided as equity capital or a standby loan.

(b) In projects involving EDA guarantys of fixed asset loans by a private lending institution, the guaranteed loan to applicant-beneficiary should not exceed 85 percent of the total cost of fixed assets to be purchased. The remaining 15 percent of the total project cost should be provided as equity capital. EDA's guaranty will be limited solely to the fixed asset loan; an EDA required standby loan is considered a form of equity capital.

(c) An application for either an EDA guaranteed working capital loan or an EDA direct working capital loan will not ordinarily be approved until the applicant is in operation of its facilities. In projects involving EDA direct fixed asset loans, guaranteed fixed asset loans or lease guarantys, all project financing including applicant's equity must ordinarily be disbursed before the guaranteed working capital loan may be disbursed by the lender. Working capital loans will be restricted to working capital needs and cannot be diverted into fixed or other noncurrent assets. Applicants should have existing net working capital equal to not less than 15 percent of its total working capital needs. The remaining working capital requirements can then be met with either an EDA guaranteed working capital loan or, where justified, with an EDA direct working capital loan. If the applicant is in a negative net working capital position or has less than 15 percent of its total working capital needs, it should bring its net working capital up to the required level by obtaining cash either from equity capital or a standby loan.

(d) In EDA lease or lease-purchase guaranty projects, the applicant should have expended an amount equal to not less than 15 percent of the value of the assets to be leased. Such expenditures shall be for either leasehold improvements or the types of fixed assets which can be allowable project costs under § 306.12. If applicant is not paying for needed leasehold improvements or fixed assets, its working capital should be augmented instead. Cash for the expenditures required by this subsection shall be obtained by applicant either from equity capital or a standby loan.

(e) Where funds are provided from a standby loan:

(1) Such loan shall be repayable in no shorter period of time and at no faster rate of amortization than the financial assistance provided by EDA and subordinate in rights of repayment to EDA.

(2) If such loan is secured, the security must be subordinate and inferior to the lien or liens securing the financial assistance provided by EDA.

§ 306.15 Required community share in direct fixed asset loan projects.

Not less than 5 percent of the aggregate cost of a direct fixed asset project shall be supplied by:

(a) State or any agency or instrumentality thereof.

(b) A political subdivision of a State or any agency or instrumentality thereof; or

(c) A community or area organization which is nongovernmental in character.

§ 306.16 Indian tribes.

Projects involving financial participation by Indian tribes are not required to meet the provisions of § 306.15. In such case, the 5 percent shall be supplied by the borrower as equity or by standby loan subject to the provision of § 306.14 (e).

§ 306.17 Waiver of community share.

The Assistant Secretary may waive all or part of the 5 percent community share of the aggregate cost of a direct fixed asset loan project which is required by § 306.15 if he determines that all or part of the community share is not reasonably available to the project because of the economic distress of the area or for other good cause. The portion of the community share thus waived may be supplied by the applicant or by such other non-Federal sources as may be reasonably available to the project.

(a) In determining whether all or part of the community share is not reasonably available because of the economic distress of the area, the Assistant Secretary may consider the following factors:

(1) The extent of economic distress of the redevelopment area or district, as measured by unemployment, underemployment and income levels.

(2) The nature and extent of the funds reasonably available to comprise the community share, as made known by the community.

(3) The extent of local support for the project, as manifested by previous bona fide community efforts to assist it financially.

(4) The extent of previous bona fide, broadly based efforts to obtain local financial support for community economic development activities generally.

(b) In determining whether all or part of the community share of the aggregate project cost is not reasonably available for other good cause, the Assistant Secretary may consider, in addition to the factors listed above, the following situations as representing sufficient good cause for waiver:

(1) Where the financial assistance is requested to replace, rehabilitate, or expand the facilities of an industrial or commercial enterprise already existing in the locality, and local investors can show a need to conserve their funds in order to encourage the establishment of new industry which will broaden the economic base of the community; or

(2) Where the Assistant Secretary determines that a bona fide community fund raising drive either has been made or, if made, would be unsuccessful in raising the necessary funds for the project, and provided that the total prior community investment in projects already assisted by either the Area Redevelopment Administration, Small Business Administration or EDA is equal to or exceeds the following amounts:

(i) Redevelopment areas eligible for 50 percent public works grants—$10 per area resident;

(ii) Redevelopment areas eligible for 60 percent public works grants—$7 per area resident;

(iii) Redevelopment areas eligible for 70 percent public works grants—$5 per area resident; or

(iv) Redevelopment areas eligible for 80 percent public works grants—$3 per area resident.

§ 306.18 EDA security with respect to assets of the applicant.

EDA's financial assistance will usually be secured either directly or indirectly by liens or assignments of rights in assets of the applicant as follows:

(a) In order to encourage financial participation in a direct fixed asset loan project by other lenders and investors and to the extent necessary, the EDA loan may be repayable only after other loans made in connection with the project have been repaid in full. The lien position of EDA may be subordinate and made inferior to lien or liens securing other loans made in connection with the project.

(b) In projects involving EDA direct working capital loans, EDA will normally obtain collateral such as liens on inventories, receivables and/or fixed assets. Such liens may be subordinate only to existing liens of record.

(c) In projects involving EDA guaranteed loans, the lending institution ordinarily will be required to maintain a collateral position, to which EDA is subrogated, in the assets of the borrower and/or principals of the borrower such as by taking liens on inventories, receivables, and/or fixed assets. However, such liens if taken on fixed assets will not be placed by EDA subordination into a prior position to liens securing loans previously made or guaranteed under the ARA or EDA programs.

(d) In lease guaranty projects and other projects involving leased assets, EDA will require such collateral as is appropriate.

(e) Regardless of the type of EDA financial assistance extended, full personal guarantees of principals of applicant and/or related corporate guarantees by closely held corporate applicants or by the parent corporation of subsidiary corporate applicants, secured by collateral where deemed necessary, will be ordinarily required. Likewise, cross guarantees of related corporations will be required when deemed necessary to properly support the EDA financial assistance.

(1) Guarantees should be understood to provide not only additional collateral benefits, but also to provide the necessary personal involvement of the principals required to provide assurance of continuity of job opportunities provided by the project.

(2) Applicants will provide, in the case of personal guarantors, current (not over ninety days old at the time of filing) personal financial statements signed by both husband and wife and disclosing community and individual assets and indebtedness.

(f) In addition to the above types of security, EDA may also require security in the form of assignment of patents and licenses, the acquisition of hazard and other forms of insurance, and such other additional security as the Assistant Secretary determines is necessary to support EDA's exposure.

(g) Applications submitted by closely held corporations, partnerships, or proprietorships dependent for their continuing success on certain individuals will ordinarily be expected to provide and assign to EDA life insurance on these key men.

(h) In projects involving EDA guarthe financial assistance (and assigned institutions or of leases, if the lender or lessor secured by the EDA guaranty is also secured by a third party with respect to its exposure remaining above the EDA guaranteed portion, the guaranty agreement shall be modified to provide that any interest which the secured party would receive in the collateral taken for the financial assistance (and assigned to EDA upon redemption) shall not be subrogated to the third party's interest if the third party is a principal or equity shareholder in the applicant until all of the applicant's indebtedness to EDA is paid in full. The purpose of this provision is to ensure that those persons responsible through ownership for the operation of a project do not share in the proceeds of collateral until EDA recovers fully against all its exposures.

(i) Nothing contained in this section shall affect the subordinate lien position required for standby loans under § 306.14.

§ 306.19 Special considerations for projects located in economic development centers or in non-designated areas of economic development districts.

(a) Financial assistance approved for projects located in economic development centers shall be subject to the following restrictions and limitations:

(1) The project must be consistent with a currently approved OEDP for the economic development district.

(2) The amount of the business development loan approved must be reasonably related to the size, population, and economic needs of such district.

(3) The project must enhance the economic growth potential in such district or result in additional long-term employment opportunities commensurate with the amount of financial assistance extended.

(b) Financial assistance approved for projects located in non-designated areas in economic development districts shall be subject to the following restrictions and limitations:

(1) The project will be of substantial direct benefit to a redevelopment area within the district.

(2) The project must be consistent with a currently approved OEDP for the district.

(3) A finding by the State(s), or any agency, instrumentality, or local political subdivision thereof that the project is consistent with the district OEDP.

§ 306.20 Project financing.

Each project will be evaluated with the intent of obtaining a financing structure which demonstrates a minimum EDA participation in project financing to accomplish the project with maximum reliance on equity and junior lenders. Moreover, an EDA participation of $10,000 per job will ordinarily be the maximum acceptable for any particular project. In calculating the EDA participation per job, indirect jobs created in other parts of the local economy will not be considered. Seasonal jobs will be converted into full time job equivalents.

§ 306.21 Financing information.

The following information shall be included with respect to all participants, other than EDA, in project financing:

(a) A written commitment or firm letter of intent from each participating lending institutions stating amount, interest rate, repayment terms, collateral and lien position it will require, or such other evidence as EDA may require to assure availability of funds. EDA requires that the proposed project financing upon which it bases a decision to lend remain firm, in order to obviate the lengthy reanalysis required by financing alterations after EDA acceptance of an application.

(b) A written commitment by the applicant to provide equity funds, stating both the source and actual availability of funds and/or assets to be injected, and the names of the principal shareholders or owners.

(c) Where applicable, a written commitment of the participating local development organization or public body, where applicable, stating amount of commitment, interest rate, repayment terms, collateral and lien position required.

(d) Where applicable a determination of the source and actual availability of local development organization funds or assets to be injected.

(e) A statement of any special conditions attaching to the financing arrangements proposed.

§ 306.22 Restrictive covenants on operations.

Conditions for the granting of EDA financial assistance for new ventures, closely held corporations and all marginally capitalized applicants shall include restrictive convenants similar to those required by private financial lending institutions except in cases in which modification or omission of one or more of them can be clearly shown not to jeopardize reasonable assurance of repayment of the financial assistance and the long-term continuity of the project's employment. Restrictive convenants for well-capitalized business expansion borrowers will be tailored to the financial status of individual companies.

§ 306.23 Indian reservation projects.

In view of the inherent problems of collateralizing financial assistance for projects to be located on Indian reservations due to the inability to obtain mortgages on such lands, project funding should afford EDA maximum collateral protection without undue hardship on the borrower. A lease agreement will enable EDA, in the event of a default, to reassign the right of occupancy to a third

XUM
DEC 30 1974
XUM

party and thereby improve the chances for continued operation of the project and the preservation of collateral value.

§ 306.24 Feasibility reports.

(a) All applications for financial assistance for new ventures involving a total project costing $1 million or more shall be accompanied by a technical and economic feasibility report from an acceptable independent consultant. New venture projects of less than $1 million must be accompanied by sufficient documentation to permit a determination by EDA of technical and economic feasibility.

(b) In projects which are expansions of a successful existing business or projects sponsored by a capable and financially sound parent organization, the requirement for a technical and economic feasibility report from an acceptable independent consultant may be waived by EDA. However, the prospective borrower shall provide all technical and economic information necessary for EDA to properly evaluate the application.

(c) An economic feasibility report from an acceptable independent consultant in connection with projects involving tourism and recreation facilities will be required if the cost of the proposed project exceeds $150,000. Evidence must be submitted that the proposed facility will provide services or have special attributes that tend to induce a net increase in tourist visits to the area and is part of a larger, area-wide program expected to attract tourists and provide jobs in the area. In cases where total project investment is less than the above minimums, sound judgment may require an independent feasibility study in light of the specific nature of the project.

Subpart B—Project Closing and Servicing

§ 306.31 Project closing.

EDA projects are closed and disbursed in accordance with detailed policies and procedures as set forth in the Office of Business Development Guide to Loan Closing. The major activities engaged in during this period are as follows:

(a) At the time an application for EDA financial assistance is approved by the Assistant Secretary, he also approves the primary document on which the financial assistance will be given; either a loan agreement or a guaranty agreement. The signed agreement is offered to the appropriate party for its acceptance, at which time a binding legal agreement between EDA and the applicant or guaranteed party takes effect. A preclosing conference will be arranged by the Regional Director, whenever the applicant requests one, to discuss the terms and conditions contained in the agreement and how these terms and conditions can be met.

(b) Immediately after acceptance, the Regional Office shall arrange with the applicant for the preparation, review, and signing of the promissory note, or lease, collateral documents, and other documents necessary for the financial assistance.

(c) Periodic inspections of construction of projects involving fixed assets will be made by the Regional Office to determine the satisfactory progress of the project and application of monies toward implementation of the project as set forth in the agreement. Particular attention will be paid to financial or management changes which might adversely affect the project. The Regional Office will, for example, determine whether there is: conformance with plans and specifications, proper installation of equipment, sufficiency of funds for the completion of the project, substantiation of costs incurred, proper labor costs for compliance with the Davis-Bacon Act, and EDA approval of contract change orders.

(d) Disbursements of direct EDA loans will be made after a request by the borrower, to the Regional Office, on EDA Form ED-270, "Borrower's Certification of Current Status and Request for EDA Action." The disbursement will be based on costs incurred as certified to EDA at such time or times as the Regional Office shall require. Certifications as to project costs are made on EDA Form ED-268 "Status of Payments on Project Accounts." Certifications as to the status of project construction for projects involving fixed assets are made on EDA Form ED-269, "Business Loan Project Inspection and Certification of Project Acceptability." Requests for disbursement shall be supported by such documents as the Regional Office may require; for example, but not limited to, copies of unpaid invoices to be paid from disbursement; copies of fully paid invoices together with lien waivers, where apropriate; and copies of cancelled checks. The Regional Office may withhold 10% of all requested disbursements on all project costs except land costs. When the Regional Office determines that the status of the project is such as would place EDA's interest in jeopardy, the Regional Office may withhold a greater percentage after stating in writing to the borrower the basis for such decision. The borrower shall, on EDA Form ED-265, "Disbursement of Business Loan Funds," acknowledge receipt of each disbursement made by EDA.

(e) Requests by an applicant for a modification of the terms on which its EDA financial assistance has been extended shall be submitted to the Regional Director, supported by such documentation and facts as would justify the requests.

§ 306.32 Project servicing.

EDA personnel will make periodic visits to projects until such time as the financial assistance has been fully repaid. Such personnel will consult with employees and officers of the applicant and obtain such information as is necessary to determine the employment levels as well as the soundness of its financial condition and management. Requests by an applicant for a modification of the terms on which its EDA financial assistance has been extended shall be submitted to the Regional Director, supported by such documentation and facts as would justify the requests.

§ 306.33 Liquidation and administration of loans, guarantees and evidences of indebtedness.

In the event that the Assistant Secretary determines it is necessary or desirable to take actions to protect or further the interests of EDA in connection with loans or guarantees made or evidences of indebtedness purchased under the Act, the Assistant Secretary may:

(a) Assign or sell at public or private sale, or otherwise dispose of for cash or credit, in his discretion and upon such terms and conditions as he shall determine to be reasonable, any evidence of debt, contract, claim, personal or real property, or security assigned to or held by him in connection with financial assistance extended under the Act.

(b) Collect or compromise all obligations assigned to or held by him in connection with EDA financial assistance projects until such time as such obligations may be referred to the Attorney General for suit or collection.

(c) Take any and all other actions determined by him to be necessary or desirable in purchasing, servicing, compromising, modifying, liquidating, or otherwise administratively dealing with or realizing on loans or guarantys made or evidences of indebtedness purchased under the Act.

PART 307—TECHNICAL ASSISTANCE, RESEARCH, AND INFORMATION

28. Part 307 is amended by adding a new Subpart D to read as follows:

Subpart D—State and Local Economic Development Planning Grants

Sec.

307.50 Purpose.
307.51 Objectives.
307.52 Eligible applicants.
307.53 Submission of applications.
307.54 Application requirements.
307.55 Grant limitations.
307.56 Annual reports.
307.57 Coordination.
307.58 Requirements.

Subpart D—State and Local Economic Development Planning Grants

§ 307.50 Purpose.

The purpose of this subpart is to set forth regulations pursuant to which eligible applicants may apply for and receive direct grants for economic development planning under section 302 of the Act.

§ 307.51 Objectives.

(a) A primary objective of planning grants is to provide and strengthen the economic development planning capabilities of States. Another objective of such grants is to strengthen the economic planning capabilities of substate level planning entities.

(b) The emphasis of economic development planning shall be directed toward the reduction of chronic unemployment and the enhancement of low income levels.

(c) Any overall State economic development planning shall be a part of a comprehensive planning process that involves public officials and private citizens in analyzing local economies, defining development goals, determining

project opportunities and formulating and implementing development programs. This planning process shall be conducted cooperatively by the State, cities and other political subdivisions and economic development organizations (including redevelopment areas and economic development districts) located in whole or in part within the State, and shall incorporate the goals and objectives of local and economic development district planning.

(d) Planning grants for cities, other political subdivisions, and sub-State planning and development organizations shall be used to develop plans to reduce unemployment and increase incomes.

(e) Additionally, grants may be made to economic development districts to enable them to:

(1) Provide technical assistance other than by grant to local governments within the districts.

(2) Carry out review procedures required under Title IV of the Intergovernmental Cooperation Act of 1968, if designated by the State to conduct this review.

§ 307.52 Eligible aplicants.

Eligible applicants are:

(a) The Governor of a State or an agency designated by him, and the Chief Executive Officer of the District of Columbia, Puerto Rico, Virgin Islands, Guam and American Samoa.

(b) Chief Officer of governing bodies of sub-State planning units, economic development districts, and redevelopment areas.

(c) Chief executive of cities and counties meeting EDA eligibility criteria and not located wholly within larger bulticounty planning and development organizations receiving planning funds under section 301 of the Act.

(d) Chief Executives of cities, counties, and redevelopment areas in multicounty organizations receiving funds under section 301 of the Act whose applications are endorsed by the Boards of the multi-county organizations, and who demonstrate exceptional need for planning assistance, beyond that provided through the multi-county organization, for planning activities other than on going administrative support, the preparation of original OEDP documents, updated OEDP documents or OEDP reports, and other activities usually funded under section 301(b) of the Act.

(e) Eligible applicants cited under this subpart, if the Secretary determines that planning assistance is necessary and other funds are not avaliable to develop a plan required by Title IX of the Act.

§ 307.53 Submission of applications.

An initial request for assistance shall be submitted to the Assistant Secretary. If the Assistant Secretary approves the initial request, the applicant may submit an application.

§ 307.54 Application requirements.

An application shall indicate the scope of the proposed planning activity, and provide evidence that the grantee will meet the following requirements:

(a) Where the grantee is a State:

(1) That the grant shall be administered by the Governor or by an agency he designates as responsible for the comprehensive economic development planning process.

(2) That an ongoing economic development process exists or will be established. This process shall incorporate the goals and objectives of sub-State planning programs and procedures to assure that State and sub-State development activities are not contradictory. This process shall allow for the expression of private views. While this planning process shall be concerned with all aspects of State economic development, emphasis shall be placed on the development of a meaningful, coordinated policy toward geographic areas with persistent unemployment and low incomes.

(3) That the results of the planning process shall be incorporated in the executive decisionmaking process in some formalized manner. The emphasis of the assistance, however, is on the planning process rather than the production of a plan.

(b) Where the grantee is a sub-State planning district or economic development district:

(1) That technical assistance provided by districts to local governments under section 302(b) of the Act shall increase their capabilities to participate in ongoing district planning programs.

(2) That A-95 review procedures funded under title III shall be consistent with the purpose of the Act.

(3) That districts funded under section 302(a) of the Act shall participate with the State in developing procedures for incorporating the goals of their on going economic development programs into the State's comprehensive planning process and for reflecting State goals and objectives as they impact on the district plans.

(c) Where the grantee is a city or county:

(1) That the grant shall be administered by the Chief executive officer of a unit of government which has authority to undertake broad planning activities and develop a continuous planning process.

(2) That planning shall involve both public officials and private citizens. If no procedure exists for this involvement, a special planning committee of public and private citizens broadly representative of the community should be established in the Office of the Mayor or county executive.

(3) That the primary emphasis of the planning process shall be on the formulation of a program to reduce unemployment and increase incomes.

(4) That a systematic approach shall be taken to analyze the local economy, define development goals, determine project opportunities, and formulate and implement a development program. OEDP or other guidelines for areas may be used in accomplishing this requirement.

(5) That, if a city or county is located in a larger economic development planning unit, activities funded with a planning grant shall be coordinated with the larger unit.

§ 307.55 Grant limitations.

Planning grants shall be made on terms established by the Assistant Secretary subject to the following limitations:

(a) Grants may not cover the costs of work already performed or of services already provided.

(b) Grants under section 302 may be provided in addition to assistance available under section 301(b) of the Act, but may neither suppiant this assistance nor fund activities usually funded under 301(b) including on going administrative support and the preparation of original OEDP documents, updated OEDP documents or OEDP reports.

(c) A planning grant may not exceed 75 percent of the total amount of funds required for the project.

(d) No Federal funds may be included in the 25 percent non-Federal share.

(e) In determining the amount of the non-Federal share, the Assistant Secretary shall give consideration to contributions both in cash and in-kind.

(f) This assistance shall be provided in accordance with the review procedure required under Title IV of the Intergovernmental Cooperation Act of 1968, as amended, and shall be used in conjunction with any other available Federal planning assistance to further the comprehensive nature of this planning program, and to assure the efficient utilization of all available planning resources in the achievement of the objectives of this grant.

(g) Grantees will conform to EDA financial requirements including those requirements promulgated in Federal Management Circular (FMC) 74-7 (OMB Circular A-102).

§ 307.56 Annual reports.

Grant recipients shall submit to the Assistant Secretary an annual report 60 days before the anniversary of their grants. The report shall include:

(a) States.

(1) How requirements in section 307.54 have been met.

(2) Review and evaluation of the planning process supported and program activities undertaken in relation to the specific goals and objectives described in the grant agreement.

(3) Policy, planning and development documents that have resulted from the assisted planning activities.

(b) Sub-State Planning Districts and Economic Development Districts.

(1) Cooperative procedures established to include district information in the State planning process, if funded for this purpose.

(2) Planning information exchanged with the State and other districts, and an evaluation of how this has affected

XUM V 39 I 251 DEC 30 1974 XUM V

the district's ability to achieve its development goals, if funded for this purpose.

(3) Review and evaluation of the planning process supported and program activities undertaken in relation to the specific goals and objectives described in the grant agreement.

(4) For grants under 302(b) of the Act, describe the nature of the technical assistance provided to local governments and document the results.

(5) Description of the A–95 review process funded under 302(b) of the Act, and improvements made in relating it to the State planning process.

(c) Cities and Counties. Review and evaluation of the planning process supported and program activities undertaken in relation to the specific goals and objectives described in the grant agreement.

§ 307.57 Coordination.

The Secretary through the Assistant Secretary for Economic Development shall coordinate his activities in making grants under this subpart with the Title V Regional Commissions and the Appalachian Regional Commission acting through the Federal and State Cochairman. Where a project is to be located wholly or partially within the boundaries of a Title V or the Appalachian region, or is of national or regional significance, the Federal and State Cochairman shall be furnished notice of project activity during the early phases of development and be kept advised of significant developments through the application review and final grant process.

§ 307.58 Requirements.

Part 309 of EDA's Rules and Regulations, as amended, apply to planning grants under this subpart.

29. A new Part 308 is added to read as follows:

PART 308—SPECIAL ECONOMIC DEVELOPMENT AND ADJUSTMENT ASSISTANCE GRANTS

Subpart A—Requirements for Adjustment Grants Under Title IX

Sec.
308.1 Purpose.
308.2 Definitions.
308.3 Applications.
308.4 Award of Adjustment Grants.
308.5 Use of Adjustment Grants.
308.6 Planning Requirements.

Subpart B—Specific Uses of Grants to Carry Out Economic Adjustment

308.21 Purpose.
308.22 Definitions.
308.23 Public Facilities.
308.24 Business Development.
308.25 Planning, Research and Technical Assistance.
308.26 Unemployment Compensation.
308.27 Other Uses.
308.28 General Requirements.

Subpart C—Reports

308.50 Purpose.
308.51 Reports by Eligible Recipients.

AUTHORITY: Sec. 701, Pub. L. 89–136 (August 26, 1965); (42 U.S.C. 3211), 79 Stat. 570 and Department of Commerce Organization Order 10–4, April 1, 1970 (35 FR 5970).

Subpart A—Requirements for Adjustment Grants Under Title IX

§ 308.1 Purpose.

The purpose of this part is to set forth the requirements and procedures under which eligible recipients may receive grants under title IX of the Act.

§ 308.2 Definitions.

"Eligible recipient" as used in this part means a redevelopment area or economic development district established under title IV of this Act, an Indian tribe, the Governor of a State or a State agency designated by him, a city or other political subdivision of a State, or a consortium of such political subdivisions.

§ 308.3 Applicants.

Eligible recipients as defined in section 308.2 may apply for grants.

§ 308.4 Award of adjustment grants.

(a) The Assistant Secretary may make grants directly to an eligible recipient in an area which the Secretary determines has experienced, or may reasonably be foreseen to be about to experience, a special economic development need. This need may arise from actual or threatened severe unemployment caused by economic dislocation, including unemployment caused by actions of the Federal Government or by compliance with Federal regulations, and economic adjustment problems resulting from severe changes in economic conditions. Grants will not be made which would have the purpose and effect of replacing the efforts of the economic adjustment program of the Department of Defense.

(b) The Assistant Secretary may approve a plan or planning application if he finds that it meets the requirements of section 308.6, and is satisfied that the projects included in the plan will be properly and efficiently administered, operated, or maintained. The approval by the Assistant Secretary of a plan or the making of an adjustment grant depends on a number of factors which may include the following:

(1) The level of appropriations for title IX.

(2) The severity of the economic adjustment problem.

Preference will be given to situations where at least 500 jobs, or a significant percent of jobs in the planning area have been threatened or affected.

(3) The responsiveness of the plan to severe unemployment and adjustment problems.

(4) The degree to which the plan is anticipatory and innovative to meet either an abrupt or erosive change in economic conditions.

(5) The capability of the eligible recipient to solve these problems.

(6) The relation between the title IX funds needed to implement the plan and the degree to which the plan would carry out the purpose of title IX.

(7) The level of unemployment of the area.

(8) The element of joint involvement of State and sub-state entities in the projects.

(c) Approval of a plan or planning application is a prerequisite for a grant, but approval of a plan does not obligate the Assistant Secretary to make a grant, nor does approval of a plan require funding at the full level requested.

§ 308.5 Use of adjustment grants.

Grants shall be used to develop or carry out economic adjustment plans. Disbursement of grants by eligible recipients shall be in accordance with plans or planning applications submitted under § 308.6, and the following requirements;

(a) Adjustment grants received by eligible recipients to develop plans shall be used to develop plans that meet the requirements of section 308(a). The purpose of these grants is to assist eligible recipients to qualify for title IX grants to carry out their plans. The awarding of a grant to develop a plan, however, does not obligate the Assistant Secretary to make a subsequent grant to carry out the plan.

(b) An Adjustment grant received by an eligible recipient to carry out a plan may be used for one or more of the following purposes:

(1) Public facilities;
(2) Business Development;
(3) Planning;
(4) Research;
(5) Technical assistance;
(6) Public services;
(7) Rent supplements;
(8) Mortgage payment assistance;
(9) Relocation of individuals;
(10) Training;
(11) Unemployment compensation if the eligible recipient is a State; and
(12) Other appropriate assistance.

(c) Adjustment grants to carry out a plan may be disbursed by eligible recipients through direct expenditures or through redistribution by them to public and private entities in grants, loans guarantees, or other appropriate assistance. No grant, however, may be made by eligible recipients to a private profit-making entity.

§ 308.6 Planning requirement.

(a) Plans submitted by eligible recipients to the Assistant Secretary as a prerequisite for qualifying for a grant to carry out economic adjustment under title IX shall be consistent with planning goals and objectives which may have been developed under section 302 of the Act and shall contain the following:

(1) An identification of each economic development and adjustment need of the area for which assistance is sought. This should be an explanation of anticipated or existing economic problems and their impact on the eligible recipient.

(2) A description of each activity planned to meet each need. This explanation should include all activities that the eligible recipient has taken or plans to take regardless of whether funding is sought for them under title IX, and should indicate how each activity will contribute to the solution of economic problems.

(3) An explanation of the method of carrying out each planned activity. This should be an explanation for each activity of the amount of funds spent or

needed, how each activity was or will be financed and brought into operation, and how each activity is or will be operated. The costs for each activity proposed to be funded under title IX should be broken down into construction or start up costs, and operating costs. A plan should clearly indicate how a grant under title IX, if made by the Assistant Secretary, would be used.

(4) A statement regarding the goals of each planned activity. For example, a public health project might provide employment for 100 people, treat 3,000 people a year, and induce new industry to move into an area.

(5) Assurances, if an eligible recipient intends to redistribute funds provided in a title IX grant through loans, that the proceeds from the repayment of the loans will be used for economic adjustment in a manner consistent with title IX. Assurances shall include a contractual agreement between EDA and the eligible recipient describing how repayment proceeds will be used.

(6) Evidence that the plan was developed in cooperation with regional commissions, States, political subdivisions, Indian tribes, and economic development organizations (including redevelopment areas and economic development districts) that, based on reasonable expectations, may be affected by implementation of the plan.

(7) An identification and analysis of the potential environmental impacts of the planned activities, including identifiable projects.

(b) Planning applications submitted by eligible recipients to the Assistant Secretary as a prerequisite for a grant to develop a plan required under subsection (a) shall contain the following:

(1) An identification of each economic development and adjustment need of the area for which assistance is sought. This should be a detailed explanation of anticipated or existing economic problems and their impact on the eligible recipient. The amount of detail, however, does not have to be as great as in paragraph (a)(1), and may be altered in the subsequent plan.

(2) A description of each activity planned to meet each need. This may be a very tentative identification of activities that the eligible recipient has taken or may take to solve economic problems. This description may be brief, and may be altered in the subsequent plan.

(c) In submitting plans or planning applications, the review procedures of Office of Management and Budget Circular A-95, as amended, shall be followed. Eligible recipients shall also provide copies of their plans or planning applications to the State, and if applicable, the Regional Commission in which the eligible recipient is located. States and Regional Commissions may comment on plans and planning applications, and the Assistant Secretary shall give due consideration to their comments prior to awarding an adjustment grant.

Subpart B—Specific Uses of Grants To Carry Out Economic Adjustment

§ 308.21 Purpose.

The purpose of this Subpart is to elaborate upon the specific uses of grants to carry out economic adjustment § 308.5(b) listed how title IX grants may be used, and their Subpart states requirements regarding each specific use.

§ 308.22 Definitions.

As used in this Subpart, individual specific uses of grants have the following meanings.

(a) "Public facilities" means public works, and development facility projects of a nature that EDA assists under title I and section 201 of the Act.

(b) "Business development" means industrial and commercial projects of a nature that EDA assists under section 202 of the Act.

(c) "Planning, Research and Technical Assistance" means technical assistance and related activities of a nature that EDA undertakes under title III of the Act.

(d) "Unemployment compensation" means unemployment compensation provided by the Secretary of Labor.

(e) "Public services" means a program established to provide temporary employment in public service where such is a material part of the plan for economic adjustment assistance to the area.

§ 308.23 Public facilities.

(a) An adjustment grant may be used for a public facility if the public facility has a reasonable relation to the purpose of title IX. Grants may be used for the acquisition or development of land and improvements for public works or development facility usage; the acquisition, construction, rehabilitation, alteration, expansion, or improvement of these facilities, including related machinery and equipment; and the operation of these facilities.

(b) An eligible recipient may redistribute an adjustment grant by grant or loan to a private or public nonprofit organization or association, but not to a private profitmaking entity.

(c) Title IX grants may be used for part or all of the cost of the activities described in this section.

§ 308.24 Business development.

(a) An adjustment grant may be used for business development if the business development has a reasonable relation to the purpose of title IX. Grants may be used for the purchase, development and operation of land and facilities (including machinery and equipment) for industrial or commercial usage, including the contruction of new buildings, the rehabilitation of abandoned or unoccupied buildings, and the alteration, conversion, or enlargement of existing buildings by (A) purchasing evidences of indebtedness, (B) making loans and working capital loans (which may include participation in loans), (C) guaranteeing loans and working capital loans made to private borrowers by private lending institutions for any of the purposes of this subsection upon application by the lending institution, and (D) guaranteeing rental payments of leases for buildings and equipment.

(b) Title IX grants may be used for funding part or all of the cost of the activities described in this section.

§ 308.25 Planning, research and technical assistance.

(a) An adjustment grant may be used for planning, research and technical assistance if these activities have a reasonable relation to the purpose of title IX. Grants may be used for project planning; feasibility studies; management and operational assistance; administrative expenses; studies evaluating the needs of, and developing potentialities for, economic growth; and other related activities. This assistance is in addition to assistance available under title III of the Act.

(b) Title IX grants may be for part or all of the costs of the activities described in this section.

§ 308.26 Unemployment compensation.

(a) If the Assistant Secretary determines that payment of unemployment compensation will materially contribute to the economic adjustment of an area and such assistance is not otherwise available he may include as part of an adjustment grant an amount to be transferred to the Secretary of Labor for purposes of unemployment compensation in accordance with section 903(d) of the Act.

(b) Adjustment grant funds for unemployment compensation may be made available only to States. The eligible recipient, therefore, shall be a State, or obtain a prior agreement with the State to administer these funds.

§ 308.27 Other uses.

(a) Adjustment grants may be made available by the Assistant Secretary for public services, rent supplements, mortgage payment assistance, relocation of individuals, training, and for other appropriate purposes if reasonably related to the purposes of title IX, and if useful to carry out a plan.

(b) Grants may be used to assist in the relocation of unemployed workers and their families living with them when it is reasonably clear that alternative employment for them will not occur in their location during the process of long range economic adjustment and when such assistance is not available under the Comprehensive Employment and Training Act of 1973.

§ 308.28 General requirements.

(a) An eligible recipient shall agree that it will as a condition precedent to utilizing Title IX grant funds through direct expenditures, or through redistribution by grants, loans, loan guarantees or other appropriate assistance, determine with respect to the project or activity proposed to be assisted, and certify to the Assistant Secretary with supporting evidence that:

XUM V 39 N 251 DEC 30 1974 XUM V

(1) Such project or activity complies with the requirements and conditions set forth in §§ 309.1, 309.3, 309.4, 309.5, 309.6, 309.9, 309.14, 305.15 and Part 310 of these regulations, and section 702 of the Act, and that

(2) The recipients of the grant or loan or the beneficiaries of any guarantee (or "other parties" as defined in 15 CFR Subtitle A, Part 8) have executed assurances of compliance with Title VI of the Civil Rights Act of 1964, as amended; with Civil Rights Regulations of the Department of Commerce (15 CFR, Subtitle A, Part 8, as amended); and with Section 112 of Public Law 92–65 relating to discrimination on the basis of sex.

(b) In addition to the certification required by paragraphs (1) and (2) immediately above, an eligible recipient shall provide sufficient environmental data as required by the Assistant Secretary to assist him in determining that the requirements of the National Environmental Policy Act and the National Historic Preservation Act have been met with respect to the project or activity proposed to be assisted. Compliance with these requirements shall be a condition precedent to utilizing title IX grant funds. When the Agency's environmental review process reveals conditions or safeguards which should be implemented when the adjustment grant is to be undertaken in order to protect or enhance environmental quality, or minimize adverse environmental impacts, such conditions or safeguards shall be set forth in the Agency's environmental review record, shall be specified as requirements of the adjustment grant and in any applicable third party contract respecting the grant, and shall be implemented or caused to be implemented by the grantee.

(c) The retention and custodial requirements for records specified in Federal Management Circular 74–7 (Office of Management and Budget Circular A–102), as amended, shall be followed.

(d) After making an adjustment grant, the grantee must provide assurance satisfactory to the Secretary regarding each specific project to be funded under title IX that such project is consistent with title IX and the general purposes of the Act.

Subpart C—Reports

§ 308.50 Purpose.

The purpose of this subpart is to describe required reports.

§ 308.51 Reports by eligible recipients.

An eligible recipient which receives title IX assistance directly from the Assistant Secretary shall make a complete report each year that the assistance continues and for one year thereafter to the Assistant Secretary. The report shall include:

(a) Whether planned activities are completed and operational, and, if not completed, when it is anticipated they will be completed;

(b) The costs incurred for each activity partially completed, and completed;

(c) The operational costs of activities if operational;

(d) The degree to which activities have achieved their planned goals as described in the original plan;

(e) A general evaluation of the effectiveness of the title IX assistance provided to the recipient; and

(f) The compliance status and effectiveness of any conditions or safeguards specified as requirements of the adjustment grant.

PART 309—GENERAL REQUIREMENTS FOR FINANCIAL ASSISTANCE

30. Section 309.7 is amended by amending paragraph (a) to read as follows:

§ 309.7 Employment of expediters or administrative employees; compensation of persons engaged by or on behalf of applicants.

(a) No application or plan for financial assistance shall be approved by EDA under sections 101, 201, 202, 301, 403, or 903 of the Act unless the applicant:

* * * * *

31. Section 309.10 is amended by amending the first sentence to read as follows:

§ 309.10 Assurance of job opportunities for the unemployed.

(a) Applicants for business development loans under section 202 of the Act and direct and substantial beneficiaries of title IX grants and EDA assisted public works project * * *

* * * * *

32. A new Part 312 is added to read as follows:

PART 312—SUPPLEMENTAL AND BASIC ASSISTANCE UNDER SECTION 304 OF THE ACT

Sec.

312.1 Purpose.
312.2 Apportionment among States.
312.3 State Matching Share.
312.4 Selection and qualification of projects for supplementary assistance.
312.5 Selection and qualification of projects for basic grant or loan assistance.
312.6 Construction Management and Disbursement.
312.7 Conditions for disbursement of funds.

AUTHORITY: Sec. 701, Pub. L. 89–136 (August 26, 1965); (42 U.S.C. 3211), 79 Stat. 570 and Department of Commerce Organization Order 10–4, April 1, 1970 (35 FR 5970).

§ 312.1 Purpose.

The purpose of this subpart is to set forth the requirements and procedures governing the extension of assistance under Section 304 of the Act.

§ 312.2 Apportionment among States.

The Assistant Secretary shall determine as of the end of each fiscal year the total of all grants obligated for each State under Title I of the Act since August 26, 1965, and the total of all such grants obligated for all the States since August 26, 1965. Funds appropriated and made available for carrying out the purpose of Section 304 of the Act shall be obligated to the several States in the ratio that grants obligated in each State under Title I from August 26, 1965, to the end of the preceding fiscal year bear to the total of all such grants made to all States during the same period. The obligation of Section 304 funds to the States shall be effected by an agreement or acceptance setting forth or identifying the terms and conditions for the use and availability of such funds, which shall include the provisions of Section 304 of the Act and rules and regulations issued by the Assistant Secretary pursuant thereto.

§ 312.3 State matching share.

Funds obligated to a State shall be available for supplementing or making grants and loans authorized under Titles I, II and IV of the Act for projects within such States provided that the State makes a contribution which is equal to at least 25% of the funds being made available to a particular project from funds appropriated under Section 304 of the Act. Participations in or contributions to a project by local subdivisions of a State or private individuals or organizations shall not be deemed contributions by the State as required by this section.

§ 312.4 Selection and qualification of projects for supplementary assistance.

The selection of projects to be assisted by the use of funds in supplementing grants or loans made by EDA under Titles I, II or IV of the Act shall be made by the States and communicated to the Assistant Secretary on forms prescribed by the Assistant Secretary. Eligibility and compliance of a project for assistance shall be determined by the Assistant Secretary incident to the evaluation of the application for the underlying basic grant or loan assistance for such project.

§ 312.5 Selection and qualification of projects for basic grant or loan assistance.

(a) In those cases where the States propose to use funds for basic grant or loan assistance for projects meeting requirements for assistance under Titles I, II, or IV of the Act, and for which funds have been determined to be unavailable by the Assistant Secretary under Titles I, II, or IV, the States shall communicate the proposed use of the funds to the Assistant Secretary on forms prescribed by the Assistant Secretary. A proposal shall contain or be accompanied by documentation or certification evidencing compliance with the requirements, conditions, and limitations as would be applicable to such project if it were being considered for funding under Titles I, II, or IV of the Act. Eligibility and compliance of a project for assistance shall be determined by the Assistant Secretary in the same manner as applicable to projects receiving only supplementary assistance under section 304 of the Act.

(b) A proposal by a State for the use of funds for a basic grant or loan shall

be accompanied by evidence that the principal governing authorities for the area in which a project is to be located have approved the project.

(c) Requests for the disbursement of funds for basic loans by a State shall be accompanied by assurances that the proceeds from the repayment of the loans will be used for economic development in a manner consistent with the Act. Assurances shall include a contractual agreement between EDA and the State describing how repayment proceeds will be used.

(d) Funds may not be used by a State as a grant to a private profitmaking entity.

§ 312.6 Construction management and disbursement.

Projects assisted through the use of funds in supplementing EDA grants or loans under title I, II, or IV of the Act or in providing basic grants or loans shall be subject to the same procedures and requirements relating to post-approval compliances, construction management, and disbursement as applicable to projects funded under title I, II, and IV of the Act.

§ 312.7 Conditions for disbursement of funds.

(a) It shall be a condition for the disbursement of funds that a State shall conform to the requirements of the Act and provide acceptable evidence of compliance with requirements conditions and limitations applicable to projects assisted under titles I, II, and IV of the Act. States shall be promptly notified of proposals which do not meet requirements.

(b) Subsequent to July 1, 1975, it shall be a condition for the disbursement of funds for any project that the State must make a showing:

(1) That such funds will be used in a manner consistent with the State planning process assisted under Subpart D of Part 307 if such a planning process has been established; or

(2) That such State is not receiving planning assistance under Subpart D of Part 307 but has an economic development planning process meeting the standards required for assistance under Subpart D of Part 307 and that the proposed use of funds is consistent with such planning process; or

(3) that the project is clearly of such nature that the Assistant Secretary may conclude that its implementation would not impair the benefits intended to be derived from an orderly economic development planning process.

(Sec. 701, Public Law 89-136 (August 26, 1965); 42 U.S.C. 3211; 79 Stat. 570 and Department of Commerce Organization Order 10-4, April 1, 1970 (35 FR 5970))

Effective date: These regulations will become effective on December 27, 1974.

Dated: December 19, 1974.

WILLIAM W. BLUNT, JR.,
Assistant Secretary for Economic Development.

Title 26—Internal Revenue

CHAPTER I—INTERNAL REVENUE SERVICE, DEPARTMENT OF THE TREASURY

SUBCHAPTER A—INCOME TAX

[T.D. 7337]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Increase in Alternative Capital Gains Tax

By a notice of proposed rulemaking appearing in the FEDERAL REGISTER for March 16, 1971 (36 FR 4986), amendments to the Income Tax Regulations (26 CFR Part 1) were proposed in order to conform such regulations to amendments made to the Internal Revenue Code of 1954 by section 511 of the Tax Reform Act of 1969 (83 Stat. 635), which are effective for taxable years beginning after December 31, 1969. After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the amendments of the regulations as proposed are hereby adopted, subject to the changes set forth below.

Under the new rules, the alternative tax on the excess of the net long-term capital gain over the net short-term capital loss is gradually increased from 25 percent to a maximum of 35 percent (30 percent in the case of a corporation), except with respect to subsection (d) gain. The subsection (d) gain remains subject to an alternative tax of 25 percent. Subsection (d) gain, as defined in section 1201(d) of the Code, means the sum of the long-term capital gains for the taxable year arising (1) in the case of amounts received before January 1, 1975, from sales or dispositions (other than gain from a transaction described in section 631 or 1235 of the Code) pursuant to binding contracts entered into on or before October 9, 1969; (2) in respect of distributions from a corporation made prior to October 10, 1970, which are pursuant to a plan of complete liquidation adopted on or before October 9, 1969; and (3) in the case of a taxpayer other than a corporation, from any other source, but the amount taken into account from such other sources is limited to an amount equal to the excess (if any) of $50,000 ($25,000 in the case of a married individual filing a separate return) over the sum of the gains described in (1) and (2) above.

The changes included herein change the proposed amendments published with the notice by revising the format of § 1.852-4(c) to take into account the changes made thereto by T.D. 7187, which appeared in the Federal Register for July 6, 1972 (37 FR 13254); by revising § 1.1201-1(f)(2)(iii) to make a technical change in the interest of clarity; by deleting § 1.1201-1(g), which referred the reader only to a definition given elsewhere; by replacing references in § 1.1201-1 to deleted paragraph (g) with references to section 1222(11); by deleting the revision of section 1222(9) in § 1.1222, which was effected by T.D. 7301, which appeared in the Federal Register for January 4, 1974 (39 FR 962); and by revising § 1.1378-3(b), in the interest of clarity.

In view of the foregoing, the amendments of the regulations as proposed are hereby adopted, subject to the changes set forth below:

PARAGRAPH 1. The amendment to paragraph (c) of § 1.852-4, as contained in paragraph 5 of the notice of proposed rulemaking, is changed to read that, in lieu of the proposed revision of paragraph (c), a new paragraph (c)(3) is added to read as set forth below.

PARAGRAPH 2. Section 1.1201-1, as set forth in paragraph 11 of the notice of proposed rulemaking, is changed by revising paragraphs (a)(1)(i), (b)(1), (f)(1), and (f)(2)(iii), by deleting paragraph (g), and by redesignating paragraph (h) as paragraph (g), as set forth below.

PARAGRAPH 3. The amendment to § 1.1222, as set forth in paragraph 12 of the notice of proposed rulemaking, is changed to read as set forth below.

PARAGRAPH 4. Section 1.1378-3, as set forth in paragraph 16 of the notice of proposed rulemaking, is changed by revising paragraph (b)(2) to read as set forth below.

(Sec. 7805, Internal Revenue Code of 1954; 68A Stat. 917 (26 U.S.C. 7805).)

[SEAL] DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

Approved: December 20, 1974.

ERNEST S. CHRISTIAN, JR.,
Acting Assistant Secretary of the Treasury.

PARAGRAPH 1. Section 1.802 is amended by revising section 802(a)(2) and the historical note to read as follows:

§ 1.802 Statutory provisions; life insurance companies; tax imposed; life insurance company taxable income defined.

SEC. 802. *Tax imposed*—(a) *Tax imposed.*

* * *

(2) *Alternative tax in case of capital gains.* If for any taxable year beginning after December 31, 1961, the net long-term capital gain of any life insurance company exceeds the net short-term capital loss, then, in lieu of the tax imposed by paragraph (1), there is hereby imposed a tax (if such tax is less than the tax imposed by such paragraph) which shall consist of the sum of—

(A) A partial tax, computed as provided by paragraph (1), on the life insurance company taxable income determined by reducing the taxable investment income, and the gain from operations, by the amount of such excess, and

(B) An amount determined as provided in section 1201(a) on such excess.

* * * * * *

[Sec. 802 as amended by sec. 2, Life Insurance Company Tax Act 1955 (70 Stat. 38); sec. 2, Life Insurance Company Income Tax Act 1959 (73 Stat. 115); sec. 3(b)(1), Act of Oct. 23, 1962 (Public Law 87-858, 76 Stat. 1136); sec. 235(c)(1), Rev. Act 1964 (78 Stat. 126); sec. 511(c)(1), Tax Reform Act 1969 (83 Stat. 637)]

PAR. 2. Section 1.802–3 is amended by revising paragraph (f)(2) to read as follows:

§ 1.802–3 Tax imposed on life insurance companies.

* * * * *

(f) *Tax imposed in case of certain capital gains.* * * *

(2) *Alternative tax in case of capital gains for taxable years beginning after December 31, 1961.* For taxable years beginning after December 31, 1961, if the net long-term capital gain (as defined in section 1222(7)) of any life insurance company exceeds its net short-term capital loss (as defined in section 1222(6)), section 802(a)(2) imposes an alternative tax in lieu of the tax imposed by section 802(a)(1), if and only if such alternative tax is less than the tax imposed by section 802(a)(1). The alternative tax is the sum of—

(i) A partial tax, computed as provided by section 802(a)(1), on the life insurance company taxable income determined by reducing the taxable investment income, and the gain from operations, by the amount of the excess of its net long-term capital gain over its net short-term capital loss, and

(ii)(*a*) In the case of a taxable year beginning before January 1, 1970, are amount equal to 25 percent of such excess, or

(*b*) In the case of a taxable year beginning after December 31, 1969, an amount determined as provided in section 1201(a) and paragraph (a)(3) of § 1.1201–1 on such excess.

In the computation of the partial tax, the deductions provided by sections 170 (as modified by section 809(a)(3)), 243, 244, 245 (as modified by sections 804(a)(5) and 809(d)(3)(B)), and the limitation provided by section 809(f), shall not be recomputed as a result of the reduction of taxable investment income, and gain from operations, by the amount of such excess. Except as modified by section 817 (rules relating to certain gains and losses), the general rules of the Code relating to gains and losses (such as the rules for determining the amount, characterization and treatment thereof) shall apply with respect to life insurance companies.

* * * * *

PAR. 3. Section 1.852 is amended by revising subparagraphs (A), (C), and (D)(ii) and (iii) of section 852(b)(3) and the historical note to read as follows:

§ 1.852 Statutory provisions; taxation of regulated investment companies and their shareholders.

SEC. 852. *Taxation of regulated investment companies and their shareholders.* * * *

(b) *Method of taxation of companies and shareholders.* * * *

(3) *Capital gains*—(A) *Imposition of tax.* There is hereby imposed for each taxable year in the case of every regulated investment company a tax, determined as provided in section 1201(a), on the excess, if any, of the net long-term capital gain over the sum of—

(i) The net short-term capital loss, and

(ii) The deduction for dividends paid (as defined in section 561) determined with reference to capital gains dividends only.

* * * * *

(C) *Definition of capital gain dividend.* For purposes of this part, a capital gain dividend is any dividend, or part thereof, which is designated by the company as a capital gain dividend in a written notice mailed to its shareholders not later than 45 days after the close of its taxable year. If the aggregate amount so designated with respect to a taxable year of the company (including capital gains dividends paid after the close of the taxable year described in section 855) is greater than the excess of the net long-term capital gain over the net short-term capital loss of the taxable year, the portion of each distribution which shall be a capital gain dividend shall be only that proportion of the amount so designated which such excess of the net long-term capital gain over the net short-term capital loss bears to the aggregate amount so designated. For purposes of subparagraph (A)(ii), the deduction for dividends paid shall, in the case of a taxable year beginning before January 1, 1975, first be made from the amount subject to tax in accordance with section 1201(a)(1)(B), to the extent thereof, and then from the amount subject to tax in accordance with section 1201(a)(1)(A).

(D) *Treatment by shareholders of undistributed capital gains.* * * *

(ii) For purposes of this title, every such shareholder shall be deemed to have paid, for his taxable year under clause (i), the tax imposed by subparagraph (A) on the amounts required by this subparagraph to be included in respect of such shares in computing his long-term capital gains for that year; and such shareholder shall be allowed credit or refund, as the case may be, for the tax so deemed to have been paid by him.

(iii) The adjusted basis of such shares in the hands of the shareholder shall be increased, with respect to the amounts required by this subparagraph to be included in computing his long-term capital gains, by 75 percent of so much of such amounts as equals the amount subject to tax in accordance with section 1201(a)(1)(A) and by 70 percent (72 percent in the case of a taxable year beginning after December 31, 1969, and before January 1, 1971) of so much of such amounts as equals the amount subject to tax in accordance with section 1201(a)(1)(B) or (2).

* * * * *

[Sec. 852 as amended by sec. 2(a), Act of July 11, 1956 (Public Law 700, 84th Cong., 70 Stat. 530); secs. 39(a), 101 (a) and (b), Technical Amendments Act 1958 (72 Stat. 1638, 1674); sec. 10(b) (2) and (3), Act of Sept. 14, 1960 (Public Law 86–779, 74 Stat. 1009); sec. 229 (a) and (b), Rev. Act 1964 (78 Stat. 99); sec. 511(c)(2), Tax Reform Act 1969 (83 Stat. 637)]

PAR. 4. Section 1.852–2 is amended by revising paragraph (b) (1) and (2)(ii) to read as follows:

§ 1.852–2 Method of taxation of regulated investment companies.

* * * * *

(b) *Taxation of capital gains*—(1) *In general.* Section 852(b)(3)(A) imposes (i) in the case of a taxable year beginning before January 1, 1970, a tax of 25 percent, or (ii) in the case of a taxable year beginning after December 31, 1969, a tax determined as provided in section 1201(a) and paragraph (a)(3) of § 1.1201–1, on the excess, if any, of the net long-term capital gain of a regulated investment company (subject to tax under part I, subchapter M, chapter 1 of the Code) over the sum of its net short-term capital loss and its deduction for dividends paid (as defined in section 561) determined with reference to capital gain dividends only. For the definition of capital gain dividend paid by a regulated investment company, see section 852(b)(3)(C) and paragraph (c) of § 1.852–4. In the case of a taxable year ending after December 31, 1969, and beginning before January 1, 1975, such deduction for dividends paid shall first be made from the amount subject to tax in accordance with section 1201(a)(1)(B), to the extent thereof, and then from the amount subject to tax in accordance with section 1201(a)(1)(A). See § 1.852–10, relating to certain distributions in redemption of interests in unit investment trusts which, for purposes of the deduction for dividends paid with reference to capital gain dividends only, are not considered preferential dividends under section 562(c). See section 855 and § 1.855–1, relating to dividends paid after the close of the taxable year.

(2) *Undistributed capital gains.* * * *

(ii) *Effect on earnings and profits of a regulated investment company.* If a regulated investment company designates an amount as undistributed capital gains for a taxable year, the earnings and profits of such regulated investment company for such taxable year shall be reduced by the total amount of the undistributed capital gains so designated. In such case, its capital account shall be increased—

(*a*) In the case of a taxable year ending before January 1, 1970, by 75 percent of the total amount designated,

(*b*) In the case of a taxable year ending after December 31, 1969, and beginning before January 1, 1975, by the total amount designated decreased by the amount of tax imposed by section 852(b)(3)(A) with respect to such amount, or

(*c*) In the case of a taxable year beginning after December 31, 1974, by 70 percent of the total amount designated. The earnings and profits of a regulated investment company shall not be reduced by the amount of tax which is imposed by section 852(b)(3)(A) on an amount designated as undistributed capital gains and which is paid by the corporation but deemed paid by the shareholder.

PAR. 5. Section 1.852–4 is amended by revising paragraph (b) (1) and (2) and paragraph (c)(3) to read as follows:

§ 1.852–4 Method of taxation of shareholders of regulated investment companies.

* * * * *

(b) *Capital gains*—(1) *In general.* Under section 852(b)(3)(B), shareholders of a regulated investment company who receive capital gain dividends (as defined in paragraph (c) of this section), in respect of the capital gains of an investment company for a taxable year for which it is taxable under part I, subchapter M, chapter 1 of the Code, as a regulated investment company, shall treat such capital gain dividends as gains from the sale or exchange of capital assets held for more than 6 months and realized in the taxable year of the shareholder in which the dividend was received. In the case of dividends with respect to any taxable year of a regulated

investment company ending after December 31, 1969, and beginning before January 1, 1975, the portion of a shareholder's capital gain dividend to which section 1201(d) (1) or (2) applies is the portion so designated by the regulated investment company pursuant to paragraph (c)(2) of this section.

(2) *Undistributed capital gains.* (i) A person who is a shareholder of a regulated investment company at the close of a taxable year of such company for which it is taxable under part I of subchapter M shall include in his gross income as a gain from the sale or exchange of a capital asset held for more than 6 months any amount of undistributed capital gains. The term "undistributed capital gains" means the amount designated as undistributed capital gains in accordance with paragraph (a) of § 1.852–9, but the amount so designated shall not exceed the shareholder's proportionate part of the amount subject to tax under section 852(b)(3)(A). Such amount shall be included in gross income for the taxable year of the shareholder in which falls the last day of the taxable year of the regulated investment company in respect of which the undistributed capital gains were designated. The amount of such gains designated under paragraph (a) of § 1.852–9 as gain described in section 1201(d) (1) or (2) shall be included in the shareholder's gross income as gain described in section 1201(d) (1) or (2). For certain administrative provisions relating to undistributed capital gains, see § 1.852–9.

(ii) Any shareholder required to include an amount of undistributed capital gains in gross income under section 852(b)(3)(D)(i) and subdivision (i) of this subparagraph shall be deemed to have paid for his taxable year for which such amount is so includible—

(*a*) In the case of an amount designated with respect to a taxable year of the company ending before January 1, 1970, a tax equal to 25 percent of such amount.

(*b*) In the case of a taxable year of the company ending after December 31, 1969, and beginning before January 1, 1975, a tax equal to the tax designated under paragraph (a)(1) of §1.852–9 by the regulated investment company as his proportionate share of the capital gains tax paid with respect to such amount, or

(*c*) In the case of an amount designated with respect to a taxable year of the company beginning after December 31, 1974, a tax equal to 30 percent of such amount.

Such shareholder is entitled to a credit or refund of the tax so deemed paid in accordance with the rules provided in paragraph (c)(2) of § 1.852–9.

(iii) Any shareholder required to include an amount of undistributed capital gains in gross income under section 852(b)(3)(D)(i) and subdivision (i) of this subparagraph shall increase the adjusted basis of the shares of stock with respect to which such amount is so includible—

(*a*) In the case of an amount designated with respect to a taxable year of the company ending before January 1, 1970, by 75 percent of such amount.

(*b*) In the case of an amount designated with respect to a taxable year of the company ending after December 31, 1969, and beginning before January 1, 1975, by the amount designated under paragraph (a)(1)(iv) of § 1.852–9 by the regulated investment company, or

(*c*) In the case of an amount designated with respect to a taxable year of the company beginning after December 31, 1974, by 70 percent of such amount.

* * * * *

(c) * * *

(3) *Subsection (d) gain for certain taxable years.* In the case of capital gain dividends with respect to any taxable year of a regulated investment company ending after December 31, 1969, and beginning before January 1, 1975 (including capital gain dividends paid after the close of the taxable year pursuant to an election under section 855), the company must include in its written notice under paragraph (c)(1) of this section a statement showing the shareholder's proportionate share of the capital gain dividend which is gain described in section 1201(d)(1) and his proportionate share of such dividend which is gain described in section 1201(d)(2). In determining the portion of the capital gain dividend which, in the hands of a shareholder, is gain described in section 1201(d) (1) or (2), the regulated investment company shall consider that capital gain dividends for a taxable year are first made from its long-term capital gains for such year which are not described in section 1201(d) (1) or (2), to the extent thereof, and then from its long-term capital gains for such year which are described in section 1201 (d) (1) or (2). A shareholder's proportionate share of gains which are described in section 1201(d)(1) is the amount which bears the same ratio to the amount paid to him as a capital gain dividend in respect of such year as (i) the aggregate amount of the company's gains which are described in section 1201(d)(1) and paid to all shareholders bears to (ii) the aggregate amount of the capital gain dividend paid to all shareholders in respect of such year. A shareholder's proportionate share of gains which are described in section 1201(d)(2) shall be determined in a similar manner. Every regulated investment company shall keep a record of the proportion of each capital gain dividend (to which this paragraph applies) which is gain described in section 1201(d) (1) or (2). If, for his taxable year, a shareholder must include in his gross income a captial gain dividend to which this paragraph applies, he shall attach to his income tax return for such taxable year a statement showing, with respect to the total of such dividends for such taxable year recieved from each regulated investment company, the name and address of the regulated investment company from which such dividends are received, the amount of such dividends, the portion of such dividends which was designated as gain described in section 1201(d)(1), and the portion of such dividends which was designated as gain described in section 1201(d)(2).

* * * * *

PAR. 6. Section 1.852–9 is amended by revising paragraph (a)(1) and adding subparagraph (3) to paragraph (c), as follows:

§ 1.852–9 Special procedural requirements applicable to designation under section 852(b)(3)(D).

(a) *Regulated investment company*—(1) *Notice to shareholders.* (i) A designation of undistributed capital gains under section 852(b)(3)(D) and paragraph (b)(2)(i) of §1.852–2 shall be made by notice on Form 2439 mailed by the regulated investment company to each person who is a shareholder of record of the company at the close of the company's taxable year. The notice on Form 2439 shall show the name, address, and employer identification number of the regulated investment company; the taxable year of the company for which the designation is made; the name, address, and identifying number of the shareholder; the amount designated by the company for inclusion by the shareholder in computing his long-term capital gains; and the tax paid with respect thereto by the company which is deemed to have been paid by the shareholder.

(ii) In the case of a designation of undistributed capital gains with respect to a taxable year of the regulated investment company ending after December 31, 1969, and beginning before January 1, 1975, Form 2439 shall also show the shareholder's proportionate share of such gains which is gain described in section 1201(d)(1), his proportionate share of such gains which is gain described in section 1201(d)(2), and the amount (determined pursuant to subdivision (iv) of this subparagraph) by which the shareholder's adjusted basis in his shares shall be increased.

(iii) In determining under subdivision (ii) of this subparagraph the portion of the undistributed capital gains which, in the hands of the shareholder, is gain described in section 1201(d) (1) or (2), the company shall consider that capital gain dividends for a taxable year are made first from its long-term capital gains for such year which are not described in section 1201(d) (1) or (2), to the extent thereof, and then from its long-term capital gains for such year which are described in section 1201(d) (1) or (2). A shareholder's proportionate share of undistributed capital gains for a taxable year which is gain described in section 1201(d)(1) is the amount which bears the same ratio to the amount included in his income as designated undistributed capital gains for such year as (*a*) the aggregate amount of the company's gains for such year which are described in section 1201(d)(1) and designated as undistributed capital gains bears to (*b*) the aggregate amount of the company's gains for such year

which are designated as undistributed capital gains. A shareholder's proportionate share of gains which are described in section 1201(d)(2) shall be determined in a similar manner. Every regulated investment company shall keep a record of the proportion of undistributed capital gains (to which this subdivision applies) which is gain described in section 1201(d) (1) or (2).

(iv) In the case of a designation of undistributed capital gains for any taxable year ending after December 31, 1969, and beginning before January 1, 1975, Form 2439 shall also show with respect to the undistributed capital gains of each shareholder the amount by which such shareholder's adjusted basis in his shares shall be increased under section 852(b)(3)(D)(iii). The amount by which each shareholders' adjusted basis in his shares shall be increased is the amount includible in his gross income with respect to such shares under section 852(b)(3)(D)(i) less the tax which the shareholder is deemed to have paid with respect to such shares. The tax which each shareholder is deemed to have paid with respect to such shares is the amount which bears the same ratio to the amount of the tax imposed by section 852(b)(3)(A) for such year with respect to the aggregate amount of the designated undistributed capital gains as the amount of such gains includible in the shareholder's gross income bears to the aggregate amount of such gains so designated.

(v) Form 2439 shall be prepared in triplicate, and copies B and C of the form shall be mailed to the shareholder on or before the 45th day (30th day for a taxable year ending before February 26, 1964) following the close of the company's taxable year. Copy A of each Form 2439 must be associated with the duplicate copy of the undistributed capital gains tax return of the company (Form 2438), as provided in subparagraph (2)(ii) of this paragraph.

* * * * *

(c) *Shareholders.* * * *

(3) *Records.* The shareholder is required to keep copy C of the Form 2439 furnished for the regulated investment copany's taxable years ending after December 31, 1969, and beginning before January 1, 1975, as part of his records to show increases in the adjusted basis of his shares in such company.

* * * * *

PAR. 7. Section 1.857 is amended by revising section 857(b)(3) (A) and (C) and the historical note to read as follows:

§ 1.857 Statutory provisions; taxation of real estate investment trusts and their beneficiaries.

SEC. 857. *Taxation of real estate investment trusts and their beneficiaries.* * * *

(b) *Method of taxation of real estate investment trusts and holders of shares or certificates of beneficial interest.* * * *

(3) *Capital gains*—(A) *Imposition of tax.* There is hereby imposed for each taxable year in the case of every real estate investment trust a tax, determined as provided in section 1201(a), on the excess, if any, of the net long-term capital gain over the sum of—

(i) The net short-term capital loss; and

(ii) The deduction for dividends paids (as defined in section 561) determined with reference to capital gains dividends only.

* * * * *

(C) *Definition of capital gain dividend.* For purposes of this part, a capital gain dividend is any dividend, or part thereof, which is designated by the real estate investment trust as a capital gain dividend in a written notice mailed to its shareholders or holders of beneficial interests at any time before the expiration of 30 days after the close of its taxable year. If the aggregate amount so designated with respect to a taxable year of the trust (including capital gain dividends paid after the close of the taxable year described in section 858) is greater than the excess of the net long-term capital gain over the net short-term capital loss of the taxable year, the portion of each distribution which shall be a capital gain dividend shall be only that proportion of the amount so designated which such excess of the net long-term capital gain over the net short-term capital loss bears to the aggregate amount so designated. For purposes of subparagraph (A)(ii), in the case of a taxable year beginning before January 1, 1975, the deduction for dividends paid shall first be made from the amount subject to tax in accordance with section 1201(a)(1)(B), to the extent thereof, and then from the amount subject to tax in accordance with section 1201(a)(1)(A).

* * * * *

[Sec. 857 as added by sec. 10(a), Act of Sept. 14, 1960 (Public Law 86-779; 74 Stat. 1006); as amended by sec. 201(d)(11), Rev. Act 1964 (78 Stat. 33); sec. 511(c)(3), Tax Reform Act 1969 (83 Stat. 637)]

PAR. 8. Section 1.857-2 is amended by revising paragraph (b) to read as follows:

§ 1.857-2 Method of taxation of real estate investment trusts.

* * * * *

(b) *Taxation of capital gains.* Section 857(b)(3)(A) imposes (1) in the case of a taxable year beginning before January 1, 1970, a tax of 25 percent, or (2) in the case of a taxable year beginning after December 31, 1969, a tax determined as provided in section 1201(a) and paragraph (a)(3) of § 1.1201-1, on the excess, if any, of the net long-term capital gain of a qualified real estate investment trust over the sum of its net short-term capital loss and its deduction for dividends paid (as defined in section 561) determined with reference to capital gain dividends only. In the case of a taxable year ending after December 31, 1969, and beginning before January 1, 1975, the deduction for dividends paid as so determined shall first be made from the amount subject to tax in accordance with section 1201(a)(1)(B), to the extent thereof, and then from the amount subject to tax in accordance with section 1201(a)(1)(A). For the definition of capital gain dividend paid by a real estate investment trust, see section 857(b)(3)(C) and paragraph (c) of § 1.857-4. See section 858 and § 1.858-1 for rules relating to dividends paid after the close of the taxable year.

PAR. 9. Section 1.857-4 is amended by revising paragraphs (b) and (c) to read as follows:

§ 1.857-4 Method of taxation of shareholders of real estate investment trusts.

* * * * *

(b) *Capital gains.* Under section 857(b)(3)(B), shareholders of a real estate investment trust who receive capital gain dividends (as defined in paragraph (c) of this section), in respect of the capital gains of an investment trust for a taxable year for which it is taxable under part II of subchapter M as a real estate investment trust, shall treat such capital gain dividends as gains from the sale or exchange of capital assets held for more than 6 months and realized in the taxable year of the shareholder in which the dividend was received. In the case of dividends with respect to any taxable year of a real estate investment trust ending after December 31, 1969, and beginning before January 1, 1975, the portion of a shareholder's capital gain dividend which in his hands is gain to which section 1201(d) (1) or (2) applies is the portion so designated by the real estate investment trust pursuant to paragraph (c)(2) of this section.

* * * * *

(c) *Definition of capital gain dividend.* (1) A capital gain dividend, as defined in section 857(b)(3)(C), is any dividend or part thereof which is designated by a real estate investment trust as a capital gain dividend in a written notice mailed to its shareholders not later than 30 days after the close of its taxable year. If the aggregate amount so designated with respect to the taxable year (including capital gain dividends paid after the close of the taxable year pursuant to an election under section 858) is greater than the excess of the net long-term capital gain over the net short-term capital loss of the taxable year, the portion of each distribution which shall be a capital gain dividend shall be only that proportion of the amount so designated which such excess of the net long-term capital gain over the net short-term capital loss bears to the aggregate of the amount so designated. For example, a real estate investment trust making its return on the calendar year basis advised its shareholders by written notice mailed December 30, 1961, that $200,000 of a distribution of $500,000 made December 15, 1961, constituted a capital gain dividend, amounting to $2 per share. It was later discovered that an error had been made in determining the excess of the net long-term capital gain over the net short-term capital loss of the taxable year and that such excess was $100,000 instead of $200,000. In such case, each shareholder would have received a capital gain dividend of $1 per share instead of $2 per share.

(2) In the case of capital gain dividends designated with respect to any taxable year of a real estate investment trust ending after December 31, 1969, and beginning before January 1, 1975 (including capital gain dividends paid after the close of the taxable year pursuant to an election under section 858),

the real estate investment trust must include in its written notice designating the capital gain dividend a statement showing the shareholder's proportionate share of such dividend which is gain described in section 1201(d)(1) and his proportionate share of such dividend which is gain described in section 1201(d)(2). In determining the portion of the capital gain dividend which, in the hands of a shareholder, is gain described in section 1201(d)(1) or (2), the real estate investment trust shall consider that capital gain dividends for a taxable year are first made from its long-term capital gains which are not described in section 1201(d)(1) or (2), to the extent thereof, and then from its long-term capital gains for such year which are described in section 1201(d)(1) or (2). A shareholder's proportionate share of gains which are described in section 1201(d)(1) is the amount which bears the same ratio to the amount paid to him as a capital gain dividend in respect of such year as (i) the aggregate amount of the trust's gains which are described in section 1201(d)(1) and paid to all shareholders bears to (ii) the aggregate amount of the capital gain dividend paid to all shareholders in respect of such year. A shareholder's proportionate share of gains which are described in section 1201(d)(2) shall be determined in a similar manner. Every real estate investment trust shall keep a record of the proportion of each capital dividend (to which this subparagraph applies) which is gain described in section 1201(d)(1) or (2).

PAR. 10. Section 1.1201 is amended by revising section 1201 and the historical note to read as follows:

§ 1.1201 Statutory provisions; alternative tax.

SEC. 1201. *Alternative tax*—(a) *Corporations.* If for any taxable year a corporation has a net section 1201 gain, then, in lieu of the tax imposed by sections 11, 511, 821 (a) or (c), and 831(a), there is hereby imposed a tax (if such tax is less than the tax imposed by such sections) which shall consist of the sum of a tax computed on the taxable income reduced by the amount of the net section 1201 gain, at the rates and in the manner as if this subsection had not been enacted, plus—

(1) In the case of a taxable year beginning before January 1, 1975—

(A) A tax of 25 percent of the lesser of—

(i) The amount of the subsection (d) gain, or

(ii) The amount of the net section 1201 gain, and

(B) A tax of 30 percent (28 percent in the case of a taxable year beginning after December 31, 1969, and before January 1, 1971) of the excess (if any) of the net section 1201 gain over the subsection (d) gain; and

(2) In the case of a taxable year beginning after December 31, 1974, a tax of 30 percent of the net section 1201 gain.

(b) *Other taxpayers.* If for any taxable year a taxpayer other than a corporation has a net section 1201 gain, then, in lieu of the tax imposed by sections 1 and 511, there is hereby imposed a tax (if such tax is less than the tax imposed by such sections) which shall consist of the sum of—

(1) A tax computed on the taxable income reduced by an amount equal to 50 percent of the net section 1201 gain, at the rates and in the manner as if this subsection had not been enacted,

(2) A tax of 25 percent of the lesser of—

(A) The amount of the subsection (d) gain, or

(B) The amount of the net section 1201 gain, and

(3) If the amount of the net section 1201 gain exceeds the amount of the subsection (d) gain, a tax computed as provided in subsection (c) on such excess.

(c) *Computation of tax on capital gain in excess of subsection (d) gain*—(1) *In general.* The tax computed for purposes of subsection (b)(3) shall be the amount by which a tax determined under section 1 or 511 on an amount equal to the taxable income (but not less than 50 percent of the net section 1201 gain) for the taxable year exceeds a tax determined under section 1 or 511 on an amount equal to the sum of (A) the amount subject to tax under subsection (b)(1) plus (B) an amount equal to 50 percent of the subsection (d) gain.

(2) *Limitation.* Notwithstanding paragraph (1), the tax computed for purposes of subsection (b)(3) shall not exceed an amount equal to the following percentage of the excess of the net section 1201 gain over the subsection (d) gain:

(A) 29½ percent, in the case of a taxable year beginning after December 31, 1969, and before January 1, 1971, or

(B) 32½ percent, in the case of a taxable year beginning after December 31, 1970, and before January 1, 1972.

(d) *Subsection (d) gain defined.* For purposes of this section, the term "subsection (d) gain" means the sum of the long-term capital gains for the taxable year arising—

(1) In the case of amounts received before January 1, 1975, from sales or other dispositions pursuant to binding contracts (other than any gain from a transaction described in section 631 or 1235) entered into on or before October 9, 1969, including sales or other dispositions the income from which is returned on the basis and in the manner prescribed in section 453(a)(1),

(2) In respect of distributions from a corporation made prior to October 10, 1970, which are pursuant to a plan of complete liquidation adopted on or before October 9, 1969, and

(3) In the case of a taxpayer other than a corporation, from any other source, but the amount taken into account from such other sources for the purposes of this paragraph shall be limited to an amount equal to the excess (if any) of $50,000 ($25,000 in the case of a married individual filing a separate return) over the sum of the gains to which paragraphs (1) and (2) apply.

(e) *Cross references.* For computation of the alternative tax—

(1) In the case of life insurance companies, see section 802(a)(2);

(2) In the case of regulated investment companies and their shareholders, see section 852(b)(3)(A) and (D); and

(3) In the case of real estate investment trusts, see section 857(b)(3)(A).

[Sec. 1201 as amended by sec. 5(7), Life Insurance Company Tax Act 1955 (70 Stat. 49); sec. 3(f)(2), Life Insurance Company Income Tax Act 1959 (73 Stat. 140); sec. 8(g)(2), Rev. Act 1962 (76 Stat. 999); sec. 511(b), Tax Reform Act 1969 (83 Stat. 635)]

PAR. 11. Section 1.1201-1 is revised to read as follows:

§ 1.1201-1 Alternative tax.

(a) *Corporations*—(1) *In general.* (i) If for any taxable year a corporation has net section 1201 gain (as defined in section 1222(11)) section 1201(a) imposes an alternative tax in lieu of the tax imposed by sections 11 and 511, but only if such alternative tax is less than the tax imposed by sections 11 and 511. The alternative tax is not in lieu of the personal holding company tax imposed by section 541 or of any other tax not specifically set forth in section 1201(a).

(ii) In the case of an insurance company, the alternative tax imposed by section 1201(a) is also in lieu of the tax imposed by sections 821 (a) or (c) and 831(a), except that for taxable years beginning before January 1, 1963, the reference to section 821 (a) or (c) is to be read as reference to section 821 (a)(1) or (b). For taxable years beginning after December 31, 1954, and before January 1, 1958, the alternative tax imposed by section 1201(a) shall also be in lieu of the tax imposed by section 802(a), as amended by the Life Insurance Company Tax Act for 1955 (70 Stat. 38), if such alternative tax is less than the tax imposed by such section. See section 802(e), as added by the Life Insurance Company Tax Act for 1955 (70 Stat. 39). However, for taxable years beginning after December 31, 1958, and before January 1, 1962, section 802(a)(2), as amended by the Life Insurance Company Income Tax Act of 1959 (73 Stat. 115), imposes a separate tax equal to 25 percent of the amount by which the net long-term capital gain of any life insurance company (as defined in section 801(a) and paragraph (b) of § 1.801-3) exceeds its net short-term capital loss. See paragraph (f) of § 1.802-3. For alternative tax for life insurance companies in the case of taxable years beginning after December 31, 1961, see section 802(a)(2) and the regulations thereunder.

(iii) See section 56 and the regulations thereunder for provisions relating to the minimum tax for tax preferences.

(2) *Alternative tax.* The alternative tax is the sum of—

(i) A partial tax computed at the rates provided in sections 11, 511, 821 (a) or (c), and 831(a), on the taxable income of the taxpayer reduced by the amount of the net section 1201 gain, and

(ii) An amount equal to the tax determined under subparagraph (3) of this paragraph.

For taxable years beginning after December 31, 1954, and before January 1, 1958, the partial tax under subdivision (i) of this subparagraph shall also be computed at the rates provided in section 802(a). For taxable years beginning before January 1, 1963, the reference in such subdivision to section 821 (a) or (c) is to be read as a reference to section 821 (a) or (b).

(3) *Tax on capital gains.* For purposes of subparagraph (2)(ii) of this paragraph, the tax shall be—

(i) In the case of a taxable year beginning after December 31, 1974, a tax of 30 percent of the net section 1201 gain,

(ii) In the case of a taxable year beginning after December 31, 1969, and before January 1, 1975—

V 39 N 251 DEC 30 1974 XUM

(a) A tax of 25 percent of the lesser of the amount of the subsection (d) gain (as defined in section 1201(d) and paragraph (f) of this section) or the amount of the net section 1201 gain, plus

(b) A tax of 30 percent (28 percent in the case of a taxable year beginning after December 31, 1969, and before January 1, 1971) of the excess, if any, of the net section 1201 gain over the subsection (d) gain,

(iii) In the case of a taxable year beginning before January 1, 1970, and after March 31, 1954, a tax of 25 percent of the net section 1201 gain, or

(iv) In the case of a taxable year beginning before April 1, 1954, a tax of 26 percent of the net section 1201 gain.

(4) *Determination of special deductions.* In the computation of the partial tax described in subparagraph (2)(i) of this paragraph the special deductions provided for in sections 243, 244, 245, 247, 922, and 941 shall not be recomputed as the result of the reduction of taxable income by the net section 1201 gain.

(b) *Other taxpayers*—(1) *In general.* If for any taxable year a taxpayer (other than a corporation) has net section 1201 gain (as defined in section 1222(ii)) section 1201(b) imposes an alternative tax in lieu of the tax imposed by sections 1 and 511, but only if such alternative tax is less than the tax imposed by sections 1 and 511. The alternative tax is not in lieu of any other tax not specifically set forth in section 1201(b). See section 56 and the regulations thereunder for provisions relating to the minimum tax for tax preferences.

(2) *Alternative tax.* The alternative tax is the sum of—

(i) A partial tax computed at the rates provided by sections 1 and 511 on the taxable income reduced by an amount equal to 50 percent of the net section 1201 gain, and

(ii) In the case of a taxable year beginning after December 31, 1969—

(a) A tax of 25 percent of the lesser of the amount of the subsection (d) gain (as defined in section 1201(d) and paragraph (f) of this section) or the amount of the net section 1201 gain, plus

(b) A tax computed as provided in section 1201(c) and paragraph (e) of this section on the excess, if any, of the net section 1201 gain over the subsection (d) gain, or

(iii) In the case of a taxable year beginning before January 1, 1970, a tax of 25 percent of the net section 1201 gain.

(3) *Cross references.* See § 1.1–2(a) for rule relating to the computation of the limitation on tax in cases where the alternative tax is imposed. See § 1.34–2(a) for rule relating to the computation of the dividend received credit under section 34 (for dividends received on or before December 31, 1964), and § 1.35–1(a) for rule relating to the computation of credit for partially tax-exempt interest under section 35 in cases where the alternative tax is imposed.

(c) *Tax-exempt trusts and organizations.* In applying section 1201 in the case of tax-exempt trusts or organizations subject to the tax imposed by section 511, the only amount which is taken into account as capital gain or loss is that which is taken into account in computing unrelated business taxable income under section 512. Under section 512, the only amount taken into account as capital gain or loss is that resulting from the application of section 631(a), relating to the election to treat the cutting of timber as a sale or exchange.

(d) *Joint returns.* In the case of a joint return, the excess of any net long-term capital gain over any net short-term capital loss is to be determined by combining the long-term capital gains and losses and the short-term capital gains and losses of the spouses.

(e) *Computation of tax on capital gain in excess of subsection (d) gain*—(1) *In general.* The tax computed for purposes of section 1201(b)(3) and paragraph (b)(2)(ii)(b) of this section shall be the amount by which a tax determined under section 1 or 511 on an amount equal to the taxable income (but not less than 50 percent of the net section 1201 gain) for the taxable year exceeds a tax determined under section 1 or 511 on an amount equal to the sum of (i) the amount subject to tax under section 1201(b)(1) and paragraph (b)(2)(i) of this section for such year plus (ii) an amount equal to 50 percent of the subsection (d) gain for such year.

(2) *Limitation.* Notwithstanding subparagraph (1) of this paragraph, the tax computed for purposes of section 1201(b)(3) and paragraph (b)(2)(ii)(b) of this section shall not exceed an amount equal to the following percentage of the excess of the net section 1201 gain over the subsection (d) gain for the taxable year:

(i) 29½ percent, in the case of a taxable year beginning after December 31, 1969, and before January 1, 1971, or

(ii) 32½ percent, in the case of taxable year beginning after December 31, 1970, and before January 1, 1972.

(f) *Definition of subsection (d) gain*—(1) *In general.* For purposes of section 1201 and this section, the term "subsection (d) gain" means the sum of the long-term capital gains for the taxable year arising—

(i) In the case of amounts received or accrued, as the case may be, before January 1, 1975 (other than any gain from a transaction described in section 631 or 1235), from—

(a) Sales or other dispositions on or before October 9, 1969, including sales or other dispositions the income from which is returned as provided in section 453(a)(1) or (b)(1), or

(b) Sales or other dispositions after October 9, 1969, pursuant to binding contracts entered into on or before that date, including sales or other dispositions the income from which is returned as provided in section 453(a)(1) or (b)(1),

(ii) From liquidating distributions made by a corporation which are made (a) before October 10, 1970, and (b) pursuant to a plan of complete liquidation adopted on or before October 9, 1969, or

(iii) In the case of a taxpayer (other than a corporation), from any other source not described in subdivision (i) or (ii) of this subparagraph, but the amount taken into account from such other sources shall be limited to the amount, if any, by which $50,000 ($25,000 in the case of a married individual filing a separate return) exceeds the sum of the gains to which subdivisions (i) and (ii) of this subparagraph apply.

(2) *Special rules.* For purposes of subparagraph (1) of this paragraph—

(i) A binding contract entered into on or before October 9, 1969, means a contract, whether written or unwritten, which on or before that date was legally enforceable against the taxpayer under applicable law. If on or before October 9, 1969, a taxpayer grants an irrevocable option or irrevocable contractual right to another party to buy certain property and such other party exercises that option or right after October 9, 1969, the sale of such property is a sale pursuant to a binding contract entered into on or before October 9, 1969. The application of this subdivision may be illustrated by the following example:

Example. During 1964, A, B, and C formed a closely held corporation, and A was appointed as president of the organization. On July 1, 1964, A received for consideration 100 shares of common stock in the corporation subject to the agreement that, if A should retire from the management of the corporation or die, A or his estate would first offer his shares of stock to the corporation for purchase and that, if the corporation did not buy the stock within 60 days, the stock could be sold to any party other than the corporation. On September 1, 1970, A retired from the management of the corporation and offered his shares to the corporation for purchase. Pursuant to the agreement, the corporation purchased A's stock on September 30, 1970. A's sale of such stock was pursuant to a binding contract entered into on or before October 9, 1969.

(ii) A contract which pursuant to subdivision (i) of this subparagraph constitutes a binding contract entered into on or before October 9, 1969, does not cease to qualify as such a contract by reason of the fact that after October 9, 1969, there is a modification of the terms of the contract such as a change in the time of performance, or in the amount of the debt or in the terms and mode of payment, or in the rate of interest, or there is a change in the form or nature of the obligation or the character of the security, so long as the taxpayer is at all times on and after October 9, 1969, legally bound by such contract. The application of this subdivision may be illustrated by the following examples:

Example (1). On August 1, 1969, A sold certain capital assets to B on the installment plan and elected to return the gain therefrom under section 453, the agreement providing for payments over a period of 3 years. At the time of the sale these assets had been held by A for more than 6 months. On July 31, 1970, A and B agreed to a modification of the terms of payment under the sales agreement, the only change in the contract being that the installment payments due after July 31, 1970, would be paid over

a 3-year period. For purposes of this paragraph the payments received by A after July 31, 1970, are considered amounts received from the sale on August 1, 1969. (See section 483 for rules with respect to interest on deferred payments.)

Example (2). On April 1, 1969, A sold certain capital assets to B on the installment plan and elected to return the gain therefrom under section 453, the agreement providing for payments over a period of 3 years. At the time of the sale these assets had been held by A for more than 6 months. On March 31, 1970, C assumed B's obligation to pay the balance of the installments which were due after that date. For purposes of this paragraph any installment payments received by A after March 31, 1970, from C are considered amounts received from a sale made on or before October 9, 1969.

Example (3). On May 1, 1969, A offers to sell certain capital assets to B if B accepts the offer within 1 year, unless it is previously withdrawn by A. B accepts the offer on November 1, 1969, and the transaction is consummated shortly thereafter. For purposes of this paragraph, any payment received by A pursuant to the sale is not considered an amount received from a sale made on or before October 9, 1969, or from a sale pursuant to a binding contract entered into on or before that date.

(iii) An amount which is considered under section 402(a)(2) or 403(a)(2) as gain of the taxpayer from the sale or exchange of a capital asset held for more than 6 months shall be treated as gain subject to the provisions of section 1201(d)(1) and subdivision (i) of such subparagraph, but only if on or before October 9, 1969 (*a*) the employee with respect to whom such amount is distributed or paid or was otherwise separated from the service and (*b*) died or the employee the terms of the plan required, elected that total distributions or amount payable be paid to the taxpayer within 1 taxable year.

(iv) Gain described in section 1201(d)(1) or (2) with respect to a partnership, estate, or trust, which is required to be included in the gross income of a partner in such partnership, or of a beneficiary of such estate or trust, shall be treated as such gain with respect to such partner or beneficiary. Thus, for example, if during 1974 a partnership which uses the calendar year as its taxable year receives amounts which give rise to section 1201(d)(1) gain, a partner who uses the fiscal year ending June 30 as his taxable year shall treat his distributive share of such gain as subsection (d) gain for his taxable year ending June 30, 1975, even though such share is distributed to him after December 31, 1974. See § 1.706–1.

(v) An individual shall be considered married for purposes of subdivision (iii) of such subparagraph if for the taxable year he may elect with his spouse to make a joint return under section 6013(a).

(vi) In applying such subparagraph for purposes of section 21(a)(1) long-term capital gains arising from amounts received before January 1, 1970, shall be taken into account if such amounts are received during the taxable year.

(g) *Illustrations.* The application of this section may be illustrated by the following examples in which the assumption is made that section 56 (relating to minimum tax for tax preferences) does not apply:

Example (1). A, a single individual, has for the calendar year 1954 taxable income (exclusive of capital gains and losses) of $99,400. He realizes in 1954 a gain of $50,000 on the sale of a capital asset held for 19 months and sustains a loss of $20,000 on the sale of a capital asset held for 5 months. He has no other capital gains or losses. Since the alternative tax is less than the tax otherwise computed under section 1, the tax payable is the alternative tax, that is $74,298. The tax is computed as follows:

Tax Under Section 1

Taxable income exclusive of capital gains and losses		$99,400
Net long-term capital gain (100 percent of $50,000)	$50,000	
Net short-term capital loss (100 percent of $20,000)	20,000	
Excess of net long-term capital gain over the net short-term capital loss		30,000
		129,400
Deduction of 50 percent of excess of net long-term capital gain over the net short-term capital loss (section 1202)		15,000
Taxable income		114,400
Tax under section 1		30,136

Alternative Tax Under Section 1201(b)

Taxable income	$114,400
Less 50 percent of excess of net long-term capital gain over net short-term capital loss (section 1201(b)(1))	15,000
Taxable income exclusive of capital gains and losses	99,400
Partial tax (tax on $99,400)	66,798
Plus 25 percent of $30,000	7,500
Alternative tax under section 1201(b)	74,298

Example (2). A husband and wife, who file a joint return for the calendar year 1970, have taxable income (exclusive of capital gains and losses) of $100,000. In 1970 they realize $200,000 of net long-term capital gain in excess of net short-term capital loss, including long-term capital gains of $100,000 arising from sales consummated in 1968 the income from which is returned on the installment method under section 453, and long-term capital gains of $50,000, arising in respect of distributions from X corporation made before October 10, 1970, which were pursuant to a plan of complete liquidation adopted on October 9, 1969. Since the alternative tax under section 1201(b) is less than the tax otherwise computed under section 1, the tax payable for 1970 is the alternative tax, that is, $97,430 plus the tax surcharge under section 51. The tax (without regard to the tax surcharge) is computed as follows:

Tax Under Section 1

Taxable income exclusive of capital gains and losses		$100,000
Net section 1201 gain (excess of net long-term capital gain over the net short-term capital loss)		200,000
Total		300,000
Deduction of 50 percent of net section 1201 gain (section 1202)		100,000
Taxable income		200,000
Tax under section 1		110,980

Alternative Tax Under Section 1201(b)

(1) Net section 1201 gain		$200,000
(2) Subsection (d) gain:		
Section 1201(d)(1)		100,000
Section 1201(d)(2)		50,000
Total subsection (d) gain		150,000
(3) Net section 1201 gain in excess of subsection (d) gain ($200,000 less $150,000)		50,000
(4) Tax under section 1201(b)(1):		
(i) Taxable income	$200,000	
(ii) Less: 50% of item (1)	100,000	
(iii) Amount subject to tax under section 1201(b)(1)	100,000	
Partial tax (computed under section 1)		45,180
(5) Tax under section 1201(b)(2): (25% of item (1) or of item (3), whichever is lesser [25% of $150,000])		37,500
(6) Tax under section 1201(b)(3) on item (3):		
Tax under section 1 on taxable income ($200,000)	$110,980	
Less: Tax under section 1 on sum of item (4)(iii) $100,000 plus 50% of item (2) ($75,000) (Total $175,000)	93,780	
Tax under section 1201(c)(1)	17,200	
Limitation under section 1201(c)(2)(A) (29½% of item (3)	14,750	14,750
(7) Alternative tax under section 1201(b)		97,430

Example (3). A husband and wife, who file a joint return for the calender year 1971, have taxable income (exclusive of capital gains and losses) of $80,000. In 1971 they realize long-term capital gain of $90,000 arising from a sale consummated on July 1, 1969, the income from which is returned on the installment method under section 453. From securities transactions in 1971 they have long-term capital gains of $60,000 and a short-term capital loss of $10,000. Since the alternative tax under section 1201(b) is less than the tax otherwise computed under section 1, the tax payable is the alternative tax, that is, $55,140. The tax is computed as follows:

Tax Under Section 1

Taxable income exclusive of capital gains and losses		$80,000
Net long-term capital gains (100% of $90,000)	$90,000	
Net short-term capital loss (100% of $10,000)	10,000	
Net section 1201 gain		80,000
Total		160,000

V 39 I 251 DEC 30 74 XUM

Deduction of 50% of net section 1201 gain (section 1202)		40,000
Taxable income		120,000
Tax under section 1		57,580
Alternative Tax Under Section 1201(b)		
(1) Net section 1201 gain		$80,000
(2) Subsection (d) gain:		
Section 1201(d)(1)	30,000	
Section 1201(d)(2)		
Section 1201(d)(3) ($50,000 less $30,000	20,000	
Total subsection (d) gain	50,000	
(3) Net section 1201 gain in excess of subsection (d) gain ($80,000 less $50,000)		30,000
(4) Tax under section 1201(b)(1):		
(i) Taxable income	$120,000	
(ii) Less: 50% of item (1)	40,000	
(iii) Amount subject to tax under section 1201(b)(1)	80,000	
Partial tax (computed under section 1)		33,340
(5) Tax under section 1201(b)(2): (25% of item (1) or of item (2), whichever is lesser [25% of $50,000])		12,500
(6) Tax under sec. 1201(b)(3) on item (3):		
Tax under sec. 1 on taxable income ($120,000)	$57,580	
Less: Tax under sec. 1 on sum of item (4) (iii) ($80,000) plus 50% of item (2) ($25,000) (Total $105,000)	48,280	
Tax under section 1201(c)(1)	5,300	
Limitation under section 1201(c)(2)(B) (32½% of item (3))	9,750	9,300
(7) Alternative tax under section 1201(b)		55,140

Example (4). A husband and wife, who file a joint return for the calendar year 1973, have taxable income (exclusive of capital gains and losses) of $250,000. In 1973 they realize long-term capital gains (not described in section 1201(d) (1) or (2)) of $140,000 and a short-term capital loss of $50,000. Since the alternative tax under section 1201(b) is less than the tax otherwise computed under section 1, the tax payable is the alternative tax, that is, $172,480. The tax is computed as follows:

Tax Under Section 1

Taxable income exclusive of capital gains and losses		$250,000
Net long-term capital gains (100% of $140,000)	$140,000	
Net short-term capital loss (100% of $50,000)	50,000	
Net section 1201 gain		90,000
Total		340,000
Deduction of 50% of net section 1201 gain (section 1202)		45,000
Taxable income		295,000
Tax under section 1		177,480
Alternative Tax Under Section 1201(b)		
(1) Net section 1201 gain		$90,000
(2) Subsection (d) gain:		
Section 1201(d)(1)		
Section 1201(d)(2)		
Section 1201(d)(3)	80,000	
Total subsection (d) gain	80,000	
(3) Net section 1201 gain in excess of subsection (d) gain ($90,000 less, $50,000)		40,000
(4) Tax under section 1201(b)(1):		
(i) Taxable income	$295,000	
(ii) Less: 50% of item (1)	45,000	
(iii) Amount subject to tax under section 1201(b)(1)	250,000	
Partial tax (computed under section 1)		148,980
(5) Tax under section 1201(b)(2): (25% of item (1) or of item (2), whichever is lesser [25% of $50,000])		12,500
(6) Tax under section 1201(b)(3) on item (3):		
Tax under section 1 on taxable income ($295,000)	$177,480	
Less: Tax under section 1 on sum of item (4) (iii) ($250,000) plus 50% of item (2) $25,000) (Total $275,000)	163,480	14,000
(7) Alternative tax under section 1201(b)		172,480

PAR. 12. Section 1.1222 is amended by adding paragraph (11) to section 1222, and by revising the historical note, to read as follows:

§ 1.1222 Statutory provisions; other terms relating to capital gains and losses.

SEC. 1222. *Other terms relating to capital gains and losses.* * * *

(11) *Net section 1201 gain.* The term "net section 1201 gain" means the excess of the net long-term capital gain for the taxable year over the net short-term capital loss for such year.

[Sec. 1222 as amended by sec. 230(b), Rev. Act 1964 (78 Stat. 100); sec. 511(a) and 513(c), Tax Reform Act 1969 (83 Stat. 635, 643)]

PAR. 13. Section 1.1222–1 is amended by adding a new paragraph (h) to read as follows:

§ 1.1222–1 Other terms relating to capital gains and losses.

* * * * *

(h) The term "net section 1201 gain" means the excess of the net long-term capital gain for the taxable year over the net short-term capital loss for such year.

PAR. 14. Section 1.1375–1 is amended by redesignating paragraph (e) as (f), by adding example (5) to paragraph (f) as so redesignated, and by inserting a new paragraph (e), as follows:

§ 1.1375–1 Special rules applicable to capital gains.

* * * * *

(e) *Shareholder's pro rata share of subsection (d) gain.* Long-term capital gains of an electing small business corporation for any taxable year which are gains described in section 1201(d) (1) or (2) with respect to such corporation shall be treated as gains which are gains described in section 1201(a) (1) or (2) with respect to a shareholder to the extent of his pro rata share of such gains. A shareholder's pro rata share of such gains is the amount which bears the same ratio to the shareholder's pro rata share of long-term capital gain (as determined under paragraph (b) of this section) for such year as the corporation's long-term capital gains for such year which are described in section 1201 (d) (1) or (2) bear to the excess of the corporation's net long-term capital gain over its net short-term capital loss for the taxable year. If such ratio is one or greater, the shareholder's pro rata share of gains described in section 1201(d) (1) or (2) shall be equal to his pro rata share of long-term capital gain for such taxable year.

(f) *Examples.* The application of this section may be illustrated by the following examples:

* * * * *

Example (5). An electing small business corporation which has three equal shareholders has net long-term capital gains in excess of net short-term capital loss of $60,000 for its taxable year 1971. The corporation has long-term capital gain described in section 1201(d)(1) of $15,000. The corporation has taxable income and current earnings and profits of $90,000 (including such net capital gain of $60,000). During the taxable year, the corporation pays cash dividends of $90,000 ($30,000 to each shareholder). With respect to such distributions each shareholder will be deemed to have received long-term capital gain of $20,000 ($30,000/$90,000 of $60,000) and ordinary income of $10,000. In the case of such distributions, each shareholder will be deemed to have received $5,000 ($15,000/$60,000 × $20,000) of gain described in section 1201(d)(1).

PAR. 15. Section 1.1378 is amended by revising section 1378 (b) and (c)(3), and the historical note, to read as follows:

§ 1.1378 Statutory provisions; tax imposed on certain capital gains.

SEC. 1378. *Tax imposed on certain capital gains.* * * *

(b) *Amount of tax.* The tax imposed by subsection (a) shall be the lower of—

(1) An amount equal to the tax, determined as provided in section 1201(a), on the amount by which the excess of the net long-term capital gain over the net short-term capital loss of the corporation for the taxable year exceeds $25,000, or

(2) An amount equal to the tax which would be imposed by section 11 on the taxable income (computed as provided in section 1373(d)) of the corporation for the taxable year if the corporation was not an electing small business corporation.

No credit shall be allowable under part IV of subchapter A of this chapter (other than under section 39) against the tax imposed by subsection (a). In applying section 1201 (a)(1) (A) and (B) for purposes of paragraph (1), the $25,000 limitation shall first

be deducted from the amount (determined without regard to this subsection) subject to tax in accordance with section 1201(a)(1)(B), to the extent thereof, and then from the amount (determined without regard to this subsection) subject to tax in accordance with section 1201(a)(1)(A).

(c) *Exceptions.* * * *

(3) *Property with substituted basis.* If—

(A) But for paragraph (1) or (2), subsection (a) would apply for the taxable year,

(B) Any long-term capital gain is attributable to property acquired by the electing small business corporation during the period beginning 3 years before the first day of the taxable year and ending on the last day of the taxable year, and

(C) The basis of such property is determined in whole or in part by reference to the basis of any property in the hands of another corporation which was not an electing small business corporation throughout all of the period described in subparagraph (B) before the transfer by such other corporation and during which such other corporation was in existence;

then subsection (a) shall apply for the taxable year, but the amount of the tax determined under subsection (b) shall not exceed a tax, determined as provided in section 1201(a), on the excess of the net long-term capital gain over the net short-term capital loss attributable to property acquired as provided in subparagraph (B) and having a basis described in subparagraph (C).

[Sec. 1378 as added by sec. 2(a), Act of April 14, 1966 (Public Law 89-389, 80 Stat. 113); as amended by sec. 511(c)(4), Tax Reform Act 1969 (83 Stat. 638)]

PAR. 16. Section 1.1378-3 is amended by revising pararaphs (a) and (b) to read as follows:

§ 1.1378-3 Amount of tax.

(a) *In general.* If an electing small business corporation is subject to the tax imposed by section 1378 for a taxable year, the amount of such tax for such year is, except as provided in paragraph (b) of this section, the lower of—

(1) An amount equal to the tax, determined as provided in section 1201(a), on the amount (25 percent of such amount in the case of a taxable year beginning before January 1, 1970) by which the excess of the net long-term capital gain over the net short-term capital loss of the corporation for the taxable year exceeds $25,000 or

(2) An amount equal to the amount of tax which would be imposed by section 11 on the taxable income of the corporation for the taxable year (computed under section 1373(d)) if the corporation were not an electing small business corporation.

In applying section 1201(a)(1)(A) and (B) for purposes of subparagraph (1) of this paragraph for any taxable year ending after December 31, 1969, and beginning before January 1, 1975, the $25,000 limitation shall first be deducted from the amount (determined without regard to this paragraph and section 1378(b)) subject to tax in accordance with section 1201(a)(1)(B), to the extent thereof, and then from the amount (determined without regard to this paragraph and section 1378(b)) subject to tax in accordance to section 1201(a)(1)(A).

(b) *Exception.* If an electing small business corporation is subject to the tax imposed by section 1378 for a taxable year, and

(1) The election under section 1372(a) which is in effect with respect to such corporation for such year has been in effect for the corporation's three immediately preceding taxable years, or

(2) An election under section 1732(a) has been in effect with respect to such corporation for each of its taxable years for which it has been in existence,

the amount of such tax for such year shall not exceed a tax, determined as provided in section 1201(a), on the excess of the net long-term capital gain over the net short-term capital loss attributable to property with a substituted basis (see section 1378(c)(3) and paragraph (b) of § 1.1378-2). In the case of a taxable year beginning before January 1, 1970, the amount of such tax for such year shall not exceed 25 percent of such excess.

* * * * *

[FR Doc.74-30276 Filed 12-26-74;8:45 am]

Title 33—Navigation and Navigable Waters

CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 74-241]

PART 3—COAST GUARD AREAS, DISTRICTS, MARINE INSPECTION ZONES, AND CAPTAIN OF THE PORT AREAS

Eleventh Coast Guard District

These amendments revise the description of the two Captain of the Port Areas and the two Marine Inspection Zones of the Eleventh Coast Guard District in Part 3 of Title 33, Code of Federal Regulations.

The boundary of the Los Angeles Captain of the Port Area that is described in § 3.55-60 is revised to coincide with the Los Angeles-Long Beach Marine Inspection Zone that is described in § 3.55-10. The boundary of the San Diego Captain of the Port Area that is described in § 3.55-55 is revised to coincide with the San Diego Marine Inspection Zone that is described in § 3.55-15. The revision retains the inland boundary description of the two Marine Inspection Zones, but divides the coastal islands by a new line. The descriptions of the two Captain of the Port Areas, as amended by this document, are transferred to §§ 3.55-10 and 3.55-15. Accordingly, § 3.55-55 and 3.55-60, which contain the present descriptions of the areas, are deleted.

Since these amendments are matters relating to agency organization, they are exempt from the notice of proposed rule making requirements in 5 U.S.C. 553(b)(3)(A), and since these amendments announce an existing change in Coast Guard organization, they are effective immediately under 5 U.S.C. 553(d)(3).

In accordance with the foregoing, Part 3 of Chapter I of Title 33 of the Code of Federal Regulations is amended as follows:

1. Section 3.55-10 is revised to read as follows:

§ 3.55-10 Los Angeles-Long Beach Marine Inspection Zone and Captain of the Port Area.

(a) The Los Angeles-Long Beach Marine Inspection Office is located in Wilmington, California. The Los Angeles-Long Beach Captain of the Port Office is located in Long Beach, California.

(b) The boundary of the Los Angeles-Long Beach Marine Inspection Zone and Captain of the Port Area starts in California at the intersection of the San Luis Obispo County-Santa Barbara County boundary and the sea and follows this boundary to the Kern County line; thence north and west along the Kern County-San Luis Obispo County boundary to the Kings County line; thence eastward along Kings County-Kern County boundary to the Tulare County line; thence eastward along the Tulare County-Kern County boundary to the Inyo County line; thence eastward along the Kern County-Inyo County boundary to the San Bernadino County line; thence eastward along the Inyo County-San Bernadino County boundary to the Nevada State line; thence northwest along the California-Nevada boundary to its intersection with the Nye County-Clark County, Nevada boundary; thence north along this boundary to the Lincoln County line; thence east along the Clark County-Lincoln County boundary to the Arizona State line thence north along the Nevada-Arizona boundary to the Utah State line; thence north along the Nevada-Utah boundary to its intersection with the Iron County-Washington County, Utah boundary; thence eastward along this boundary to the Kane County line; thence north and east along the Kane County-Iron County boundary to the Garfield County line; thence northeast along the Garfield County-Iron County boundary to the Beaver County line; thence east along the Beaver County-Garfield County boundary to the Piute County line; thence east along the Piute County-Garfield County boundary to the Wayne County line; thence east along the Garfield County-Wayne County boundary to the San Juan County line; thence northward along the San Juan County-Wayne County boundary to the Grand County line; thence east along the San Juan County-Grand County boundary to the Colorado State line; thence south along the Utah-Colorado boundary to the Arizona State line; thence south along the Arizona-New Mexico boundary to the International boundary; thence west along the International boundary to its intersection with the Imperial County-San Diego County, California boundary; thence north along this boundary to the Riverside County line; thence west along the Riverside County-San Diego County boundary to the Orange County line; thence southwest along the Orange County-San Diego County boundary to the sea. The Los Angeles-Long Beach Marine Inspection Zone and Captain of the Port Area also includes the California islands south and east of the

V 93 N 251 DEC 30 1974 XUM

northern boundary of the Eleventh Coast Guard District, that is described in section 3.55–1 of this part (a line drawn from the intersection of latitude 34°58' N. and the California coastline southwesterly, bearing approximately 229° T), and north and west of a line drawn 255° T from latitude 32°22.5' N, longitude 117°35.7' W (San Mateo Point).

2. Section 3.55–15 is revised to read as follows:

§ 3.55–15 San Diego Marine Inspection Zone and Captain of the Port Area.

(a) The San Diego Marine Inspection Office and San Diego Captain of the Port Office are located in San Diego, California.

(b) The boundary of the San Diego Marine Inspection Zone and Captain of the Port Area is the boundary of San Diego County, California, starting and ending at the sea, but also including the California islands south and east of a line that is drawn 255° T from latitude 32°22.5' N, longitude 117°35.7' W (San Mateo Point).

§ 3.55–55 [Removed]

§ 3.55–60 [Removed]

3. Sections 3.55–55 and 3.55–60 are deleted.

(5 U.S.C. 552; 14 U.S.C. 633; 80 Stat. 937 (49 U.S.C. 1655(b)(1); 49 CFR 1.46(b))

Effective date: These amendments are effective December 31, 1974.

Dated: December 23, 1974.

R. I. PRICE,
Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.

[FR Doc.74-30337 Filed 12-27-74;8:45 am]

[CGD 74-291]

PART 26—VESSEL BRIDGE-TO-BRIDGE RADIOTELEPHONE REGULATIONS

Great Lakes Exemptions

The purpose of this amendment to the vessel bridge-to-bridge radiotelephone regulations is to extend the termination date of the exemption in the regulations that applies to vessels navigating on the Great Lakes.

The exemption was proposed in the FEDERAL REGISTER on November 11, 1972 (CGD 72-223P; 37 FR 24043) and issued on December 22, 1972 (CGD 72-223R; 37 FR 28092).

Because there was a need to evaluate actual operational results of the use of bridge-to-bridge radiotelephone by vessels in all U.S. waters and a possible resulting need to amend this exemption based on that evaluation, the exemption specified a termination date—January 1, 1975. This early termination date in 1975 was selected because an amendment to the United States-Canadian agreement for the promotion of safety on the Great Lakes by means of radio was expected to become effective sometime in 1975. That amendment has been ratified and becomes effective May 6, 1975.

By letter dated September 6, 1974, the Lake Carriers' Association has requested that the Coast Guard permanently exclude the Great Lakes from the applicability of the bridge-to-bridge radiotelephone regulations. Pending final determination of this request and the commencement of operations on the Great Lakes under the amended radiotelephone agreement, the termination date for the present exemption is extended by this document to May 6, 1975. I find that notice and public procedure on this amendment is impracticable, unnecessary and contrary to the public interest because evaluation of operations on the Great Lakes and their connecting and tributary waters has shown an excellent safety record attributable to the voice radio system in use. Termination of the exemption without adequate opportunity for vessels on the Great Lakes to prepare to comply with the regulations may disrupt commerce or adversely affect marine navigation safety. This amendment is effective in less than 30 days from its publication in the Federal Register because it grants or recognizes an exemption or relieves a restriction.

In consideration of the foregoing, Part 26 of Title 33 of the Code of Federal Regulations is amended by striking out the date "January 1, 1975" in § 26.09 and inserting the date "May 6, 1975" in place thereof.

This amendment becomes effective December 31, 1974.

(Vessel Bridge-to-Bridge Radiotelephone Act, 85 Stat. 164; 33 U.S.C. 1201–1208; 49 CFR 1.46(c)(2))

Dated: December 23, 1974.

O. W. SILER,
Admiral, U.S. Coast Guard Commandant.

Title 41—Public Contracts and Property Management

CHAPTER 4—DEPARTMENT OF AGRICULTURE

PART 4-50—DISPUTES AND APPEALS

Procurement; Miscellaneous Amendments

Correction

In FR Doc. 74-29847, appearing at page 44203 in the issue of Monday, December 23, 1974, the effective date should be changed to read, "December 23, 1974".

CHAPTER 14—DEPARTMENT OF THE INTERIOR

PART 14-3—PROCUREMENT BY NEGOTIATION

Determinations and Findings

Pursuant to the authority of the Secretary of the Interior contained in 5 U.S.C. 301, Part 14-3 of Chapter 14 of Title 41 of the Code of Federal Regulations is hereby amended as stated herein.

It is the general policy of the Department of the Interior to allow time for interested parties to participate in the rulemaking process. However, the amendments herein are administrative procedures for preparing and processing determinations and findings justifying negotiation and other determinations which are required to be made. Because the amendments are entirely administrative in nature, the public rulemaking process is waived in this instance. Part 14-3 is amended to read as stated below effective immediately.

RICHARD R. HITE,
Deputy Assistant Secretary of the Interior.

DECEMBER 10, 1974.

1. 41 CFR, Part 14-3 (Interior Procurement Regulations) is amended by adding the following to the table of contents:

Subpart 14-3.3—Determinations, Findings, and Authorities

Sec.	
14-3.305	Form and requirements of determinations and findings
14-3.305-50	Preparation of determinations and findings
14-3.305-51	Summary of required determinations and findings

AUTHORITY: (sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c).)

2. 41 CFR, 14-3 (Interior Procurement Regulations) is amended by adding the following:

Subpart 14-3.3—Determinations, Findings, and Authorities

§ 14-3.305 Form and requirements of determinations and findings.

§ 14-3.305-50 Preparation of determinations and findings.

(a) Determination and findings required by statute or regulation shall be prepared in accordance with §§ 14-3.305-50 and 14-3.305-51 of this chapter.

(b) Determinations and findings shall state the name of the bureau or office and location, identify the document as a "Determination and Findings," and state the purpose, such as "To Negotiate an Individual Contract under 41 U.S.C. 252(c)(2)." It must be dated and signed by the appropriate official.

(c) A determination and findings made by the Secretariat under section 302(c) of the Federal Property and Administrative Services Act of 1949, as amended (41 U.S.C. 252(c)) shall not constitute approval of a program or of specific procurements. It will authorize procurement by negotiation, in lieu of formal advertising, of the property or services described only when, in accordance with established regulations and procedures, it is determined that the procurement has been authorized and funds have been made available for the purpose.

(d) The "findings" are a series of factual statements in logical order which lead to the conclusion and justify the determination that the proposed action falls within the purview of statutory or regulatory authority. The purpose of the procurement action and its estimated cost are usually stated in the first paragraph of the findings. The other stated facts and circumstances shall clearly justify the determination.

(e) The "determination" is a statement that the proposed action falls within the purview of statute or regulation. The language of the determination is usually stated verbatim from the source of authority.

(f) The "authorization" constitutes the last paragraph of the determination and findings. It is a statement that the procuring activity is authorized to proceed with the proposed contract action and cites the authority under which the authorization is made.

(g) When practicable, all determinations pertaining to a single procurement should be consolidated in one determination and findings.

(h) In special cases determinations may be made for classes of procurements or contracts. Class determinations and findings shall be restricted to circumstances where greater operational flexibility in the processing of determinations and findings is necessary to minimize delays where several contracts may be issued. Each class determination and findings shall specify an effective period which shall not exceed one year. Before negotiating a contract under the authority of a class determination and findings, the contracting officer shall establish for each contract that procurement by formal advertising is not feasible and practicable.

(i) Determinations and findings for signature of or approval by the Secretariat shall be transmitted to the Assistant Secretary—Management by memorandum giving an explanation of the proposed transaction. The memorandum ordinarily should be brief; however, it should be sufficient, when read with the determination and findings, to fully explain the proposed transaction. All such submissions shall be routed through the Office of Management Services for review and approval.

§ 14.3.305–51 Summary of required determinations and findings.

This section is designed to serve as a guide to determinations and findings required in specific circumstances.

(a) *Rejection of all bids.* The determination to reject all bids and readvertise, pursuant to section 303(b) of the Federal Property and Administrative Services Act of 1949, as amended (41 U.S.C. 253), requires a determination and findings signed by the contracting officer. A list of circumstances justifying rejection and cancellation is found in § 1–2.404–1(b) of this title. (See also § 14–3.305–51(c)(14) of this chapter.)

(b) *Award prior to resolution of a protest.* The determination to make award prior to resolution of a protest by the General Accounting Office (GAO) requires advance approval by the Director of Management Services and a determination and findings signed by the contracting officer pursuant to § 14–2.407–8 of this chapter. The determination shall specify those factors which will not permit a delay in award until issuance of a ruling by the GAO.

(c) *Circumstances permitting negotiation.* These circumstances are numbered in the same sequence as section 302(c) of the Federal Property and Administrative Services Act of 1949, as amended (41 U.S.C. 252(c)), and Subpart 1–3.2 of this title. Subparts 1–3.2 of this title and 14–3.2 of this chapter contain authorizations and limitations which generally are not repeated in this § 14–3.305–51.

(1) National emergency. Covers contracts to assist labor surplus areas, unilateral set-asides for small business concerns and to further the Balance of Payments program. The Secretary has made a blanket determination concerning all such contracts in § 14–3.201(a) of this chapter.

(2) Public exigency. The determination and findings will be signed by the contracting officer. A typical format is contained in Appendix A of this Subpart 14–3.3.

(3) Purchases not in excess of $10,000. A determination and findings is not required.

(4) Personal or professional services. A determination and findings is not required; however, certain contracts for services require advance Departmental approval in accordance with Part 14–55 of this chapter.

(5) Services of educational institutions. A determination and findings is not required.

(6) Purchases outside United States. A determination and findings is not required.

(7) Medicines or medical supplies. The determination and findings will be signed by the contracting officer.

(8) Property purchased for authorized resale. The determination and findings will be signed by the contracting officer.

(9) Subsistence supplies. A determination and findings is not required.

(10) Impracticable to secure competition by formal advertising. The determination and findings will be signed by the contracting officer. (Special requirements pertaining to unsolicited proposals involving noncompetitive procurement are contained in § 14–4.5101–3(f) of this chapter.) A typical format is contained in Appendix B of this Subpart 14–3.3.

(11) Property or services for experimental, developmental, or research work. The determination and findings will be signed by heads of bureaus and offices for contracts not exceeding $25,000. Determinations and findings will be signed by the Assistant Secretary—Management for contracts which exceed $25,000. Determination and findings shall state whether the contract will be for research, development, testing or experimentation; or the making or furnishing of property or supplies for research, development, testing or experimentation; or for a combination of these. The format for a class determination and findings contained in Appendix C of this Subpart 14–3.3 may be modified to state the specific purpose.

(12) Purchases not to be publicly disclosed. The determination and findings will be signed by the Secretary.

(13) Standardization and interchangeability of technical equipment. The determination and findings will be signed by the Secretary.

(14) Negotiation after advertising. The authority to negotiate contained in § 1–3.214 of this title involves two separate circumstances.

(i) The determination and findings may be signed by the contracting officer when it is determined that bid prices after advertising therefor are not reasonable (either as to all or some part of the requirement).

(ii) The determination and findings that bid prices after advertising therefor have not been independently arrived at in open competition will be signed by the head of the bureau or office or his delegate.

(iii) When it is considered desirable, the determination normally made by the contracting officer to reject all bids because the bid prices are unreasonable (see § 14–3.305–51(a) of this chapter) may be combined with the determination and findings under this § 14–3.305–51 (c)(14).

(iv) A recommended format for such determinations and findings is contained in Appendix D of this Subpart 14–3.3.

(15) Otherwise authorized by law. As needed under other law.

(d) *Fixed-price contracts.* Generally, determinations and findings are not required to use fixed-price type contracts except as set forth in this § 14–3.305–51(d).

(1) Fixed-price incentive contracts. Determinations and findings will be signed by the head of the bureau or office or his delegate. Determination requirements are set forth in §§ 1–3.302(b) and 1–3.404–4(c) of this title.

(2) Retroactive price redetermination after completion. A determination and findings is not required; however, such contracts must be approved in writing by the head of the bureau or office prior to execution. (See § 1–3.404–7(c) of this title.)

(e) *Cost-type contracts.* The following determinations and findings are required pursuant to Section 304(b) of the Federal Property and Administrative Services Act of 1949, as amended, (41 U.S.C. 254(b)) prior to entering into cost-type contracts:

(1) Cost reimbursement contracts. The determination and findings will be signed by the head of the bureau or office or his delegate. Determination requirements are set forth in §§ 1–3.302(b) and 1–3.405–1(c) of this title.

(2) Cost-plus-a-fixed-fee contracts and cost-plus-incentive-fee contracts. In addition to the determination and findings set forth in § 14–3.305–51(e)(1), these types of contracts require a determination and findings signed by the head of the bureau or office or his delegate that statutory fee limitations will not be exceeded as set forth in § 1–3.405–5(c) of this title.

(f) *Use of letter contracts.* Letter contracts may be used only upon a determination and findings by the head of a bureau or office that no other type of contract is suitable pursuant to § 1–3.408 of this title. Determinations and findings and related contractual material must be

DEC 30 1974 XUM

submitted to the Assistant Secretary—Management for approval prior to use of a letter contract in accordance with § 14–3.408 of this chapter.

(g) *Other types of contracts.* The use of a time and materials contract or a labor-hour contract pursuant to §§ 1–3.406–1 and 1–3.406–2 of this title requires a determination and findings signed by the contracting officer.

(h) *Waiver of cost or pricing data provisions.* The determination that the price negotiated is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, or prices set by law (see § 1–3.807–3(b) of this title) will be signed by the contracting officer. The determination and findings required to waive the requirements for cost or pricing data and certification thereof pursuant to § 1–3.807–3(b) of this title will be signed by the Assistant Secretary—Management.

(i) *Waiver of audit of proposals.* The determination and findings required to waive the audit of proposals which exceed $100,000 pursuant to § 1–3.809(b) of this title shall be submitted to the Director of Management Services for approval as required by § 14–63.106 of this chapter.

(j) *Rejection of foreign bids.* Rejection of a foreign bid for reasons of the national interest requires a determination and findings signed by the Secretary pursuant to Section 10a of the Buy American Act (41 U.S.C. 10a–d) as implemented by §§ 1–6.103–3 and 1–6.104 of this title. (See §§ 14–6.105 and 14–18.604 of this chapter for excepted commodities.)

(k) *Balance of payments program.* Any determination and findings required for deviations, exceptions, and restrictions pertaining to contracts involving the Balance of Payments Program pursuant to §§ 1–6.803, 1–6.805, and 1–6.806 of this title will be made by the heads of bureaus and offices.

(l) *Waiver of Examination of Records clause.* Omission of the Examination of Records clause in contracts and subcontracts with foreign contracts and subcontractors requires a determination and findings signed by the Assistant Secretary—Management. The required determinations are found in paragraphs (a)(1) and (a)(2) of § 1–6.1001 of this title.

(m) *Advance payments.* (1) The determination, findings, and authorization required to make advance payments pursuant to § 1–30.405 of this title will be signed by the contracting officer after the determination, findings and authorization and the contract provisions relating to advance payments are approved by the Assistant Secretary—Management as set forth in § 14–30.406 of this chapter. (See also §§ 1–30.410 and 1–30.414–2 of this title.)

(2) The class determination and findings contained in § 14–30.410 of this chapter authorizes the making of advance payments to educational institutions for research projects in accordance with FMC 73–7 (formerly OMB Circular No. 101).

(n) *Nonresponsible prospective contractor.* The determination of nonresponsibility of a prospective contractor pursuant to § 1–1.1204–1 of this title will be made by the contracting officer.

Appendix A—Determinations and Findings To Negotiate an Individual Contract Under 41 U.S.C. 252(c)(2)

FINDINGS

1. The [bureau or office] has requirements for the repair or correction of misfabricated transmission tower steel furnished under Contract No. _____ and being erected on line A to B under Contract No. _____. The estimated cost of repairs is $15,000.

2. Immediate completion of line A to B is critical to meet scheduled energization dates and to avoid payment of delay damages under the construction contract's Suspension of Work clause.

3. The use of formal advertising to procure the above described services would require the preparation of detail specifications and drawings. This would unduly delay the construction and operation of line A to B and would render the Government responsible for additional costs of construction.

DETERMINATION

Based upon the foregoing findings, I hereby determine within the meaning of Section 302(c)(2) of Federal Property and Administrative Services Act of 1949, as amended, (41 U.S.C. 252(c)(2)), as implemented by FPR 1–3.202, that the proposed contract is for services for which the public exigency will not permit the delay incident to formal advertising.

Based on the foregoing findings and determination, procurement by negotiation of the work described herein is authorized.

_____
Contracting Officer

_____
Date

Appendix B—Determinations and Findings To Negotiate an Individual Contract Under 41 U.S.C. 252(c)(10)

FINDINGS

1. The [bureau or office] has a requirement for specialized support equipment for the maintenance of its AMCO control operation. The estimated cost of the equipment is $75,000.

2. The equipment to be purchased must be specifically designed for compatibility with the existing AMCO system to assure proper operation of the system.

3. It is impossible to draft for an invitation for bids adequate specifications or any other adequately detailed description of the required specialized equipment.

4. The use of formal advertising to procure the above described equipment would be impracticable. The market has been surveyed and only ABC Company, manufacturer and designer of the AMCO system, was found to have sufficient familiarity with the design and operational characteristics of the basic equipment to furnish the support equipment required.

DETERMINATION

Based on the foregoing findings, I hereby determine within the meaning of section 302(c)(10) of the Federal Property and Administrative Services Act of 1949, as amended, (41 U.S.C. 252(c)(10)), as implemented by FPR 1–3.210, that the proposed contract is for equipment for which it is impracticable to secure competition.

_____
Date

Appendix C—Determination and Findings To Negotiate a Class of Cost-Type Contracts for Experimental, Developmental and Research Work Under 41 U.S.C. 252(c)(11), 254, and 257

FINDINGS

1. Under the authorized program of the [Bureau of Office] contracts will be required for research, development, testing and experimentation associated with [conservation of water and development of water resources projects; development of new and more efficient methods of mining, preparing and utilizing coal] in the following program activities:

a. [List specific program activities in appropriate paragraphs]

2. The programs are authorized under [site statutory authority and/or appropriation acts].

3. The contracts contemplated under this authorization relate to theoretical analysis, exploratory studies and experimentation, developmental work and the practical application of investigative findings and theories of a scientific or technical nature; as well as services, tests, evaluations and reports necessary or incidental to experimental, developmental, or research work.

4. The proposed contracts may be entered into with profit or nonprofit organizations that are technically and scientifically qualified in the respective fields and which are prepared to furnish personnel, materials, and supplies necessary to perform the work required.

5. The use of formal advertising would not be feasible nor practical because no reliable specifications exist nor is it possible to properly prepare such specifications that would adequately allow competition on a formally advertised basis.

6. The exact nature and extent of the work covered by the proposed contracts and the precise method of performing that work cannot be established in advance but must be freely subject to improvisation and change as the work progresses. The cost of performing the work cannot be accurately forecast so as to permit the undertaking of such work for a fixed price without inclusion of excessive amounts to cover risk factors.

DETERMINATIONS

Based upon the foregoing findings, I hereby determine within the meaning of section 302(c)(11), 304, and 307 of the Federal Property and Administrative Services Act of 1949, as amended, that:

1. The proposed contracts are for research, development, testing, or experimentation pursuant to the authorized program cited above.

2. The proposed contracts are for research, development, testing, or experimentation within the meaning of section 302(c)(11) of the Federal Property and Administrative Services Act of 1949, as amended (41 U.S.C. 252(c)(11)).

3. It is impractical to obtain such contemplated research, development, testing, and experimentation efforts by means of formally advertised contracting procedures.

4. In accordance with section 304(a) of the Federal Property and Administrative Services Act of 1949, as amended (41 U.S.C. 254(a)), the type of contracts contemplated will promote the best interests of the Government.

5. In accordance with section 304(b) of the Federal Property and Administrative Services Act of 1949, as amended (41 U.S.C. 254(b)), it is impractical to secure property or services of the kind or quality required without the use of cost, cost-plus-fixed fee or incentive type contracts and these methods of contracting are likely to be less costly to the Government than other methods of contracting.

Upon the basis of these findings and determinations, I hereby authorize the negotiation of a class of cost, cost-plus-fixed fee or incentive type contracts for the procurement of the research, development, testing, or experimentation efforts described above pursuant to [cite statutory authorization] and sections 302(c)(11), 304, and 307 of the Federal Property and Administrative Services Act of 1949, as amended [41 U.S.C. 252(c)(11), 254, and 257].

This authorization to enter into a class of contracts: (a) does not foreclose requirements for other findings and determinations that are necessary in connection with procurement by negotiation; and (b) does not authorize the procurement by negotiation of supplies or services within the class which feasibly and practically could be procured through formal advertising.

Negotiated contracts involving construction as a major part of the scope of work shall not be awarded under this determination and findings without review and approval by the Office of the Assistant Secretary—Management.

This class authorization will expire [on June 30, 19--; one year from the date of execution hereof].

Assistant Secretary—
Management

Date

Appendix D—Determination and Findings To Negotiate a Contract After Advertising Under 41 U.S.C. 302(c)(14) and 307

FINDINGS

1. The [procuring activity] solicited bids under IFB No. ------ dated ---------- for [describe and state location or delivery point]. Low bids were received from the following:

[List the bidders and bid amounts of the three lowest responsive bids.]

2. The Government estimate for the work was $------ [The Architect-Engineer estimate was $------].

3. Since the bids received under this solicitation significantly exceeded the cost estimates, there is reason to believe that the bidders which responded did not fully comprehend the scope of the work as defined in the specifications of the IFB.

4. All bids have been rejected and the IFB cancelled, pursuant to sections 303(b) and 307 of the Federal Property and Administrative Services Act of 1949, as amended, after determining it to be in the public interest. [Delete this paragraph when paragraph 1 of Determinations is used.]

5. The requirement for the [product; work; service] continues to exist.

DETERMINATIONS

Based upon the foregoing findings, I hereby determine that:

1. Within the meaning of section 302(b) of the Federal Property and Administrative Services Act of 1949, as amended, and as implemented by FPR 1-2.404-1(b)(5) and FPR 1-3.302(c), the otherwise acceptable bids received are unreasonable as to price and that it is in the public interest to reject all bids; and [Delete this paragraph when paragraph 4 of Findings is used.]

2. Within the meaning of section 302(c)(14) of the Federal Property and Administrative Services Act of 1949, as amended, and as implemented by FPR 1-3.214 and FPR 1-3.301, negotiation of a contract (or contracts) is justified.

Upon the basis of these findings and determinations, I hereby authorize:

1. Rejection of all bids and cancellation of IFB No. ------ [Delete this paragraph when paragraph 4 of the Findings is used.]

2. Negotiation of a contract (or contracts) for procurement of the [product; work; services] described above pursuant to section 302(c)(14) of the Federal Property and Administrative Services Act of 1949, as amended (41 U.S.C. 252(c)(14)).

Single Sideband High Frequency Stations

Report and order. In the matter of amendment of Parts 81, 83, 87, 89, 91, 93, and 97 of the Commission's rules to provide a common emergency frequency for use by single sideband high frequency stations licensed under these Parts in the State of Alaska; amendment of Part 2 to provide for such operations in the Table of Frequency Allocations. (RM-2164)

1. In response to the petition for Rule Making filed by the State of Alaska, a notice of proposed rule making in the above-captioned matter was released on January 4, 1974, and published in the FEDERAL REGISTER on January 7, 1974 (39 FR 1280). The dates for filing comments and reply comments thereto have passed.

2. Comments were filed by:

Alaska Aviation Radio, Inc. (AARI)
American Radio Relay League (ARRL)
Central Committee for Communications Facilities of the American Petroleum Institute (API)
Civil Air Patrol (CAP)
Defense Civil Preparedness Agency (DCPA)
North Pacific Marine Radio Council (NPMRC)
State of Alaska, Department of Public Works, Division of Communications (DIVISION)
U.S. Citizens Radio Council (CRC).

Reply comments were filed by:

DIVISION—Associated Public-Safety Communications Officers (APCO)

All of the commentators supported the Commission's proposal for an emergency frequency for the State of Alaska.

3. *Definition of emergency:* ARRL suggested that the emergency be interpreted very broadly since the conditions in Alaska are variable and what constitutes an emergency in sparsely populated areas would not be an emergency in densely populated areas. CAP stated that any station in Alaska should be able to use the emergency frequency. API and APCO suggested that emergency communications be limited to the safety of life and property. Our intent is to make this emergency frequency available to as many stations as possible with minimum operational restrictions. The vast area of the State of Alaska, the unusual and hazardous conditions, and the differences in climate, make a precise definition of emergency impractical and undesirable. Division has proposed to exercise operational control over the network, and can determine where abuses to the system are prevalent. Should abuses occur which degrade the system, remedial action can be taken by the Commission.

4. *Frequencies for emergency:* API has stated that 4383.8 kHz will only provide for short range coverage during daylight hours and does not provide a thoroughly reliable HF emergency communication. API further states that a member has monitored 5167.5 kHz for several years and that experience indicates that this would be a better frequency for an emergency channel than the frequency proposed. DCPA suggested that another frequency between 7,000–8,000 kHz be selected and simultaneous transmission on both frequencies be made for complete coverage. APCO also commented on the need for additional frequencies. ARRL suggested selection of a frequency between 3,500–4,000 kHz, near the high end of the amateur band, in order that amateurs may use existing equipment. The Commission, in this matter, originally addressed itself to providing a single short range frequency for use by individuals under emergency situations. The selection of an HF frequency was made to obtain ground wave propagation where line of sight (VHF) propagation would be inadequate due to geographic obstructions. DIVISION petitioned the Commission to designate a single frequency for this purpose and to make the frequency available to all stations operating in this band, except public correspondence stations, to increase the number of stations monitoring the frequency and thereby improve the probability of the emergency communications being received. We recognized that additional frequencies would be required to provide reliable communications over long distances, however, clearance of a complement of HF frequencies would require an extensive period of time in view of the extreme congestion in the HF band, particularly in the 4–12 MHz portion of the spectrum. We believe that DIVISION will develop an experience factor after operating the emergency network which will assist the Commission in selection and clearance of additional frequencies. We are, therefore, not terminating this proceeding at this time.

5. *Deletion of 4383.8 KHZ from Alaska public fixed stations:* API and CAP did not believe that deletion of this frequency was necessary, provided that the station would cease operation on this frequency when an emergency was in progress. DCPA, APCO and DIVISION believe that it is necessary to delete the frequency. We are not persuaded that deletion of the frequency from the Alaska Public Fixed Service is necessary at this time, in view of our intent to make the frequency available to as many stations as

XUM
V 39 N 251 DEC 30 74 XUM

possible and have as many stations as possible maintain a watch on the emergency frequency. In this regard it is noted that some Federal Government stations wish to participate in the emergency network and that Federal agencies will cooperate toward making the frequency useful. However, they intend to continue their use of their own assignments on a day-to-day basis. In the event that experience shows that continued use of the frequency for public correspondence derogates the emergency frequency, the Commission will take necessary steps to rectify the situation.

6. *Exclusion of all services requiring the purchase of equipment:* NPMRC has stated that reliable communications intra Alaska are rapidly being developed, and will undoubtedly meet the need for emergency services in the near future. For this reason, any service not presently equipped for use of SSB HF frequencies should be excluded. Participation in the emergency system is purely voluntary. Some stations in these services, Part 83, may have a need for an emergency communications capability and should not be prohibited from participating. Any station not desiring to participate, simply does not purchase the equipment. The entire system is predicated on the premise that a maximum number of stations in all services provide a voluntary monitoring of the emergency frequency for safety of life and property in Alaska.

7. *Exclusion of CB:* CRC stated that the Commission's remarks concerning CB in the Notice of Proposed Rule Making, reflect a bad light on all CB users, whereas much of the rule violations cited in the NPRM were perpetrated by unlicensed users of the citizens service. Citizens Radio Service users have worked hard in emergency communications with such fine groups as ALERT and REACT. For the above reasons, CRC requests the Commission to remove all reference to rule violations by CB and include CB in the emergency service in Alaska. ARRL supported the Commission in deleting CB from the NPRM and stated that any service not authorized SSB HF equipment be deleted. DIVISION reconsidered its inclusion of CB stating as follows: "Recognizing the necessity for network discipline, the State reconsiders the inclusion of the Citizens Radio Service in the emergency network. The feeling is that this service should not be included, as it could jeopardize the success of the network, based on past operating rule violations." The Commission acknowledges the contribution of CB in ALERT and REACT, however, CB is basically an undisciplined service. Past experience at 27 MHz has shown that a large number of persons operate outside of the authorized frequency band in violation of the Commission's rules. A transmitter authorized to operate on 4383.8 kHz would probably be capable of operation on frequencies from 3 to 6 MHz. Unauthorized operation on these frequencies would present a severe interference potential to other authorized stations; therefore, the Commission is not including CB in the Alaska emergency system.

8. *Operator licenses:* ARRL stated that all licensed operators should be permitted to participate and that no special endorsement be required. The Commission does not propose to require any special operator endorsement or license. The license requirements for the particular service will be adequate for operation on the emergency frequency.

9. *Requirement for an operational plan:* DIVISION has submitted an operational plan and proposes to provide State and regional net control of the Alaska emergency frequency to assure receipt and transmission of all traffic deemed to be necessary for the protection of life and property. The operational plan is endorsed by the Commission in its entirety and is included as Attachment I to this Report and Order. The State of Alaska will maintain adequate logs to evaluate the emergency network and determine the need for additional frequencies and either addition or deletion of additional services authorized to use the emergency frequency. This plan makes adequate provisions for monitoring, practice drills and net control and there is no requirement to make specific provisions for these items in the Commission's rules. ARRL, API and CAP have all stated the desirability of establishing net control stations. The operational plan of the State of Alaska includes most of these suggestions and any changes to this plan should be submitted to the State of Alaska for their comments or inclusion in the plan.

10. *Further notice of proposed rule making:* API recommends that the Commission review all comments submitted in response, prepare the appropriate rule amendments and then solicit further comments by a Further Notice of Proposed Rule Making. DIVISION, in their reply comments, believes that the Commission has adequate information to act on the single emergency frequency 4383.8 kHz. The Commission is not persuaded that any benefits would accrue from a Further Notice of Proposed Rule Making. It would be more desirable to initiate operation on a single frequency and observe any additional requirements necessary to satisfy specific operating problems experienced.

11. The State of Alaska will submit a report on the operation of the Alaska Emergency System after a period of one year. In this report, any additional frequency requirements, addition or deletion of stations in any service and any other operational problems will be reported. After analysis of this report, the Commission will issue a Further Notice of Proposed Rule Making or other appropriate Order to improve the system herein adopted or to terminate this proceeding.

12. Accordingly, it is ordered, That, pursuant to the authority contained in section 4(i) and 303 (c), (h), and (r) of the Communications Act of 1934, as amended, Parts 2, 81, 83, 87, 89, 91, 93, and 97 of the Commission's rules are amended effective January 27, 1975, as set forth in the attached Appendix.

Adopted: December 10, 1974.

Released: December 20, 1974.

(Secs. 4, 303, 48 Stat., as amended 1068, 1082; 47 U.S.C. 154, 303)

FEDERAL COMMUNICATIONS COMMISSION,
VINCENT J. MULLINS,
Secretary.

Parts 2, 81, 83, 87, 89, 91, 93, and 97 of Chapter 1 of Title 47 of the Code of Federal Regulations are amended as follows:

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

1. Section 2.106 is amended by adding a new footnote US 212 as follows:

§ 2.106 Table of Frequency Allocations.

FEDERAL COMMUNICATIONS COMMISSION

Band (kHz)	Service	Class of station	Frequency (kHz)	Nature of services of stations
(7)	[8]	[9]	(10)	(11)
• •	•	•	•	• • • •
4361–4438 (US212).....	Maritime mobile.	Coast.....	4383.8	Coast (telephony) (Alaska emergency frequency).
• •	•	•	•	• • • •

US Footnotes

• • • • • • • •

US212 The use of the carrier frequency 4383.8 kHz (assigned frequency 4386.2 kHz), maximum power 150 watts peak envelope power, may be authorized to non-government stations in the amateur, fixed and mobile services and to Government stations, in the State of Alaska for emergency communications. No airborne operations will be permitted on this frequency. Additionally, all stations operating on this frequency must be located in or within 50 nautical miles of the State of Alaska.

• • • • • • •

PART 81—STATIONS ON LAND IN THE MARITIME SERVICES AND ALASKA-PUBLIC FIXED STATIONS

2. Section 81.304(a) table is amended by adding a condition of use and new paragraph (b)(9) added to read as follows:

§ 81.304 Frequencies available.

(a) • • •

Carrier frequency (kHz)	See section	Conditions of use
•	• •	• • •
4383.8.....	81.107	9, 11, 20, 46, 51, 61
•	• •	• • •

(b) • • •

(9) The frequency 4383.8 kHz, maximum power 150 watts PEP, may be used

by any station authorized under this part to communicate with any other station authorized in the State of Alaska for emergency communications.

• • • • •

PART 83—STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

3. Section 83.351(a) table is amended by adding a condition of use and new paragraph (b)(6) added to read as follows:

§ 83.351 Frequencies available.

(a) • • •

Carrier frequency (kHz)	See section	Conditions of use
•	•	•
4383.8	83.370	6, 15, 17

(b) • • •

(6) The frequency 4383.8 kHz, maximum power 150 watts PEP, may be used by any station authorized under this part, within 50 nautical miles of the State of Alaska, to communicate with any other station authorized in the State of Alaska for emergency communications.

• • • • •

PART 87—AVIATION SERVICES

4. Section 87.297(a) is amended by adding the frequency 4383.8 kHz and a new footnote, as follows:

§ 87.297 Alaska.

(a) • • •

Frequencies available:

kHz	kHz
3411	[2] 4383.8
4668	[1] 4696

[1] Daytime only.

[2] The frequency 4383.8 kHz, maximum power 150 watts PEP, may be used by any station authorized under this part to communicate with any other station authorized in the State of Alaska for emergency communications. No airborne operations will be permitted on this frequency.

• • • • •

PART 89—PUBLIC SAFETY RADIO SERVICE

5. Section 89.101 is amended by designating present paragraph (b) as paragraph (b)(1) and adding a new paragraph (b)(2) as follows:

§ 89.101 Frequencies.

• • • • •

(b) (1) • • •

(2) The frequency 4383.8 kHz, maximum power 150 watts PEP, may be authorized to any station in the Public Safety Radio Services for emergency communications in the State of Alaska. No airborne operations will be permitted on this frequency. Additionally, all stations operating on this frequency must be located in or within 50 nautical miles of the State of Alaska.

• • • • •

6. Section 89.161 is amended by designating the existing paragraph as (a) and adding paragraph (b) as follows:

§ 89.161 Communication with other stations.

(a) In those cases which require cooperation or coordination of activities, stations in the Public Safety Radio Services may communicate with stations in other services and U.S. Government stations.

(b) The frequency 4383.8 kHz may be used by stations in the Public Radio Services to communicate with any station authorized in the State of Alaska for emergency communications. No airborne operations will be permitted on this frequency. Additionally, all stations operating on this frequency must be located in or within 50 nautical miles of the State of Alaska.

PART 91—INDUSTRIAL RADIO SERVICES

7. Section 91.101 is amended by designating the present paragraph as paragraph (a) and adding new subparagraph (b) as follows:

§ 91.101 Frequencies.

(a) • • •

(b) The frequency 4383.8 kHz, maximum power 150 watts PEP, may be authorized to any station in the Industrial Radio Services for emergency communications in the State of Alaska. No airborne operations will be permitted on this frequency. Additionally, all stations operating on this frequency must be located in or within 50 nautical miles of the State of Alaska.

8. Section 91.151 is amended by adding a footnote to § 91.151(a)(1) as follows:

§ 91.151 Permissible communications.

(a) • • •

(1) Any communication related directly to the safety of life or the protection of property[1];

• • • • •

PART 93—LAND TRANSPORTATION RADIO SERVICES

9. Section 93.101 is amended by designating the present paragraph (a) as paragraph (a)(1) and adding a new paragraph (2) as follows:

§ 93.101 Frequencies.

(a) (1) • • •

(2) The frequency 4383.8 kHz, maximum power 150 watts PEP, may be authorized to any station in the Land Transportation Radio Services for emergency communications in the State of Alaska. No airborne operations will be permitted on this frequency. Additionally, all stations operating on this frequency must be located in or within 50 nautical miles of the State of Alaska.

• • • • •

[1] The frequency 4383.8 kHz may be used by any station authorized under this part to communicate with any other station in the State of Alaska for emergency communications. No airborne operations will be permitted on this frequency. Additionally, all stations operating on this frequency must be located in or within 50 nautical miles of the State of Alaska.

10. Section 93.151 is amended by adding a footnote to § 93.151 (a)(1) as follows:

§ 93.151 Permissible communications.

(a) • • •

(1) Any communication relating directly to the safety of life or the protection of important property [1];

• • • • •

PART 97—AMATEUR RADIO SERVICES

11. § 97.61 is amended by adding a new frequency and limitation of use in paragraph (a) and adding new limitation (b)(13) as follows:

§ 97.61 Authorized frequencies and emissions.

(a) • • •

Frequency band	Emissions	Limitations (see paragraph (b))
kHz		
•	•	•
4383.8	A3J/A3A	13
•	•	•

(b) Limitations:

• • • • •

(13) The frequency 4383.8 kHz, maximum power 150 watts, may be used by any station authorized under this part to communicate with any other station authorized in the State of Alaska for emergency communications. No airborne operations will be permitted on this frequency. Additionally, all stations operating on this frequency must be located in or within 50 nautical miles of the State of Alaska.

• • • • •

12. Section 97.107 is amended by adding a footnote to § 97.107(a) as follows:

§ 97.107 Operation in emergencies.

• • • • •

(a) All transmissions within all designated amateur communications bands [1] other than communications relating directly to relief work, emergency service, or the establishment and maintenance of efficient amateur radio networks for the handling of such communications shall be suspended. Incidental calling, answering, testing or working (including casual conversations, remarks or messages) not pertinent to constructive handling of the emergency situation shall be prohibited within these bands.

• • • • •

[1] The frequency 4383.8 kHz may be used by any station authorized under this part to communicate with any other station in the State of Alaska for emergency communications. No airborne operations will be permitted on this frequency. Additionally, all stations operating on this frequency must be located in or within 50 nautical miles of the State of Alaska.

STATE OF ALASKA
ALASKA DISASTER OFFICE

COMMUNICATIONS PLAN: STATE AND REGIONAL NET CONTROL ALASKA EMERGENCY FREQUENCY 4383.8 KILOHERTZ

I. *Mission.*

To provide for the State and Regional Net Control of the Alaska Emergency Frequency to assure the receipt and transmission of all traffic deemed immediately essential for the safety of life and property; for alleviation of human suffering and hardship and the general welfare of the public.

II. *Situation and assumptions.*

A. There are many remote villages and other communities within the State that are totally dependent on radio communications.

B. These communities rely on radio as the only source of receiving and transmitting emergency traffic.

C. Emergency communications among the various stations licensed to individuals, companies, and governmental agencies are difficult and often impossible due to the previous lack of a common emergency frequency.

D. Communities which have land line facilities for emergency communications often lose those capabilities due to disruptions caused by storms, floods, fires, earthquakes, and other forces of man and nature. These communities require a backup communications system on a frequency which is monitored 24-hours a day.

E. The State of Alaska and other governmental agencies have responsibilities of providing warning information to all communities in Alaska in the event storms, tsunamis, fires, and other threats to life and property occur. This warning information must be transmitted over the most rapid and immediately available commnunications systems that exist.

F. The State of Alaska and other governmental agencies have requirements to respond to emergency requests for assistance and to relay this information to the appropriate agencies for prompt response.

G. Because of these factors, the State has applied to the Federal Communications Commission for a single sideband high frequency of 4383.8 Kilohertz as a common emergency frequency for use by individuals, companies, radio amateurs, and governmental agencies.

III. *Organization and responsibilities.*

A. *State.*—1. *Alaska Disaster Office.* The Alaska Disaster Office headquarters in Anchorage will function as State Net Control. The Alaska Disaster Office will, through cooperation with the State Division of Communications and the Division of Alaska State Troopers, establish regional net control stations; conduct tests of the State and regional net control stations exercise its authority to shut down stations in the event that two or more stations respond simultaneously to an emergency call; and regulate traffic in the event of two or more simultaneous emergency calls.

As with the National and Alaska Warning System, the Alaska Disaster Office will be State Control during normal working hours and transfer State Control to the Alaska State Troopers during non-working hours.

2. *Alaska State Troopers.* The Alaska State Troopers at Anchorage, by agreement, will operate the State Net Control of the Alaska Emergency Frequency during Alaska Disaster Office non-duty hours and regulate any and all emergency traffic.

The Alaska State Troopers will monitor and regulate traffic from the regional net controls at Fairbanks, Nome, Kodiak, and Juneau.

3. *Division of communications.* The Division of Communications will establish the emergency frequency and license the State Control Station in Anchorage and the regional net control stations at Fairbanks, Nome, Kodiak, and Juneau. The Division of Communications will maintain the equipment and antenna systems at these locations and future sites as deemed necessary.

The Division of Communications will establish the Alaska Emergency Frequency in selected State radio systems in the cities and villages throughout the State.

The Division of Communications will provide the State Net Control with information concerning the regional net control stations, call signs, locations and addresses, and operating schedules.

4. *Other stations.* Individuals, including amateur radio operators (but excluding citizens band radio), businesses, industry, and governmental agencies are encouraged to establish the Alaska Emergency Frequency in their single sideband equipment so that they may receive and transmit warning and other emergency traffic to or from a regional on the State Net Control.

IV. *CONCEPT OF OPERATIONS*

A. *STATE NET CONTROL.*—1. *Monitoring.* The Alaska Disaster Office in Anchorage will monitor the Alaska Emergency Frequency during normal hours of operation (8 a.m. to 4:30 p.m. Monday through Friday, excluding weekends and holidays). The Alaska State Troopers will monitor the Alaska Emergency Frequency during Alaska Disaster Office non-working hours.

2. *Tests.* The Alaska Disaster Office will initiate tests of the regional monitor stations to assure operational readiness of the Statewide system and for disseminating information to monitoring systems and the public.

3. *Authority to shut down stations.* The Alaska Disaster Office/Alaska State Troopers will exercise their authority as State Net Control to shut down stations in the event two or more stations respond simultaneously to an emergency call to assure the message is delivered to the net control station nearest the originating call.

4. *Regulation of traffic.* The Alaska Disaster Office/Alaska State Troopers, as State Net Control, will regulate the traffic over the Alaska Emergency Frequency in the event two or more stations transmit simultaneous emergency calls by assigning a priority according to the urgency of the calls.

5. *Warning.* The Alaska Disaster Office/Alaska State Troopers will utilize the Alaska Emergency Frequency for warning to communities, governmental agencies, and the public in the event of threats to life and property. These threats include, but are not limited to, storms, tsunami watch and warning, floods, fires, and other factors that could affect the safety and well-being of Alaskan residents.

6. *Receipt of Emergency Calls.* The Alaska Disaster Office/Alaska State Troopers will relay emergency calls and traffic to the appropriate agency responsible for handling the particular assistance requested in accordance to existing emergency plans and authorities.

7. *Records.* The Alaska Disaster Office/Alaska State Troopers will maintain a record/log, including time and date, of all incoming and outgoing calls. All requests for assistance will contain a brief insert as to the action taken.

B. *REGIONAL NET CONTROLS*—1. *Monitoring.* The regional net control stations will monitor the Alaska Emergency Frequency 24-hours a day.

2. *Tests.* The regional net control stations will respond to State Control tests, and so far as practicable, conduct regional tests within their region with others who have the emergency frequency.

3. *Authority to shut down stations.* The regional net control stations have the authority to shut down other stations operating on the Alaska Emergency Frequency in the event traffic within their area interferes with the receipt or dissemination of emergency information.

4. *Regulation of traffic.* The regional net control stations will regulate traffic within their area in the event two or more stations transmit simultaneous emergency calls by assigning a priority according to the urgency of the calls.

5. *Warning.* The regional net controls will utilize the Alaska Emergency Frequency for the receipt and transmission of warning information that poses a threat to life and/or property.

6. *Receipt of emergency calls.* The regional net control stations will relay emergency calls and traffic to the appropriate agency responsible for handling the type of emergency assistance requested in accordance with existing emergency plans and authorities.

7. *Records.* The regional net control stations will maintain a record/log, including time and date, of all calls received and transmitted. A brief notation of the action taken will be included on requests for assistance.

[FR Doc.74-30074 Filed 12-27-74;8:45 am]

[Docket No. 20020]

PART 76—CABLE TELEVISION SERVICES

Line Extension Provisions in Franchises

1. On April 15, 1974, the Commission adopted its clarification of rules and notice of proposed rulemaking, FCC 74-384, 46 FCC 2d 175 (1974), in which we proposed, among other things, to clarify certain references in section 76.31 (a) (1) and (2) of the Rules. Specifically, we were concerned with the "* * * adequacy and feasibility of * * * construction arrangements" and the requirement that the cable operator must "* * * equitably and reasonably extend energized trunk cable * * *." We stated that ideally the entire franchise area should be wired. However, we acknowledged that this goal is not always reasonably attainable and that, as a result, many franchises contain "line extension" clauses or other provisions limiting the area in which the system operator is required to provide service. As stated in the Clarification, supra at paragraph 63, our experience has revealed that:

> [I]n many cases line extension policies were set without any consultation with the citizens involved, and at least a few instances have been found where even the franchising authority did not fully comprehend the effect of its actions.

Also, the Commission has received numerous complaints from persons affected by line extension policies who request Commission relief. Therefore, we adopted, as part of the Clarification, a notice of proposed rulemaking in Docket No. 20020, proposing that § 76.31(a) (1) and (2) be amended to require a showing that any line extension policy was developed knowledgeably and publicly. In so doing, we stated that unique problems were involved in determining an appropriate approach to the question of cable system construction requirements. Therefore, we recognized that local involvement was essential and that, "* * * it would be a mistake to attempt to specify a nation-wide rule on this point. Indeed, it might be very difficult to create any such rule even on a state by state level." Delineation of the franchise area has been a matter of local, rather

than federal, control. The purpose of this proceeding is to reassert our position in this regard and to make franchising authorities explicitly aware of their responsibility to knowledgeably and publicly determine the appropriate franchise area.[1]

2. We are now in receipt of comments and replies from a number of parties, which can be classified generally into the following groups: the cable television industry, the broadcast industry, municipalities, regulatory commissions, and public interest organizations. Comments between and within groups varied as to the amount and type of federal and local control to be asserted. However, a majority of the parties expressed agreement with our position that there should be primarily local control over line extension policy.

3. The cable television industry's comments generally favored a position that allows local franchising authorities to determine whether a line extension policy is necessary. Most comments acknowledged that familiarity with unique local conditions is essential to a well-reasoned policy. Granville Cablevision and Emco CATV stated that the subject of this proceeding presents a national problem but that a uniform policy would be disastrous. While many parties were willing to leave factors to be considered to the franchising authority, several parties advocated adoption of a federal "bottom line" standard to gauge the reasonableness of local policies. The primary concern in this regard was that a policy be fully compensatory to the system on an individual area basis. These standards would be applicable to systems already in operation. New systems, of course, would be required to comply with the guidelines in the franchising process. Buckeye Cablevision et al. explained that the cable system should recover return cost plus a reasonable profit for all areas served. In reply comments, TM Communications maintained that the relevant factors to be considered are costs vs. revenues derived, rather than other criteria such as density formulas based on homes per square mile. In this connection, several parties contended that development of a line extension policy is closely related to subscriber rates, and thus best considered by the franchising authority which also deals with that subject. The cable industry comments uniformly endorsed a position that the Commission not adopt a policy imposing specific public notification guidelines on franchising authorities. A group of 82 cable television companies emphasized that local authorities' experience in promulgating public notice requirements for zoning, public works, and highway improvement projects makes them eminently qualified to determine a suitable notice requirement for their constituency. The National Cable Television Association maintained that the Commission should only require an assurance from the franchising authority and the cable company that the public and those citizens affected were adequately informed of the policy before it was adopted. Following this position, several parties suggested that § 76.31(a) be amended to require that any construction arrangements and line extension policy be adopted "knowledgeably and publicly."

4. The majority of municipalities commenting opposed the establishment of a federal standard for line extension policies. They asserted that localities are best suited to determine whether an entire francise area should be constructed, and if not, what criteria should be considered in promulgating a line extension policy. A uniform policy, the City of Eugene, Oregon maintained, would be contrary to the spirit of the current cable television rules of experimentation, would prohibit cities with experience in this area from developing their own policy, and could be based on inaccurate assumptions. The City of Dallas, Texas argued that not only should there be no federal standard, but also there should be no Commission requirement for inclusion or exclusion of a line extension policy in a franchise. On the other hand, a small number of municipalities urged Commission adoption of their own line extension policies. The City of Knoxville, Tennessee requires that,

> • • • the franchisee construct and operate a system to provide service to all parts of the city having a density of at least fifty (50) residential dwelling units per mile. At his option the franchisee may wire areas with a lesser density. Whenever the franchisee receives a request for service from at least ten (10) subscribers within fifteen hundred (1500) feet of its system he shall extend his system to them at no cost other than his usual connection fee. The 1500 feet is measured along the public way or easement and does not include the necessary service drop to the subscriber's residence.

For semi-rural, suburban areas, the City of San Diego, California directed attention to California's line extension rules for electric utilities. Several municipalities, as well as the National League of Cities, agreed that the Commission's ideal of cable service to the entire franchise area should be achieved whenever possible. The City of Burbank, California suggested that a franchisee is adhering to this goal if he has a long range plan to serve as much of the franchise area as possible and his present activities have been adopted in a public proceeding. Many of the commenting municipalities contended that the present "full public proceeding" requirement of § 76.31(a)(1) of the rules is sufficient to assure that all interested parties are given the opportunity to participate in the formulation of any construction arrangements and line extension policies. Several parties, including the Metropolitan Council of Governments, the City of Los Angeles, and the City of New York, stated that the addition of specific Commission requirements for public notification would duplicate and even conflict with existing local or state provisions for due process. To require specific notice to parties affected by a line extension policy is preferential and may violate due process considerations, the National League of Cities warned. The League of Wisconsin Municipalities suggested that the Commission recognize state statutes embodying due process requirements. While these parties opposed implementation of additional public notice criteria, several municipalities advocated that the Commission require assurances in the certificating process that any line extension policy was adopted knowledgeably and publicly.

5. The New York State Commission on Cable Television argued that federal requirements for construction and line extension policies should not be imposed. Formulation of this policy should be left to the franchising authority in the first instance. However, the New York Commission maintained that it is opposed to any rule which would preclude exercise of its authority to impose requirements over line extension policy development. It claimed that it could take into account differing local situations and play a constructive role in resolving disputes. The New York Commission agreed that local governments should be subject to procedural safeguards as alluded to in this proceeding. However, the State Commission did not suggest that specific criteria be imposed by this Commission, but rather maintained that assurances would be sufficient. Several parties expressed agreement with the Federal/State-Local Advisory Committee Report discussion of Issue 14 that in the great majority of cities, the uneconomic area of the community is sufficiently small to allow its inclusion in the service area and to be served at uniform rates. When the entire area cannot be served, the policy should be determined in an informed and fair manner. When the variation in costs is too substantial to justify an "averaging in" approach, the parties suggested that a line extension policy be developed. The Cable Television Rates and Service Committee of the Texas Utility Advisory Council agreed with the Commission that promulgation of any necessary line extension policy should be left to the municipality, provided that adequate public notification procedures are followed.

6. The only comments received from the broadcast industry were from the National Association of Educational Broadcasters. This Association recognized that the ideal of service to the entire franchise area is not always possible, and suggested that the Rules be amended to require assurances from the franchisee and franchisor that adequate public notice is given of the policy before adoption and the proceeding include participation by representatives from the affected area. The Association expressed the hope that Commission guidelines in this area would lead to more specific criteria and a "national grid system." The National News-

[1] We take this opportunity to emphasize that the franchise requires cable systems to accomplish significant construction within one year of the issuance of the certificate of compliance, and that thereafter, cable service be made available to a substantial percentage of the franchise area each year. We consider as reasonable a clause requiring that cable service be extended to 20 percent of the franchise area annually.

V 39 N 251 DEC 30 1974
XUM
V

paper Association filed comments urging the establishment of Commission standards to insure adequate notification of governments' line extension policies. These requirements should provide for newspaper public notices, including maps delineating the areas to be served.[3]

7. Commenting public interest groups unanimously expressed the opinion that either federal or state guidelines or procedures should be imposed to govern line extension policy adoption. While the Civil Liberties Union of Alabama suggested specific Commission criteria, the National Citizens Committee for Broadcasting advocated only federal guidelines. The Philadelphia Community Cable Coalition supported regional franchising and state-wide planning for cable development. Several parties stressed the importance of system interconnection capabilities, especially in the case of multiple franchises. Continued concern was expressed for insurance of service to the center city. The Philadelphia Coalition urged the Commission to establish guidelines for permissible rate charges based on line extension policies, and suggested that profitable, existing systems be required to extend service to outlying areas at normal rates. The public interest groups recommended adoption of a public notice requirement, and many suggested that more stringent criteria than those proposed be adopted. The National Black Media Coalition maintained that each person affected by a proposal be sent a certified letter regarding the public proceeding.

8. The Cable Television Information Center found value in the instant proceeding's objective of delineating the cable operators' and franchising authorities' roles in promulgating line extension policies. However, CTIC suggested that confusion results from use of the phrase "equitably and reasonably extend energized trunk cable" in § 76.31(a)(2). It recommends the substitution of the phrase "make cable service available." Although it has a recommended approach for franchising authorities to follow in making delineations, CTIC does not recommend that the Commission adopt its guidelines.

9. An important underlying purpose of this proceeding was to highlight for franchising authorities the importance of a well-conceived cable line extension policy and to impress upon them that their decision in this regard is a very crucial one. It is for this reason that the question of construction arrangements must be fully explored in the franchising process. The implications of the decisions reached by the municipalities are far-reaching, as evidenced by the substantial number of public inquiries and complaints received by the Commission on this subject. Substantively, we are concerned that the ideal of service to the entire franchise area has been fully considered by the franchising authority. If such an arrangement has been found to be feasible, it should be provided for in the franchise. If extension of service to the entire area has been found to be impractical by rational, logical standards, a line extension policy should then be established. The various comments have illustrated that local conditions and needs very substantially and we note that several approaches have been implemented depending on those factors. For example, some cities grant multiple franchises to different franchisees for discrete sections of the franchise area to accomplish the result of complete coverage of the area. Other municipalities find it necessary to adopt line extension policies. Such delineations of the area to be served are based on some stated formula. These policies also take economic factors into consideration. Cable systems may be required to serve areas which overall are capable of maintaining the system's economic viability, may be subject to line extension requirements to serve only areas which can be reasonably expected to be viable, or may be required to serve outlying areas but with authorization charge subscribers the additional costs involved in extension of service. These various approaches seem to be adequate and they exemplify how different solutions to the problem of service are necessary depending on the local circumstances. To attempt to prescribe a federal standard that would encompass all of these factors would be impossible. Likewise, we do not find a present need to issue specific Commission guidelines in this regard. While concern was expressed that local franchising authorities may not possess or acquire the necessary expertise in this area to adopt an appropriate line extension policy, we have confidence that they will be assisted by a knowledgeable public and the forces of the market place. In addition, localities are at liberty to seek advice from a wealth of outside sources, including this Commission.

10. Procedurally, we wish to assure that the franchising authority has given the citizens of the entire area, particularly those directly affected by the policy considered, an opportunity to participate in the decision-making process. This, of course, requires that citizens be given adequate public notification. We note that several parties have advocated specific Commission requirements in this regard, while others recommended that the method of notification be left to the franchising authorities. Still others felt that the present Commission due process requirements in § 76.31(a)(1) were sufficient. We agree with those advocating a posture leaving the specifics of notice requirements to the franchising authorities. In so doing, we recognize that municipalities have existing procedures for insuring public participation in other areas of local concern. We would suggest that like procedures may be appropriate in this instance. Again, however, this is a matter for the franchising authority to decide. It should be noted that, while we are not here requiring a specific type of notification relating to line extension, in a separate rulemaking (Docket No. 20018) we are looking into the necessity for general requirements relating to public notice of the entire franchising process. Nevertheless, we are adopting a minor amendment of § 76.31(a)(2) to insure that the public is specifically notified of and given the opportunity to participate in public proceedings developing line extension policies. This amendment will be applicable to those franchises granted or renewed subsequent to the effective date of this rule change.

11. In addition, we find merit in the suggestion that the requirement in § 76.31(a)(2) of the rules for extension of energized trunk cable "equitably and reasonably" be changed to provide that cable service be made available. This recommendation will be incorporated in our amendment.

12. Since we deem the issue of construction arrangements and service to the franchise area to be crucial, this subject is expected to be fully considered in the franchising process. Any alteration in an existing franchise, reducing the service area, would constitute a significant amendment to the franchise area which, in turn, would require a new certificate of compliance or the first-time filing for such a certificate (if a pre-March 31, 1972 franchise is involved). Therefore, compliance with the requirements contained in this amendment will be considered by the Commission in the normal certificating process, as prescribed in § 76.31(a) of the rules. We will require assurances that the public was informed of any possible exclusions or conditional wiring provisions before their adoption and was permitted to participate in the proceedings.

13. The Commission discussed several problems with regard to cable service in unincorporated areas of a county in paragraphs 65 and 66 of the Clarification, supra. The question of line extension becomes most acute in unincorporated areas surrounding a municipality. Oftentimes, it is logical for the cable system serving the city to extend its service to these outlying areas. In fact, many times these areas can only be served practically by the cable system operating in the city. In such instances, the county or other franchising authority may not find it necessary to conduct a complete county franchise proceeding to permit an existing cable system to extend service to the areas in question. In many such instances the existing cable operator is practically and economically the sole source from which service can be obtained. And its obligations to the public and to subscribers as well as its qualifications to operate have already been passed on when it was franchised by the municipality. In such instances where county authorization is required for line extension to small areas immediately contiguous to a municipality and the existing operator is the only feasible source of service, we see no need for the county to conduct a full franchise proceeding of the type our rules would otherwise require. It should be sufficient in the certification process for the county

[3] The Newspaper Association cited the State and Local Fiscal Assistance Act of 1972, Pub. L. 92-512, 92nd Cong., 2d Sess., and the implementing regulations, 31 CFR § 51.13(a), as precedent for such a requirement.

franchise authority to assure us that the line extension involved has its approval. Such approval should include a specific indication of the area to be served.

14. Our amendment will require that the adoption of any policy requiring less than complete service to the franchise area be adopted only after full public proceedings, which includes notice of consideration of such a policy. This amendment is being promulgated to assure adequate consideration in the franchising process of the vital question of service to the franchise area. We are not, however, prescribing a specific Commission standard to be followed in every instance. Rather, the criteria considered and the type of public notification procedures followed will continue to be left to the franchising authority. As stated earlier, an important purpose of this proceeding was to highlight the importance of decisions being made on line extension policies. We feel that the amendment we are adopting today accomplishes that result.

15. The amendment adopted will be applicable only to franchises granted after August 1, 1975. We have chosen this date to allow sufficient time for local authorities to become aware of the amendment, and with a view toward using it in connection with any other rule changes that may result from the other pending proceedings relating to the Clarification, supra.

Authority for the rule amendment adopted herein is contained in sections 2, 4 (i) and (j), 303, 307, 308, and 309 of the Communications Act of 1934, as amended.

Accordingly, *it is ordered*, That effective August 1, 1975, Part 76 of the Commission's Rules and Regulations is amended as set forth below.

It is further ordered, That this proceeding is terminated.

Adopted: December 17, 1974.

Released: December 20, 1974

Secs. 2, 4, 303, 307, 308, 309, 48 Stat. as amended, 1064, 1066, 1082, 1083, 47 U.S.C. 152, 154, 303, 307, 308, 309.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] VINCENT J. MULLINS,
Secretary.

Part 76 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

In § 76.31(a), subparagraph (2) is amended to read as follows:

§ 76.31 Franchise standards.

(a) • • •

(2) The franchisee shall accomplish significant construction within one (1) year after receiving Commission certification, and shall thereafter reasonably make cable service available to a substantial percentage of its franchise area each year, such percentage to be determined by the franchising authority; *Provided, however*, That where a franchise contains a policy of construction requiring less than complete wiring of the franchise area, such policy shall be adopted only after a full public proceeding (as contemplated by paragraph (a) (1) of this section) which includes specific notice of the consideration of such a policy.

NOTE: The proviso to this paragraph is applicable only to franchises granted after August 1, 1975.

[FR Doc.74-30311 Filed 12-27-74;8:45 am]

Title 49—Transportation

CHAPTER I—DEPARTMENT OF TRANSPORTATION

SUBCHAPTER A—HAZARDOUS MATERIALS REGULATIONS BOARD

[Docket No. HM-106; Amdt. No. 173-81]

PART 173—SHIPPERS

Fire Extinguishers

On May 15, 1974, the Hazardous Materials Regulations Board ("The Board") published Amendment No. 173-81 under Docket HM-106 (39 FR 17313). One portion of the amendment pertained to the construction of fire extinguishers under a provision for partial exemption from the regulations found in § 173.306(c). The amendment becomes effective on January 31, 1975.

Two petitions have been received by the Board, both containing requests that a one-year extension of effective date be granted to deplete existing stocks of rods, slugs, and partially completed fire extinguishers. The petitioners stated that a combined total of 709,882 pounds of aluminum in various stages of processing could not produce cylinders having a burst pressure of six times the charged pressure at 70° F., and would have to be scrapped in order to comply with the amended regulation. They also state they are presently shipping fire extinguishers that are manufactured in accordance with the regulations in effect at this time. The Board has carefully considered the petitions and has decided that a grant of additional time to achieve compliance with the burst pressure requirements is warranted. Also, the Board has reconsidered the amendment in its entirety and is making certain changes to clarify its application and to simplify the marking requirements.

Paragraph (c) (4) of the amendment is being revised to make it clear that the "six times burst" requirement does not apply to fire extinguishers manufactured before January 1, 1976.

Paragraph (c) (6) is being revised to remove the words "filled and shipped" since they are unnecessary to establish the Department's jurisdiction. The words "Meets DOT requirements" are being substituted for the words "This extinguisher meets all requirements of 49 CFR 173.306(c)" to simplify the marking requirements. Added is a sentence explaining the meaning of the revised marking when it is placed on a fire extinguisher by its manufacturer. Added also is a requirement that the year of original test be displayed on each fire extinguisher. This marking will establish whether an extinguisher was manufactured in accordance with the existing regulations or the amended regulations. For this reason, the Board has decided to grant an extension of the effective date of the burst pressure requirement to January 1, 1976 rather than the full year requested by the petitioners. A note is being added to permit continued use of the markings prescribed in the original amendment until January 1, 1976.

In consideration of the foregoing, a portion of Amendment No. 173-81 in Docket No. HM-106 is revised as follows:

In § 173.306, paragraphs (c) (4) and (c) (6) are revised and a note is added following paragraph (c) (6) to read as follows:

§ 173.306 Exemptions from compliance with regulations for shipping compressed gas.

• • • • • •

(c) • • •

(4) Each fire extinguisher manufactured on and after January 1, 1976, must be designed and fabricated with a burst pressure of not less than six times its charged pressure at 70° F. when shipped.

• • • • • •

(6) Each fire extinguisher must be marked to indicate the year of its original test and "MEETS DOT REQUIREMENTS." This marking will be considered a certification that the fire extinguisher was manufactured in accordance with the requirements of this section.

NOTE: The words "This extinguisher meets all requirements of 49 CFR 173.306(c)" may be displayed in place of "MEETS DOT REQUIREMENTS" on extinguishers manufactured prior to January 1, 1976.

Amendment 173-81 in Docket No. HM-106, including the revisions contained herein, is effective on January 31, 1975. However immediate compliance is authorized.

AUTHORITY: Transportation of Explosives Act (18 U.S.C. 831-835) section 6 of the Department of Transportation Act (49 U.S.C. 1655) Title VI and section 902(h) of the Federal Aviation Act of 1958 (49 U.S.C. 1421-1430, 1472(h), and 1655(c)).

Issued in Washington, D.C. on December 20, 1974.

C. R. MELUGIN, Jr.,
Board Member, for the Federal Aviation Administration.

ROBERT A. KAYE,
Board Member, for the Federal Highway Administration.

MAC. E. ROGERS,
Board Member, for the Federal Railroad Administration.

W. M. BENKERT,
Board Member, for the United States Coast Guard.

[FR Doc.74-30288 Filed 12-27-74;8:45 am]

[Docket No. HM-121; Amdt. 178-38]

PART 178—SHIPPING CONTAINER SPECIFICATIONS

I-Bars on Steel Drums

On October 11, 1974, the Hazardous Materials Regulations Board published a

notice of proposed rulemaking, Docket No. HM–121; Notice No. 74–12 (39 FR 36596), which proposed numerous miscellaneous amendments. Comments on one group of proposed changes concerning I-bars on steel drums were requested by November 12, 1974. Comments on all other proposed changes were requested by January 21, 1975. These amendments concern only those proposed changes to the regulations concerning the size of I-bars on steel drums. Two comments were received. Both comments agreed with the proposals and urged their adoption.

In consideration of the foregoing, 49 CFR Part 178 is amended as follows:

§§ 178.81–7, 178.83–7, 178.84–7, 178.87–7, 178.88–6, 178.90–6, 178.91–7, 178.97–5, 178.98–5, and 178.99–5 [Amended]

(A) In the following sections under the columns entitled "Rolling hoops" and "Size (gauge or inch)," the dimension "1 1½" is revised to read "¾ x 1¼." wherever it appears:

§ 178.107–6 [Amended]

(B) In § 178.107–6(a), in the third column of the table, the dimension "1 x 1½" is revised to read "¾ x 1¼."

§ 178.108–6 [Amended]

(C) In § 178.108–6(a), in the fourth column of the table, the dimension "1 x 1½" is revised to read "¾ x 1¼."

§ 178.109–6 [Amended]

(D) In § 178.109–6(a), in the third column of the table, the dimension "1 x 1½" is revised to read "¾ x 1¼."

This Amendment is effective March 31, 1975. However, immediate compliance with the regulations, as amended herein, is authorized.

(Transportation of Explosives Act (18 U.S.C. 831–835); sec. 6, Department of Transportation Act (49 U.S.C. 1655); Title VI; sec. 902 (h), Federal Aviation Act of 1958 (49 U.S.C. 1421–1430, 1472(h), and 1655(c)).)

Issued in Washington, D.C. on December 23, 1974.

R. P. SKULLY,
Board/member,
Federal Aviation Administration.
KENNETH L. PIERSON,
Alternate Board Member,
Federal Highway Administration.
MAC E. ROGERS,
Board Member,
Federal Railroad Administration.
W. M. BENKERT,
Rear Admiral,
Board Member, Coast Guard.

[FR Doc.74-30368 Filed 12-27-74;8:45 am]

Title 50—Wildlife and Fisheries

CHAPTER I—UNITED STATES FISH AND WILDLIFE SERVICE, DEPARTMENT OF THE INTERIOR

SUBCHAPTER B—TAKING, POSSESSION, TRANSPORTATION, SALE, PURCHASE, BARTER, EXPORTATION, AND IMPORTATION OF WILDLIFE

PART 17—ENDANGERED AND THREATENED WILDLIFE

Miscellaneous Amendments

By notice of proposed rulemaking published in the FEDERAL REGISTER on April 1, 1974 (39 FR 11903–11904), notice was given to amend the Code of Federal Regulations, Title 50, Part 17—*Endangered Wildlife*, by adding three species of kangaroo—Red (*Megaleia rufa*), Eastern Gray (*Macropus giganteus*), and Western Gray (*Macropus fuliginosus*)—to the list of endangered fauna, pursuant to the authority contained in the Endangered Species Act of 1973 (87 Stat. 884).

During the ensuing 60-day comment period and since then, the U.S. Fish and Wildlife Service continued to seek and to examine additional information concerning the status of the three species of kangaroo in question. Interested persons were invited to submit written comments, suggestions, support data, views, or arguments concerning this proposed amendment to the Director, U.S. Fish and Wildlife Service, Washington, D.C. 20240, prior to June 4, 1974. Two biologists of the U.S. Fish and Wildlife Service spent five weeks in Australia gathering information and data from Federal and State officials there, and from graziers, private businessmen, and conservationists. The office of Endangered Species (U.S. Fish and Wildlife Service) has had the task of reviewing and evaluating all the information obtained during the interim period. Other priorities have delayed the final decision and publication of this rulemaking, but the delay in no way has affected the status of the three kangaroo, because the Australian government has continued to maintain a strict ban on the exportation of these animals. The most stringent prohibition that the United States could invoke would be to ban their importation into this country.

A thorough review of all information obtained relative to the status of the three kangaroo species in question (Red, Eastern Gray, and Western Gray), and to the threats on their continued existence, indicates that none presently can be considered in danger of extinction. Hence, none qualifies for classification as "Endangered" within the meaning of the Endangered Species Act of 1973 (16 U.S.C. 1531–1543). Section 4(a) of that act includes the following statement:

The Secretary shall by regulation determine whether any species is an endangered species or threatened species because of any of the following factors:

(1) The present or threatened destruction, modification, or curtailment of its habitat or range;

(2) Overutilization for commercial, sporting, scientific, or educational purposes;

(3) Disease or predation;

(4) The inadequacy of existing regulatory mechanisms; or

(5) Other natural or manmade factors affecting its continued existence.

Evidence on hand at the time of the proposed rulemaking (April 1, 1974) suggested that Factors (1), (2), (4), and (5) were pertinent, and the discussion outlined some specific problems. In light of the more detailed knowledge now available, a further discussion is desirable to qualify the statements made at that time with regard to each of the four factors.

FACTOR (1) PRESENT OR THREATENED DESTRUCTION, MODIFICATION, OR CURTAILMENT OF HABITAT OR RANGE

The three problems identified in the proposed rulemaking for loss of kangaroo habitat in Australia are indeed present and are cause for concern. However, these losses, while substantial in total acreage, are small relative to the total kangaroo habitat and range. Greatest concern for habitat loss is evident for the Western Gray (*Macropus fuliginosus*) due to ever increasing expansion of agricultural interests in Western Australia. Although this loss poses a threat to the species and may result in its endangerment, it does not imply extinction within the foreseeable future. The various State governments are well aware of the habitat destruction and change that is taking place in parts of Australia and are taking steps to control the degradation occurring.

FACTOR (2) OVERUTILIZATION FOR COMMERCIAL, SPORTING, SCIENTIFIC, OR EDUCATIONAL PURPOSES

Once again the statements made in the proposed rulemaking are valid ones, yet there is no evidence to suggest "overutilization" on a species population basis nationwide. The combined effects of drought and commercial harvest reduced kangaroo populations to low levels in some regions during the late 1960's, but the wet conditions prevailing during the past three years have benefited the kangaroo. The animal is considered a pest by many graziers.

A few would prefer not having any kangaroo on their stations, yet most recognize the animal as a part of their country's heritage and have no desire to cause the animal's extinction. There seems to be an ever increasing number of graziers prohibiting all but controlled hunting of kangaroo on their properties. All States now have established quotas on the annual harvest of kangaroo (Queensland is about to do so). Western Australia intends to remove the Red Kangaroo from its "vermin" classification. The trend throughout Australia is for better regulation of kangaroo harvests. Nevertheless, species such as kangaroo, which have high commercial value and which have been and are being exploited heavily, must be regarded as species that are apt to become endangered unless adequate controls exist. Such species should be considered "Threatened" species as defined by the Endangered Species Act of 1973.

FACTOR (4) INADEQUACY OF EXISTING REGULATORY MECHANISMS

There remain many deficiencies in the gathering of population data that would be desirable for the setting of better control regulations, as is the case with many of the exploited animals throughout the world. The difficulties and expense of gathering such data, however, are well known to biologists and wildlife managers, and no management agency can do more than its best under existing restrictions on money and personnel to gather the information needed. All of the States have the necessary regulatory

power to adequately control the harvest of kangaroo; all have competent resource managers and biologists who are attempting to obtain the data needed for proper management; and none wishes to see any of the kangaroo exterminated. Regulations and management policy concerning kangaroo are not uniform between the States; many of the differences simply reflect different attitudes and environmental conditions; nevertheless, nationwide coordination is necessary. The current lack of coordination will not result in the extinction of the species within the foreseeable future, but does pose a threat that could lead to endangerment if not corrected.

FACTOR (5) OTHER NATURAL OR MANMADE FACTORS AFFECTING ITS CONTINUED EXISTENCE

All five problems mentioned in the proposed rulemaking exist, yet not to the extent of causing the three kangaroo to become extinct within the foreseeable future. There are valid indications that the kangaroo-hide industry will expand in future years, given the opportunity. Such commercial exploitation need not be detrimental, provided adequate controls exist; there is reason to believe that Australia is developing such controls. Preserves for sustaining kangaroo populations are lacking in number, but additional ones are being gazetted each year. Also, while not specifically classed as "preserves," there is substantial acreage in each State where hunting is prohibited or strictly controlled. Admittedly, law enforcement efforts are difficult because of funding and staffing lacks; and this problem, if uncorrected, poses a threat to the kangaroo that might lead to their endangerment.

Supporting evidence for the above statements is on file with the Office of Endangered Species, U.S. Fish and Wildlife Service, Washington, D.C. Interested persons are invited to examine and discuss this information at the Office if they desire.

It is hereby determined that the three kangaroo in question are not "Endangered" at present, within the meaning of the Endangered Species Act of 1973. Because of the heavy commercial exploitation and harvest of these kangaroo, however, in conjunction with potentially inadequate export controls, difficult enforcement problems, and the expressed concern of the Australian government, there is ample justification for classifying the three animals as "Threatened." Additionally, all of the factors discussed earlier are pertinent and in consort do represent "threats" to the maintenance of these species as viable components of their ecosystems. Current efforts by the Federal government in Australia and by each of the State governments there, however, emphasize the desire to assure adequate protection for the three kangaroo in future years. In view of the expressed concern of the Australian government regarding kangaroo management and harvest in that country, as reflected by its total ban at present on kangaroo exports and its intent to add the three species in question to Appendix II of the Convention on International Trade in Endangered Species of Wild Fauna and Flora, the Secretary of the Interior supports the Australian government in its present stand.

Accordingly, it is hereby determined that the Red (*Megaleia rufa*), Eastern Gray (*Macropus giganteus*), and Western Gray (*Macropus fuliginosus*) kangaroo are "Threatened" species. The following regulations are deemed necessary and advisable for the protection of these species.

The regulations in Part 17, Title 50, Code of Federal Regulations, presently are being revised. A proposed rulemaking will be retitled "Endangered and Threatened Wildlife" and the designation of threatened species and the promulgation of rules applying to such species will be placed in a new "Subpart D."

Accordingly, Part 17 of Title 50, Code of Federal Regulations, Chapter I, is amended as set forth below:

Effective: January 29, 1975.

Dated: December 16, 1974.

LYNN A. GREENWALT,
Director,
U.S. Fish and Wildlife Service.

1. Part 17 of subchapter B of 50 CFR, Chapter I, is retitled as set forth above.

2. In the Table of sections, a new subpart D consisting of §§ 17.31 and 17.32 are added to read:

Subpart D—Threatened Wildlife

Sec.
17.31 General.
17.32 Threatened wildlife list.

3. Sections 17.31 and 17.32 read as follows:

§ 17.31 General.

(a) This subpart contains the list of species determined to be "threatened" pursuant to section 4 of the Endangered Species Act of 1973.

(b) The prohibitions which apply to each listed species or related group of species are shown immediately below the entry to which they apply.

(c) In the "Threatened Wildlife" list of § 17.32, the "Scientific Name" constitutes the official identification of the species. The "Common Name" identifies the species by the English language names currently in common usage. Common names can vary greatly in local usage, and therefore they are provided for convenience only, but do not provide official identification of the species.

(d) In the "Threatened Wildlife" list of § 17.32, the column "Portion of range where threatened" designates the geographic area within which the species in question actually is determined to be threatened. The identified prohibitions apply only to wildlife of that species which live or occur in the designated geographic area, or which originated there. The "Range" column is shown for reference only, and indicates the present general distribution of the species. Example:

Common name	Scientific name	Range	Portion of range where threatened
XYZ Parrot	*Xyzus xyzus*	South America	Colombia.

This means that although the XYZ parrot occurs throughout South America, it has been determined to be threatened only in Colombia. Elsewhere in its range the parrot might be listed as endangered or perhaps not be listed at all. In the latter case, the prohibitions would apply only to XYZ birds occurring or originating in Colombia.

(e) The listing of a particular taxonomic group includes all lower taxonomic groups. Example:

(1) If the genus *Felis* was listed, all species, subspecies, races, and populations of that genus are considered to be listed.

(2) If the species *Felis concolor* was listed, all subspecies, races, and populations of that species are considered to be listed.

§ 17.32 Threatened Wildlife List.

Common name	Scientific name	Range	Portion of range where threatened
(a) Mammals:			
(1) Red Kangaroo.	*Megaleia rufa.*	Australia	Entire range.
(2) Eastern Gray Kangaroo.	*Macropus giganteus.*	...do	Do.
(3) Western Gray Kangaroo.	*Macropus fuliginosus.*	...do	Do.

(i) *Prohibitions.* These prohibitions apply to the *Megaleia rufa*, *Macropus giganteus*, and *Macropus fuliginosus* listed above.

(A) Except as permitted by the Director pursuant to paragraph (a)(3) (i) or (ii), of this section, it shall be unlawful to import for commercial purposes any such wildlife.

(B) It shall be unlawful, in the course of a commercial activity, to deliver, receive, carry, transport, or ship in interstate or foreign commerce any such wildlife imported unlawfully.

(C) It shall be unlawful to sell or offer for sale in interstate or foreign commerce any such wildlife imported unlawfully.

(D) Upon receiving from the Australian Government a certificate that (*1*) a particular Australian State has developed an effective sustained-yield program for such wildlife, and (2) the taking of such wildlife in that State will not be detrimental to the survival of the species or subspecies of which such wildlife is a part, the Director may, consistent with the purposes of the act, permit by publication of a notice in the FEDERAL REGISTER the commercial importation of any such wildlife originating from that State, upon proof that such wildlife is lawfully taken and exported from that State: *Provided*, That if the Director determines from all the evidence that a previously certified Australian State no longer maintains an effective sustained-yield program for such wildlife, he may

XUM
V 39 I 251 DEC 30 1974
XUM

by regulation prohibit any further commercial importation of such wildlife from that State.

(ii) *Exceptions.* This exception applies to the *Megaleia rufa*, *Macropus giganteus*, and *Macropus fuliginosus*, listed above.

(A) The Director may grant permits for the importation of such wildlife to prevent economic hardship. The provisions of § 17.22 (with the exception of §§ 17.22(c)(3), 17.22(c)(4), 17.22(c)(5), and 17.22(d)), shall apply to the issuance of such permits. In addition, the requirements of section 10(b) of the Endangered Species Act of 1973 (16 U.S.C. 1539(b)) regarding hardship exemptions for endangered species shall apply to applications for hardship exemptions under this section as if such wildlife were classified "endangered:" and the applicant for an exemption under this section must submit all information required by section 10(b).

(B) The tenure of any economic hardship permit issued for such wildlife under this provision will be limited by section 10(b) of the Endangered Species Act of 1973 as if those species were listed as "endangered" under the act.

Title 7—Agriculture

CHAPTER III—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

PART 301—DOMESTIC QUARANTINE NOTICES

Subpart—Citrus Blackfly Regulated Area

This document amends the supplemental regulation which sets forth the regulated area for purposes of the Federal Citrus Blackfly Quarantine by adding to the suppressive regulated area all of Hidalgo County, Texas, and by designating as generally infested a part of Cameron County, Texas, which was previously designated as suppressive.

Pursuant to the provisions of sections 8 and 9 of the Plant Quarantine Act of August 20, 1912, as amended, and section 106 of the Federal Plant Pest Act (7 U.S.C. 161, 162, 150ee), and § 301.86-2 of the Citrus Blackfly Quarantine regulations (7 CFR 301.86-2), a supplemental regulation designating the regulated area is hereby amended to read in 7 CFR 301.86-2a as follows:

§ 301.86-2a Regulated area; suppressive and generally infested areas.

(a) The civil divisions and parts of civil divisions described below are designated as citrus blackfly regulated areas within the meaning of the provisions of this subpart and such regulated areas are hereby divided into generally infested areas or suppressive areas as indicated below:

(1) *Generally infested area—Cameron County.* That portion of Cameron County bounded by a line beginning at a point on the Rio Grande River directly south of the junction of Farm to Market Road 802 and U.S. Highway 281; thence due north along an imaginary line from said point on the Rio Grande River to the point of juncture of Farm to Market Road 802 and U.S. Highway 281; thence northerly and easterly along Farm to Market Road 802 to its junction with Farm to Market Road 511; thence southerly along said road to its junction with Farm to Market Road 3068; thence southerly along said road to its junction with Farm to Market Road 1419; thence directly south along an imaginary line from said junction to the Rio Grande River; thence northwesterly along said river to the point of beginning.

(2) *Suppressive area—Cameron County.* The entire County except the portion designated generally infested.

Hidalgo County. The entire county.

(Secs. 8 and 9, 37 Stat. 318, as amended; sec. 106, 71 Stat. 33 (7 U.S.C. 161, 162, 150ee); 37 FR 28464, 28477, as amended; 38 FR 19140, 7 CFR 301.86-2, 39 FR 9653)

The Deputy Administrator of the Plant Protection and Quarantine Programs has determined that the citrus blackfly has been found or there is reason to believe it is present in the civil divisions and parts of civil divisions listed as regulated areas, or that it is necessary to regulate such areas because of their proximity to citrus blackfly infestion or their inseparability for quarantine enforcement purposes from citrus blackfly infested localities. Further, he has determined that the areas designated as suppressive and generally infested areas are eligible for such designation under § 301.86-1.

The Deputy Administrator has also determined that the quarantined State, wherein only portions of the State are designated as regulated areas, has adopted and is enforcing a quarantine or regulation which imposes restrictions on the intrastate movement of the regulated articles which are substantially the same as those which are imposed with respect to the interstate movement of such articles under the quarantine and regulations in this subpart and that the designation of less than the entire State as a regulated area will otherwise be adequate to prevent the interstate spread of the citrus blackfly. Therefore, the civil divisions and parts of civil divisions listed above are designated as citrus blackfly regulated areas.

This document imposes restrictions that are necessary in order to prevent the dissemination of the citrus blackfly and should be made effective promptly to accomplish its purpose in the public interest. Accordingly, it is found upon good cause, under the administrative procedure provisions of 5 U.S.C. 553, that notice and other public procedure with respect to the foregoing amendment are impracticable and unnecessary and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

This amendment shall become effective December 30, 1974.

Done at Washington, D.C., this 24th day of December, 1974.

LEO G. K. IVERSON,
Deputy Administrator, Plant Protection and Quarantine Programs.

CHAPTER XVIII—FARMERS HOME ADMINISTRATION, DEPARTMENT OF AGRICULTURE

SUBCHAPTER B—LOANS AND GRANTS PRIMARILY FOR REAL ESTATE PURPOSES

[FmHA Instruction 444.1]

PART 1822—RURAL HOUSING LOANS AND GRANTS

Subpart A—Section 502 Rural Housing Loan Policies, Procedures and Authorizations

REVISION OF SUBPART

Subpart A of Part 1822 of Title 7, Code of Federal Regulations (35 FR 14901; 38 FR 4383; 38 FR 7123; 38 FR 30998; 39 FR 14714) is revised to expedite and further improve the operation and administration of the section 502 Rural Housing Loan Program. This revision makes the following changes and additions:

(1) Subpart M of this Part, "sections 502 and 504 Rural Housing Loans on Leasehold Interests on Nonfarm Tracts," is incorporated in the revised procedure.

(2) Part 1890 n of this Chapter, "Servicing of Interest Credits for section 502 RH Borrowers," and the existing special notices and FmHA Bulletins concenring the granting and servicing of interest credits for section 502 RH loans are incorporated as Exhibit E of this Subpart.

(3) The provisions of Part 1890 f of this Chapter, "Farmers Home Administration Loans to Indians Secured by Trust or Restricted Land," is incorporated in this revised Subpart.

(4) Section 1822.2 is revised to remove that portion which allows Section 502 RH loans to finance farm service buildings.

(5) Section 1822.3(c) is revised to define "rural area" in accordance with the provisions of the Housing and Community Development Act of 1974.

(6) Section 1822.3(n) is revised to liberalize the types of deductions that may be made in determining a family's eligibility for a Rural Housing (RH) loan.

(7) Section 1822.7(c) is revised to provide for the refinancing of debts as authorized by the Housing and Community Development Act of 1974.

(8) Section 1822.7(1) is revised to clarify that group service participation loans are made only to finance a domestic water or waste disposal system which is related to the borrower's dwelling.

(9) Section 1822.7(o), added by 39 FR 14714 dated April 26, 1974, is now contained in Exhibit E of this Subpart.

(10) Section 1822.9(c) is revised to provide that an appraisal of the security property will be made when a mortgage will be taken on real estate securing a loan of $5,000 or more.

(11) Section 1822.10 is revised to permit, in certain cases, loans of $2,500 or less scheduled for repayment in not more than 10 years from the date of the note to be made on the basis of a promissory note only and loans of not more than $5,000 scheduled for repayment in not more than 15 years from the date of the note to be secured by the best real estate mortgage obtainable on the property.

(12) Section 1822.11(b) is revised to clarify the conditions under which the county committee may be used to determine the eligibility of an RH applicant in accordance with the provisions of the Housing and Community Development Act of 1974.

(13) Section 1822.15(a) is revised to authorize the closing of an RH loan, under certain conditions, based on the applicant's circumstances at the time of loan approval.

(14) Section 1822.16 is revised to clarify the types of circumstances under which Rural Housing Disaster (RHD) loans may be made and to provide for an interest rate of 5 percent.

It is the policy of this Department that rules relating to public property, loans, grants, benefits, or contracts shall be published for comment notwithstanding the exemption in 5 U.S.C. 553(a)(2) with respect to such rules. See the Secretary of Agriculture's statement setting forth the policy on public participation in rulemaking 36 FR 13804, dated July 24, 1971. These regulations, however, are not published for proposed rulemaking because certain of the changes implement provisions of the Housing and Community Development Act of 1974, and for that reason publication for comments is unnecessary, as in the case with other changes which affect only internal agency procedure and clarify existing regulations. Other changes made will enable the agency to expedite needed benefits of the Act to the public and to delay issuance of such regulations by publishing for public comment would be contrary to the public interest. In accordance with the spirit of the Secretary's policy, interested persons may submit written comments, suggestions, data or arguments to the Office of the Deputy Administrator Comptroller, Farmers Home Administration, United States Department of Agriculture, Room 5007, South Building, Washington, D.C. 20250, on or before January 29, 1975. Material thus submitted will be avaluated and acted upon in the same manner as if this document were a proposal. However, this Subpart A of Part 1822 shall remain effective until it is amended in order to permit the public business to proceed expeditiously. Subpart A, as revised, will read as follows:

Subpart A—Section 502 Rural Housing Loan Policies, Procedures, and Authorizations

§ 1822.1 General.

This subpart sets forth the policies and procedures, and delegates authority, for making section 502 Rural Housing (RH) loans to individuals under Title V of the Housing Act of 1949, as amended.

§ 1822.2 Objectives.

The basic objective of the Farmers Home Administration (FmHA) in making section 502 loans is to assist farmowners and other persons who will live in rural areas to obtain decent, safe, and sanitary dwellings and related facilities. The purpose of these loans is to give families, who do not have sufficient resources to provide such dwellings and related facilities on their own account and cannot obtain the necessary credit from other sources on terms and conditions they reasonably can be expected to meet, an opportunity to have adequate homes.

§ 1822.3 Definitions.

For the purposes of this Subpart, the following definitions will apply:

(a) *Farm.* A "farm" includes the total acreage of one or more tracts of land which is owned by the applicant; is operated as a single unit; is in agricultural production; and annually will produce agricultural commodities for sale and home use with a gross value of at least $400 based on 1944 prices. To aid in estimating the gross annual value of agricultural commodities produced on a particular farm, each state will issue a list of the 1944 prices for the principal farm commodities in the state.

(b) *Nonfarm tract.* A "nonfarm tract" is a parcel of land that is not a farm and is located in a rural area. A building site that is part of a farm as defined in paragraph (a) of this section, and which secures an RH loan in accordance with § 1822.10(b)(6), will be considered a nonfarm tract.

(c) *Rural area.* (1) Any place which is not part of or associated with a nonrural area, is rural in character, and has a population not in excess of 10,000, or has a population in excess of 10,000 but not in excess of 20,000 and is not contained within a Standard Metropolitan Statistical Area (SMSA), and has a serious lack of mortgage credit, as determined by the Secretary of Agriculture and the Secretary of Housing and Urban Development. Population count will be based on the latest official figures.

(2) Open country, including sparsely populated areas, which are not part of or associated with a nonrural area and are strictly rural in character.

(3) In determining whether a place or open country is part of or associated with a nonrural area, the following intervening factors will be disregarded.

(i) Minor open spaces due to physical barriers.

(ii) Commercial or industrial developments.

(iii) Public parks and similar open spaces.

(iv) Areas reserved for recreational purposes.

(v) Intervening tracts suitable for development.

(4) The State Director, through appropriate State regulations, shall identify by list and maps the places and open country that are "rural areas" for the purposes of this Subpart, *Provided, however*. That no list or map of places in excess of 10,000 but not in excess of 20,000 that are to be characterized as "rural areas" will be identified in said State regulation without the prior authorization of the National Office.

(d) *Place.* A "place" consists of all the land lying within the official boundaries of any village, town, or city plus all the land lying within any densely settled incorporated or unincorporated areas near or associated with it. "Town" means a municipality similar to a city but not a New England-type town which resembles a township or county in most states.

(e) *Owner.* An "owner" includes the following in addition to the owner of full marketable title:

(1) A lessee of a farm or nonfarm tract which meets the requirements of § 1822.7 (j) or (k).

(2) The owner of an undivided interest in land who is otherwise eligible.

(3) The purchaser of land under a purchase contract which obligates him to pay the purchase price, gives him the rights of present possession, control and beneficial use of the property, and entitles him to a deed upon paying all or a specific part of the purchase price.

(4) The holder of a life estate having the usual rights of present possession, control and beneficial use of the property. A remainderman is not an owner, but will be required to join in executing the mortgage, where a mortgage is required as security, and may be required to sign the note if necessary for a sound loan.

(5) Indians owning land in a trust or restricted status as described in § 1822.7 (o).

(f) *Mortgage.* A "mortgage" includes any form of security interest or lien upon any rights or interest in property of any kind.

(g) *Security.* "Security" includes any rights or interests in property of any kind subject to a mortgage.

(h) *Real estate.* "Real estate" includes the rights and interests of an

owner, as defined in paragraph (e) of this section, in a farm or nonfarm tract.

(i) *Existing dwelling.* An "existing dwelling" is one which is more than 1 year old or previously occupied as a residence.

(j) *Minimum adequate site.* A "minimum adequate site" is the smallest area sufficient for the dwelling and related facilities to be built, purchased, or refinanced; and a yard.

(1) In case of purchase of a site on which to construct a dwelling or purchase of a new dwelling and site, the site should be not more than one acre of nonincome-producing land, unless more than one acre is needed to comply with local code requirements or to provide for a safe and adequate water supply or waste disposal system.

(2) In case an existing dwelling and site is being purchased or debts are being refinanced, the site may, under the following conditions, include more than one acre but not more than a few acres of nonincome-producing land:

(i) In a case where an existing dwelling is being purchased, the seller will sell the dwelling only with the entire site on which it is located and the cost of extra land is not a substantial portion of the loan.

(ii) In a refinancing case, the extra land cannot be sold for a significant amount.

(3) In all cases, the buying of a site of more than one acre must be fully justified and the reasons recorded in the loan docket.

(k) *Senior citizen.* A "senior citizen" is a person who is 62 years of age or older and either is a citizen of the United States or resides in the United States after being legally admitted for permanent residence.

(l) *Cosigner.* A "cosigner" is a party who joins in the execution of a promissory note to guarantee its repayment by the borrower. The cosigner becomes jointly and severally liable to comply with the terms of the note in the event of the borrower's default.

(m) *Leasehold acquisition cost.* The cost of acquiring a leasehold interest on a nonfarm tract exclusive of any monthly or annual rental charges.

(n) *Current annual family income.* This consists of net farm and nonfarm business income plus all recurring dependably available income from salary, wages, pensions, social security, welfare payments, or other sources received by the husband and wife, and any other members of the family who have reached the legal age of majority in the State and reside in the home. Welfare, social security, child support payments, and other payments made on behalf of minors will be included as current family income. It does not, however, include nonrecurring income not normally received every year, such as gifts, unusual pay, pay earned from clearly temporary employment, payments received for the care of foster children, income received from GI Bill, fellowships, scholarships, et cetera, for schooling or earnings from employment of a full-time student when other than the applicant and spouse, proceeds from the sale of equipment, mineral rights, timber, or real estate not sold under a long-term contract, cash value of food stamps or similar types of income. In determining current annual family income, the following deductions may be made:

(1) *Depreciation of income-producing property.* A deduction may be made in the same manner as outlined in Internal Revenue Service (IRS) regulations for the exhaustion, wear and tear, and obsolescence of depreciable property used in the applicant's trade, business, or farming operation. The applicant must provide an itemized schedule showing the depreciation claimed, and this schedule should be consistent with the amount of depreciation actually claimed for these items for Federal income tax purposes.

(2) *Employee business expenses.* A deduction may be made in the same manner as outlined in IRS regulations for necessary business expenses actually paid by the employee in excess of the amount reimbursed by the employer. The deduction must be reasonable and in the judgment of the approving officials, should be deducted from an employee's income to reflect current annual family income on an equal basis with other employed persons. Deductions are not permitted for the following:

(i) Transportation to and from work;

(ii) Cost of meals incurred on one-day business trips;

(iii) Educational expenses incurred to meet minimum requirements of a profession or to qualify for a new profession, trade, or business; or

(iv) Fines and penalties for violation of laws.

(3) *Child care, disabled dependent care, or incapacitated husband or wife care.* Income deductions may be made for expenditures actually paid to enable the husband or wife to be gainfully employed. The basis for any deduction must be recorded in detail in the applicant's loan docket. The deductions are authorized only if all of the following conditions are met:

(i) For dependent children under the age of 15 cared for outside the home, the maximum deduction will not exceed the following each month:

(A) One child $200;

(B) Two children $300;

(C) Three or more children $400.

(ii) Expenses for child care services performed in the home are not limited to the above, but are subject to the $400 maximum deduction each month.

(iii) A deduction not to exceed $400 each month, for incapacitated husband or wife care, or disabled dependents age 15 or over who are incapable of self care is authorized only when service is performed in the home.

(iv) In no case will the aggregate of all deductions for child care, disabled dependent care, or incapacitated husband or wife care exceed $400 per month.

(v) Payments for these services must have been to other than close relatives or dependent members of the applicant's household. Close relatives include: son or daughter and their descendants; stepson or stepdaughter; brother or sister; stepbrother or stepsister; father or mother and their ancestors; stepfather or stepmother; nephew or niece; uncle or aunt; son-in-law or daughter-in-law; father-in-law or mother-in-law; and brother-in-law or sister-in-law.

(o) *Adjusted annual family income.* This is a family income as defined in § 1822.3(n) less 5 percent thereof, and less $300 for each minor person, as defined by State law, excluding the husband and wife, who is a member of the immediate family and lives in the home. The immediate family includes those persons related to the applicant by blood marriage, or operation of law, such as adoption or legal guardianship.

(p) *Low income.* This is an adjusted annual family income that does not exceed the maximum limit for low-income families for the State as provided in Exhibit C of this Subpart.

(q) *Moderate income.* This is an adjusted annual family income that does not exceed the maximum limit for moderate-income families for the State as provided in Exhibit D of this Subpart.

(r) *Above-moderate income.* This is an adjusted family income that exceeds the income limits to qualify as a moderate-income applicant.

(s) *Rehabilitation.* This means major repairs and improvements to existing dwellings such as the installation or completion of bathroom facilities, installation of major items of equipment, additions, or structural changes which are financed with RH loan funds or performed by the seller immediately prior to offering the dwelling for sale.

§ 1822.4 Eligibility requirements.

To be eligible for a Section 502 loan, the applicant must meet all of the following requirements:

(a) Be one of the following:

(1) A person who does not own an adequate dwelling and who will become the owner and will permanently occupy the dwelling in a rural area after the loan is closed.

(2) A farmowner without decent, safe, and sanitary housing for his own use or for the use of his tenants, sharecroppers, farm laborers, or farm manager.

(b) Be without sufficient resources to provide on his own account the necessary housing, or related facilities, and be unable to secure the necessary credit from other sources upon terms and conditions which he reasonably could be expected to fulfill. If the applicant has only an undivided interest in the land to be improved, the applicant and co-owners, other than those whose execution of the mortgage is not required in accordance with § 1822.7(l)(5) or § 1822.10(b)(4) must, individually and jointly, be unable to provide the improvements with their own resources or obtain the necessary credit elsewhere.

(c) Be a natural person (individual) who is a citizen of the United States or resides in the United States after being legally admitted for permanent residence.

(d) Have adequate and dependably available income to meet family living expenses, pay taxes, insurance, and maintenance cost, and repayment on debts including the proposed loan. However, an applicant whose income is not sufficient to fully meet the loan payments may obtain as a cosigner(s), a person(s) or corporation(s), with income which, when added to the applicant's income, will be sufficient to repay the loan.

(e) Possess the ability necessary to carry out the undertaking and obligations required in connection with the loan.

(f) Possess legal capacity to incur the obligations of the loan.

(g) Be a low- or moderate-income family with an adjusted family income that does not exceed the maximum limit for low- or moderate-income families, as appropriate, for the State as provided in Exhibits C and D of this Subpart, unless exceptions are authorized by the State Director in accordance with § 1822.15(a), or by the National Office.

§ 1822.5 Veterans' preference.

Applications received from veterans and from spouses and children of deceased servicemen, as defined in § 1801.6 of this Chapter, will be given preference.

§ 1822.6 Loan purposes.

(a) A loan may be made to any eligible applicant to:

(1) Buy, build, rehabilitate, improve, or relocate a dwelling and provide related facilities to be used as his permanent residence on his farm or on a nonfarm tract he owns or will own after the loan is closed.

(2) Purchase and move to such farm or nonfarm tract an existing dwelling to be used as his permanent residence.

(3) Purchase or install essential equipment which upon installation becomes part of the real estate.

(4) Purchase and install in the dwelling a range, refrigerator, clothes washer, or clothes dryer when the loan is being made primarily for other purposes, and provided these items are normally sold with the dwellings in the area. Approved space heaters also may be purchased with loan funds.

(5) Provide fallout shelters, storm cellars and similar protective structures.

(6) Provide an adequate and safe water supply for the applicant and his family.

(7) Provide an adequate sewage disposal facility for the applicant and his family.

(8) Buy for his own use an existing dwelling on a minimum adequate site.

(9) Buy a minimum adequate site on which to place a dwelling for his own use provided he does not already own an adequate site.

(10) Pay reasonable acquisition cost for a leasehold interest in a nonfarm tract at the time of making the initial RH loan in areas where lease acquisition is customary.

(11) Purchase, in fee title, a minimum adequate site on which an RH loan was or is being made on a leasehold interest in a nonfarm tract.

(12) Provide site preparation, foundation plantings, seeding or sodding of lawns and other facilities related to dwellings, such as walks, yard fences and driveways, to building sites located adjacent to a road or street.

(13) For initial loans, pay real estate taxes that are due and payable at the time of loan closing on the buildings and building site to be given as security when a loan is being made primarily for other purposes and the amount to be used for taxes is not a substantial part of the loan.

(14) Pay expenses incident to obtaining plans and making the loan, such as fees for credit reports, tax monitoring service, legal, architectural, surveying, and other technical services, and reasonable connection fees for utilities such as water, sewerage, electricity, or gas, which are required to be paid by the borrower and which he cannot pay from other funds. Loan funds also may be used to pay the borrower's share of social security taxes for labor hired by the borrower in connection with making planned improvements. Loan funds may not be used to pay fees, charges, or commissions, such as finders' fees, fees for packaging the application, or placement fees for the referral of prospective applicants to the FmHA.

(b) A loan may be made to a farmowner for the purposes specified in § 1822.6(a) and to buy, build, rehabilitate, improve, or relocate a dwelling and provide related facilities for use by the farmowner or his farm manager, tenant, sharecropper or farm laborers.

(c) Improvements financed with loan funds must be on land which, after the loan is closed, is part of a farm or nonfarm tract owned by the borrower or on an easement appurtenant to such farm or nonfarm tract.

(d) A loan may be made to the owner of a farm or nonfarm tract to refinance secured or unsecured debts, as provided in § 1822.7(c).

§ 1822.7 Special requirements.

(a) *Supervisory assistance.* Supervision will be provided borrowers to the extent necessary to achieve the objectives of the loan and to protect the interests of the Government in accordance with Subpart A of Part 1802 of this Chapter.

(b) *Building limitations.* (1) A dwelling financed for a family with a low or moderate income must be modest in size, design, and cost. Adequate housing ordinarily can be provided for such families within less than 1,300 square feet of living area. Living area does not include space such as a patio, carport, garage, porch not suitable for year-round use, unfinished basement, and, if the dwelling does not have a basement, space for utilities such as furnace and hot water heater; however, such space must be kept within reasonable limits and not expanded to circumvent the limitations of this paragraph. When such an applicant has an unusually large family, a somewhat larger house may be justified to provide adequate sleeping space. Furthermore, particular design features or items should not be included in homes of families with low or moderate incomes if such features or items are customarily not included in other adequate but modest homes being built in the area by families with similar incomes. Items that are desirable but not necessary, such as extra baths and four bedrooms for small families, extravagant or costly bathroom fixtures and kitchen equipment, expensive kitchen cabinets, floor covering of short-term duration, et cetera, are not authorized. Furthermore, items such as 2-car garages or 2-car carports and fireplaces will be authorized only when justified for the individual family and then only on a case by case basis.

(2) Any buildings purchased with RH funds must be structurally sound, functionally adequate, and either be in good repair or placed in that condition with loan funds. Newly constructed dwellings must comply with the policies stated in paragraph (b)(1) of this section. Good judgment must be used in applying these policies to existing dwellings.

(3) Any dwelling repaired with RH funds must be structurally sound, functionally adequate, and be placed in good repair with loan funds. However, if a loan of not more than $5,000, scheduled for repayment in not more than 15 years from the date of the note, is made to repair a dwelling which is owned by the applicant and occupied by him or his farm manager, tenant, sharecropper, or farm laborers, the dwelling may lack some equipment or features such as a complete bath, kitchen cabinets, closets, or completely finished interior in some rooms. Such dwellings, however, must meet the basic housing needs of the family and provide decent, safe and sanitary living conditions when the improvements financed with the loan are completed.

(c) *Refinancing debts.* (1) When an applicant's request includes the use of loan funds for refinancing debts, it must be determined before a loan is made that his present creditors will not give him rates and terms on the existing debts that he reasonably could be expected to meet. Before refinancing any debt, the County Supervisor will:

(i) Determine that the applicant is so seriously delinquent that he is likely to lose his necessary dwelling at an early date if the debt is not refinanced; or that the applicant will experience a financial hardship in repaying the existing debt(s) and the FmHA loan in cases where a loan is being made for improvement, rehabilitation, or repairs of the applicant's dwelling or related facilities.

(ii) Determine that the debts were incurred for purposes for which a section 502 RH loan could have been made, or are items covered by the mortgage to be refinanced, such as accrued interest, insurance premium or real estate tax advances and preliminary foreclosure costs.

(iii) Discuss with the applicant the possibility of obtaining the needed credit from the applicant's present creditors or other sources. He will request the applicant to contact his present creditors to explain his credit needs and to determine if the creditor will renew, extend, change, or reduce the present debts as appropriate. He will also advise the applicant of other credit sources available in the area which might assist him with his credit needs and request that he contact such credit sources. If the applicant is unsuccessful in his efforts to obtain credit or to get a revision of the rates and terms of his indebtedness, the County Supervisor will obtain from the applicant the reason given by the present creditors and other sources for not assisting the applicant, and document such information in the running record.

(iv) After obtaining the information from the borrower, the County Supervisor should determine the necessity for refinancing. If the loan is to be processed, a statement of each debt showing the purpose for which the debt was incurred, the date on which it was incurred, the final due date, interest rate, annual installment, amount of principal and interest delinquent, unpaid principal and accrued interest will be obtained. If all or any part of any debt is to be refinanced, the amount necessary to settle the account in full or to bring the account current will be ascertained. In any case in which the RH loan is to be secured by a junior mortgage, the County Supervisor will obtain early in the loan processing the first mortgagee's determination that he cannot furnish the applicant the additional credit that he needs.

(2) Debts secured by real estate liens will not be refinanced unless the liens are against the property on which a mortgage will be taken to secure the RH loan.

(3) Loans ordinarily will not be made to refinance long-term real estate loans guaranteed or insured by the Federal Housing Administration (FHA) or the Veterans Administration (VA) or of the type generally made by lenders such as the Federal Land Banks (FLB) or insurance companies. When it is necessary to refinance such debts, the total debt will not be refinanced if a part of the debt can be refinanced on a sound basis with the lender's agreement. In such a case, that part of the debt to be refinanced will not include more than existing delinquencies plus the next installment to become due that the borrower will be unable to pay.

(4) Debts incurred less than 5 years prior to the date of the application will not be refinanced.

(5) To develop a sound basis for a loan, a reduction of existing debts may be necessary.

(d) *Refinancing of RH loans.* If, at any time, it appears that the borrower may be able to obtain a refinancing loan from a cooperative or private credit source at rates and terms for loans for similar purposes and periods of time prevailing in the area, the borrower will, upon request, apply for and accept such refinancing. Graduation reviews for RH borrowers will be conducted in accordance with Part 1865 of this Chapter.

(e) *Loan limitations.* (1) An RH loan to buy or build a dwelling may be made up to the market value of the security less the unpaid balance plus past-due interest of any other liens against the property for:

(i) A new dwelling on which:

(A) A conditional commitment was issued in accordance with Subpart H of this Part; or

(B) The RH loan will be closed prior to the start of construction; or

(C) Construction is financed in accordance with § 1822.19; or

(D) The required construction inspections were made by the FHA or the VA and there is evidence that the dwelling has been completed in accordance with the approved plans and specifications. Evidence may consist of copies of the FHA or VA final inspection report showing no exceptions or a letter from the FHA or VA stating that the dwelling was built in accordance with approved plans and specifications.

(ii) An existing dwelling which is more than a year old.

(2) An RH loan will be limited to 90 percent of the market value of the security for any dwelling that does not meet the requirements of paragraph (e) (1) (i) or (ii) of this section.

(3) Ordinarily, a loan docket will not be developed or approved when a loan plus any other liens against the security would be in excess of the value of the security as recommended by the appraiser or 90 percent of such value, whichever is appropriate, except:

(i) In unusual cases, when the amount of a loan plus any other liens that will be against the security is slightly above its recommended value and the County Supervisor believes that the loan should be made, the completed loan docket will be submitted to the State Office for a determination as to whether it is justifiable to establish the market value of the security above the appraiser's recommended value. If the State Director determines that the market value is in excess of the appraiser's recommended value, he will record his determination of the market value of the security on Form FmHA 440–3, "Record of Actions," before approving the loan. This authority will not be redelegated below the State Office level.

(ii) When the market value is exceeded by all or part of a lien held by a public body, hospital or welfare institution for advances made for medical bills, welfare payments or state motor vehicle judgments, provided:

(A) The borrower is unable to settle or compromise such lien sufficiently to avoid exceeding the market value; and

(B) The lien securing the excess amount will at all times be inferior to the FmHA mortgage securing the initial loan and any subsequent loan or advances determined by the FmHA to be reasonably necessary to carry out the purpose of the initial loan or to protect the Government's financial interest; and

(C) The existence of the excess lien will not jeopardize the security or servicing so as to preclude the making of a sound RH loan; and

(D) The borrower has the ability to meet any payments on the excess debt as they become due or are likely to become due.

(f) *Conditional commitments.* Conditional commitments shall be made in accordance with Supart H of this Part.

(g) *Construction financing.* Builders or sellers will, in all cases possible, complete construction or repair of buildings before section 502 RH loans are closed. Assistance in obtaining construction financing may be provided in accordance with § 1822.19.

(h) *Liens junior to FmHA lien.* A loan will not be made if a lien junior to the RH mortgage likely will be taken simultaneously with or immediately subsequent to closing of the loan to secure any debts he may incur in connection with the RH loan purposes, such as debts for a portion of the purchase price of the land or for money borrowed from others for payments on debts against the property or for part of the construction cost, unless such a lien plus the RH loan and any prior lien will not interfere with the purposes of the loan or repayment thereof and either will be entirely within the market value of the security or will exceed such market value only by an amount which will meet the requirements of paragraph (e) (3) of this Section.

(i) *Restrictions on loans.* Loans will not be made to:

(1) A corporation or cooperative association.

(2) A homestead entryman or desert entryman to improve the entry prior to receipt of patent.

(3) Refinance except in accordance with paragraph (c) of this Section or to pay costs incurred prior to the closing of a loan except fees for credit reports, legal, architectural, and other technical services. The County Supervisor, not later than the time of planning improvements, will advise each applicant that a building site must not be purchased, construction work must not be started, materials must not be ordered nor delivered, and costs for such purposes must not be incurred before loan closing if loan funds are to be used to pay such costs. If, nevertheless, the applicant incurs costs for materials or construction or site acquisition before the loan is closed, the County Supervisor, or the Assistant County Supervisor in connection with loans within their respective approval authorizations, may authorize the use of RH funds to pay such costs only when, after documenting the facts, he finds that all of the following conditions exist: (In a questionable case, the County Supervisor will submit the complete facts to the State Director for advice before taking action.)

(i) The costs were incurred after the applicant filed a written application for a loan, except that in the case of a subsequent loan to complete improvements

previously planned, the costs were incurred after the initial loan was closed.

(ii) The applicant is unable to pay such costs from his own resources or to obtain credit from other sources and failure to authorize the use of RH funds to pay such costs would jeopardize the applicant's capability of repaying the loan.

(iii) The construction or repair work conforms to that shown on the building plans and specifications or Form FmHA 424–1, "Development Plan," when applicable. The costs were incurred for authorized Section 502 loan purposes, and the total costs necessary for a sound loan can be paid from funds available.

(4) Buy income-producing land or income-producing buildings.

(5) An applicant whose debts have been settled pursuant to Part 1864 of this Chapter, or by release from personal liability under Subpart A of Part 1872 of this Chapter, as reflected by the county office records, or where settlement under Subpart A of Part 1872 or Part 1864 of this Chapter is contemplated, unless: The applicant's failure to pay his loan indebtedness was the result of circumstances beyond his control; the conditions which necessitated the debt settlement or release, other than weather hazards, disasters, or price fluctuations, have been or will be removed by making the loan; and the applicant's operations will be sound and afford him a reasonable prospect for repaying the proposed loan and meeting his other obligations. Before approving the property or causing such an applicant to incur any expenses in connection with the loan, the County Supervisor, if he determines that the applicant should be considered for a loan, should complete Form FmHA 431–2, "Farm and Home Plan," or Form FmHA 431–3, "Family Budget," when applicable, and send it, together with the application, any available case folders, and his recommendations to the State Office for a determination as to whether to proceed with the development of the loan docket.

(6) Purchase land upon which to construct a building, when the applicant already owns land suitable for the purpose.

(7) Refinance a portion of a prior lien in order to obtain the release of a building site from an existing mortgage unless the refinancing meets the requirements of paragraph (c) of this section.

(8) A family who will likely be unable to personally occupy the home on a permanent basis. To illustrate, military personnel on active duty and full-time students, because of the probability of their being transferred or moving to another location after graduation, will not be granted loans unless:

(i) The applicant, if military personnel, will be discharged at an early date (usually within 1 year). The family must continue to occupy the home in case the borrower is transferred to another duty station before discharge; and

(ii) The family intends to make the home their permanent residence and there are reasonable prospects that employment will be available in the area after graduation or discharge; and

(iii) Either the applicant or spouse will be available to make inspections if the home is being constructed and to sign checks for work performed.

(j) *Loans on leasehold interest in farms.* A loan secured by a mortgage upon a farm leasehold, if otherwise proper, may be made when the lessor owns the fee simple title marketable in fact and neither the leasehold nor the fee simple title is subject to a prior lien. If, in any case involving a prior lien, the County Supervisor concludes that a sound loan can be made upon a leasehold, he will submit complete information to the State Director for review and authorization prior to approval of the loan.

(1) The lease must contain provisions as are necessary to enable the lessee to achieve the purposes for which the loan was made, and the Government as holder of a mortgage on the lease or leasehold interest to obtain adequate security, service the loan, and enforce the security instruments as necessary to protect the Government's interest. This includes, besides the lessor's written consent to the RH mortgage, such matters as:

(i) Reasonable security of tenure. The borrower's interest will not be subject to summary forfeiture or cancellation. In fact, the lease must contain a provision or an agreement must be executed by the lessor and the lessee and made a part of the lease indicating that any renewal provided for in the lease will be automatic as long as there is an FmHA lien on the property, unless otherwise authorized by the FmHA.

(ii) The right to foreclose the RH mortgage and sell without restrictions that would adversely affect the salability of the security. Any effect on market value should be shown in the appraisal.

(iii) Right of FmHA to bid at foreclosure sale or to accept voluntary conveyance of the security in lieu of foreclosure.

(iv) The right of FmHA, after acquiring the leasehold through foreclosure or voluntary conveyance in lieu of foreclosure, or in event of abandonment by the borrower, to occupy the property or sublet it, and to sell for cash or credit. In case of a credit sale, the FmHA will take a vendor's mortgage with rights similar to those under the original RH mortgage.

(v) The right of the borrower, in the event of default or inability to continue with the lease and the RH loan, to transfer the leasehold, subject to the RH mortgage, to an eligible transferee with assumption of the RH debt.

(vi) Advance notice to FmHA of lessor's intention to cancel or terminate the lease. Such advance notice will be long enough to permit FmHA to ascertain the amount of delinquencies, the total amount of the lessor's and any other prior interest, the market value of the leasehold interest, and if litigation is involved, to refer the case with a report of the facts to the United States Attorney and permit him to take appropriate action.

(vii) Express provisions concerning the question of liability of FmHA for unpaid rentals or other charges accrued at the time it acquires possession of the property or title to the leasehold, and those which become due during FmHA's occupancy or ownership, pending further servicing or liquidation.

(viii) Any necessary provisions to assure fair compensation to the lessee for any part of the premises taken by condemnation.

(2) The lease must have an unexpired term, from the date of loan approval, of at least 50 years (a lease for 25 years with an option to the lessee to renew for an additional 25 years would be considered a 50-year lease), except where:

(i) A lease is granted for the purpose of permitting a family to obtain an RH loan and the time required to process and approve the loan results in the unexpired term of the lease being not less than 49 years; or

(ii) A lease is in existence at least 1 year prior to the date of loan approval. An RH loan may be made provided the unexpired term of the lease is at least 50 percent longer than the repayment period of the loan. In no case will the unexpired term of the lease be less than 15 years.

(3) In any State in which real estate or chattel mortgages may be taken on leasehold interest in farmland running for terms of 15 years or more and be recorded so as to protect the mortgagee, a State regulation will be issued in regard to making loans to holders of such interests.

(k) *Loans on leasehold interest in nonfarm tracts.* Loans may be made on leaseholds on land owned by a State, political subdivision, public body, or public agency, on Indian tribal lands which are not available for purchase or on land where the State Director determines that long-term leasing of homesites by nonpublic bodies is a well established practice and such leaseholds are freely marketable in the area, provided:

(1) The applicant is unable to obtain fee title to the property.

(2) A recorded mortgage constituting a valid and enforceable lien on the applicant's leasehold will be given as security unless the loan is made on the basis of a Promissory Note only.

(3) The amount of the RH loan plus any prior liens against the property will not exceed the maximum security value determined in accordance with Part 1809 of this Chapter.

(4) The terms of the lease meet the requirements as outlined in paragraph (j) (1) and (2) of this section, and

(i) The rental charged for the lease should not exceed the rate being paid for similar leases.

(ii) The lease forms used by the FHA and the VA in the area, the Bureau of Indian Affairs (BIA) lease Form No. 5–184, "Lease," and the lease forms used in cases of RH loans on farm leaseholds, should be used by the State Director as guides in developing a lease. The services of the Office of the General Counsel (OGC) are available for this purpose.

XUM V 39 N 251 DEC 30 1974 XUM

The lease may include a provision permitting the lessor the option of paying the RH debt in full in case the borrower defaults.

(l) *Group service participation loans.* A loan to an eligible applicant in accordance with §§ 1822.4 and 1822.6 may include funds to enable him to furnish his part of the cost of constructing, remodeling, repairing or buying a domestic water system or waste disposal system which is related to his dwelling, provided the following conditions are met or unless exceptions are authorized by the National Office:

(1) The facility must be jointly owned and used by not more than 10 participants.

(2) The domestic water or waste disposal system cannot be provided with a Soil and Water (SW) association loan.

(3) The group must act as individuals and not as a legal entity such as a partnership, corporation or association.

(4) The facility will be located in a rural area and will be used for normal home use by families of the applicants.

(5) The applicant will give FmHA a mortgage as required in § 1822.10(b), including his interest in the property to be improved with the loan provided it is practical to mortgage the property. The interest of any co-owners of the jointly-owned facility who are not applicants may be excluded from the mortgage on prior approval by the State Director, as provided in § 1822.10(b)(4).

(6) The owners have written agreements as to the construction, use, maintenance, and repair of the facility and obtain necessary jointly-owned easements.

(7) The facility will not cost more than $50,000 or have a depreciated replacement value that exceeds $50,000 if such facility is being purchased, enlarged or improved.

(8) All funds to be used to finance construction or installation of the joint facility will be deposited in a supervised bank account.

(m) *Section 502 loans to Farm Ownership (FO), individual soil and water (SW) and recreation (RL) borrowers and applicants.* (1) A Section 502 loan may be made to an FO, SW, or RL borrower or simultaneously with an FO loan and another lender, provided they meet the following conditions:

(i) RH loan funds are used only to buy, build or improve a dwelling to be used as the permanent residence of the owner or for his farm tenant, sharecropper, farm laborer, or farm manager.

(ii) In cases when an RH loan is being made simultaneously with an FO loan, an RH loan of $1,500 or more is needed to buy, build, or improve a dwelling, or provide needed facilities related to the dwelling.

(iii) The dwelling constructed or improved must meet Section 502 RH loan requirements, being modest in size, design and cost.

(iv) The applicant must meet the eligibility requirements for the Section 502 RH loan and FO, SW, or RL loan.

(2) An RH loan may be made to an FO borrower to build or improve a dwelling and related facilities, who because of age, physical disability, or death of the spouse, is unable to operate the farm or carry on farming operations provided a decision has been made to continue with the FO loan.

(3) The Section 502 loan, when added to the unpaid principal balance plus past due interest of any FO, SW, RL, RH, or LH loan, plus other debts against the security given for an FmHA real estate loan or to be given for the Section 502 loan, will not exceed $225,000 or the market value of the security for the loan, whichever is less. The $225,000 limitation will not apply when an RH loan is necessary to repair or replace a dwelling or a domestic water system damaged or destroyed by fire, flood, windstorm or other casualty, and the RH loan will be used only to supplement the applicant's available assets or funds that are available from insurance loss payments or other sources.

(4) A loan may be made to an FO, SW, or RL applicant or borrower on the basis of real estate security or a Promissory Note only if the conditions of § 1822.10(c) are met.

(5) If a mortgage on the farm will be taken as security, a new appraisal will be prepared when the circumstances outlined in § 1822.17(a) exist.

(6) In determining the market value of the FO, SW, or RL farm in connection with a section 502 loan, when a new appraisal report is not required under § 1822.9 (c), the loan approval official will consider the previous appraisal report, if one is available, and the definition of market value in Subpart A of Part 1809 of this Chapter. The loan approval official's determination of market value of the farm or nonreal estate assets will be recorded on Form FmHA 440–3.

(n) *Mutual self-help housing loans.* Applicants who are unable to build modest dwellings by customary methods, because of limited income and repayment ability, may build their homes by participating in a mutual self-help housing project. The County Supervisor will not approve RH loans or proceed in the development of a self-help project without prior approval of the State Director. He will, therefore, submit complete information about each family in the proposed self-help project to the State Office for review and request authority to proceed. Information submitted will include items such as the family's size, income, age of family members who will work on the dwelling, the size and cost of the planned dwelling, estimated savings and the amount of the needed loan. Exhibit A, "Mutual Self-Help Housing Guidelines," available in all FmHA offices, will be used as a guide for developing self-help projects and counseling with participating families. The County Supervisor, in counseling with families participating in self-help housing projects, will determine the anticipated time required for construction and the extent to which the borrower will be able to meet loan payments during this period. If the applicants will not have enough income to meet the scheduled loan payments during the construction period, funds may be included in the loan to pay that part of the installments that the borrower is unable to pay during the construction period. In these cases, the amount of the installments will be the same as for any other 502 RH loan.

(o) *RH loans to Indians secured by trust or restricted land.* The Department of Agriculture and the Department of Interior have mutually agreed that FmHA loans which are to be secured by real estate liens may be made to Indians holding land in severalty under trust patents or deeds containing restriction against alienation subject to statutes under which they may, with the approval of the Secretary of the Interior, give mortgages on their land which are valid and enforceable. These statutes include, but may not be limited to, the Act of March 29, 1956 (70 Stat. 62,63). Land in trust or restricted status purchased with FmHA loan funds may be acquired and held by the Indian in trust or restricted status.

(1) When a lien is to be taken on trust or restricted property in connection with a loan to be made or insured by FmHA the local representatives of the BIA will furnish requested advice and information with respect to the property and each applicant. The request will indicate the specific information needed.

(2) The FmHA State Director should arrange with the Area Director or other appropriate local official of the BIA as to the manner in which the information will be requested and furnished. A State regulation will be issued to prescribe the actions to be taken by FmHA personnel to implement the making of loans under such conditions.

(p) *Interest credits.* Interest credits will be granted and serviced in accordance with Exhibit E of this Subpart.

(q) *National flood insurance.* Loans made to buy, build or repair dwellings located in an area having special flood or mudslide hazards are subject to the conditions of Subpart B of Part 1806 of this Chapter.

§ 1822.8 Source of funds and rates and terms.

(a) *Source of funds.* Insured loan funds from the Rural Housing Insurance Fund (RHIF) will be used for all section 502 loans.

(b) *Interest rate per annum on unpaid principal.* Loans will be made at interest rates specified in Subpart A of Part 1810 of this Chapter.

(c) *Amortization period.* Each loan will be scheduled for repayment over a period not to exceed 33 years from the date of the note or such shorter period as may be necessary to assure that the loan will be adequately secured, taking into account the probable depreciation of the security. A loan not secured by a real estate mortgage will be scheduled for repayment over a period not to exceed 10 years from the date of the note.

§ 1822.9 Technical service.

(a) *Planning and performing construction work.* Any construction work will be planned and completed in accordance with Subpart A of Part 1804 of this Chapter.

(b) *Planning and performing site development work.* Any site development will be planned and completed in accordance with Subpart D of Part 1804 of this Chapter.

(c) *Appraisal.* The value of property securing RH loans will be determined as follows:

(1) When a mortgage will be taken on a nonfarm tract or small farm or leasehold interest in a nonfarm tract or small farm to secure a loan of $5,000 or more, an appraisal of the security property will be made in accordance with Part 1809 of this Chapter. A small farm for the purposes of this Subpart is a farm as defined in § 1822.3(a) which has value primarily as a residence rather than for the production of agricultural commodities. Repayment of the RH loan will not be primarily dependent on farm income.

(2) An appraisal of the security property will be made in accordance with Subpart A of Part 1809 of this Chapter when a mortgage will be taken on a farm tract or leasehold interest in a farm tract to secure a loan of $5,000 or more.

(3) An appraisal of the real estate or leasehold interest is not required unless the County Supervisor or loan approval official is uncertain as to the adequacy of the security for loans of less than the amounts described in paragraphs (c)(1) and (2) of this section or when an RH loan is being made to an FmHA real estate borrower and the appraisal report in the borrower's case folder indicates the value of the security property is adequate to secure the total real estate indebtedness including the planned loan.

(4) Real estate mortgaged as additional security will be appraised when it represents a substantial portion of the security for the loan or when requested by the loan approving official.

(5) When real estate is to be given as security and an appraisal is not made, the County Supervisor will indicate on a separate sheet his estimate of the market value of the property.

(d) *Title clearance and legal services.* (1) When real estate will be taken as security (including a mortgage on a leasehold), title clearance and legal services for making and closing the loan will be provided in accordance with Part 1807 of this Chapter. Except for property to be purchased, the applicant will be requested to furnish title evidence at any time during the loan processing period after the County Supervisor determines that the loan probably will be made. If the County Supervisor is uncertain as to whether the loan will be approved, he will not require the applicant to furnish title evidence until after loan approval. For property to be acquired, title clearance and legal services will not be requested until the loan is approved.

(2) When real estate will not be mortgaged or when the best real estate mortgage obtainable is take as security without title clearance or use of legal services in accordance with § 1822.10(a)(2), each applicant will be required to submit evidence of ownership of his farm or nonfarm tract. This may be the original or a certified or photostatic copy of his deed, purchase contract, or other instrument evidencing ownership. When the County Supervisor is uncertain as to whether or not the applicant is a qualified owner, he will take such actions as he considers necessary, such as requiring the applicant to furnish additional information or obtaining the advice of the OGC regarding the evidence of ownership submitted and any further information or action that may be needed. Proof of ownership need not be as much as that required by Part 1807 of this Chapter. It may consist of evidence which, considered all together, would be sufficient to convince a reasonably well informed and prudent person that the applicant is the owner. It may include, for example, such evidence as the levy and payment in the applicant's name of taxes on the real estate and affidavits by others in the community to the effect that the applicant has occupied the property as the apparent owner for a given length of time and is believed and generally reputed to be the owner. No loan will be made if the County Supervisor has actual knowledge that the applicant does not have a marketable title to the property.

§ 1822.10 Security.

(a) *General.* Loans other than those excepted under paragraph (c) of this section will be adequately secured to protect the interest of the FmHA during the scheduled repayment period.

(1) Any loan of more than $5,000 and any loan scheduled for repayment in more than 15 years from the date of the note will be secured by a real estate mortgage as provided in paragraph (b) of this section.

(2) A loan of not more than $5,000 scheduled for repayment in not more than 15 years from the date of the note may be secured by the best real estate mortgage obtainable on the property as provided in paragraph (b)(7) of this section.

(3) Loans of $2,500 or less scheduled for repayment in not more than 10 years from the date of the note may be made on the basis of a Promissory Note in accordance with paragraph (c) of this section.

(b) *Real estate.* When a real estate mortgage is required, a mortgage will be obtained on all interest in the entire farm or nonfarm tract on which the loan is made, except as provided in this paragraph and subject to the exceptions and reservations waived under § 1807.2(d) of this Chapter. When necessary to supplement the applicant's equity in the farm or nonfarm tract to be mortgaged, or to facilitate servicing the loan, a mortgage may also be taken on other real estate owned by the applicant.

(1) If the applicant's title to any part of the farm or nonfarm tract is defective (in the sense that it is not good title marketable in fact as defined in Part 1807 of this Chapter or that the State law will not recognize a recordable mortgage upon it) and the defect cannot be cured at a reasonable cost, the loan may be made subject to the following conditions:

(i) No security value will be accorded to the parcel of real property to which title is defective.

(ii) No improvements to be constructed or repaired with loan funds will be located on the parcel to which title is defective.

(iii) A real estate parcel to which title is defective will be included in the mortgage unless the loan approval official, with the advice of the OGC determines that the applicant's interest cannot be subjected to a recordable mortgage recognized by the State law, or to include the parcel would unduly complicate loan servicing or liquidation.

(2) A junior mortgage may be taken as security for a loan provided:

(i) The prior mortgage as affected by the State law does not contain provisions for future advances, forfeiture or cancellation, foreclosure without adequate notice to junior lienholders, or other matters that may jeopardize FmHA's security position or the borrower's ability to pay the loan; or

(ii) Such provisions are satisfactorily limited, modified, waived, or subordinated.

(3) When a mortgage is required by paragraph (a)(1) of this section to secure a loan to an applicant as lessee of a farm or nonfarm tract, a valid and enforceable mortgage on his leasehold interest will be required. The term of the lease will be as required in § 1822.7(j)(2). Special provisions necessary to protect the interest of the Government, such as items enumerated in § 1822.7(j)(1), will be included in the lease, a consent to mortgage, a subordination, or other appropriate instrument executed by the lessor and the borrower.

(4) For a loan on a farm or nonfarm tract in which the applicant owns or will own an undivided interest, the interests of all the co-owners will be included in the mortgage, with the following exceptions:

(i) When not required under § 1822.7(1)(5).

(ii) When one or more of the co-owners are not legally competent or cannot be located or the ownership rights are divided among such a large number of co-owners that it is not practical for all their interests to be mortgaged, the mortgaging of interests not exceeding 50 percent may be excluded from the security requirements upon prior approval by the State Director of the County Supervisor's recommendation accompanied by a full statement of ownership and conditions which justify the exclusion. In such a case the loan may not exceed the market value of the equity

represented by the interests of the owners who sign the mortgage. In determining such value, consideration will be given to any adverse effect which might result from sale of the mortgaged interests separately from the nonmortgaged interests and from rights of partition accruing to the owners of the nonmortgaged interests. All legally competent coowners using or occupying the property will be required to sign the mortgage.

(iii) Where the applicant owns only an undivided interest in part of the farm and seeks a loan to build or improve a dwelling or related facilities on another part in which he owns the entire interest, or owns only an undivided interest in a farm and seeks a loan to purchase the entire interest in a building site, with or without a building which will be part of the farm, the interests of the applicant's co-owners may be excluded from the security requirements upon approval by the State Director, if he finds that the loan will be adequately secured by the applicant's equity in the wholly owned tract; the market value of the jointly-owned tract is at least equal to the debts against it; the joint ownership of part of the farm and its operation by the applicant, or the applicant's participation in its operation have been and are likely to continue to be successful; and all other requirements for a sound loan are met; *Provided*, That if in such a case debts against the jointly-owned land are liens on the wholly-owned tract or on land in which the applicant owns no interest, no loan may be made without prior approval by the State Director after review of the County Supervisor's and District Director's recommendation accompanied by full information, including a statement regarding the ownership of all the lands involved, the nature and permanency of the joint operation, and the nature, amount and holder of such debts. In cases within this Subparagraph, whether undivided interests may be omitted from the RH mortgage securing a loan which includes refinancing will be determined by the State Director after review of the County Supervisor's and District Director's recommendation supported by full information.

(5) When the holder of a life estate qualifies as an owner, as defined in § 1822.3 of this Subpart, the remaindermen will be required to join in executing the mortgage with the following exception: When one or more of the remaindermen are not legally competent or cannot be located or the remainder rights are divided among such a large number of remaindermen that it is not practicable to obtain the signatures of all the remaindermen, the mortgaging of remainder interests not exceeding 50 percent of the total remainder interest may be excluded from the security requirements upon prior approval by the State Director after review of the County Supervisor's and District Director's recommendations accompanied by a memorandum stating complete ownership information and circumstances which justify the exclusion. In such cases, the loan may not exceed the market value of the equity represented by the interests of those who sign the mortgage, determined with due regard to all adverse factors involved. Remaindermen will be required to sign the note when necessary for a sound loan or to obtain the required security.

(6) When the applicant is the owner of a farm, a mortgage will be taken only on the dwelling and dwelling site provided the following conditions can be met:

(i) The tract to be mortgaged must not include or be close to farm service buildings, be in a good residential location, be otherwise suitable as a residential type of nonfarm tract, provide adequate security for the loan, and be contiguous to a public road.

(ii) In all other cases, not complying with paragraph (b)(6)(i) of this section, the tract to be mortgaged must contain at least enough land to clearly provide adequate security for the loan and to make the tract readily saleable in the area.

(iii) If the tract to be mortgaged is covered by a prior lien which also applied to other land, the tract to be given as security must either:

(A) Be released from the prior lien to permit a first lien for the RH loan; or

(B) Provide adequate security for the entire prior lien debt and the RH loan, as well as comply with paragraph (b)(2) of this section.

(iv) All other requirements for a sound loan are met.

(7) For a loan of $5,000 or less and scheduled for repayment in not more than 15 years as provided in paragraph (a) of this section, the best real estate mortgage obtainable may provide security. The title requirements of Part 1809 of this Chapter will not be applicable. Applicants, however, must be owners and in no case may a loan be secured in this manner when the County Supervisor has actual knowledge that the applicant does not have mortgageable title to the property. Evidence of ownership must comply with § 1822.9(d)(2). Neither a designated loan closing attorney nor title insurance company will be used unless the loan approval official determines that the requirements of Part 1809 of this Chapter should be met to assure repayment or to accomplish the objective of the loan.

(c) *Promissory note.* A loan of not more than $2,500 scheduled for repayment in not more than 10 years from the date of the note may be made on the basis of the borrower's Promissory Note without taking other security when the County Supervisor determines after objectively evaluating all the facts that:

(1) The applicant has a good reputation for paying his debts promptly;

(2) The applicant is in a strong financial position and will have sufficient income to readily meet all his obligations; and

(3) The applicant clearly has equity in the real estate being improved with loan funds at least equal to the amount of the proposed loan.

§ 1822.11 Processing applications and county committee certification.

(a) *Applications.* Applications for section 502 RH loans will be taken on Form FmHA 410-4, "Application for Rural Housing Loan (Nonfarm Tract)," or Form FmHA 410-1, "Application for FmHA Services," and processed in accordance with Subpart A of Part 1801 of this Chapter.

(1) Builders, brokers, contractors, and others including organizations such as those providing self-help assistance who can provide complete information on the applicant and the house that is to be purchased may assist in the assembly and processing of loan applications. Builders or sellers who received conditional commitments may also assist applicants in applying for an RH loan to buy a house for which a conditional commitment was issued in accordance with Subpart H of Part 1822 of this Chapter. The County Supervisor will meet with such interested parties to explain the eligibility requirements of RH loans, the size, design, cost and location of homes that can be financed; how applications will be handled; and the type of information that must be submitted. The information to be submitted is listed in Exhibit B of this Subpart.

(2) In any case in which there may be any likelihood that the applicant could obtain the credit he needs to supplement his available resources to provide an adequate dwelling, the County Supervisor will require the applicant to make a diligent effort to obtain credit from other sources.

(i) Applicants will be expected to apply for credit from lenders engaged in extending long-term housing credit in the area.

(ii) Applicants should be advised to request lenders to indicate the amount, interest rate, and terms of housing credit they would be willing to extend to the applicant.

(iii) When appropriate, the County Supervisor should verify evidence presented by an applicant that he cannot obtain adequate credit elsewhere.

(iv) Letters from the lenders and any other evidence indicating that the applicant is unable to obtain credit elsewhere will be included in the loan docket.

(v) In no case will a loan be made to an applicant who is able to obtain the credit he needs to supplement his available assets at terms he can reasonably be expected to pay.

(3) In any case in which a County Supervisor determines there is no possibility of the applicant's obtaining adequate housing credit elsewhere and, therefore, does not require the applicant to provide evidence that he has made an effort to obtain such credit, the County Supervisor will record his conclusion and the basis for it in the loan docket.

(b) *County committee certification.* The county committee will not be used to determine the eligibility of nonfarm applicants. However, in cases where repayment of the requested loan depends

on the successful operation of a farm, the county committee will be used to determine the eligibility of the applicant, the amount of the RH loan, and whether the farm with respect to which the application is made is of such character that there is a reasonable likelihood that the purpose of the loan will be accomplished, unless use of the county committee is waived by a State regulation.

(c) *Optioning of real estate.* The County Supervisor should, if possible, prior to the applicant's selection of property he desires to purchase, advise him with respect to the size, design, quality, cost and location of the dwellings and dwelling sites suitable for the RH program. Generally, Form FmHA 440–34, "Option to Purchase Real Property," should be used; however, other option forms may be used if their provisions are acceptable.

§ 1822.12 Preparation of loan docket.

(a) *Farm and home plans or family budget forms.* Applicants who complete an application on:

(1) Form FmHA 410–4, "Application for Rural Housing Loan (Nonfarm Tract)," will also complete Form FmHA 431–3, "Family Budget," only when the following conditions exist:

(i) The family needs supervisory assistance in financial management;

(ii) The financial statement on the application is inadequate.

(2) Form FmHA 410–1, "Application for FmHA Services," will complete:

(i) Form FmHA 431–2 as prescribed in Subpart B of Part 1802 of this Chapter. When a loan is to be made to a nonoperator farmowner, the columns in Table B, "Crops, Pasture, Etc.—Production and Sales," and Table C, "Livestock and Products—Production and Sales," of Form FmHA 431–2 pertaining to the operator's share will be changed to owner's share. If an application is being considered early in the crop year for a borrower who has a current Form FmHA 431–2, such form will be revised to show changes in the financial statement and significant changes in the planned operation; however, if the crop year is well advanced or completed, a farm and home plan will be developed for the ensuing year; and

(ii) Form FmHA 431–1 will also be prepared whenever needed in accordance with Subpart B of Part 1802 of this Chapter.

(b) *Agreements from prior lienholders.* When the loan is to be secured by a junior real estate mortgage, agreements will be obtained from prior lienholders to any extent necessary to comply with § 1822.10 (b) (2), including foreclosure or assignment notice agreements in States in which they are required by a State regulation issued under § 1807.2(f) of this Chapter.

(c) *Information concerning prior mortgage.* The applicant for a loan to be secured by a junior real estate mortgage will be required to furnish the County Supervisor, before the docket is assembled, a copy of each mortgage held by a prior lienholder and, if available, a copy of each secured note or other obligation. In addition, the County Supervisor will be furnished a current statement signed by the mortgagee showing the amount of unpaid principal secured by the mortgage; the amount of any accrued interest; whether the account is current or the amount of any delinquency, with interest and principal shown separately; and, if a copy of the note is not furnished, its maturity date, payment schedule, interest rate, and a summary of any other provisions of the note. All these documents will be included in the docket for the information of the loan approval official and any cost incident to obtaining them will be paid by the applicant.

(d) *Information about cosigner.* When the note of a borrower will be cosigned by an individual or a corporation, information obtained from the cosigner will include a current financial statement, a statement of income and expenses, the nature of the cosigner's employment or business and a brief statement as to the cosigner's employment of business history. The information required from the cosigner will be supplemented by a statement by the County Supervisor as to the cosigner's financial condition and reputation for paying debts and any other information, such as a credit report, that will be of assistance to the loan approval official in determining the soundness of the loan. This information will be included in the docket.

(e) *Loan docket.* The loan docket will consist of the following properly prepared and executed forms as appropriate: Form FmHA 444–12, "Check Sheet for Rural Housing Loan Package;" Form FmHA 410–1, "Application for FmHA Services;" Form FmHA 410–4, "Application for Rural Housing Loan (Nonfarm Tract);" Form FmHA 410–5, "Request for Verification of Employment;" Form FmHA 410–6, "Applicant Reference Letter;" Form FmHA 431–2, "Farm and Home Plan;" Form FmHA 431–1, "Long-Time Farm and Home Plan;" Form FmHA 431–3, "Family Budget;" Form FmHA 440–2, "County Committee Certification or Recommendation;" Form FmHA 427–8, "Agreement with Prior Lienholder," (or similar form); Form FmHA 440–34, "Option to Purchase Real Property;" Form FmHA 424–1, "Development Plan," (including any plans, specifications, and cost estimates); Form FmHA 422–6, "Property Information and Appraisal Report (Rural Housing Nonfarm Tract);" Form FmHA 422–1, "Appraisal Report (Farm Tract)," (with attachments); Form FmHA 426–1, "Valuation of Buildings;" Form FmHA 444–6, "Interest Credit Agreement (Section 502 RH Loans);" Form FmHA 440–1, "Payment Authorization;" Form FmHA 440–3, "Record of Actions;" Form FmHA 444–2, "Housing Fund Analysis;" Form FmHA 440–35, "Acceptance of Option;" Form FmHA 440–41, "Disclosure Statement for Loans Secured by Real Estate;" Form FmHA 440–42, "Credit Sale Disclosure Statement;" Form FmHA 440–43, "Notice of Right to Rescind;" Form FmHA 400–3, "Notice to Contractors and Applicants;" Form FmHA 400–6, "Compliance Statement;" Form FmHA 440–9, "Supplementary Payment Agreement;" Form FmHA 440–45, "Nondiscrimination Certificate (Individual Housing)." Other loan docket items: Title opinion, mortgage, title policy or report of lien search, if available, foreclosure notice agreement, original or certified copy of deed, purchase contract, lease, or other instrument of ownership, information on prior mortgage and information on cosigner. When the County Supervisor is the loan approval official, he may, in lieu of including the document evidencing ownership, include a statement in the docket indicating that he has seen and reviewed the document. Estimate of the value of any security not appraised on Form FmHA 422–1 or Form FmHA 422–8.

§ 1822.13 Loan approval.

(a) *Application of authority.* The State Director, District Director, and County and Assistant County Supervisors are authorized to approve or disapprove loans in accordance with Subpart B of Part 1810 of this Chapter. However, no initial or subsequent RH loan may be approved by the State Director without the consent of the National Office if the amount of the loan plus the unpaid principal balance and any past-due interest on liens against the security for the loan would exceed $225,000. The loan docket and the State Director's recommendation should be submitted with any request for authority to approve a loan in excess of this limitation.

(b) *Limitations.* The authority as shown in Subpart B of Part 1810 of this Chapter is limited to cases in which:

(1) The proposed loan plus the total unpaid principal balance and any past-due interest on debts against the security for the loan will not exceed the prescribed loan limitation on RH loan approval authorities of various officials of the FmHA.

(2) The debt against any property taken as security for the loan will not exceed the appraiser's recommended market value of the property except in accordance with § 1822.7(e) (3).

(3) No significant changes have been made in the planned development considered by the appraiser when real estate will be taken as security.

(c) *Loan approval action*—(1) *Examination of loan.* The loan approval official is responsible for reviewing the docket to determine that the proposed loan complies with established policies and all pertinent regulations and that funds are available for the loan. In making this review, the loan approval official will determine that the applicant is eligible; funds are requested for authorized purposes only; the proposed development does not exceed authorized limitations; the proposed loan is sound; the site is suitable for the intended purpose and meets the requirements of applicable FmHA regulations; and all other pertinent requirements are met.

V 39 N 251 DEC 30 74 XUM

(2) *Approval or disapproval of a loan.* When a loan is approved, the loan approval official will:

(i) Indicate on all copies of Form FmHA 440–3 any condition that must be met before the loan is closed and specify the security requirement that the applicant will need to meet, such as a first real estate lien or a junior lien subject to certain liens and so forth. If title evidence is required in accordance with Part 1807 of this Chapter or in accordance with any special requirements for the loan but is not included in the docket, the loan may be approved subject to the applicant's furnishing the required title evidence. When the applicant furnishes satisfactory title evidence, the County Supervisor will proceed with processing the loan, except that in those cases in which the title evidence does not comply with the conditions specified by the approval official, the docket will be reconsidered by the loan approval official.

(ii) Sign the approval certification on the original only and conform all copies of Form FmHA 440–3 and insert his title in the space provided.

(iii) Sign the original and one copy of Form FmHA 440–1 and insert his title in the space provided.

(iv) If a loan is not approved after the docket has been developed, the reasons for such action will be shown on the original Form FmHA 440–3; it will be initialed and dated, and the County Supervisor will notify the applicant of the disapproval and the reasons. If the notice was not in writing, the County Supervisor will record in the running record a brief summary of the discussion with the applicant.

(3) *Distribution of docket forms.* The applicable docket forms will be distributed as outlined below by the loan approval official after a loan is approved:

(i) *To the Finance Office:*

(A) Form FmHA 440–3 (original and one copy). After being processed in the Finance Office, a conformed copy will be returned to the County Office.

(B) Form FmHA 444–2 (original).

(C) Form FmHA 440–1 (original and copy).

(ii) *To the State Office.* If the loan is approved by the County Supervisor, an unsigned copy of Form FmHA 440–3 and a copy of Form FmHA 444–2. If the loan is approved in the State Office, an unsigned copy of Form FmHA 440–3 and a copy of Form FmHA 444–2 will be retained in the State Office.

(iii) *To the borrower.* A signed copy of Form FmHA 440–1, the original of Form FmHA 440–41, and, if applicable, the original and copy of Form FmHA 440–43 and a copy of Form FmHA 440–34.

§ 1822.14 Actions subsequent to loan approval.

(a) *Requesting check.* When the loan has been approved, approval conditions can be met, any necessary curative actions have been taken to provide a satisfactory title to any real estate security, and a tentative date has been set for loan closing, the County Supervisor or his delegate will check the "Check is Hereby Requested" block of the copy of Form FmHA 440–3 for issuance of the check, sign and date the portion of the form to request the check, and send it to the Finance Office. If a real estate will not be taken as security or if real estate is taken as security and satisfactory title evidence is obtained prior to loan approval, or when the County Supervisor is reasonably certain that satisfactory title evidence can be obtained so the loan can be closed within 30 days from the date of the check, the loan check may be requested at the time of loan approval by checking the "Check is Hereby Requested" block of the original of Form FmHA 440–3 and signing and dating the portion of the form to request the check.

(b) *Handling loan checks.* (1) When the loan check or borrower's personal funds are to be deposited in the designated loan closing agent's escrow account, this will be done no later than the date of loan closing. If loan funds or borrower's personal funds are to be deposited in a supervised bank account, this will be done in accordance with Part 1803 of this Chapter as soon as possible, but in no case later than the first banking day following the date of loan closing.

(2) If a loan treasury check is received and the loan cannot be closed within 45 days from the date of the check, the County Supervisor will take appropriate action in accordance with FmHA regulations.

(c) *Cancellation of loan.* Loans may be canceled before loan closing by the use of Form FmHA 440–10, "Cancellation of Loan or Grant Check and/or Obligation," prepared in accordance with guidelines for preparation of this Form available in all FmHA offices.

(1) When a check is received in the County Office, the County Supervisor will return it, with a copy of Form FmHA 440–10 to the Regional Disbursing Center, U.S. Treasury Department, Kansas City, Missouri 64142.

(2) Interested parties will be notified of the cancellation as provided in Part 1807 of this Chapter.

(d) *Increase or decrease in amount of loan.* If it becomes necessary that the amount of the loan be increased or decreased prior to loan closing, the County Supervisor will request that all distributed docket forms be returned to the County Office. The loan docket will be revised accordingly and reprocessed.

(e) *Property insurance.* Buildings on the property which is to be taken as security for the loan will be insured in accordance with Part 1806 of this Chapter.

§ 1822.15 Loan closing actions.

(a) *Review of financial status.* The loan will be closed, based on the applicant's financial circumstances at the time of loan approval, provided the loan is closed within 90 days after approval and the County Supervisor has no knowledge of a significant change in the applicant's financial status. Further review of the applicant's financial status, therefore, is not required at the time of loan closing unless the loan is closed more than 90 days after the date of loan approval or evidence is brought to the attention of the County Supervisor or other loan closing official which indicates that the applicant's financial status has changed significantly. In cases where the County Supervisor finds that, prior to loan closing, the adjusted annual family income increased and exceeds by not more than $1,000 the limit for loans to moderate-income families for the state, as provided in Exhibit D of this Subpart, the loan may be closed provided the State Director so authorizes after he finds that the dwelling was or is being built or repaired for the specific applicant or a binding construction or sales contract for a specific dwelling has been executed by the applicant and an acceptable contractor or seller; other credit is not available for financing the property; and failure to close the loan would result in a financial hardship for the applicant. Furthermore, in cases where the loan was approved on the basis of interest credits and the County Supervisor finds that, prior to loan closing, the adjusted annual family income increased and exceeds by not more than $1,000 the limit for loans to low-income families for the state, as provided in Exhibit C of this Subpart, the loan may be closed and interest credits granted on the basis of the family's new circumstances (e.g., appropriate reduction in amount of interest credit) provided the State Director so authorizes after he determines that interest credits are necessary to enable the applicant to repay the proposed RH loan.

(b) *Preparation of note, mortgage and loan closing procedure.* Any changes made in the printed or typewritten text of any instrument by deletion, substitution, or addition (excluding filling in blanks) will be initialed in the margin by all persons signing the instrument.

(1) *Real estate mortgage.* A loan secured by a real estate mortgage (including a mortgage on a leasehold) will be closed in accordance with Part 1807 of this Chapter. Form FmHA 427–1, "Real Estate Mortgage for _____ State," will be used.

(i) For a loan secured by a mortgage on a leasehold, the following language, or similar language which in the opinion of the OGC is legally adequate, will be inserted in the mortgage just before the legal description of the real estate: "All Borrower's right, title, and interest in and to the leasehold estate for a term of __ years beginning on _____, 19__, created, executed and established by certain Lease dated _____, 19__, by _____ as lessor(s), in Book _____, Page ____, of the _____ Records of said County and State, and any renewals and extensions thereof, and all Borrower's right, title, and interest in

and to said Lease, covering the following real estate:"

(ii) For a loan secured by a mortgage on a leasehold, an additional covenant will be inserted in the mortgage to read as follows:

Borrower will pay when due all rents and any and all other charges required by said Lease, will comply with all other requirements of said Lease, and will not surrender or relinquish, without the Government's written consent, any of Borrower's right, title or interest in or to said leasehold estate or under said Lease while this instrument remains in effect.

(2) *Promissory note.* Form FmHA 440–16, "Promissory Note," will be used for loans made under this Subpart. The note will be prepared and signed in accordance with Part 1807 of this Chapter, the provisions of this Subpart concerning cosigners, § 1822.10(b)(5) of this Subpart, and the guidelines for preparation of this Form available in all FmHA offices. The payment provisions of the note will be completed in accordance with these guidelines and as follows:

(i) The monthly payment provision will be used for all borrowers who regularly receive monthly income and who can repay the loan in 12 equal monthly payments.

(ii) The annual payment provision will be used only for borrowers who do not regularly receive monthly income.

(A) The amount of the first installment will be determined by the County Supervisor after considering the immediate debt-paying ability of the borrower. The amount of the first installment may be less, but not more than a regular annual installment.

(B) The amount of the first installment may not be less than the amount equal to interest on the loan from the date of loan closing to January 1 of the calendar year following the calendar year in which the loan is closed.

(C) Form FmHA 440–9 should be used to supplement this payment provision to facilitate servicing of loans for borrowers who pay more than one time a year.

(3) *Collection of first installment.* If the annual payment provision of the note is used, the first installment of a loan closed during December will be collected at the time of loan closing. Also, for a loan to an applicant involved in an authorized mutual self-help project, the entire amount of any funds included in the loan for paying installments due during the first and second years after the loan is closed will be collected and applied as a regular payment at the time of loan closing.

(4) *Direct payments.* New borrowers, including transferees, will be provided direct payment cards and will make payments directly to the Finance Office. Borrowers incapable of making direct payments to the Finance Office will have their payments cards retained in the County Office. Payments made will be forwarded to the Finance Office with the appropriate direct payment card in the Finance Office mail. Cash payments, refunds, and extra payments made by borrowers will be handled in accordance with Part 1862 of this Chapter.

(5) *Real estate mortgage after filing* When the real estate mortgage is returned by the filing official or loan closing official, the original will be filed in the borrower's case folder. If the original is retained by the filing official in his official records, a copy conformed to show the recording data including the date and place of recording and the book and page number will be filed in the borrower's case folder. A copy of the mortgage will be delivered to the borrower.

(c) *Other actions*—(1) *Assignment of income from real estate to be mortgaged.* Unless otherwise authorized by the State Director in an individual case, income to be received by the borrower from royalties, leases, or other existing agreements under which the value of the real estate security will be depreciated will be assigned and disposed of in accordance with Subpart A of Part 1872 of this Chapter, including provisions for written consent of any prior lienholder. However, in small nonfarm tract cases, the State Director may, by State regulation, authorize withholding transmittal of assignments to lessees for execution until production is obtained. The State Director may also, by issuing a State regulation, eliminate the requirement of taking an assignment if the security is otherwise adequate; payment of the loan is reasonably assured from other sources; and the income has already been committed for other purposes or must be relied on by the applicant for essential living or operating expenses, or is so small that in the opinion of the County Supervisor the execution of an assignment is not justified. When the County Supervisor deems it advisable, in other than small nonfarm tract cases, assignments may also be taken on all or a portion of income to be derived from nondepleting transactions such as income from bonus payments or annual delay rentals which will be assigned and disposed of in accordance with Subpart A of Part 1872 of this Chapter.

(i) For assignment of income, Form FmHA 443–16, "Assignment of Income from Real Estate Security," will be used except that if the form is legally inadequate in a particular State it may be revised as needed with the approval of the OGC.

(ii) The County Supervisor, upon advice of the designated attorney, title insurance company, or the OGC, as appropriate, may require acknowledgement and recordation of the assignment. Any cost incident thereto will be paid by the borrower.

(iii) At the time Form FmHA 443–16 is executed, appropriate notations will be made on Form FmHA 405–1, "Management Systems Card—Individual (Rural Housing Only," to insure that the proceeds, or the specified portion of the proceeds, assigned to FmHA from the transactions are remitted at the proper time.

(2) *Owner's policy of title insurance.* If an owner's policy of title insurance is obtained, it will be delivered to the borrower as soon as it is received from the title insurance company.

(3) *Effective date of loan closing.* A loan secured by a real estate mortgage is closed when the mortgage is filed for record. In other cases a loan is closed when the borrower executes the note and any other required instruments.

(4) *Water stock certificates or other such collateral.* When water stock certificates or other such collateral are part of the security, they will be retained in the County Office. A notation will be made on Form FmHA 405–1 or Form FmHA 405–5, as appropriate, showing that such security has been retained.

(5) *Account record and case folder.* The account and case folder will be established in accordance with FmHA regulations.

§ 1822.16 Rural Housing Disaster loans.

(a) Rural Housing Disaster (RHD) loans may be made to applicants meeting the eligibility requirements of § 1822.4 to repair or replace dwellings which were damaged or destroyed by a natural disaster such as earthquake, flood, forest fire, severe windstorm, or lightning which occurred after November 1, 1974, as follows:

(1) Loans may be made to eligible nonfarm families who owned and personally occupied the dwelling as their permanent residence provided the loss was not the result of a major disaster designated by the President or a natural disaster designated by the Administrator of the Small Business Administration.

(2) Loans may be made to eligible farmers to repair or replace their dwellings provided the loss was not the result of a major disaster designated by the President or natural disaster designated by the Secretary of Agriculture.

(b) *Repair or replacement of buildings.* Repair or replacement of any damaged or destroyed building must be consistent with the basic Section 502 loan policies. Changes may be made in the building, but in any case the repaired or replaced building should not be significantly larger or more costly than the original building except as necessary to provide a building which is adequate but modest. No new dwelling constructed will exceed the limit established by § 1822.7 (b)(1) of this Subpart.

(c) *Interest rate and source of funds*—(1) *Interest rate.* RHD loans will be made at an interest rate of 5 percent.

(2) *Source of funds.* Insured loan funds will be used for RHD loans.

(d) *Approval authorization.* The State Director, County and Assistant County Supervisors are authorized to approve RHD loans in accordance with Subpart B of Part 1810 of this Chapter for section 502 RH loans. A disaster loan will be approved only after the loan approval official determines that the loss or damage was due to a natural disaster which occurred after November 1, 1974; the disaster loan application was filed within

XUM
V 39 N 251 DEC 30 1974
XUM
V

12 months after the date the loss occurred; the applicant is using his available assets, including insurance loss payments, and other assistance to the extent available to repair or replace the damaged or destroyed buildings.

(e) *Nature of loss.* On Form FmHA 440–3, each case will be identified by checking "other" in the "Type of Assistance" block and inserting "RHD" in the space provided.

(f) *Deferred payments.* The initial payments of principal but not interest may be deferred so as not to become due until as late as the third January 1 after the date of loan closing subject to all of the following conditions:

(1) The applicant, as a result of the loss suffered from the disaster, has had a substantial loss of income; or his necessary debts, including the proposed RHD loan, have increased substantially as a result of the disaster.

(2) The income loss or increase in debts must be sufficiently great so that the applicant will not likely be able to pay in full the installments that ordinarily would be due during the proposed deferment period and also meet his other necessary obligations.

(3) The applicant's other debts have been adjusted by reduction, reamortization, extension, or other means to the extent possible by negotiation with other creditors.

(4) The applicant's income will be sufficient after the deferment period to enable him to meet the payments on the RHD loan and all his other obligations.

§ 1822.17 Subsequent Section 502 loans.

A subsequent Section 502 loan is a Section 502 loan made to a borrower who has an existing Section 502 RH loan. Subsequent loans may be made for the same purposes and under the same conditions and limitations as initial loans, except as provided in this Section.

(a) The subsequent loan will be processed in the same manner as initial loans, except that a new appraisal report will be required only when real estate will be taken as security and at least one of the following exists:

(1) The property was not appraised in connection with the initial loan.

(2) The latest appraisal report of the real estate is over 2 years old.

(3) The physical characteristics of the property have changed significantly.

(4) The County Supervisor or loan approval official requests a new appraisal report.

(b) A subsequent RH loan made on a note-only basis, provided the amount of the subsequent loan plus the unpaid principal balance of any prior note-only RH loan or loans, does not exceed $2,500.

(c) When a real estate mortgage is required in connection with a subsequent RH loan, any outstanding RH notes will be described in the mortgage.

(d) The subsequent loan will bear interest at a rate determined in accordance with Subpart A of Part 1810 of this Chapter. It will not necessarily be the same rate as charged on the initial loan.

§ 1822.18 Reamortization of existing FmHA debt(s).

In connection with making an RH loan to a borrower currently indebted for an FO, RH, RL or SW loan, such loans may be reamortized with the prior authorization of the District Director. Authority to reamortize an account will be granted in those cases in which it is determined the borrower cannot reasonably be expected to meet the installments due unless the account is reamortized. When a loan is reamortized, it will be processed in accordance with § 1861.9(e) (i) of this Chapter.

EXHIBIT B—INFORMATION REQUIRED TO PACKAGE APPLICATIONS FOR SECTION 502 RURAL HOUSING LOANS

1. *General Information.* Persons or organizations that want to assist applicants in submitting applications to the Farmers Home Administration (FmHA) should first meet with the County Supervisor. If these discussions indicate that the person or organization is capable of satisfactorily delivering complete information about applicants and houses that are likely to qualify for Rural Housing (RH) loans, the County Supervisor will review in detail the information that is needed and the processing steps required in completing an RH loan. The County Supervisor will provide assistance and guidance to all packagers in obtaining the required information. The guide "Packaging Applications for Rural Housing Loans" and the following FmHA Forms and regulations may be provided to prospective packagers as needed:

(a) Form FmHA 444–12, "Check Sheet for Rural Housing Loan Package."

(b) Form FmHA 410–4, "Application for Rural Housing Loans (Nonfarm Tract)."

(c) Form FmHA 410–1, "Application for FHA Services."

(d) Form FmHA 410–5, "Request for Verification of Employment."

(e) Form FmHA 422–6, "Property Information and Appraisal Report—Rural Housing Nonfarm Tract."

(f) Form FmHA 424–2, "Dwelling Specifications."

(g) Form FmHA 440–34, "Option to Purchase Real Property."

(h) Subpart L of this Part, "Fair Housing Marketing."

2. *Information packager or applicant must provide.* (a) *Information to be submitted for all applicants.* (1) The applicant family should complete the appropriate application form as prescribed in Subpart A of Part 1801 of this Chapter.

(i) All information on the form must be complete and accurate.

(ii) If the applicant obtains income from his own business, the current operating statement must be attached.

(iii) The application form must be dated and signed by the applicant.

(2) Form FmHA 410–5 will be used to check employment and income on applicants. The Form should be mailed to the employer to be completed and returned directly to the County Office. FmHA will not provide franked envelopes for this purpose unless the form is sent to the employer directly by the County Supervisor.

(3) In cases where it appears that the applicant has sufficient income or assets to qualify for housing credit from another source, he must make a diligent effort to obtain such credit from at least two lenders who customarily make long-term housing loans in the area. If such lenders are unable to provide the credit needed, their written response stating why they cannot assist the applicant should be included in the loan package.

(4) The information specified in paragraph 2.(b) or 2.(c), whichever is applicable, will be submitted. In case FmHA has issued a conditional commitment on the property, information on the house will be on file in the County Office and need not be resubmitted.

(5) If a house to be purchased is under construction, the loan will not be closed until it is completed. In a such a case the information in paragraph 2(c) will be submitted.

(b) *Information to be submitted for loans to build or rehabilitate homes.* The information requested on the front page of Form FmHA 422–6 will be submitted along with the completed Form. This applies regardless of whether a conditional commitment is being requested in connection with the package. When Form FmHA 424–2 is completed, item 31 of the Form should include a complete description of the foundation plantings, trees, seeding or sodding that are included in the contract.

(c) *Information to be submitted for loans to buy existing homes.* (1) A signed or certified copy of an option on the property. The option must provide that any payments made by the applicant will be refunded if the loan is not made. From FmHA 440–34 may be used for this purpose.

(2) A termite certification whenever required.

(3) In case major improvements are involved, submit three sets of complete drawings and specifications of the work that must be done, and a contractor's bid or a reliable cost estimate.

(4) If the house is under construction or less than a year old and an individual water or sewage system is involved, include a certification by the builder that the house and any water and waste disposal system have been or will be built or installed in accordance with the local building codes and plans and specifications. Such plans and specifications will also be submitted. Evidence of approval by health authorities having jurisdiction in the area also will be included. If the house is a year or more old, the County Supervisor will satisfy himself that the water and/or sewage system is functionally adequate.

(5) Form FmHA 422–6 with Part I completed. Also the information concerning the applicant's name and address on the bottom of the first page should be completed.

(6) Direction map to the property.

(7) Plot plan drawn to scale showing house location and related facilities.

3. *Review and acceptance of completed package.* During the initial discussions an agreement should be reached with packagers that loan packages will be delivered to the County Office assembled in the order shown on Form FmHA 444–12. This form must be signed by the packager and be attached; otherwise, the packaged application will not be accepted. The County Supervisor should review each loan package when it is submitted and request any additional information needed. If the applicant is not present when the application is presented, the County Supervisor ordinarily will not proceed with the processing of the loan until the applicant family has been interviewed. The County Supervisor, however, will in all cases, interview the applicant prior to approving the requested loan in order to reach a proper understanding with the applicant as to the basic loan making and servicing policies, the responsibilities of borrowers, and the benefits which may be expected from FmHA assistance.

(a) If the applicant appears to be qualified and all needed material is available, the County Supervisor will complete an appraisal

of the property and the processing of the application.

(b) If a loan can be approved, the County Supervisor will notify the applicant and inform him of any requirements that must be met prior to closing the loan. If for any reason a loan cannot be made, the County Supervisor will notify the applicant and the packager. Applicants should also be informed that in these cases, they should visit the County Office if they have any questions about the actions taken on their loan applications.

4. *Packagers' responsibilities.* Packagers should fully understand their responsibilities in helping applicants to assemble their RH loan applications. They should also understand that no fees may be charged for providing this service.

5. *District directors' review of loans originated by application packers.* District Directors are responsible for reviewing the file of a representative number of borrowers whose RH application was submitted to the County Office by a packager. At least 5 percent of the cases packaged by each packager working in the county will be reviewed. The folders reviewed will be randomly selected and reviewed at scheduled office visits throughout the year. The review will be made to determine whether: The applicant's income was properly verified; any credit report received was mailed from the Credit Reporting firm directly to the County Supervisor; the County Supervisor interviewed and counseled with the applicant prior to loan approval; the applicant was eligible for the RH assistance granted; and the loan was in accordance with FmHA procedures. Any incidence of unethical activity by a packager or the approval of improper loans by a County Supervisor will be reported promptly to the State Director for appropriate handling.

(a) A report on packaging activity will be submitted annually for each County Office with Form FmHA 401-1, "Operations Review Questionnaire." The report will indicate:

(1) The number of packagers submitting loan dockets; and

(2) The number of loan dockets reviewed; and

(3) The number of cases where the packagers submitted inaccurate information about a loan applicant, and

(4) The action taken to further train packagers or to suspend, or debar packagers from further participation in FmHA programs because of repeated failure to provide accurate information about loan applicants, or because a packager falsified information he submitted for an applicant.

(b) The State Office will prepare a summary for the State and include it with the operation review summary.

EXHIBIT C—MAXIMUM ADJUSTED INCOME FOR LOW-INCOME FAMILIES

State:	Maximum adjusted income
Alabama	$ 8,500
Arizona	8,500
Arkansas	8,500
California	8,500
Colorado	8,500
Connecticut	8,500
Delaware	8,500
Florida	8,500
Georgia	8,500
Idaho	8,500
Illinois	8,500
Indiana	8,500
Iowa	8,500
Kansas	8,500
Kentucky	8,500
Louisiana	8,500
Maine	8,500
Maryland	8,500
Massachusetts	8,500
Michigan	8,500
Minnesota	8,500
Mississippi	8,500

Puerto Rico	10,200
Virgin Islands	12,900

EXHIBIT E—INTEREST CREDITS

1. *Purpose.* This Exhibit outlines the policies and conditions under which interest credits will be allowed on section 502 RH loans.

2. *Definitions.* As used in this Exhibit:

(a) "Borrower" means an RH borrower who has a low income and is indebted for a section 502 insured loan that was approved on or after August 1, 1968.

(b) "Interest Credit Agreement" means an agreement between Farmers Home Administration (FmHA) and the borrower executed on Form FmHA 444-6 of Form FmHA 444-A6, "Interest Credit Agreement (Section 502 RH Loans)," which provides for interest credits on his loan.

(c) "Review period" means the months of August, September, and October for all borrowers who signed annual installment Promissory Notes and are not now receiving interest credit or whose Interest Credit Agreement expires December 31. The "review period" for borrowers who signed monthly installment Promissory Notes will be the third, fourth, and fifth months prior to the expiration date of the existing Interest Credit Agreement or the anniversary date of the initial loan if the borrower is not now receiving interest credits.

(d) "Substantial change" means a change in a borrower's circumstances that warrants a review of his situation before the next scheduled review period. A change includes, but is not limited to, events such as:

(1) Either his current family income has been significantly reduced or increased; or his family size has changed; and

(2) As a result of either change in income or family size or both, the annual interest credit to which he would be entitled has been increased or decreased by at least $100. "Substantial change" does not apply to circumstances that warrant cancellation of an agreement in accordance with paragraph 8. (a) of this Exhibit.

(e) "Real estate taxes" for interest credit purposes means the amount of real estate taxes and assessments that will be actually due and payable on the dwelling and the dwelling site reduced by the amount of any tax exemptions available to the borrower regardless of whether such exemptions are actually claimed and received. Tax exemptions may include such things as homestead exemptions, special exemptions for low-income families, senior citizens, veterans and others.

(f) "Monthly payment borrowers" are those who have signed monthly payment notes and should receive monthly Interest Credit Agreements.

(g) "Annual payment borrowers" are those who have signed annual installment notes and should receive annual interest credit. This includes borrowers converted to monthly payments.

3. *Eligibility for interest credits.*—(a) *Initial loans.* An interest credit may be granted to a qualified borrower provided:

(1) He meets the eligibility requirements of a section 502 RH loan, can qualify for an interest credit under this Exhibit, and, as a general rule, has a low income and a low net worth. Interest credits for applicants with incomes or net worths somewhat above the low level may be justified under subdivisions (i) and (ii) of this subparagraph. In determining whether an applicant is entitled to an interest credit, the current family income information must be correct,

XUM
V 39 NO 251 DEC 30 1974
XUM

the computations must be accurate, and care must be taken to exercise good judgment.

(i) In no case will an interest credit be made to a borrower whose adjusted annual family income exceeds the limit established for the State as indicated in Exhibit C of this Subpart, unless exceptions are authorized by the State Director in accordance with § 1822.15(a) or by the National Office.

(ii) No Interest Credit Agreement may be entered into with an applicant who has a net worth of more than $5,000, excluding the value of household goods and the debts against them, without prior authorizations from the State Director. For the purpose of determining whether exceptions are justified, the State Director will consider the nature of assets, particularly whether they are assets upon which an applicant, such as a farmer, is currently dependent for a livelihood or which could be used to reduce or eliminate the need for an interest credit. Elderly families will be permitted to retain a reasonable reserve for necessary health and maintenance expenses.

(2) The loan is approved on or after August 1, 1968.

(3) The loan is to buy, build or improve a home and related facilities, including a building site, or to refinance debts as authorized in § 1822.7(c).

(4) The home will be personally occupied by the borrower and his family.

(5) The home is modest in size, design and cost. A family with an income so low that it is unable to make the monthly or annual installments on an RH loan without interest credit assistance cannot afford a large or elaborate home. The interest credit assistance is designed to help a family have a decent home but it must not be used to finance housing in excess of the actual basic needs of the family nor should it include desirable but unnecessary features or amenities.

(6) The loan will be amortized over 33 years unless authorized otherwise by the State Director based on complete documents of the justifiable reasons on individual case basis. In no case will interest credits be granted on a loan being made which is amortized for less than 25 years.

(7) The amount of the interest credit will exceed $60 annually or $5 monthly.

(b) *Subsequent loans.* For subsequent loans, interest credits are authorized in the following types of situations:

(1) For a borrower who has an initial loan with or without interest credits, an Interest Credit Agreement can be executed at the time the subsequent loan is closed and will be prorated to both loans. In such cases, any existing Interest Credit Agreement will be canceled and the new Interest Credit Agreement will become effective on the date the subsequent loan is closed. The expiration date of the new Interest Credit Agreement will be:

(i) The second December 31 after the date of the agreement for annual installment notes.

(ii) The second yearly anniversary date of the initial loan after the date of the agreement for monthly installment notes.

(2) For an eligible applicant buying a house out of inventory, a transferee eligible for interest credits who is assuming a loan made to a low- or moderate-income borrower which was initially approved on or after August 1, 1968, and for a transferee eligible for interest credits who is assuming a loan made to a low- or moderate-income borrower which was initially approved prior to August 1, 1968, provided the assumption is being made on new terms, interest credit assistance may be provided, at the time of loan closing on both the credit sale loan or loan being assumed and the subsequent loan.

(3) For a borrower who has an initial loan approved prior to August 1, 1968, interest credit assistance may be provided only on the subsequent loan.

4. *Interest credits for existing loans*—(a) *Review of outstanding interest credit agreements expiring during the current calendar year.* A new Interest Credit Agreement may be executed during the review period for a borrower whose Interest Credit Agreement is expiring provided:

(1) The borrower meets the eligibility requirements outlined in paragraph 3. of this Exhibit, except that:

(i) The amount of a borrower's net worth will not be considered unless the County Supervisor has knowledge that the family's net worth has increased sufficiently to enable him to graduate to other sources of credit.

(ii) For a family whose adjusted income exceeds the limit established for the State as indicated in Exhibit C of this Subpart:

(A) The amount of interest credit for which the family qualifies exceeds $100 annually; and

(B) Their adjusted family income does not exceed the maximum moderate-income limit established for the State.

(iii) The provisions of paragraph 4.(a)(1)(ii) also apply to borrowers whose Interest Credit Agreements were previously terminated because their adjusted family incomes exceeded income limits for interest credits provided the borrower is experiencing difficulty in meeting payments due and requests further interest credit assistance.

(2) Current and accurate information is obtained about the borrower's family income. Verification of income from salary or wages will be obtained by using Form FmHA 410–5, "Request for Verification of Employment."

(3) None of the conditions outlined in paragraph 8. (a) of this Exhibit exist.
